   f. University identifying marks including trademarks, logos, University letterhead, and University titles; and
   g. University time including when the faculty or staff member is working or the use of clerical or student worker time.

SOCIAL SECURITY NUMBER PRIVACY POLICY

SLT 10.6

Date of Last Update:
July 31, 2008

Approved By:
   • Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

1. Applicability. This policy applies to all members of the GVSU community including faculty, staff and students.

2. Access to Social Security Numbers. GVSU restricts access to information or documents containing social security numbers to members of the GVSU community who have a legitimate university business reason to access such information or documents. The heads of departments having access to records containing social security numbers shall determine which other personnel within their departments have a legitimate reason in the University’s ordinary course of business to have access to such social security numbers. Personnel using such records containing Social Security Numbers must take appropriate steps to secure such records when not in immediate use.

3. Confidentiality of Social Security Numbers. Members of the GVSU community shall maintain the confidentiality of university information or documents containing social security numbers consistent with the law and this policy. No person shall knowingly obtain, store, transfer, use, disclose, or dispose of social security numbers except in accordance with the law and this policy.

4. Obtaining Social Security Numbers. Social security numbers should be collected only where required or permitted by federal and state law or for legitimate university business reasons consistent with law and policy.

5. Public Display. No more than four sequential digits of a social security number shall be on public display. Public display means to post, make visible, or set out for open view to members of the public or in a public manner. This includes open view on a computer screen or device.

6. Account Numbers. As of the effective date of this policy, GVSU has undertaken a systematic process to eliminate social security numbers as identification numbers for all current members of the GVSU community. Once assigned an alternative identification number, neither the University nor the individual may return to the use of a social security number as an identification number for that person.

7. Mailed Documents. Documents containing more than four sequential digits of a social security number shall only be sent by mail in cases where state or federal law, rule, regulation, or court order or rule authorizes, permits or requires that a Social Security number appear in the document, the document is sent as part of an application or enrollment process initiated by the individual, at the request of or with the permission of the individual, their parent or guardian, or with regard to an employee or health insurance benefit. Documents containing more than four sequential digits of a social security number, that are properly sent through the mail, shall not reveal the number through the envelope window or otherwise be visible from the outside of the envelope or package. Mail includes delivery by regular US mail, campus mail, or any other delivery service that does not require the signature of the recipient indicating actual receipt.

8. Freedom of Information Act Requests. Where more than four sequential digits of a social security number are contained within a document subject to release under the Freedom of Information Act, the social security number shall be redacted or otherwise rendered unreadable before the document or copy of the document is disclosed. Any request for disclosure of documents under the Freedom of Information Act shall be first referred to the Division of Legal, Compliance and Risk Management.

9. Storage of Documents. All documents containing social security numbers shall be stored in a physically secure manner. Social security numbers shall not be stored on computers or other electronic devices that are not secured against unauthorized access.

10. Disposal of Documents. Documents containing social security numbers will be retained in accordance with the requirements of state and federal law and consistent with the legitimate business needs of GVSU. At such time as documents containing social security numbers may be disposed of, such disposal shall be accomplished in a manner that protects the confidentiality of the Social Numbers, such as by shredding.

11. Unauthorized Use or Disclosure of Social Security Numbers. GVSU shall take reasonable measures to enforce this Privacy Policy and to correct and prevent the reoccurrence of any known violations. Anyone who knowingly obtains, uses or discloses social security numbers for unlawful purposes or contrary to the requirements of this policy, state or
federal law, shall be subject to discipline up to and including discharge for employees or expulsion for students consistent with existing disciplinary policies. Additionally, certain violations of the Act carry criminal and/or civil sanctions. GVSU will cooperate with the appropriate law enforcement or administrative agencies in apprehending and prosecuting any person who knowingly obtains, uses or discloses Social Security numbers for unlawful purposes.

12. Lawful and Required Use. Nothing in this policy is designed to prohibit the collection, retention or transmission of documents or records containing Social Security numbers as required or permitted by state or federal law, rule or regulation, at the request of or with permission of the individual, for administrative use in the ordinary course of business to verify identity, to pursue legal rights of GVSU, or to provide or administer employee benefits such as health or retirement benefits.

VOLUNTEERS POLICY

SLT 10.7

Date of Last Update:
April 25, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

This policy is intended to reduce the risk related to the use of volunteers and their activities. The University accepts volunteer support to accomplish its educational mission and desires to ensure that volunteer relationships with the University are clearly established and understood by all parties. Payment for volunteer services is not allowed. However, University departments may reimburse volunteers for actual and reasonable expenses, following the appropriate university policies. The University requires the same attention to duties and responsibilities for volunteers as it does for employees of the University. This policy also does not cover or govern volunteers who agree to serve as human subjects in University research protocols, as they are covered by other policies under the administration of the Human Research Review Committee.

PROCEDURES

Relationship

Volunteer arrangements may not be used to circumvent the established processes that govern the employment of people. Volunteers do not have an employment relationship with the University on any grounds or for any reason and are not covered by the Fair Labor Standards Act, Michigan wage laws, or the Youth Employment Standards Act, and are not eligible for any University benefit, including Worker’s Compensation, or any other benefits of employment from the University, including but not limited to, health care, vacation, or sick time. Volunteers are not provided with accident or medical insurance, and are therefore responsible for any accident or medical expenses that may be incurred as a result of the volunteer assignment.

Payment for volunteer services is not permitted under any circumstance. However, the appropriate department has the authority to decide whether to reimburse a University volunteer for actual and reasonable expenses so long as the expenses fall under the University’s reimbursement guidelines located on the Business and Finance website. Reimbursement cannot be used as a substitute for compensation nor can it be linked to the volunteer’s productivity.

Volunteers may not receive any institutional marketing materials reflecting their name and the University logos such as: business cards, letterhead, unless approved by the appropriate Vice President or Senior Leadership Team member.

Protection of Volunteer

According to the Board Policy BOT 10.3, Indemnification:

“It is the policy of Grand Valley State University to support its Board members, officers, faculty, and staff in the reasonable and proper performance of their official duties, and to support students and volunteers when performing services on behalf of or under the direction of the university.”

Volunteers are indemnified in the same manner as employees. It is important that the department or unit managing the volunteer maintain records as specified in this policy in order to ensure their volunteers are properly covered.

Eligibility

To be eligible to become a volunteer, one must:

1. Be willing to provide services according to this policy, complete and sign a Grand Valley State University Volunteer Profile, Disclosure, and Consent Form as well as other associated forms if deemed appropriate,
2. Have parental consent if under the age of 18,
3. Complete the Authorization for Release of Information for Background Check if the volunteer assignment involves working directly with minor children, money or access to confidential information regarding employees, students, health, financial data, etc., and
4. Be authorized through the Department of Public Safety if the volunteer assignment requires operating a vehicle owned or leased by the University.

Responsibilities of the University Department Engaging Volunteers

Departments must keep records of volunteer names, dates of service(s), and services performed for a period of one year following the end of the volunteer assignment.

It is the responsibility of the individual unit to ensure that volunteers are aware of the unit’s rules and regulations. Volunteers must have the necessary training and/or supervision to safely carry out volunteer work. If the volunteer assignment involves providing professional services such as those performed by accountants, architects, doctors, engineers, etc., the department must assure that the volunteer has the appropriate credentials including licensure and/or certification.

One exception is that any legal services or assistance, whether by a volunteer or otherwise, must have prior written approval of the Vice President and General Counsel. According to Board policy, as stated in the Board of Trustees’ Policies, all legal services must be provided through the Division of Legal, Compliance and Risk Management.

If the volunteer assignment requires operating a vehicle, the volunteer must have a valid driver’s license, and have a good driving record as determined by the Department of Public Safety.

Responsibilities and Rights of the University Volunteer
Volunteers are responsible for complying with all University policies and all relevant laws including but not limited to: personal conduct, sexual assault, unlawful discrimination and harassment, compliance, workplace violence, substance abuse; misuse of confidential information; use of University technologies; financial responsibility; and vehicle use. Volunteers are not considered agents of the University unless the authority has been expressly delegated to them by an authorized University official. Volunteers are also expected to comply with any rules and regulations specific to the department for which they are volunteering.

Risk Management

Volunteers cannot replace employee positions. Volunteer services are generally limited to humanitarian, charitable, or public services. University volunteers are also prohibited from performing the following activities:

1. Working in any capacity in which he/she is employed by the University, or which is essentially similar to the individual’s regular work at the University, or under circumstances that suggest the decision to volunteer is not made freely,
2. Operating heavy equipment e.g. forklift, hi-lo, backhoe, etc.,
3. Working with highly hazardous or toxic chemicals or agents and/or dangerous equipment or environments i.e.: anything that could cause severe injury or death,
4. Any activity considered inappropriate for an employee,
5. Entering into any contract on behalf of the University,
6. Rendering professional services without possessing the required credentials,
7. Any actions beyond the scope of the volunteer assignment, and
8. Provide legal advice or assistance without prior written approval from the University Counsel.

In some cases where the volunteer assignment involves higher levels of risk exposure to the individual and others, the University department is responsible for disclosing those risks to the volunteer in writing. This will assure that information about the risks associated with the volunteer assignment are clearly communicated to the individuals who are engaged as university volunteers. Examples of services that require risk disclosure include but are not limited to:

1. Laboratory activities,
2. Services with potential exposure to bloodborne pathogens,
3. Professional services that require licensure and/or certification such as those performed by accountants, architects, doctors, engineers, etc. and trade services such as construction, plumbing, electrical, etc,
4. Travel of any kind,
5. Activities in any environment which requires orientation or training, and
6. Activities with patients and/or subjects of experiments.

Use of Volunteer Procedures

The procedures and forms to implement this policy can be found on the Risk Management Website.

DEFINITIONS:

A volunteer is defined as an uncompensated individual who performs services directly related to the operations of the University for its benefit, to the mission of the University, or for the volunteer to gain experience in specific endeavors. To qualify as a volunteer, an individual must be willing to provide services according to the directions of the appropriate University representative. An individual who provides services for an entity that is not directly related to the business of the University (e.g., a government or public agency), is not considered to be a University Volunteer for the purposes of this policy.

EMAIL POLICY

SLT 11.2

Date of Last Update:
October 09, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

Grand Valley State University provides its faculty, staff and students with electronic mail intended for University-related purposes including direct and indirect support of the University’s instructions, research, and service missions; of University administrative functions; of student and campus life activities, and of the free exchange of ideas among members of the University community and between the University community and the wider local, national, and world communities.

The rights of academic freedom and freedom of expression apply to the use of University electronic mail. Electronic mail sent or received using University facilities is, however, University business and cannot be guaranteed total privacy. The University does not routinely inspect, monitor, or disclose electronic mail without the holder’s consent. Nonetheless, subject to the requirements for authorization, notification, and other conditions specified in this Policy, the University may deny access to its electronic mail services and may in exceptional circumstances inspect, monitor, or disclose electronic mail.

PROCEDURES

Applicability

This Policy applies to:

- All electronic mail systems and services provided or owned by the University
- All users, holders, and uses of University e-mail services
- All University e-mail records in the possession of University faculty, staff or students or other e-mail users of electronic mail services provided by the University

This Policy applies only to electronic mail in its electronic form. The Policy does not apply to printed copies of electronic mail.

This Policy applies equally to transactional information (such as e-mail headers, summaries, and addresses) associated with e-mail records as it does to the contents of those records.
All users of University electronic mail are subject to:

- Comply with all federal, Michigan, and other applicable laws and regulations; all generally applicable University rules and policies; and all applicable contracts and licenses. Examples of such laws, rules, policies, contracts, and licenses include the laws of libel, privacy, copyright, trademark, obscenity, and child pornography; the Electronic Communications Privacy Act, and the Computer Fraud and Abuse Act, which prohibit unauthorized use or entry into another’s account; the University’s Student Code; the University’s Anti-Harassment policy; and all applicable software licenses.

- Users who engage in electronic communications with persons in other states or countries or on other systems or networks should be aware that they may also be subject to the laws of those other states and countries and the rules and policies of those other systems and networks. Users are responsible for ascertaining, understanding, and complying with the laws, rules, policies, contracts, and licenses applicable to their particular uses.

- Users should also be aware that their uses of University computing resources are not completely private. While the University does not routinely monitor individual usage of its computing resources or to protect the University from liability. The University may also refer suspected violations of applicable law to appropriate law enforcement agencies.

Specific Provisions

A. Users

Users of University electronic mail services are to be limited primarily to University students, faculty, staff, retirees, and others authorized by the University. Upon normal termination of employment, employees may retain access to the e-mail account for 30 days. Employees terminated by the University will have the e-mail account terminated immediately. Retired employees may request access to the e-mail account as part of the benefit package. Students retain access to an e-mail account as long as they are registered for courses or completed graduation. GVSU retains the right to remove email services at any time.

B. Account Usage

GVSU has the right to restrict the amount of storage space available on the network. If an individual wishes to backup and store e-mail for extended purposes, it is the individual’s responsibility to do so.

Users are granted access to services only for so long as they abide by the Computing Conditions of Use policy. No person shall gain use of the University’s computer system without proper authorization. Any attempt by a user to gain access to another person’s network account, private network drive, or restricted areas on the GVSU computer system is prohibited.

University e-mail services shall not be used to send unsolicited commercial emails and such use may result in your account being disabled.

University e-mail services shall not be used for purposes that could reasonably be expected to cause, directly or indirectly, excessive strain on any computing resources (bandwidth issues), or unwarranted or unsolicited interference with others use of e-mail or e-mail systems. Such uses include, but are not limited to, the use of e-mail services to: (1) send or forward e-mail chain letters; (2) “spam,” that is, to exploit listservs or similar broadcast systems for purposes beyond their intended scope to amplify the widespread distribution of unsolicited e-mail; and (3) “letterbomb,” that is, to resend the same e-mail repeatedly to one or more recipients to interfere with the recipient’s use of e-mail.

C. Representation

Electronic mail users shall not give the impression that they are representing, giving opinions, or otherwise making statements on behalf of the University or any unit of the University unless appropriately authorized (explicitly or implicitly) to do so. Where appropriate, an explicit disclaimer shall be included unless it is clear from the context that the author is not representing the University. An appropriate disclaimer is: “These statements are my own, not those of the Grand Valley State University.”

Policy Violations

Violations of University policies governing the use of University electronic mail services may result in restriction of access to University information technology resources. In addition, disciplinary action, up to and including dismissal, may be applicable under other University policies, guidelines, implementing procedures, or collective bargaining agreements.

Violations will normally be handled through the University disciplinary procedures applicable to the relevant user. The University may temporarily suspend or block access to an account, prior to the initiation or completion of such procedures, when it reasonably appears necessary to do so in order to protect the integrity, security, or functionality of University or other computing resources or to protect the University from liability. The University may also refer suspected violations of applicable law to appropriate law enforcement agencies.

Refer to Appendix A. for detail on additional polices and guidelines.

Security and Privacy

The University owns all electronic mail address assigned by the University. The University employs various measures to protect the security of its computing resources and of their users’ accounts. Users should be aware, however, that the University couldn’t guarantee such security. Users should therefore engage in “safe computing” practices by establishing appropriate access restrictions for their accounts, guarding their passwords, and changing them regularly. Security and privacy of e-mail sent or received outside of GVSU is subject to standards of other organizations and may be more or less restrictive and provide more or less privacy protection.

Users should also be aware that their uses of University computing resources are not completely private. While the University does not routinely monitor individual usage of its computing resources, the normal operation and maintenance of the University’s computing resources require the backup and caching of data and communications, the logging of activity, the monitoring of general usage patterns, and other such activities that are necessary for the rendition of service.

The University reserves the right to monitor e-mail records, without notice, when

a. The user has voluntarily made them accessible to the public
b. It reasonably appears necessary to do so to protect the integrity, security, or functionality of University or other computing resources or to protect the University from liability
c. There is reasonable cause to believe that the user has violated, or is violating, this Policy
d. An account appears to be engaged in unusual or unusually excessive activity, as indicated by the monitoring of general activity and usage patterns

e. It is otherwise required or permitted by law

Any such individual monitoring, other than that specified in “a” above, required by law, or necessary to respond to perceived emergency and/or time-sensitive situations, must be
authorized in advance by University Counsel and an Executive Officer.

The University, in its discretion, may disclose the results of any such general or individual monitoring, including the contents and records of individual communications, to appropriate University personnel or law enforcement agencies and may use those results in appropriate University disciplinary proceedings.

Normal examination of e-mail headers by the e-mail administrator is standard procedure to resolve problems and redirect incorrect addressed e-mail.

**Posting and Authority to Change**

Because University policies are subject to change, this list may change from time to time. The authoritative list at any time will be posted under the listings of University policies posted on the World Wide Web. Authority to change this list rests with the Vice Provost of Academic Services and Information Technology acting, where policies affecting faculty are concerned, with the advice of the Academic Senate, where policies affecting students are concerned, with the advice of the Dean of Students, where policies concerning legal matters, with the advice of University Counsel.

**APPENDIX A - REFERENCES**

The following list identifies additional policies and procedures, which support this Policy: These and other laws both provide privacy protection for e-mail and require the disclosure of e-mail under some circumstances.

- University Policies and Guidelines
- Human Resources
  - Faculty Handbook
  - Executive, Administrative, Professional Staff Handbook
  - Anti-Harassment Policy
  - Refer to the Human Resources web site for further policies and guidelines
- Information Technology
  - Computing Conditions of Use
  - Student Computing Account Agreement
  - Student Code
- State of Michigan
  - Michigan Freedom of Information Act
  - Merit Acceptable Use Policy
- Federal Statutes
  - Federal Family Educational Rights and Privacy Act of 1974
  - Federal Privacy Act of 1974
  - Electronic Communications Privacy Act of 1986

**COMPUTER VIRUS AND MALWARE POLICY**

SLT 11.3

Date of Last Update: September 06, 2016

Approved By: Senior Leadership Team

Responsible Office: Information Technology

**POLICY STATEMENT**

When a device or account connected to the GVSU campus network is compromised by a virus or malicious software, the network is at great risk of harm due to potential damage of university data or disclosure of sensitive information. To preserve the health of the network and the devices connected to it, the infected device must IMMEDIATELY be disconnected and removed or the account blocked from the campus network until Information Technology personnel verify it is no longer compromised. Despite the disruption this may cause to the individual user, the user is required to produce any infected device to Information Technology immediately upon request in order to prevent information disclosure, data file destruction, or exploitation of the compromised account.

Information Technology personnel shall provide their identification and authorization to the device user that authorizes them to remove the afflicted device prior to its removal. For additional verification, you may call the Helpdesk at 331-2101 and ask for Level 2 staff member to verify the authorization to pick up a computer. To minimize interruption, Information Technology will take reasonable steps to provide a substitute device for use on the campus network while the user awaits repair of the original device. To report that a device might be infected, contact Information Technology immediately at 331-2101.

---

**VOICEMAIL POLICY**

SLT 11.4

Date of Last Update: April 29, 2016

Approved By: Senior Leadership Team

Responsible Office: Information Technology
Information Technology

POLICY STATEMENT

Voicemail is offered to all AP and faculty personnel. Voicemail must be approved for PSS personnel and departmental lines by a Dean or Vice Provost and Vice President. Personal lines and other lines that utilize voicemail must follow the following procedures.

PROCEDURES

A department main number is never to be forwarded to a voicemail.

All greetings are to be personalized and changed when users intend to be out of the office for more than one day, especially if they do not plan to check voicemail.

An out of office greeting should provide the caller with an alternative name and telephone number to contact in case of emergency.

COMPUTING CONDITIONS OF USE (INFORMATION TECHNOLOGY)

SLT 11.5

Date of Last Update:
October 09, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

As members of the Grand Valley State University community, you have the responsibility to use the university’s Information Technology resources in an effective, ethical, and legal manner. Ethical and legal standards that apply to information technology resources derive directly from standards of common sense and decency that apply to the use of any shared resource. Grand Valley depends first upon the spirit of mutual respect and cooperation that has been fostered at the university to resolve differences and ameliorate problems. The purpose of the statement is to promote the responsible, ethical, legal, and secure use of Grand Valley’s Information Technology resources, including access to the Internet, for the protection of all users.

PROCEDURES

The following guidelines will be applied to determine appropriate use of Services:

1. Accounts granted are intended solely for the use of the person the account was issued and shall not be shared.
2. To respect the privacy of other users. Users shall not intentionally seek information on, obtain copies of, or modify files, or passwords belonging to other users or the University, or represent others, unless explicitly authorized to do so by those users.
3. To respect the legal protection provided by copyright and licensing of programs, data, photographs, music, written documents and other material as provided by law.
4. To respect the intended usage of accounts and authorization for specified purposes only.
5. To respect the integrity of the system or network. One shall not intentionally develop or use programs, transactions, data, or processes that harass other users or infiltrate the system or damage or alter the software or data components of a system.
6. To adhere to all general university policies and procedures including, but not limited to, policies on proper use of information resources, information technology, and networks; acquisition, use, and disposal of University-owned computer equipment; use of telecommunications equipment; ethical and legal use of software; and ethical and legal use of administrative data.
7. Using university technology resources for commercial use is strictly prohibited. Such resources are to be solely used in conjunction with doing business for GVSU or purposes directly related to academic work.
8. To refrain from unauthorized use of network Services which significantly hampers other GVSU constituents network access.
9. Unauthorized use of GVSU networks and/or computers for non-academic purposes is prohibited, including revenue generating advertising and promotion of business not related to GVSU.
10. Network connections in Student Housing are intended strictly for client access to GVSU and Internet resources. Residents are not permitted to offer services to other computers, either external or internal, within the GVSU Housing Network. External requests for services destined to the GVSU Housing Network are not permitted. Information Technology reserves the right to disable network connections within the GVSU Housing Network if complaints are received and it is verified that a computer is offering an internal service.
11. The Computer Science and Engineering departments have dedicated networks that can be used for servers that need to offer services to other computers for educational purposes; in this case the department is responsible for monitoring and approving the services that are offered as well as verifying that the computers have been patched and secured against known Internet attacks.
12. All users of Grand Valley’s e-mail accounts are expected to adhere to the Electronic Mail Policy
13. All users of Grand Valley’s external network connections (i.e., Merit and NSFNET) shall comply with the evolving “Acceptable Use” policies established by the external networks’ governing bodies.

 Merit Acceptable Use Policy
 The NSFNET Backbone Services Acceptable Use Policy

The intent of this policy is to identify certain types of uses that are not appropriate. Using the guidelines given above, GVSU may at any time make a determination that a particular use is not appropriate.

GVSU will not monitor or judge the content of information transmitted via the Services, but will investigate complaints of possible inappropriate use. In the course of investigating complaints, GVSU staff will attempt to preserve the individual’s privacy. GVSU is subject to the Freedom of Information Act and may be required to supply personal computing information.
DIGITAL MEDIA POLICY
SLT 11.6

Date of Last Update:
April 19, 2015

Approved By:
- Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT
Technology provides multiple avenues for creating, collecting and distributing information. The ease of access to this information does not preclude the responsibility of understanding the legal issues involved in intellectual property.

PROCEDURES
Copyright law protects all material unless placed in the public domain, electronic and digital media included. Owners of copyrights hold exclusive right to the reproduction and distribution of their material.

Unauthorized use and distribution of copyrighted material is illegal. Legal action against the individual as well as the university may occur, this includes all audio and video files. The GVSU Library Course Reserve Department processes copyright clearance for all materials placed on library course reserve by professors. This includes both paper (traditional) and online digital access.

The Digital Millennium Copyright Act (DMCA) of 1998 provides recourse for copyright owners who believe that their rights have been infringed by unauthorized use of their protected works at an online location. Copyright owners may contact the service provider to request that the infringing material be removed or access blocked. Grand Valley State University’s designated DMCA agent is:

Bill Fisher
Associate Director, Technical Services
Grand Valley State University
Allendale, MI 49401
phone: (616) 331-2035

For More Information on the DMCA and other copyright issues see, www.copyright.gov

CONFIDENTIALITY, DATA & SECURITY POLICY
SLT 11.7

Date of Last Update:
December 08, 2014

Approved By:
- Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT
Grand Valley State University regards security and confidentiality of data and information to be of utmost importance. As such, individuals employed by the University must follow the procedures outlined below.

PROCEDURES
Confidentiality of Data
Each individual granted access to data and information holds a position of trust and must preserve the security and confidentiality of the information he/she uses. Individuals are required to abide by all applicable Federal and State guidelines and University policies regarding confidentiality of data including, but not limited to, the Family Education Rights and Privacy Act (FERPA). FERPA protects student information and may not be released without proper authorization. Requests for information/documents should be referred to the Registrar’s Office or the Legal, Compliance & Risk Management Office.

Individuals with authorized access to Grand Valley State University’s computer resources, information system, records or files are given access to use the University’s data or files solely for the business of the University. Specifically, individuals should:

a. Access data solely in order to perform his/her job responsibilities.

b. Not seek personal benefit or permit others to benefit personally from any data that has come to them through their work assignments.

c. Not release University data other than what is required in completion of job responsibilities.

d. Not exhibit or divulge the content of any record, file or information system to any person except as it is related to the completion of their job responsibilities.

Additionally, individuals are not permitted to operate or request others to operate any University data equipment for personal business, to make unauthorized copies of University software or related documentation, or use such equipment for any reason not specifically required by the individual’s job description.
As members of the Grand Valley State University community, all users have the responsibility to use the university's information technology resources in an effective, ethical, and legal manner. This document outlines these responsibilities.

### Conditions of Use

Information Technology has two primary policies in place that deal with technology resources:

1. Storage of student or staff confidential data on local storage media (Laptops, Desktops, CDs, Thumb drives, etc.) without proper data encryption is strictly prohibited. Please contact Information Technology to discuss secure options if confidential data must be transported outside of the secure network.
2. All transactions, processed by a user ID and password, are the responsibility of the person to whom the user ID was assigned. The user's ID and password must remain confidential and must not be shared with anyone.
3. Access to any faculty or staff account may be granted by the faculty/staff member and/or the direct supervisor for specific job requirements. You are prohibited from viewing or accessing additional information (in any format). Any access obtained without written authorization is considered unauthorized access.
4. Passwords should be changed periodically or if there is reason to believe they have been compromised or revealed inadvertently.
5. Upon termination or transfer of an individual, Information Technology will immediately remove access to GVSU data. The email account may stay active for a period of up to 30 days.

Access to University data and information is for the sole purpose of carrying out job responsibilities. Breach of confidentiality, including aiding, abetting, or acting in conspiracy with any other person to violate any part of this policy or FERPA policy, may result in sanctions, civil or criminal prosecution and penalties, loss of employment and/or University disciplinary action, and could lead to dismissal, suspension, or revocation of all access privileges.

### FACULTY/STAFF ABUSE OF TECHNOLOGY

**SLT 11.8**

**Date of Last Update:**
April 19, 2015

**Approved By:**

- Senior Leadership Team

**Responsible Office:**
Information Technology

**POLICY STATEMENT**

Information Technology has two primary policies in place that deal with technology resources:

- **Conditions of Use:** As members of the Grand Valley State University community, all users have the responsibility to use the university's information technology resources in an effective, ethical, and legal manner. This document outlines these responsibilities.
- **E-Mail Policy:** This policy clarifies the applicability of law and of other University policies to electronic mail. It also defines new policy and procedures where existing policies do not specifically address issues particular to the use of electronic mail.

The policies and procedures to deal with abuse of technology resources for faculty and staff are outlined below.

- **Level I - Complaint**
  - Complain may be received from an internal or external GVSU constituent
  - Upon verification of abuse by an Information Technology staff member, the information is communicated to either the Vice Provost and Dean of Academic Services or the Director of Information Technology
  - Upon review from the Vice Provost and Dean of Academic Services and/or the Director of Information Technology, the complaint is further acted upon or discarded.

- **Level II - Contact/Action for First Offenders**
  - The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - The individual is apprised of their abuse and asked to refrain from continuing the infringement. If email related, the individual will be required to retract the offending message.
  - The individual will be sent a notification from IT via email of the abuse infraction and asked to return the email with their understanding and intent to comply via the policy.
  - The email notification/compliance will be kept on file.

- **Level III - Contact/Action for Second Offenders**
  - The individual account will be suspended immediately (disable ability to send/receive messages).
  - The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted.
  - The individual Dean or manager is contacted concerning the repeated abuse.
  - The individual is apprised of their abuse and asked to refrain from continuing the infringement.
  - The individual account will be re-activated upon contact and compliance of the policy.
  - If email abuse, the individual will be required to retract the offending message.
  - The individual will be sent a notification via email of the abuse infraction and asked to return the email with their understanding and intent to comply via the policy and that they will lose account privileges completely upon the third offense.
  - The individuals Dean or manager will be sent a notification via email of the abuse infraction and asked to return the email with their understanding that the individual will lose account privileges completely upon the third offense.
  - The email notification/compliance will be kept on file from both the individual and the Dean or manager.

- **Level IV - Contact/Action for Third Offenders**
  - The individual is apprised of their abuse and asked to refrain from continuing the infringement.
  - The individual account will be suspended immediately (disable ability to send/receive messages).
  - The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted.
  - The individual Dean or manager is contacted concerning the repeated abuse.
  - The individual is apprised of their abuse and asked to refrain from continuing the infringement.
  - The individual account will be re-activated upon contact and compliance of the policy.
  - If email abuse, the individual will be required to retract the offending message.
  - The individual will be sent a notification via email of the abuse infraction and asked to return the email with their understanding and intent to comply via the policy and that they will lose account privileges completely upon the third offense.
  - The individuals Dean or manager will be sent a notification via email of the abuse infraction and asked to return the email with their understanding that the individual will lose account privileges completely upon the third offense.
  - The email notification/compliance will be kept on file from both the individual and the Dean or manager.
The individual account privileges will be suspended immediately, which consist of email and network privileges.

The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology.

- If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted. The individual Dean or manager is contacted concerning the repeated abuse.
- The HRO office is contacted concerning the repeated abuse.
- The individual is apprised of their abuse and told that their privileges have been revoked.
- The individual Dean or manager must contact the Vice Provost and Dean of Academic Services or the Director of Information Technology to discuss possible reinstatement of privileges.
- Upon further review with the Provost (for faculty issues) and the HRO office (for staff issues), the determination to re-instate the technology privileges will be determined.
- The decision will be kept on file.

Overriding Issues
- If at any time, the technology resources that have been abused are in jeopardy of causing mass problems for GVSU constituents or the network/files have been compromised, the Vice Provost and Dean of Academic Services or the Director of Information Technology may choose to immediately suspend the individual account to ensure the integrity and continuation of services for the rest of the constituents.
- Upon a decision of this nature, the situation will be brought to the Provost, HRO, appropriate Dean or manager as quickly as possible to remedy the issue at hand.

PROCEDURES

PHONEMAIL POLICY
SLT 11.9

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
Telecommunications

POLICY STATEMENT
Department main numbers and widely published phone numbers are “must-answer” lines and are not assigned PhoneMail. Personal lines and other lines that do utilize PhoneMail must follow the procedures below.

PROCEDURES
Department main numbers and widely published phone numbers are “must-answer lines” and will not be assigned PhoneMail. These numbers should always be answered by a person.

A department main number is never to be forwarded to a PhoneMail box as this causes callers to be put into an endless PhoneMail loop.

All greetings are to be personalized and changed when users intend to be out of the office for more than one day, especially if they do not intend to check PhoneMail.

Users are to provide the caller with an alternative person’s name and telephone number to contact if they are going to be gone for any length of time.

PhoneMail users are to respond to messages within one business day unless they are on vacation.

Unit heads should monitor PhoneMail greetings when the initial installation is made and on a regular basis thereafter.

If you have any questions about PhoneMail usage or need to report a problem please call either extension 12148 or 12145 during working hours.

Vice President approval is required for PBS personnel to have PhoneMail installed.

PUBLIC FOLDER POLICY
SLT 11.10

Date of Last Update:
April 19, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT
GVSU provide public folders to allow postings from any Outlook user on events, announcements, information of interest and a method to buy/sell articles.
PROCEDURES

Guidelines for consistent and proper use

- Messages posted to the business related public folders should pertain to GVSU sponsored programs, events, or activities.
- Messages intended for private business or personal profit shall not be posted
- Commercial message and advertisements for non-GVSU entities shall not be posted
- Messages posted to the Barter Board specifically may refer to personal items for sale or items wanted to buy.
- Messages intended for private business are not allowed
- Commercial messages and advertisements for items for sale or services offered are prohibited, including home businesses.
- Complaints relative to purchases of items advertised should be conducted privately.
- Additionally, messages posted to these public folders board must respect the rights of other users; for example, they must comply with all University policies regarding sexual, racial, and other forms of harassment, and shall not divulge personal data concerning faculty, staff, or students without explicit authorization to do so.

Message life span:

- Any message posted here should be deleted by the author as soon as its purpose has been resolved
- Messages will be deleted automatically after 7 days.

SECURE OFFICE PROCEDURE

SLT 11.11

Date of Last Update:
April 19, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

It is the responsibility of all employees of the University to protect sensitive data against loss or theft. Awareness, education and practice of the following procedures can assist in this matter. These procedures are in place to help protect employees, customers, contractors and the university from damages related to the loss or misuse of sensitive information.

This document refers to securing sensitive data and physical hardware within an office environment or mobile environment where data may be referenced (at home or on a laptop). It is not meant to address electronic data stored on university servers.

PROCEDURES

Goals

In order to effectively protect and secure university data, the following goals have been established:

a) Create, distribute and annually review the “Secure Office Procedure” document
b) Train all staff members whose jobs relate to sensitive data on both the “Secure Office Procedure” and Information Security Best Practices
c) Train departmental managers to be aware of the importance of the procedures and the need to enforce them

Staff Training

Employee awareness and education is an integral part of securing sensitive data for the university. The following procedures will be enforced to ensure proper training:

a) Upon hire, the Secure Office Procedure and Setting Strong Password documents are emailed to the new employee Secure Office Procedures Page 2 of 4
b) Secure Office Procedure and Setting Strong Password documents are sent annually to all employees via email
c) Internal training, specific to each area, will be provided to employees who have access to sensitive data
d) Information Technology will provide Best Practices information at IT seminars and offer to attend annual departmental meetings to cover the below topics:
   i. Awareness of Social Engineering schemes
   ii. Secure Office Procedures
   iii. Strong Password creation
   iv. Data storage
   v. Data encryption
   vi. Backups
   vii. Anti-virus and Anti-spyware tools
   viii. Non-secure technologies

GENERAL OFFICE SECURITY PRACTICES

The following procedures should be followed within office suites, individual offices or workrooms and mobile locations where data may be referenced:

a) Keys or keycards used for access to sensitive data should not be left unattended
b) Passwords should not be shared or written down and left in accessible locations
c) If you have a student that will regularly be using your machine, contact the helpdesk and request a staff account for that student. (Do NOT give out your password)
d) Make certain passwords aren’t common information such as date of birth, names of children, pets, telephone numbers, etc.
e) When you leave your workstation, lock your computer screen
f) Lock up laptops, USB drives, external drives, etc. when unsupervised
g) Contact the IT Helpdesk when a computer is to be passed to a new user. IT will clean the computer, removing previous data and place a clean image on the machine.

h) Printouts containing sensitive data should be removed from networked printers immediately and filed appropriately in secure cabinets

i) Dispose of sensitive data on hard copy by shredding immediately

j) Departmental front desk staff should confirm identity of all visitors (GVSU staff/student workers or non-GVSU employees) who are entering their area(s)
   i. Employees should feel comfortable requesting what unit someone is from and the purpose of their visit
   ii. Employees should feel comfortable confirming meeting prior to allowing staff member/student employee to proceed within their departmental areas
   iii. Confirm with the GVSU employee they are scheduled to meet
   iv. Non-GVSU employees must be escorted to/from meeting area/work area
   v. Request ID if necessary
   vi. Provide front office staff the ability to view your calendar or print a schedule of your meetings in advance so they will expect attendees

k) All staff should be responsible to watch for or listen to any unusual activity and to be cognizant of their surroundings.

Sensitive Information
Sensitive data can be distributed via hard copy or electronic means within an office. When given the choice, store data electronically versus printing a hard copy. Consider scanning a document to store it electronically versus hard copy.

a) “Sensitive information” includes but is not limited to the following items, whether stored in electronic or printed format:
   i. All FERPA protected data*
   ii. Credit card number (in part or in whole)
   iii. Credit card expiration date
   iv. Cardholder name
   v. Cardholder address
   vi. Social Security Number
   vii. Business Identification Number
   viii. Employer Identification Number
   ix. Paychecks
   x. Paystubs
   xi. Benefit information
   xii. Giving information/history
   xiii. Health information
   xiv. Content of external grants or contracts

b) Securing hard copy sensitive data:
   i. Lock cabinets containing sensitive data when not in use or when away for extended periods of time
   ii. Storage rooms containing sensitive data should be locked at the end of the day or when unsupervised
   iii. Desks, workstations, common work areas, printers, and fax machines should be cleared of all sensitive data when not in use
   iv. Whiteboards, dry erase boards, writing tablets, etc. should be erased, removed or shredded when not in use
   v. Documents to be shredded should be done so immediately or locked up until shredding can occur
   vi. At the end of the day, all sensitive data should be in a locked drawer or cabinet

c) Securing electronic sensitive data. Please contact Information Technology if there are questions in how you are storing/sharing sensitive data electronically.
   i. Refrain, when possible from storing sensitive data on your personal computer hard drive or any external personal devices. Instead use the network drive space.
   ii. If storing sensitive data is required on your personal computer hard drive or an external device, encryption and password protection should be applied
   iii. Engage the screensaver when workspace is unoccupied
   iv. Computer workstations should be shut down completely at end of work day
   v. Lock laptop or external devices containing sensitive data when not in use
   vi. Make certain data and/or PC work station screens are not visible to the public (e.g.: near windows, entry/exit doors, etc.)
   vii. If email is used to share sensitive data, encryption and/or password protection should be used. The following statement should accompany the body of the email: “This message may contain confidential and/or proprietary information and is intended for the person/entity to whom it was originally addressed. Any use by others is strictly prohibited.”

*See information regarding FERPA data at www.gvsu.edu/registrar and click on FERPA

SOFTWARE SUPPORT POLICY
SLT 11.12
Date of Last Update: April 19, 2015
Approved By:
POLICY STATEMENT

Information Technology is responsible for providing software support to the campus community. IT resources are finite. Therefore, reasonable limits must be identified regarding the number and variety of software products supported by IT. This policy is intended to define those limits.

PROCEDURES

The software industry is characterized by constant change. Therefore, it is unreasonable to establish a single, static list of supported software. It is equally unreasonable to force the campus community to change software on a frequent basis.

Information Technology will provide support for the most recent operating systems for Windows and Macintosh platforms as well as one version back.

Standard software applications issued with a university computer will be supported in the most recent version and one version back unless compatibility issues arise.

Institutional ownership of a site license does not imply IT support for all products covered by the license. Software provided in labs and classrooms outside of the standard applications listed above are not supported by Information Technology. Software assistance is required through the vendor providing the application.
POLICY STATEMENT

4.1.3 University Responsibilities. The President and other officers to whom he/she designates authority are responsible for administering the University and its property, supervising its operations, assigning and directing its faculty and staff, changing or introducing new operations, methods, or facilities, appointing, assigning, or disciplining faculty and staff members, subject to the guidelines herein set forth, and establishing such procedures which may be needed from time to time. For purposes of this Section 4.1, "faculty and staff" shall mean an employee covered by the Board of Trustees' Policies.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - DISCIPLINARY PROCEDURE

BOT 4.1.4

Date of Last Update:
June 01, 2017

Approved By:
□ Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.4 Disciplinary Procedure. The President and other administrators to whom he/she designates authority are responsible for discipline which normally shall be corrective rather than punitive in nature. A typical procedure for disciplinary action will be, depending on the seriousness or frequency of the cause, an oral discussion, a written warning, disciplinary lay-off without pay, and dismissal. All disciplinary actions are subject to the appropriate grievance procedure.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - PERSONNEL INFORMATION

BOT 4.1.5

Date of Last Update:
June 01, 2017

Approved By:
□ Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.5 Personnel Information. All personnel information and files maintained by the University are the confidential property of the University and are maintained in the Human Resources office. Faculty and staff members can expect that a right to a reasonable degree of privacy will be honored and that the confidential character of certain personnel data will be respected as such. Generally, release of information and/or access to such information should be restricted in accordance with the policies of the University. Whenever possible, information released for public purposes shall be in a form which will protect the anonymity of the individual; however, as of October 1979, Michigan law requires that salary information be available to the public. All personnel information collected shall be pertinent to the needs of the University. Access to personnel files is limited to those persons responsible for personnel and the faculty or staff member's supervisor. Letters of recommendation are the confidential property of the provider. A faculty or staff member will not be given access to letters of recommendation concerning himself/herself unless the provider of such recommendation agrees, in writing, to allow such access. All personnel records will be retained for the length of the faculty or staff member's service and thereafter in compliance with all applicable federal, state and local laws. Temporary records such as insurance claims will be maintained only so long as they have a useful life. Records of terminated faculty and staff members will be maintained for a minimum of seven years and thereafter only those portions having a useful life will be maintained. Information of an official nature for state and federal agencies will be provided to the extent of the matter at hand and within the limits of the law. No anonymous information will be maintained in the files. Records of disciplinary actions will be placed in the personnel files only after the individual has had an opportunity to view a copy. The University will provide prospective employers with title, employment dates, and eligibility for rehire status only, unless additional information is requested by the faculty or staff member or former faculty or staff member. Recommendations by individual supervisors may be made at their own discretion and at their own risk, recognizing that the University may be responsible for the information given.

Personnel files may include, but are not limited to, payroll information and documentation, records of employment actions and documentation, records required by federal, state and local law, employment applications, vitae and resumes, recommendations, interview comments, fringe benefit information, merit and performance evaluation, records and documentation of disciplinary actions, official transcripts of baccalaureate or post baccalaureate degrees and such other information as may be needed from time to time. Other files maintained in accordance with the faculty appointment and evaluation policy and covered by the limitations expressed in that policy may be housed elsewhere.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - CONFLICT OF INTEREST

BOT 4.1.6

Date of Last Update:
June 01, 2017

Approved By:
□ Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management
POLICY STATEMENT

4.1.6 Conflict of Interest

4.1.6.1 Employment. Appointment of any relative of a faculty or staff member must be approved by the President in advance of the appointment in order to insure that no conflicts of interest exist. Each Appointing Officer must insure that no conflicts of interest exist in matters of appointment, retention, promotion, termination, assignment or other conditions of employment for relatives of faculty or staff members within his or her unit.

4.1.6.2 Financial. It shall be the responsibility of the President (or his/her designee) to insure that conflicts of financial interest do not occur, and to take such steps to protect the University as seem to be required. The University respects the rights of its faculty and staff members in their activities outside their employment which are private in nature and which in no way conflict with or reflect upon the University.

4.1.6.3 Political Candidates or Office Holder. The University affirms the rights of its faculty and staff members as citizens to be active in political affairs which do not conflict with the professional standards and ethics of their employment. It shall be the responsibility of the President (or his/her designee) to ensure that conflicts involving professional standards and ethics do not occur with University faculty and staff members who are political candidates or office holders, and to take such steps to protect the University as may be required.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - EMERITUS APPOINTMENT

BOT 4.1.7

Date of Last Update:
February 08, 2019

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.7 Emeritus Appointment. Any retired faculty or staff member of the University who has made a significant contribution to the University through a reasonable period of service is eligible for emeritus status with an emeritus title usually conforming to that held at retirement. The President's recommendation to the Board of Trustees will be made after consultation with the Appointing Officer, colleagues and vice-president. This recommendation may be made posthumously if all other criteria except retirement status have been met. In its sole judgement, the Board of Trustees reserves the right to revoke emeritus status. Emeriti will be appointed without compensation.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - HONORARY TITLES

BOT 4.1.8

Date of Last Update:
June 01, 2017

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.8 Honorary Titles. Persons who are performing significant services to the University may be given an honorary title conforming to the service performed upon recommendation of the President to the Board of Trustees. Honorary faculty and staff will be listed in appropriate publications, may participate in commencement, use library facilities, and will be encouraged to take an active role in the University. They will be appointed without compensation. The duration of an honorary appointment shall coincide with the period of service rendered.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - VERIFICATION OF CREDENTIALS

BOT 4.1.9

Date of Last Update:
June 01, 2017

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.9 Verification of Credentials. All advanced degrees recognized by the University must be earned from institutions approved by recognized accrediting bodies. In the case of foreign degrees, a formal evaluation will be made by the Appointing Officer to determine equivalency with degrees awarded in the United States.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - OBLIGATIONS OF APPOINTEES
POLICY STATEMENT

4.1.10 Obligations of Appointees. As the result of accepting an appointment, the recipient becomes obligated to comply with all policies and regulations of the University applicable to the position including those in effect at the time of appointment and those duly adopted and issued thereafter. This obligation does not contravene the appointee’s rights of academic freedom or the express terms and conditions of the appointment. Among such policies are the following:

4.1.10.1 Outside employment. Since faculty and staff members are required to fulfill their responsibilities completely and effectively, any outside employment which a faculty or staff member wishes to undertake must be approved in advance by the Appointing Officer.

4.1.10.2 Rights in published material, inventions and secret processes. The University seeks to promote the public good through excellence in teaching, active scholarship, and service. In the course of these activities, faculty, staff, and students create Intellectual Property that may be eligible for copyright, patent, and other forms of legal protection. In order to reinforce the fairness of mutual commitment and in the spirit of academic freedom, the University recognizes the rich and varied products of individual scholarship, in all its manifestations, are rightly the property of the Creator except as otherwise defined by this Section 4.1.10.2. The University also recognizes that Intellectual Property should remain available for the benefit of the entire University community and that the Creators shall not use Intellectual Property in conflict or competition with the University. Therefore, the University community seeks to establish an environment in which the creation of Intellectual Property is suitably recognized as an academic achievement and in which the benefits of intellectual property to the creators, the University community, and the general public are optimized.

A. Ownership. All Intellectual Property shall be owned by its Creators when such Intellectual Property is not considered 1) work made for hire; 2) expressly assigned or commissioned by the University; 3) grant or contract funded through the University; or 4) to require more than nominal use of University resources. Irrespective of ownership, Creators shall disclose promptly and with full disclosure, in the manner prescribed by the University in order to protect confidentiality of the Intellectual Property, to the Finance and Administration Office any Intellectual Property discovered or created as a result of 1) work made for hire; 2) expressly assigned or commissioned by the University; 3) grant or contract funded through the University; or 4) more than nominal use of University resources. The President or designee by written agreement is authorized to make exceptions to this paragraph.

B. Right to use. In the event the Intellectual Property is owned by the Creator but involved University resources in the discovery or creation of the Intellectual Property, the University will retain a non-exclusive license to use the Intellectual Property within the University provided attribution is given to the Creator(s) of the Intellectual Property. In the event the Creator leaves the employ of the University, the University shall be able to modify the Intellectual Property for use within the University.

C. Commercial Application. Three options for the commercialization of a technology are noted below. The option will be chosen by Creator(s) and the Finance and Administration Office jointly, prior to the expenditure of substantial University resources. The option chosen should be that which best serves the mission of the University, including the objectives of this policy, and which is consistent with the available technology transfer resources of the University. The following three options for commercialization are available:

1. Licensing Third Parties. The University may license or assign Intellectual Property to external entities for further development and commercialization in exchange for a return on resulting revenues. The University and Creator shall divide the return on resulting revenues using one of the two formulas as follows:
   A. The University and the Creator divide the gross revenue 70% to the University and 30% to the Creator but the University assumes the expenses related to legal protection, marketing and commercialization and licensing and other transactional expenses related to the Intellectual Property; or,
   B. The University and the Creator divide the net revenue 50% to the University and 50% to the Creator but the University first recovers its expenses related to legal protection, marketing and commercialization and licensing and other transactional expenses related to the Intellectual Property.

If the University decides not to protect or license the Intellectual Property, or subsequently decides to not pursue commercialization of the Intellectual Property it may be reassigned to the Creator(s), upon request, in accordance with option 3 below.

2. Licensing Business Entities in which a Creator holds an ownership or management interest. The University or an affiliated entity may enter into license agreements with business entities in which the Creator holds an ownership interest. The terms may include royalty payment, equity interest, or a combination thereof.

3. Reassignment of ownership to Creator. The University may reassign ownership of Intellectual Property to Creator(s) who elects to market and protect the Intellectual Property. The return to the University for a reassignment of ownership will be ten percent (10%) of the net revenue generated by the Intellectual Property.

D. Definitions.

1. “Creator” shall mean a faculty or staff member who invents, discovers or creates Intellectual Property using University resources.

3. “Academic Works” shall mean Intellectual Properties that are artistic, scholarly, instructional or entertainment in nature and are not Technical Works. Academic Works include instructional materials, books, journal articles, written reports of research to the extent that they do not contain Technical Works, creative writings, manuscripts, music and art work

4. “Technical Works” shall mean Intellectual Properties that are generally of a scientific, engineering or technical nature such as patentable or unpatentable inventions, devices, machines, processes, methods, invented or manufactured substances, and computer software.

5. “Nominal Use of University Resources” shall mean use that is customary or usual within the faculty, staff and student’s appointment and assignment such as the use of an assigned office, computer, computing network, photocopier or similar reproduction device, telephone or similar telecommunication device, and office supplies in the ordinary support of his or her teaching, scholarly activities and service.

4.1.10.3 Oath of Teachers. Before serving in a teaching position, an appointee will have taken and subscribed the following oath or affirmation as required by Act 23 of the Public Acts of 1935:

“I do solemnly swear (or affirm) that I will support the Constitution of the United States of America and the Constitution of the State of Michigan, and that I will faithfully discharge the duties of my position according to the best of my ability.”
Research Integrity. Research, scholarship and creative activities are central to fulfilling the mission of the University. It is policy of the University that all employees, students, partners and affiliates always perform their roles related to research, scholarship and creative activity with ethical integrity. This requirement reflects a culture publicly committed to developing and fostering the highest standards of professional ethics. Research integrity is demonstrated in the decisions and actions that exemplify our core ethical values. The core ethical values in research related activities, including scholarship and creative performance, include: 1) truthfulness and honesty; 2) non-maleficence and beneficence; 3) trustworthiness, reliability, confidentiality, respect, and collegiality; and 4) accountability.

