Recommendations from Faculty

- Some of the general education requirements offer an Economics option. These can count in your Business Economics major. Examples are World Perspectives and one of the required Issues courses.
- Students are not recommended to take Economics 312 and 313 in the same semester.
- Students with a 3.2 or higher GPA may add an Honors emphasis to their Business Economics major. Contact the department chair for more information.
- Get involved with Economics clubs such as Economics Club of Grand Valley. The Club conducts numerous social and scholarly activities throughout the year, including current events panel discussions, job and internship opportunities updates, explorations about graduate and professional school opportunities, and field trips.
