Highlights:

- Full enrollment with waiting list
- First graduating class in 2018
- Partnerships with community businesses

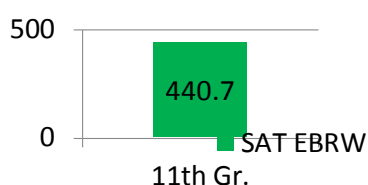

CSO Capacity Analysis

Cornerstone Health and Technology School (“CHTS”) has demonstrated organizational soundness and fiscal stability during the term of its charter contract, but its academic performance lags behind that of statistically similar schools on the SAT. The CSO has observed that the school is well-attended and in demand by parents. Observations from the renewal process indicate that CHTS has been improving its educational program through the establishment of a career pathways program with industry partners. Evidence gathered during this process also indicated that CHTS has in place the climate, culture, systems, and procedures necessary to accelerate student achievement. The totality of this evidence provides the CSO with confidence that the school’s organizational and fiscal capacity will remain strong, and its capacity to deliver a successful academic program will continue to improve.