1. Truthfulness and Honesty. Intellectual and creative activities require thoroughgoing truthfulness and honesty in proposing, conducting and reporting research related activities, scholarship and artistic performance.

2. Non-maleficence and Beneficence. Endeavors involving human or animal subjects require balancing non-maleficence with beneficence in minimizing burdens to research subjects in relation to the potential benefits to those subjects and others.

3. Trustworthiness, Reliability, Confidentiality, Respect, and Collegiality. Research integrity requires trustworthiness and reliability in recognizing and building on the prior work of others, confidentiality in peer review and assessment, and respect and collegiality in interactions with colleagues and students.

4. Accountability. The broader community’s welfare depends upon explicit researcher accountability for all research, scholarship and creative performance related activities, and for reporting misconduct about which one has direct knowledge.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - PARKING

BOT 4.1.11

Date of Last Update: June 01, 2017

Approved By: Board of Trustees

Responsible Office: Legal, Compliance & Risk Management

POLICY

4.1.11 Parking. The University provides free open reserved parking as near to the faculty or staff member’s work station or office as possible.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - KEYS

BOT 4.1.12

Date of Last Update: June 01, 2017

Approved By: Board of Trustees

Responsible Office: Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.12 Keys. All faculty and staff members are issued keys and other equipment needed in the performance of their duties. All keys and such equipment must be used only as authorized and must be returned to the University upon termination of employment.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - IDENTIFICATION CARDS

BOT 4.1.13

Date of Last Update: June 01, 2017

Approved By: Board of Trustees

Responsible Office: Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.13 Identification Cards. Each faculty or staff member will be issued an identification card which must be surrendered upon termination. This card can be used for any purpose, at the University, requiring identification.

CONFIDENTIAL PROFESSIONAL SUPPORT STAFF

BOT 4.9.1

Date of Last Update:
POLICY STATEMENT

4.9.1 All policies for confidential professional support staff will be governed by the provisions of the Confidential Professional Support Staff as approved by the President.

HONORARY NAMING OF A PORTION OF A GVSU FACILITY POLICY

SLT 2.1

Date of Last Update: June 30, 2014

Approved By: Senior Leadership Team

Responsible Office: Office of the President

POLICY STATEMENT

Only in exceptional circumstances where a former member of the Grand Valley State University community has made an extraordinary, significant, positive, contribution will a portion of a facility be named for such a person. A portion of a facility may be a classroom, laboratory, conference room or similar space.

PROCEDURES

Nominations must be made in writing to the appropriate Vice President. With the support of the Vice President, the nomination will be forwarded to the Executive Associate to the President. The Executive Associate to the President will bring the nomination to the Senior Leadership Team who will review and give input to the President of the University. The President of the University will make the final determination on the naming of portions of facilities. The nomination must include specific examples of the nominee’s contributions to the University.

The names of portions of facilities honoring former members of the University community shall be considered permanent as long as that portion of the facility exists or its purpose has not changed or the President subsequently determines otherwise.

It is generally understood that entire University buildings or facilities will not be named in honor of a former member of the University community. (Please see Grand Valley State University Board of Trustees’ Policies BOT 6.13.3, Naming of Buildings.)

The President of the University will consider nominations in consultation with others at the university as appropriate. The final decision on the naming of a portion of a University facility will rest with the President of the University. The Executive Associate to the President will communicate the President’s decision to the requesting party and the appropriate Vice President.

POLICY ON POLICIES

SLT 2.2

Date of Last Update: March 25, 2008

Approved By: Senior Leadership Team

Responsible Office: Office of the President

POLICY STATEMENT

The Grand Valley State University community will have access to clearly stated university-wide administrative policies, to be published as Grand Valley State University Policies on the University Web site. These policies will be:

- Formally approved and kept current
- Accessible to all parties in a centralized Grand Valley State University Policies website
- Communicated to operating units in a timely manner

PROCEDURES

A Policy is characterized by the following criteria:

- It is a governing principle that provides specific rules and provisions for implementing Board policies and setting expectations for the administrative operation of the University.
It has institution-wide application.
It enhances the University’s mission and connects it to individual conduct.
It helps ensure compliance with applicable laws and regulations and Grand Valley State University Board of Trustees policies, promotes operational efficiencies and reduces institutional risk.
It may change infrequently and sets a course for the foreseeable future.
It is approved by the President and/or the Senior Leadership Team.

There are many department-level policies that apply only to those within a department and do not meet all of the above criteria. Therefore, they are not considered to be Grand Valley State University Board of Trustees’ Policies, and are not governed by this document. However, these policies may not conflict with the Board of Trustees’ Policies or Senior Leadership Team (SLT) Policies.

The Grand Valley State University Board of Trustees’ Policies will not include: curricular requirements for degrees, the basic terms and conditions of employment subject to collective bargaining, Academic & Student Affairs Policies as published in the Faculty Handbook and Student Code, Catalog, or division-wide policies (approved by a Vice President in consultation with the President).

Additional Policy Criteria for Vice Presidential Review

A Vice President or the Provost may use the following criteria in addition to the above policy definition when determining whether a proposed policy is suitable for consideration as a Grand Valley State University Policy:

I. People
   a. Does it impact inclusion or equity?
   b. Who will be affected; how many will be affected?
      i. Students
      ii. Faculty
      iii. Staff
   iv. External or internal audience
   v. More than one department/division
   vi. More than one campus

II. Money
   a. Is there a source of funding?
   b. Does it involve an expense or provide revenue?
      i. One-time expense
      ii. On-going expense
      iii. Fee or refund involved

III. Space
   a. Does it affect or commit a use of space?
   b. Does it involve the use of University communication systems?

ART COLLECTION MAINTENANCE AND CARE POLICY

SLT 3.1

Date of Last Update:
December 05, 2014

Approved By:
Senior Leadership Team

Responsible Office:
Art Gallery Department

POLICY STATEMENT

The Grand Valley State University art collection is made up of paintings, drawings, prints, sculptures, ceramics, textiles, and other works of art as defined by the Art Gallery Department but does NOT include plaques, signage, degrees, awards, and other similar items. The art collection is displayed on every University campus, and in nearly every University facility and building. Faculty and staff members, contractors, students, and other people with duties/responsibilities requiring them to come into contact with the University art collection are subject to the following policies and procedures to ensure that the University’s legal, ethical, and fiduciary responsibilities for the safekeeping of these assets are maintained. For more details on all other internal art procedures, see the Art Gallery Collections Policy on the Art Gallery’s website or contact the University Art Gallery at (616) 331–3638.

PROCEDURES

Maintenance and Care

All art at the University is to be cleaned, handled, installed, de-installed, and transported exclusively by the staff of the University Art Gallery. Other than representatives of the University Art Gallery, individuals must have written permission from the Director of Galleries and Collections, Assistant Director, or the Curator of Collections Management before handling or moving any pieces of the art collection.

Building Construction/Renovation Projects

The Director of Galleries and Collections or designee will call a meeting in December of each year with representatives from Facilities Services, Facilities Planning, and Auxiliary Services (Housing) for the purpose of identifying upcoming projects that will affect the art collection.

A follow-up meeting, called by Director of Galleries and Collections or designee, will take place in April of the next year for updating project status and will include a timeline for each project identified. Facilities Services Project Managers will be identified and included on the project lists.

The Director of Galleries and Collections, or designee, will attend the bi-monthly Facilities Project Status meetings to be kept up to date on all ongoing university construction projects and timelines.

The Art Gallery office will be alerted by a representative of Facilities Planning and Facilities Services as soon as reasonably possible for all, including last-minute, building project additions, deletions or changes. This includes a preferred art removal lead-time notice of no less than two weeks. This notice will be made directly by contacting the Art Gallery office.

The Art Gallery office will be contacted immediately in the event of an emergency (flood, fire, etc.) via a phone call if any piece of the art collection is in jeopardy of damage or
destruction. The Art Gallery staff will maintain a disaster and emergency preparedness plan (under development) for its collections and will make it accessible on its website.

Use and Access
The University art collection shall be accessible for research and study by responsible investigators, subject to procedures necessary to safeguard the objects, the space in which they are located, and to restrictions imposed by limitations of exhibition requirement, availability of study space and facilities, and availability of appropriate curatorial staff as determined by the curator/manager in charge of the collection. The entire University art collection is made digitally accessible through an online searchable database and mobile device applications. Information about both may be found online at the Art Gallery website, www.gvsu.edu/artgallery.

BRIDGE FUND REQUEST POLICY
SLT 3.2

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT
Grand Valley State University does not encourage creating nor approving a Request to Add a New Fund (RANF) and establishing a FOAP prior to the official receipt of a fully executed award. A fully executed award is an externally sponsored agreement (grant, contract, or cooperative agreement) that is signed by the duly authorized official of both the external sponsor and Grand Valley State University. It is important to note that any expenses incurred prior to an award and without the appropriate approvals place the University at risk.

However, in some extraordinary situations, effective project management or research necessitates incurring expenses prior to the receipt of a fully executed award. In such cases, Principal Investigators may request a 'bridge fund' be established in anticipation of the fully executed award. Principal Investigators should contact the Office of Sponsored Programs (OSP) to initiate a Bridge Fund Request.

PROCEDURES
In an effort to minimize the risk to the University, the Office of Sponsored Programs will verify with the sponsor the allowability of pre-award costs, the anticipated award amount, and the period of performance. Once OSP receives verification in writing from the sponsor’s grants or contracts officer, the responsible Principal Investigator, Chair/Unit Head, Dean, and University Authorizing Official are all required to agree in writing to proceed with the expenditure of University funds in anticipation of the award. This agreement will be prepared by OSP in consultation with the Office of Business and Finance. It will be the responsibility of the Principal Investigator to obtain the required signatures of the appropriate Chair/Unit Head, Dean, University Authorizing Official, and Executive Officer (Office of the Provost).

The Bridge Fund Request will be processed in a manner similar to the Request to Add A New Fund. However, attached to the Bridge Fund Request will be:

1. Written verification from the sponsor (signed by the sponsor Grants/Contracts Officer) received by OSP
2. Bridge Fund Request Agreement signed by the Chair/Unit Head, Dean, and University Authorizing Official
3. A copy of the proposal application, narrative & budget

A Bridge Fund Request shall not exceed 15% of the anticipated GVSU award amount. The maximum allowable amount requested will be verified by OSP in consultation with the Office of Business & Finance. If the award is for multiple years, the Bridge Fund Request shall not exceed 15% of the anticipated GVSU award amount for the first year of the funding. Upon the official receipt of the fully executed award, the bridge fund transition into the official FOAP for the project.

Should funding not be received from the sponsor (e.g. the award start date is delayed, or the costs are determined to be unallowable, etc.) coverage of costs incurred on the project becomes the responsibility of the Department Chair/Unit Head having initiated and signed the initial Bridge Fund Request form.

This policy was effective August 1, 2007 and will be revisited for any revisions, changes, or sunset within one year of its effective date.

COLLEGIALITY POLICY
SLT 3.3

Date of Last Update:
June 06, 2014

Approved By:
Senior Leadership Team

Responsible Office:
Provost Office

POLICY STATEMENT
Grand Valley State University has a tradition of collegiality and shared governance and strives to maintain these standards as a mainstay of its institutional culture. As a value stated in the Board of Trustees' policies as adopted by the Board of Trustees BOT 1.3:
A range of thoughtful perspectives is necessary for open inquiry, liberal education, and a healthy community. Recognizing this, we seek and welcome a diverse group of students, faculty and staff. We value a multiplicity of opinions and backgrounds and seek ways to incorporate the voices and experiences of all into our University. We value our local community and embrace the participation of individuals and groups from Michigan, the nation and the world. We also encourage participation in educational opportunities abroad.

In order to foster a healthy and diverse environment, we will act with integrity, communicate respectfully, and accept responsibility for our words and actions. This University is a community whose varied functions, responsibilities, and contributions are supportive of the instructional, research, and service mission of the institution. Collegial interactions as referenced throughout this policy are those interactions that occur among and between colleagues, subordinates, supervisors, administrators and students. Collegial interactions are essential to support that mission in an effective, efficient, and ethical manner.

PROCEDURES

FACULTY AND STAFF MEMBER

If a faculty or staff member believes that she or he has been subjected to act(s) of non-collegiality, ideally, the individual should first try to discuss the matter with the offending person and/or the appropriate unit head or supervisor. If circumstances make this too difficult or if this does not resolve the matter, the faculty or staff member may seek assistance from the Work Life Consultant in Human Resources. In addition to providing help in resolving the matter, the Work Life Consultant can suggest other available resources. If using this process does not resolve the matter or the faculty or staff member so chooses, she or he may file a complaint using the appropriate Complaint Process identified for each staff group as listed below.

Complaint Process:

Faculty members – Chapter 4, Section 2.18 of the Faculty Handbook
Executive, Administrative and Professional Staff – Board of Trustees’ Policies 4.4.7
Professional Support Staff – Section 3.2.4 of the Agreement
Confidential Professional Support Staff – Section 9 of the Confidential PSS Handbook
Maintenance, Grounds and Service Staff – Section 5.2 of the Agreement
Department of Public Safety Staff – Section 5.2 of the Agreement
Security Staff – Personnel Policies in the Security Staff Handbook

STUDENT

If a student believes that she or he has been subjected to act(s) of non-collegiality, ideally, the individual should first try to discuss the matter with the offending person. If circumstances make this too difficult or if this does not resolve the matter, the student may seek assistance from the Dean of Students Office. In addition to providing help in resolving the matter, the Dean of Students Office representative can suggest other available resources. If using this process does not resolve the matter or the student so chooses, she or he may file a complaint using the appropriate process in the Student Code.

NOTE: The GVSU Collegiality Policy was modeled after policy from Northern Illinois University (www.niu.edu).

DEFINITIONS:

“Collegiality” defined:

Collegiality represents an expectation of a professional relationship among and between faculty, staff, and students with a commitment to sustaining a positive and productive environment as critical for the progress and success of the University community. It consists of collaboration and a shared decision-making process that incorporates mutual respect for similarities and for differences - in background, expertise, judgments, and points of views, in addition to mutual trust. Central to collegiality is the expectation that members of the University community will be individually accountable to conduct themselves in a manner that contributes to the University’s academic mission and high reputation. Collegiality among faculty, staff, and students involves a similar professional expectation concerning constructive cooperation, civility in discourse, and engagement in academic and administrative tasks within the respective units and in relation to the institutional life of the University as a whole. Collegiality is not necessarily congeniality nor is it conformity nor excessive deference to the judgments of faculty, staff, and students; these are flatly oppositional to the free and open development of ideas. Evidence of collegiality is demonstrated by the protection of academic freedom, the capacity of faculty, staff, and students to carry out their professional and learning functions without obstruction, and the ability of a community of scholars to thrive in a vigorous and collaborative intellectual climate.

Non-collegial Behavior(s):

Allegations or complaints of repeated and unreasonable activity, or a severe non-collegial act, that clearly interferes with the professional working, learning, or other University environment, if verified, will constitute a violation of this policy. Such allegations will be examined in a reasonable, objective, and expedient manner, and in accordance with applicable federal and state laws and university due process procedures. It is crucial for the University to ensure the right of all faculty, staff, and students to perform their individual and collaborative roles in a workplace, learning or other University environment that is free from incivility, misuse of authority, intimidation, humiliation, retaliation, and infringement upon personal and academic freedoms. Non-collegial behaviors constitute bullying.

CONFLICT OF INTEREST IN RESEARCH POLICY

SLT 3.4

Date of Last Update:
December 22, 2016

Approved By:
• Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence
POLICY STATEMENT

The University is committed to transparency, integrity of scholarship, and independence as it pursues its mission to create, preserve, and disseminate knowledge through teaching, research, and public service. Accordingly, Grand Valley State University allows and encourages faculty and staff to engage in outside activities and relationships that enhance the mission of the University. All faculty and staff members are to act with honesty, integrity, and in the best interest of the University when performing their duties, and to abide by the highest standards of research, educational, professional, and fiscal conduct.

External sponsors, whether governmental or private, institute conflict of interest regulations of their own for investigators seeking research funding. The purpose of such regulations is to promote objectivity in research and to provide a reasonable expectation that the design, conduct and reporting of sponsored research will be free from bias arising from Financial Interests of participating investigators. As a recipient of external funding from governmental and nongovernmental sponsors, the University must comply with these regulations. Similarly, investigators engaged in research on human subjects will be expected to comply with the Conflict of Interest (COI) provisions of the University’s Human Research Review Committee (HRRC) whether the research is funded from external sources or not.

No research, sponsored program, or technology transfer activities occurring at the University shall be adversely affected by the financial interests of the University personnel carrying out those activities. Prior to participating in a research, sponsored program, or technology transfer activity, University personnel having a potential conflict of interest shall disclose the details to the University. The Research Integrity Officer at the University shall be responsible for reviewing the disclosures and instituting an adequate plan for the management of any potential financial conflict of interest.

If any application for external funding is involved, faculty and staff investigators shall ensure that they have disclosed all Significant Financial Interests related to their University Responsibilities prior to submitting the application, and as soon as possible thereafter if a new Significant Financial Interest meeting the disclosure standard arises. Disclosures shall also be updated as soon as possible, but within 30 days, when an existing Significant Financial Interest ends or changes in a material way.

Faculty and Staff investigators funded by the Public Health Service (PHS) and/or other agencies that abide by PHS COI regulations are subject to additional requirements in accordance with 42 C.F.R. Part 50.601. Investigators involved in research funded by PHS sponsors must complete required conflict of interest training before engaging in research and every four years thereafter. GVSU may require training more frequently than every four years if there is a substantive conflict of interest change or specific instances of noncompliance.

This policy fulfills federal regulations requiring institutions receiving federal funding to have in place a written, enforced policy and process to identify and manage, reduce, or eliminate conflicts of interest of persons engaged in the design, conduct, or reporting of federally funded research.

COPYRIGHT POLICY

SLT 3.5

Date of Last Update:
May 06, 2015

Approved By:
Senior Leadership Team

Responsible Office:
University Libraries

POLICY STATEMENT

The Grand Valley State University Libraries are committed to following all applicable laws regarding copyright and other intellectual property. This includes not only preserving the rights of creators and owners of copyright, but also supporting the rights of users of copyrighted material, including fair use and other exemptions from copyright. This policy outlines the role of the University Libraries in providing education, information, and support regarding copyright, in order to fulfill our mission of advancing intellectual growth and discovery at GVSU.

PROCEDURES

The University Libraries work to educate and support our students, faculty, and staff by serving as an information resource on copyright law as well as the rights of creators, owners, and users of copyrighted materials. We provide detailed resources for understanding and working with copyright through our copyright guide: http://www.gvsu.edu/library/copyright.

We also offer educational programming, individual consultations, and other services related to copyright issues. For more information on the copyright services we provide, or for support with a copyright issue, please contact a librarian https://www.gvsu.edu/library/librarians.

The University Libraries offer education and information, but we do not enforce others’ compliance with copyright law, nor do we provide legal advice. We can help faculty, students, and staff understand how copyright law works in general, and provide information on specific issues, but the final responsibility for ethical and legal use of copyrighted materials rests with the user. This responsibility extends to the use of technology provided by the Libraries, such as scanners and photocopiers.

The University Libraries do take responsibility for adhering to copyright law when using copyrighted materials in our mediated services, including course reserves and Document Delivery, and we make internal decisions accordingly. However, we cannot make decisions for other users; we can only provide information and education. For legal advice pertaining to copyright and other intellectual property issues, we recommend that you contact the Division of Legal, Compliance & Risk Management.

EXPORT CONTROL POLICY

SLT 3.6

Date of Last Update:
April 24, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence
POLICY STATEMENT

All personnel at Grand Valley State University, including faculty at all levels, staff, students, visiting scholars, and all other persons herein referred to as “GVSU Personnel” retained by or working at the University must comply with all U.S. export control laws and regulations while teaching, conducting research, or providing service activities at or on behalf of the University. No GVSU Personnel may engage in any export activity that is prohibited by the U.S. Department of Commerce, the U.S. Department of State, the U.S. Department of Treasury’s Office of Foreign Assets Control, or any other government agency that enforces export laws/regulations. Similarly, GVSU Personnel may not transfer any controlled item, including technology and technical data, to any foreign nationals inside or outside the United States territory without approved documentation.

Compliance with export control laws and regulations must be considered and if necessary achieved before engaging in science or technology-based research, executing contracts or other agreements, purchasing high-technology devices or software, or traveling internationally. GVSU Personnel are responsible for the following:

(i) Ensuring their educational, research, and other University activities are conducted properly and in compliance with export control regulations, all requirements of this policy, and any technology control plan on which they are included;

(ii) Ensuring contracts and service agreements entered into on behalf of the University include the appropriate export control language;

(iii) Notifying the Office of Research Compliance and Integrity at least 30 days prior to traveling on behalf of the University to any of the following locations:

   (1) Embargoed and/or targeted sanctioned countries identified by the Export Administration Regulations and/or the Office of Foreign Assets Control, and
   (2) Prohibited countries identified by the International Traffic in Arms Regulations

(iv) Obtaining pre-approval from the Office of Research Compliance and Integrity to take or ship any University property to an embargoed, targeted sanctioned, and/or prohibited country as defined in (iii) above; and

(v) Ensuring University business is not conducted with any individual or entity on a prohibited party list published by the Departments of Commerce, State, or the Treasury.

It is essential that all GVSU Personnel keep current with information and training provided by the University. The Vice Provost for Research Administration (VPRA), or designee, is the University’s Empowered Official who is responsible for overseeing the University’s export compliance program.

The University’s Empowered Official or designee, is legally empowered to sign license applications or other requests for approval on behalf of the University and has authority to:

(i) Enquire into any aspect of a proposed export or temporary import by the University,

(ii) Verify the legality of the transaction and the accuracy of the information to be submitted, and

(iii) Refuse to sign any license application or other request for approval without prejudice or other adverse recourse.

For more information about export controls, please contact the Office of Research Compliance and Integrity at 616-331-3197 (https://www.gvsu.edu/export/).

NON-AFFILIATE/GUEST USE OF LIBRARY RESOURCES AND COMPUTERS

SLT 3.9

Date of Last Update:
February 19, 2020

Approved By:
Senior Leadership Team

Responsible Office:
University Libraries

POLICY STATEMENT

Grand Valley has developed this policy in cooperation with its libraries and library staff to outline the policy guest usage of written materials, books and documents housed within the library as well as library computer resources.

Tours

All requests for tours will be evaluated according to purpose, outcomes and facility availability. Scheduling is based on staff availability, the University academic calendar and activity within the library. Tours may be restricted during mid-term and final exam study periods. General building tours may be requested by calling 616.331.3500.

Walk-in tours of the Mary Idema Pew Library Learning & Information Commons are offered throughout the year. No registration is necessary, and these tours are available on a first come, first served basis, and limited to fifteen per session. Inquire at the Service Desk upon arrival. Self-guided tour brochures are available at the Service Desk.

GVSU course specific tours of any of the University Libraries locations may be requested, please contact your subject librarian.

University, school and professional groups interested in specific library programming; building vision and project, technology, architecture, facilities, or LEED information may request an administrative meeting and building tour by contacting University Libraries Administration at 616.331.2606.

Library Resources

Borrowing of GVSU library items requires a valid GVSU ID, GVSU Alumni Card, or MelCat Visiting Patron status.

Computer Access

Guests must present a valid, government issued ID or other photo ID with additional proof of residence to library staff. Additionally, guest users will agree to abide by current GVSU computer use policies. Failure to do so will result in computer access privileges being revoked. Library staff will exercise discretion in limiting guest access in favor of GVSU students, faculty and staff. Accommodations will be made for those in need of accessing our government depository collections.

Room Reservations

The University Libraries is oriented toward the students, faculty and staff of Grand Valley State University. Room reservations are limited to GVSU affiliated individuals and require authentication.
Minor Guests

In accordance with section V of the Minors on Campus Policy (SLT 9.8), the Libraries are not considered a venue appropriate for unescorted or unsupervised minors. Authorized representatives may check out items for minors, and in doing so, assumes responsibility for the material.

In accordance with the Minors on Campus Policy section IV, minors who are enrolled in GVSU courses, have all privileges and responsibilities of students using the Libraries.

EXTERNALLY SPONSORED PROJECTS POLICY

SLT 3.11

Date of Last Update:
September 04, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY

This document establishes Grand Valley State University’s (University) official policy governing the administration of proposals, awards, contracts, and agreements for all externally sponsored projects. Externally Sponsored Projects do not include Purchasing Agreements or Philanthropic Gifts.

The purpose of this policy is to help ensure that all proposals and awards for externally sponsored projects conform to federal regulations, including the Office of Management and Budget 2 CFR 200—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (a.k.a., the Uniform Guidance)—and are consistent with GVSU’s academic and business policies and sound fiscal practices.

POLICY STATEMENT

Only an Authorized Organizational Representative of the University may submit proposals to fund and/or otherwise support externally sponsored projects on behalf of the University.

In addition, an Authorized Organizational Representative may accept on behalf of the University any Externally Sponsored Project award resulting from such proposal submissions or other solicitation processes. The University will not normally accept awards received from outside sources without prior proposal approval as provided in this policy.

DEFINITIONS:

Assistance Action: The main purpose of an assistance action is to transfer money, property, services, or anything of value to the recipient in order to accomplish a public purpose of support or stimulation. The agency must have legal authority to award assistance agreements for this purpose. Grants or cooperative agreements are used to award assistance funds.

Authorized Organizational Representative: An Authorized Organizational Representative is the Vice Provost for Research Administration and any University employee(s) to whom the Vice Provost for Research Administration has delegated oversight responsibility for the administration and management of Externally Sponsored Projects at the University. Only an Authorized Organizational Representative has the authority to submit proposals, accept awards, and sign contracts and agreements for Externally Sponsored Projects on behalf of the University.

Externally Sponsored Project: Externally Sponsored Projects include all projects supported by way of grants and cooperative agreements (direct Assistance Actions); incoming or outgoing sub-recipient agreements or subawards (pass-through Assistance Actions); certain incoming or outgoing contracts (i.e., externally sponsored Procurement Actions), including direct contracts, service agreements, and consulting agreements; pass-through subcontracts and service agreements; and certain other agreements, including master collaboration agreements, material transfer agreements, and data-use agreements—whether funded or unfunded. Externally sponsored projects do not include Purchasing Agreements or Philanthropic Gifts.

Philanthropic Gift: A philanthropic gift is an instrument by which an outside donor voluntarily transfers money, services, or property from a donor to the University. There is no expectation of direct economic benefit or the provision of goods or services to the donor, although donors can place stipulations on gifts that direct the funds to the donors’ areas of interest. The absence of quid pro quo language helps define the charitable nature of this type of giving.

Procurement Action: The main purpose of a procurement action is to acquire property or services by purchase, lease, or barter for the use or direct benefit of the purchaser (whether the purchaser is the university purchasing from an outside entity or an outside entity purchasing services from the university). An agreement or contract is used as the legal instrument to award a Procurement Action.

Purchasing Agreement: An agreement entered into by the University through its Procurement Services Office and an outside vendor or supplier to purchase goods and/or services. Examples of non-sponsored purchasing agreements include software licenses, pricing agreements, equipment maintenance agreements, custodial and facilities services, landscaping services, and office supply-vendor agreements.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.

ALLOWABLE COST POLICY

SLT 3.11.1

Date of Last Update:
September 04, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Office of Sponsored Programs

POLICY

All costs proposed to be charged on externally sponsored projects (as defined at SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY at Grand Valley State University (the University) must comply with the Federal cost principles prescribed in 2 CFR 200 Subpart E, §200.400; the policies of the sponsoring agency; the specific funding solicitation for which the cost is proposed; and all applicable policies of the University.

Specifically, in order to be deemed an allowable cost on such a project, the cost of any particular item must:

1. Be necessary and reasonable for the performance of the awarded project. That is, the project cannot be performed without the item and a reasonable and prudent person would incur the cost of the item under the circumstances prevailing at the time the decision was made to propose or incur the cost (§200.403-404).
2. Be fully allocable to the particular awarded project or be proportionally allocable to it and another cost objective according to the relative benefit derived (§200.405).
3. Be treated consistently. A cost may not be assigned to a sponsored project as a Direct Cost if any other cost incurred for the same purpose in like circumstances has been allocated to the awarded project as an Indirect Cost. University policies governing the treatment of costs must apply uniformly to both sponsored- and non-sponsored activities. Like expenses must be treated the same in like circumstances (§200.400(e)).

Such costs much also meet one of the following two criteria:

1. Be an item or category of cost that is not expressly disallowed by the federal government (guidance available at §200.420-475, General Provisions for Selected Items of Cost); the sponsor (as documented in sponsor policy statements and in the applicable sponsor funding solicitation); or the University (as defined below under Unallowable Costs and documented in the Business and Finance Procedures and the University-Wide Policies); OR
2. Be an otherwise unallowable cost that is expressly allowed by the sponsor, whether as stipulated in an award or proposal-solicitation document or as documented in a prior written approval request duly executed by an Authorized Organizational Representative of the University. If an expense does not meet the above criteria, it must not be charged to an externally sponsored project at the University.

DEFINITIONS:

Direct Costs are expenses that are specifically associated with a particular externally sponsored project that can be directly assigned to such activities with a high degree of accuracy.

Indirect Costs (also referred to as Facilities & Administration [F&A] or overhead costs) are expenses that cannot be identified specifically with a particular project or activity. Indirect costs benefit multiple activities and programming objectives. In order to capture the amount of indirect costs that should be allocated to a grant, the University has calculated an indirect cost rate, approved by the federal government.

The indirect costs included in this rate are made up of two broad categories: Facilities and Administration.

Facilities costs include:
- Custodial and Maintenance
- Utilities
- Grounds Services
- Parking Operations, less parking lines and fees
- Property and Liability Insurance
- Facility Planning and Management
- Engineering Planning and Management
- Depreciation

Administration costs include all the expenses incurred in providing the following university services:
- Central Administration
- Business & Finance, including financial audit
- Human Resources
- Legal Services
- Inclusion & Equity
- Library Operations
- Administrative Computer Operations
- Grants and Research Administration
- Department Administration, as defined by the federal government to be 20% of Dean and Dean’s assistant compensation
- Mail Services
- Public Safety
- University Communications

Federal Cost Principles are the Federal regulations that govern expenditures on federal awards and which also apply to non-federal awards to GVSU because of the University’s required federal compliance under 2 CFR 200 Subpart F. Audit Reporting.

Prior Written Approval is a formal permission the University must document before it proposes or incurs a special or unusual cost that may be deemed unallowable under the federal cost principles under normal circumstances.

Requests for prior written approval must be rationalized in writing as allowable under an “unlike circumstances” justification by the University personnel who wish to propose the special or unusual costs. The requests are then reviewed, approved, and (assuming approval is granted) formally submitted to the sponsoring agency by the Authorized Organizational Representative of the University (as defined in SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY).

In accordance with the Uniform Guidance at 2 CFR 200, prior written approval from the sponsor is explicitly required (either in the awarded proposal budget, during award negotiation, or prior to incurrence of costs in the event that the expense is to be proposed post-award) for a number of items, including the following:

1. Administrative expenses (§200.413(c))
2. Change of scope (§200.308 (c)(1))
3. Cost sharing or matching (§200.308 (c)(7))
4. Entertainment costs (§200.438)
5. Equipment and other capital expenditures (§200.313, 439)

SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY
COST SHARING POLICY FOR EXTERNALLY SPONSORED PROJECTS
SLT 3.11.2

Date of Last Update:
September 04, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Office of Sponsored Programs

POLICY
Grand Valley State University (the University) shall minimize cost sharing on all externally sponsored projects (as defined at SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY).

The University will allow cost sharing on such projects under the following conditions:

1. When it is required by the sponsoring agency (Mandatory Cost Sharing) as documented in a proposal solicitation, program description, sponsor policy, Catalog of Federal Domestic Assistance record, broad agency announcement or other official sponsor document.

2. When a reasonable justification is made that provision of Voluntary Cost-Sharing (whether Committed or Uncommitted) will improve the competitiveness of a proposal.

Further, in cases under which the University will allow cost sharing:

1. The proposed cost sharing must be thoroughly and accurately quantified;

2. The proposed cost sharing must represent an allowable cost (as defined in SLT 3.11.1 ALLOWABLE COST POLICY);

3. The proposed cost sharing must be limited to what is required by the sponsor (Mandatory Cost Sharing) or to what is deemed reasonable by the Appointing Officer (as defined in BOT 4.1.1: GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF – PERSONNEL ADMINISTRATION) who has authority over the resources proposed to be committed (Voluntary Cost Sharing);

4. The approval to subsidize all proposed cost sharing must be documented by the Appointing Officer who has authority over the resources proposed to be committed;

5. The quantification and approval of cost-sharing subsidies must be documented and approved by the Authorized Organizational Representative of the University (as defined at SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY) using the standard systems and processes of the Office of Sponsored Programs; AND

6. All approved cost sharing included in an awarded externally sponsored project must be monitored, tracked, and reported by the Grants Accounting office in accordance with all applicable federal and sponsor requirements.
DEFINITIONS:

**Cost Sharing**: Cost sharing is that portion of an externally sponsored project cost that is not reimbursed by the sponsor (whether federal or non-federal) and therefore represents a commitment of institutional resources that would generally otherwise be devoted to other University purposes.

There are three forms of cost sharing:

1. Mandatory Cost Sharing, which is required by the sponsor as an award condition and becomes an obligation once an award is made;
2. Voluntary Committed Cost Sharing, which is voluntarily offered and documented in a proposal submission and therefore becomes an obligation once an award is made; and
3. Voluntary Uncommitted Cost Sharing, in which voluntary cost sharing is intended, but not explicitly committed (documented) in a proposal, and therefore not a binding commitment that must be tracked and reported.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.

Office of Sponsored Programs

**POLICY**

Grand Valley State University (the University) normally does not allow for compensation charges in excess of an individual’s Institutional Base Salary on any Externally Sponsored Project (as defined in SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY). In most cases, funding from such projects must supplant, not supplement Institutional Base Salary during the Base-funded Appointment Period.

In the absence of unusual circumstances and specific Prior Written Approval (as defined in SLT 3.11: ALLOWABLE COSTS POLICY) from the appropriate University and/or sponsor officials as described in this policy, faculty member compensation for sponsored-project work at the University must offset Institutional Base Salary through:

1. The use of Significant Focus Time (as defined in SG 3.01: FACULTY RESPONSIBILITIES);
2. The application of Reassigned Time (as defined in SG 3.03: REASSIGNED TIME); or
3. Some combination of Significant Focus Time and Reassigned Time.

Absent Prior Written Approval for Supplemental Compensation following procedures stated below, Administrative/Professional staff members must also offset Institutional Base Salary to participate in externally sponsored projects (supplant, not supplement). Such offsets shall require a reorganization of established job duties in the staff member’s organizational unit that is approved by the staff member’s Appointing Officer and Executive Officer.

In order to charge Supplemental Compensation to federally funded Externally Sponsored Project accounts at the University, the work performed must be justifiable as Intra-Institution of Higher Education Consulting as defined at 2 CFR 200.430—COMPENSATION; PERSONNEL SERVICES, which limits such charges according to their adherence to specific criteria. Such consulting must be:

1. Across departmental lines or involve a separate or remote location that is at least 30 miles away from the employee’s University campus office;
2. Outside the scope of the employee’s regular appointment as documented in the employee’s appointment letter;
3. Short term in nature; and
4. Provided for in the sponsored agreement, or approved in writing by the sponsoring agency prior to the incurrence of applicable expenses.

In order to charge Supplemental Compensation to a non-federal Externally Sponsored Project account, the allocation is subject to the prior written approval of the Vice Provost for Research Administration as well as the sponsoring agency.

DEFINITIONS:

**Base Appointment Period** at the University generally falls into one of two categories:

1. An Academic Year Appointment is comprised of the nine-month span from August 6 of a given calendar year to May 5 of the following calendar year.
2. A 12-month Appointment is comprised of the twelve-month span from August 6 of a given calendar year to August 5 of the following calendar year.

**Institutional Base Salary** is the annual salary the University pays for an employee’s appointment, regardless of appointment category and whether the employee’s time is spent on research, teaching, administration, patient care, or other University responsibilities. Institutional Base Salary does not include bonuses, one-time payments, incentive pay, or income that an employee is permitted to earn outside of their University responsibilities such as Private Consulting.

**Private Consulting** refers to works for hire performed by a University employee outside of their University responsibilities. To be deemed private consulting, work must be performed without the use of any University resources, including administrative services of any kind, facilities (classroom, clinical, meeting, or office space), supplies, equipment, computing resources, and any other service or resource owned by the University. Any outside employment must be approved in advance by the Appointing Officer (BOT 4.1.10). Consulting services that require the use of University resources are subject to SLT 3.17: SERVICE AND CONSULTING AGREEMENTS POLICY.

**Supplemental Compensation**, also known as extra salary or extra service pay, is compensation a University employee receives in excess of Institutional Base Salary; Supplemental Compensation represents payments for services outside the normal scope of employment.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.
POLICY STATEMENT

Grand Valley State University’s Facilities and Administrative (F&A) rate (also known as the indirect-cost rate) is established in accordance with the Federal Office of Management and Budget under 2 CFR 200 Uniform Guidance (previously A-21). The rate is negotiated between the University and the U.S. Department of Health and Human Services, the cognizant federal agency that oversees the administration of sponsored agreements at the University. The University’s F&A rate reflects the cost of real, auditable expenses incurred in the conduct of sponsored research and programs. Included among these costs are depreciation costs of buildings and equipment, maintenance and repairs, janitorial services, utilities, hazardous waste disposal, libraries, and general administrative costs such as sponsored programs administration, departmental administration, and general administration (accounting, purchasing, legal services, personnel, and compliance). These costs are “indirect” because they are not easily identified with a specific project and therefore are not included in the “direct” portion of the budget. Such indirect costs support the conduct of research and other sponsored programs, regardless of the source of funding, and therefore must be applied to all sponsored projects. For reasons of sound management and equitable stewardship of resources used in support of all sponsored activities, it is expected that all sponsored projects recover full F&A costs.

PROCEDURES

Facilities & Administrative (F&A) Cost Recovery Policy:
It is the University’s policy that all proposals and agreements for sponsored research, including subawards and industry contracts, are subject to the recovery of facilities and administrative costs (F&A) at the University’s approved and published rate. In some cases, the sponsor has a written policy, uniformly applied, prohibiting F&A costs or restricting the payment of such costs to a lower rate. An exception to the University’s F&A cost recovery policy may be warranted if it is clearly in the best interest of the University to accept the award with less than full F&A cost recovery. Any reduction (defined as a waiver of F&A) is strongly discouraged and requires prior approval from the Vice Provost for Research Administration. This exception does not apply to for-profit (industry) sponsors, as such sponsors are expected to provide full F&A when funding a sponsored project. Designation of a sponsored award as a gift will not preclude the recovery of indirect costs if such costs are allowed by the donor.

Facilities & Administrative (F&A) Cost Return and Use Policy:
Each year, the University returns a portion of the recovered F&A costs as appropriate to those generating the grants and contracts. This return of F&A costs generally occurs at the end of each fiscal year and is based upon the F&A costs recovered on sponsored projects during the preceding fiscal year (July 1 - June 30). For sponsored awards originating within academic units with a tenure stream Faculty Principal Investigator, recovered funds are distributed as follows.

- Faculty Principal Investigator – 12.5%*
- Faculty Home Department – 7.5%
- Appointing Officer of unit generating the recovered funds – 20%
- Provost – 20%
- General Fund (Facilities Infrastructure) – 40%

For all other proposals, recovered funds are distributed as follows.

- Appointing Officer of unit generating the recovered funds – 40%
- Provost – 20%
- General Fund (Facilities Infrastructure) – 40%

It is anticipated that, when appropriate, recovered funds will be used strategically for research initiatives, faculty start-ups, bridge funding and required cost share, and to provide the necessary administrative support for research projects. Indirect cost recovery funds cannot be used to increase the principal investigator’s annual compensation.

Indirect cost revenue recovered on Financial Aid expenditures will not be allocated and all proceeds will be returned to the General Fund.

Charter Schools are not considered a sponsored program and therefore not affected by this policy.

*Note: if the recovered funds allocated to the Faculty PI are less than $500, funds will be deposited into departmental FOAPs rather than individual Faculty PI FOAPs

GENERAL RESPONSIBILITIES OF PRINCIPAL INVESTIGATORS/PROJECT DIRECTORS POLICY

POLICY STATEMENT

The Principal Investigator/Project Director is responsible for a variety of general responsibilities, which are outlined in the following section.
PROCEDURES
Responsibilities
The following General Responsibilities form shall be provided by OSP to each Principal Investigator at the time of award. The Principal Investigator is responsible for signing and returning the original to OSP within five business days of its receipt. The original shall be retained in the award OSP record file in accordance with record retention guidelines. The Principal Investigator/Project Manager is responsible for:

- Completing a Conflict of Interest Financial Disclosure form, and having no conflict of interest that could affect the conduct of the project. Any such possible conflict of interest must be reported to OSP as soon as it is apparent.
- Ensuring that for those items acquired or purchased under the terms of the award and with grant funds that sponsor requirements and GVSU Purchasing Procedures are followed.
- Ensuring that all project expenditures are directly related to the project and necessary to meet project goals and objectives. Knowing the cost sharing requirements that were committed in the budget approved by the agency and GVSU and insuring that these obligations are met.
- Certifying the time/effort of personnel paid by the grant, contract/subcontract, or cooperative agreement, or cost sharing/matching time on the project.
- Completing a Conflict of Interest Financial Disclosure form, and having no conflict of interest that could affect the conduct of the project. Any such possible conflict of interest must be reported to OSP as soon as it is apparent.
- Ensuring that PI as well as all undergraduate, graduate, or post-doctoral students receive Responsible Conduct of Research training, if required by the sponsor. PIs and students are required to sign a Completion of Training form confirming the date, receipt, and satisfactory completion of this training. The form must be returned to OSP for the record file.
- Ensuring that GVSU policies and federal regulations governing the protection of human research subjects are followed. Ensuring the adherence to federal governing regulations and GVSU Animal Care and Use Policy for the use of animals in research. 
- Ensuring compliance with the GVSU policy on Political Activity, as well as ensuring compliance with the terms and conditions of an award governing such activity.
- Submitting required reports and/or documentation in a timely manner.
- Certifying that s/he, and any subcontractor or sub-recipient on this project, is not debarred, suspended or proposed for debarment by any federal entity. The PI agrees to notify the University (both OSP and Purchasing Dept.) of any change in this status, should one occur, until such time as an award is made under a procurement action. See www.sam.gov.

The Office of Grants Accounting will assist with the invoicing and accounting process. The PI is also responsible for ensuring that all grant expenditures are reviewed on a monthly basis (at a minimum) and ensuring that those expenses incurred are approved in the BANNER system.

SERVICE AND CONSULTING AGREEMENTS POLICY
SLT 3.11.6

Date of Last Update:
October 15, 2018

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT
This document establishes Grand Valley State University’s (University) official policy governing the approval and management of service or consulting agreements that employees through the University, meaning cases in which the University would be the contracting party. These are agreements under which Principal Investigator (PI)-Eligible faculty and/or Administrative/Professional (A/P) staff members are obligated to provide specified services or “deliverables” and that do not fall squarely within the traditional framework of research or teaching activities. While these agreements may have research, scholarly, or other benefits to the University, those benefits are a secondary aspect, not the primary purpose of the activity. The terms “service agreement” or “consulting agreement” are intended to be descriptive; such agreements could have other labels or titles.

In some cases, employees who may consider providing services independently of the University as consultants will do this for their own account, on their own time, and using their own resources and subject to applicable University policies. However, review and approval of all proposed service and consulting agreements under this policy is required to ensure compliance with employment, tax, and intellectual-property law; regulatory requirements governing research and the use of certain kinds of data; and institutional policies regarding student engagement in externally funded activity and the appropriate use of University resources.

The University should be the contracting party only when justified by compelling reasons that meet the General Criteria of this policy. There are occasions, however, when a PI-Eligible faculty or AP staff member wants to provide a service through the university. For example, the activity may have a strong academic and/or university programmatic component and the faculty or A/P staff member may want to be able to use university facilities, resources, staff, or students to carry out the proposed contractual activity. In those circumstances, this policy allows for the University to act as the contracting party, but only if the activity in question meets the General Criteria of this policy.

By way of illustration, but without limitation, services that PI-Eligible faculty and A/P staff members may seek to provide through this policy may include:

- Performing an evaluation or assessment of an external program, such as an educational program or public-health initiative;
- Establishing rating criteria, such as standards for measuring health or safety outcomes;
- Providing technical assistance to a foreign government in areas such as social, health or economic services;
- Delivering professional-development services;
Partnering with industry to engage students in technical projects the delivery of which will contribute to the educational goals of the students involved; and/or

Assisting a city government in its urban planning.

PROCEDURES
This policy designates authority to the Vice Provost for Research Administration or their designee to establish such operational procedures as deemed necessary to implement the policy, and ensure operational efficiency, proper oversight of compliance and financial management, and ensure the success of externally sponsored projects at the University.

DEFINITIONS:

Authorized Organizational Representative (AOR): The official to whom the Provost delegates authority to submit proposals to fund and/or otherwise support externally sponsored projects on behalf of the University and to accept on behalf of the University any awards, contracts, or agreements resulting from such proposal submissions or other solicitation processes.

Pi-Eligible: University faculty and AP staff members who are documented as eligible to serve as a Principal Investigator as defined in the University’s Principal Investigator Eligibility Policy.

Benefits and Risks

Often, participating in service agreements involves high-profile and challenging projects that may benefit members of the university community by, for example:

- Adding significantly to faculty, staff, and student expertise;
- Demonstrable connections to curricular and co-curricular development, new teaching cases, program development in executive education, and professional development;
- Engaging faculty in domestic and international matters that are highly relevant to their teaching and scholarship, or employees in their administrative responsibilities; and/or
- Initiating or reinforcing strong institutional relationships that can serve long-term University interests.

Though there may be much to recommend the pursuit of these opportunities, especially where there is substantial potential to advance scholarship, education, and service, these arrangements may also pose risks that need to be managed. Service and Consulting Agreements are more complicated for the University to manage than routine sponsored-project agreements because of the expectations of the external entities, who perceive themselves as clients or customers rather than sponsors.

The following potential risk factors will be considered in the evaluation of Service and Consulting Agreements:

- The University, as the contracting party in these agreements, bears the risk of liability or reputational harm for non-performance or poor performance of agreed-upon tasks and for unsatisfactory contract “deliverables.” Potential risks reach beyond the payments to the University and could include monetary damages from the downstream effects of contested performance.
- Unlike in sponsored-project arrangements (i.e., assistance awards, such as grants or cooperative agreements), in which the sponsor may be presumed to be committed to the principles of objective science or the enhancement of the public welfare, “clients” or “customers” in service arrangements may be more focused on obtaining specific results and will likely be more involved in directing performance of the services. Institutional integrity and impartiality may be called into question if expectations are not properly managed at the outset.
- The use of the University’s students and staff to assist in these projects also raises unique policy issues. The University has a duty to students in particular. They should not be made to work on projects unless the work advances their educational goals. The interests of employees, students, and the institution must be safeguarded in the negotiation of such arrangements to assure that they may generate and publish works of scholarship, receive proper credit for their work, obtain appropriate intellectual property or other proprietary rights in the work product, and avoid confidentiality or other obligations that may compromise transparency and injure reputations.
- Special attention must be paid to assure that these arrangements comply with the university’s obligations as a tax-exempt organization (e.g., IRS regulations regarding Unrelated Business Income).

General Criteria

The proposed Service and Consulting Agreement must:

1. Advance the core mission of the academic or non-academic organizational units that will carry it out;
2. Provide a significant institutional and/or public benefit; and
3. If students are to participate in the activity, provide both a learning experience that advances student educational goals and that students will be free to use and disclose details of the experience in their academic and career pursuits, unless a Non-disclosure Agreement has been approved by the Office of the Vice Provost for Research Administration.

The determination as to whether a proposed Service and Consulting Agreement meets these criteria shall be the responsibility of the employee’s Appointing Officer. Such determinations shall be documented using University procedures for sponsored activity.

In addition, the proposed Service and Consulting Agreement must:

1. Present manageable and limited risks;
2. Be accurately budgeted to generate sufficient revenue to pay for full performance that includes both the direct charges associated with the activity and the university’s full federal negotiated facilities & administrative cost rate;
3. Be properly accounted for from a tax perspective;
4. Be reviewed and processed by the Technology Commercialization Office and the Office of Sponsored Programs (which may include the execution of a non-disclosure agreement to protect the intellectual property of the parties to the agreement; and
5. Receive approval from the employee’s Appointing Officer.
6. Be approved and submitted by the Vice Provost of Research Administration and/or designee.

And finally, once the Service and Consulting Agreement is fully executed, and throughout the performance of the contractual scope of work, the PI and responsible organizational unit must ensure that the activity complies with:

1. The contracted scope of work, timeline, and all agreed deliverables;
2. All applicable federal and state laws and regulations (e.g., export controls, use of human or animal subjects, intellectual property rights, disclosure and mitigation of financial and other conflicts of interest); and
3. All relevant University policies, such as invoicing for payment via the central accounting office of the University, and the use of the University’s name, facilities, equipment,
PRINCIPAL INVESTIGATOR ELIGIBILITY POLICY

SLT 3.11.7

Date of Last Update:
October 15, 2018

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY

This policy establishes the eligibility requirements for and the duties and responsibilities of all Principal Investigators (PI) at Grand Valley State University (University). The policy also provides for the establishment of formal processes to request and approve exceptions to the PI eligibility requirements.

POLICY STATEMENT

For each externally sponsored project, it is customary to designate as PI one person who bears ultimate responsibility for scientific, technical, and programmatic decisions, and all financial, administrative, and compliance matters relating to the project. It is the policy of Grand Valley State University that only eligible University faculty, staff, and trainees and appointees (when appropriate) may serve as the PI on externally sponsored projects to be carried out on behalf of the University.

Serving as the nominal project leader to lend credibility to a proposal while delegating PI responsibility to another person (i.e., “fronting” as the PI) is never permissible and is considered a violation of this policy.

