How to Follow Someone

Q: What does it mean to follow someone and how do I do that?
A: Following someone means you want all the messages someone writes to appear on your feed, in order to see everything they write.

Step 1. You may search someone by using the search bar on the top left hand side, or you can scroll through “All Company”.

Step 2. Roll the mouse over the person’s name you wish to follow and click “Follow”

You are now following someone, and will see their messages.
