Highlights:

- Strong fundraising
- Expeditionary Learning at a model level
- Field trips and strong enrichment program

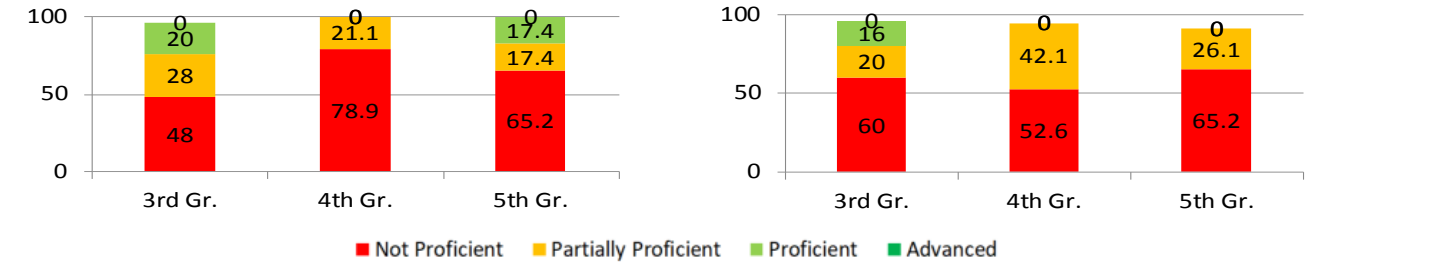

CSO Capacity Analysis

Detroit Achievement Academy (“DAA”) has demonstrated positive academic results and organizational and fiscal stability consistent with a school of its age. Student attendance rates are much higher than their peers and the CSO believes that attendance rates will be further bolstered because the school will be a part of the GOAL line bus route. DAA’s management organization is integrated within the school and provides good support, particularly in operations. It has recently engaged an outside firm to manage the business/finance so that the team can focus on operations and expansion. DAA’s largest challenges are space (they plan to build a new facility or expand the one they have) and consistency in academic outcomes; however, the CSO has confidence in DAA’s capacity to meet these challenges.