PI eligibility is conferred in one of two ways: (1) automatically, by position, and (2) via special request, both subject to training as required by this policy.

1. Automatic Eligibility: PI eligibility is automatically conferred upon tenured and tenure track faculty at the rank of Professor, Associate Professor, or Assistant Professor.

Special-Request Eligibility: If PI eligibility is not conferred automatically, it may be conferred by Special Request of the employee’s authorizing official (dean, provost, vice president) or their designee(s). Certain non-academic units (e.g., the University Art Gallery, Small Business Development Center, Johnson Center for Philanthropy, Van Andel Global Trade Center) may request longterm PI status for the director, associate director, and other Administrative/Professionals (regular, full-time employees), as they deem appropriate. These personnel are all subject to standard Compliance and Training requirements for PI Eligibility.

1. Fellowships and Training Opportunities

Trainees (typically graduate students and post-doctoral fellows) may be eligible to be PIs on fellowship and training programs when that designation is required by the funding agency as documented in a funding opportunity announcement and a PI-eligible faculty or staff member is identified and documented as their sponsor/mentor. In this circumstance, a trainee’s PI eligibility is conferred and verified by the applicable Department/Unit Head’s approval during the internal proposal-routing process. It is not necessary to document approval of trainee PI eligibility via Special Request.

Trainee PI status is consistent with the treatment of all Special Requests for PI eligibility, in that it is conferred on a case-by-case basis; it does not confer blanket PI eligibility status for any other externally sponsored projects.

Compliance and Training Requirements

However it is conferred, PI Eligibility Status is contingent upon the documented completion of all required compliance and sponsored-programs training. Training requirements, certification, and documentation are determined and administered collaboratively by the Vice Provost for Research Administration, the Office of Sponsored Programs, the Office of Research Compliance & Integrity, and the Controller.

PROCEDURES

This policy designates authority to the Vice Provost for Research and the Director of Sponsored Programs to establish such operational procedures as they deem necessary to implement this policy, and ensure operational efficiency, proper oversight of compliance and administration, and the success of externally sponsored projects at the University.

It is the responsibility of the Office of Sponsored Programs to review all proposals to fund externally sponsored projects to determine and document PI eligibility prior to proposal submission. Proposals put forward by individuals without documented PI eligibility will generally not be approved for submission. Awards resulting from proposals submitted by ineligible PIs who either knowingly or unwittingly circumvent the standard approval process will generally not be accepted by the University.

Responsibilities of All Principal Investigators

Although the University is legally responsible to the sponsor as the actual recipient of any externally sponsored award, the Principal Investigator (PI) is accountable for the proper fiscal management and conduct of the project. This includes managing the project within funding limitations and all of the terms of the award, assuring that the sponsor is notified when significant conditions related to project status change, and ensuring that all programmatic reporting requirements are met in a timely fashion. To assist PIs, the University provides supporting administrative services and has established procedures to help meet both sponsor and University requirements. While responsibility for the day-to-day management of project finances may be delegated to administrative or other staff, accountability for compliance with federal requirements, University policies, and sponsor requirements ultimately rests with the PI. The full cooperation and vigilance of the PI, along with the University, is necessary to maintain the stewardship role.

1. Preparation of Proposals

Principal Investigators have primary responsibility for planning and carrying out the preparation and submission of proposals for external support. Although PIs may have administrative staff to assist with the proposal-development process, they are ultimately responsible for the quality and scientific integrity of the proposal, and for understanding and complying with all University policies for managing external support.

   a. Technical Proposal

   The Principal Investigator is responsible for preparing the technical proposal.
The Principal Investigator prepares, or directly supervises the preparation of, all aspects of the proposed budget and budget justification. This responsibility includes coordination with Procurement Services and compliance with all procurement policies and procedures. It also includes identifying any requests and sufficient resources for cost sharing (including matching funds); the need for space or space modifications (including any accommodations for large and/or unusual equipment); and the need for outside collaborators (sub-recipients, contractors, consultants). The PI ensures all costs are allowable, allocable, and reasonable for the project in accordance with the federal cost principals set out in OMB 2 CFR 200, and that all proposals include full recovery of all anticipated project costs. Full recovery includes recovery of indirect costs at GVSU’s negotiated federal rate or (in the case of non-federal sponsors or federal training grants) the maximum rate allowed under published sponsor policy.

c. Regulatory Requirements

The PI is responsible for anticipating whether the research will involve human subjects, live animals as subjects, recombinant DNA, infectious agents, narcotics or biological toxins, human blood or body fluids, radioactive materials, hazardous materials, export controls, conflicts of interest, or other regulated activities requiring University review or clearance. The PI is responsible for preparing information and forms required for review by the University’s Office of Research Compliance & Integrity.

d. Project Approvals

The Principal Investigator prepares, or directly supervises the preparation of, and electronically signs internal proposal-approval forms, and requests required approvals in a timely fashion.

2. Acceptance of the Award

The PI is responsible for collaborating with the Office of Sponsored Programs in any negotiations with the sponsor relating to modifications of the project scope or budget or proposed terms and conditions of the award.

The Principal Investigator is responsible for reviewing and approving the award agreement, in conjunction with OSP, including the scope of work, budget, and the special terms and conditions of the award, and for managing the award in accordance therewith.

3. Conduct and Management of Award

The Principal Investigator is responsible for all actions required to manage and complete the scientific, programmatic, and financial aspects of the externally sponsored project in accordance with all of its terms and conditions, including the performance of all sub-recipients. The Principal Investigator is also responsible for the management of the award budget and expenditures in accordance with federal, GVSU, and sponsor requirements. This responsibility includes attesting to the allowability, allocability, and reasonableness of all expenditures. Principal investigators are responsible for routine monitoring of the status of grant accounts to prevent overdrafts and incorrect charges and to ensure that unallowable costs are not charged to an award.

The Principal Investigator is responsible for the timely submission of all required programmatic reports, interim and final. The information contained in such reports must be supported by adequate documentation. The Principal Investigator will provide copies of all required programmatic and progress reports to the OSP and the Grants Accounting office.

DEFINITIONS:

Externally Sponsored Project: All grants and cooperative agreements (direct assistance actions); all incoming or outgoing sub-recipient agreements or subawards (pass-through assistance actions); certain incoming or outgoing contracts (i.e., externally sponsored procurement actions), including direct contracts, service agreements, and consulting agreements; pass-through subcontracts and service agreements; and certain other agreements, including master collaboration agreements, material transfer agreements, and data-use agreements—whether funded or unfunded. Externally sponsored projects do not include purchasing agreements or philanthropic gifts.

Principal Investigator (PI): An individual with a formal affiliation with the University, normally an employee, who is or becomes eligible under this policy to submit a proposal for extramural support for a research, training, public-service, or other externally sponsored project, who personally participates in the project to a significant degree, and who has primary responsibility for the scientific, technical, programmatic, and administrative conduct and reporting of the project, including compliance and financial matters. A Principal Investigator who is the head of a training or other sponsored project may be known as a Project Director. For the purposes of this policy, the terms shall be considered equivalent. The University only recognizes one individual as the Principal Investigator and this individual must personally participate in the project to a significant degree.

Co-Investigator (Co-I): An investigator who will share responsibility for the scientific, technical, and/or administrative conduct and reporting of a research or sponsored project with the Principal Investigator. Each individual named as a Co-Principal Investigator at the University must meet the same eligibility requirements as a PI as noted above. There may be more than one Co-Principal Investigator, but one person is designated as the leader (PI) of the project. While the University allows this approach, not all sponsors allow Co-PI models. In certain cases, a sponsor (e.g., the National Institutes of Health—NIH) may allow a Multiple Principal Investigator model to be employed in a research or sponsored project. Such models feature multiple PIs who are expected to equally share responsibility for leadership of multidisciplinary and other types of “team science” projects that are not optimally served by the single Principal Investigator model. Such models typically require a single “Contact PI” and special justification in the form of a Multi-PI Plan that documents processes for project governance and resolution of conflicts.

TEXTBOOKS AND COURSE MATERIALS POLICY

SLT 3.12

Date of Last Update:
October 10, 2016

Approved By:

Senior Leadership Team

Responsible Office:
Provost Office

POLICY STATEMENT

Textbooks and related course materials continue to be essential to the delivery of knowledge. For various reasons, the cost of those materials has continued to rise. The goal of the University is to provide the best quality educational resources at the lowest possible cost to the students by minimizing the cost of textbooks and course materials used at the university while maintaining quality of education and academic freedom.
PROCEDURES

The Provost’s Office is responsible for overseeing the faculty role in textbook selection. It discharges that responsibility by working closely with the Deans of the colleges. Business and Finance is responsible for overseeing the practices of the GVSU Laker Store.

Responsibilities of the Faculty:

- Faculty members shall submit lists of required textbooks, recommended textbooks and supplemental course materials to the GVSU Laker Store by the specified deadlines.

- Faculty are expected to compare various textbook options and to make the selection by taking into account pedagogical value, price, and availability. If all other considerations are about the same, the less expensive option should be selected. When there are multiple sections of a course taught by different instructors, it is preferable (but not required) that departments order the same textbook for all sections, in order to benefit students who may be adjusting their schedule during drop/add week and to support inventory management for the GVSU Laker Store.

- When faculty wish to require the purchase of any published textbooks or materials for which they have or will receive royalties or revenue, this decision shall be reviewed by the Unit Head, who shall determine whether the selection is appropriate, taking into account the criteria above. The purpose of the review is to disclose and to manage any actual or potential conflict of interest. The Unit Head may authorize that the review be conducted by a designee if certain disciplinary expertise is needed or if the Unit Head cannot provide a neutral review. If the Unit Head cannot identify a designee, then the review shall be conducted by the Dean or designee.

Responsibilities of the GVSU Laker Store:

- The GVSU Laker Store will continue to reduce textbook prices whenever possible.

- The GVSU Laker Store will buy back used textbooks, and the following semester make the used copies available at reduced price and display them next to the new ones.

- When filling departmental textbook orders, the GVSU Laker Store shall acquire as many used but still up to date copies as possible, make them available at reduced price, and place them next to the new ones.

- The GVSU Laker Store will display the required texts and materials with the course instructors’ names and course section numbers. This will help students make informed decisions when finalizing course schedules.

TRAINING OF PERSONNEL INVOLVED IN ANIMAL RESEARCH

SLT 3.13

Date of Last Update:
July 31, 2008

Approved By:

Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT

In conduction of research, all people working with laboratory animals must be qualified to do so in order to ensure the humane treatment of animals. As such, Grand Valley complies with the Animal Welfare Act as described below.

PROCEDURES

The Animal Welfare Act (AWA) Sec. 2.32 (a), (b), and (c) specify:

(a) It shall be the responsibility of the research facility to ensure that all scientists, research technicians, animal technicians, and other personnel involved in animal care, treatment, and use are qualified to perform their duties. This responsibility shall be fulfilled in part through the provision of training and instruction to those personnel.

(b) Training and instruction shall be made available, and the qualifications of personnel reviewed, with sufficient frequency to fulfill the research facility’s responsibilities under this section and §2.31.

(c) Training and instruction of personnel must include guidance in at least the following areas:

(1) Humane methods of animal maintenance and experimentation, including:

   (i) The basic needs of each species of animal;

   (ii) Proper handling and care for the various species of animals used by the facility;

   (iii) Proper pre-procedural and post-procedural care of animals; and (iv) Aseptic surgical methods and procedures;

(2) The concept, availability, and use of research or testing methods that limit the use of animals or minimize animal distress;

(3) Proper use of anesthetics, analgesics, and tranquilizers for any species of animals used by the facility;

(4) Methods whereby deficiencies in animal care and treatment are reported, including deficiencies in animal care and treatment reported by any employee of the facility. No facility employee, Committee member, or laboratory personnel shall be discriminated against or be subject to any reprisal for reporting violations of any regulation or standards under the Act;
Utilization of services (e.g., National Agricultural Library, National Library of Medicine) available to provide information:

(i) On appropriate methods of animal care and use;
(ii) On alternatives to the use of live animals in research;
(iii) The could prevent unintended and unnecessary duplication of research involving animals; and
(iv) Regarding the intent and requirements of the Act.

The PHS Policy, Section IV.C.1.f. places the responsibility specifically with the IACUC to ensure that personnel conducting procedures on research animals are appropriately qualified and trained in those procedures. The Institutional Animal Care and Use Committee may require additional training for each individual, depending on their prior training and experience with animals.

UNITED STATES GOVERNMENT DOCUMENTS INTERNET USE

POLICY STATEMENT

Grand Valley State University Libraries will provide the public with free and unrestricted access to online government information provided through the Federal Depository Library Program in accordance with section 1911 of Title 44, United States Code.

PROCEDURES

The public is able to access these materials on the Government Documents personal computers in Mary Idema Pew Library Learning & Information Commons and Steelcase libraries. Patrons are not required to provide any form of identification to use these computers, although they will need to see a librarian or staff person at the reference desk to login. Patrons using these computers are expected to adhere to the university’s policies regarding the use of electronic resources.

SPACE ASSIGNMENT POLICY

POLICY STATEMENT

Space is an institutional resource of Grand Valley State University. As such, it does not belong to an individual, a program, a unit or a college and may be reassigned in the best interests of the University. The goal of the University’s allocation and reallocation of space is to achieve the highest and best use of University resources.

The Provost’s Office is responsible for assigning and overseeing space used for academic purposes, including classrooms, laboratories, academic secretarial spaces, and faculty offices. It discharges that responsibility by working closely with the Facilities Planning Office to maintain and remodel existing space; to allocate and reallocate that space; to help plan, schedule, and coordinate moves; to plan new space; and to explain allocation and reallocation decisions.

The Facilities Planning Office is responsible for overseeing all non-academic space, including outdoor space. It discharges that responsibility by working closely with the Provost’s Office to maintain and remodel existing space; to allocate and reallocate that space; to help plan, schedule, and coordinate moves; to plan new space; and to explain allocation and reallocation decisions.

At least annually, Facilities Planning will conduct a physical review of space to investigate identified issues or potential space issues that need attention.

Periodically, the Provost’s Office and the Facilities Planning Office will meet with appropriate representatives of the University’s organizational units to discuss upcoming moves and longer term plans for expansion and/or contraction.

This policy is applicable to all departments, offices, University employees and other members of the University community occupying space owned or leased by the University.

ADOPTION LEAVE POLICY

POLICY STATEMENT

This policy is applicable to all departments, offices, University employees and other members of the University community occupying space owned or leased by the University.
POLICY STATEMENT

The University recognizes the need for family and medical related leave. The following policy complies with The Family and Medical Leave Act (FMLA) and provides guidelines for procedures regarding unpaid leave. By enacting this policy Grand Valley aims to allow necessary time away from the university for individuals to cope with and adapt to various family and medical related situations as described in this policy.

PROCEDURES

The Family and Medical Leave Act (FMLA) provides eligible faculty and staff up to 12 weeks of unpaid leave a year. A faculty or staff member must work for 12 months, completing 1,250 work hours within those 12 months, to be eligible for FMLA leave. If eligible, leave may be requested for the following reasons:

- Birth of a child
- Adoption of a child
- Placement of a child for foster care
- The faculty or staff member is needed to care for a family member (child, spouse, or parent) with a serious health condition
- The faculty or staff member’s own serious health condition makes him or her unable to perform his or her job

Further provisions of the law are addressed in the FMLA policy. A copy of the FMLA policy is available on the Policy Website.

Grand Valley, along with all other Michigan Public Universities, does not provide for paid adoption or parental leave. However, the University does provide unpaid leave that exceeds the requirements of FMLA. FMLA requires the University to provide up to 12 weeks of unpaid leave while the University’s unpaid leave policy allows for up to 12 months of unpaid leave. Further details of the program are outlined in section 4.2.30.12 of the Board of Trustees’ Policies. This section is also included in the Faculty Handbook. In order to receive an unpaid leave, the faculty or staff member should submit a written request to the Unit Head. The request will outline the need for the leave and the expected duration. The request should be submitted as soon as possible. When possible, the request should be submitted at least 30 calendar days prior to the date the leave will begin.

Qualifying Expenses

Qualifying adoption expenses will be reimbursed up to a maximum of $3,000 per child. Qualifying expenses are defined as those that are reasonable and necessary adoption fees, court costs, attorney fees, traveling expenses while away from home, and other expenses related to, and whose principal purpose is for, the legal adoption of a child.

Process for Applying for Benefits

Upon formal placement of the adopted child, submit an adoption assistance claim form to Human Resources at 1090 James H. Zumberge Hall along with detailed receipts for eligible expenses. Human Resources will determine eligible expenses, the amount payable for reimbursement and will submit a request to the Payroll Office for payment. The reimbursement will be processed with the next payroll.

Taxation of Benefits

The amount of tax credits and exclusions available to adopting parents vary. Since an employer’s adoption assistance is not subject to income tax withholding, GVSU will not determine the extent to which the payment of reimbursement on behalf of each employee is eligible for the exclusion. However, GVSU will withhold taxes only for Social Security and Medicare.

Adding Dependent to Insurance

At the time of placement, you may add your child to your benefit plans. Any additions or changes must occur within 30 days of the official placement. Contact Human Resources at 331-2215 to add dependents.

EXERCISE RELEASE TIME POLICY

SLT 4.2

Date of Last Update:
April 20, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Human Resources

POLICY STATEMENT

Faculty and staff well being is valued at GVSU. Physical activity is a vital component to wellbeing and GVSU strives to increase the ability for faculty and staff to take time to fit physical activity into their day. The exercise release time policy reflects University’s mission by providing opportunities for faculty and staff to maintain optimal health and capacity to educate students. The policy supports university values, specifically sustainability and effective teaching. The concept of sustainability includes modeling a lifestyle of healthy living through active living, which this policy supports.

Supporting physical activity through the exercise release time policy also has the ability to create more positive interactions between faculty, staff and students in and outside of the classroom. The policy provides opportunities for physical activity during the workday encouraging and promoting health risk reduction. It has been shown that physical activity increases attentiveness, reduces stress and biochemical functions such as blood pressure and glucose levels. A healthier faculty and staff population with fewer health risks can increase the number of positive interactions between faculty, staff and students through improved attentiveness, reduced stress and more.

PROCEDURES

Upon supervisor approval, GVSU staff may utilize up to two (2) 30 minute time periods a week to allow time to freshen up from, or in preparation for, a fitness class or individual workout. Pending schedules and workload, up to two additional 30-minute time periods may be permitted. This time can be added to the beginning of the workday, added to the lunch period, or to the days end and is inclusive of travel time if needed (i.e. to the Field house or YMCA for a class). Days and times to utilize this policy may be determined with the
help of a written agreement between the supervisor and staff member. The release time may be divided into time prior to or after the indicated workout period. For further information contact the Health and Wellness Coordinator at 331-2215.

FAQ's

Q: I want to participate in a spinning class over the noon hour what does this mean?
A: It means you can use up to an additional 30 minutes after the spinning program ends to continue stretching and cool down, freshen up and return to work. The same would be true for an exercise class right before work. Remember that you need to review and have this approved by your supervisor.

Q: Is this a new policy?
A: This policy is not a new policy but a restatement of a prior one regarding fitness classes.

Q: I work on the downtown campus, does this policy apply to classes offered at the YMCA or other nearby clubs?
A: Yes. This applies to scheduled classes offered off the GVSU campus.

Q: If I miss a week of release time, can I make up the time during a following week?
A: No. Exercise release time cannot be accumulated or traded in day to day or week to week.

Q: How do I request exercise release time?
A: Employee Affiliation: AP Staff, MCS/COT Staff, Security Staff

First Step:
- Notify your supervisor and obtain approval for exercise release time.
- Request to use exercise release time should be in writing unless verbal request is accepted by the supervisor. An optional form is provided in the policy.

Upon Approval:
- Supervisor and staff member continue to communicate and review staff use of the policy monthly. Changes are made if necessary.

FAMILY AND MEDICAL LEAVE ACT (FMLA) POLICY

SLT 4.3

Date of Last Update:
June 01, 2017

Approved By:

Senior Leadership Team

Responsible Office:
Human Resources

POLICY STATEMENT

The Family and Medical Leave Act of 1993 (FMLA) gives eligible Grand Valley State University faculty and staff the right to take unpaid leave or paid leave, if appropriate benefits have been earned, for a period of up to 12 work weeks in a 12-month period because of the birth of a child (maternity/paternity) or the placement of a child for adoption or foster care, because the faculty or staff member is needed to care for a family member (child, spouse, or parent) with a serious health condition, or because the faculty or staff member's own serious health condition makes he/she unable to do his or her job, or because of any qualifying exigency arising out of the fact that the staff member's spouse, son, daughter, or parent is a covered military member on active duty (or notified of impending call or order to active duty) in support of a contingency operation, or to care for a covered servicemember with a serious injury or illness if the staff member is the spouse, son, daughter, parent, or next of kin of servicemember. Leave taken for one or more of these reasons, when combined together, may not exceed 12 weeks during the rolling backward 12-month period. Under certain circumstances, this leave may be taken on an intermittent basis rather than all at once, or the faculty or staff member may work a part-time schedule.

PROCEDURES

A faculty or staff member on FMLA leave is entitled to maintain the same health benefits (such as medical, dental and vision insurance) as he/she had before going on leave. The faculty or staff member, however, would continue to pay his/her share of any applicable premiums during the leave period.

A faculty of staff member generally has a right to return to the same position or an equivalent position with equivalent pay, benefits and working condition at the conclusion of the leave.

Grand Valley State University also requires notification, as explained in this document, from faculty and staff members who wish to take a leave under the parameters of the FMLA.

A. Who is eligible for FMLA?

1. All full-time and part-time faculty or staff members who meet all of the following criteria:
   a. Have worked at Grand Valley State University for at least 12 months.
   b. Have worked at least 1,250 hours of service during the 12-month period before the leave.

2. Grant, contract and temporary-funded faculty or staff members may be eligible for benefits under the FMLA during the term of their grant, contract or funding. The provisions of the FMLA do not continue past the date the funding or contract expires.

B. Notification Requirements

1. In order to receive leave under the FMLA, the faculty or staff member must notify his/her supervisor of the need for leave. When possible, this should be a minimum of 30 calendar days prior to the date the leave will begin.

2. If the faculty or staff member is unable to provide 30 days advance notice (such as in the case of a birth, adoption or medical emergency) the faculty or staff member must notify his/her supervisor as soon as possible.
3. Failure to provide advance notice (when determined it was possible to do so) may result in delaying approval of the FMLA leave.

C. Faculty/Staff Job Rights

1. Subject to the specific limitations contained in this Policy, eligible faculty or staff members may take a total of up to 12 weeks of FMLA leave during a 12-month period.

2. The faculty or staff member will be returned to his/her position or equivalent position at the end of the FMLA leave, provided: the grant/contract/term of employment did not expire during the leave, or the University is still offering those services previously performed by the faculty or staff member at the time the faculty or staff member is ready to return to work, or the faculty or staff member's position was not eliminated due to a business or economic reason.

3. If a faculty or staff member is requesting an intermittent or reduced schedule leave, the University has the right to transfer the faculty or staff to another position during the time period of such leave. However, such a temporary transfer would be to a similarly situated and similarly classified position. The faculty or staff member's salary, benefits, etc. would not be negatively affected.

4. If a faculty or staff member does not return to work after the FMLA leave is over and he/she does not apply for and receive approval for another University leave, he/she will be considered to have voluntarily resigned employment with the University.

5. The University will not discharge or discriminate against, or otherwise interfere with, restrain or deny a faculty or staff member from exercising rights under the FMLA.

D. Time Period

1. For purposes of the FMLA, the 12-month period will be a "rolling" 12-month "look back" period based on the faculty or staff member's use of the FMLA leave during the previous 12 months. Therefore, an employee will not be entitled to more than 12 weeks of FMLA leave during any 12-month period.

2. A faculty or staff member requesting a FMLA leave may be required to use available accrued vacation for all or part of the leave. If he or she does not have enough accrued vacation to cover the leave period he/she may use a combination of vacation and unpaid leave.

3. University policies on leaves of absence, sick leave, salary continuation, etc., will run concurrently with the provisions of the FMLA when applicable. For example, if an individual who was receiving salary continuation for 4 weeks, requested additional leave under FMLA, may have up to an additional 8 weeks approved, provided the situation qualified under the FMLA policy. The 4 weeks of salary continuation would count towards the 12 weeks of FMLA. In addition, if the individual had 2 weeks of accrued and unused vacation the supervisor may request him/her to first use accrued vacation time. Additional paid or unpaid leave may be considered, consistent with other University approved leave of absence policies.

E. Faculty/Staff Member Benefits

1. Benefits- the faculty or staff member on FMLA leave will continue to receive University provided medical and dental insurance as though he/she was working. Such benefits will continue whether the leave is paid or unpaid. If a premium is required, provision to pay the premium during an unpaid leave must be arranged by the faculty or staff member by contacting the Human Resources Office. The same procedure will be followed for collecting premiums under an unpaid FMLA leave as is done for other unpaid leaves. Failure to make required payments will result in loss of coverage, or in an obligation to repay the University if it elects to advance moneys to keep the coverage in effect. If the leave is paid, any required premium will continue to be deducted from the faculty or staff member's paycheck, as is the customary manner.

2. If a faculty or staff member does not return from the FMLA leave, he/she may be required to repay the University for the cost of benefits received while he/she was on leave.

3. If the faculty or staff member does not return from leave, he/she may continue his/her medical and dental coverage by paying all required premiums under the COBRA provisions.

F. Intermittent and/or Reduced Schedule Leaves

1. Faculty or staff members may request and be granted intermittent/reduced schedule leave in the case of a serious illness of themselves, their parent, spouse or child if there is a medical necessity and if the medical need can be best accommodated through such a leave. Intermittent/reduced schedule leave is not available (except as medically required) in connection with the birth of a child, an adoption, or foster care.

2. Intermittent/reduced schedule leave must be scheduled whenever possible at least ten (10) days in advance.

3. Intermittent/reduced schedule leave must be taken in 30-minute increments.

4. Intermittent/reduced schedule leave is counted toward the 12 week maximum FMLA leave which can be used during a 12-month period.

5. Intermittent/reduced schedule leaves, unless otherwise noted, are subject to the appropriate general provisions of this policy.

6. The faculty or staff member is required to schedule intermittent leave, when possible, so not to unduly interfere with the department's operations.

7. If the faculty or staff member was temporarily transferred to another position during his/her intermittent or reduced schedule leave, the employee must give the University ten (10) days notice of the ability to end the leave and return to his/her former position or an equivalent position.

G. Conditions and Procedures for Birth and Adoption (Family Leave)

An eligible faculty or staff member is entitled to take up to 12 consecutive weeks off for family leave for the birth of his/her newborn child, for the legal adoption of his/her child; or, to accept foster care placement of a child. The following conditions apply:

1. The 12 weeks of leave must be taken consecutively (no intermittent or reduced schedule leave) and within the first 12 months after the birth or adoption.

2. Each employee is entitled to 12 weeks except if both spouses work for Grand Valley S State University. In that case, the total number of weeks taken between the two faculty or staff members cannot exceed 12.

3. The medical recovery period for the birth of a baby will be considered as a medical leave, and be counted towards the 12 weeks of FMLA. For example, if a faculty or staff member gives birth, her physician may require a six-week medical leave of absence. If, after the six weeks, the faculty or staff member can medically return to work, she may then take an additional six weeks off as part of the provisions of the family leave. This second six-week period off work must be taken within the first 12 months following the baby's birth.

4. The faculty or staff member requesting family leave for birth/adoption (other than under the provisions of Income Protection) may use available accrued vacation time, unpaid leave or a combination of paid and unpaid leave as part of the FMLA leave, or the University may require the faculty or staff member to substitute available paid leave for FMLA leave. If the employee does not have enough paid benefit time to cover the leave, he/she will go on an unpaid leave.

5. Verification of adoption, birth of a child of foster placement may be requested.

H. Procedures on Serious Health Condition of Family Member

An eligible faculty or staff member is entitled to take up to 12 weeks off from work to care for a spouse, parent or child with a serious health condition.

1. A serious health condition means an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider.

2. The "need to care for" a family member includes both physical and psychological care when the family member is unable to care for his/her own basic medical hygienic or
IDENTIFICATION CARD POLICY

SLT 4.4

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
Human Resources
POLICY STATEMENT

Grand Valley State University issues a photo identification card to all active faculty and staff members who have a full-time, part-time or temporary appointment. This card is to be used for purposes of identification at all Grand Valley campuses. Lost or stolen ID cards should be reported to Human Resources. In the event of a name change, a new card will be issued.

ID cards for faculty and staff members can be obtained by visiting Human Resources at 1090 James H. Zumberge Hall on the Allendale campus or at the Student Assistance Center in the DeVos Center in downtown Grand Rapids. Retirees may also obtain an ID card at these locations.

Upon separating from the University, faculty and staff members will turn in their ID cards to Human Resources. ID cards belong to Grand Valley State University and are not transferable nor can they be used by anyone other than the person to whom it was issued.

MILITARY LEAVE OF ABSENCE POLICY FOR FACULTY STAFF

SLT 4.5

Date of Last Update:
April 25, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Human Resources

POLICY STATEMENT

Grand Valley State University faculty and staff members in the Armed Forces, Reserves, National Guard, or other “uniformed services” who are called to active duty will be granted an unpaid leave of absence and reinstatement privileges as prescribed by the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA).

“Uniformed services” includes: active duty, active duty for training, active duty for special work, weekend or weekday drill, funeral honors, or fitness for duty examination (whether voluntary or involuntary).

PROCEDURES

Military leave is available to all full and part-time faculty and staff of the University, including probationary staff members.

A. Military Duty Pay

A regular faculty or staff member who loses time from work during his/her regular schedule of hours because of military training as a reservist or National Guardsman or due to a civil disturbance, not exceeding four (4) weeks per year, shall be paid the difference between his/her base military pay and his/her regular pay. Adjunct faculty and temporary staff members are not eligible for military duty pay.

B. Benefits

The University will continue to provide health insurance for benefit eligible faculty and staff members, as well as their enrolled dependents, who are on duty less than thirty (30) days. Faculty and staff members serving for more than thirty 30 days may elect to continue health insurance coverage for themselves and any enrolled dependents through COBRA.

C. Leave Period

Faculty and staff members are entitled to an unpaid military leave of absence, with reemployment rights, for a period up to five years. The five years is a cumulative total and includes both past and present military service. Military leave for adjunct faculty and temporary staff will not extend beyond the appointment end date.

D. Reinstatement Requirements

Regular faculty and staff members have the right to be reemployed at the University following a military leave of absence as long they meet the following reinstatement requirements.

1. The faculty or staff member ensures that Human Resources or the applicable appointing officer receives advance written or verbal notice of your service.
2. The faculty or staff member has five (5) years or less of cumulative service in the uniformed services while employed at the University.
3. The faculty or staff member returns to work or applies for reemployment in a timely manner after conclusion of service, and
4. The faculty or staff member has not been separated from service with a disqualifying discharge or under other than honorable conditions.

Military leaves of absences for temporary staff and adjunct faculty will not extend beyond the appointment end date.

If eligible to be reemployed, a faculty or staff member has the right to be restored to the job and benefits he/she would have attained if he/she had not been absent due to military service or, in some cases, a comparable job. The faculty or staff member’s seniority would also be restored to the level they would have attained if they have been on duty at the University continuously.

Questions and Policy Interpretation

The Human Resources Office is responsible for implementing and coordinating the provisions of the Military Leave of Absence Policy for the University. Questions may be directed to the Human Resources Office at (616) 331-2215.

If there are any conflicts between the University policy and provisions of the Federal Act, the provisions of the Federal Act will supersede, with the exception of situations where the University policy, handbooks or bargaining agreements provide benefits greater than the act. The Federal Act and the Federal regulations will be used to resolve issues that arise.

SMOKING (AND VAPING) POLICY

SLT 4.6
POLICY STATEMENT

The United States Department of Health and Human Services Surgeon General Report of 2006 indicates that secondhand smoke is an avoidable cause of disease and death. Exposure to secondhand smoke, even for a short time, results in adverse effects to the cardiovascular system and can cause coronary heart disease and lung cancer. The report concludes that secondhand smoke can cause disease and premature death in individuals who do not smoke. Reducing and eliminating opportunities for exposure to secondhand smoke protects the overall health of non-smokers. By enacting this policy, Grand Valley State University is taking action to minimize the harmful effects and discomfort which smoking produces for the benefit of all members of the University Community. During the interim until further study and review can be concluded, for purposes of this policy, the use of electronic cigarettes (vaping) shall follow this policy to the same extent as smoking a tobacco product.

PROCEDURES

All buildings at all GVSU locations are designated as smoke free. Smoking is prohibited in all indoor spaces; including, but not limited to, educational, housing and dining locations. Smoking is prohibited within twenty-five (25) feet of any GVSU building, within twenty-five feet of any GVSU bus stop on University property and within twenty-five feet of the Little Mac Bridge on the Allendale campus.

Smoking is prohibited in all University owned, leased or rented vehicles.

At all Intercollegiate Athletic facilities and at The Meadows Golf Club smoking is permitted in designated outdoor smoking areas only.

Smokers must cease smoking prior to entering any prohibited smoking area; twenty-five feet from any building, bus stop and bridge.

While GVSU permits smoking in areas not designated to be smoke free, it is the responsibility of smokers to be respectful of non-smokers in choosing a location in which to smoke so as to minimize non-smokers’ contact with second-hand smoke.

Smokers are responsible for properly disposing of all smoking related litter, which includes cigarette and cigar butts, tobacco, etc. Disposal of any smoking litter is not permitted on University grounds except in the provided ash receptacles.

If University facilities are rented by non-University individuals or groups, they shall be notified of and required to comply with this policy.

As the University acquires space or constructs new buildings or additions, smoking shall not be permitted in these buildings or areas. The above twenty-five foot distance from any building will be maintained at all new facilities.

GVSU recognizes that smoking is highly addictive. Smokers interested in assistance with quitting smoking should contact the appropriate office to learn about smoking cessation options and support. Students should contact the Campus Recreation Fitness and Wellness Office and faculty and staff members should contact the Wellness Coordinator in the Human Resources Office.

Policy Enforcement

This policy assumes that with notice to our community individuals will voluntarily adhere to these regulations and enforcement will not be needed. If smoking is observed in violation of this policy the appropriate action to take is to:

- Politely ask the person who is smoking either to stop smoking or to move to a designated smoking area, outside of the twenty-five foot perimeter of the building, bus stop or bridge.
- Should the problem persist, ask the person for his/her name and whether he/she is a student, faculty, staff member or visitor. If the person refuses to identify himself/herself, on the Allendale campus contact the Department of Public Safety Services at (616) 331-3255 or on the Pew Campus or other campuses contact Pew Campus Security at (616) 331-6677 for assistance.
- If the person violating this policy is a student, a complaint may be filed with the Dean of Students’ Office, (616) 331-3585, which shall take appropriate action.
- If the person is a faculty or staff member, a complaint may be filed with that person’s dean, unit head or supervisor who shall act pursuant to the appropriate personnel policies.
- If the person is a visitor, a complaint may be filed with the Department of Public Safety on the Allendale campus or with Pew Campus Security for the Pew Campus and regional campuses who will take appropriate action.

ALCOHOL AND OTHER DRUGS POLICY

SLT 5.1

Date of Last Update:
October 30, 2018

Approved By:
- Senior Leadership Team

Responsible Office:
Alcohol and Other Drugs Campus Education and Services Office (ACES)

POLICY

Grand Valley State University strives to provide a healthy University community free of the abuse of alcohol or other drugs and illegal or unauthorized use of alcohol and controlled substances. This commitment to students, faculty, and staff is evidenced by the:

- Publication of standards of conduct and University policies
- Provision of alcohol and other drug abuse prevention programs
ANIMALS ON PROPERTY OWNED OR CONTROLLED BY THE UNIVERSITY

SLT 6.1

Date of Last Update:
May 20, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Public Safety

POLICY

This Policy applies to all faculty, students, staff, contractors, vendors and visitors.

POLICY STATEMENT

This policy is intended to enhance the safety and health of students, faculty, staff, contractors, vendors and other visitors, and to supplement the existing GVSU policies, by providing rules and regulations regarding the presence of animals in GVSU facilities.

No person shall bring any animal(s) onto University owned or controlled property unless otherwise permitted by this or other University policy as listed below. This policy is intended to enhance the safety and health of students, faculty, staff, contractors, vendors and other visitors, and to supplement the existing GVSU policies, by providing rules and regulations regarding the presence of animals in GVSU facilities. The Alcohol and Other Drugs Policy Handbook (www.gvsu.edu/aces) includes information about University drug and alcohol abuse prevention programs; health risks; counseling, treatment and rehabilitation resources; legal sanctions and summary of laws; University employee and student sanctions for violations of alcohol and other drug policies; employee notification obligations; requirements for Federal grant recipients; and links to additional University policies, procedures, and resources.

PROCEDURES

A. Animals Permitted on Property Owned or Controlled by the University *:

1. Service Animals are permitted within all University facilities subject to the additional requirements of this policy. Individuals who wish to bring a service animal into a University housing facility may do so without prior approval. However, students are strongly encouraged to reach out to the University’s Office of Disability Support Resources (DSR) to ensure that their experience bringing the animal to campus is a positive one. Advance notice of a service animal in housing facilities will enable the University to appropriately plan for the animals’ presence and will allow more flexibility in meeting the student’s needs. Service animals are permitted to accompany the resident to all areas of housing where residents are normally permitted to go. Please note that service animals are required to be at least 12 months of age unless an exception to this requirement has been approved by DSR.

2. Employees with a disability who wish to utilize a service animal as a reasonable accommodation in a University office or other areas of campus buildings not open to the general public, must submit the request to the Office of Disability Support Services at least 30 days before the animal is needed.

3. Service animals in training are permitted in all public facilities on the same basis as working service animals, provided that the service animal is being led or accompanied by a trainer for the purpose of training the dog and the trainer has documentation confirming the trainer is affiliated with a recognized or certified service dog training organization. Service animals in training are not permitted in certain classrooms, offices, or other areas of campus buildings not open to the general public. Facilities generally considered off limits unless an exception is granted:

   a. Research Laboratories: The natural organisms carried by service animals may negatively affect the outcome of the research. At the same time, the chemicals, and/or organisms used in the research may be harmful to service animals.

   b. Areas Where Protective Clothing is Necessary: Any room where protective clothing is required or necessary. Examples include chemistry laboratories, research/medical laboratories, wood shops, metal or machine shop, electrical shops, etc.

   c. Areas Where There is Danger to the Service Animal: Any room, including a classroom where there are sharp metal cuttings or other sharp objects on the floor or protruding from a surface; where there is hot material on the floor e.g. molten metal or glass; where there is a high level of dust; or where there is moving machinery. Where the threat of injury is to the health of the dog, the student will be permitted to make the decision.

4. A student or employee with a disability who wishes to utilize a service dog in training in University housing, classrooms, offices, or other areas of campus buildings not open to the general public must seek approval through the reasonable accommodation process.

5. Animals under the control of a law enforcement officer acting in the course of his or her duties.

6. Animals kept in residence halls as approved by the Department of Housing and Residence Life including animals kept by housing staff in residence. All animals must register
7. Service animals are permitted to accompany the resident to all areas of housing where residents are normally permitted to go.

8. Animals approved by the University for use in research or for instructional purposes: [http://www.gvsu.edu/iacuc/](http://www.gvsu.edu/iacuc/)

9. Animals brought on campus for a special event sponsored by the University or a student organization provided that the event has been pre-approved in writing by the Dean for the sponsoring college or department or by the Office of Student Life.

10. Animals accompanied by members of the University community and visitors, as long as they remain on sidewalks and University walkways.

11. Any animal brought into a University owned or controlled property pursuant to this Policy must be properly licensed, vaccinated and tagged as required by applicable law. All animals must be under the control of their owner or handler and must be on a leash at all times, unless the owner is unable to use a leash due to a disability or the use of a leash would interfere with the service animal’s ability to perform its duties. In that case, the owner must be able to control the service animal by other effective means such as voice controls or signals.

12. Animals may not be cleaned or groomed in rest rooms, locker rooms, or other University facilities.

*For purposes of this Policy, “University Facility or Facilities” means any building, facility, structure or improvement, open or enclosed, that is owned, licensed, leased by, or under the control of the University.

B. General Requirements:

Persons bringing animals onto University owned or controlled property as permitted by this Policy are solely responsible for:

- a. the full control, supervision and care of the animal
- b. ensuring that animal droppings or other waste are picked up, thoroughly cleaned up and properly disposed of;
- c. reimbursing the University for the costs associated with the repair of any real and/or personal property and/or University facility damaged directly or indirectly by the animal or the animal’s presence in the facility.
- d. assuming full responsibility for any harm caused to others by their animal including medical expenses.
- e. animals must not be cleaned or groomed in rest rooms, locker rooms, or other University facilities.

In addition, individuals bringing animals on campus must comply with all other applicable University ordinances, policies, practices and procedures and any applicable local, state or federal ordinance, statute and/or regulation.

C. Areas Requiring Pre-Approval for Service Animals:

1. The University may prohibit the use of service animals in certain locations due to health or safety restrictions, where service animals may be in danger, or where their use may compromise the integrity of research. Restricted locations may include, but are not limited to: teaching laboratories, classrooms, medical and surgical areas, and research areas.

2. Exceptions to restricted areas may be granted on a case-by-case basis by contacting the Office of Disability Support Resources. In making its decision, DSR will consult with the appropriate department and/or laboratory representative regarding the nature of the restricted area and any ongoing research. Additional requirements may be necessary to protect the animal. To be granted an exception: A student and/or employee who wants their animal to be granted admission to an off-limits area should contact DSR. Visitors should also contact DSR.

D. Clarifying Animal Status:

1. Service animals are permitted in all public facilities on campus in accordance with this Policy. University employees should refrain from questioning any individual about an accompanying service animal, including persons with non visible disabilities, unless there is a genuine question about the animal based upon its behavior.

2. In the unusual circumstance when an inquiry must be made to determine whether an animal is a service animal, a University employee may only ask two questions:
   - Is the animal a service animal required because of a disability?
   - What work or task has the animal been trained to perform?

You may not ask these questions if the need for the service animal is obvious. You may not ask the owner to make the animal perform the task.

3. A University employee may not ask about a person’s disability, require medical documentation, require a special identification card or training documentation for the service animal or ask that the service animal demonstrate its ability to perform the work or task. Although a service animal may sometimes be identified by an identification card, harness, cape, or backpack, such identifiers are not required and should not be requested or demanded for any service animal on campus.

4. Allergies and fear of animals are not valid reasons for denying access or refusing service to people using service animals.

E. Removal of Service Animals:

1. A service animal may be removed from University facilities or grounds if it is disruptive (e.g., barking, wandering, posing a direct threat to the health or safety of others; is not housebroken; or displays aggressive behavior and the behavior is outside the duties of the service animal). Ill, unhygienic, and/or unsanitary service animals are not permitted in public campus areas. The individual responsible for such an animal may be required to remove the animal. A service animal may also be removed if the animal is out of control and the owner does not take effective action to keep the animal under control. If the out of control behavior happens repeatedly, the owner may be prohibited from bringing the animal into facilities until the owner can demonstrate that significant steps have been taken to mitigate the animal’s behavior.

2. When an animal has been properly removed pursuant to this policy, the University will work with the handler/owner to determine reasonable alternative opportunities to participate in the University’s services, programs, and activities without having the animal on the premises.

3. Any individual with a dispute or disagreement concerning the removal or restriction of a service animal or any other aspect of this policy should first contact Disability Support Resources. If the matter is not resolved, a request for mediation should be submitted to DSR. Individuals may also file a written complaint with the Equity and Compliance Unit in the Division of Inclusion and Equity by calling 616-331-2894 or at [https://gvsuitix-gme-advocate.sympli.com/public_report/index.php?pid=2384800](https://gvsuitix-gme-advocate.sympli.com/public_report/index.php?pid=2384800)

F. Enforcement of Complaints:

1. If you become aware of a violation of this policy, you are encouraged to attempt informal methods of resolution. For example, if you recognize the person violating this policy, you might contact them or their supervisor to make them aware of the problem. If that is not successful and/or you are not comfortable approaching the person violating the policy or their supervisor, then the Department of Public Safety should be notified. The Department of Public Safety may pick up the animal and hold it for 48 hours. Animals not claimed during that time will be turned over to the county animal control officer and the owner of the animal will be responsible for any associated fees.

2. Students in violation of this policy will be referred to the University conduct process through the Dean of Students Office and may be assessed a fine of up to $250.
Employees in violation of this policy will be referred to the Human Resources Office for possible disciplinary action to be determined in consultation with the Equity and Compliance Unit in the Division of Inclusion and Equity and the employee’s supervisor.

DEFINITIONS:

1. **Service animal**: “any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the individual's disability.” (28 CFR 36.104) The crime deterrent effects of an animal’s presence and the provision of emotional support, well-being, comfort or companionship do not constitute work or tasks for the purposes of this definition.

   Examples of work or tasks that service animals perform include, but are not limited to: assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as books or the telephone, alerting a person to a sudden change in blood sugar levels, providing physical support and assistance with balance and stability to individuals with mobility disabilities, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

   a. The University may permit the use of a miniature horse on the same basis as a service animal if the horse has been trained to do work or perform tasks for the benefit of the individual with a disability and after an assessment of the following factors: the type, size and weight of the miniature horse and whether the facility can accommodate these features; whether the handler has sufficient control of the miniature horse; whether the miniature horse is housebroken; and whether the miniature horse’s presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation. (28 CFR 35.136)

2. **Service animal in training**: Dogs twelve months of age and older being individually trained to do work or perform tasks for people with disabilities that are at all times accompanied by a certified trainer. Puppies (dogs less than twelve months old) in training are not permitted in any University facilities.

3. **Emotional Support, Assistance, or Therapy Animals**: Please see the GVSU Housing Office Assistance Animal Policy.

CANCELLATION/CLOSURE POLICY

SLT 6.3

Date of Last Update:
September 06, 2017

Approved By:
   • Senior Leadership Team

Responsible Office:
Public Safety

POLICY STATEMENT

Grand Valley State University will close or cancel all or part of its operations in cases of emergency, utility disruptions, or for weather related reasons.

TYPES OF OPERATIONAL CHANGE:

   • Cancellation: Classes will not be held. All staff are to report to work at their regular time.
   • Closure/Closed: Classes and campus events will not be held. Only ESSENTIAL staff are to report to work.

When GVSU is closed, only essential staff are to report. Designated personnel in the following departments are deemed essential and are expected to report:

   • Department of Public Safety
   • Facilities Services
   • Athletic & Recreation Facilities
   • Food Service
   • Housing
   • Information Technology
   • Library
   • Pew Campus Operations
   • WGVU Television and Radio

Appointing officers have discretion to call in non-essential staff as circumstances may require.

Students, faculty and staff should assume the university is open unless they are advised otherwise through GVSUAlert!, the university’s emergency notification system, or on the radio or television. In the event of closure or class cancellation, every effort will be made to make the announcement no later than 6:30 AM for daytime classes and 3:00 PM for evening classes.
University Criteria for Weather-related Cancellations or Closures

In evaluating whether to close for weather-related reasons, the following criteria are used: 1) the ability of the university’s road crews to keep campus roads and parking lots cleared; 2) the conditions of primary and secondary roads in the area as reported by the Michigan Department of State Police as well as by central dispatch authorities in Kent and Ottawa counties; and, 3) weather reports regarding the track of the storm and other conditions.

Because commuting students, faculty and staff come from such a broad geographic area, it is extremely difficult to arrive at a decision that is appropriate for each vicinity. Weather conditions rarely are uniform throughout this large area. There is no one decision that will satisfy everyone; however, a diligent effort is made to arrive at a reasonable decision that considers the safety of students as well as their right to receive instruction. Under no circumstances does GVSU ask students, faculty or staff to assume undue risk in traveling to the University in inclement weather.

When GVSU Allendale is closed because of weather-related conditions, the Pew Grand Rapids Campus and the Meijer Holland Campus will also close.

When Muskegon Community College is closed, GVSU’s classes in Muskegon are canceled and the office in the Stevenson Center for Higher Education will close.

When Northwestern Michigan College in Traverse City is closed, GVSU’s classes in Traverse City are canceled and the office in the NMC University Center will close.

Decisions to close or cancel activities at the Annis Water Resources Institute (AWRI), the Muskegon Innovation Hub and the Detroit Center will be made separately, as these facilities host tenants, business events, and research functions not affiliated with university operations.

Announcements of closing and cancellation will be made through GVSUAalert!, on the Grand Valley web home page www.gvsu.edu, and on GVNOW at www.gvsu.edu/gvnow. Notifications may also be heard on area radio and television stations. For a more detailed update on campus conditions and area roads, tune to the Grand Valley State television and radio stations, WGVU-FM 88.5, WGVU-AM 1480, WGVS-AM 850, WGVS-FM 95.3, WGVU-TV 35, and WGVK-TV52. Please do not call the university switchboard to seek closing or cancellation information.

Rescheduling Final Exams Affected by Cancellation or Closure

In the event of a cancellation or closure on a specified exam day, any classroom-based exams affected would be held on the next available day after the exam week has concluded. For example, if a Tuesday exam day were affected, the next available day after the conclusion of the exam week would be Saturday. If two exam days were affected, i.e. Wednesday and Thursday, Wednesday’s exam would take place on Saturday and Thursday’s exam would be the following Monday. Faculty and students are advised to be aware of this contingency when making travel plans.

In the event of a cancellation or closure during exam week, faculty who are able to modify their exams to allow for online, take-home, or similar formats may do so for all students who agree. Faculty have an obligation to provide the option to students to be examined in the manner described in the syllabus, and for those students, exams will be scheduled as described above.

ENDOWMENT SPENDING

SLT 6.4

Date of Last Update:
January 04, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Business and Finance

POLICY STATEMENT

Each year the University Board of Trustees approves spending rates for true and quasi-endowments. These rates are used to calculate the amount that can be distributed from each endowment. Only investment income is distributed from true endowments, as the principal must be maintained intact in perpetuity. Spending distributions are calculated quarterly for the current fiscal year based on the average balance over a rolling three year period and transferred to the various spending funds at that time. Effective January 1, 2002 an endowment requires a minimum balance of $30,000 in principal before spending can begin.

