

How to Install Blackboard Collaborate Launcher for Mac's with Safari

To begin. **Use Safari to log into Blackboard**

These instructions are for Safari. This is a one-time requirement to get the Collaborate Launcher on your machine. Once the Launcher has successfully been added you will be able to use Safari with only clicking on the Launch Room button

In your Blackboard course, go to the link provided by the instructor for the Collaborate Session.

Examples

	 Office hours	Monday, December 16, 2013 11:00:00 AM EST
	 Online course meeting	Monday, December 16, 2013 11:00:00 AM EST

Mac's need the Collaborate Launcher to access the webinar. To get the launcher, click Collaborate Launcher in the Room Details screen

Room Details
*Click **Launch Room** to enter a room. The **Launch Room** function only appears if the session is ready to be launched. Provide the guest URL to unregistered users you want to invite to your session.*

Mac OS X 10.8.4 Users: The Collaborate Launcher is now available! Please see [Launcher Quick Reference Guide](#). If you are joining via Blackboard Learn, [click here for assistance](#).

Launch Room

Collaborate Session not Launching? You may need **Collaborate Launcher**.

Click Download launcher:

Collaborate Launcher

We have detected that your operating system requires that you download Collaborate Launcher. How does this work?

1. Download Zip Package

2. Unzip Zip Package

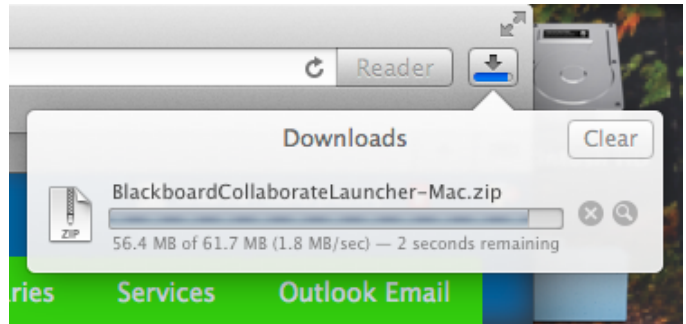

I already have this, Launch

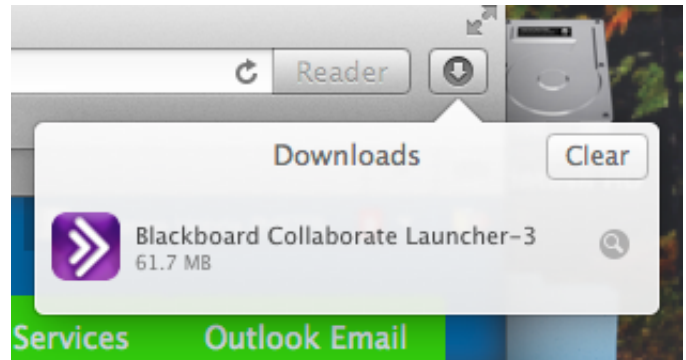

Download Launcher

[Learn more about Collaborate Launcher.](#)

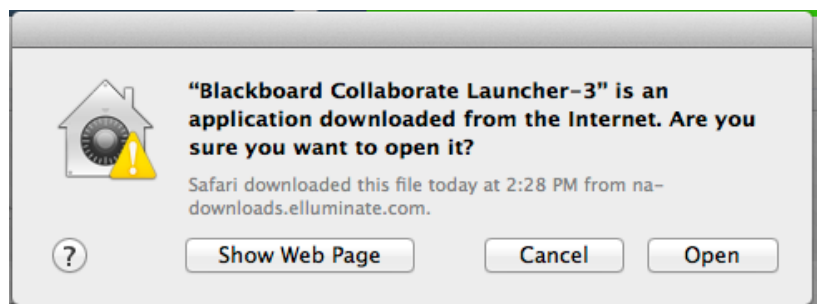

In Safari note the upper right corner. You will see the download progress from having clicked Download Launcher.

Once it has finished downloading, Double Click on the Purple chevron to run the launcher.

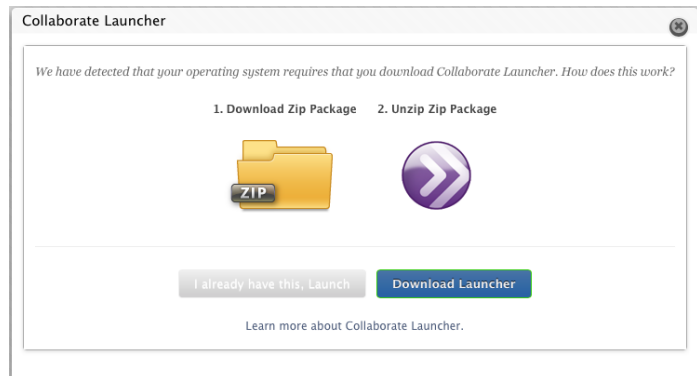

Click Open

Close the following window (information only)

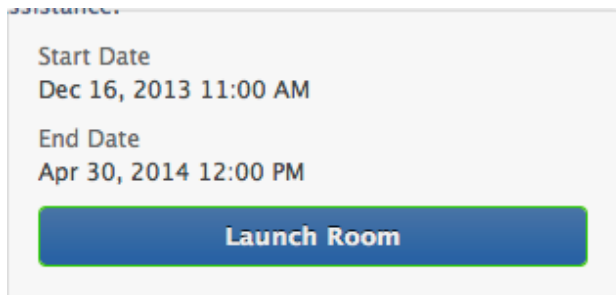

Close the Collaborate Launcher screen.

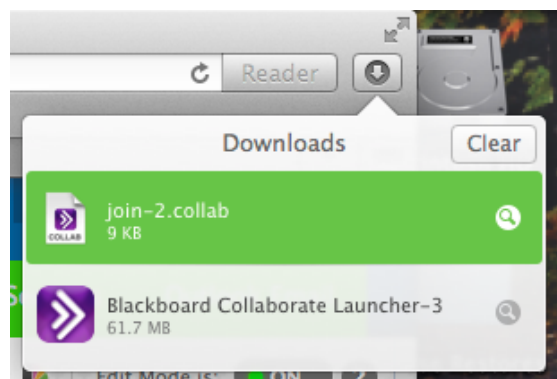

Collaborate Launcher has now been installed on your machine. You will be able to just click Launch Room from now on in Safari

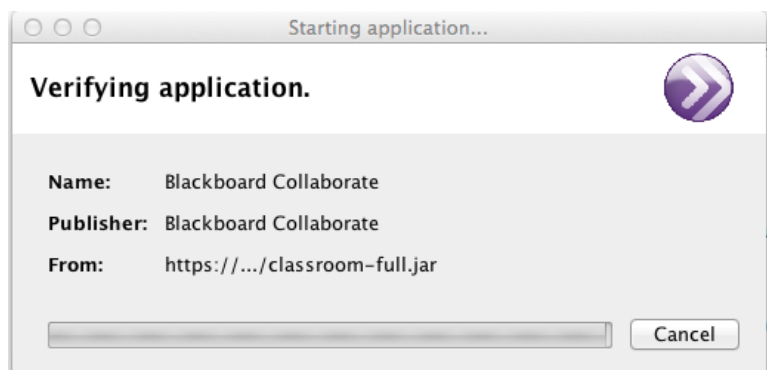

In original BB window select launch room button:

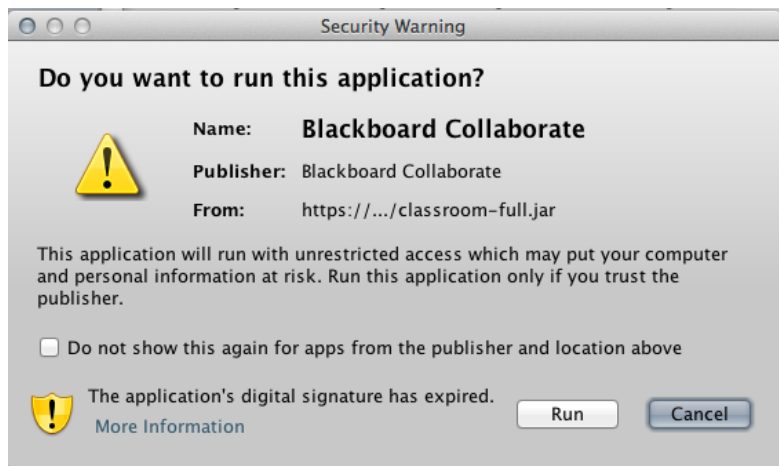

Select jnlp file in downloads:

This screen will appear:

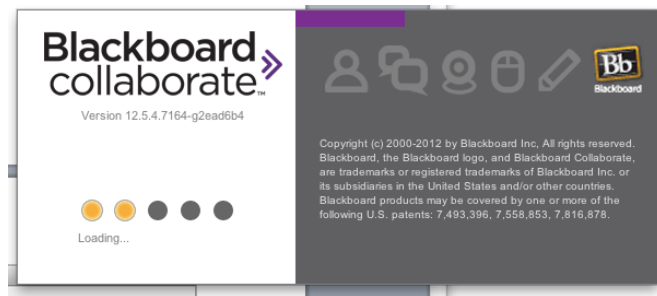

And then it will ask you to run application on a new window:

Select run

Application will load:

If you see this screen you have started multiple sessions. Close All items related to Collaborate and start again. Make sure you click only the latest Join file
