CSO Capacity Analysis

East Arbor has demonstrated its ability to effectively deliver its educational program, and remain organizationally and fiscally strong. Academic performance as measured on multiple assessments is respectable, and the CSO observed a positive school culture and evidence of consistent implementation of systems and procedures to manage behavior, communicate expectations to students, and assess student progress. Based on evidence and observation, the CSO believes that the school currently has the internal capacity to sustain its academic results. Based on the renewal visit, it was determined that the school can strengthen its intervention programs to increase student performance, and that the school's management has both the desire and capacity to do so during the term of its subsequent charter contract.
