

Embedding a Google Form in Blackboard

1. Login to your Google account and open your Google Drive. Click on **New** then **Google Forms**.

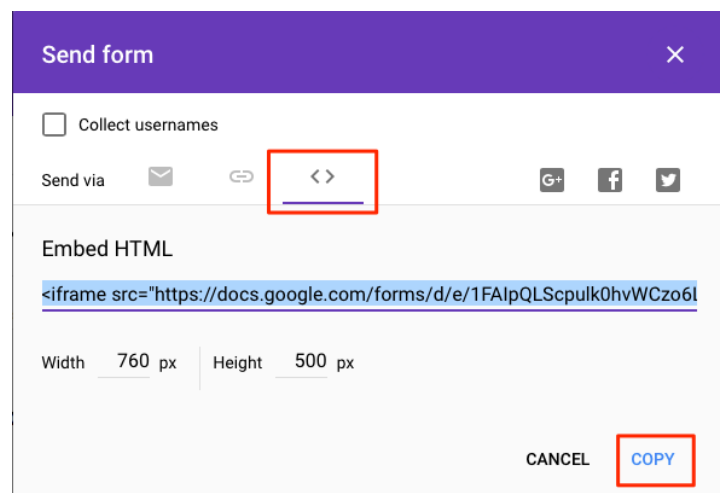

2. Create your form. For more instructions on creating Google Forms, visit: <https://gsuite.google.com/learning-center/products/forms/get-started/#section-1-1>.

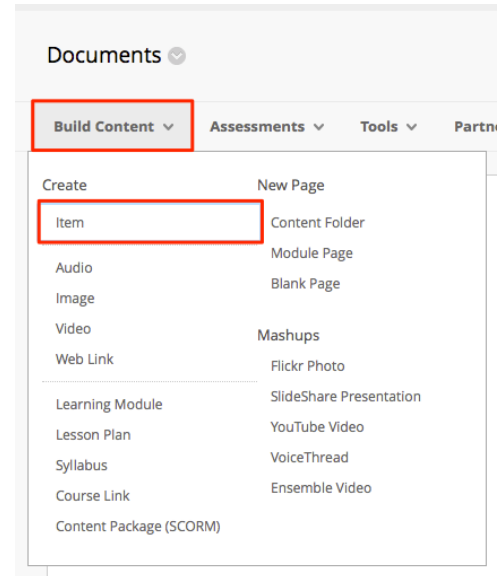

3. Select **Send**

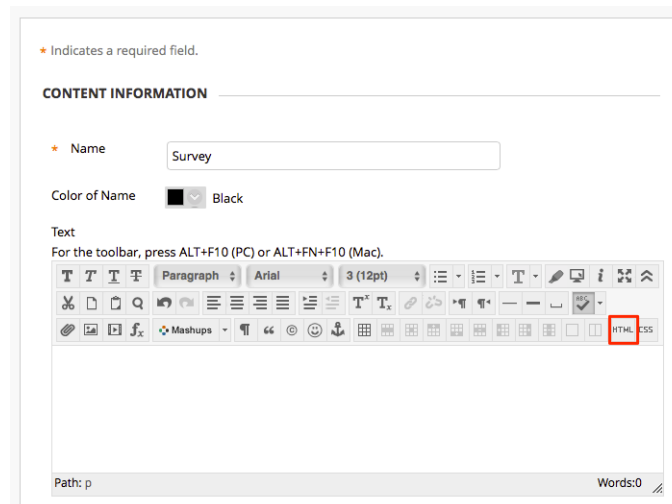

4. Click the HTML tab and select **COPY**

5. Navigate back to your course in Blackboard where you want to insert the form.
6. Go to the content area where you want to add the form (Documents, Assignments, etc.)
7. Click **Build Content**, and then select **Item**

8. In the text editor, click **HTML**

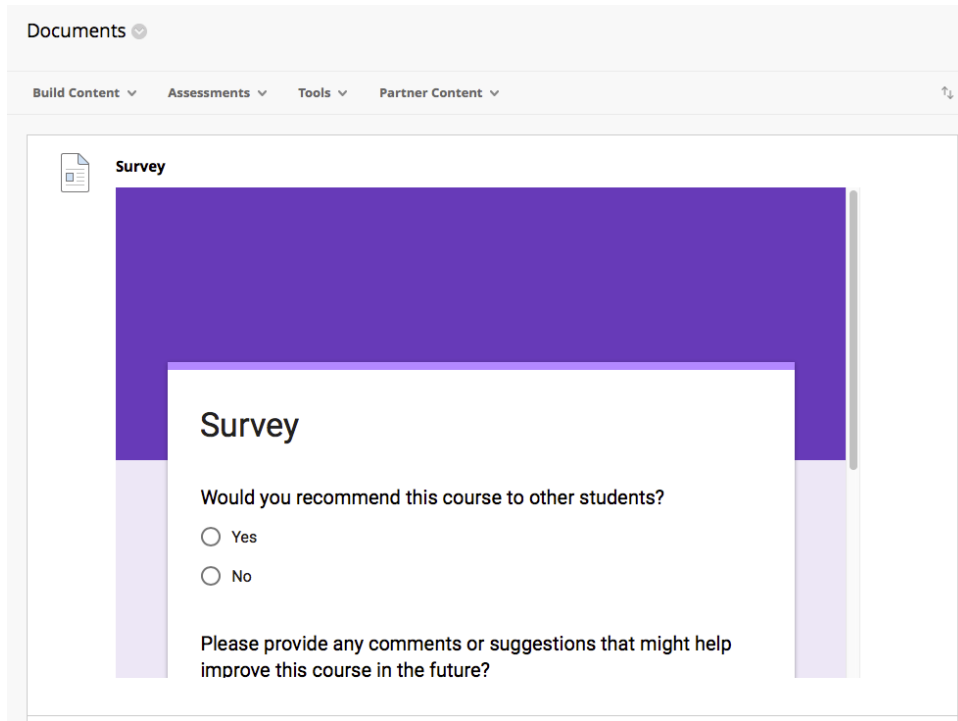

9. This will open up a new window. Paste the embed code into the box and click **Update**.

10. Select **Submit** when finished

11. The form is now embedded in Blackboard. The form will appear like the example below.

The image shows a screenshot of a Blackboard document viewer. At the top, there is a header with the text "Documents" and a dropdown arrow. Below this is a navigation bar with four menu items: "Build Content", "Assessments", "Tools", and "Partner Content", each with a dropdown arrow. On the right side of the navigation bar is a small icon of a double-headed arrow. The main content area is a document viewer titled "Survey" with a document icon. The document content is a survey form with a purple header. The form text reads: "Survey", "Would you recommend this course to other students?", two radio button options labeled "Yes" and "No", and a text input field with the prompt "Please provide any comments or suggestions that might help improve this course in the future?".