PROCEDURES

A spending fund is created for each endowment so that monies are expended according to the purpose for which the endowment was established; usually a restricted fund is utilized for true endowments and a designated fund for quasi-endowments. Documentation that supports how the funds are expended must be maintained for five years. Specifically, for true endowments established to fund scholarships, the selection committee must ensure that documentation regarding the criteria utilized for candidate selection and award is maintained for a five-year period.

EQUIPMENT ACQUISITION AND DISPOSAL POLICY

SLT 6.5

Date of Last Update:
January 04, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Business and Finance
POLICY STATEMENT

The GVSU Purchasing Office (331-2280) is responsible for the acquisition and disposal of University-owned equipment, as outlined below.

PROCEDURES

1. ACQUISITIONS

   A. New Equipment with a Value Greater Than $ 5,000.00

      If your department has received new equipment and its cost is greater than $5,000.00, it needs to be tagged for inventory purposes. This process involves the placement of an inventory tag on the equipment plus recording of pertinent information – serial number, model number, location of equipment and the department, which purchased the equipment.

   B. New Equipment with a Value Less Than/Equal to $ 5,000.00

      If your department has received new equipment and its cost is less than or equal to $5,000.00, tagging is optional. To have equipment tagged contact the Accounting Office at 331-2233.

2. DISPOSAL

Purchasing is responsible for the disposal of surplus, obsolete and worn out equipment. They will coordinate making the appropriate journal entries to update the equipment inventory, removal of University ID tags, and settlement of proceeds. Contact 331-2280 for requests to dispose of property and for appropriate disposal advice.

EVENT SIGNS AND BANNERS POLICY - ALLENDALE CAMPUS

SLT 6.7

Date of Last Update: November 05, 2013

Approved By: Senior Leadership Team

Responsible Office: Facilities Services

POLICY STATEMENT

Grand Valley State University event sign and banner policy is intended to establish a uniform system used across campus. The primary function of a sign or banner is to provide information. The effectiveness of distributing this information will be based on consistent design and standards. Implementation and maintenance of the event sign system will be the responsibility of the GVSU Facilities Services Department.

PROCEDURES

Event signs are made by Facilities Services. Banners are provided by the customer. When making a request, please follow the steps listed below:

1. Call Facilities Customer Service at 331-3000 to place your sign or banner request approximately two weeks prior to the event.

2. All banners are to be provided by the customer. There are two (2) locations on campus where they can be hung. One is in front of Lake Huron Hall in the Academic Mall area. The other is at the Northwest side of the Student Services Building facing Campus Dr. The banner(s) will be tied to metal posts that are secured into the ground. Banners may not hang from sculptures, the roof or inside any building, or be placed in the ground at a different location other than the two indicated unless approval has been given by the Associate Vice-President of Facilities Services. Also, approval must be given for any light pole banners. Light pole banner design must conform to Facilities size and construction standards and will be provided upon request.

3. Facilities Services will make and install three (3) real estate style signs for any GVSU sanctioned event on campus. They are 18” x 24”, white with navy blue lettering. Any additional signs ordered will be at a cost of $15.00 each and you must provide a FOAP number. There is a maximum of 15 signs that may be ordered.

4. If you are ordering a real estate sign then please indicate the event name, the location and which parking lot to use. We are able to place quotes or statements on the signs but it is a good idea to keep the letters to a minimum so they can be made large enough to read. Please give a date/time to have these installed and a date/time for removal.

5. Facilities Services will install the real estate signs at the locations the customer indicates. Usually this is at the campus entrances or along Campus Drive. No signs may be installed in front of the arch at the north main entrance or in front of any welcome sign at the campus entrances.

6. Handwritten signage is not allowed and any professional signage brought on campus must have approval by the Associate Vice-President of Facilities Services.

If you have any questions about your signage or need approval please call 331-3000.

HEATING AND COOLING SET POINTS

SLT 6.8

Date of Last Update: July 31, 2008

Approved By: Senior Leadership Team

Responsible Office: Facilities Services

POLICY STATEMENT

The University established standard set-points for heating and cooling on all campuses in order to conserve resources and control energy costs. These standards are described below.
IDENTITY THEFT DETECTION POLICY

SLT 6.9

Date of Last Update: May 05, 2009

Approved By: Senior Leadership Team

Responsible Office: Business and Finance

POLICY STATEMENT

Grand Valley State University (GVSU) will comply with the applicable requirements of 16 C.F.R. 681, a federal regulation issued by the Federal Trade Commission (FTC) as part of the implementation of the Fair and Accurate Credit Transaction (FACT) Act of 2003 requiring that financial institutions and creditors (which include higher education institutions) implement written programs that provide for the detection of and response to specific activities ("Red Flag") that could be related to identity theft.

Grand Valley State University is required to adopt policies and procedures to mitigate identity theft. Activities that cause GVSU to be considered a "creditor" under the Red Flags Rule include:

1. Participating in the Federal Perkins Loan program
2. Participating in alternative or private educational loans
3. Offering institutional loans to students, faculty, or staff.
4. Offering a plan for payment of tuition throughout the semester rather than requiring full payment at the beginning of the semester.
5. Stored Value Cards

PROCEDURES

Identification of Red Flags

In order to identify relevant Red Flags, GVSU considers the type of accounts that it offers and maintains, methods it provides to open its accounts, methods it provides to access its accounts, and its previous experience with identity theft. GVSU identifies the following Red Flags in each of the listed categories:

1. Notification and Warnings from Credit Reporting Agencies
   a. Report of fraud accompanying a credit report
   b. Notice or report from a credit agency of a credit freeze on an applicant
   c. Notice or report from a credit agency of an active duty alert for an applicant
   d. Receipt of a notice of address discrepancy in response to a credit report request
   e. Indication from a credit report of activity that is inconsistent with an applicant's usual pattern or activity

2. Suspicious Documents
   a. Identification document or card that appears to be forged, altered or inauthentic
   b. Identification document or card on which a person's photograph or physical description is not consistent with the person presenting the document
   c. Other document with information that is not consistent with existing student information
   d. Application for services that appears to have been altered or forged

3. Suspicious Personal Identifying Information
   a. Identifying information presented that is inconsistent with other information the student provides (example: inconsistent birth dates)
   b. Identifying information presented that is inconsistent with other sources of information (example: an address not matching an address on a loan application)
   c. Identifying information presented that is the same as information shown on other applications that were found to be fraudulent
   d. Identifying information presented that is consistent with fraudulent activity (example: an invalid phone number or fictitious billing address)
   e. Social security number presented identical to one given by another student
   f. Address or phone number presented that is the same as that of another person
   g. A person fails to provide complete personal identifying information on an application when reminded to do so
   h. A person's identifying information is not consistent with the information that is on file for the student

4. Suspicious Covered Account Activity or Unusual Use of Account
   a. Change of address for an account followed by a request to change the student's name
   b. Payments stop on an otherwise consistently up-to-date account
   c. Account used in a way that is not consistent with prior use
   d. Mail sent to the student is repeatedly returned as undeliverable
   e. Notice to University that a student is not receiving mail sent by the University
   f. Notice to GVSU that an account has unauthorized activity
   g. Breach in GVSU's computer system security
   h. Unauthorized access to or use of student account information
5. Alerts from Others

Notice to GVSU from a student, identity theft victim, law enforcement or other person that the University has opened or is maintaining a fraudulent account for a person engaged in identity theft

Red Flag Detections

Student Enrollment

To detect any of the Red Flags identified above associated with the enrollment of a student, GVSU personnel will take the following steps to obtain and verify the identity of the person opening the account:

a. Require certain identifying information such as name, date of birth, academic records, home address or other identification
b. Verify the student's identity at time of issuance of student identification card (review driver's license or other government-issued photo identification)

Existing Accounts

To detect any of the Red Flags identified about for an existing covered account, GVSU personnel will take the following steps to monitor transactions on accounts:

a. Verify the identification of students if they request information (in person, via telephone, facsimile or email)
b. Verify the validity of requests to change billing address by mail or email and provide the student a reasonable means of promptly reporting incorrect billing address changes
c. Verify changes in banking information given for billing and payment purposes

Consumer ("Credit") Report Requests

To detect any of the Red Flags identified above for an employment or volunteer position for which a credit or background report is sought, GVSU personnel will take the following steps to assist in identifying address discrepancies:

a. Require written verification from any applicant that the address provided by the applicant is accurate at the time the request for the credit report was made to consumer reporting agency
b. In the event that notice of an address discrepancy is received, verify that the credit report pertains to the applicant for whom the requested report was made and report to the consumer reporting agency an address for the applicant that GVSU has reasonably confirmed is accurate

Preventing and Mitigating Identity Theft

In the event that GVSU personnel detect any identified Red Flags, such personnel shall take one or more of the following steps, depending on the degree of risk posed by the Red Flag:

a. Continue to monitor a covered account for evidence of identity theft
b. Contact the student or applicant for which the credit report was requested
c. Change any passwords or other security devices that permit access to covered accounts
d. Not open a new covered account
e. Provide the student with a new student identification number
f. Notify the Program Administrator for determination of the appropriate step(s) to take
g. Notify law enforcement
h. Determine that no response is warranted under the particular circumstances
i. Take appropriate steps to modify the applicable process to prevent similar activity in the future

Protecting Student Identifying Information

To further prevent the likelihood of identity theft occurring with respect to covered accounts, GVSU will take the following steps as they relate to internal operating procedures:

a. Ensure that the GVSU website is secure or provide clear notice that the website is not secure
b. Ensure complete and secure destruction of paper documents and computer files containing student account information when a decision has been made to no longer maintain such information
c. Ensure that office computers with access to covered account information are password protected.
d. Avoid use of social security numbers
e. Ensure computer virus protection is up to date
f. Require and keep only the kinds of student information that are necessary for GVSU purposes

Oversight

Responsibility for developing, implementing and updating this Program lies with an Identity Theft Committee (Committee) for GVSU. This Committee is headed by a Program Administrator appointed by the President. Two or more individuals appointed by the Program Administrator comprise the remainder of the committee.

The Program Administrator is responsible for ensuring appropriate training of GVSU personnel review of staff reports regarding the detection of Red Flags and the steps for preventing and mitigating identity theft, determining which steps of prevention and mitigation should be taken in particular circumstances and considering periodic changes to the Program.

Staff Training and Reports

GVSU staff responsible for implementing the Program shall be trained either by, or under the direction of, the Program Administrator in the detection of Red Flags and the responsive steps to be taken when a Red Flag is detected. GVSU staff shall be trained, as necessary, to effectively implement the Program. GVSU employees are expected to notify the Program Administrator once they become aware of an incident of identity theft or of GVSU’s failure to comply with this Program. At least annually or as otherwise requested by the Program Administrator, GVSU staff responsible for development, implementation, and administration of the Program shall report to the Program Administrator on compliance with this Program. The report should address such issues as effectiveness of the policies and procedures in addressing the risk of identity theft in connection with the opening and maintenance of covered accounts, service provider arrangements, and significant incidents involving identity theft and management response, and recommendations for changes to the Program.

Service Provider Arrangements

When the GVSU engages a service provider to perform an activity in connection with one or more covered accounts, GVSU will take the following steps to ensure the service provider performs its activity in accordance with reasonable policies and procedures designed to detect, prevent and mitigate the risk of identity theft:

a. Require, by contract, that service providers have such policies and procedures in place
b. Require, by contract, that service providers review GVSU’s Program and report any Red Flags to the Program Administrator or GVSU employee with primary oversight of the service provider relationship

Program Updates

The Committee will periodically review and update this Program to reflect changes in risks to students and soundness of GVSU’s policies, procedures, protocols and practices from identity theft. In doing so, the Committee will consider GVSU’s experience with identity theft situations, changes in identity theft methods, changes in identity theft detection and prevention methods, and changes in GVSU’s business arrangements with other entities. After considering these factors, the Program Administrator will determine whether changes to
the Program, including the listing of Red Flags, are warranted. If warranted, the Committee will update the Program, subject to approval by the Senior Leadership Team.

DEFINITIONS:

**Account** - a continuing relationship established by a person with a financial institution or creditor to obtain a product or service for personal, family, household or business purpose.

Account includes:

- a. an extension of credit, such as the purchase of property or services involving a deferred payment; and
- b. a deposit account

**Card Issuer** - a financial institution or creditor that issues a debit or credit card.

**Consumer Reports** - any written, oral, or other communication of any information by a consumer reporting agency bearing on a consumer's credit worthiness, credit standing, credit capacity, character, general reputation, personal characteristics, or mode of living which is used or expected to be used or collected in whole or in part for the purpose of serving as a factor in establishing the consumer's eligibility for:

- a. Credit or insurance to be used primarily for personal, family, or household purposes;
- b. Employment purposes; or
- c. Any other purpose authorized under U.S. Code: Title 13k, 1681b

**Covered Accounts** - an account that a financial institution or creditor offers or maintains, primarily for personal, family, or household purposes, that involves or is designed to permit multiple payments or transactions, such as a credit card account, mortgage loan, automobile loan, margin account, cell phone account, utility account, checking account, or savings account. Any account that the financial institution or creditor offers or maintains for which there is a reasonable foreseeable risk to customers or to the safety and soundness of the financial institution or creditor from identity theft, including financial, operational, compliance, reputation, or litigation. This includes all student accounts or loans that are administered by GVSU.

**Debit Card** - any card issued by a financial institution to a consumer for use in initiating an electronic funds transfer from the account of the consumer at such financial institution, for the purpose of transferring money between accounts or obtaining money.

**Identifying Information** - is any name or number that may be used, alone or in conjunction with any other information, to identify a specific person, including:

- a. Name
- b. Date of birth
- c. Address
- d. Government issued driver's license
- e. Telephone number
- f. Alien registration number
- g. Social security number
- h. Government passport number
- i. Employer or taxpayer ID number
- j. Student identification number
- k. Computer Internet address
- l. Routing code

**Identity Theft** - a fraud committed or attempted using the identifying information of another person without authority.

**Program Administrator** - the individual designated by the President with primary responsibility for oversight of the Program.

**Red Flag** - a pattern, practice, or specific activity that indicates the possible existence of identity theft.

**Service Provider** - a person that provides a service directly to the financial institution or creditor.

---

**INTERIOR SIGNAGE STANDARDS POLICY**

SLT 6.10

**Date of Last Update:**
July 31, 2008

**Approved By:**

- Senior Leadership Team

**Responsible Office:**
Facilities Planning

**POLICY STATEMENT**

Grand Valley State University has developed and maintains standards that govern the design, content, appearance, installation and use of interior signage through the institution. These standards are published on the [Facilities Planning Web site](#).

**PROCEDURES**

Requests for additional signage, revisions in existing signage and/or removal of signage should be handled by submitting a work order through the [Facilities Services Web site](#) or by contacting the Facilities Planning office at 331-2962.

---

**INVOICE PAYMENT POLICY**

SLT 6.11
POLICY STATEMENT

All purchases must be made in accordance with terms outlined in the Grand Valley State University Board of Trustees' Policies. Payment of the resulting invoices is subject to the policies and procedures outlined below.

PROCEDURES

1. Vendors are to mail invoices to:
   Grand Valley State University
   Accounts Payable
   2015 Zumberge Hall
   Allendale, Michigan 49401

2. The University requires each new vendor to submit a W-9. Accounts Payable will either retain a file copy if the first invoice has an EIN included, or solicit a W-9 from the vendor.

3. Accounts Payable maintains original invoices. Departments will receive a copy of each invoice that will then require an approved signature based on the Banner approval queue information for the department. If the invoice references a valid purchase order, receipt of goods/services may be confirmed by any member of the requesting department via signature. If the invoice does not have a corresponding purchase order, the only requesting department staff members who may approve the invoice for payment are those authorized in the Banner approval queue. Departments must provide complete FOAPs on each invoice.

4. Department should then return invoice copies to Accounts Payable as soon as possible. The University desires to pay its obligations within the negotiated vendor terms. If these terms include discounts, they will only be given to a department if the approved invoice is returned in time for the vendor terms to be met. Please allow up to three (3) days for processing within Accounts Payable.

5. When you use a hotel that direct bills for university guests lodging you are required to provide the guest’s name and the business purpose of the stay.

6. Departments disputing an invoice must follow up with the vendor and inform Accounts Payable about reasons delaying authorization and return of disputed invoices.

7. If your department receives an invoice that is not yours, please return invoice to Accounts Payable for forwarding to the correct department. If available, please note correct destination on the invoice.

8. Invoices are processed daily. Checks are processed daily and cut based on the vendors terms. All checks are mailed or funds electronically transferred to vendors. Only those checks being presented to a guest in person will be held for pickup. The goal of the Accounts Payable department is to process authorized-for-payment invoices within five business days of receipt at 2015 James H. Zumberge Hall.

9. Payments to non-employees and international guests for services rendered require a purchase order. Payments are processed in accordance with contract terms.

10. Payments to employees for services, honoraria, stipends, prizes and awards are paid via the payroll system in accordance with IRS regulations.

Any questions should be directed to Accounts Payable at 616-331-2202.

KEY POLICY - ALLENDALE CAMPUS

SLT 6.12

POLICY STATEMENT

The objective of this procedure is to define the system of key control at the University. Issuance of keys is a part of maintenance operations. Deans and administrators are urged to maintain a list of keys, which persons in their units possess for security and accountability. Issuance and usage of keys is to be in accordance with principles of reasonable security.

PROCEDURES

Responsibilities
A. Facilities Services is responsible for:

1. Identification codes on keys.
2. Issuing and maintaining key records.
3. Maintenance, repair, and replacement of University key and lock hardware.
4. Duplication of keys.

B. Deans, Department Chairs, and Administrators are responsible for:

1. Approving keys for facility and/or staff members in their unit.

Key Request Procedures

A. Access to locked areas of the University is based upon need. Whenever possible, employees will be issued the minimum number of keys at the lowest level that will allow access to their areas of assignment only.

B. All key requests must be submitted on the Key Request Form, which is available on the Facilities Services Web site.

C. Information on the KEY REQUEST FORM must be complete with proper signatures/approvals (including your supervisor). The form is then forwarded to Facilities Services. Incomplete forms will be returned. Proper justification must be provided for anything other than keys to specific doors.

D. Upon approval, keys can be delivered to a designated office or picked up at the Central Utilities building. The Key Inventory form must be signed by the individual who will use the key at that time for return to Facilities Services for record keeping. Nokeys will be issued without these signatures.

E. Under normal circumstances, students and temporary employees will not be issued keys.

Level of Keys and Issuance

A system of keys ranging from the Great Grand Master Keys down to the lowest level of change key is used to satisfy user needs. Facilities Services aims to issue the smallest number of keys possible.

A. Great Grand Master (GGM) key is the highest level of key on the campus. The key covers all of the keyways within an entire key system. There are (5) key systems currently on campus. Great Grand Masters are issued to the Executive Officers, the Assistant Vice President for Facilities Services, the Assistant Vice President of Facilities Planning, the Director of Public Safety Services, Facilities Services Supervisors and Public Safety Officers. Other Facilities Services staff and some University personnel may be approved but only after administrative and executive officer authorization. All GGM key requests must receive the approval of the appropriate division heads as well as approval of the Assistant Vice President for Facilities Services.

B. X-KEYS are issued to Facilities Services, Public Safety, and Technology Services personnel only. This key allows access to key boxes that are located in designated buildings and contain a master key for that building. X-KEYS are issued to designated individuals within these departments based on proof of need. These key requests must be approved by the Assistant Vice President for Facilities Services.

C. BUILDING MASTER keys will allow entry into all areas of a building including mechanical spaces and designated to restricted spaces. These are keys placed in key boxes for access and use by service staff.

D. MASTER keys will operate all keyways in a building except mechanical rooms and designated restricted areas. These keys are issued to Deans or Administrative Officers with the responsibility for all building and department activities. Custodial staff will also be issued MASTER keys for the building to which they are assigned. Issuance of these keys must be approved by the Assistant Vice President for Facilities Services.

E. SUB-MASTER keys operate a sub-group of locks within a master key system such as a department. These are issued by the Assistant Vice President for Facilities Services.

F. ACCESS keys allow entry to individual offices or rooms. These are the primary keys issued to faculty and staff. Approval is from the Assistant Vice President of Facilities Services.

G. ENTRANCE keys operate entrance doors to buildings, departments or suites. Approval is from the Assistant Vice President of Facilities Services.

H. FILE keys are issued as requested to allow access to department files or personal office files, desks, and cabinets.

Key Lock Boxes

A. A KEY LOCK BOX is located in the Central Utilities Building (CUB) for temporary checkout of X-KEYS, MASTER OR GRAND MASTER keys for access to a building. Identification of the individual checking out the key as well as verification of need will be necessary. An ID is required (driver’s license and a Facilities Services ID card) and will be held in CUB pending return of these keys.

Employee Responsibilities

A. The employee is responsible for the security of keys assigned. Lost or stolen keys must be reported immediately to department administration, Facilities Services, and Public Safety. A replacement charge of $10.00 will be assessed for each lost or stolen key before a duplicate can be issued. The replacement fee of a lost or stolen sub master, master, key, or grand master will be $100.00 and must be paid before a duplicate is made. Request for keys lost due to theft must be accompanied by a police report. The employee’s department will be responsible for costs to re-key due to a lost or stolen key. Disciplinary action – if needed – will be left to the supervisor.

B. Employees who change offices will be issued new keys at the time old keys are returned. A Request Form needs to be completed for the new keys. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. KEYS MUST BE RETURNED TO FACILITIES SERVICES.

C. Broken keys should be returned at the time the new key is issued.

D. Requests for desk and file cabinet keys will be supplied if they are in stock. If not, the department is responsible for supplying the key to be duplicated.

E. UNDER NO CIRCUMSTANCES ARE GVSU KEYS TO BE DUPLICATED OR GIVEN TO OTHER EMPLOYEES. THE PERSON WHO SIGNED FOR THE KEY WILL BE HELD RESPONSIBLE. Any requests for additional access are to be made through the normal procedures. Appropriate disciplinary action will be pursued for unauthorized duplication.

F. All keys are to be turned in to Facilities Services at the time of termination of employment. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. All terminating or retiring employees are encouraged to check with Facilities Services well in advance of their last day to determine what keys have been issued to them.

G. Under normal circumstances, students and temporary employees will not be issued keys. Employees should NOT sign out keys for these employees.

Key History Assignment Cards

A Key History Assignment card is maintained for each employee possessing a GVSU key. The information on the card includes the employee’s name, job title, department, phone number and office location. Also the card lists the date a key is issued, the key numbers, access location, room numbers, employee’s signature, and date of key return.

Return of Keys
A. When a key is returned from an employee because the need for the key no longer exists, the Key History Assignment Card is pulled from the employee file and the return date is noted. 

B. Upon termination of GVSU employment, Facilities Services will be notified by Human Resources. The employee’s supervisor should follow up and direct the proper return of keys to Facilities Services. 

C. These key changes are reflected on the Key History Assignment Card and the file is removed from ongoing records. 

D. UNDER NO CIRCUMSTANCES ARE KEYS TO BE RETAINED BY THE DEPARTMENT AND GIVEN TO A NEW EMPLOYEE. 

Special Key Issuance – Facilities Services 

A. Contractors are issued temporary access cards the Central Utilities Building (CUB). Cards are to be returned immediately upon completion of the contract service. 

B. Temporary Employees will be allowed to check out the required keys / access cards from CUB using the same basis as student’s checkout. 

C. Temporary Job Assignments – employees receiving temporary job assignments may checkout the appropriate building key / access card from CUB to work in the assigned area. A Facilities Services ID must be presented and will be held pending return of these keys. (Example: custodians or maintenance personnel temporarily assigned to a different routine.) These keys may be held for the duration of the temporary assignment and do not have to be returned daily. 

D. Restricted keyways – no future building re-keying will allow for spaces off the GGM system. Areas or departments may be off the building master but not off the GGM. 

KEYS AND CARD ACCESS POLICY - PEW CAMPUS 

SLT 6.13 

Date of Last Update: September 08, 2014 

Approved By: 

Senior Leadership Team 

Responsible Office: 
Pew Campus Operations 

POLICY STATEMENT 

The objective of this key procedure is to define the system of key control at the Robert C. Pew Campus and Regional Centers. Issuance of keys for the Pew Campus is the responsibility of Pew Campus Operations. Deans and administrators are urged to maintain a list of which keys persons in their units possess for security and accountability purposes. Issuance and usage of keys is to be in accordance with principles of reasonable security. 

PROCEDURES 

Responsibilities 
Pew Campus Operations is responsible for: 

- Identification codes on keys. 
- Issuing and maintaining records of keys. 
- Maintenance, repair, and replacement of Pew Campus key and lock hardware. 
- Duplication of keys. 

Deans, Department Chairs, and Administrators are responsible for: 

- Approving keys for faculty and/or staff members in their unit. 

Key Request Procedures 

Access to locked areas of the Pew Campus is based upon need. 

Whenever possible, employees will be issued the minimum number of keys at the lowest level that will allow access to their areas of assignment only. 

All key requests must be submitted on the KEY REQUEST FORM, which is available on the Pew Campus Operations website. 

Information on the KEY REQUEST FORM must be complete with proper supervisor or department approval. The form is then electronically submitted to the Pew Campus Operations. Incomplete forms will be denied. Proper justification must be provided for anything other than keys to specific doors. Upon approval, the requestor will receive an email letting them know that the key/card(s) are ready to be picked up at the Pew Campus Operations Office at the Bicycle Factory, suite 350. The key inventory form must be signed by the individual who will use the key. The form is then filed at that time by Pew Campus Operations for record keeping. No keys will be issued without these signatures or to anyone other than the requesting employee. 

Under normal circumstances, students and temporary employees will not be issued keys. 

Levels of Keys and Issuance 

A system of keys ranging from Great Grand Master Keys down to the lowest level of change key is used to satisfy user needs. Pew Campus Operations aims to issue the smallest number of keys possible. Keys will not be issued where card access is available. 

GREAT GRAND MASTER KEY is the highest-level key on campus. This key covers all of the keyways within an entire key system. There are five (5) key systems currently on campus. All GGM key requests must receive the approval of the appropriate division heads as well as approval of the Assistant Vice President for Facilities Services and Planning and the Vice President for Finance and Administration. 

GRAND MASTER KEY is the second highest-level key on campus. This covers all of the keyways of the Pew Campus OR of the Allendale Campus. These key(s) are issued to the Assistant Vice President for Facilities, Director or Assistant Director of Pew Campus Operations, the Director or Assistant Director of Plant Services, the Director of Facilities Planning, the Director of Public Safety Services, Plant Services Supervisors and Public Safety Officers. Other Plant Services staff and some University personnel may be approved but only after administrative and executive officer authorization. All GGM key requests must receive the approval of the appropriate division heads as well as approval of the Assistant Vice President for Facilities Services and Planning and the Vice President for Finance and Administration.
LOCK BOX KEYS are issued to Plant Services, Public Safety, Technology Services, Pew Campus Operations and designated contractors only. This key allows access to key boxes that are located in designated buildings and contain a master key for that building. Lock Box keys are issued to designated individuals within these departments based on proof of need. These key requests must be approved by the Assistant Vice President for Pew Campus & Regional Centers.

MASTER KEYS operate all keyways except mechanical rooms and designated restricted areas. These keys are issued to Deans or Administrative Officers with responsibility for all building and department activities. Custodial Staff will also be issued master keys for the building to which they are assigned. Issuance of these keys must be approved by the Assistant Vice President for Pew Campus & Regional Centers.

SUB-MASTER keys operate a sub-group of locks within a master key system such as a department. These are issued based on proof of need and require approval of the Assistant Vice President for Pew Campus & Regional Centers.

OPERATOR keys allow entry to individual offices or rooms. These are the primary keys issued to faculty and staff. Approval is from the Assistant Vice President for Pew Campus & Regional Centers.

ENTRANCE keys operate entrance doors to buildings, departments, or suites. Approval is from the Assistant Vice President for Pew Campus & Regional Centers.

FILE keys are issued as requested to allow access to department files or personal office files, desks, cabinets.

Lock Box
A LOCK BOX is located in the loading dock of EC, DEV, SCB, BIK, DET and CHS buildings. These are for temporary checkout of X MASTER keys for access to a building.

Vendor Sign Out
Temporary keys for the Pew Campus may be signed out to vendors on a daily basis. Identification of the individual checking out the key as well as verification of need will be necessary. The keys are signed out from the Pew Campus Operations Office at the Bicycle Factory, suite 350.

Employee Responsibilities
The employee is responsible for the security of keys assigned. Lost or stolen keys must be reported immediately to department administration and Pew Campus Operations. A replacement charge of $10 will be assessed for each lost or stolen key before a duplicate key can be issued. The replacement fee for a lost or stolen sub-master, master, lock box key or grand master will be $100 and must be paid before a duplicate is made. Request for keys lost due to theft must be accompanied by a police report. The employee’s department will be responsible for costs to rekey due to lost or stolen key.

Employees who change offices will be issued new keys at the time the old keys are returned. A Request Form needs to be completed for the new keys. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. KEYS MUST BE RETURNED TO THE PEW CAMPUS OPERATIONS OFFICE.

Broken keys should be returned at the time the new key is issued.

UNDER NO CIRCUMSTANCES ARE GVSU KEYS TO BE DUPLICATED OR GIVEN TO OTHER EMPLOYEES. THE PERSON WHO SIGNED FOR THE KEY WILL BE HELD RESPONSIBLE. Any requests for additional access are to be made through the normal request procedures. Appropriate disciplinary action will be pursued for unauthorized duplication.

All keys are to be turned into the Pew Campus Operations Office at the time of termination of employment. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. All terminated or retiring employees are encouraged to check with Pew Campus Operations well in advance of their last day to determine what keys have been issued to them.

Under normal circumstances, students and temporary employees will not be issued keys. Employees that sign out keys for these people WILL be held responsible for the keys.

Key History Assignment Cards
A Key History Assignment card is maintained for each employee possessing a GVSU key. The information on the card includes the employee’s name, job title, department and phone number. The card also lists the date the key is issued, the key numbers, access location, room numbers, employee’s signature, and dates of key return.

Return of Keys
When a key is returned from an employee because the need for the key no longer exists, the Key History Assignment card is pulled from the employee file and the return date is noted.

Upon termination of GVSU employment, Pew Campus Operations will be notified by Human Resources. The employee’s supervisor should follow up and direct the proper return of Pew Campus keys to Pew Campus Operations.

These key changes are reflected on the Key History Assignment card and the file is removed from ongoing records.

UNDER NO CIRCUMSTANCES ARE KEYS TO BE RETAINED BY THE DEPARTMENT AND GIVEN TO A NEW EMPLOYEE.

Special Key Issuance
Vendors are issued temporary keys through the Pew Campus Operations Office. Such keys are to be returned immediately upon completion of the contract service or by 5:00 p.m. each day. Keys may be kept overnight with operations manager approval.

Students and Temporary Employees may have keys temporarily assigned to them for the duration of their daily shift only and then must be returned daily. These are to be checked out through the Pew Campus Operations Office and require supervisor’s permission. A driver’s license must also be presented and information will be recorded in the Pew Campus Operations Office.

Temporary Job Assignments – Employees receiving temporary job assignments may check out the appropriate building key from the Pew Campus Operations Office to work in the assigned area. (Example: custodians or maintenance personnel temporarily assigned to a different routine). These keys may be held for the duration of the temporary assignment and do not have to be returned daily.

LIGHTNING/SEVERE WEATHER POLICY - ATHLETICS
SLT 6.14

Date of Last Update:
August 22, 2014

Approved By:
- Senior Leadership Team

Responsible Office:
POLICY STATEMENT

The safety of all participants and observers of athletic events is extremely important. Therefore, the Athletics Department has developed the following policy and chain of command in order to ensure the safety of both athletes and onlookers in the case of severe weather during an athletic event.

PROCEDURES

Chain of Command

The athletic trainer(s) present (most practices) in coordination with the game administrator and game officials are responsible for terminating an athletic activity in the event of lightning or other severe weather. During outdoor activities, a primary responsibility of the athletic trainer(s) is to have the ability to make sound decisions on environmental factors effecting the safety and well being of the athletes as well as others involved with the activity.

The certified athletic trainer will communicate with the game administrator, the head coach, and game official(s)/umpire(s) of the potential for lightning or severe weather and will make the recommendation that all activities stop or be suspended.

If the head coach is not present, the senior most member of the coaching staff will assume responsibility.

If an athlete proceeds with their outside activity against the recommendation of the individual in charge to seek a safe shelter, the athlete assumes all personal liability with regard to their safety and health.

If a coach and/or game official(s)/umpire(s) make the decision to continue to practice and/or continue with a game or other activity despite a Telvent weather warning, the cancellation of classes, and/or the verbal instruction by a certified athletic trainer or game administrator, they will be doing so against the recommendations of the Grand Valley State University Athletic Department and will be personally liable for any and all injuries.

Severe Weather

In the event of severe weather, the following measures will be taken by Grand Valley:

The athletic training staff will check the weather daily prior to the practice or competition. Up-to-date weather reports will be obtained by using Telvent services.

During outdoor practices and games, an early warning text message system from Telvent may be used to help determine the occurrence of and/or distance of lightning in the area.

The weather reports and systems will be monitored for storms that may develop during practices and games.

When an early warning text message system from Telvent has detected lightning or thunder has been heard, the athletic trainer in charge will monitor the distance on the early warning system. When the lightning is within an 8-mile radius of the venue, the activity will be ceased and a warning message with recommended safe structure will be given.

Anytime the Meadows sirens are used to close the golf course, all athletic outdoor activities will be suspended.

The certified athletic trainer will be responsible for notifying the head coach, official(s)/umpire(s) and game administrator (if present) of the lightning or severe weather. The certified athletic trainer will recommend play to be suspended at this time and shelter should be taken.

Any person who feels they are in danger of any lightning activity will have the right to leave the field or event site to seek safe shelter without fear of penalty or repercussion.

If play is suspended due to severe weather, everyone (including observers) should seek shelter in the designated “safe structures” (listed in Table A). A “safe structure” is defined as “any building normally occupied or frequently used by people, i.e. a building with plumbing and/or electrical wiring that acts to electrically ground the structure.” This structure does not include: shower facilities, baseball/softball dugouts, outside storage sheds, and canopies/awnings/tents. When in a “safe structure,” stay away from corded telephones, electrical appliances, lighting fixtures, ham radio microphones, electric sockets, and plumbing.

In the absence of a “sturdy, frequently inhabited building,” one may seek shelter in fully enclosed hardtop vehicles but should not touch the sides of the vehicle.

If no “safe structure” is available within reasonable distance, find a thick grove of small trees surrounded by taller trees or a dry ditch and assume a lightning safe position. A lightning safe position is one in which one is crouched on the ground with only the balls of the feet touching the ground, with their arms wrapped around the knees and head lowered. Do not lie flat on the ground. Stay away from the tallest trees or objects (i.e. light poles or flag poles), metal objects (i.e. fences or bleachers), individual trees, standing pools of water, and open fields. Avoid being the highest object in a field.

Any person who feels his/her hair stands on end or skin tingle should immediately assume a lightning safe position.

Avoid using a landline telephone. Cellular phones may be used in an emergency situation.

Resumption of Activity

Play will resume thirty minutes following the last flash of lightning per the Telvent warning system. The certified athletic trainer will make this recommendation to the official(s) during an official game.

Blue skies and absence of rain are not protection from lightning. Lightning can strike up to ten miles from the rain shaft and it does not have to be raining for lightning to strike.

Care of a Lightning-Strike Victim

A lightning strike does not stay attached to the source therefore they do not carry an electrical charge. It is safe to touch the victim to move him/her to a safe location and to render medical treatment. Medical personnel should consider their own personal safety before venturing into a dangerous situation to render care.

Lightning-strike victims who show signs of cardiac or respiratory arrest need emergency help quickly. CPR and AED use should begin immediately, if necessary. Prompt, aggressive CPR has been highly effective for the survival of victims of lightning strikes.

Victims should be assessed and treated for apnea, asystole, hypothermia, shock, fractures and burns.

Refer to the Safe Structures table.

**SPACE HEATERS AND PERSONAL APPLIANCE POLICY**

SLT 6.16

**Date of Last Update:**
January 12, 2015

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
Pew Campus Operations/ Allendale Facilities Services

**POLICY STATEMENT**
The following policy language is intended to promote the safety of the campus community, improve the comfort of faculty/staff, prevent physical damage to university facilities and conserve energy at Grand Valley State University.

**PROCEDURES**

**Space Heaters:**
The use of electric space heaters (or those fueled by other means) is strictly prohibited in any GVSU facility. Electric space heaters pose a safety risk and fire hazard by overloading building electrical circuits. They are also a very inefficient means of providing heat and often result in the discomfort of occupants in nearby offices or work areas.

Individuals who believe their work area is too cold (or hot) may contact Facilities Services (Allendale Campus) at extension 1-3000, or Operations at extension 1-6700 (Pew Campus & Regional Centers). A work order may also be submitted online at [webtma.plant.gvsu.edu](http://webtma.plant.gvsu.edu) to request that their space be evaluated for temperature adjustments.

**Other Personal Appliances:**
The following appliances are also prohibited from being used in offices or other non-designated common areas at GVSU:

- Air conditioners
- Grills
Many of these appliances are available to faculty/staff in designated break kitchens and lounge areas. If your department wishes to add an additional shared item to a break/lounge area, please contact the Operations Manager or Facilities Supervisor for your designated building to discuss its placement.

Exceptions:
Operations and Facilities Services will work to accommodate medical necessities, departmental events or other special conditions that may warrant an exception to this policy.

Responsibility:
Enforcement of this policy is the responsibility of departmental supervisors. Facilities Services and Operations staff will report unauthorized space heaters and other appliances discovered in the course of their work. The supervisor, chair, dean or director that is responsible for the area will be notified.

TIMECARD / TIMEKEEPING POLICY
SLT 6.17

POLICY STATEMENT
Timekeeping must accurately reflect all hours worked and should be recorded on a daily basis. Misrepresentation of hours worked or forgery is a violation of the law. Misrepresenting hours worked, forging a timecard, and swiping, or inputting hours for someone else may lead to immediate termination of employment.

PROCEDURES
Electronic Timekeeping
It is the responsibility of the staff member to accurately record all hours worked in Ultra Time and inform their supervisor that the hours are ready to be confirmed, or it is the responsibility of the staff member to accurately swipe their identification card in order for their supervisor to confirm their hours. All hours must be confirmed by 3:00 pm on the Monday following the end of the pay period.

Timecards
Each timecard is coded with information for the correct pay period. It is important that you use the correct timecard for the pay period. It is the responsibility of the staff member to accurately complete and submit their timecard to their supervisor (the supervisor must have signature authority on the account being charged) for their signature. The signed timecard must be in the Payroll Office 1035 James H. Zumberge Hall by 5:00 pm on the Monday following the end of a pay period.

For additional information, contact the Payroll Office.

TRAVEL POLICY AND PROCEDURES
SLT 6.18

POLICY STATEMENT
This document is designed to provide guidance to faculty and staff on University travel policies, regulations and procedures. These guidelines are in general terms and are not expected to cover every situation. For questions regarding policies, procedures or travel arrangements, call Procurement Services at 616-331-2280. For questions regarding travel and expense reimbursement, call the Accounting Office at 616-331-2203.

PROCEDURES
AUTHORIZATION
It is the responsibility of each prospective traveler to secure the appropriate approval for University travel from his/her supervisor, department head, dean, director or executive officer. Additional regulations may apply for travel associated with grant funding, especially for international travel. The following individuals would be eligible for reimbursement of
reasonable expenses while traveling for University-related purposes:

- University Board of Trustees, faculty and staff employees.
- Non-employee guests invited to the University for lectures, consulting, interviews, recruiting, and other special occasions, or those requested to travel for the University as specified in a contractual arrangement.

ARRANGEMENTS

Employees: Each traveler is responsible for arranging his/her own travel schedule, booking reservations, and payment of expenses. Please contact the Procurement Services Department for information pertaining to the University’s preferred travel agency. Call 616-331-2280 or email purchasing@gvsu.edu.

University Guests/Groups: The host department is responsible for coordinating travel arrangements for University guests and non-employee groups. Please contact the Procurement Services Department for information pertaining to the University’s preferred travel agency. Call 616-331-2280 or email purchasing@gvsu.edu for assistance in booking air and/or ground transportation, hotel accommodations, car/van rentals or bus charters.

To request charges direct billed to the University, the following information must be given to the travel agency: guest name, dates of travel, hotel reservation, car rental, University host/arranger’s name, department name, account number, and phone number. Upon receipt of invoices from the travel/hotel/car rental agency, the Accounting Office will send a copy to the department for verification of the direct-billed charges and authorized signature for payment approval. The approved invoice copy must be returned to the Accounting Department promptly.

CHARGING TRAVEL EXPENSES

University faculty and staff may charge all business travel and entertainment expenses to an existing personal credit card or they may obtain a Fifth Third MasterCard through the Human Resources office. This is a personal credit card, and there is no annual fee to participate in this program. Call the Human Resources office at 616-331-2215 for an application or for additional information.

It is important to note that individual cardholders are personally liable for all charges on their Fifth Third MasterCard charge card. A monthly statement of charges will be sent to the cardholder, who is solely responsible for full and timely payment of all charges. Requests for eligible travel reimbursement should be made soon after completion of the trip and need not wait for receipt of the credit card statement. Refer to the expense reimbursements section for reimbursement of airline tickets purchased far in advance of trip.

EXPENSE REIMBURSEMENTS

The following individuals are eligible for reimbursement of reasonable expenses while traveling for University-related purposes:

- University Board of Trustees, faculty and staff employees.
- Non-employee guests invited to the University for lectures, consulting, interviews, recruiting, and other special occasions, or those requested to travel for the University as specified in a contractual arrangement or approved by the appropriate executive officer.

Refer to the Travel & Expense Guidelines for the current reimbursement schedule.

TRANSPORTATION

A. Commercial Airlines

1. Airfare must be booked at lowest economy or coach class unless the traveler certifies on the travel and expense form that such classes were not available. The passenger’s ticket coupon/receipt or e-ticket itinerary must be submitted when reconciling expenses. If a credit card statement for airfare is due before the trip has been completed, the University will reimburse that expense to the traveler when requested on the travel and expense form.

2. The University will permit the benefits of airline frequent flyer programs derived from travel paid for by the University to accrue to the traveler. However, travelers are encouraged to apply these benefits toward future University travel.

B. Charter Air Service – Charter air service may be authorized when it is to the advantage of the University measured by comparative travel costs and the time constraints of the travelers.

C. Personal Aircraft – Air travel for University business on an aircraft owned/leased by employees is prohibited. All University air travel must be booked on regularly scheduled commercial airlines or a University chartered aircraft.

D. Public Transportation – Taxis, buses, subways, limousines, etc. are reimbursable at full fare for University business.

E. Rental Vehicles – The use of rental vehicles is limited to situations where commercial transportation is either not available or impractical. Renting vehicles for use at out-of-state destinations is permitted if necessary to the purpose of the trip. The University will reimburse expenses for economy or midsize vehicles. Contact either the facilities services office or the University’s preferred travel agency for assistance with rental vehicles.

1. A major credit card is required as security at time the vehicle is picked up. The rental agreement form and receipt must accompany the Travel and Expense Form for reimbursement.

2. The University has discount agreements with several major rental agencies. Discount cards are available from the travel agency or the Procurement Services Office. Request the applicable discounted rate when reserving a vehicle. Some promotional specials may be more economical than the discounted rate; request the best rate available.

3. Refer to the insurance section regarding appropriate coverage.

F. Personal Vehicles

1. If an employee works primarily on campus and has a GVSU principal office assigned or principal place of business, the mileage reimbursement allowed will be calculated from their principal GVSU office or place of business. Employees involved in work or temporary assignments off campus (i.e. field supervision, teaching, TV broadcasting, etc.) will be allowed mileage reimbursement based on their distance from their GVSU campus principal office/place of business or from their home to the place of the work or temporary assignment, whichever is less. Mileage for travel between home and campus is personal commuting and is not reimbursable.

2. If an employee works primarily in the field off-campus, the mileage reimbursement allowed will be from either their home or an alternative location that is approved by the appointing officer. This approved location will be considered the point that mileage reimbursement will be calculated from.

3. Mileage within a campus location (Pew or Allendale, for example) is generally not reimbursable unless the employee is required to transport special equipment or tools to perform their duties and/or receives appointing officer approval.

4. Mileage between all campuses is permissible for reimbursement. Employees are encouraged to utilize the bus service between the Grand Rapids and Allendale campuses whenever possible rather than to request reimbursement.

5. Personal vehicles may be used in lieu of commercial airline travel. Mileage will be reimbursed at the established current rate but should cost the University no more than the commercial coach/economy airline fare. Similarly, transportation by bus, train, or other means will be reimbursed for actual cost but no more than the commercial coach/economy airline fare.
6. Expenses for gasoline, repairs, towing, etc. are included in mileage allowance. Expenses for parking, storage, tolls and ferries are reimbursable and limited to the actual amount paid. Parking fines and fees at University facilities are not reimbursable expenses. Any fine or charge for a violation of public policy (such as a speeding ticket, etc.) is not a reimbursable expense.

7. Refer to the Table of Standard Mileage for the current schedule and eligible reimbursements.

8. Any exception to the policies in F. Personal Vehicles requires approval by the Vice President of the respective division.

Meals
A. Reimbursement for individual meals will not exceed the maximum per diem allowance. Reimbursement for meals included in a conference or meeting fee is not allowed. Meals for employees involved in assignments off campus are allowable when deemed appropriate by their supervisor.
B. Meals including University guests are allowable at the actual cost, not to exceed the maximum per diem allowance. Reimbursement requests must include a receipt with the guest’s name, company name, and business purpose of the meeting.
C. Meals for University employee groups are reimbursable only with appropriate executive officer approval and documentation.

Lodging
Actual lodging expenses, as evidenced by an original receipt, are reimbursable. The maximum single room rate will be reimbursed when a University traveler shares lodging with a non-University person. Room service expenses are reimbursable in accordance with the per diem allowance. Reasonable expenses incurred for tips are reimbursable without receipt. The University’s travel agency has discount agreements with several properties. Contact the travel agency for assistance with lodging accommodations.

Conference Fees
Actual registration fees for conferences, seminars, etc. will be reimbursed as evidenced by a registration confirmation or paid receipt. Fees for non-business and/or spousal activities associated with the conference, such as golf or tour events, are not reimbursable. It is preferred that the conference registration be paid with the University’s purchasing card. Conference registrations may also be processed for payment by submitting an online Purchasing Requisition through Banner. A copy of the completed registration form (with the requisition number written on it) can then be sent to the Procurement Services Office in 201 LMH.

Miscellaneous Expenses
A. Telephone calls and telegrams made for business purposes are allowable and must be listed separately on the Travel and Expense Form. Dates, company names and names of persons called must be identified.
B. Reasonable expenses incurred for handling, storage and checking of baggage are allowed.
C. Personal expenses incurred for valet service, entertainment, personal phone calls, etc. will not be reimbursed.
D. Parking fees at University facilities are not reimbursable expenses.

Out-Of-Pocket Expenses
The Travel and Expense Form may also be used for reimbursement of non-travel related, out-of-pocket expenses up to $100. The form must include a description of the items to be reimbursed, FOAP, appropriate signatures, and the original receipt(s) must be included. Copies of personal checks are not acceptable as documentation for reimbursement.

EXPENSE RECONCILIATION
Travel and Expense Form
A. All reimbursement requests for travel expenses must be submitted on a Travel & Expense Form. The purpose and dates of the trip must be clearly stated. Submit the completed form and required receipts to the Accounting Office. Any unused travel advance funds must be returned with the completed Travel and Expense Form and required receipts to the Accounting Office or Cashier’s Office. Do not send cash in the mail.
B. University guests and other approved non-University employees should also use the Travel and Expense Form to request reimbursement of travel expenses. The completed form with “G” number (or for non-GVSU employees the Social Security number) must be approved by appropriate executive officer or as specified in a contractual arrangement.

Settlement Date
The Travel and Expense Form should be submitted at the earliest practical date after return from the trip, but within thirty (30) calendar days (fifteen for travel advances).

Required Receipts
Only actual business expenses incurred, supported by the required original receipts must be submitted for reimbursement. Any extenuating circumstances resulting in altered travel plans or unusual expenses must be clearly explained on the Travel and Expense Form. Any questionable claims, non-compliant requests, or alterations of receipts may result in the form being returned to the traveler for explanation, deductions from the requested reimbursement amount, and/or approval by the appropriate executive officer.

Foreign Currency
Expenses must be expressed in U.S. dollars with the foreign exchange rates applied or currency difference identified where necessary. The Travel and Expense Form total must be stated in U.S. dollars. Refer to the Universal Currency Converter for assistance.

CANCELLED TRIP
A. If an approved trip is cancelled and a Travel Advance was issued, the original check or a personal check must be returned promptly to the Accounting Office for deposit.
B. Airline tickets already received are subject to airline/travel agency return regulations. When applicable, the credit will be issued to the party having made payment. Cancellation fees charged by the airline/travel agency are eligible for reimbursement. When reimbursement has already been received for the cancelled trip, the traveler must reconcile this credit promptly with the Accounting Office.

INSURANCE
University Vehicles
All University vehicles are insured for vehicle liability (including the statutory Michigan No Fault coverage) while being driven anywhere in the U.S. or Canada. Coverage is extended to anyone driving these vehicles with University permission.

Personal Vehicles
Employee personal vehicles are insured for vehicle liability while being driven on University business. This coverage is secondary to employee’s personal automobile insurance and is subject to specific deductibles.

Rental Vehicles
Rental vehicles are covered under the University’s liability policy. All terms and conditions of the vehicle rental agreement should be read and followed, particularly concerning authorized drivers. Violations of the agreement or driving regulations may render the University responsible for any damages. Use the following guidelines for insurance coverage when renting vehicles. Questions concerning insurance coverage should be directed to the Division of Legal, Compliance and Risk Management at 616-331-2067.
A. Decline the collision damage waiver insurance. The University provides coverage that eliminates liability for replacement at full retail value due to collision damage.
B. Decline the personal accident insurance if rental was booked by the University’s preferred travel agency and/or paid for using a University P-Card or the Fifth Third MasterCard offered through GVSU. Travel agency and corporate charge card program contracts automatically provide accident/medical and death benefits under personal insurance coverage.

