Preparing for Workday Student: Important Dates Beginning This Fall

We are officially six months away from students logging into Workday for the first time.

As we continue our transition from Banner to Workday, the change will occur in phases to help ensure a smooth experience. Here are a few upcoming milestones:

- **October 27, 2026:** Workday Student data and configuration will be introduced to our existing Workday system. Faculty, staff, and student employees may notice changes or new features related to Workday student information. No action is required at this time.
- **December 1, 2026:** Current students who will be returning for Fall 2027 will begin accessing Workday to complete onboarding activities ahead of registration

As we move closer to go-live, additional communications, training information, and resources will be shared to help prepare students, faculty, and staff. For more information, please visit the [Workday Student timeline](#).

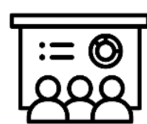

Workday Student Survey Follow Up

Thank you to everyone who participated in the recent Workday Student Survey.

Your feedback will help us better understand campus sentiment and identify areas where additional communication, training, and support may be needed.

We are currently reviewing the results and look forward to sharing key findings and next steps with the GV community soon.

Workday Student Training Save-the-Date

Speak Workday: Academic Override

An Interim Grade in Workday is a check-in grade provided by the instructor roughly midway through the term (equivalent to Midterm Grade).

What it does:

- Helps communicate academic progress during the semester
- Is not part of the student's permanent academic record
- Does not factor into GPA calculations
