CSO Capacity Analysis

Eagle's Nest Academy has experienced academic and organizational challenges, with proficiency on the state assessment slightly lagging statistically with similar schools and mixed results on growth. School leadership has transitioned, and effective August 1, 2018, Eagle's Nest Academy has a new principal. Given the Academy's challenges, the CSO believes that her focus should be on building capacity around essential elements needed for effective schools, such as student academic achievement and growth, staff professional development, staff engagement, individual accountability and improving student discipline practices. The CSO will assign a school support specialist to provide embedded services aimed at supporting teaching staff, students and the leadership team. The CSO further believes the Academy's board of directors should use the CSO's charter renewal rubric to frame their strategic thinking and planning for the remainder of the charter contract.