C. Decline the personal effects insurance for University property. The University is insured for property in the vehicle. Personal property may be covered under your personal insurance; confirm with your insurance agent. Accepting the coverage for personal property is at your expense.

D. When vehicles are rented for University business travel, all rental contracts should be issued in the University’s name to avoid confusion concerning vehicle liability insurance.

**ACCIDENTS AND EMERGENCIES**

**Accident Reports**
In addition to those actions normally required in the event of an accident, the driver of any vehicle on University business should:

A. Report the accident to his/her supervisor. Accidents involving serious personal injury or vehicle damage should be reported to the department of public safety.

B. If driving a University vehicle, a M.U.S.I.C. Motor Vehicle Loss Report must be submitted. Call the Division of Legal, Compliance and Risk Management at 616-331-2067 for assistance.

C. When another vehicle is involved in the accident, obtain that driver’s insurance company name and address. Also obtain the names, addresses and license plate numbers of potential witnesses.

**Reporting Illness or Emergency**
In cases of serious illness, accident or emergency that occur while traveling on University business, the traveler should notify his/her supervisor. If the supervisor cannot be reached, contact the Human Resources Office.

It is the responsibility of traveler to inform his/her supervisor of address and phone number while traveling on University business. This is important should it become necessary to contact traveler in the event of an emergency.

**UNIVERSITY DESIGNATED AND PLANT RESERVE FUNDS POLICY**

SLT 6.19

**Date of Last Update:**
October 12, 2015

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
University Budgets

**POLICY STATEMENT**
To establish rules governing expenditures charged against University Designated and Plant Reserve funds.

**PROCEDURES**
Expenditures over $25,000 individually or in the aggregate for a single project requires authorization from an Executive Office or their designee.

Expenditures over $50,000 individually or in the aggregate for a single project must be reported to Budget Committee.

Expenditures over $250,000 individually or in the aggregate for a single project must be submitted by Budget Committee to the University President for authorization.

**DEFINITIONS:**
Funds held outside the normal General Fund operating budgets that reside in the Designated and Plant Reserve funds as identified by the appropriate Executive Officer. Expenditures that are governed by this policy are those that are charged against funds that begin with “15” or “94”

---

**UNMANNED AIRCRAFT SYSTEM / DRONE POLICY**

SLT 6.20

**Date of Last Update:**
August 26, 2019

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
Public Safety

**POLICY STATEMENT**
Operation of an Uncrewed Aircraft System (UAS) is prohibited over University Property by students, employees, vendors, contractors and other members of the public except with prior written approval from the Vice President for Finance and Administration of the University. Permission to operate a UAS over University Property will only be granted to University departments needing to operate a UAS for the benefit of the University. Operation of Model Aircraft is not permitted over University Property.

Purchasing of UAS also requires prior written approval from the Vice President for Finance and Administration. Potential purchasers may be employees, students or departments using University funds being disbursed through a University account, including grant funds.
PROCEDURES

Consideration will only be given for purchasing and/or operating a UAS if the written request to the Department of Public Safety includes all of the following:

1. exact dates and times of intended operation;
2. campus location and intended flight path;
3. the University purpose for the use of the UAS;
4. a current 333 exemption or Certificate of Waiver or Authorization (COA) or a Remote Pilot Certificate issued by the Federal Aviation Administration (FAA) or documentation verifying that the individual operating the UAS is fully authorized by the FAA to do so;
5. a photograph of the UAS with registration numbers attached or provision of FAA paperwork that identifies the registration numbers of the UAS being operated on the campus;
6. The Vice President for Finance and Administration will submit written approval for the purchase and/or operation of a UAS to the Department of Public Safety.

Operation of UAS on University property is to be done in accordance with only part 107 of the FAA rules for certified remote pilots and commercial operators. All rules of part 107 apply to operation on University property with the exception of prohibited external load and transportation of property for compensation or hire. Only the Vice President for Finance and Administration may waive any of the part 107 rules.

In operating a UAS for purposes of recording or transmitting visual images, operators must take all reasonable measures to avoid intrusions into areas normally considered private.

All uses of UAS must comply with the following:

1. UAS must not be used to monitor or record areas where there is a reasonable expectation of privacy in accordance with accepted social norms. These areas include but are not limited to restrooms, locker rooms, individual living center rooms, changing or dressing rooms, health treatment rooms, daycare facilities and classrooms during periods of instruction. UAS may not fly closer than thirty (30) feet outside a window of any university building.
2. UAS may not be used to monitor or record institutional or personal information, which may be found in an individual’s workspace, on computers or on other electronic devices.
3. UAS may not be used inside of any University building without prior permission given by an Executive Officer of the University.

Enforcement of Complaints

Any violations of this policy will be dealt with in accordance with applicable University procedures which may include disciplinary actions and where appropriate, legal action. All complaints concerning the operation of UAS over University Property should be referred to the Department of Public Safety. Users will also be subject to applicable Federal and State laws.

Any FAA fines incurred by individuals or departments will be the responsibility of the individuals involved.

DEFINITIONS:

For purposes of this Policy, these terms should have the following meaning:

University Property – Buildings, grounds and land owned or controlled by the University.

Uncrewed Aircraft Systems (UAS) – UAS are also known as or may be characterized as unmanned aircraft systems or Drone.

According to the FAA, a UAS is the uncrewed aircraft and all of the associated support equipment, control station, data links, telemetry, communications and navigation equipment, etc., necessary to operate the Uncrewed aircraft. UAS may have a variety of names including but not limited to quadcopter and quadrotor, FAA regulation applies to UAS regardless of size or weight. Model aircraft are not considered by the FAA as UAS and have different regulations.

COA – Certificate of Authorization or Waiver. The COA is an authorization issued by the FAA to a public operator for a specific UAS activity. After a complete application is submitted, FAA conducts a comprehensive operational and technical review. If necessary, provisions or limitations may be imposed as part of the approval to ensure the UAS can operate safely with other airspace users. In most cases, FAA will provide a formal response within 60 days from the time a completed application is submitted.

333 Exemption – FAA exemption based on Section 333 of the FAA Modernization and Reform Act of 2012 (FMRA) which grants the Secretary of Transportation the authority to determine whether an airworthiness certificate is required for a UAS to operate safely in the National Airspace System.

Remote Pilot Certificate – Certificate of authorization issued by the FAA to public operator for commercial operation of UAS activity of a craft under 55 lbs. in weight.

*lIt is the University’s practice is to use gender-inclusive terms in its policies, however, this term is used for consistency with federal regulations.

LAKER STORE POLICY

SLT 6.21

Date of Last Update:
October 20, 2015

Approved By:
Senior Leadership Team

Responsible Office:
GVSU Laker Store

POLICY STATEMENT

GVSU Laker Store is dedicated to serving the students of Grand Valley State University with resources, which enhance the University’s mission and image.

PROCEDURES
Textbook Locations

GVSU Laker Store - Allendale carries the textbooks and supplies required for classes taught on the Allendale campus and for those taught in Holland and other “satellite” locations across the state. These are available online at [http://lakerstore.gvsu.edu](http://lakerstore.gvsu.edu) or by calling toll free at 866-299-0001.

GVSU Laker Store – Robert C. Pew Grand Rapids Campus carries the textbook and supplies for classes taught in Grand Rapids, including those at the Cook-DeVos Center for Health Sciences.

Other Merchandise

Both store locations offer a selection of GVSU imprinted clothing and gifts, greeting cards, leisure reading books, school supplies, and a full line of computers and accessories, including Apple products. The leisure reading department includes a faculty book section. Faculty who publish are encouraged to notify the GVSU Laker Store staff, and we will add the title to our inventory.

Discounts, Sales and Promotions

GVSU Laker Store attempts to maintain pricing policies that are reasonable, fair and consistent. As a result, the same pricing is made available to students, faculty and staff. Sales and promotions are announced in advance on the GVSU Laker Store website and the University bulletin board, in addition to fliers and posters across campus. The same promotions are made available at both store locations.

Merchandise Returns Policies

Textbooks may be returned for a full refund through the first week of classes with a valid receipt. Specific deadlines are announced each semester. Other merchandise can generally be returned within a reasonable period when accompanied by a valid receipt. Merchandise, other than textbooks, will be accepted for an exchange when no receipt is presented. Refunds for purchases paid with cash or check will be refunded in cash, while returns for credit card purchases will be credited to the card.

Book Sell Back

GVSU Laker Store conducts a daily textbook sell-back at both store locations. Generally, sellback values increase near the end of each semester, and the majority of students sell their books during final exam week. Books that will be used at GVSU in the coming semester are purchased by the bookstore at 50% of the new book retail price until store quotas are met. Books that are not being used at GVSU may be purchased at 5-30% of retail price as long as they are current editions.

Textbook Orders

To insure the arrival of textbooks for the start of classes and to offer students an opportunity to sell their books at the end of the term, it is requested that faculty submit textbook orders by published deadlines. Textbook orders need to be in the bookstore by October 25 for winter semester, by February 25 for spring-summer semester, and by March 25 for fall semester. Requisitions may be submitted on-line in the faculty access section of the bookstore’s website at [http://lakerstore.gvsu.edu/](http://lakerstore.gvsu.edu/).

For access information, please consult your department coordinator. When submitting a requisition, please provide accurate ISBN information to insure that the correct book is ordered. GVSU Laker Store staff also appreciate notification that “no books are required” for a class when appropriate.

Coursepacks

Faculty may choose to create coursepacks for sale through the bookstore. This may be done by working with a custom publisher, which manages copyright clearances and copying, or through the University’s Copy Center. In the latter case, faculty must perform copyright clearances themselves. Letters from publishers authorizing copying of materials, together with a complete and final version of the coursepack, should be forwarded to the appropriate bookstore location well in advance before the start of the semester. The textbook manager will arrange for copying, return the original to the faculty member, and place coursepacks on the shelf in time for the start of the semester.

Desk Copy Loans

Publishers will not honor requests for desk copy loans from bookstore personnel, so such requests should be made directly to the publisher. Faculty requiring a desk copy of an adopted textbook should contact their publisher representative for additional information.

CONFERENCE AND EVENT PLANNING POLICY

SLT 6.22

Date of Last Update:
February 19, 2020

Approved By:

- Senior Leadership Team

Responsible Office:
Conference Planning & Hospitality Services

POLICY STATEMENT

It is the policy of Grand Valley State University that certain spaces and rooms be scheduled on a coordinated basis through the Conference and Event Planning Department. Room rental and event scheduling on the Pew Campus, Health Campus, and Regional Centers, and at the Alumni House, will be managed by the Conference and Event Planning Department. Additional information and procedures may be found on the Conference and Event Planning Department website.

WEAPONS POLICY

SLT 6.27

Date of Last Update:
May 22, 2017

Approved By:

- Senior Leadership Team

Responsible Office:
Public Safety

POLICY STATEMENT
The University is committed to maintaining a safe environment in which students, faculty, staff, and visitors are free to learn, live, work and visit the University campus or a facility without fear of violence. To carry out this mission, the University prohibits the use or possession of firearms, weapons, electrical devices, and explosives on its property, except as provided in this policy.

A person shall not possess any firearm or weapon anywhere upon property governed by the University, except University Police Officers and other legally established law enforcement officers acting in the course of and scope of employment, and except for use in authorized University construction-related activities.

A "weapon" shall include but is not limited to:

1. any firearm,
2. any device from which an electrical current, impulse, wave, or beam may be directed that is designed to incapacitate temporarily, injure or kill,
3. any other instrument or device of any kind that operates based on spring, gas or air, contains explosive materials, or
4. any instrument or device, such as a knife, that has a sharp blade greater than three inches.

A person shall not use any firearm, gun, weapon, chemical, biological, radioactive, or other dangerous substance or compound to injure, molest, or coerce another, anywhere upon property governed by the University, except for a self-defense spray or foam for protection of a person or property under the circumstances that would justify the person’s use of physical force.

Additionally, a person shall not use or possess fireworks (unless approved in advance by a Vice President for use at a University event), explosives, toxic or dangerous chemicals; other lethal weapons, equipment, chemicals or materials are prohibited anywhere upon property governed by the University.

Questions about weapons should be directed to the University Department of Public Safety.

PARKING ORDINANCE

SLT 6.28

Date of Last Update:
June 26, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Public Safety

POLICY STATEMENT

STATEMENT OF AUTHORITY

This ordinance is enacted through the Grand Valley State University Board of Trustees pursuant to and in accordance with the authority and responsibility of said Board as provided in the Constitution of the State of Michigan, and Act 291 of the Michigan Public Acts of 1967, as amended. This ordinance and the Michigan Vehicle Code (MCL 257.1 et seq., MSA 9.1801 et seq.), as amended, are hereby adopted by reference.

Section 1. Definitions

1. Campus: Unless otherwise noted in this Ordinance, Campus shall mean property owned or controlled by Grand Valley State University (GVSU or University) on the Allendale Campus and Grand Rapids Campuses (Robert C. Pew Grand Rapids Campus and the Health Campus), and includes the Standale Plaza in the City of Walker.

2. Department of Public Safety: Department of Public Safety shall mean the Grand Valley State University Department of Public Safety which is comprised of Police, Security, Emergency Management, and Parking Services. The Department of Public Safety is responsible for parking on all University owned or controlled properties.

3. Hours of Compliance: Parking is enforced 24/7 unless otherwise noted.

4. Overnight Parking: Overnight parking on campus is considered as between the hours of 3:00 a.m. - 6:00 a.m.

5. Color-Coded Parking: All cling parking permits are color-coded. The color of a permit authorizes parking in specific lots/areas.

PROCEDURES

Section 2. Parking on Campus

2.1. Vehicles on Campus

2.1.1. State Requirements: All vehicles parked on campus must be properly registered and display current registration credentials as prescribed by the state within which they are registered, and be legally operable under the laws set forth by Michigan Legislation.

2.1.1.1. Disabled Vehicle: A vehicle that is not legally operable under Michigan law is deemed a disabled vehicle. A disabled vehicle on property owned or controlled by the University must be reported to Parking Services (during business hours) or Police (after hours). The disabled vehicle must be removed from the campus within 24 hours or is subject to parking violation and/or citation by Police (within 48 hours).

2.1.2. Parking Space: A vehicle must be fully and completely contained within the lines of a single designated space as delineated by service markings and must not obstruct traffic flow. Occupying or preventing the use of more than one parking space constitutes double-parking and is prohibited.

2.1.3. Prohibited Parking Areas: If an area is not posted for parking, parking is prohibited except under the direction of the Department of Public Safety. Prohibited parking areas include, but are not limited to:

2.1.3.1. Hashed-lines: Parking in diagonal hashed-lines is prohibited (see Section 2.9 regarding motorcycle parking).

2.1.3.2. Fire Lanes: Parking in areas signed as a fire lane is prohibited

2.1.3.3. Yellow Curbs: Yellow curbs indicate a no parking zone. Parking along yellow curbs is prohibited.
2.1.3.4. Coned Areas: Parking in coned spaces, in closed parking lots, and at bagged meters is prohibited.

2.1.3.5. Sidewalk Restriction: Sidewalks and walkways are restricted to pedestrian, bicycle, and motorized wheelchair use only. Driving or parking a moped, motorcycle or other motor vehicle on a sidewalk or walkway is prohibited without permission from the Department of Public Safety.

2.1.3.6. Landscape Restriction: Driving or parking a moped, motorcycle or other motor vehicle on a sidewalk or walkway is prohibited without permission from the Department of Public Safety. landscaped areas are restricted to pedestrian traffic only.

2.1.3.7. Loading Zones: Loading zones are provided to accommodate active loading and unloading only. All loading and unloading must be done in designated loading docks or from regular parking spaces. Loading zone regulations are enforced 24/7.

2.1.4. Parking by Permit Only: Parking on campus is by permit only except for areas designated in visitor pay-to-park locations. By parking on campus, the vehicle operator has agreed to abide by the rules and regulations of the Parking Ordinance and is subject to parking violation notices and other penalties as outlined in Section 3. Information about parking lot locations and types of permits is available on the Parking Services website.

2.2. Parking Options

2.2.1. Permit Parking: Parking permits are required on the Allendale Campus and Grand Rapids Campuses with the exception of Pay-to-Park spaces. Permits are required Monday-Thursday 3:00 a.m. – 6:30 p.m. and Friday 3:00 a.m. – 5:00 p.m. unless otherwise noted. Parking permits are not required at the Standale Plaza in the City of Walker, Meijer Campus in Holland, Muskegon locations, or the Traverse City Regional Center. There is no Univeristy parking lot at the Detroit Center. Campus maps are published online. (See Section 2.3 for detailed permit information.)

2.2.2. Pay-to-Park: Pay-to-Park areas offer short-term parking and require payment. Payment is required to park in pay station areas, including metered spaces and pay station spaces. Payments accept coins, bills, credit cards, and ParkMobile as payment. Pay stations that are offline or otherwise malfunctioning are considered no parking zones and should be reported to Parking Services.

2.3. Cling and Temporary Permits

2.3.1. Cling Permits: Cling permits are available to currently enrolled GVSU students, faculty and staff with active appointments, and tenants if appropriate.

2.3.1.1. A valid permit must be completely affixed to the lower left corner (driver’s side) of the windshield, with the barcode and permit number fully visible from the left side of the vehicle. Expired permits must be removed from the windshield.

2.3.1.2. Permits are the property of GVSU. Permits may not be sold, altered, copied, or modified in any way.

2.3.1.3. Students who choose to purchase a permit are charged per semester (fall and winter semesters). The cost of a permit is charged directly to the student’s account. Permits that have not been paid for will be deactivated. The parking permit must be returned to Parking Services to be eligible for a refund. Refund amounts follow the tuition refund schedule.

2.3.1.4. Students who are no longer enrolled at GVSU or faculty/staff who are no longer employed by the University are not eligible to use a University-issued parking permit and must return it to Parking Services.

2.3.1.5. Parking permits are issued for the exclusive use of the person applying for the permit. A G# is authorized for one cling permit only. If more than one permit is received, contact Parking Services immediately to arrange for its return.

2.3.1.6. Lost permits must be reported to Parking Services immediately. Stolen permits must be reported to Police and Parking Services. A claim of a stolen permit must include a police report from the appropriate jurisdiction.

2.3.2. Temporary Permits: Daily permits are available to GVSU students. The daily rate will be set each July 1st by the Business and Finance Office. Faculty/staff and daytime visitors who need a temporary permit may obtain one from Parking Services at no cost. Temporary permits are printed or paperless/digital.

2.3.2.1. If a student cling parking permit has been purchased, the student may be eligible for temporary daily permits at no cost. Temporary daily permits are available only in the same parking areas which are associated with the cling.

2.3.2.2. In the event a paperless permit is unavailable, a temporary parking permit must be displayed with the effective date(s) in full view on the dashboard to the left of the steering wheel from the driver’s seat.

2.4. Student Parking

2.4.1. Student Commuter: Students who are currently enrolled at GVSU and do not reside in University housing facilities on campus are considered to be commuter students.

2.4.1.1. Student Commuter: Student Commuter permits are valid in Student Commuter parking lots marked by a red “S” on signs throughout campus.

2.4.1.2. Lot J Remote Commuter: Lot J permits are offered as a reduced cost, remote parking option for commuter students. This permit is valid on the Allendale Campus or Pew Grand Rapids Campus on a first-come, first-serve basis for Lot J only. A Student Commuter permit must be purchased to be eligible to park in other parking areas. Individuals needing ADA parking accommodations should refer to Section 2.8.

2.4.2. Student Resident: Students who are currently enrolled at GVSU and reside in University housing facilities on campus are considered residents. There are three types of Student Residents:

2.4.2.1. Allendale Resident: Allendale Resident parking permits are valid in Allendale Resident areas marked by a yellow “R” on the Allendale Campus and in Student Commuter areas marked by a red “S” on the Pew Grand Rapids Campus.
2.4.2.2. Pew Resident: Pew Resident parking permits are valid in Pew Resident areas marked by a brown "P" on the Pew Grand Rapids Campus and in Student Commuter areas marked by a red "S" on the Allendale Campus. Parking permits are required in Pew Resident spaces on the Pew Grand Rapids Campus year-round.

2.4.2.3. Calder Resident: Students who live on the Allendale Campus in the Calder Residence are considered Calder Residents. Calder Resident parking permits are valid in signed Calder Residents Only spaces, as well as in Allendale Resident areas marked by a yellow "R" on the Allendale Campus and in Student Commuter spaces marked by a red "S" on the Pew Grand Rapids Campus.

2.5. Faculty and Staff Parking

2.5.1. Active Appointments: Only GVSU faculty/staff with active appointments are issued parking permits. Parking permits are only valid for adjunct faculty/staff if they have an active appointment and are either working for or teaching at GVSU during the semester in which the permit is being used.

2.5.1.1. Faculty/Staff: Faculty/Staff parking permits are only valid in Faculty/Staff areas marked by a blue "F" and in Student Commuter areas marked by a red "S" with the exception of Winter Lot on the Pew Grand Rapids Campus. Faculty/Staff parking permits are not valid in Pay-to-Park spaces or visitor spaces on any campus.

2.5.1.2. Fall Faculty/Staff: Fall Faculty/Staff parking permits are issued to employees with a 6-month contract for the fall semester only and are valid in the same locations as associated with a Faculty/Staff permit. The Fall Faculty/Staff parking permit is only valid for the fall semester and expires on December 31 of the academic year in which the permit is issued.

2.5.1.3. Faculty/Staff Reserved: Faculty/Staff Reserved parking permits are valid in Faculty/Staff areas marked by a blue "F" and in Student Commuter areas marked by a red "S" with the exception of Winter Lot on the Pew Grand Rapids Campus. Additionally, individuals who qualify for a Faculty/Staff Reserved parking permit are afforded additional parking on campus as marked by "Reserved" signs.

2.5.1.4. Lot L/Administration: Lot L parking permits are valid on the Allendale Campus only. This permit is not valid in Pay-to-Park or other visitor spaces on campus.

2.5.2. GVRP: Faculty and staff who have officially retired from GVSU are eligible for a GVRP parking permit.

2.6. Specially Signed Spaces and Designated Permits

2.6.1. Specially signed parking spaces require parking permits designated for a particular type of space and are enforced 24/7. These spaces include, but are not limited to: Biology Department, Communications Department, Disability Support Resources, Food Service, Housing Staff, Information Technology, Reserved, Service Vehicle, University Bookstore, Admissions Visitor, Visitor, Prospective Student, and spaces numbered for Tenants.

2.6.2. Service Vehicles: Service Vehicle spaces and permits are intended for use by persons or companies providing one of the following services: installation, repair, or improvement of University-owned structures and infrastructures (interior and exterior). Service Vehicle permits are not intended for loading or unloading. Service Vehicle parking permits are valid in Faculty/Staff areas marked by a blue "F," in Student Commuter areas marked by a red "S" with the exception of Winter Lot on the Pew Campus, in Service Vehicle spaces, and at metered spaces without payment.

2.6.3. Tenants: Tenants with lease agreements for spaces in University buildings may be eligible for a tenant permit. This permit offers the same privileges as a Faculty/Staff permit except on the Health Campus and is only valid in Faculty/Staff areas marked by a blue "F" and in Student Commuter areas marked by a red "S" with the exception of Winter Lot on the Pew Grand Rapids Campus. On the Health Campus tenant parking permits are only valid in areas specially signed as tenant spaces. Tenant parking permits are not valid in any Pay-to-Park spaces or other visitor spaces.

2.6.4. Vendors: Employees of vendor companies that provide services to GVSU on a regular basis may qualify for a special permit. A request must be made to Parking Services by a GVSU department head on behalf of the vendor company.

2.6.5. Alternative Fuel/Hybrid Spaces: These spaces, excluding metered spaces, require a special parking permit designation. Contact Parking Services for additional information regarding this permit designation.

2.6.6. Electric Vehicle Charging Spaces: Spaces are provided throughout campus for actively-charging electric vehicles only. Spaces are limited, so a parking and/or charging opportunity is not guaranteed. A valid GVSU permit is required.

2.6.6.1. Electric vehicle charging stations located in the Front Lot on the Pew Campus are for Consumers Energy staff and visitors only.

2.6.7. Small Car Only Spaces: Use of small car spaces marked with hashed end lines requires compliance 24/7. Vehicles parking in these spaces must be contained within all sides of the space and not overhang any line.

2.6.8. Loading Zones: Loading zones are provided to accommodate active loading and unloading only. All loading and unloading must be done in designated loading docks or from regular parking spaces. Loading zones regulations are enforced 24/7. Loading from prohibited parking areas is strictly prohibited.

2.7. Visitor Parking

2.7.1. Daytime Visitors: Visitors parking during the day may choose to obtain a parking permit directly from Parking Services office at no cost; from the faculty/staff member they are visiting; or utilize pay-to-park areas. Currently enrolled students, faculty/staff with active appointments, individuals with GVRP permits, and/or tenants are not eligible for visitor permits.

2.7.2. Overnight Visitors: Visitors staying on campus overnight (see Section 2.10) must obtain a parking permit in person from the Parking Services office located on the campus where they are visiting. Overnight visitors are limited to 20 overnight permits per year excluding weekends. During the spring and summer semesters, overnight visitors to the Pew Grand Rapids Campus are limited to ten overnight permits.

2.7.3. Fieldhouse/Recreation Center Visitors with Membership: Alumni and outside members can obtain a Fieldhouse parking permit by providing their current Athletic and Recreation Facilities membership card and driver's license to Parking Services in Allendale. These parking permits will be valid for the duration of the membership and are required to be renewed along with the membership. This permit is for non-academic recreational facilities use only and may not be used for any other purpose, including events or academic classes. GVSU faculty, staff, and students are not eligible for Fieldhouse permits.

2.7.4. Campus Recreation Class Visitors: Community members taking campus recreation classes at the Athletic and Recreation Facilities may obtain a temporary day permit at no cost. Other types of parking permits are not available. GVSU faculty, staff, and students are not eligible for Campus Recreation permits.

2.8. ADA-Compliant Parking

2.8.1. ADA Compliant Parking Spaces: ADA-compliant parking requires a valid ADA placard or plate designation and is enforced 24/7.

2.8.2. Permit Compliance: During permit compliance hours (see Section 2.2.1), a valid GVSU permit must always accompany the ADA placard or plate designation. If ADA-compliant
Parking spaces are not available, the ADA permit holder may, with a valid GVSU permit and a valid ADA placard or plate displayed, park in a faculty/staff or student space or at a meter without payment.

2.8.2.1. Lot J Remote Commuter permits are only valid in Lot J and are therefore not permitted in other areas even when accompanied by an ADA placard or plate designation.

2.8.2.2. Parking in ADA-compliant spaces in pay station areas is limited to two hours and requires payment.

2.8.2.3. ADA parking is prohibited in specially signed spaces without the required designated parking permit (see Section 2.6).

2.8.3. University-Issued ADA Permits: Mobility-impaired persons shall be issued, without charge, a temporary permit for a period not to exceed three days. University-issued ADA permits must be accompanied by a valid GVSU Faculty/Staff or Student parking permit. Persons requiring accommodations for a period of 4-30 days will be directed to Disability Support Resources for assistance. Individuals needing ADA-compliant parking privileges beyond 30 days must obtain a permit from the Michigan Secretary of State.

2.8.4. Illegal Use of an ADA Parking Placard or License Plate: Under Michigan law, it is illegal: 1) to use an ADA placard or license plate when the ADA permit holder is not being transported; 2) to use an ADA placard or license plate when the placard or plate is altered; 3) to lend/use a placard/plate from another person; and 4) to use a copy of a placard/plate. Illegally used ADA designations are subject to confiscation by Police and will be returned to the Secretary of State with an explanation of the misuse. Fraudulent use of an ADA parking placard or plate is punishable by up to 30 days in jail and/or up to a $500 fine. Parking Services will immediately notify Police of potential violations.

2.9. Motorcycle/Moped Parking

2.9.1. Applicability: This section is applicable to all two-wheeled motorized vehicles. Motorcycles and mopeds parking on campus do not require a parking permit. Overnight parking is only allowed in designated motorcycle parking areas in residential lots. Parking in any blue hashed area is strictly prohibited.

2.9.2. Allendale Campus: Motorcycles and mopeds must be parked in the yellow hashed area at the end of parking rows in faculty/staff and student parking areas, unless otherwise signed.

2.9.3. Pew Grand Rapids Campus: Motorcycles and mopeds must be parked in designated motorcycle parking areas designated by signage in the Eberhard Center loading dock, DeVos Lot, Seward Parking Ramp, and Watson Lot. Parking in yellow hashed areas of the Seward Parking Ramp is permitted. Residents may park in the yellow hash marks at the end of parking rows in the Secchia Lot only. Parking in all other areas is restricted.

2.9.4. Health Campus: Motorcycles and mopeds must be parked in designated signed motorcycle parking areas only.

2.9.5. Pay-to-Park: Payment is required for motorcycle parking in all Pay-to-Park areas.

2.10. Overnight Parking

2.10.1. Locations: Overnight parking (3:00 a.m. – 6:00 a.m.) is permitted in residential lots only. Overnight parking is prohibited in faculty/staff, student commuter, and Pay-to-Park areas.

2.10.2. Overnight Employees: Information about parking locations designated for GVSU employees whose duties require overnight parking is available on the Parking Services website.

2.11. Trailers

2.11.1. Trailers: GVSU does not provide accommodations for parking of vehicles pulling trailers during the regular academic year except for those attached to contractor and service vehicles operated by individuals actively working on campus. Trailers must not be left unattended without the permission of the Department of Public Safety.

2.12. Buses and Other Oversized Vehicles

2.12.1. Oversized Vehicles: Oversized vehicles are those vehicles larger than one standard parking space and must therefore park only in certain lots. Refer to the Parking Services website for a list of parking areas currently designated for this purpose. Parking of buses and other oversized vehicles parking is strictly prohibited in Pay-to-Park areas. Parking rules applicable to buses and other oversized vehicles are enforced year-round.

2.12.2. Allendale Campus: Buses bringing athletes and/or other group to the Allendale Campus are limited to 15 minutes for picking up and dropping off. Picking up and dropping off is strictly prohibited in Pay-to-Park areas.

2.12.3. Grand Rapids Campuses: Buses and other oversized vehicles are prohibited on the Grand Rapids Campuses.

2.13. Bicycles

2.13.1. Registration and Storage: Bicycles must be stored in the provided bicycle racks. Bicycles improperly stored and locked will be removed by Department of Public Safety at the owner’s expense. Free bicycle registration is available on the Public Safety website.

2.14. Vehicles Prohibited

2.14.1. Vehicles Prohibited: The following vehicles are not permitted on campus unless permission is obtained from the Director of Public Safety:

- Snowmobiles
- Off-road motorcycles
- All-terrain vehicles
- Recreational vehicles parked overnight
- Non-traditional vehicles (i.e. golf carts outside of The Meadows facilities, dune buggies, go-carts, etc.)

2.15. University’s Rights and Responsibilities

2.15.1. The University reserves the right to close, restrict parking and/or driving to, or otherwise make unavailable any and all areas at any time to any vehicle on University owned or controlled property, whether properly permitted or not.

2.15.2. The University also reserves the right to remove, at the owner’s expense, any abandoned, unlawfully parked, or inoperable vehicle from University owned or controlled property. Police are responsible for the removal of vehicles.

2.15.3. The University assumes no responsibility for loss or damage to vehicles driven or parked on campus, or for the contents thereof.

Section 3: Parking Fine, Appeals and Penalties

3.1. Parking Violation Fines

3.1.1. Payment Options
3.1.1.1. Online: On the Parking Services website via credit card.
3.1.1.2. Payment Box: At the payment drop box located in front of the Service Building on the Allendale Campus via cash or check.
3.1.1.3. Telephone: Over the phone at (616)331-7275 via credit card.
3.1.1.4. In Person: Over-the-counter at Parking Services in Allendale or at a Student Assistance Center on the Allendale Campus or Pew Grand Rapids Campus via credit card, cash, or check.
3.1.1.5. Mail: Through postal mail via check.
3.1.2. Returned Checks: A fee will be imposed for any returned checks.
3.1.3. Cash Payments: Cash payments will only be accepted in person. Coins must be rolled.
3.1.4. Transfer of Fines: After ten days, student fines will be transferred to the respective student account. Non-student fines will be referred to collections. Outstanding fines may also be sent to the appropriate District Court for collection.
3.1.5. Excessive Parking Violation Notices: The accumulation of six or more unpaid parking violation notices issued to a single vehicle may be deemed excessive. Any vehicle accumulating excessive parking violation notices may be considered a nuisance, and the vehicle is subject to impoundment or immobilization by Police, and/or District Court action.
3.2. Appeals
3.2.1. Appeal Options: Appeals must be submitted within seven business days of the parking violation notice issue date.
3.2.1.1. Online: On the Parking Services website. Faculty/staff and students may submit appeals online or exercise the option to appeal in person.
3.2.1.2. In Person: Appeals must be submitted on the campus where the parking violation notice was issued. Parking Judiciaries are available for in-person appeals at pre-scheduled times, and are first-come, first-serve. The appeal schedule is published on the Parking Services website.
3.2.1.3. Handwritten: Appeals may be filed in person at a Parking Services office by visitors and vendors of the University only, or by students and faculty/staff under extenuating circumstances.
3.2.1.4. By Phone: Appeals submitted by phone will not be accepted.
3.2.2. Parking Judiciary Decision: The Parking Judiciary's decision and any penalty imposed will be sent to the e-mail or mailing address submitted with the appeal. The decision of the Parking Judiciary is the final step within the University Parking Judiciary system.
3.3. Penalties
3.3.1. Parking Violations: All parking violations as specified in the Parking Ordinance constitute civil infractions. Any person who is found to have committed a civil infraction under this ordinance may be ordered to pay a civil fine and costs. The schedule of fines for parking violations is approved by the University president and published on the Parking Services website. Violations of the Michigan Vehicle Code shall be under the jurisdiction of the 58th and/or 61st District Court.
3.3.2. Misappropriated and Counterfeit Permit Use: Unauthorized or improper use of any permit, and/or forging, copying, or altering a permit may result in confiscation, criminal charges and/or University sanctions. Permits remain the property of the University after purchase. Potential violations will be immediately reported to the Police. Fraudulently obtaining goods or services is a crime punishable by up to one year in jail and a fine up to $2,000.
3.3.3. Revocation of Parking Privileges: GVSU reserves the right to restrict the parking of any vehicle by any individual at any time on property owned or controlled by the University.
3.3.4. Impoundment and Immobilization: Vehicles parked on property owned or controlled by the University in violation of these regulations or any local, state, or federal ordinances, laws or statutes may be subject to impoundment or immobilization by the Police at the vehicle owner’s expense. Impounded vehicles will be towed by a wrecker service. The cost of impoundment will constitute a lien against the vehicle, with the owner being liable for costs of towing and storage or release from immobilization devices.
3.3.4.1. GVSU Police are responsible for impoundment of vehicles. Violations subjecting a vehicle to immediate impoundment on property owned or controlled by the University include:
   1. Interfering with or impeding:
      a. The flow of vehicular or pedestrian traffic;
      b. The use of facilities, buildings, loading docks, or dumpsters;
      c. The services of emergency personnel, the operation of emergency vehicles, or an evacuation in the event of a possible emergency;
   2. Parking on any surface or in any area not designated for the legal operation or parking of a vehicle;
   3. Parking in or blocking the use of an ADA reserved space without displayed authorization;
   4. Displaying a counterfeit, altered, stolen, transferred, deactivated, or otherwise misappropriated permit;
   5. Vehicles parked in violation of any section of the Parking Ordinance.
3.3.5. Parking Violations – Contact Not Required: If a parking infraction is observed by Department of Public Safety staff and immediate contact is not possible or may jeopardize the safety of an officer or other staff, a parking violation notice may be issued to the registered owner of the vehicle without contact at the time of the violation.
3.3.6. Owner Responsibility: Parking violation notices and fines will be issued to the holder of the University parking permit displayed on the vehicle or to the registered owner of a non-permitted vehicle.

USE OF SECURITY CAMERAS

SLT 6.29

Date of Last Update:
May 15, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Public Safety
Grand Valley State University seeks to promote campus safety and to provide its community with a secure environment. Security video camera systems are a critical component to a comprehensive emergency and security plan. A security camera is defined as video technology that records a specific area in order to detect, deter, prevent, or investigate crime or other threats to public safety. The University takes seriously its responsibility to protect personal privacy when it operates security camera systems. No security camera will be installed on University owned or controlled property in any location for which there is a reasonable expectation of privacy. These areas include but are not limited to restrooms, locker rooms and occupied student residential rooms. This policy applies to stationary security cameras and not to portable or temporary camera applications.

This policy serves to regulate the installation and appropriate uses of security cameras, including the retention, viewing, release and destruction of recorded images, data or records produced by security camera use.

The existence of this policy does not imply or guarantee that security video cameras will be monitored in real time, continuously or otherwise, nor that any particular department is going to observe and respond to a crime in progress.

Video recordings with information about a specific student are considered law enforcement records unless the University uses the recording for disciplinary purposes or makes the recording part of the educational record. The Department of Public Safety, working in conjunction with the Information Technology Department has the authority to select, coordinate, operate, manage, and monitor all security camera systems pursuant to this policy.

**PROCEDURES**

Individual colleges, departments, programs, or organizations wishing to install security camera equipment on any of the University campuses are required to collaborate with Facilities Planning, Department of Public Safety and Information Technology prior to any installation. All equipment and installation must be approved and coordinated through the Department of Public Safety in order to meet the minimum technical specifications identified by the Department of Public Safety and Facilities Planning along with Information Technology for technical standards. All costs for purchase, installation, and maintenance of security cameras will be the responsibility of the appropriate project budget or the department/unit making the request.

**Security Camera System Operator**

Security Camera System Operators are trained staff members who have access and been assigned responsibility by the Department of Public Safety. Prior to being permitted access to any security cameras, these individuals will be trained by the Department of Public Safety in the technical, legal, and ethical parameters of appropriate camera use. The Department of Public Safety will maintain an up-to-date list of authorized Security Camera System Operators having access to the system and any live or recorded images. Access to viewing, copying, duplicating and/or retransmission of live, recorded video or still images will be limited to Security Camera System Operators.

Security Camera System Operators are responsible to appropriately protect the privacy of personal information that may have been captured by cameras under their control.

**Recordings**

Images recorded by security camera systems are considered sensitive information that are to be protected from unauthorized access for modifications, duplications or destruction. The stored images generated by University security cameras are to be kept in a central location and secured in a network location established by the Information Technology department.

Stored data may be released when it is related to any criminal investigation, civil suit, subpoena or court order, arrest, or to aid in a disciplinary proceeding against a student or personnel actions against an employee. Stored data needing to be retained as part of a civil or criminal investigation may be downloaded and retained by law enforcement personnel according to their individual department policies. Internal requests to release stored data are to be authorized by the Director of Public Safety or designee(s).

All recordings will be re-recorded over every 30 days unless there is a demonstrated business need, ongoing investigation, court order, or other bona fide use as approved by the Director of Public Safety or designee.

**Monitoring**

University security cameras are not monitored continuously under normal operating conditions but may be monitored for legitimate safety and security purposes that include, but are not limited to, the following: high risk areas, restricted access areas/locations, in response to an alarm, special events, and specific investigations authorized by the Director of Public Safety or designee(s).

Any person who tampers with or destroys video security equipment will be subject to criminal prosecution and/or campus disciplinary processes.

**CRISIS COMMUNICATION PLAN**

SLT 7.1

**Date of Last Update:**
September 15, 2014

**Approved By:**

- Senior Leadership Team

**Responsible Office:**
University Communications

**POLICY**

The audience for this plan includes all students, faculty, staff, alumni, parents, trustees, the Grand Valley Foundation, and the general public.

**POLICY STATEMENT**

The purpose of this communication plan is to set guidelines to be followed for sharing information with executive officers, faculty, staff and students, as well as the general public. This includes both emergency and non-emergency communications. The plan is coordinated with the Comprehensive Emergency Management Plan (CEMP) administered by the Emergency Coordinator.

**Executive Summary**

- The Vice President for University Relations shall serve as the crisis communication director along with another cabinet member. In a physical emergency, that second executive officer will be the Vice President for Finance and Administration. In a public relations issue, the second executive officer will be determined by the issue.
The Associate Vice President for University Communications, Chief of Police, Dean of Students, Vice President for Enrollment Development, and the Associate Vice President for Facilities shall be the crisis communication coordinators.

Whenever a situation affecting the campus reaches proportions that cannot be handled by routine measures, the crisis communication coordinators shall notify the Vice President for University Relations.

The crisis communication director communicates with the other executive officers and Board of Trustees.

Each university administrator, upon being notified, is to provide applicable information to those persons under his/her direction as per the crisis notification system.

Main and field crisis communication posts shall be established as required by the situation and shall be equipped with communications systems required to utilize resources.

Following the crisis, the crisis communication coordinators will gather all appropriate individuals for debriefing and review. Appropriate action will be determined.

PROCEDURES

TYPES OF COMMUNICATION

Emergency Notification:
An emergency is defined as a serious, unexpected, and often dangerous situation requiring immediate action. A university emergency is generally defined as any incident or event causing or potentially causing serious injury to persons, extensive property damage, loss of life, or disruption of university operations.

NOTE: The Comprehensive Emergency Management Plan can be found at http://gvsu.edu/s/0pC

If an Emergency Notification should be sent, GVPD or Pew Campus Security will write the initial notification message and send it using Grand Valley’s emergency notification system (RAVE). The crisis communication director, and the crisis communication coordinators will determine who else needs to be notified and the appropriate action and follow-up messages as it relates to each campus.

The Vice President for University Relations and the Associate Vice President for University Communications, or their designees, will write any subsequent message(s). A designated representative from University Communications will be responsible for distributing the alert using RAVE. University Communications will post messages on the university home page, GVNow and/or use the university’s social media outlets.

If a Timely Warning should be considered, GVPD or Pew Security will notify the crisis communication director and/or crisis communication coordinator(s). A Timely Warning is required if GVPD or Pew Security receives a report that a Clery crime has been committed on GVSU Clery geography and considers there to be a serious or continuing threat to students and employees. The content of a Timely Warning needs to include information that would promote safety and aid in the prevention of similar crimes and information about the crime that triggered the Timely Warning. The Vice President for University Relations and the Associate Vice President for University Communications, or their designees, will write the message(s). A designated representative from University Communications will be responsible for distributing the alert using RAVE. University Communications will post messages on the university home page, GVNow and the university’s social media outlets.

SAFETY NOTICE FOR OFF-CAMPUS INCIDENTS

Grand Valley may elect to issue a safety notice to members of the University when it is determined there is a reoccurring series of criminal activity, a disruption to operations, or when the Department of Public Safety determines that there may be a serious continuing or ongoing threat to the health or safety of off-campus students. When deemed necessary, the Department of Public Safety will notify the Vice President for University Relations or Associate Vice President for University Communications for dissemination.

PUBLIC WEATHER INFORMATION

If the weather poses an immediate threat to the campus community the Comprehensive Emergency Management Plan (CEMP) will be followed and communications made accordingly. When there is inclement weather that requires cancellation or closure, the GVSU Cancellation/Closure Policy shall be followed.

REPORTING TO UNIVERSITY COMMUNICATIONS POTENTIAL REPUTATIONAL INCIDENTS OR CRISIS

Whenever an event or issue appears to have potential for becoming a controversial news story the Grand Valley staff or faculty member aware of the circumstance should immediately notify the unit head who has responsibility in the situation.

The unit head should immediately communicate all available information to the appropriate appointing officer/dean and/or executive officer, and the Associate Vice President for University Communications. University Communications should be notified regardless of the availability of the appointing officer/dean and/or executive officer.

DEFINITIONS:

Crisis Communication Director:
The Vice President for University Relations or designee will be responsible for supervising communications being released during and surrounding a crisis.

Crisis Communication Coordinators:
The Associate Vice President for University Communications, Chief of Police, Dean of Students, Vice President for Enrollment Development, and the Associate Vice President for Facilities shall be the crisis communication coordinators. It is the responsibility of these individuals to communicate with one another about the nature of the incident and then share the information with the appropriate personnel.

IDENTITY STANDARDS POLICY

SLT 7.2

Date of Last Update:
December 18, 2012

Approved By:
Senior Leadership Team

Responsible Office:
POLICY STATEMENT

To convey clear messages about Grand Valley, it’s important that University messaging is consistent in look and tone. In addition, Grand Valley’s logos are trademarked so it’s very important that they are used correctly. Institutional Marketing has created a standards guide to assist with consistency.

PROCEDURES

The address for the website containing the standards guide and other helpful information is www.gvsu.edu/identity/. From this site, you can find logo dos and don’ts, download logos, determine word usage, read about GVSU’s marketing messages, and get help with publication, website, and advertising guidelines. Please contact 331-2525 for more information.

MOTION PICTURE/VIDEO/FILM/DIGITAL IMAGING PRODUCTION ON THE CAMPUS

SLT 7.3

Date of Last Update: January 04, 2013

Approved By: Senior Leadership Team

Responsible Office: University Communications

POLICY STATEMENT

GVSU understands the importance of the film industry to the local economy and the benefit it can provide to our students interested in a career in film and film production. However, film production on campus is permitted only if it does not interfere with normal University business and/or previously scheduled events. A Location Permit is required to film on campus. The Location Permit can be approved only when all of the appropriate procedures and requirements have been met. Use of any location can only be approved with the consent of the impacted University units or buildings and consideration of the impact on surrounding areas and activities. Scheduled University events, regardless of size, take precedence over film shoots in determining location availability.

PROCEDURES

Requests for Permits

Requestors for a Location Permit must complete the appropriate application. This application and complete script (if applicable) shall be submitted to University Communications. Upon receipt, the completed application and script will be forwarded to a core committee that will include a representation of affected units or buildings for review and project approval.

Fees & Costs

Location fees and operational costs will be charged and are based on a number of variables. The length of the shoot, locations involved, and types of GVSU services needed are all considered in determining the total operational costs. In certain limited instances fees and costs may be waived for uses such as public service announcements. Other forms of media may be subject to this fee and will be handled on a case-by-case basis.

Alterations to Premises

Production companies may not make any alterations to the University Premises (either temporary or permanent), including trimming, cutting or removing natural features such as trees and shrubs, without the express written approval of the University. Production companies will leave the University Premises and all property of any kind located therein in as good order and condition as they were immediately prior to production. Production companies will be responsible for paying for any expenses to restore the University’s Premises to its original condition.

Code of Conduct

While filming on our campus production companies and their employees are guests of the University and should treat this location and campus community with respect and courtesy. The production company, cast, crew and all others associated with the project are expected to comply fully with University Policies. They will be expected to adhere to the Filmmaker’s Code of Professional Responsibility, which is Attachment A to the Guidelines and Procedures for this policy.

University Identification and Appropriate Use of Campus Images

No identification of GVSU as a location is permitted, except in rare instances and only when the specific use is submitted for prior approval University Communications. The request will only be approved when it is deemed to be in the University’s best interests. Identification includes but is not limited to trademarks, icons, recognizable University landmarks, and the use of merchandise containing trademarked images/logos (i.e. flags, apparel, posters, miscellaneous items containing logo, etc.). Identification also includes verbal references on film.

Filming and Athletics

Under no circumstances is the production company to film or use any information images/names/biographical information pertaining to any current university intercollegiate athlete for any purpose. Appearing in a commercial production that identifies them as university intercollegiate athletes will jeopardize their NCAA eligibility.

Cancellation

If written notice of cancellation for an approved location permit is received before the production begins, then the production is liable for any actual costs incurred by the University as of the receipt of the cancellation notice. University shall have the right of cancellation if the Agreement holder is deemed insolvent or, in the University’s sole opinion, shall fail to perform any material term in the Agreement after having received written notice from the University to do so.

Exceptions to Policy
Student projects are subject to School of Communication requirements and procedures and do not require a permit. Incidental filming that includes uses such as: filming for non-commercial or internal use, class projects, or personal use. This filming requires no special services and does not in any way disrupt the normal functioning of the University. This filming cannot be used for commercial purposes after the fact without written permission from Grand Valley State University.

PUBLICATIONS AND ADVERTISING

SLT 7.4

Date of Last Update:
October 18, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Institutional Marketing

POLICY STATEMENT
Institutional Marketing manages, designs, and produces a full range of publications and visual materials, including recruitment materials, course catalog, programs, brochures, posters, postcards, banners, and invitations. Advertising is also designed and produced in the Office of Institutional Marketing for the purposes of university image/awareness and recruitment. If not produced by Institutional Marketing, all publications and ads should be approved by Institutional Marketing before publication. Logo, design, and copy standards can be found at [http://www.gvsu.edu/identity](http://www.gvsu.edu/identity)

PROCEDURES
Because of the high demand for print pieces, the following priorities have been set for pieces to be produced by Institutional Marketing:

1. The Office of the President
2. Publications used by academic services in student recruiting
3. Materials used off campus for development purposes
4. Major publications of the university dealing with the general public or special external audiences
5. Advertising production support for development and student recruiting
6. Other university publications

Requests for forms, applications, etc. are not handled by Institutional Marketing and should be ordered through Procurement Services.

All publications and advertising should be sent to Institutional Marketing for review before they are printed or posted. Please contact 331-2525 for more information.

WEB POLICIES FOR ACADEMIC AND ADMINISTRATIVE UNITS

SLT 7.5

Date of Last Update:
December 18, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Institutional Marketing

POLICY STATEMENT
All GVSU units are required to maintain their webpages on the university’s domain [www.gvsu.edu](http://www.gvsu.edu) and use the university’s content management system unless authorized by Institutional Marketing. All GVSU organizations, whether on the gvsu.edu domain or authorized to maintain their own servers and publish pages under domains other than [www.gvsu.edu](http://www.gvsu.edu/) are equally responsible for adhering to GVSU Web standards.

The purpose of website design standards is to:

- Reinforce GVSU’s identity
- Meet the needs of the constituencies Grand Valley serves
- Provide continuity in website appearance
- Protect and regulate the use of proprietary GVSU names, logo marks, word marks, and graphic devices
- Keep content current
- Faithfully represent GVSU to the public

Web standards can be found at [http://www.gvsu.edu/identity](http://www.gvsu.edu/identity)

ALUMNI HOUSE POLICY FOR FACULTY/STAFF

SLT 8.1

Date of Last Update:
January 03, 2013

Approved By:
POLICY
The Alumni House is available for use by departments of the University. However, the reservation must be made by a faculty or staff member. Faculty and staff members that wish to use the Alumni House for a personal event may do so; all room rentals and additional charges will apply.

POLICY STATEMENT

General
The applicant undertakes to observe all rules and directions, which are imposed by GVSU and the Alumni Relations Office generally, or specifically, in respect to the space which is being used.
The room rental fee will be waived for University-sponsored events providing all additional charges (i.e. catering, equipment, a/v, etc.) are paid by a University account number.
Inform the Event Coordinator if there will be any distinguished or special guests attending the event.

Reservations
Reservations for University events must be made by a University employee. All reservations are to be arranged with the Event Coordinator at (616) 331-3590.
When the Event Coordinator approves the reservation request, he/she will send the primary contact a confirmation of the event with all event details submitted in the reservation form.
Reservations will be made according to the event time specified on the request form. The Event Coordinator will add to your reservation two hours before event start and one hour after event end time for any necessary setup and/or cleanup you may require; contact the Event Coordinator if you require more time

Food and Beverage
For events that involve the service of prepared food and drink, you must use the University’s catering service (Classic Fare Catering).
If you will use the University catering service for your event, please arrange your menu selections with the Event Coordinator by the deadlines described on the event confirmation.
For events the involve the service of alcohol, you must agree to abide by all Michigan Liquor Control Commission rules and regulations involved in the service of alcohol in addition to those established by the University. Final alcohol selections must be given to the Event Coordinator at least two weeks prior to the event to ensure the availability of requested menu items. No changes/additions will be accepted after the deadline.
A final guest count must be given to the Event Coordinator at least three (3) business days prior to the event. If a final guest count is not received three business days prior to the event, the food service provider will consider the last communicated guest count to be the final guest count. The final bill will be based on the final guest count given or actual number served, whichever is higher.
Please contact the Event Coordinator at (616) 331-3590 for information on hosting a non-University sponsored event.
Minimum charges may be applicable for food and bar service.
Outside food and drink are not allowed in the Alumni House.
Food and drink from the Alumni House, partial or whole, are not to leave the premises by state law.
No event may exceed 12:00 midnight, and alcohol service will be discontinued at 11:30 pm.

Set-up and Special Requests
The Perry Dining Room has a standard furniture set-up; additional furnishings or the rearrangement of existing furnishing may result in additional expenses. Set-up requests must be made in advance with the Event Coordinator and must be finalized five (5) business days before the event date. Changes to the set-up after this deadline may incur an additional charge.
Contact the Event Coordinator to order additional equipment, audiovisual equipment, and any other special requests at least five (5) business days before the event.

Cancellation
The Event Coordinator encourages a five (5) business day notice for event cancellations. Special cases will be handled on a case-by-case basis.
You may cancel your event up to three (3) business days prior to the scheduled time of the event at no charge. Events cancelled with less than three (3) business days’ notice will be billed for costs incurred, up to 100% of the total bill.
Late charges will occur when catered events are planned less than three (3) business days in advance. These charges will be 10% of the total cost of the event with a minimum of $10.00.

Release of Alumni Contact Information
We do not release contact information to the general public from our alumni database. At this time, individuals searching for alumni do so by filling out a form online that is forwarded to University alum via postal mail.
POLICY STATEMENT

To provide additional incentive for employees to support endowments the University provides a match equal to the amount of the employee’s gift up to $25,000. Gifts are defined as outright gifts, payments and sustainer payments. Gifts are matched the same year upon actual receipt of cash or similar monetary instruments.

PROCEDURES

The following criteria are to be followed:

Only contributions to named endowments will qualify for matching funds.

Current and retired faculty and staff and their spouse’s contributions will be eligible for match. This definition excludes adjunct faculty and staff.

The available funds for matching will be limited to current year earnings of unrestricted endowed funds and undistributed interest earnings. Use of the general fund for employee gift matching is not permitted. If contributions eligible for match exceed available funding, the match will need to be reduced by an appropriate percentage for all gifts.

The match on one single gift is limited up to $25,000 per donor per year of the gift. Matching gifts over $25,000 requires a recommendation from the President and approval by the Chair of the Board of Trustee’s Finance and Audit Committee in consultation with the Vice President for Finance and Administration regarding funding availability.

The eligible contributions that are received during the calendar year will be matched in the following February. Any eligible gifts received after December 31st will be matched the following February.

FUNDRAISING POLICY

POLICY STATEMENT

University Development helps Grand Valley State University fulfill its mission and realize its aspirations in three ways: (1) securing, stewarding and increasing financial support; (2) building meaningful partnerships with external and internal constituents; and (3) communicating the university’s character, quality, priorities and goals.

Accordingly, University Development must strive at all times to ensure that its policies and procedures and those of the university are in compliance with local, state and federal regulations in regard to the solicitation and acceptance of gifts. Any deviation from the Internal Revenue Code could result in fines, public embarrassment and/or the loss of the University’s tax-exempt status.

For these and many other reasons, all fundraising requests made in the name of the University must be approved in advance by the Vice President for Development. In addition, only the Vice President for Development or their designee is empowered to issue the University’s official receipt that qualifies a donor’s charitable contribution as deductible for tax purposes.

Any fundraising activity that employs the name, image or reputation of the University, in an effort to secure financial gifts will be considered fundraising in the name of the University and is subject to this policy.

Any fundraising activity must be approved in advance by the appropriate dean and/or the divisional vice president before a request for assistance is directed to University Development. In all decisions related to funding, the priorities of the University, as approved by the Board of Trustees, shall guide the decision making process.

University Development will not share lists of donors or other constituents with individuals and organizations not affiliated with approved university fundraising activities.

This policy shall apply to any and all members of the University community, as well as to any other individuals or organizations who may represent themselves as members of the University community or who claim to be acting on behalf of the University. This policy does not apply to members of the University community when they are engaged in fundraising activities for other organizations and/or when they have explicitly stated that their fundraising activities are unrelated to the university.

Today’s donors have more outlets for their philanthropic desires than ever before. As competition for the philanthropic dollar has increased, donors now receive numerous appeals from multiple non-profit organizations. Consequently they are likely to become annoyed by multiple requests from the same organization. To ignore this is to risk reduced support, an outright refusal, or perhaps even permanent discontinuation of support.

Prohibited Activities

Members of the University community are prohibited from engaging in the following tactics and activities for purposes of fundraising:
POLICY STATEMENT

This policy is established to govern the acceptance and disposition of all gifts made to Grand Valley State University, whether such gifts are inter vivos (lifetime) or from estates, other than gifts of: (1) cash or (2) publicly traded equities traded on national exchanges. The Vice President for Development in advance of acceptance must approve all such gifts, which fall under this policy.

Gifts subject to this policy will be considered in four categories:

1. Tangible personal property
2. Real property
3. Life insurance
4. Other assets

The latter category includes, but is not limited to: promissory notes, assignments of promissory notes, partnership interests, and restricted or non-publicly traded securities. The criteria for acceptance, the acceptance/approval process, and the disposition policy (where relevant) for each category are set forth below.

PROCEDURES

1. Tangible personal property

   A. Criteria for acceptance

   Gifts of tangible personal property, including but not limited to works of art, manuscripts, literary works, boats, motor vehicles, and computer hardware, may be accepted only after thorough review indicates that the property is (1) readily marketable or (2) needed by the University for use in a manner that is related to one of the purposes for which tax-exempt status of the University was granted; that is, for education, research, or a combination of both.

   B. Approval/acceptance process

   A Development Officer or other appropriate gift officer will prepare a written summary of the gift proposal and submit that summary to the Assistant Vice President for Development Services. At a minimum, the summary shall include the following information:

   - The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
   - An estimate or appraisal of the gift's fair market value and marketability
   - Any potential University use and, if so, written review by the department to benefit from the asset
   - Any special arrangements requested by the donor concerning disposition (e.g., price considerations, time durations prior to disposition, potential buyers, etc.)

   The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, of necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the University's decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

   If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of tangible personal property, the Development Officer will acknowledge receipt of the gift on behalf of the University. The University will not appraise or assign a value to the gift property. It is the donor's responsibility to establish a value for the gift and provide, at the donor's expense, a qualified appraisal required by the IRS in the case of gifts of tangible personal property valued in excess of $1,500.

   The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance acceptable to the University, and the delivery of the property, as applicable. The donor will pay all costs associated with the conveyance of the gift. In addition, the filing of Form 8283 by the donor is required by the IRS for gifts of tangible personal property valued at more than $1,500. The donor should send this form to the Gift Assistant for execution.

   C. Disposition

   Upon approval of a proposed gift of tangible personal property by the Vice President for Development, he/she will assign a University office the responsibility for disposing of the gift, unless the gift is intended for a specific University purpose, in which case no immediate disposition is necessary. Any guidelines on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the university office responsible for disposing of the gift.

   Upon approval of a proposed gift, the Vice President for Business and Finance or his/her designees will identify a Fund and Organization Code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, a development code will be used as a holding account.

   Until the property is sold or otherwise disposed of, the university office responsible for disposing of the gift will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.
The Vice President for Development must be consulted before a gift of tangible personal property may be sold for less than appraised value, estimated fair market value, or guidelines imposed by University Development in approving the gift, as the case may be. If in the judgment of the person responsible for disposing of the gift, a current appraisal of the property would assist in disposing of the property, the person responsible for disposing of the gift may request permission to have the appraisal performed.

Upon sale of the property, the office responsible for disposing of the gift will prepare a final report on the property, including a financial summary of net proceeds to the extent known, and distribute it to the Vice President for Development, the Vice President does Business and Finance or his/her designee, and the designated representative of the department to benefit from the gift.

2. Real Property
The University will consider gifts of real property, both improved and unimproved (e.g., detached single-family residences, condominiums, apartment buildings, rental property, commercial property, farms, acreage, etc.), including gifts subject to a retained life estate, only after a thorough review of the criteria for acceptance set forth below under the direction and supervision of the Vice President for Business and Finance or his/her designee. All gifts of real property shall be subject to terms and conditions as set forth in the Grand Valley State University Policy for Accepting Gifts of Real Estate.

A. Criteria for Acceptance
   i. Market Value and Marketability: The Vice President for Business and Finance or his/her designee must receive a reasonably current appraisal of the fair market value of the property and interest in the property the University would receive if the proposed gift is approved. Development Officers must understand and communicate to donors that it is the University's policy to dispose of all gifts of real estate (other than property which the University wishes to retain) as expeditiously as possible.
   Thus, regardless of the value placed on the property by the donor's appraisal, the University will attempt to sell at a reasonable price in light of current market conditions, and the donor needs to be informed that any such sale occurring within two years of the date of gift will be reported to the IRS on Form 8283.
   ii. Potential Environmental Risks: All proposed gifts of real property, including gifts from estates, must be accompanied by a Phase I environmental audit performed at the donor's expense. The only permitted exception to this requirement is for residential property, which has been used solely for residential purposes for a significant (at least twenty year) period of time. In cases where this exception applies and no environmental audit is undertaken, the donor/executor must have an outside party complete an Environmental Checklist prepared by the Vice President for Business and Finance or his/her designee and may be required to execute an environmental indemnity agreement. Even in cases where a Phase I audit is submitted, the Vice President for Business and Finance or his/her designee may require that the donor sign an environmental indemnity agreement.
   iii. Limitations and Encumbrance: The existence of any and all mortgages, deeds of trust, restrictions, reservations, easements, mechanic liens and other limitations of record must be disclosed. No gift of an interest in real estate will be accepted until all mortgages, deeds of trust, liens and other encumbrances have been discharged, except in very unusual cases where the fair market value of the University's interest in the property net of all encumbrances is substantial or where a separate agreement to pay such encumbrances which might be charges to the University has been executed by a financially responsible party.
   iv. Title Information: A copy of any title information in the possession of the donor, such as the most recent survey of the property, a title insurance policy, and/or attorney's title opinion, must be furnished.

B. Approval/Acceptance Process
The Development Office, with the assistance of the Vice President for Business and Finance or his/her designee, will prepare a written summary of the gift proposal and submit that summary to the Vice President for Development. At a minimum, the summary shall include the following information:

   a. Description of real property
   b. The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
   c. An appraisal of the properties and, if different, the University's interest in the property's fair market value and marketability
   d. The result of a title search
   e. Any potential for income and expenses, encumbrances, and carry costs prior to disposition
   f. Any environmental risks or problems revealed by audit or survey
   g. Any potential University use
   h. Any special arrangements requested by the donor concerning disposition (e.g., price consideration, time durations prior to disposition, potential buyers, realtors or brokers with whom the donor would like the University to list the property, etc.)

The Vice President for Development and the Vice President must review the material present by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the University's decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of real property, the Development Officer will acknowledge receipt of the gift on behalf of the University upon notice by the Vice President for Business and Finance or his/her designee that the property has been properly recorded in the local Registry of Deeds. The University will not appraise or assign a value to the gift property. It is the donor's responsibility to establish a value for the gift and to provide, at the donor's expense, a qualified appraisal required by the IRS.

The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance. The costs associated with the conveyance and delivery of the gift, including but not limited to recording fees and, if deemed necessary by the Vice President for Business and Finance or his/her designee, a current survey, title insurance and/or attorney's title opinion, will be either paid by the donor or charged to the fund code of the department(s), program(s), or endowment(s) to benefit by the donation. In addition, the IRS for gifts of real property requires the filing of Form 8283 by the donor. The donor should send this form to the Vice President for Business and Finance or his/her designee for execution.

C. Disposition
It is the responsibility of the Vice President for Business and Finance or his/her designee to dispose of all gifts of real property. Any guidelines the Vice President for Business and Finance or his/her designee wishes to impose on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the Vice President for Development.

If the Vice President for Business and Finance or his/her designee determines that it is in the best interests of the University to retain for its own use a gift of real property, it will be recommended to the appropriate officers of the University and to the Board of Trustees that the University purchase the property and that, in all other cases they authorize liquidation of such funds for the benefit of the designated gift purpose.
Upon acceptance of a gift, the Vice President for Business and Finance or his/her designee will designate a code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, the code will be used as a holding account. Until the property is sold or otherwise disposed of, the Vice President for Business and Finance or his/her designee will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.

Upon sale of the property, the Vice President for Business and Finance or his/her designee will prepare a final report on the property, including a financial summary of net proceeds, and distribute it to the Vice President for Development and the designated representative of the department to benefit from the gift. The Vice President for Business and Finance or his/her designee is responsible for filing Form 8283 for gifts of real property sold by the University within two years of the date of gift.

The Vice President for Business and Finance or his/her designee is responsible for filing Form 8283 for gifts of real property sold by the University within two years of the date of gift.

3. Life Insurance

A. Criteria for Acceptance

With approval of the Vice President for Development, the University will accept gifts of life insurance policies that meet the following two criteria:

The policy is a life insurance policy which is either paid-up or, if not paid-up as of the date of gift:
- Has a minimum face value of $10,000
- Has a payment schedule not to exceed ten years and which assumes an interest rate not to exceed two percent below prime interest rate as of the effective date of the policy
- Requires charitable contributions from the donor to the University in the amount of any premiums, including unscheduled premiums, which may become due.

Grand Valley State University is designated as the owner and beneficiary of the policy. If intended for endowment purposes, the face value of the policy meets the minimum funding standards for endowments established by the Board of Trustees.

B. Approval/Acceptance Process

The Development Officer will prepare a written summary of any proposed gift of a life insurance policy, which fails to meet all of the criteria specified in the section above and submit that summary through the University’s Director of Planned & Endowed Giving or his/her designee. At a minimum, the summary shall include the following information:

- Description of the type of life insurance policy, face value, premium payment schedule, interest rate, age of insured(s), and other relevant policy information
- The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift

The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of a life insurance policy, the assigned Development Officer will acknowledge receipt of the gift on behalf of the University.

The gift will be completed upon the execution and delivery of the life insurance policy to the University or an assignment of the policy in the event that the University is not the original owner of the policy.

C. Administration

The Office of University Development shall administer all gifts of life insurance policies and shall maintain records of all donor policies, contribution schedules, donor designations of death benefits, and the like. The University’s Director of Planned & Endowed Giving or his/her designee shall be responsible for pledge reminders and monitoring payments of premiums.

The Vice President for Business and Finance or his/her designee shall be responsible for confirming the existence and cash value of all policies in force at least annually and for collecting and distributing death benefits. Upon receipt of death benefits, the Vice President for Business and Finance or his/her designee shall provide notice to the department(s), program(s), or endowment(s) to benefit from the gift.

4. Other Assets

Other assets include but are not limited to: promissory notes, assignments of promissory notes, partnership interests, and restricted or non-publicly traded securities.

A. Criteria for Acceptance

The University will consider gifts of other assets, including but not limited to promissory notes, assignment of promissory notes, partnership interests and restricted or non-publicly traded securities, only after a thorough review of the criteria set forth below.

i. Market Value and Marketability: The University must receive a reasonably current appraisal of the fair market value of the property and interest in the property the University would receive if the proposed gift is approved. Development Officers will inform the donor that, if the gift is completed, the IRS will require an appraisal made within sixty days of the date of gift. The appraisal and other information must indicate clearly and convincingly that there is in fact a market for the asset under consideration and that the asset can be sold within a reasonable period of time.

ii. Potential Environmental Risks: All proposed gifts in which the University would acquire an interest in real property must be accompanied by a Phase I environmental audit performed at the donor’s expense. The only permitted exception to this requirement is for residential property, which has been used solely for residential purposes for a significant (at least twenty-year) period of time. In cases where this exception applies and no environmental audit is undertaken, the donor must have an agent complete an Environmental Checklist prepared by the Vice President for Business and Finance or his/her designee and may be required to execute an environmental indemnity agreement.

iii. Limitations and Encumbrances: The existence of any and all mortgages, deeds of trust, restrictions, reservations, easements, mechanic liens and other limitations of record must be disclosed. No gift of an interest in real estate will be accepted until all mortgages, deeds of trust, liens and other encumbrances have been discharged, except in very unusual cases where the fair market value of the University’s interest in the property net of all encumbrances which might be charged to the University had been executed by a financially responsible party.

iv. Carrying Costs: The existence and amount of any carrying costs, including but not limited to property owners’ association dues, country club membership dues and transfer charges, taxes and insurance, must be disclosed.

v. Title Information: A copy of any title information in the possession of the donor, such as the most recent survey of the property, a title insurance policy, and/or an attorney’s title opinion, must be furnished.

B. Approval/Acceptance Process
The Development Officer will prepare a written summary of the gift proposal and submit that summary to the Vice President for Development and the Vice President for Business and Finance. At a minimum, the summary shall include the following information:

- Description of the asset
- The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, and unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
- An estimate or appraisal of the asset’s fair market value and marketability
- Potential for income and expenses, encumbrances, and carry costs prior to disposition
- Any environmental risks or problems revealed by audit or survey
- Credit history or financial statement of financially responsible party, if applicable
- Any special arrangements requested by the donor concerning disposition (e.g., price considerations, time durations prior to disposition, potential buyers, realtors or brokers with whom the donor would like the University to list the property, etc.)

The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information). The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the university’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of an asset in Category 4, the assigned Development Officer will acknowledge receipt of the gift on behalf of the university. The university will not appraise or assign a value to the gift property. It is the donor’s responsibility to establish a value for the gift and to provide, at the donor’s expense, a qualified appraisal required by the IRS in the case of assets valued in excess of $1,500.

The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance, and the delivery of the property, as applicable. The cost associated with the conveyance will be paid by the donor upon delivery of the gift. In addition, the filing of Form 8283 by the donor is required by the IRS for gifts of assets valued at more than $1,500. The donor should send this form to the Office of University Development for execution.

C. Disposition

It is the responsibility of the Vice President for Business and Finance or his/her designee to dispose of all gifts of assets in this Category 4. If the asset involves an interest in real estate, it is generally expected that the Vice President for Business and Finance or his/her designee will assist in disposing of the asset. If the asset is a security, it is generally expected that the Vice President for Business and Finance or his/her designee will follow policies for disposing of the asset. Any guidelines the Vice President of Business and Finance or his/her designee wish to impose on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the Vice President for Development at this time.

Upon acceptance of a gift, the Vice President for Business and Finance or his/her designee will designate a code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, the Vice President for Business and Finance or his/her designee will determine how the gift will be disposed.

Until the property is sold or otherwise disposed of, the Vice President for Business and Finance or his/her designee will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.

Upon sale of the property, the Vice President for Business and Finance or his/her designee will prepare a final report on the property, including a financial summary of net proceeds, and distribute it to the Vice President for Development and the designated representative of the department to benefit from the gift.

The Vice President for Business and Finance or his/her designee is responsible for filing Form 8283 for assets valued at more than $5,000 sold by the university within two years of the date of gift.

5. Acceptance and Disposition of Deferred Gifts

A. Deferred Giving

Development Services is asked to record various types of deferred gifts; the office is often asked to provide a description of the nature of such a gift, or explain how various types of deferred gifts should be recorded by us and/or handled for tax purposes. Ultimately, the Gift Assistant should refer related inquiries to the university’s Director of Major & Deferred Gifts. This does not, however, remove the need for the Gift Assistant to be familiar with this type of gift. For this reason, below are the general explanations of certain types of deferred gifts with commonly accepted rules. Information concerning specific treatment of these gifts at Grand Valley State University should be procured from the Office of University Development.

B. Bequests

The most common and simplest form of deferred giving: a bequest is a gift of property that is made through a donor’s will.

Benefits to Donors: Donors do not have to part with any money until they die, and do not owe any estate tax on the amount of the bequest.

6. Charitable Remainder Trusts

Two basic types of charitable remainder trusts qualify for federal tax benefits. In both arrangements, a donor gives stock, cash, or other assets to a trust. Those assets are invested; producing income for the donor or other beneficiary – either for a fixed period of time or until the donor dies. The donor is allowed to claim a tax deduction for the estimated portion of the assets that will ultimately go to charity. When the donor dies, the charity keeps all remaining assets. There are two types of remainder trusts:

A. Unitrusts

Under a basic unitrust, the donor receives one or more yearly payments equaling a fixed percentage of the value of the asset. The value is assessed each year. Under a net-income unitrust, the donor receives only the income earned by the trust, even if the trust earns less than the payout rate. However, the trust can be set up to include a “make-up provision,” which allows donors to make up the lost income, provided the trust earns more than the payout rate in future years.

B. Annuity Trusts

The donor receives a yearly fixed payment equaling at least five percent of the value of the asset at the time the deferred-giving agreement was signed. Donors who give real estate commonly use charitable remainder trusts. Real estate is not usually given through gift annuities and cannot be given to pooled-income funds.

Benefits to Donors: Donors can get income-tax deductions and escape capital-gains taxes by making such gifts. Many donors find the trusts an appealing way to prepare for retirement. The assets can be invested to earn a lower rate of return when the donor is younger and then shifted to earn a higher rate of return, and thus provide more income, during a donor’s later years.

C. Gift Annuities

Donors contribute cash, securities, or other assets to a charity. In exchange, they receive annual payments for a fixed amount of time. With a deferred gift annuity, the annual payments do not start when the gift is made; they begin at a time specified by the donor when the gift is made.

Benefits to Donors: Gift annuities are attractive to donors who want to receive income from assets that have risen sharply in value, such as cash or stocks. In return for gifts of such assets, the charity guarantees the donors a fixed annual income for the rest of their lives and helps the donor avoid capital-gains tax. The donor also gets an income-tax break on a portion of the earnings from an annuity; the exact amount depends on the donor’s age.
D. Pooled-Income Funds
The donor gives cash, securities, or other assets to a non-profit organization, which then invests those assets in a large, diversified portfolio. The donor receives income from the fund proportionate to the value of his or her contribution, as well as an income-tax deduction based on the estimated principal that will be left to the charity. Obtaining a “unit” in a pooled-income fund is similar to buying a share of a mutual fund.

Benefits to Donors: Life gift annuities, pooled-income funds appeal to donors who want to earn income on stock and other assets and escape capital-gains taxes. Unlike annuities, a donor’s income from a pooled-income fund is tied to fluctuating interest rates. That means that in the long run, donors may receive larger earnings than they do from annuities, but they can also do less well in the short term. As a result, the funds tend to appeal to younger people who are more often willing to take risks with their investments.

E. Charitable Lead Trusts
A charity receives the income from the donor’s assets for a specified time, after which the asset is transferred back to the donor or to the donor’s heirs.

Benefits to Donors: A lead trust can reduce gift and estate taxes or provide a charitable deduction for the donor. Charitable lead trusts are most appealing to donors who want to pass appreciated assets to their heirs without paying a substantial amount in taxes. The donor pays a gift tax on the asset when it is placed in to the trust; after that it can grow tax-free. At the end of the specified period, the asset is returned to the donor’s heir or heirs, who do not have to pay any additional taxes.

7. Deferred Gifts Policy of Grand Valley State University
In an effort to maintain continuity and consistency with deferred gifts to Grand Valley State University, the following policy has been established:

Gifts governed by this policy: All deferred gifts to the University, which are managed by Grand Valley State University or its agents, including but not limited to the following:

- Gifts establishing charitable remainder trusts
- Gifts to the pooled income funds
- Gifts purchasing charitable gift annuities
- Gifts funding charitable lead trusts

Gifts not governed by this policy: Deferred gifts that do not require management; for example, gifts of personal residences or farms with retained life estate in donor and deferred gifts with are managed by trustees other than Grand Valley State University.

Trustee: Grand Valley State University has the option to serve as trustee of any deferred gift in which the University’s interest equals at least fifty-one percent of the total charitable interests. Usually the University prefers the use of a commercial trustee.

Payout rates: The payout rates offered to donors shall be competitive and determined in consultation with a Development Officer.

Value of Remainder: No deferred gift (except for deferred gift annuities) shall be accepted in which the value of the University’s remainder interest is less than twenty-five percent of the value of the assets transferred.

Minimum gift amounts: Grand Valley State University has the following minimums for acceptance of deferred gifts

- Charitable remainder trusts: Initial gift – $100,000
- Pooled income fund gifts: Initial gift - $5,000 Additional gifts - $1,000
- Charitable gift annuities: Initial gift - $10,000

Note: Gift annuities may not be offered to residents of states in which such contracts are considered to be insurance products or securities. Currently almost one-half of the states (including Florida, New York and California) classify these contracts as either insurance or securities. Because this list is constantly changing, approval should be obtained from the Development Office before discussions for this gift type are initiated.

Acceptable gift assets: The University will accept the following assets:

- Cash
- Publicly traded securities
- Real estate (subject to approval of the Vice President for Development)
- Other assets, such as closely held stock and partnership interested (subject to approval of the Vice President for Development.)

Valuation of gift assets: The University will follow applicable federal tax law.

Final approval, acceptance, and execution by the University: The Vice President for Development, in collaboration with the Vice President for Business and Finance or his/her designee must approve all documents.

All documents must be sent first to the donor for signature and then to the University’s Vice President of Business and Finance or his/her designee.

The Vice President of Business and Finance or his/her designee shall execute the documents on behalf of the University; and the documents shall be executed in duplicate and the originals distributed as follows:

- One original to donor
- One original to Vice President of Business and Finance or his/her designee
- Copies to the appropriate Development Officer

Approved By:
Senior Leadership Team

Responsible Office:
University Development
Grand Valley State University maintains a database (Millennium) of biographical and gift/pledge information about alumni and friends in accordance with the general needs and expectation of the university community. The information contained in this database is intended exclusively for purposes related to Grand Valley State University programs.

It is the desire of Development Services to support the ongoing activities of Grand Valley State University by providing assistance for programs, communication and events that bring together the expanding orbit of constituents of the university. In order to provide the best possible service to those with legitimate needs for such information, and at the same time maintain the confidentiality of the information entrusted to us by our constituents, the following policies have been developed. These policies were approved in 2007 by the Vice President for Development and now apply to every request for information and to direct access to the Millennium System.

PROCEDURES

Organizations that may request information

The following organizations and individuals may request information from the Millennium database:

Grand Valley State University affiliated organizations and constituent groups, in support of approved activities, including:

- Office of Alumni Relations
- Constituent groups approved by the Office of Alumni Relations
- University Development
- Other administrative units
- Academic units
- Athletic programs
- Office of Career Planning

In cases of dispute about whether an organization has a legitimate affiliation with the University, the final decision will rest with the Vice President for Development or the Director of Development Services as the Vice President’s designee.

- Other colleges and universities seeking the location of alumni with degrees from both Grand Valley State University and the requesting institution
- Law enforcement agencies and student loan agencies
- Agencies that assist Development Services in locating Grand Valley State University’s alumni

Any other requests will be forwarded to that person whose information is sought so that he/she can decide whether or not to contact the requestor. No information will be released for those records coded "No Contact" indicating the alumnus or alumna has requested no university contact. The same rule will apply to records coded Confidential.

All requests for information from members of the media must be referred to University Communications.

Information that may be released

The following information may be released from the Millennium database:

- “Public information,” which is limited to:
  - Full name
  - Degree(s) and date of degree(s) awarded by Grand Valley State University
  - Major field of study
  - Class year

“Public information” will be provided only to those requestors identified above.

Federal law severely restricts the amount of information that may be released on current students. Therefore, no information on students will be released based on data maintained in Millennium. All requests for information on current students should be forwarded to the Registrar’s Office.

Information provided to volunteer alumni constituent groups would be limited to those alumni who are affiliated with the requesting group.

In addition to public information, request from the University Development, Alumni Relations, administrative, academic, or athletic units of Grand Valley State University and central administration may be provided the following information:

- Employment
- Student activities
- Alumni activities
- Family members
- Degrees obtained from other institutions
- Miscellaneous comments, awards and text
- Gift and pledge data
- Selected biographical attributes

Acceptable use of information

The following statements specify the acceptable internal uses of information from the alumni database:

1. Development Services will make available information from its database for the support of approved, university-related activities.

2. Approved activities include:
   a. Alumni Relations
   b. Fundraising
   c. Public Relations
   d. Governmental relations
   e. School/department communications to alumni/constituents
   f. University-sanctioned research
   g. Grand Forum
   h. Student recruitment

3. Information maintained in Millennium is not available for release for nonrelated commercial or political purposes.

4. If the information provided will result in the preparation of lists or directories that are to be published in book, magazine, newsletter, electronic media or other forms for general
distribution among alumni groups, prior to publication each individual who might be included must be provided the opportunity to indicate in writing whether he/she wishes to be excluded.

5. Requestors of data from Millennium may contract to services of outside vendors (e.g., data processing consultants, direct mail firms, marketing and merchandise firms, etc.) to process and/or distribute information obtained from Millennium. In these cases:

- a. The vendor must agree to use the information only for the purpose intended by the university client. The sale or transfer of the information by the vendor is strictly prohibited.
- b. If the project in question results in the publication of directories or lists as identified above, the procedures outlined must be followed prior to publication.
- c. The vendor must ensure the prompt return of and university-owned computer tapes or electronic software provided in fulfillment of the contract.
- d. The university client or the vendor agrees to pay any costs associated with systems programming or special data processing that might be required beyond the normal capabilities of the Millennium computer system.
- e. In all cases involving the use of outside vendors or contractors, the absolute confidentiality of the information provided from the Millennium database is the responsibility of the requestor.

6. Formats available for distribution of information: Information may be obtained in the form of lists, labels, computer tapes, diskettes, and downloads by authorized university representatives in support of approved activities as noted above. It is the responsibility of the unit requesting information to maintain the absolute confidentiality of that information as specified in this policy statement.

7. Privacy Statement attachment: A privacy statement will be attached to any of the information provided to requestors of data from Millennium stating the following: The enclosed (attached) data is for the sole use of the requestor and may contain confidential and privileged information. Any unauthorized review, use, disclosure or distribution is prohibited. Responsibility for the absolute confidentiality of the information provided is the responsibility of the requestor.

8. Compliance with these policies: Failure to abide by any of the policies stated within this document may result in denial of access to information contained in the Millennium database. Request for reinstatement to access to this information must be approved by the Vice President for Development or a designee and must include written assurance of future compliance with these policies.

In cases of dispute about what constitutes an approved activity, the final decision will rest with the Vice President for Development or the Director of Development Services as the Vice President’s designee.

**Statement of database access policies**

Direct access to Millennium is restricted by the Millennium Security policies and procedures as well as the university’s Conditions of Use Information Technology Services Policy.

---

**ANTI-HARASSMENT POLICY**

**SLT 9.1**

**Date of Last Update:**
March 31, 2016

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Inclusion and Equity/Office of Affirmative Action

**POLICY STATEMENT**

**Article I. Purpose**

The goal of Grand Valley State University is to maintain a positive work environment for employees and a climate conducive to learning for students. The University, consistent with its policies and procedures, promotes institutional diversity by embracing such concepts as "affirmative action" and "equal opportunity" as a campus-wide strategy to provide equal access to opportunity. The University's commitment to non-discrimination is the foundation for such efforts. This policy outlines expectations for institutional and individual conduct that apply to all University faculty and staff members.

It is neither the purpose nor intent of this policy to infringe on academic freedom as defined by Grand Valley State University's Board of Trustees' Policies and the Faculty Handbook.

**PROCEDURES**

**Article II. Prohibited Conduct Harassment**

Harassment is unprofessional conduct that could reasonably be understood as (1) having the purpose or effect of creating an intimidating, hostile, or offensive environment, (2) having the purpose or effect of unreasonably interfering with an individual's work performance or access to educational activities and programs, (3) otherwise adversely affecting an individual's employment opportunities or access to educational activities and programs.

Harassment on the basis of age, color, disability, familial status, height, marital status, national origin, political affiliation, race, religion, veteran status, or weight is considered a violation of university policy. (For sex/gender, sexual orientation, gender identity and/or gender expression, see Sexual or Gender-Based Harassment Policy.)

**Article III. Sanctions**

Any person who violates the University's Anti-Harassment Policy may be subject to a range of sanctions (in accordance with University policies) which could include, but is not limited to, dismissal, according to due process, from University employment. Violators may also be subject to civil action or criminal prosecution because harassment and other discriminatory behavior may violate state or federal laws.

**Article IV. Retaliation**

1) Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.
a. Retaliation includes threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.

b. Retaliation may be present even where there is a finding of “no responsibility” on the allegations of prohibited conduct.

c. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.

2) Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

Article V. Procedural Guidelines for Discrimination and Harassment Complaints

A. Preliminary Issues

The following procedures are intended to enforce the University’s Equal Opportunity/Affirmative Action Policy, (EEO/AA Policy) and the University’s Non-Discrimination and Anti-Harassment Policy. The procedures are initiated by making a complaint that alleges discrimination, including unlawful harassment, has occurred. Complaints may be either formal or informal, and the procedure for each is described below.

B. Purpose of these Guidelines

The purpose of these procedural guidelines is to ensure that discrimination complaints, including harassment, are handled promptly and effectively in a manner that is procedurally fair to all parties. The Affirmative Action Office may deviate from these Guidelines as necessary to achieve the goals of prompt, thorough, and effective complaint resolution in a procedurally fair manner.

C. Time limit for Filing a Complaint

Typically, both formal and informal complaints should be reported as soon as possible and within sixty (60) days after discovery of the act which constitutes an instance of inappropriate behavior. The University retains the right to accept and address complaints reported anytime after the 60 day recommended time limit.

D. Confidentiality

Although discretion will be exercised, a guarantee of confidentiality or anonymity cannot be made because the fact-finding investigation will involve discussions with other parties. Information about the Complainant and the incidents giving rise to the complaint will be revealed only as investigatory and disciplinary processes require. Confidentiality will be observed to the extent permitted by law and which is consistent with protecting the welfare of the faculty, staff and students, and the interests of the University.

E. Where to Make a Complaint

In most cases, a University Faculty/Staff member with a complaint alleging harassment in violation of this Policy, whether formal or informal, should report this to the Affirmative Action Office. A University student with a complaint alleging harassment in violation of this Policy, whether it is formal or informal, should report it to the Affirmative Action Office or the Dean of Students Office. In the event a complaint is received in offices other than the offices mentioned above, faculty and staff are responsible for referring the individual to the appropriate office.

F. Emergency

Provisional, emergency actions departing from these procedures may be taken by a University Appointing Officer with the advice of the Affirmative Action Office and the University Counsel Office and must be followed as promptly as possible by steps providing Respondent(s) with the notice and opportunity to defend the allegations.

Article VI. Informal Complaints

Individuals who believe they have experienced or may have witnessed discrimination or harassment in violation of this Policy should consult with the Affirmative Action Office. Contacting the Affirmative Action Office about a concern does not automatically result in a formal complaint.

The party making the complaint (the ‘Complainant”) may request that the University official consulted speak informally with the alleged offender(s) (the “Respondent”) informing them of the salient features of the complaint. If this process does not resolve the matter or, if the Complainant or University official who is consulted prefers, he/she may pursue any of the avenues of resolution listed below.

Informal complaints are those complaints where the Complainant or a witness of an alleged offense asks the Affirmative Action Office to assist in the resolution of an alleged violation of the Non-Discrimination and Anti-Harassment Policy.

1. Advising. One function of the Affirmative Action Office is to hear and address complaints concerning discrimination, including harassment of any type, in violation of this policy. If the Complainant seeks a preliminary informational and advising session with the Affirmative Action Office, an opportunity for full discussion of the case shall be provided. The Affirmative Action Office shall aid the Complainant in exploring all possible options for resolving the complaint as effectively as possible. In doing so, the Affirmative Action Office will observe the confidentiality provisions of this Policy.

Some incidents, if considered serious, may require some type of follow-up actions to be taken by the Affirmative Action Office. If any follow-up actions are deemed necessary, the Affirmative Action Office will inform the person who identified the concern that action will be taken.

Students may seek advice and guidance from the Dean of Students or the Affirmative Action Office.

2. Alternative Dispute Resolution (ADR). The goal of ADR is to provide a forum where the Complainant and Respondent can, with the aid of the third party come to a mutually agreed-upon resolution. ADR works only when both the complaining and responding parties voluntarily participate in the process. ADR facilitators may be assigned by the Affirmative Action office. By definition, informal resolutions do not include imposing sanctions, but they may involve mutually acceptable consequences.

a. Mediation Process. A favored method of alternative dispute resolution (ADR) of complaints is mediation, which also is a voluntary conflict-resolution process. The Complainant and the Respondent voluntarily agree to work with a third party mediator, who is usually a member of the University community that is a trained mediator, to resolve the complaint. This mediation is intended to resolve the complaint to the satisfaction of both the Complainant and the Respondent. Informal complaints need not be put in writing or signed by the Complainant. Certain types of incidents, however, may not be appropriate for mediation.

i. A faculty or staff member or student initiates the mediation process by making an informal complaint within the Human Resources Office or the Affirmative Action Office. Students may initiate the process in the Dean of Students Office or may consult with the Affirmative Action Office. The complaint need not be in writing or be signed by the complainant.

ii. The office receiving the complaint will discuss the mediation process with the Complainant to determine if mediation might be an appropriate method to resolve the complaint.

iii. If the Complainant wishes to proceed with mediation, then a person designated by the Affirmative Action Office, the Human Resources Office, or the Dean of Students Office meets
with the alleged offender, informing him or her that an informal complaint has been filed and that the Complainant wishes to resolve it by mediation. The mediation process will be discussed with the alleged offender to determine if mediation might be an appropriate method to resolve the complaint. The Respondent is also informed that mediation is a voluntary conflict resolution process intended to make each party aware of the position or feelings of the other and to resolve the conflict.

iv. If both parties agree to mediation, a Mediator will be selected by the Affirmative Action Office, the Human Resources Office, or the Dean of Students Office. The mediator will be a trained member of the University community who is deemed the most suitable and knowledgeable based on the circumstances involved.

v. Mediation may also include meetings between the Mediator and the parties separately.

vi. If mediation has been successful, the Mediator will inform the Affirmative Action Office that the complaint has been resolved.

vii. If the Mediator determines that mediation cannot adequately resolve the issues, he or she will inform the Complainant and Respondent of this as well as the options available, such as filing a formal complaint. The Mediator will also notify the Affirmative Action Office that mediation was unsuccessful.

viii. If the Complainant is dissatisfied with the results of mediation, he or she may file a formal complaint.

Article VII. Formal Complaints (Written)

Formal complaints are those complaints where the faculty/staff/student files a written complaint with the Affirmative Action Office.

A. Filing a Formal Complaint

Complainants must provide a written description of the allegation(s) and the name of the alleged offender. Complaint forms are available from the Affirmative Action Office and on the web at [http://www.gvsu.edu/inclusion][1] under “Forms.” The Complainant should complete the form, listing: the type of alleged offense; summary of alleged discrimination; who discriminated against the Complainant; what action has been taken so far; what action is suggested; and whether the Complainant has filed a complaint/grievance with any other agency. The Complainant must sign the complaint form and submit it to the Affirmative Action Office to begin a formal investigation.

B. Notifications

Certain notifications are required to ensure fairness and equity to all parties involved:

1. The appropriate Appointing Officer responsible for the areas where the Complainant and Respondent are employed will be notified. The appropriate Vice President and the Appointing Officer for the Respondent shall receive a copy of the Complaint.

2. Once he or she becomes the focus of a complaint, the Respondent must be notified of the complaint, the identity of the Complainant and the nature of the complaint. They will also be advised not to contact the Complainant directly or to retaliate against him/her. The appropriate Appointing Officer will meet with the Respondent and provide a copy of the Complaint and be advised of the obligation of non-retaliation.

3. If either the Complainant or Respondent is represented by a collective bargaining agreement, the appropriate official in the Human Resources Office will be contacted immediately to assist in the facilitating the fact-finding investigation process.

4. If the complaint is against a student, the Complainant may elect to pursue a formal charge through the Dean of Students Office. The Affirmative Action Office will notify the Dean of Students as appropriate.

5. If the complaint is against an appointing officer, only the appropriate Vice President is notified. If the complaint is against a Vice President or Provost, the President is notified. If the complaint is against the President, the Chair of the Board of Trustees is notified. If the complaint is against a member of the Board of Trustees, the Chair of the Board of Trustees will be notified. If the complaint is against the Chair of the Trustees, the Vice Chair of the Board of Trustees will be notified.

6. The Affirmative Action Office will maintain periodic contact with the Complainant and Respondent regarding the complaint status throughout the investigation.

C. Steps in the Investigation Process

A formal fact-finding investigation process will be carried out in as timely a manner as possible. However, all parties involved are encouraged to recognize that a thorough investigation requires time. While no specific deadlines are established, required notifications, respondent and, where applicable, union representation and investigation activities should begin as quickly as possible after receiving the written complaint.

1. The Affirmative Action Office will determine the most effective method of investigating the concerns raised by the Complainant. If circumstances deem that the investigation should be referred to the Student Grievance Process, then the Dean of Students will handle oversight responsibilities of the complaint. If not referred to the Dean of Students, then the Affirmative Action Office is responsible for the investigation.

2. Unless unusual circumstances prevent or suggest otherwise, a co-investigator will be identified to participate in the investigation process that will be led by the Assistant Vice President for Affirmative Action. The co-investigator will be a trained/experienced member of GVSU’s faculty or staff.

3. The investigation will involve conducting a thorough fact-finding investigation that includes meeting with the Complainant, Respondent, pertinent witnesses and reviewing and analyzing relevant documents as they relate to each allegation of the complaint. The investigators have the obligation to remain neutral during the investigation. Occasionally, a different or less formal response to the complaint may be warranted. Although the Affirmative Action Office may deviate from these guidelines, it will still respond to the complaint in a prompt, thorough and effective manner that is procedurally fair.

4. Communication with the Complainant and Respondent regarding the current status of the investigation and anticipated or adjusted timelines for concluding will occur on a regular and timely basis.

D. Investigation Report

1. A Final Investigation Report will contain: 1) a summary of the Complainant(s)’ allegations and the Respondent’s relevant statement in response to the allegations; 2) analysis of findings that includes a description of the relevant information provided by witnesses or obtained from the documents; and 3) the conclusion about whether or not university policy has been violated.

2. The Final Investigation Report will be provided to the appropriate Appointing Officer and Vice President. The Assistant Vice President for Affirmative Action will verbally notify both the Complainant and the Respondent about whether or not university policy was violated. The co-investigator’s involvement in the matter concludes when the final investigation report is issued.

3. The Assistant Vice President for Affirmative Action will meet with a representative from the University Counsel Office and the Appointing Officer to discuss recommendations for
any follow-up actions.

E. Standard for Determining Violations of This Policy

Allegations of violations of this Policy will be evaluated by considering the totality of the particular circumstances, including the nature, frequency, intensity, location, context, and duration of the questioned behavior. Although repeated incidents generally create a stronger claim of harassment, a serious incident, even if isolated, can be sufficient to rise to the level of being considered a policy violation.

F. Corrective Action

If the report finds that the EEO/AA policy or this Non-Discrimination and Anti-Harassment Policy were violated, the University will determine appropriate corrective action, up to and including dismissal. The University may also take corrective action if no discrimination or harassment is found, but Respondent is found to have engaged in inappropriate workplace behavior. If corrective action is to be taken against a Respondent that is represented by a collective bargaining agreement, the appropriate official in the Human Resources Office will be contacted immediately to assist in the facilitating the corrective action.

Article VIII. Other Information

Copies of complaint procedures are available online at: www.gvsu.edu/inclusion. Information regarding other grievance procedures is located in the following documents:

1. Faculty members - Section 3.02 of the Faculty Handbook.
2. Executive, Administrative and Professional Staff - Board of Trustees' Policies, BOT 4.4.8
3. Clerical, Office and Technical Staff - Section 6, Grievance, of the present contract.
4. Confidential Clerical - Section 9, Grievances, of the Personnel Policies in the Confidential Clerical handbook.
5. Maintenance, Grounds, and Services - Section 6, Grievances, of the present contract.
6. Department of Public Safety Staff - Section 6, Grievances, of the present contract.
8. Student Employees - Student Employee Handbook and Student Code, Article IV. Student Grievance Procedures

CONSENSUAL RELATIONSHIP POLICY

SLT 9.2

Date of Last Update:
November 19, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity/Office of Affirmative Action

POLICY STATEMENT

Possessing and mastering a range of thoughtful perspectives is necessary for open inquiry, a liberal education, and a healthy community. Recognizing this, the University seeks to include, engage, and support a diverse group of students, faculty, and staff. The institution values a multiplicity of opinions and backgrounds, and is dedicated to incorporating multiple voices and experiences into every aspect of its operations. We are committed to building institutional capacity and strengthening our liberal education through providing an inclusive environment for all of our University constituents.

Article I. Purpose

The University’s goals are to maintain a positive work environment and a climate conducive to learning for students. The unequal institutional power inherent in academic and work relationships may heighten the vulnerability of those in subordinate positions. Accordingly, individuals holding positions of authority at the University must be aware of and sensitive to the potential conflict of interest, ethical concerns, and issues of sexual harassment that may occur in consensual relationships. Specifically, the parties to a consensual relationship must be aware that such relationships can create in co-workers and students perceived and real conflicts of interest. These relationships also create an environment of fear of unfair treatment in terms of promotions, grades, professional and/or educational opportunities, etc. This Policy outlines expectations for institutional and individual conduct that apply to all University faculty and staff members and students.

Article II. Consensual Relationships

Consensual romantic and sexual relationships between faculty and their students or between supervisors and their subordinates are inappropriate. Individuals should be aware that these relationships may create a perception of favoritism while the relationships continue. These relationships may be less consensual than perceived by the individual whose position confers power. The relationship also may be viewed in different ways by each of the parties, particularly in retrospect. Furthermore, circumstances may change and the conduct that was previously welcome may become unwelcome. If a sexual harassment complaint is subsequently filed, the argument that the relationship was consensual will be evaluated in light of the power differential in determining whether the University’s Anti-Harassment Policy has been violated. Under these circumstances, it will be extremely difficult to use mutual consent as a defense.

Consensual Romantic or Sexual Relationships between Faculty/Staff and Students. A faculty or staff member who has educational, supervisory, evaluation, advising, coaching, or counseling responsibilities for students shall not assume or maintain those responsibilities for a student with whom the faculty or staff member has engaged in romantic or sexual relations, even if such relations were consensual. Whether such romantic or sexual relationships predate the assumption of educational, supervisory, evaluation, advising, coaching, or counseling responsibility for the student, or arise out of the educational relationship, the faculty or staff member shall immediately disclose the romantic or sexual relationship to his or her Unit Head or supervisor, who shall promptly arrange alternate oversight of the student.

Consensual Romantic or Sexual Relationships between Supervisors and Subordinates. If a romantic or sexual relationship exists or develops between a supervisor, manager, or administrator and an employee for whom he or she has professional responsibility, the individuals involved in the relationship must promptly consult the next highest level of supervision (e.g., a supervisor, department head, Vice President, Dean) to determine whether arrangements can be made to eliminate all conflicts of interest. If such arrangements can be made that do not disadvantage the subordinate and are acceptable to the supervisor, manager, or administrator, they must be documented, and ensure that the supervisor does not hire, supervise, advise, evaluate, or otherwise directly influence the subordinate’s employment. Relationships between supervisors, managers, or administrators and their subordinates are prohibited when the working relationship is such that it is not possible to eliminate the conflicts of interest. Students employed by the University who supervise other student employees are covered by this section.
Consensual romantic or sexual relationships between students. Complaints concerning relationships between students are governed by the GVSU Student Code.

Article III. Disciplinary Actions
Disciplinary action will be taken against faculty or staff members who violate this Policy, either by entering into or engaging in a sexual relationship with a student or subordinate for whom he or she has educational, supervisory, evaluation, advisory, coaching, or counseling responsibilities or by failing to report such relationship or failing to cooperate in making alternative arrangements.

Article IV. Confidentiality
Confidentiality of the disclosure of consensual romantic or sexual relationships will be observed to the extent permitted by law and that is consistent with protecting the welfare of faculty, staff, and students and the interests of the University.

SEXUAL OR GENDER-BASED HARASSMENT (INCLUDING RETALIATION) POLICY

SLT 9.3

Date of Last Update:
May 15, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity

POLICY STATEMENT
Sexual or gender-based harassment is prohibited conduct at the University. No employee, student or other person at the University shall engage in sexual or gender-based harassment. The University will take prompt and effective steps to end sexual or gender-based harassment; eliminate any hostile environment caused by sexual or gender-based harassment; prevent its recurrence; and remedy the discriminatory effects on the victim and others as appropriate.

This policy and related procedures for addressing complaints of sexual and gender-based harassment, apply to all University programs and activities, including those conducted off-campus. Where relevant, if the off-campus sexual or gender-based harassment did not occur in the context of a University program or activity, the University will consider the effects of such off-campus sexual or gender-based harassment when evaluating whether it creates a hostile environment on campus or in an off-campus education program or activity.

PROCEDURES

Reporting, Procedures & Notifications
1. Reports: Reports of sexual or gender-based harassment should be made immediately to the Title IX Office and can also be filed online. Under Title IX, most University employees are considered “Responsible Employees” meaning they are required to report to the Title IX Office incidents of Sexual Misconduct that they observe or about which they learn. Professional counselors at the University who provide mental-health counseling are not considered “Responsible Employees” and, therefore, are not required to report any incident of Sexual Misconduct. Other resources are also available: see the following link for more information.

2. Procedures: Procedures for responding to reports of sexual or gender-based harassment are maintained by the Division of Inclusion and Equity. Procedures will be reviewed on an annual basis for proposed revision to be implemented the following academic year. Revisions to procedures are approved by the Vice President of Inclusion and Equity, in consultation with the Senior Leadership Team. The University community (students and employees) will also be broadly consulted and periodically surveyed to obtain input on revisions.

3. Notifications: The University community will be notified, annually, of this policy and any revisions, inquiry contact information, and available resources and provided regular training regarding this policy as well as prevention and awareness education related to the prevention of and response to sexual and gender-based harassment.

DEFINITIONS:

Definitions
1. Sexual Harassment is unwelcome sexual, sex-based, request for sexual favors whether verbal, written, graphic, physical or otherwise, or other unwanted conduct of a sexual nature. When conditions are present as outlined in a. and/or b. below.

2. Gender-Based Harassment includes harassment based on gender, sexual orientation, transgender, gender non-conforming, transitioning, gender identity, or gender expression, which may include acts of aggression, intimidation, or hostility, whether verbal or non-verbal, graphic, physical, or otherwise, even if the acts do not involve conduct of a sexual nature. When conditions are present as outlined in a. and/or b. below.

   a. Quid pro quo harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature made by a person having power or authority over another constitutes sexual harassment when submission to sexual conduct is made either explicitly or implicitly a term or condition of rating or evaluating an individual’s educational or employment progress, development or performance. This includes when submission to such conduct would be a condition for access to receiving the benefits of any educational or employment program.

   b. Creates a hostile environment that is:

      i. Sufficiently severe, or persistent or pervasive, and objectively offensive that it unreasonably interferes with, limits, or deprives an individual from participating in or benefiting from the University’s education or employment programs and/or activities.

      ii. A hostile environment can be created by persistent or pervasive conduct or by a single or isolated incident, if sufficiently severe. The more severe the conduct, the less need there is to show a repetitive series of incidents to prove a hostile environment, particularly if the conduct is physical; a single incident of sexual or gender-based harassment, for example, may be sufficiently severe to constitute a hostile environment. In contrast, the perceived offensiveness of a single verbal or written expression standing alone, is typically not sufficient to constitute a hostile environment.

      iii. In evaluating whether a hostile environment exists, the University will consider the totality of known circumstances, including, but not limited to:

         1. The frequency, nature and severity of the conduct;
2. Whether the conduct was physically threatening;
3. The effect of the conduct on the Complainant’s mental or emotional state;
4. Whether the conduct was directed at more than one person;
5. Whether the conduct arose in the context of other discriminatory conduct (see Anti-Harassment Policy);
6. Whether the conduct unreasonably interfered with the Complainant’s educational or work performance and/or University programs or activities; and/or,
7. Whether the conduct implicates concerns related to academic freedom or protected speech.

c. Transgender, gender non-conforming, transitioning, gender identity, and gender expression definitions:
   i. Transgender: An umbrella term that can be used to describe people whose gender identity and/or expression is different from their sex assigned at birth.
   ii. Gender non-conforming: Describes people who have, or are perceived to have, gender characteristics and/or behaviors that do not conform to traditional or societal expectations.
   iii. Transition/Transitioning: The process of changing one’s gender from the sex assigned at birth to one’s gender identity.
   iv. Gender Identity: A personal, internal sense of oneself as, for example, male, female, both, or neither.
   v. Gender Expression: The external appearance of one’s gender identity, or how one represents one’s gender through hair style, clothing, mannerisms, etc.

Retaliation

1. Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.
   a. Retaliation includes threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.
   b. Retaliation may be present even where there is a finding of “no responsibility” on the allegations of prohibited conduct.
   c. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.
2. Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

More information about Procedures related to this policy, and other useful information can be accessed at the following link.

SEXUAL MISCONDUCT POLICY INCLUDING: SEXUAL ASSAULT, SEXUAL EXPLOITATION, INTIMATE PARTNER VIOLENCE (DOMESTIC OR DATING VIOLENCE), STALKING & RETALIATION

SLT 9.4

Date of Last Update:
March 03, 2016

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity

POLICY STATEMENT

I. Sexual Misconduct is any conduct that is considered sexual assault, dating violence, domestic violence, stalking and sexual exploitation as those terms are defined by this policy. Sexual Misconduct is prohibited conduct at the University. No employee, student or other person at the University shall engage in Sexual Misconduct. The University will take prompt and effective steps to end Sexual Misconduct, eliminate any hostile environment caused by Sexual Misconduct, prevent its recurrence, and remedy the discriminatory effects on the victim and others as appropriate.

This policy and related procedures for addressing complaints of Sexual Misconduct apply to all University programs and activities, including those conducted off-campus. Where relevant, if the off-campus Sexual Misconduct did not occur in the context of a University program or activity, the University will consider the effects of such off campus Sexual Misconduct when evaluating whether it otherwise creates a hostile environment on campus or in an off-campus education program or activity.

PROCEDURES

II. Reporting, Procedures & Notifications

1. Reporting: Reports of Sexual Misconduct should be made immediately to the Title IX Office and can also be filed online. Under Title IX, most University employees are considered “Responsible Employees” meaning they are required to report to the Title IX Office incidents of Sexual Misconduct that they observe or about which they learn. Professional counselors at the University who provide mental-health counseling are not considered “Responsible Employees” and, therefore, are not required to report any incident of Sexual Misconduct. Other resources are also available: see the following link. Any inquiry concerning the application of Title IX may be referred to the Title IX Coordinator or to the U.S. Department of Education Office of Civil Rights.

2. Procedures: Procedures for responding to reports of Sexual Misconduct are maintained by the Division of Inclusion and Equity. Procedures will be reviewed on an annual basis for proposed revision to be normally implemented the following academic year. Revisions to procedures are approved by the Vice President of Inclusion and Equity, in consultation with the Senior Leadership Team. The University community (students and employees) will also be broadly consulted and periodically surveyed to obtain input on revisions.

3. Notification: The University community will be notified, annually, of this policy and any revisions, inquiry contact information, and available resources and provided regular training regarding this policy as well as education related to the prevention and awareness of and response to Sexual Misconduct.

III. Definitions

1. Sexual Assault is an offense that meets the definition of rape, fondling, incest, or statutory rape, as defined in the Federal Bureau of Investigation’s (FBI) Uniform Crime Reporting (UCR) program, as having or attempting to have sexual intercourse or sexual contact with another individual by force or threat of force; without affirmative consent; or where the person is incapacitated.
2. Sexual Assault consists of (a.) Sexual Contact and/or (b.) Sexual Intercourse that occurs without (c.) Affirmative Consent.

a. Sexual Contact is any intentional sexual touching, however slight, with any object or body part (as described below), performed by a person upon another person.

i. Sexual Contact includes: (a) intentional touching of the breasts, buttocks, groin or genitals, whether clothed or unclothed, or intentionally touching another with any of these body parts; and (b) making another touch you or themselves with or on any of these body parts; (c) causing another to touch one’s intimate parts, disrobing or exposure of another without permission.

b. Rape is sexual penetration, however slight, of another person without affirmative consent. Penetration can be of the mouth, vagina, or anus, and can be with a penis, tongue, finger, or foreign object.

c. Sexual Intercourse is vaginal or anal penetration, however slight, with any object or body part (as described below) performed by a person upon another person; and/or, oral penetration involving mouth to genital contact.

i. Sexual Intercourse includes: (a) vaginal penetration by a penis, object, tongue, or finger; (b) anal penetration by a penis, object, tongue, or finger; and (c) any contact, no matter how slight, between the mouth of one person and the genitalia of another person.

d. Affirmative Consent is informed (knowing); voluntary (freely given); and, active (not passive), meaning that, through the demonstration of clear words or actions, a person has indicated permission to engage in mutually agreed-upon sexual activity and the consenting person is not incapacitated as defined by this policy.

ii. Affirmative Consent cannot be obtained by Force. Force includes: (a) the use of physical violence, (b) threats, (c) intimidation, and/or (d) coercion.

1. Physical violence means that a person is exerting control over another person through the use of physical force. Examples of physical violence include but are not limited to hitting, punching, slapping, kicking, restraining, strangling, and brandishing or using any weapon.

2. Threats are words or actions that would compel a reasonable person to engage in unwanted sexual activity. Examples include threats to harm a person physically, to reveal private information to harm a person’s reputation, or to cause a person academic or economic harm.

3. Intimidation is an implied threat that menaces or causes reasonable fear in another person. A person’s size, alone, does not constitute intimidation; however, a person’s size may be used in a way that constitutes intimidation (e.g., blocking access to an exit).

4. Coercion is the use of an unreasonable amount of pressure to gain sexual access. Coercion is more than an effort to persuade, entice, or attract another person to have sex. When a person makes clear a decision not to participate in a particular form of Sexual Contact or Sexual Intercourse, a decision to stop, or a decision not to go beyond a certain sexual interaction, continued pressure can be coercive. In evaluating whether coercion was used, the University will consider: (i) the frequency of the application of the pressure, (ii) the intensity of the pressure, (iii) the degree of isolation of the person being pressured, and (iv) the duration of the pressure.

ii. Affirmative Consent cannot be gained by taking advantage of the incapacitation of another, where the person initiating sexual activity knew or reasonably should have known that the other was incapacitated.

1. Incapacitation means that a person lacks the ability to make informed, rational judgments about whether or not to engage in sexual activity.

2. Incapacitation is such that it renders the person incapable of self-care and protection. Incapacitation could be the result of alcohol or other drugs or due to a temporary or permanent physical or mental health condition.

iii. Affirmative Consent to one form of sexual activity does not, by itself, constitute Affirmative Consent to another form of sexual activity.

IV. Intimate Partner Violence

Intimate Partner Violence is any act of Domestic Violence or Dating Violence as defined by this Policy.

1. Domestic Violence is any act of violence committed by any of the following individuals: (a) a current or former spouse or intimate partner of the victim; (b) person with whom the victim shares a child in common; (c) person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner; and/or, (d) a resident or former resident of the victim’s household in the event such household has a current or prior intimate relationship.

a. An incident of domestic violence can consist of a single act of violence or a pattern of violent acts that includes, but is not limited to, sexual or physical abuse, or the threat to engage in such abuse.

2. Dating Violence is any act of violence committed by a person who is, or has been, in a social relationship of a romantic or intimate nature with the victim that does not fall within the definition of “domestic violence.”

a. Dating violence includes, but is not limited to, sexual or physical abuse or assault or the threat of such abuse or assault.

b. For the purposes of determining Intimate Partner Violence, whether the relationship is of a romantic or intimate nature is determined by a variety of factors, including: (a) the length of the relationship, (b) the type of relationship, and (c) the frequency of interaction between the persons involved in the relationship.

c. A relationship of a romantic or intimate nature means a relationship that is characterized by the expectation of affection or sexual involvement between the parties.

d. An incident of dating violence can consist of a single act of violence or a pattern of violent acts that includes, but is not limited to, sexual or physical abuse, or the threat to engage in such abuse.

V. Stalking

1. Stalking occurs when a person engages in a course of conduct directed at a specific person under circumstances that would cause a reasonable person to fear bodily injury or to experience substantial emotional distress.

a. Course of conduct means two or more acts, including but not limited to acts in which a person directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about another person, or interferes with another person’s property.

b. Reasonable person means a reasonable person under similar circumstances.

c. Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

2. Stalking includes “cyber-stalking,” a particular form of stalking in which a person uses electronic media, such as the internet, social networks, blogs, cell phones, texts, or other similar devices or forms of contact. This policy prohibits all stalking, not just stalking that occurs within the context of a relationship.
VI. Sexual Exploitation

Sexual Exploitation is purposely or knowingly doing any of the following:

1. Causing the incapacitation of another person (through alcohol, drugs, or any other means) for the purpose of compromising that person’s ability to give Affirmative Consent (see Section III.2(d)) to sexual activity;
2. Allowing third parties to observe private sexual activity from a (a) hidden location (e.g., closet), or (b) through electronic means (e.g., Skype or live streaming of images);
3. Engaging in voyeurism (e.g., watching private sexual activity without the consent of the participants or viewing another person’s intimate parts (including genitalia, groin, breasts or buttocks) in a place where that person would have a reasonable expectation of privacy);
4. Recording or photographing private sexual activity and/or a person’s intimate parts (including genitalia, groin, breasts or buttocks) without consent;
5. Disseminating or posting images of private sexual activity and/or a person’s intimate parts (including genitalia, groin, breasts or buttocks) without consent;
6. Knowingly exposing another person to a sexually transmitted infection or virus without the other’s knowledge;
7. Arranging for others to have non-consensual sexual contact, as defined by the Sexual Misconduct policy, with a non-consenting person.

VII. Retaliation

1. Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.
   a. Retaliation includes threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.
   b. Retaliation may be present even where there is a finding of “no responsibility” on the allegations of prohibited conduct.
   c. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.

2. Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

More information about Procedures related to this policy, and other useful information can be accessed at the following link.

DISABILITY ACCOMMODATION POLICY FOR FACULTY AND STAFF

SLT 9.5

Date of Last Update:
September 16, 2013

Approved By:

Senior Leadership Team

Responsible Office:
Inclusion and Equity

POLICY STATEMENT

Grand Valley State University is committed to the fundamental academic principles of equity and accessibility by providing all faculty, staff and students with access to the University’s programs, services, events and activities. The aim of this policy is to support an inclusive academic environment by incorporating design concepts that reduce or remove barriers. University faculty or staff members who are persons with a disability are not required to identify themselves as persons with a disability or to request an accommodation. However, the University cannot accommodate an individual who does not inform the University about his/her disability and his/her need for an accommodation. A faculty or staff member seeking an accommodation must request it by submitting their request to the Disability Support Resources Office following its procedures.

PROCEDURES

The Disability Support Resources Accommodation Process

To request an accommodation, a University faculty or staff member must:

A. Self-identify as a person with a disability by application to the Disability Support Resources office (DSR). It should be noted that The University conducts a survey of faculty and staff for statistical purposes and this does not constitute a method of self identification consistent with this policy. If a faculty or staff member requests an accommodation, the supervisor/unit administrator should refer the faculty or staff member to the DSR or its web site at http://www.gvsu.edu/dsr

B. Provide documentation of the disability; and

C. Indicate in the application to the Disability Support Resources office, his/her need for accommodation and provide supporting medical documentation from an appropriate professional, if requested by the Disability Support Resources office. The medical professional must have first-hand knowledge of the condition and a familiarity with the physical, emotional and cognitive demands of the disability.

Once an application has been submitted to the DSR, a DSR advisor will review the application and may contact the faculty or staff member who submitted the application. The advisor will contact the supervisor/unit administrator and discuss whether an accommodation is warranted, explore possible accommodations, and assess the effectiveness each would have in enabling the faculty or staff member to perform his/her job including the following:

A. The essential job functions of the position. The essential functions are the fundamental job duties of the employment position at issue. To be qualified for a position, an individual must be able to perform the essential functions of the job, with or without a reasonable accommodation.

B. The faculty or staff member’s ability to perform essential job functions with or without a reasonable accommodation; and,

C. Possible types of reasonable accommodations, if any are needed.

Reasonable accommodations vary depending on the circumstances of each case. In evaluating alternatives for accommodation, the preferences of the individual are considered, but the ultimate decision regarding what type of accommodation, if any, will be provided is made by the University. Nothing in this document shall be construed to waive the University’s...
right to contest whether a faculty or staff member is disabled or is entitled to an accommodation.

Medical documentation, as well as other related materials, will be maintained at DSR. Such documentation is kept confidential, except as necessary to administer the accommodation process or otherwise permitted by law. Such documentation may be shared only with those individuals involved in the accommodation process on an as needed basis.

During the accommodation request process, DSR may:

A. Request additional documentation;
B. Consult with Human Resource Office;
C. Evaluate whether any accommodation is needed and, if it is, whether an accommodation is reasonable and should be made (this evaluation may include preparing cost estimates);
D. Assess various accommodations;
E. Identify alternative accommodations or solutions;
F. Provide information from resources about the capabilities of persons with similar disabilities and the tools/techniques they use;
G. Determine a reasonable accommodation, if appropriate;
H. Provide a written determination to the department/unit and faculty or staff member;
I. Explain the department/unit’s responsibility to fund an accepted accommodation or seek alternative funding, if needed;

DSR makes a determination regarding implementation of accommodations. DSR will consider each request for reasonable accommodation and determine: (1) whether the accommodation is needed, (2) if needed, whether the accommodation would be effective, and (3) if effective, whether providing the reasonable accommodation would impose an undue hardship.

Appeals

If a faculty or staff member or supervisor/unit administrator disagrees with the DSR determination, the decision may be appealed to the Vice President of Inclusion and Equity, in writing to:

Vice President of Inclusion and Equity
4035 James H. Zumberge Hall
Allendale, MI 49401
Office number: (616) 331-3296

Retaliation

Retaliation against a faculty or staff member who requests an accommodation is prohibited. Individuals who feel that they have experienced retaliation may contact the Division of Inclusion and Equity

RELIGIOUS INCLUSION POLICY

SLT 9.6

Date of Last Update:
November 19, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity/Office of Affirmative Action

POLICY STATEMENT

Possessing and mastering a range of thoughtful perspectives is necessary for open inquiry, a liberal education, and a healthy community. Recognizing this, the University seeks to include, engage, and support a diverse group of students, faculty, and staff. The institution values a multiplicity of opinions and backgrounds, and is dedicated to incorporating multiple voices and experiences into every aspect of its operations. We are committed to building institutional capacity and strengthening our liberal education through providing an inclusive environment for all of our University constituents.

Purpose

Many University students, staff, and faculty observe religious traditions from a variety of religions. This Religious Inclusion Policy (“Policy”) acknowledges the right of students, staff, and faculty to engage in religious observances. The University is committed to accommodate the exercise of that right.

The University acknowledges that conflicts in scheduling mandatory academic requirements and employment obligations with religious observances are inevitable. Although the University does not observe religious holidays, it recognizes that there are a number of religious holidays that affect significant numbers of our students, staff, and faculty. This Policy is intended to provide clarity to students, staff, and faculty who seek accommodation to practice their faith.

PROCEDURES
Accommodations

Grand Valley State University will make a reasonable effort to allow its students, staff, or faculty to be away from work or a class to observe their religious beliefs, except where accommodating the request would result in undue hardship on the University in its mission, operation or in meeting its academic standards. The University provides quiet areas for student, staff, and faculty reflection, meditation, and prayer. A list of these quiet areas may be found on the Inclusion and Equity webpage.

Faculty should be sensitive to the observance of religious holidays so that students who miss classes to practice their faith are not disadvantaged. A list of religious holidays is found on the Inclusion and Equity website. Please note that this list is meant to be inclusive of most major religious traditions (although certainly not comprehensive), and that religious holidays have no official status at the University.

Faculty should make every effort to avoid scheduling examinations or assigning work that is due on religious holidays. Some religious holidays begin at sundown on the evening before the published date of the holiday. Consequently, faculty should avoid scheduling late afternoon exams on these days.

Faculty shall not penalize any student who has properly notified the faculty member by complying with the Request Accommodation Procedure for his/her absence in classes, examination, or assignments. Faculty should accept a student’s claim of a scheduling conflict on religious grounds at face value. If class attendance is required by the faculty member, classes missed to observe a religious holiday may not be counted as an absence.

Faculty must provide a reasonable opportunity for such a student to make up missed assignments and examinations within a reasonable time period before or after the student’s absence, provided the student has properly notified the faculty member by submitting a Request Accommodation Form. Faculty must give the student the opportunity to do appropriate make-up work that is no more difficult or time-consuming than the original exam or assignment.

Nothing in this Policy, however, exempts a student from meeting course requirements or completing assignments. The faculty member may respond appropriately if the student fails to satisfactorily complete the make-up assignment or examination.

Further, when scheduling university events and activities, such as Family Weekend, Commencement, Convocation, and University sponsored conferences, planners should consult the list of religious holidays on the Inclusion and Equity website before selecting the date and time to ensure inclusiveness.

Religious Accommodation Procedure

All requests for accommodation for religious observance should be made in the following manner:

Students: Faculty should inform students of all examination dates and assignment deadlines at the start of each semester in the class syllabus. If a conflict with a religious observance exists, students must request a religious accommodation from their faculty within the first two weeks of each semester or as soon as reasonably possible after the instructor announces a particular mandatory class, examination, or assignment so that alternative arrangements can be made for any class, examinations, or assignments missed. If an accommodation is needed within the first two weeks of the semester, the student must provide the faculty member with reasonable advance notice of the need for accommodation. Requests for accommodation must be made through a Religious Accommodation Form, which may be found at the Dean of Students Office, the Office of Affirmative Action or under “Forms” at www.gvsu.edu/inclusion. It is the student’s responsibility to provide faculty with reasonable notice of the need for accommodation and the timing of the notice may be taken into account in determining whether granting the request would create an undue hardship.

The faculty member and the student should discuss and agree upon what would constitute a reasonable accommodation in each given case. If the student and faculty member agree upon an accommodation, the accommodation must be carried out and disclosed on the Religious Accommodation Form. The completed Religious Accommodation Form shall be filed by the faculty member in the Dean of Students Office.

If the student and faculty member cannot agree on an accommodation, either party may bring the matter to the Unit Head to determine the accommodation. Either party may appeal the Unit Head’s decision to the Dean, who will make a final binding decision.

Where a student has obligations to a placement site (e.g. internships), that student must also work out arrangements with the placement site to make up for missed responsibilities or duties.

Staff: The use of vacation and personal leave is governed by the staff member’s respective Board of Trustees’ Policies, Staff Handbook, or Collective Bargaining Agreement. Vacation days requested for the express purpose of religious observance will not be unreasonably denied by the staff member’s supervisor if the staff member has accrued vacation leave or is eligible for personal leave and the granting of leave or vacation time will not result in undue hardship for GVSU.

Faculty: The use of vacation and personal leave is governed by the Faculty Handbook. Requests by a faculty member for leave for religious accommodation, however, shall be considered under this Policy if the faculty member has made arrangements for any missed classes and the granting of the leave will not result in undue hardship for GVSU. Faculty that miss class time due to a religious observance must make alternate arrangements for that time with his or her Unit Head. If the Unit Head denies the request, the faculty member may appeal to the Dean, who will have final decision authority over the request.

Nothing in this Policy exempts a GVSU faculty or staff member from fulfilling their job responsibilities.

Confidentiality

Although discretion will be exercised, a guarantee of confidentiality or anonymity cannot be made because the determination of a reasonable religious accommodation will involve discussions with other parties. Information about the request for religious accommodation will be revealed only as the deliberation process requires. Discretion will be observed to the extent permitted by law and that is consistent with protecting the welfare of the students, staff, and faculty and the interests of the University.

Retaliation

Any attempt to retaliate against an individual who files a religious accommodation request or otherwise utilizes this Policy is prohibited.
Grand Valley State University is committed to the fundamental academic principles of equity and accessibility by providing all students and staff with equitable access to the University’s programs, services, events and staff development activities. The aim of this policy is to support an inclusive academic environment by incorporating design concepts that reduce or remove barriers to our websites or to provide equally effective alternative access.

This policy establishes minimum standards for the accessibility of web-based information and services considered necessary to meet the University’s goals and ensure compliance with applicable law. The University has assigned web accessibility responsibilities to its Americans with Disabilities Act Coordinator and Web Manager, or their designees.

This policy applies to all official web pages and associated web-based services developed by or for a college, school, department, program, or unit of the University.

The University will ensure that new online content and functionality developed, procured, or used will be fully accessible to individuals with disabilities. This action will include any staff training that may be necessary to ensure full implementation.

All new web pages published by any University college, school, department, program, or unit on or after the effective date of this policy must conform to WCAG 2.0 Level AA Technologies Accessibility Standards and this policy.

For existing online content, the University has: developed a strategy for identifying inaccessible content and functionality for individuals with disabilities; developed a notice to person with disabilities regarding how to request that the University provide access to online information or functionality; prominently posted this notice on its home page and throughout its website; and developed a process to ensure that, upon request, inaccessible content and functionality will be made accessible in an expedient manner.

Each web site must contain a link to report accessibility issues, or to request an accessible version, should users have trouble accessing content within the site. This would usually be the site administrator or content author.

PROCEDURES

Training

Accessibility training will be provided and required of all faculty, staff and other authorized representatives prior to being given access to manage any online content through the Content Management System (CMS) or through remote access to a web server (FTP, SFTP, SSH, etc.).

This training will help content administrators produce accessible content, and assess and correct content that may be inaccessible. All content administrators will be required to attend Accessibility Training on an annual basis as long as they manage online content.

Enforcement

If necessary, at the discretion of the Web Accessibility Coordinators or their designees, some or all non-compliant portions of the web pages and resources may be taken offline, or brought into compliance by designated staff or contractors.

Purchasing of Outside Content

All web-based content and systems, whether developed internally or obtained from third-parties that the University chooses to make available, is expected to conform to accessibility standards set forth in this policy. Accessibility of these technologies should be verified by University staff with demonstrated ability in accessibility evaluation. This verification process should be accomplished through hands-on evaluation of the product, prior to purchase.

When evaluating third-party products, it is advisable to choose the most accessible product in the space. However, not always will there be accessible choices, or the most accessible choice may not align with other dominant selection criteria. In cases where a product with limited accessibility has been purchased, interim, equivalent accommodations documented in an approved ADA exception should be in place until the service can be made accessible.

Contact Information

Any concerns with the accessibility of online content should be directed to the Americans with Disabilities Act Coordinator, 4035 James H. Zumberge Hall, 616-331-3296 and/or Web Manager, 2090 James H. Zumberge Hall, 616-331-2525 or their designees who serve as the University’s Web Accessibility Coordinators. sponsored by a school system);

- A Minor is enrolled in one or more courses on campus, either as a matriculated student, a guest student from another institution of higher education, or a dual-enrolled student; or,
- Other events where Minors are physically present at the University, such as situations when parents/legal guardians are expected to accompany and provide supervision to Minors in their care (this includes Admissions activities and events and performances open to the public).

POLICY STATEMENT

I. Requirements of Programs that Involve Minors

Programs are typically workshops, sports camps, academic camps, conferences, and similar activities. Some activities that are exempt from Section I can be found in Sections III-V.

A Sponsoring Unit offering or approving a Program that involves Minors or provides University housing for Minors participating in a Program, whether utilizing University housing or not, shall abide by the following:

1. Waiver or release forms: participation, medical treatment, use of photographs and other media: All Minors participating in a University Program must provide a waiver or release form for participation in the program, medical treatment authorization, and use of photographs and other media by the University. This can be one form or several, and all forms must be signed by a Parent, Legal Guardian, or Foster Parent prior to their participation in a Program.

2. Behavior of Minors on Campus. Minors are to be held to the same standards of behavior expected of enrolled students, as described in University policies.

3. Information maintained by Programs. All Programs shall maintain an up-to-date list of all Program times and dates, locations, attendance information (names, ages and emergency contacts for Program Participants); list of all Authorized Adults, documentation of their training (item #5 below) and background check (item #6 below) for the Program; and a Program contact, so that in the event of an emergency, appropriate measures may be taken. All Programs must establish a procedure for the notification of a Program Participant’s Parent/Legal Guardian/Foster Parent in the case of an emergency, which might include medical or behavioral issues involving the Minor, or changes in the Program due to unforeseen and significant disruptions. Parents/Legal Guardians/Foster Parents must also be given contact information in a manner in which the Program Participant can be contacted while the Program is in session. All information, including release forms, shall be retained by the Sponsoring Unit for five years after the Program ends.

4. Supervision of Minors. All Programs must provide adequate supervision of Minors while they are on Campus. One-on-One Contact with Minors is discouraged, unless in public spaces. In general, it is required that two or more Authorized Adult will be involved in activities where Minors are present. Parents/Legal Guardians/Foster Parents may sign a waiver giving consent for their Child to be alone with an Authorized Adult. (For example, if music lessons are being provided by an adult instructor.) Exceptions in rare circumstances may also be granted (see below).

5. Training of Authorized Adults. Each Authorized Adult, who is not the Minor’s Parent, Legal Guardian, Foster Parent or an adult designated by the Parent or Legal Guardian, who will be participating with Minors in a Program, shall complete training in the conduct and reporting requirements of this policy. This training is given to maximize the protection of Minors from abuse of any kind. The appropriate vice president, dean, unit head, or area director may enhance and/or supplement the required training Program to meet specific needs of the particular Program involved. Documentation that the Authorized Adults have been trained should be maintained by a designated and identified member of the Program’s Sponsoring Unit for five years.

6. Background checks of Authorized Adults. All Authorized Adults in the Program must complete and submit the Authorization for Release of Information for Background Check form to Human Resources. Background checks must be completed every five years. (See also PC 10.7 Volunteers Policy for Authorized Adults who are not University employees.)

7. Procedures for release of Minors. All Programs must establish a procedure for the pick-up and drop-off of Program Participants, specifying times and locations. The Authorized Adult(s) overseeing the pick-up and drop-off of Program Participants shall remain at the specified location until all Minors have been released. If a minor is not picked up, the Authorized Adult(s) will contact the parent or guardian, the program director and finally, Grand Valley Department of Public Safety if needed.

In rare circumstances, strict adherence to this policy’s requirements may not always be feasible or be the best practice for managing risk. If a Program can justify an exception in consultation with and with approval from Human Resources, or, when appropriate, obtain written consent by the Parent/Legal Guardian/Foster Parent for the parameters applicable to the Program, certain requirements under this policy may be waived. Such waivers will be considered on a case-by-case basis.

II. Conduct Requirements of Authorized Adults

All Authorized Adults, participating in Programs and activities covered by this policy, should be positive role models and act in a caring, honest, respectful, and responsible manner. They are required to comply with all applicable laws and University policy. In addition, at all times, they shall:

1. In general, avoid One-on-One Contact with Minors, unless in public spaces. Two or more Authorized Adults must be involved in Programs where Minors are present unless a waiver has been signed or an exception has been granted.

2. Have separate accommodations from the Minors. An Authorized Adult should not have One-on-One Contact by entering a Minor’s room, bathroom facility, or similar area without another Authorized Adult in attendance.

3. Not take photographs or digital images of Minors other than specified in the waiver for photography (see Section I.1).

4. Not engage in private communication not pertaining to Program matters with a Minor by email, telephone, text message, social media, or any other method at any time, except when there is a clear educational purpose and the communication is consistent with the mission of the University.

5. Not meet with Minors outside of established times for Program activities. Any exceptions require written Parent/Legal Guardian/Foster Parent authorization and must include more than one Authorized Adult from the Program.

6. In the presence of a Minor or during any University Program, not engage in any sexual activity or romantic conversations, or sexually explicit comments.

7. Not possess, have within reach and/or share sexually-oriented printed or computerized or portable materials (magazines, cards, videos, films, clothing, smartphones, etc.) in any form available to Minors participating in Programs or activities covered by this policy or assist them in any way in gaining access to such materials. The one exception would be legitimate sexual education Programs in which the Minor’s Parent/Legal Guardian/Foster Parent have given prior written consent.

8. Not engage in abusive conduct of any kind toward, or in the presence of, a Minor. For example, no Authorized Adult shall strike, hit, administer corporal punishment or touch in an abusive or illegal manner any Minor. If necessary, touching should only be in the open, in response to the Minor’s immediate physical needs, for a purpose that is consistent with the Program’s mission and culture, or for a clear educational, development, safety, or health-related purpose (i.e., treatment of an injury).

9. Not possess fireworks, firearms, knives, or other weapons, unless being used for an officially sanctioned and approved instructional Program. (See also the Weapons policy [PC 6.27].)

10. Not transport Minors, except as specifically authorized in writing by the Minor’s Parent/Legal Guardian/Foster Parent, or in the case of an emergency.

11. Not engage in the use of alcohol or illegal drugs, or be under the influence of alcohol or illegal drugs, during such Programs or activities. (See also the Alcohol and Other Drugs policy [PC 5.1].)

12. Respect and adhere to any resistance from the Minor unless it is a life-threatening emergency.

13. Not continue to participate in Programs or activities if an allegation of prohibited or illegal conduct has been made against an Authorized Adult covered by this Policy until such allegation has been satisfactorily resolved and future participation in Programs is permitted by the University.

14. Not engage in any activity that violates the policies of the University (www.gvsu.edu/policies). This includes the harassment policies [PC 9.1, PC 9.3], the Sexual Misconduct
policy [PC 9.4], and the Religious Inclusion policy [PC 9.6].

Those who do not meet the prescribed standards of behavior may be asked to leave the Campus and/or Program and may be subject to expulsion from the Program, suspension of attendance, being issued a “no-trespass” order by Public Safety, or disciplinary action up to and including termination of employment. (See also Section VII of this policy.) The behavioral requirements in this policy are not meant to preclude enrolled University students from developing appropriate friendships with Minors who are close in age to the enrolled student; rather, the requirements are meant to protect Minors from abusive or illegal contact and inappropriate relationships.

III. Third Party Programs Held on University Property

Third Parties using University facilities for events that involve Minors shall operate within all policies and requirements to use University facilities. In addition, adults who interact with Minors in these activities shall conform to the conduct requirements in Section II of this policy.

IV. Minors Enrolled in Courses

Minors who are matriculated students of the University, guest students from other institutions, or dual-enrolled students are subject to all university policies. Adults who interact with Minor students (e.g. faculty teaching courses, academic advisors) are also subject to all university policies, and shall conform to the conduct requirements in Section II of this policy. The requirements of Section I of this policy do not apply.

V. Minors at the University Who Are Not Participating in a Program

1. Minors brought to Campus by an employee, student, or visitor, and who are not participating in a Program by a Sponsoring Unit, are the sole responsibility of the employee, student, or visitor. The person bringing the child to Campus is responsible for all aspects of the Minor’s behavior including the Minor’s safety and is financially responsible for any damages caused by the Minor.

2. Minors are permitted at events and venues open to the public. However, the University reserves the right to determine, in its sole discretion, whether selected events or venues are appropriate for unescorted or unsupervised Minors.

3. In the event a Minor is on Campus and 1) is unsupervised by an adult, 2) they are not a Participant in a University Program, and 3) they are not a Participant in a Third Party Program (Section III), they may be required to leave the Campus.

Activities for which this Section V of the policy is relevant include:

- Events or performances on Campus that are open to the general public (e.g., athletic competitions, plays, concerts);
- Pre-enrollment visits such as admission, recruiting, and orientation events;
- Services provided by the Campus Health Center or other similar On-Campus clinical services during which a Minor is under the supervision of a Parent/Guardian/Foster Parent or a clinical provider;
- Non-residential field trips to Campus supervised by a Minor’s school or organization;
- Private, personal events (e.g., birthday parties, weddings) for which the user has a separate, signed agreement with the University to use space on Campus.

The following activities are exempt from this policy: Off-campus clinical, practicum, internships, student teaching, or similar experiences in which (1) University students (undergraduate or graduate) interact with Minors as part of the experience and (2) are supervised by a third party. This also includes Off-Campus events in which registered student organizations participate with third-party organizations.

VI. Reporting Requirements

Reporting requirements of suspected child abuse or other illegal conduct towards a Minor shall be in accordance with applicable federal, state and local laws. In particular, see:

- State of Michigan Department of Health and Human Services rules on reporting abuse and neglect (This page includes indicators of child abuse and/or neglect and the State of Michigan’s definition of “Mandatory Reporters”.)

Individuals who witness or suspect child abuse should not conduct an investigation or delay in notifying the appropriate authorities via 911. Such actions could taint any appropriate criminal or administrative investigation and render evidence inadmissible.

In addition, the University’s Police Department/Public Safety site provides up-to-date definitions of unlawful behavior: https://www.gvsu.edu/gvpd/title-ix-and-campus-security-authority-report-141.htm

VII. Additional Considerations

1. When an Authorized Adult or other person has been alleged to engage in inappropriate conduct with a Minor, that individual must discontinue any further participation in Programs covered by this policy until such allegation has been satisfactorily resolved and he or she has been given written permission by the University to participate again in Programs. Resolution of the allegation will involve appropriate investigatory steps, and any written permission to continue participation (or participate in the future) in a Program covered by this policy must be coordinated with Human Resources.

2. Any person that requires accommodations due to a disability, while visiting campus must inform the Sponsoring Unit of their needs.

VIII. Interaction with Other Standards, Practices, and Requirements

Nothing in this policy is meant to supersede or replace the standards of practice of other entities in responding to child abuse, suspected incidents of child abuse or threats of child abuse. Satisfying the requirements of this policy does not relieve a person from any obligation to follow the protocols of another entity that may apply to the particular incident. Individual University units maintain the discretion to impose safety measures beyond those required by this policy on University Programs they sponsor or oversee. Additionally, all state and federal requirements must be followed.

PROCEDURES

Human Resources may develop forms and guidelines to assist Programs that wish to work with Minors on Campus. In addition, Human Resources will conduct random audits annually to ensure compliance with this policy.

DEFINITIONS:

Definitions

1. “Authorized Adult” is an individual, age 18 and older, paid or unpaid, who supervises, chaperones, or otherwise works with Minors in Program activities, or recreational, and/or residential facilities. This includes but is not limited to faculty, employees, student employees, staff, volunteers, graduate and undergraduate students, interns, teachers, employees provided by temporary agencies, third-party hosts, and independent contractors/consultants. The role of Authorized Adult may include positions such as counselors, chaperones, coaches, instructors, and other similarly situated persons. Temporary guest speakers, presenters and other individuals who have no direct contact or only incidental contact with Program Participants, other than as short-term activities supervised by Program staff, are not considered Authorized Adults but are still expected to conform to the conduct requirements in Section II of this policy.
2. “Campus” includes all domestic real property owned or leased by the University and can include any of its campuses.

3. “Parent” is the natural Parent or adoptive Parent as recognized under the law, of a Minor child whose parental rights and responsibilities have not been terminated under applicable law. “Legal Guardian” is any person appointed under applicable law to have the care and management of the person, the estate, or both of a Minor. “Foster Parent” is a person appointed by the court to temporarily provide the care and management of the minor child.

4. “One-on-One Contact” is personal, unsupervised interaction between any Authorized Adult and a single Program Participant Minor without at least one other Authorized Adult, Parent or Legal Guardian being present. Unless in public spaces, such contact is to be avoided by all adults on Campus, whether considered an Authorized Adult under this policy or not.

5. “Program” or “Programs” are programs and activities offered by various academic or administrative units of the University, whether on University property or not, that potentially will include Minors as Program Participants. This includes but is not limited to workshops, sports camps, academic camps, conferences, and similar activities.

6. “Program Participants” are Minors who are involved in University-sponsored Programs both on and off Campus.

7. “Sponsoring Unit” is the academic or administrative unit of the University that offers a Program or gives approval for housing or other use of facilities.

---

**CONFLICT OF INTEREST POLICY**

SLT 10.1

**Date of Last Update:**
August 13, 2012

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
Legal, Compliance & Risk Management

**POLICY STATEMENT**

In the pursuit of its mission, Grand Valley State University through its Board of Trustees, Senior Leadership Team, faculty, staff and other representatives operates with the highest level of ethical behavior including, but not limited to, acting with integrity, reasonableness and fairness in our dealings, and avoiding bias or undue influence. Consistent with these values, the Board of Trustees has adopted institutional policies for identifying and managing potential, actual and perceived conflict of interest situations:

Grand Valley State University Board of Trustees’ Policies BOT 4.1.6: Conflict of Interest

1. **Employment.** Appointment of any relative of a faculty or staff member must be approved by the president in advance of the appointment in order to insure that no conflicts of interest exist. Each appointing officer must insure that no conflicts of interest exist in matters of appointment, retention, promotion, termination, assignment or other conditions of employment for relatives of faculty or staff members within his or her unit.

2. **Financial.** It shall be the responsibility of the president (or his/her designee) to ensure that conflicts of financial interest do not occur, and to take such steps to protect the university as seem to be required. The university respects the rights of its faculty and staff members in their activities outside their employment, which are private in nature and which in no way conflict with or reflect upon the university.

3. **Political Candidates or Office Holder.** The university affirms the rights of its faculty and staff members as citizens to be active in political affairs, which do not conflict with the professional standards and ethics of their employment. It shall be the responsibility of the president (or his/her designee) to ensure that conflicts involving professional standards and ethics do not occur with Grand Valley State University faculty and staff members who are political candidates or office holders, and to take such steps to protect the university as may be required.

Grand Valley State University Board of Trustees’ Policies, 6.16: Economic Development

Consistent with its public service mission, the University has a responsibility for supporting the economic development of the state, particularly west Michigan through a variety of initiatives including but not limited to the Van Andel Global Trade Institute, the West Michigan Science and Technology Initiative through the Grand Rapids SmartZone and the Muskegon SmartZone. These efforts will involve the development and commercialization of intellectual property using University resources, which may result in royalty or ownership interests for the benefit of the University. In compliance with MCL 15.321 et. seq., the President must review any conflict of interest and authorize such activities as may be deemed necessary when the University is an interested party in the joint development or commercialization of intellectual property with any employee of the University or a business in which the University employee has an equity interest. The President shall report his/her approval of such conflicts, including a summary of the issues and the rationale for his/her decision, at the next regularly scheduled board meeting, and shall make an annual report of all such conflicts.

**PROCEDURES**

In addition to the policy obligations described above, the University requires compliance with procedures to avoid or address conflicts of interest as provided by the following offices:

Refer to the Procedures for Conflicts of Interest table.

LEGAL SERVICES POLICY

SLT 10.2

Date of Last Update:
March 03, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

Pursuant to Grand Valley State University Board of Trustees' Policies BOT 10.2 approved by the Board of Trustees, the President has designated that legal services be coordinated through one administrative office, the Division of Legal, Compliance and Risk Management. All legal services for Grand Valley State University shall be provided through the Division of Legal, Compliance & Risk Management, either by its legal staff, by outside counsel retained by this Division or both. All requests for legal services on behalf of the University must be directed to this Division. The Division of Legal, Compliance and Risk Management provides legal counsel and assistance exclusively to Grand Valley State University representatives regarding University matters.

Personal legal advice or representation with regard to a personal matter should be privately retained and paid for by other than University funds.

FREEDOM OF INFORMATION ACT POLICY

SLT 10.3

Date of Last Update:
June 03, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

Section 1 of the Michigan Freedom of Information Act (“FOIA” or “the statute”) provides, “It is the public policy of this state that all persons, except those persons incarcerated in state or local correctional facilities, are entitled to full and complete information regarding the affairs of government and the official acts of those who represent them as public officials and public employees, consistent with this act. The people shall be informed so that they may fully participate in the democratic process.”(1) To that end, all people, excluding prisoners, are allowed to file FOIA requests with a Grand Valley State University (the “University”). A requester must simply file a request in writing with the University’s FOIA Coordinator, and the University will begin processing his or her request.(2) Each request must include the requesting person’s complete name, address (in compliance with United States Postal Service addressing standards), and either a telephone number or email address.

The University, in its initial response, will do one of the following within the timeframe permitted by the statute: grant the request, partially grant the request, deny the request, inform the requester that additional time is needed, require a fee deposit prior to further processing, or inform the requester that the requested record has not been sufficiently described.
If a request is denied or partially denied, the University will explain why the documents have not been released and inform the requester of his or her challenge and appeal options. A fee deposit will be required when processing a request that will require significant University employee time and resources. The University will notify the requester of the estimated cost and provide a non-binding, best efforts estimate of the time it will take to complete the processing of the request. It is possible that after further processing of the request, the University will determine that the cost of processing the request is significantly less or greater than the estimated cost. If that is the case, the University will notify the requester to allow the requester to determine whether and how he or she wants to proceed with the request.

After the University receives a required deposit, it will make every effort to provide the requested documents within the time estimate provided. Requesters must understand, however, that at any given time, the University is processing multiple requests and cannot devote all of its time to one particular request.

If a requester feels that he or she was wrongly denied responsive documents, he or she may appeal to the Head of the Public Body, which for the purposes of these Procedures and Guidelines is the Vice President and General Counsel, or file a civil action. If a requester believes that the University has required a fee that exceeds the amount permitted under the Procedures and Guidelines, he or she may file a civil action. Requesters are also always free to contact the FOIA Coordinator at 616-331-2067 or foia@gvsu.edu with any questions about the processing of their requests. Detailed Procedures and Guidelines follow.

PROCEDURES

1. How to submit a FOIA request to the University
   a. A FOIA request must be submitted in writing to the FOIA Coordinator in the Division of Legal, Compliance & Risk Management. The request may be transmitted in hard copy, by email, or by facsimile.
   b. The University’s FOIA Coordinator address 4068 James H. Zumberge Hall, Grand Valley State University, Allendale, MI 49401. The email address is foia@gvsu.edu. The fax number is (616) 331-3950.
   c. A request should describe the record(s) sought sufficiently to enable the University to find the record(s) and should provide the requester’s contact information.
   d. Requests should state that they are submitted pursuant to the Michigan Freedom of Information Act.
   e. Requests received electronically are deemed received the next business day. A business day is defined as Monday through Friday, exclusive of holidays and institutional closure days.
   f. If a request is delivered to the FOIA Coordinator’s junk mail folder, the request will be deemed received one business day after the FOIA Coordinator becomes aware of the request. The FOIA Coordinator will check the junk mail folder at least once per week.

2. Responses to FOIA requests to the University
   a. The University will respond to a FOIA request within five (5) business days of the FOIA Coordinator receiving the request.
   b. A response will consist of one or more of the following:
      i. A granting of the request
      ii. A partial granting of the request, and a partial denial because some or a portion of the records do not exist, are not in the possession of the University, and/or are exempt from disclosure
      iii. A complete denial of the request because all of the records do not exist, are not in the possession of the University, and/or are exempt from disclosure
      iv. A notice that more time is needed to process the request
         1. If more time is needed, the University will send out a follow up response within 10 business days of the initial response.
      v. A notice that a fee deposit is required prior to further processing
         1. If a fee deposit is required, the University will include in its response a non-binding, best efforts estimate regarding the time it will take to provide the records to the requester.
         vi. A notice that the record(s) sought has (have) not been sufficiently described to enable the University to locate the record(s).
   c. The response will state the FOIA exemptions under which any information and/or documents are withheld, if applicable.
   d. If any part of a request for records is denied for any reason, the response will set forth the procedures for appealing the denial.

3. Deposit Requirements
   a. A fee deposit will be required when the processing of a request will result in fees equal to or greater than $50.00.
   b. The required deposit will equal up to 50% of the estimated cost of fulfilling the request as calculated at the time of the initial response.
   c. If the University requires a deposit, it will not process the FOIA request further until the deposit is paid.
   d. If a deposit is not received by the FOIA Coordinator within 45 days of the initial notice, the request will be considered withdrawn. Notice of a deposit requirement is considered received three days after it is sent, regardless of the means of transmission.
   e. If, after receipt of the deposit and further processing of the request, the University learns that the processing costs will be significantly different from the estimated costs, the University will so notify the requester. Where the actual effort to search for, review and separate exempt material significantly exceeds the original estimate, the University will notify the requester. The requester may choose to receive a revised fee deposit notice, or limit his/her original request to those records, which may be processed within the time stated in the original fee estimate.
   f. A person who makes a FOIA request for which a deposit is required may withdraw that FOIA request without charge instead of paying the required deposit. Failure to pay the deposit will be deemed a withdrawal of the FOIA request.
   g. The University will treat multiple concurrent FOIA requests on the same topic(s) and/or regarding the same record keeper(s) and from the same person as one FOIA request for purposes of determining whether the fee is below $50.00.
   h. Where a requester who has not paid the final fee for the processing of an earlier request files a new FOIA request, the University may require a deposit of all (100%) of the estimated fees for processing the subsequent request prior to processing the subsequent request.

4. Calculation and Payment of Fees
   a. Fees are calculated by adding together the following costs:
i. The labor costs for searching for, locating, and examining responsive records

ii. The labor costs for review, separation, and deletion of exempt information from non-exempt information

iii. The cost of non-paper physical media, if used

iv. The cost per copy of paper copies, not to exceed $.05/page for standard 8 ½ x 11 inch paper. The labor costs directly associated with duplication or publication, which may include copying to non-paper media

vi. The cost of mailing

b. Final fees for responding to a FOIA request will be billed when the University responds to the FOIA request. A detailed FOIA fee itemization form will be provided by the University with the response. The amount invoiced must be paid within ninety (90) days. The University reserves the right to require payment in full of all fees incurred in processing a FOIA request before delivering the final, responsive documents.

c. The University’s decision to deny access to public records sought by a FOIA request because those records are, in whole or in part, exempt from disclosure does not excuse the person who files that FOIA request from payment of fees for the work undertaken by the University in response to that request.

d. The University may waive or reduce the fees it is authorized to charge if it determines that a waiver or reduction of the fee is in the public interest because responding to the FOIA request can be considered as primarily benefiting the general public.

e. Fee reductions or waivers are required in certain instances involving proven indigence or non-profit organizations. The University will apply these reductions or waivers in accordance with the statute.

