TIP

STUDY ABROAD MYTHS

STUDY ABROAD PARTICIPANTS MUST SPEAK ANOTHER LANGUAGE.

Students are not required to speak a second language to study abroad. Most programs offer courses taught in English even in nonEnglish-speaking countries.

STUDY ABROAD IS NOT AFFORDABLE.

Many programs are similar in cost to a semester at Grand Valley, some are less expensive, and others considerably more expensive. Financial aid, scholarships, and grants can help cover study abroad program costs.

STUDYING ABROAD WILL DELAY MY GRADUATION.

Careful program and course selection allow a student to stay on track with degree progress. Students should talk to their study abroad adviser and academic adviser about making an academic plan.

STUDYING ABROAD IS NOT RELEVANT TO MY FUTURE CAREER.

Employers are increasingly realizing the value of candidates with the maturity, flexibility, and intercultural competence developed during study abroad. In our global economy, international experience will help students be competitive in the job market.

STUDY ABROAD IS NOT FOR NONTRADITIONAL STUDENTS.

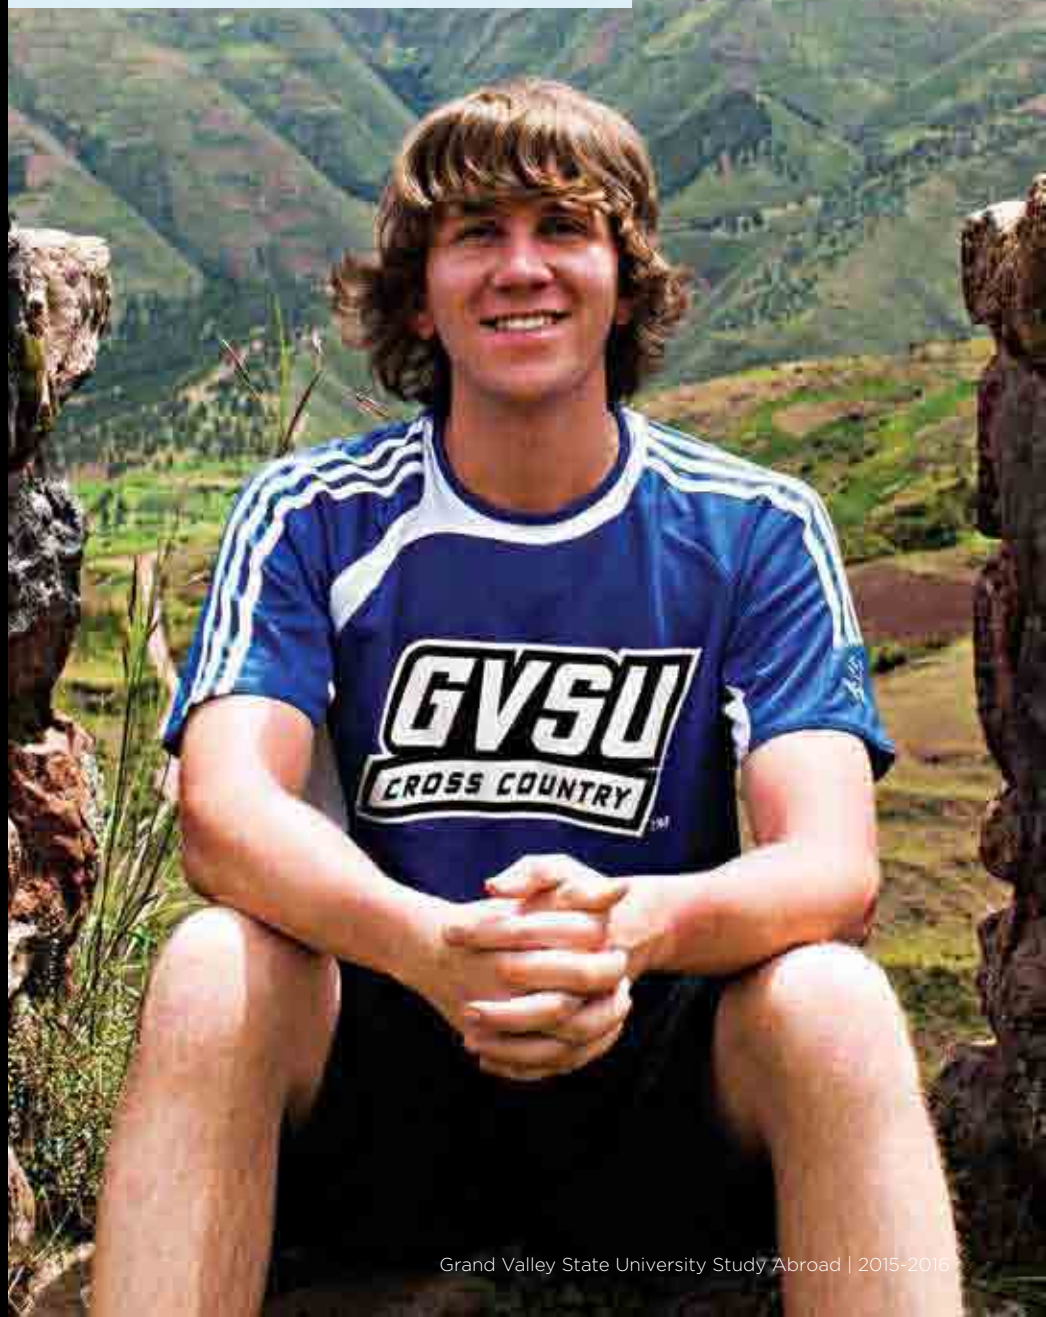

PIC is committed to helping students find a program that accommodates time restraints and family/professional obligations. Many nontraditional students choose to participate in faculty-led programs, which range from two to eight weeks in duration.

“Before leaving the United States, my aspirations for a career in global health were solely based on theory and had no experiential basis. My experiences in Peru developed my passion for working with marginalized populations across the globe and equipped me with the skills to make an impact.”

MICHAEL DYKSTRA

PERU, 2014

PHYSICS MAJOR (premedical)

"The opportunity to study abroad in El Salvador was a life-changing experience. I was afforded the opportunity to learn more of the Spanish language, understand how higher education differs in Latin America, and work hands-on in the communities."

CHOOSING A PROGRAM

There are a number of program features to consider when browsing through program options.

To help narrow things down, consider what the program package offers, based on:

"Although my time in Africa was short, I feel as if I gained a lifetime of experiences. Exploring Kruger National Park, camping on the ocean in Mozambique, staying in the homes of villagers in South Africa, and touring Cape Town were all beautiful parts of my trip, but the lasting impacts that these experiences have had on me are what I will remember most when I recall my time abroad."
