Spring Refresher: Revisiting Your Stream Study Site

Use this worksheet to notice what's changed at your stream site since the fall and get comfortable with your monitoring equipment again.

Directions: Answer each question in complete sentences. Use the "Think About" prompts to add detail.

1. What has changed at your study site since the fall?

Think about:

- New signs of erosion, vegetation changes, and new potential sources of pollution.
- Anything that looks healthier or more degraded than before.

Your Response:

2. What new sub-questions do you want to investigate this spring?

Think about:

- What did you wonder during your fall sampling?
- What do your new site observations make you curious about?
- How do these questions connect to your original driving question?

Your Response:

3. What questions do you have about your equipment or sampling procedures?

Think about:

- Is there anything you forgot over the winter?
- Do you feel confident about how to use each piece of equipment?
- What do you want to practice or clarify before you collect new data?

Your Response:
