 - Received NHA Eagles Award for Strong Enrollment

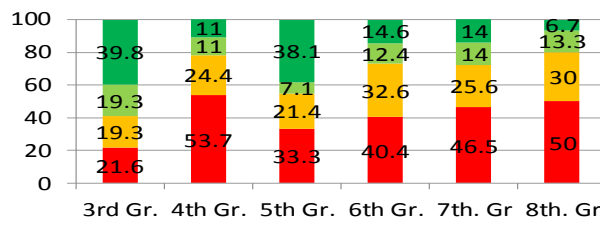

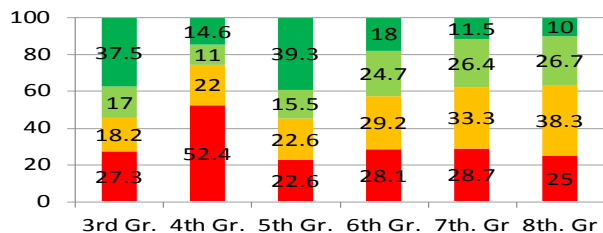

CSO Capacity Analysis

Grand River Academy demonstrates strength in its educational program, organizational soundness, and fiscal stability. The Academy's proficiency is significantly higher than that of statistically similar schools; however, the CSO notes that highest priority for the Academy board and leadership is increasing reading and math growth and proficiency scores. The CSO has observed that the Academy has increased its capacity to govern through a governance committee, increased its presence in the community, and increased its internal capacity to operate an effective academic program through new staffing. In total, this provides the CSO with confidence that the school's management has both the desire and capacity to continue improving academically during the term of its subsequent charter contract.
