CSO Capacity Analysis

Global Heights Academy has demonstrated its ability to remain organizationally and fiscally strong; however, student proficiency on the state assessment significantly lags that of statistically similar schools. The CSO notes that Academy leadership has launched several initiatives to build capacity in the school. One initiative is building capacity to integrate cognitively impaired and autism spectrum disorder special education students into the general education school culture. With the Academy’s charter contract expiring on June 30, 2019, the school will begin the renewal process in 2018. This process will help to define the areas of focus, which are expected to include academic outcomes, and will provide the CSO additional information to assess its capacity.
