Reach Higher Collaborative Leadership Network,

The Administrative Professionals Committee is a representative body of AP staff that reviews and makes recommendations about Grand Valley State University personnel policies and other university decisions that affect AP staff.

After engagement opportunities for all AP over the past year, as well as involvement in the Reach Higher Collaborative Leadership Network by AP Committee leadership throughout the process, the AP Executive Committee supports the updated commitments presented in the Reach Higher Together strategic plan. In particular, we appreciate the inclusion of well-being in the commitments, as it aligns with feedback from staff as well as our goal of ensuring that GVSU remains a great place to work and make a positive impact on our community. We look forward to continuing this collaboration and ensuring that AP at all levels, especially those closest to the work, have a voice in shaping the actions needed to live out these commitments.
