- VI. Next meeting: Friday, January 29, 1:30 – 3:00 PM

[see DRAFT M/V/V below]

Draft Mission/Values

January 2021

Mission Statement

Grand Valley State University: transforming lives, professions, and communities through an inclusive and inquiring learning community.

Values

Community is an important value to GVSU, both to the institution, and to the region and world in which we live out the institution's mission. We aspire to fostering and sustaining communities that are inclusive of all perspectives and individuals, demonstrate reciprocity, and actively lift up all voices in an equitable way. Students, faculty, and staff experience community on our physical campuses and in digital environments, as well as partner with individuals, groups, and institutions across Michigan and the wider world.

Inquiry is active questioning and problem solving to improve lives and communities. Building on our strong foundation of a liberal education, we strive to provide relevant experiential

opportunities that integrate the liberal arts in professional contexts. Active scholarship, expression, and innovation leads to fulfillment, prosperity, and justice.

Integrity drives us to be accountable to ourselves and to others. It moves us to actively pursue and sustain our educational mission, and be excellent stewards of our communities, our resources, and our planet.

Vision

GVSU has a reputation for, and is actively developing:

1. A high-quality learner centered education that integrates a liberal education foundation with experiential learning and focused professional training with career- and life-connected skills. Learners possess agency of their own learning which is available over a lifetime.
2. A new equity that provides opportunities for learners who have historically been excluded from higher education. This equity includes access to degree programs, high-impact learning experiences, career enhancement, and lifetime learning with equitable outcomes through enhanced opportunities, new supports, and unparalleled experiences.
3. Resilient graduates who are prepared to lead and succeed through change in their careers and communities.
4. Opportunities that serve learners when and where they are – leveraging our multi-campus and digital opportunities.
5. A university and learners that are agile and embrace a growth mindset aligned with a future of rapid change
