

Physician Assistant Studies

The courses listed below are accepted by the program to fulfill graduate prerequisite classes.

NOTE: 1) Courses in asterisk (*) must be less than 5 years old at time of application. 2) Students must have the following PAS prerequisites completed at the time of application: Anatomy, Physiology, Organic Chemistry, Biochemistry and Microbiology. 3) If a course has two sequences/parts, the student is expected to complete Part I and Part II of the sequenced course to fulfill the prerequisites. Physics exception: Students are only required to complete one physics course regardless if it is part of a sequence. 4) Courses listed in parenthesis are old course codes no longer in circulation.
