Open, Remote, Cancelled, Closed

Open: The University's normal operating condition. Students, faculty and staff should assume the university is open unless advised otherwise.

Remote: The most common reason to shift to remote status would be for weather related reasons. Classes will shift to remote delivery whenever feasible. Classes that cannot be delivered remotely will not be held.

Classes Cancelled: Only classes are cancelled. The remainder of the University is open as normal.

Closed: Classes and campus events will not be held. The university would normally only close for significant and unanticipated events. It is not anticipated the university would close for weather related events.
