Welcome Address by the President

Dear students,

I welcome you at the DHBW Loerrach!

More than 34,000 students are enrolled at the 9 locations of the DHBW. The number of companies and institutions, which are collaborating with the DHBW state university system exceeds 10,000.

DHBW Loerrach is a very special location. Our 2,100 students appreciate the chance to study at a modern campus in a very international environment in the heart of Europe. It is not only that Loerrach is just a bike-ride away from both Switzerland and France. Internationalization is more than a keyword of our strategy, demonstrated by tri- and binational study programs, Business Management courses in English language and collaborations with more than 40 universities worldwide. The students come from nearly 45 countries and this, too, contributes to the international environment of the DHBW.

We believe in the importance of an international experience and intercultural competence of every student. This prepares the students to act and work in a globalized world.

One of our top priorities is on the one hand to develop student mobility and on the other to make our international

students feel at home at the campus and in the city of Loerrach.

We wish you a wonderful and exciting time at DHBW Loerrach.

President DHBW Loerrach

About the DHBW Loerrach

Baden-Wuerttemberg Cooperative State University (Duale Hochschule Baden-Württemberg / DHBW) is the first higher education institution in Germany which combines on-the-job training and academic studies and, therefore, achieves a close integration of theory and practice, both being components of cooperative education.

The dual training system is based on the regular shift between academic studies at the university and practical training at the individual company. That means, students are not only taught theoretical knowledge, but also learn to apply this knowledge in practice.

As one of the nine locations of the DHBW, Loerrach offers a broad range of undergraduate study programs in the fields of business and engineering. All degree programs are both nationally and internationally accredited, count as intensive study programs and students acquire 210 ECTS credits.

 **85 % of the DHBW students, who complete their studies and achieve a Bachelor's Degree, get the offer of a contract of employment by their partner companies.**

Courses

All courses at the DHBW Loerrach start on October 1st each year. As our programs incorporate theory and practice, our academic year is divided into 3–4 quarters, where students alternate between studying on campus and working in a partner-company. International students have the chance to acquire up to 30 ECTS during one quarter. Students from any of our partner-universities are exempted from the payment of tuition fees at DHBW.

✈ **We also offer a program for international and German students, which is entirely taught in English:**

The Two Campuses

DHBW Loerrach has two campuses: one at Hangstrasse and another one, the so called „KBC“, at Marie-Curie-Strasse. The Hangstrasse campus is located on a hillside over-looking the city of Loerrach and houses the canteen and the main library. It also features our most up-to-date and advanced technological labs, utilized by both engineering and business students.

The KBC is DHBW Loerrachs original campus. KBC provides facilities for many business students. The office of the president of the DHBW Loerrach is located at KBC, too. The KBC is home of the International Office, Language Competence Center and the Administration Department.

Although we have two campuses, we are a relatively small university with just about 2,100 students. This makes the learning environment cozy and friendly. This is a great benefit for our students, as lots of the classes take place at KBC. Moreover, all students receive more guidance and attention.