5. Procedures for Challenge and Appeal

a. If the University denies a request in whole or in part, the requester may:

i. Submit an appeal to the Head of the Public Body, which for the purpose of these Procedures and Guidelines is the Vice President and General Counsel, in writing, via the FOIA Coordinator, using the contact information listed in Item 1, above. The appeal must specifically use the word “appeal” and identify the reason(s) the requester seeks reversal of the denial. The Head of the Public Body must respond to the appeal within ten (10) business days by doing one of the following:

   1. Reversing the FOIA Coordinator’s decision

   2. Upholding the FOIA Coordinator’s decision

   3. Reversing in part and upholding in part the FOIA Coordinator’s decision

   4. Issuing a notice of extension for not more than ten (10) additional business days.

ii. Commence a civil action in the Court of Claims within one hundred eighty (180) days after the University’s final determination to deny a request.

b. If a requester believes that the University has required payment of a fee that exceeds the amount permitted under these Procedures and Guidelines, he or she may commence an action in the Court of Claims for a fee reduction within forty five (45) days after receiving the notice of the required fee.

c. If a requester has questions regarding any FOIA response, including estimated fees or actual fees assessed, the requester should not hesitate to contact the FOIA Coordinator by email foia@gvsu.edu or telephone 616-331-2067.

FOOTNOTES

(1) M.C.L.A. 15.231.

(2) Verbal requests for information are not FOIA requests for purposes of these Procedures and Guidelines. If a verbal request for information is received by a University employee who knows that the information is available on the University’s website, the employee, where practicable, will inform the requester about the University’s website address.

(3) The University has determined, consistent with FOIA, that failure to charge fees in situations where the fees would be equal to or greater than $50.00 would result in unreasonably high costs to the University.

(4) A copy of the standard form that the University uses for fee itemization, with additional explanatory information, is attached to these Procedures and Guidelines.

(5) Labor costs will be estimated and charged in increments of 15 minutes or more, with all partial time increments rounded down. The labor is charged at the hourly rate of the lowest paid University employee capable of doing the work, plus fringe benefits, if applicable. If it is not possible for the work to be done by a University employee, the University will contract the work out and charge per the provisions of the statute.
1. Meetings and other group activities of students and student organizations;
2. Speeches, performances, demonstrations, rallies, vigils, and other events by students, student organizations, and outside groups invited by student organizations;
3. Distributions of literature, such as leafleting and pamphleting; and
4. Any other expression protected by the First Amendment to the U.S. Constitution.

University property is primarily dedicated to academic, student life and administrative functions. But it also represents the "marketplace of ideas," and especially for students, many areas of campus represent a public forum for speech and other Expressive Activities. For students and registered student organizations, certain areas of campus are venues for free expression, including speeches, demonstrations, and the distribution of literature, as provided by this policy.

The University shall not consider the content or viewpoint of the Expressive Activity or the possible reaction to that Expressive Activity in applying this policy. The University shall not impose restrictions on students, student organizations, or university employees due to the content or viewpoint of their Expressive Activity or the possible reaction to that Expressive Activity. In the event that other persons react negatively to a student's, registered student organization's, or university employee's Expressive Activity, the University (including representatives from the Department of Public Safety) shall take all necessary steps to ensure public safety while allowing the Expressive Activity to continue, unless the University's operations are materially and substantially disrupted.

No Expressive Activity shall be permitted to violate or hinder the rights of others within the campus community.

The University does not assume any obligation or responsibility for the content of the materials distributed.

PROCEDURES

II.
A. General Rules.

Subject to the additional rules set forth herein, students and student organizations shall be allowed to conduct Expressive Activities on University property within the following parameters:

1. The Expressive Activity does not block access to campus buildings and does not impede ingress or egress to the University, any University property, parking lot, building, facility, or event (generally a minimum of 25 feet).
2. The Expressive Activity takes place at least 50 feet from academic buildings.
3. The Expressive Activity does not obstruct vehicular or pedestrian traffic.
4. The Expressive Activity does not constitute unlawful activity.
5. The Expressive Activity does not create a clear and present threat to public safety.
6. The Expressive Activity does not take place in a location that has already been reserved by the University, a registered student organization, or an outside organization.
7. The Expressive Activity does not use any amplification devices.
8. The Expressive Activity does not include posting materials on University property, except as provided by the University Posting Guidelines.
9. The Expressive Activity does not include soliciting or accepting donations, except as provided in this policy.
10. The Expressive Activity takes place between the hours of 8 a.m. and 5 p.m., except as otherwise provided in this policy. Gatherings at the Carillon Tower or the Transformational Link may take place until 11 p.m.
11. Distribution of printed materials must be done in person.
12. Individuals and/or groups engaged in Expressive Activity are responsible for picking up any printed materials dropped on the ground around the areas of distribution. The University may charge such individuals and/or groups a reasonable clean up fee if they fail to do so.
13. Parking lots, ramps, and garages are not designated or suitable for Expressive Activities, and windshield flyers are not permitted.
14. Individuals and/or groups engaging in Expressive Activity agree to pay for any damage they cause to University property.
15. For University employees, the Expressive Activity addresses a matter of public concern.

This policy shall not apply to any person or organizations desiring to sell merchandise or services on campus. Any person or organization desiring to sell merchandise or services on campus should contact the Event Services Office at 616-331-2350.

B. Outdoor Locations.

For outdoor University areas, students, registered student organizations, and employees may freely engage in spontaneous Expressive Activities provided that such activities are in compliance with all other provisions of this policy.

Students and registered student organizations may reserve outdoor University facilities to solicit and accept donations for charitable causes or to engage in other Expressive Activities.

C. Indoor Locations.

For indoor University facilities and areas, students, registered student organizations, and University employees may freely engage in spontaneous Expressive Activities subject to the following conditions:

1. Distribution of written or printed materials, such as leafleting or pamphleting, and petitioning for signatures may be conducted at all outdoor locations and the indoor locations specified in this policy.
2. Guests may speak at indoor locations as long as they are invited by a student or a registered student organization.
3. The Expressive Activities are in compliance with all other provisions of this policy.

Students and registered student organizations may use the Kirkhof Center for the following activities:

1. Students and registered student organizations may reserve space in the Kirkhof Center for any proper purpose, including, but not limited to, to promote a cause or event, to promote a student organization, or to solicit and accept donations for charitable causes.
2. Distribution of written or printed materials, such as leafleting or pamphleting, and petitioning for signatures may be conducted inside the Kirkhof Center, as long as the student or registered student organization reserves the space pursuant to this policy.

D. Reserving Campus Facilities:

1. If students, registered student organizations, or University employees wish to reserve indoor or outdoor campus facilities, they shall submit their application for reservation to Event Services at least two business days prior to the reservation date. The University will respond to the reservation application within one business day.
2. If individuals or organizations who are not members of the University community (i.e., not students, student organizations, or University employees) wish to use campus facilities for Expressive Activities on campus, they may use either the area surrounding the Carillon Tower or the plaza surrounding the Transformational Link. Use of this space is free of charge and may be reserved by contacting Event Services at 616-331-2350. A reservation for use of the space will take precedence over a spontaneous Expressive Activity. Expressive Activities must stay within 50 feet of each of these landmarks and are to follow the General Rules provided herein.
3. Students, registered student organizations, University employees, and non University members may reserve facilities for Expressive Activities to take place after 5 p.m., subject to the facility’s hours and availability.

4. Reservation requests will be processed and granted on a first-come, first-served basis. These requests may be denied for the following reasons only:
   a. The requested venue is an indoor facility and the request conflicts with any other provision of this policy;
   b. The venue is already reserved for another event;
   c. The activity will attract a crowd larger than the venue can safely contain;
   d. The activity is a clear and present threat to public safety, according to the university's police or security department;
   e. The activity will occur during college examination periods; or
   f. The activity is unlawful.

5. During an event, the student, student organization, or University employee requesting the reservation is responsible for preserving and maintaining the facility it reserved. If it causes any damage to those facilities, the person(s) or organization (and its officers, if applicable) shall assume responsibility.

FOOTNOTES
(1) In the event that multiple individuals or organizations submit conflicting reservation requests, the following order of precedence shall govern: (1) official University activities and events; (2) registered student organization activities and events; (3) student activities and events; and (4) all other activities and events.

COMMERCIAL ACTIVITY POLICY
SLT 10.4.1
Date of Last Update:
August 31, 2017
Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT
Pursuant to Article VIII of the Michigan Constitution of 1963, Grand Valley State University (“the University”) has the responsibility to serve as a public institution of higher education. To carry out this constitutional mandate, the University owns and/or controls property and facilities. The University has established the following policy to ensure the University’s educational mission is actualized, while allowing certain Commercial Activities on University property.

The University reserves the right to deny proposed Commercial Activities that compete with the University or its operations. This policy does not apply to the use of student housing facilities by residents, which is subject to the terms and conditions of the housing agreement. The use of University property for government functions is not subject to this policy.

Definitions
For the purposes of this policy, the term “Commercial Activities” includes:
1. The lawful selling, promotion, or offering of products, goods, or services;
2. The dissemination or collection of information for the purpose of facilitating the sale of goods or services;
3. Any activity that attempts to raise funds, whether through the sale of goods and services or via donations for any entity that is not a charitable organization (eg a 501(c)(3) nonprofit entity);
4. The distribution or offering of free gifts, incentives, or promotions.

PROCEDURES
1. University Departments
University departments and its service providers whose function includes the sale of food or merchandise or the use of outside vendors and/or advertisers are exempt from this policy. This includes, but is not limited to, all campus dining facilities, the Laker Store, University Athletics, and University Development.

2. Registered Student Organizations
Registered Student Organizations (RSOs) may engage in Commercial Activities on University grounds subject to the provisions in the Grounds and Facility Use Policy and the conditions below.
   1. When an RSO is using University property for Commercial Activities, 100% of the proceeds must either return to the RSO or be donated to a specified charitable organization.
   2. RSOs may not sponsor or partner with outside solicitors as part of a Commercial Activity.
   3. RSOs must have at least one of their organization’s members present at all times during the Commercial Activity period, and all sales must be made on a person-to-person basis.
   4. Any literature distribution must include the name of the RSO responsible for the publication.

3. Students, Employees, and Non-University Solicitors
Students, employees, and those not affiliated with the University may engage in Commercial Activities only when renting indoor University facilities for an event, subject to the terms and conditions of their rental agreement, or when reserving outdoor space limited to the Cook Carillon Tower plaza. Outdoor reservations must be submitted to the Event Services Office at least five business days prior to the intended solicitation period. Due to high demand for space use, reservations must be canceled at least 72 hours prior to the scheduled event to receive a full refund or have previous payment applied to a new date. Reservations are subject to the provisions in the Grounds and Facility Use Policy.
   1. When using a designated outdoor space for Commercial Activities, students, employees, and non-University solicitors are required to pay $250 per calendar day to the
University.

2. There shall be no more than three separate Commercial Activities using outdoor locations at any one time.

3. Each individual or organization is entitled to use outdoor University property as provided in this policy for a maximum of five days per semester for purposes of Commercial Activities.

POLITICAL ACTIVITY POLICY

SLT 10.5

Date of Last Update:
September 10, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

Political activity of faculty and staff members at Grand Valley State University as addressed in the Grand Valley State University Board of Trustees’ Policies BOT 4.1.6.3, in pertinent part, states: “The University affirms the rights of its faculty and staff members as citizens to be active in political affairs which do not conflict with the professional standards and ethics in employment.”

Further, the Board of Trustees address the subject of Academic Freedom of faculty in the Grand Valley State University Board of Trustees’ Policies BOT 4.2.2 specifically sections 2 & 3:

2. Faculty members are entitled to freedom in the classroom in discussing their subject, but they should be careful not to introduce into their teaching controversial matter, which has no relation to their subject. (The words faculty member as used in this document are understood to include the investigator who is attached to an academic institution without teaching duties.)

3. University or university faculty members are citizens, members of a learned profession, and officers of an educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As persons of learning and as educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times act in a professional and responsible manner, and should make every effort to indicate that they are not institutional spokespersons.

In addition to University policy, state law, specifically the Michigan Campaign Finance Act, regulates political activities of public bodies, such as state universities, and its employees.

PROCEDURES

In light of University Board of Trustees’ policies and state law, the following guidelines are intended to help faculty and staff with compliance:

1. Faculty and staff members may engage themselves, as private citizens, in political activities including support or opposition to candidates for office or ballot questions on their own time. If you are working for the University and charging your time to a federal grant, any activity to support a political candidate or ballot question must be conducted on personal time. For questions about federal grants, contact the Office of Sponsored Programs for more information.

2. University departments or programs may sponsor presentations and discussion groups about an upcoming election provided that the purpose is to provide factual information on a political subject or issue if the communication does not support or oppose a ballot question or candidate by name or clear inference.

3. Classroom discussions of candidates and ballot questions must be related to course content as described in the catalog and course syllabus. A reminder to students to register to vote and to vote is permissible.

4. Faculty and staff members may express their support or opposition to candidates or ballot questions by wearing buttons.

5. Faculty and staff members, as private citizens, may elect to lend their names to support one or more candidates for office or in support of or opposition to a ballot question. However, care must be exercised to assure that the faculty or staff member does not use their University title in relation to such advocacy.

6. Faculty and staff members shall not use University resources for political activity to support or oppose candidates for office or ballot questions. “University resources” includes, but is not limited to:

a. University funds or money administered through a University budget;
b. University facilities including office space or meeting rooms (except speech in open forum areas) or use of University office address;
c. University equipment including office or cellular telephones, computer hardware or software, printers, copiers and facsimile machines;
d. University-provided email addresses or use of the University email system;
e. University supplies including stationary, paper, postage, pens, pencils, and other office supplies;
f. University identifying marks including trademarks, logos, University letterhead, and University titles; and
g. University time including when the faculty or staff member is working or the use of clerical or student worker time.

SOCIAL SECURITY NUMBER PRIVACY POLICY

SLT 10.6

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management
POLICY STATEMENT

1. **Applicability** This policy applies to all members of the GVSU community including faculty, staff and students.

2. **Access to Social Security Numbers.** GVSU restricts access to information or documents containing social security numbers to members of the GVSU community who have a legitimate university business reason to access such information or documents. The heads of departments having access to records containing social security numbers shall determine which other personnel within their departments have a legitimate reason in the University's ordinary course of business to have access to such social security numbers. Personnel using such records containing Social Security Numbers must take appropriate steps to secure such records when not in immediate use.

3. **Confidentiality of Social Security Numbers.** Members of the GVSU community shall maintain the confidentiality of university information or documents containing social security numbers consistent with the law and this policy. No person shall knowingly obtain, store, transfer, use, disclose, or dispose of social security numbers except in accordance with the law and this policy.

4. **Obtaining Social Security Numbers.** Social security numbers should be collected only where required or permitted by federal and state law or for legitimate University business reasons consistent with law and policy.

5. **Public Display.** No more than four sequential digits of a social security number shall be on public display. Public display means to post, make visible, or set out for open view to members of the public or in a public manner. This includes open view on a computer screen or device.

6. **Account Numbers.** As of the effective date of this policy, GVSU has undertaken a systematic process to eliminate social security numbers as identification numbers for all current members of the GVSU community. Once assigned an alternative identification number, neither the University nor the individual may return to the use of a social security number as an identification number for that person.

7. **Mailed Documents.** Documents containing more than four sequential digits of a social security number shall only be sent by mail in cases where state or federal law, rule, regulation, or court order or rule authorizes, permits or requires that a Social Security number appear in the document, the document is sent as part of an application or enrollment process initiated by the individual, at the request of or with the permission of the individual, their parent or guardian, or with regard to an employee or health insurance benefit. Documents containing more than four sequential digits of a social security number, that are properly sent through the mail, shall not reveal the number through the envelope window or otherwise be visible from the outside of the envelope or package. Mail includes delivery by regular US mail, campus mail, or any other delivery service that does not require the signature of the recipient indicating actual receipt.

8. **Freedom of Information Act Requests.** Where more than four sequential digits of a social security number are contained within a document subject to release under the Freedom of Information Act, the social security number shall be redacted or otherwise rendered unreadable before the document or copy of the document is disclosed. Any request for disclosure of documents under the Freedom of Information Act shall be first referred to the Division of Legal, Compliance and Risk Management.

9. **Storage of Documents.** All documents containing social security numbers shall be stored in a physically secure manner. Social security numbers shall not be stored on computers or other electronic devices that are not secured against unauthorized access.

10. **Disposal of Documents.** Documents containing social security numbers will be retained in accordance with the requirements of state and federal law and consistent with the legitimate business needs of GVSU. At such time as documents containing social security numbers may be disposed of, such disposal shall be accomplished in a manner that protects the confidentiality of the Social Security numbers, such as by shredding.

11. **Unauthorized Use or Disclosure of Social Security Numbers.** GVSU shall take reasonable measures to enforce this Privacy Policy and to correct and prevent the reoccurrence of any known violations. Anyone who knowingly obtains, uses or discloses social security numbers for unlawful purposes or contrary to the requirements of this policy, state or federal law, shall be subject to discipline up to and including discharge for employees or expulsion for students consistent with existing disciplinary policies. Additionally, certain violations of the Act carry criminal and/or civil sanctions. GVSU will cooperate with the appropriate law enforcement or administrative agencies in the apprehension and prosecution of any person who knowingly obtains, uses or discloses Social Security numbers for unlawful purposes.

12. **Lawful and Required Use.** Nothing in this policy is designed to prohibit the collection, retention or transmission of documents or records containing Social Security numbers as required or permitted by state or federal law, rule or regulation, at the request of or with permission of the individual, for administrative use in the ordinary course of business to verify identity, to pursue legal rights of GVSU, or to provide or administer employee benefits such as health or retirement benefits.

---

**VOLUNTEERS POLICY**

SLT 10.7

**Date of Last Update:**
April 25, 2013

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
Legal, Compliance & Risk Management

---

**PROCEDURES**

**POLICY STATEMENT**

This policy is intended to reduce the risk related to the use of volunteers and their activities. The University accepts volunteer support to accomplish its educational mission and desires to ensure that volunteer relationships with the University are clearly established and understood by all parties. Payment for volunteer services is not allowed. However, University departments may reimburse volunteers for actual and reasonable expenses, following the appropriate university policies. The University requires the same attention to duties and responsibilities for volunteers as it does for employees of the University. This policy also does not cover or govern volunteers who agree to serve as human subjects in University research protocols, as they are covered by other policies under the administration of the Human Research Review Committee.
Volunteer arrangements may not be used to circumvent the established processes that govern the employment of people. Volunteers do not have an employment relationship with the University on any grounds or for any reason and are not covered by the Fair Labor Standards Act, Michigan wage laws, or the Youth Employment Standards Act, and are not eligible for any University benefit, including Worker's Compensation, or any other benefits of employment from the University, including but not limited to, health care, vacation, or sick time. Volunteers are not provided with accident or medical insurance, and are therefore responsible for any accident or medical expenses that may be incurred as a result of the volunteer assignment.

Payment for volunteer services is not permitted under any circumstance. However, the appropriate department has the authority to decide whether to reimburse a University volunteer for actual and reasonable expenses so long as the expenses fall under the University’s reimbursement guidelines located on the Business and Finance website. Reimbursement cannot be used as a substitute for compensation nor can it be linked to the volunteer’s productivity.

Volunteers may not receive any institutional marketing materials reflecting their name and the University logos such as: business cards, letterhead, unless approved by the appropriate Vice President or Senior Leadership Team member.

Protection of Volunteer
According to the Board Policy BOT 10.3, Indemnification:

"It is the policy of Grand Valley State University to support its Board members, officers, faculty, and staff in the reasonable and proper performance of their official duties, and to support students and volunteers when performing services on behalf of or under the direction of the university."

Volunteers are indemnified in the same manner as employees. It is important that the department or unit managing the volunteer maintain records as specified in this policy in order to ensure their volunteers are properly covered.

Eligibility
To be eligible to become a volunteer, one must:

1. Be willing to provide services according to this policy, complete and sign a Grand Valley State University Volunteer Profile, Disclosure, and Consent Form as well as other associated forms if deemed appropriate,
2. Have parental consent if under the age of 18,
3. Complete the Authorization for Release of Information for Background Check if the volunteer assignment involves working directly with minor children, money or access to confidential information regarding employees, students, health, financial data, etc., and
4. Be authorized through the Department of Public Safety if the volunteer assignment requires operating a vehicle owned or leased by the University.

Responsibilities and Rights of the University Volunteer

Departments must keep records of volunteer names, dates of service(s), and services performed for a period of one year following the end of the volunteer assignment.

It is the responsibility of the individual unit to ensure that volunteers are aware of the unit’s rules and regulations. Volunteers must have the necessary training and/or supervision to safely carry out volunteer work. If the volunteer assignment involves providing professional services such as those performed by accountants, architects, doctors, engineers, etc., the department must assure that the volunteer has the appropriate credentials including licensure and/or certification.

One exception is that any legal services or assistance, whether by a volunteer or otherwise, must have prior written approval of the Vice President and General Counsel. According to Board policy, as stated in the Board of Trustees’ Policies, all legal services must be provided through the Division of Legal, Compliance and Risk Management.

If the volunteer assignment requires operating a vehicle, the volunteer must have a valid driver’s license, and have a good driving record as determined by the Department of Public Safety.

Volunteers are responsible for complying with all University policies and all relevant laws including but not limited to: personal conduct, sexual assault, unlawful discrimination and harassment, compliance, workplace violence, substance abuse; misuse of confidential information; use of University technologies; financial responsibility; and vehicle use. Volunteers are not considered agents of the University unless the authority has been expressly delegated to them by an authorized University official. Volunteers are also expected to comply with any rules and regulations specific to the department for which they are volunteering.

Risk Management

Volunteers cannot replace employee positions. Volunteer services are generally limited to humanitarian, charitable, or public services. University volunteers are also prohibited from performing the following activities:

1. Working in any capacity in which he/she is employed by the University, or which is essentially similar to the individual’s regular work at the University, or under circumstances that suggest the decision to volunteer is not made freely,
2. Operating heavy equipment e.g. forklift, hi-lo, backhoe, etc.,
3. Working with highly hazardous or toxic chemicals or agents and/or dangerous equipment or environments i.e.: anything that could cause severe injury or death,
4. Any activity considered inappropriate for an employee,
5. Entering into any contract on behalf of the University,
6. Rendering professional services without possessing the required credentials,
7. Any actions beyond the scope of the volunteer assignment, and
8. Provide legal advice or assistance without prior written approval from the University Counsel.

In some cases where the volunteer assignment involves higher levels of risk exposure to the individual and others, the University department is responsible for disclosing those risks to the volunteer in writing. This will assure that information about the risks associated with the volunteer assignment are clearly communicated to the individuals who are engaged as university volunteers. Examples of services that require risk disclosure include but are not limited to:

1. Laboratory activities,
2. Services with potential exposure to bloodborne pathogens,
3. Professional services that require licensure and/or certification such as those performed by accountants, architects, doctors, engineers, etc. and trade services such as construction, plumbing, electrical, etc,
4. Travel of any kind,
5. Activities in any environment which requires orientation or training, and
6. Activities with patients and/or subjects of experiments.

Use of Volunteer Procedures

Volunteers may not receive any institutional marketing materials reflecting their name and the University logos such as: business cards, letterhead, unless approved by the appropriate Vice President or Senior Leadership Team member.

Volunteers are indemnified in the same manner as employees. It is important that the department or unit managing the volunteer maintain records as specified in this policy in order to ensure their volunteers are properly covered.
The procedures and forms to implement this policy can be found on the Risk Management Website.

DEFINITIONS:

A volunteer is defined as an uncompensated individual who performs services directly related to the operations of the University for its benefit, to the mission of the University, or for the volunteer to gain experience in specific endeavors. To qualify as a volunteer, an individual must be willing to provide services according to the directions of the appropriate University representative. An individual who provides services for an entity that is not directly related to the business of the University (e.g., a government or public agency), is not considered to be a University Volunteer for the purposes of this policy.

EMAIL POLICY

SLT 11.2

Date of Last Update:
October 09, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

Grand Valley State University provides its faculty, staff and students with electronic mail intended for University-related purposes including direct and indirect support of the University’s instructions, research, and service missions; of University administrative functions; of student and campus life activities, and of the free exchange of ideas among members of the University community and between the University community and the wider local, national, and world communities.

The rights of academic freedom and freedom of expression apply to the use of University electronic mail. Electronic mail sent or received using University facilities is, however, University business and cannot be guaranteed total privacy. The University does not routinely inspect, monitor, or disclose electronic mail without the holder’s consent. Nonetheless, subject to the requirements for authorization, notification, and other conditions specified in this Policy, the University may deny access to its electronic mail services and may in exceptional circumstances inspect, monitor, or disclose electronic mail.

PROCEDURES

Applicability

This Policy applies to:

- All electronic mail systems and services provided or owned by the University
- All users, holders, and uses of University e-mail services
- All University e-mail records in the possession of University faculty, staff or students or other e-mail users of electronic mail services provided by the University

This Policy applies only to electronic mail in its electronic form. The Policy does not apply to printed copies of electronic mail.

This Policy applies equally to transactional information (such as e-mail headers, summaries, and addresses) associated with e-mail records as it does to the contents of those records.

All users of University electronic mail are subject to:

- Comply with all federal, Michigan, and other applicable laws and regulations; all generally applicable University rules and policies; and all applicable contracts and licenses.
- Examples of such laws, rules, policies, contracts, and licenses include the laws of libel, privacy, copyright, trademark, obscenity, and child pornography; the Electronic Communications Privacy Act and the Computer Fraud and Abuse Act, which prohibit unauthorized use or entry into another’s account; the University’s Student Code, the University’s Anti-Harassment policy; and all applicable software licenses.
- Users who engage in electronic communications with persons in other states or countries or on other systems or networks should be aware that they may also be subject to the laws of those other states and countries and the rules and policies of those other systems and networks. Users are responsible for ascertaining, understanding, and complying with the laws, rules, policies, contracts, and licenses applicable to their particular uses.
- Act within the normal standards of professional and personal courtesy and conduct. Access to University electronic mail services, when provided, is a privilege that may be wholly or partially restricted by the University without prior notice and without the consent of the e-mail users when required by and consistent with violations of University polices, regulations and law.
- Use only those computing resources that they are authorized to use and use them only in the manner and to the extent authorized. Ability to access computing resources does not, by itself, imply authorization to do so. Users are responsible for ascertaining what authorizations are necessary and for obtaining them before proceeding. Accounts and passwords may not, under any circumstances, be shared with, or used by, persons other than those to whom they have been assigned by the University.
- Respect the finite capacity of the resources and limit use so as not to consume an unreasonable amount of those resources or to interfere unreasonably with the activity of other users. Although there is no set bandwidth limit or CPU time, uses of University electronic mail may be required to limit resources in accordance with this principle.
- Inspection, monitoring or disclosure of University e-mail records will be at the e-mail holders consent wherever possible. However, if consent cannot be obtained either voluntarily or involuntarily, the request shall be brought before University Counsel.

Specific Provisions

A. Users

Users of University electronic mail services are to be limited primarily to University students, faculty, staff, retirees, and others authorized by the University. Upon normal termination of employment, employees may retain access to the e-mail account for 30 days. Employees terminated by the University will have the e-mail account terminated immediately. Retired employees may request access to the e-mail account as part of the benefit package. Students retain access to an e-mail account as long as they are registered for courses or completed graduation. GVSU retains the right to remove email services at any time.

B. Account Usage

GVSU has the right to restrict the amount of storage space available on the network. If an individual wishes to backup and store e-mail for extended purposes, it is the individual’s responsibility to do so.
Users are granted access to services only for so long as they abide by the Computing Conditions of Use policy. No person shall gain use of the University's computer system without proper authorization. Any attempt by a user to gain access to another person's network account, private network drive, or restricted areas on the GVSU computer system is prohibited.

University e-mail services shall not be used to send unsolicited commercial emails and such use may result in your account being disabled.

University e-mail services shall not be used for purposes that could reasonably be expected to cause, directly or indirectly, excessive strain on any computing resources (bandwidth issues), or unwarranted or unsolicited interference with others use of e-mail or e-mail systems. Such uses include, but are not limited to, the use of e-mail services to: (1) send or forward e-mail chain letters; (2) "spam," that is, to exploit listservs or similar broadcast systems for purposes beyond their intended scope to amplify the widespread distribution of unsolicited e-mail; and (3) "letterbomb," that is, to resend the same e-mail repeatedly to one or more recipients to interfere with the recipient's use of e-mail.

C. Representation

Electronic mail users shall not give the impression that they are representing, giving opinions, or otherwise making statements on behalf of the University or any unit of the University unless appropriately authorized (explicitly or implicitly) to do so. Where appropriate, an explicit disclaimer shall be included unless it is clear from the context that the author is not representing the University. An appropriate disclaimer is: "These statements are my own, not those of the Grand Valley State University."

Policy Violations

Violations of University policies governing the use of University electronic mail services may result in restriction of access to University information technology resources. In addition, disciplinary action, up to and including dismissal, may be applicable under other University policies, guidelines, implementing procedures, or collective bargaining agreements.

Violations will normally be handled through the University disciplinary procedures applicable to the relevant user. The University may temporarily suspend or block access to an account, prior to the initiation or completion of such procedures, when it reasonably appears necessary to do so in order to protect the integrity, security, or functionality of University or other computing resources or to protect the University from liability. The University may also refer suspected violations of applicable law to appropriate law enforcement agencies.

Refer to Appendix A for detail on additional policies and guidelines.

Security and Privacy

The University owns all electronic mail address assigned by the University. The University employs various measures to protect the security of its computing resources and of their users' accounts. Users should be aware, however, that the University couldn't guarantee such security. Users should therefore engage in "safe computing" practices by establishing appropriate access restrictions for their accounts, guarding their passwords, and changing them regularly. Security and privacy of e-mail sent or received outside of GVSU is subject to standards of other organizations and may be more or less restrictive and provide more or less privacy protection.

Users should also be aware that their uses of University computing resources are not completely private. While the University does not routinely monitor individual usage of its computing resources, the normal operation and maintenance of the University's computing resources require the backup and caching of data and communications, the logging of activity, the monitoring of general usage patterns, and other such activities that are necessary for the rendition of service.

The University reserves the right to monitor e-mail records, without notice, when:

- a. The user has voluntarily made them accessible to the public
- b. It reasonably appears necessary to do so to protect the integrity, security, or functionality of University or other computing resources or to protect the University from liability
- c. There is reasonable cause to believe that the user has violated, or is violating, this Policy
- d. An account appears to be engaged in unusual or unusually excessive activity, as indicated by the monitoring of general activity and usage patterns
- e. It is otherwise required or permitted by law

Any such individual monitoring, other than that specified in "a" above, required by law, or necessary to respond to perceived emergency and/or time-sensitive situations, must be authorized in advance by University Counsel and an Executive Officer.

The University, in its discretion, may disclose the results of any such general or individual monitoring, including the contents and records of individual communications, to appropriate University personnel or law enforcement agencies and may use those results in appropriate University disciplinary proceedings.

Normal examination of e-mail headers by the e-mail administrator is standard procedure to resolve problems and redirect incorrect addressed e-mail.

Posting and Authority to Change

Because University policies are subject to change, this list may change from time to time. The authoritative list at any time will be posted under the listings of University policies posted on the World Wide Web. Authority to change this list rests with the Vice Provost of Academic Services and Information Technology acting, where policies affecting faculty are concerned, with the advice of the Academic Senate, where policies affecting students are concerned, with the advice of the Dean of Students, where policies concerning legal matters, with the advice of University Counsel.

APPENDIX A - REFERENCES

The following list identifies additional policies and procedures, which support this Policy: These and other laws both provide privacy protection for e-mail and require the disclosure of e-mail under some circumstances.

COMPUTER VIRUS AND MALWARE POLICY

SLT 11.3

Date of Last Update:
September 06, 2016

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

When a device or account connected to the GVSU campus network is compromised by a virus or malicious software, the network is at great risk of harm due to potential damage of university data or disclosure of sensitive information. To preserve the health of the network and the devices connected to it, the infected device must IMMEDIATELY be disconnected and removed or the account blocked from the campus network until Information Technology personnel verify it is no longer compromised. Despite the disruption this may cause to the individual user, the user is required to produce any infected device to Information Technology immediately upon request in order to prevent information disclosure, data file destruction, or exploitation of the compromised account.

Information Technology personnel shall provide their identification and authorization to the device user that authorizes them to remove the afflicted device prior to its removal. For additional verification, you may call the Helpdesk at 331-2101 and ask for Level 2 staff member to verify the authorization to pick up a computer. To minimize interruption, Information Technology will take reasonable steps to provide a substitute device for use on the campus network while the user awaits repair of the original device. To report that a device might be infected, contact Information Technology immediately at 331-2101.

VOICEMAIL POLICY

SLT 11.4

Date of Last Update:
April 29, 2016

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

Voicemail is offered to all AP and faculty personnel. Voicemail must be approved for PSS personnel and departmental lines by a Dean or Vice Provost and Vice President. Personal lines and other lines that utilize voicemail must follow the following procedures.

PROCEDURES

A department main number is never to be forwarded to a voicemail.

All greetings are to be personalized and changed when users intend to be out of the office for more than one day, especially if they do not plan to check voicemail.

An out of office greeting should provide the caller with an alternative name and telephone number to contact in case of emergency.

COMPUTING CONDITIONS OF USE (INFORMATION TECHNOLOGY)

SLT 11.5

Date of Last Update:
October 09, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

As members of the Grand Valley State University community, you have the responsibility to use the university's Information Technology resources in an effective, ethical, and legal manner. Ethical and legal standards that apply to information technology resources derive directly from standards of common sense and decency that apply to the use of any shared resource. Grand Valley depends first upon the spirit of mutual respect and cooperation that has been fostered at the university to resolve differences and ameliorate problems. The
purpose of the statement is to promote the responsible, ethical, legal, and secure use of Grand Valley’s Information Technology resources, including access to the Internet, for the protection of all users.

PROCEDURES

The following guidelines will be applied to determine appropriate use of Services:

1. Accounts granted are intended solely for the use of the person the account was issued and shall not be shared.
2. To respect the privacy of other users. Users shall not intentionally seek information on, obtain copies of, or modify files, or passwords belonging to other users or the University, or represent others, unless explicitly authorized to do so by those users.
3. To respect the legal protection provided by copyright and licensing of programs, data, photographs, music, written documents and other material as provided by law.
4. To respect the intended usage of accounts and authorization for specified purposes only.
5. To respect the integrity of the system or network. One shall not intentionally develop or use programs, transactions, data, or processes that harass other users or infiltrate the system or damage or alter the software or data components of a system.
6. To adhere to all general university policies and procedures including, but not limited to, policies on proper use of information resources, information technology, and networks; acquisition, use, and disposal of University-owned computer equipment; use of telecommunications equipment; ethical and legal use of software; and ethical and legal use of administrative data.
7. Using university technology resources for commercial use is strictly prohibited. Such resources are to be solely used in conjunction with doing business for GVSU or purposes directly related to academic work.
8. To refrain from unauthorized use of network Services which significantly hampers other GVSU constituents network access.
9. Unauthorized use of GVSU networks and/or computers for non-academic purposes is prohibited, including revenue generating advertising and promotion of business not related to GVSU.
10. Network connections in Student Housing are intended strictly for client access to GVSU and Internet resources. Residents are not permitted to offer services to other computers, either external or internal, within the GVSU Housing Network. External requests for services destined to the GVSU Housing Network are not permitted. Information Technology reserves the right to disable network connections within the GVSU Housing Network if complaints are received and it is verified that a computer is offering an internal service.
11. The Computer Science and Engineering departments have dedicated networks that can be used for servers that need to offer services to other computers for educational purposes; in this case the department is responsible for monitoring and approving the services that are offered as well as verifying that the computers have been patched and secured against known Internet attacks.
12. All users of Grand Valley’s e-mail accounts are expected to adhere to the Electronic Mail Policy
13. All users of Grand Valley’s external network connections (i.e., Merit and NSFNET) shall comply with the evolving “Acceptable Use” policies established by the external networks’ governing bodies.

The NSFNET Backbone Services Acceptable Use Policy

The intent of this policy is to identify certain types of uses that are not appropriate. Using the guidelines given above, GVSU may at any time make a determination that a particular use is not appropriate.

GVSU will not monitor or judge the content of information transmitted via the Services, but will investigate complaints of possible inappropriate use. In the course of investigating complaints, GVSU staff will attempt to preserve the individual’s privacy. GVSU is subject to the Freedom of Information Act and may be required to supply personal computing information.

Information Technology

POLICY STATEMENT
Technology provides multiple avenues for creating, collecting and distributing information. The ease of access to this information does not preclude the responsibility of understanding the legal issues involved in intellectual property.

PROCEDURES
Copyright law protects all material unless placed in the public domain, electronic and digital media included. Owners of copyrights hold exclusive right to the reproduction and distribution of their material.

Unauthorized use and distribution of copyrighted material is illegal. Legal action against the individual as well as the university may occur, this includes all audio and video files.

The GVSU Library Course Reserve Department processes copyright clearance for all materials placed on library course reserve by professors. This includes both paper (traditional) and online digital access.

The Digital Millennium Copyright Act (DMCA) of 1998 provides recourse for copyright owners who believe that their rights have been infringed by unauthorized use of their protected works at an online location. Copyright owners may contact the service provider to request that the infringing material be removed or access blocked. Grand Valley State University’s designated DMCA agent is:

Bill Fisher
Associate Director, Technical Services
CONFIDENTIALITY, DATA & SECURITY POLICY
SLT 11.7

Date of Last Update:
December 08, 2014

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

Grand Valley State University regards security and confidentiality of data and information to be of utmost importance. As such, individuals employed by the University must follow the procedures outlined below.

PROCEDURES

Confidentiality of Data

Each individual granted access to data and information holds a position of trust and must preserve the security and confidentiality of the information he/she uses. Individuals are required to abide by all applicable Federal and State guidelines and University policies regarding confidentiality of data including, but not limited to, the Family Education Rights and Privacy Act (FERPA). FERPA protects student information and may not be released without proper authorization. Requests for information/documents should be referred to the Registrar’s Office or the Legal, Compliance & Risk Management Office.

Individuals with authorized access to Grand Valley State University’s computer resources, information system, records or files are given access to use the University’s data or files solely for the business of the University. Specifically, individuals should:

a. Access data solely in order to perform his/her job responsibilities.

b. Not seek personal benefit or permit others to benefit personally from any data that has come to them through their work assignments.

c. Not release University data other than what is required in completion of job responsibilities.

d. Not exhibit or divulge the content of any record, file or information system to any person except as it is related to the completion of their job responsibilities.

Additionally, individuals are not permitted to operate or request others to operate any University data equipment for personal business, to make unauthorized copies of University software or related documentation, or use such equipment for any reason not specifically required by the individual’s job description.

It is the individual’s responsibility to report immediately to his/her supervisor any violation of this policy or any other action, which violates confidentiality of data.

Security Measures and Procedures

Some individuals employed by the University are supplied with a network account to access the data necessary for the completion of their job responsibilities. Users of the University information systems are required to follow the procedures outlined below:

1. Storage of student or staff confidential data on local storage media (Laptops, Desktops, CDs, Thumb drives, etc) without proper data encryption is strictly prohibited. Please contact Information Technology to discuss secure options if confidential data must be transported outside of the secure network.

2. All transactions, processed by a user ID and password, are the responsibility of the person to whom the user ID was assigned. The user’s ID and password must remain confidential and must not be shared with anyone.

3. Access to any faculty or staff account may be granted by the faculty/staff member and/or the direct supervisor for specific job requirements. You are prohibited from viewing or accessing additional information (in any format). Any access obtained without written authorization is considered unauthorized access.

4. Passwords should be changed periodically or if there is reason to believe they have been compromised or revealed inadvertently.

5. Upon termination or transfer of an individual, Information Technology will immediately remove access to GVSU data. The email account may stay active for a period of up to 30 days.

Access to University data and information is for the sole purpose of carrying out job responsibilities. Breach of confidentiality, including aiding, abetting, or acting in conspiracy with any other person to violate any part of this policy or FERPA policy, may result in sanctions, civil or criminal prosecution and penalties, loss of employment and/or University disciplinary action, and could lead to dismissal, suspension, or revocation of all access privileges.

FACULTY/STAFF ABUSE OF TECHNOLOGY
SLT 11.8

Date of Last Update:
April 19, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology
POLICY STATEMENT

Information Technology has two primary policies in place that deal with technology resources:

**Conditions of Use:** As members of the Grand Valley State University community, all users have the responsibility to use the university's information technology resources in an effective, ethical, and legal manner. This document outlines these responsibilities.

**E-Mail Policy:** This Policy clarifies the applicability of law and of other University policies to electronic mail. It also defines new policy and procedures where existing policies do not specifically address issues particular to the use of electronic mail.

The policies and procedures to deal with abuse of technology resources for faculty and staff are outlined below.

**Level I - Complaint**
- Complaints may be received from an internal or external GVSU constituent
  - Upon verification of abuse by an Information Technology staff member, the information is communicated to either the Vice Provost and Dean of Academic Services or the Director of Information Technology
  - Upon review from the Vice Provost and Dean of Academic Services and/or the Director of Information Technology, the complaint is further acted upon or discarded.

**Level II - Contact/Action for First Offenders**
- The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted.
  - The individual is apprised of their abuse and asked to refrain from continuing the infringement. If email related, the individual will be required to retract the offending message.
  - The individual will be sent a notification from IT via email of the abuse infraction and asked to return the email with their understanding and intent to comply via the policy.
  - The email notification/compliance will be kept on file.

**Level III - Contact/Action for Second Offenders**
- The individual account will be suspended immediately (disable ability to send/receive messages).
  - The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted.
  - The individual Dean or manager is contacted concerning the repeated abuse.
  - The individual is apprised of their abuse and asked to refrain from continuing the infringement.
  - The individual account will be re-activated upon contact and compliance of the policy.
  - If email abuse, the individual will be required to retract the offending message.
  - The individual will be sent a notification via email of the abuse infraction and asked to return the email with their understanding and intent to comply via the policy and that they will lose account privileges completely upon the third offense.
  - The individual Dean or manager will be sent a notification via email of the abuse infraction and asked to return the email with their understanding that the individual will lose account privileges completely upon the third offense.
  - The email notification/compliance will be kept on file from both the individual and the Dean or manager.

**Level IV - Contact/Action for Third Offenders**
- The individual account privileges will be suspended immediately, which consist of email and network privileges.
  - The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted. The individual Dean or manager is contacted concerning the repeated abuse.
  - The HRO office is contacted concerning the repeated abuse.
  - The individual is apprised of their abuse and told that their privileges have been revoked.
  - The individual Dean or manager must contact the Vice Provost and Dean of Academic Services or the Director of Information Technology to discuss possible reinstatement of privileges.
  - Upon further review with the Provost (for faculty issues) and the HRO office (for staff issues), the determination to re-instate the technology privileges will be determined.
  - The decision will be kept on file.

**Overriding Issues**
- If at any time, the technology resources that have been abused are in jeopardy of causing mass problems for GVSU constituents or the network/files have been compromised, the Vice Provost and Dean of Academic Services or the Director of Information Technology may choose to immediately suspend the individual account to ensure the integrity and continuation of services for the rest of the constituents.
- Upon a decision of this nature, the situation will be brought to the Provost, HRO, appropriate Dean or manager as quickly as possible to remedy the issue at hand.

PROCEDURES

PHONEMAIL POLICY

SLT 11.9

Date of Last Update: July 31, 2008

Approved By:
POLICY STATEMENT
Department main numbers and widely published phone numbers are “must-answer” lines and are not assigned PhoneMail. Personal lines and other lines that do utilize PhoneMail must follow the procedures below.

PROCEDURES
Department main numbers and widely published phone numbers are “must-answer” lines and will not be assigned PhoneMail. These numbers should always be answered by a person.

A department main number is never to be forwarded to a PhoneMail box as this causes callers to be put into an endless PhoneMail loop.

All greetings are to be personalized and changed when users intend to be out of the office for more than one day, especially if they do not intend to check PhoneMail.

Users are to provide the caller with an alternative person’s name and telephone number to contact if they are going to be gone for any length of time.

PhoneMail users are to respond to messages within one business day unless they are on vacation.

Unit heads should monitor PhoneMail greetings when the initial installation is made and on a regular basis thereafter.

If you have any questions about PhoneMail usage or need to report a problem please call either extension 12148 or 12145 during working hours.

Vice President approval is required for PSS personnel to have PhoneMail installed.

PUBLIC FOLDER POLICY

POLICY STATEMENT
GVSU provide public folders to allow postings from any Outlook user on events, announcements, information of interest and a method to buy/sell articles.

PROCEDURES
Guidelines for consistent and proper use

• Messages posted to the business related public folders should pertain to GVSU sponsored programs, events, or activities.
• Messages intended for private business or personal profit shall not be posted
• Commercial message and advertisements for non-GVSU entities shall not be posted
• Messages posted to the Barter Board specifically may refer to personal items for sale or items wanted to buy.
• Messages intended for private business are not allowed
• Commercial messages and advertisements for items for sale or services offered are prohibited, including home businesses.
• Complaints relative to purchases of items advertised should be conducted privately.
• Additionally, messages posted to these public folders board must respect the rights of other users; for example, they must comply with all University policies regarding sexual, racial, and other forms of harassment, and shall not divulge personal data concerning faculty, staff, or students without explicit authorization to do so.

Message life span:

• Any message posted here should be deleted by the author as soon as its purpose has been resolved
• Messages will be deleted automatically after 7 days.

SECURE OFFICE PROCEDURE

POLICY STATEMENT

POLICY STATEMENT
It is the responsibility of all employees of the University to protect sensitive data against loss or theft. Awareness, education and practice of the following procedures can assist in this matter. These procedures are in place to help protect employees, customers, contractors and the university from damages related to the loss or misuse of sensitive information. This document refers to securing sensitive data and physical hardware within an office environment or mobile environment where data may be referenced (at home or on a laptop). It is not meant to address electronic data stored on university servers.

PROCEDURES

Goals

In order to effectively protect and secure university data, the following goals have been established:

a) Create, distribute and annually review the "Secure Office Procedure" document
b) Train all staff members whose jobs relate to sensitive data on both the "Secure Office Procedure" and Information Security Best Practices
c) Train departmental managers to be aware of the importance of the procedures and the need to enforce them

Staff Training

Employee awareness and education is an integral part of securing sensitive data for the university. The following procedures will be enforced to ensure proper training:

a) Upon hire, the Secure Office Procedure and Setting Strong Password documents are emailed to the new employee
b) Secure Office Procedure and Setting Strong Password documents are sent annually to all employees via email
c) Internal training, specific to each area, will be provided to employees who have access to sensitive data
d) Information Technology will provide Best Practices information at IT seminars and offer to attend annual departmental meetings to cover the below topics:
   i. Awareness of Social Engineering schemes
   ii. Secure Office Procedures
   iii. Strong Password creation
   iv. Data storage
   v. Data encryption
   vi. Backups
   vii. Anti-virus and Anti-spyware tools
   viii. Non-secure technologies

GENERAL OFFICE SECURITY PRACTICES

The following procedures should be followed within office suites, individual offices or workrooms and mobile locations where data may be referenced:

a) Keys or keycards used for access to sensitive data should not be left unattended
b) Passwords should not be shared or written down and left in accessible locations
c) If you have a student that will regularly be using your machine, contact the helpdesk and request a staff account for that student. (Do NOT give out your password)
d) Make certain passwords aren’t common information such as date of birth, names of children, pets, telephone numbers, etc.
e) When you leave your workstation, lock your computer screen
f) Lock up laptops, USB drives, external drives, etc. when unsupervised
g) Contact the IT Helpdesk when a computer is to be passed to a new user. IT will clean the computer, removing previous data and place a clean image on the machine.
h) Printouts containing sensitive data should be removed from networked printers immediately and filed appropriately in secure cabinets
i) Dispose of sensitive data on hard copy by shredding immediately
j) Departmental front desk staff should confirm identity of all visitors (GVSU staff/student workers or non-GVSU employees) who are entering their area(s)
   i. Employees should feel comfortable requesting what unit someone is from and the purpose of their visit
   ii. Employees should feel comfortable confirming meeting prior to allowing staff member/student employee to proceed within their departmental areas
   iii. Confirm with the GVSU employee they are scheduled to meet
   iv. Non-GVSU employees must be escorted to/from meeting area/work area
   v. Request ID if necessary
   vi. Provide front office staff the ability to view your calendar or print a schedule of your meetings in advance so they will expect attendees
k) All staff should be responsible to watch for or listen to any unusual activity and to be cognizant of their surroundings.

Sensitive Information

Sensitive data can be distributed via hard copy or electronic means within an office. When given the choice, store data electronically versus printing a hard copy. Consider scanning a document to store it electronically versus hard copy.

a) “Sensitive information” includes but is not limited to the following items, whether stored in electronic or printed format:
   i. All FERPA protected data*
   ii. Credit card number (in part or in whole)
   iii. Credit card expiration date
   iv. Cardholder name
   v. Cardholder address
   vi. Social Security Number
   vii. Business Identification Number
   viii. Employer Identification Number
ix. Paychecks
x. Paystubs
xi. Benefit information
xii. Giving information/history
xiii. Health information
xiv. Content of external grants or contracts

b) Securing hard copy sensitive data:
   i. Lock cabinets containing sensitive data when not in use or when away for extended periods of time
   ii. Storage rooms containing sensitive data should be locked at the end of the day or when unsupervised
   iii. Desks, workstations, common work areas, printers, and fax machines should be cleared of all sensitive data when not in use
   iv. Whiteboards, dry erase boards, writing tablets, etc. should be erased, removed or shredded when not in use
   v. Documents to be shredded should be done so immediately or locked up until shredding can occur
   vi. At the end of the day, all sensitive data should be in a locked drawer or cabinet

c) Securing electronic sensitive data. Please contact Information Technology if there are questions in how you are storing/sharing sensitive data electronically.
   i. Refrain, when possible from storing sensitive data on your personal computer hard drive or any external personal devices. Instead use the network drive space.
   ii. If storing sensitive data is required on your personal computer hard drive or an external device, encryption and password protection should be applied
   iii. Engage the screensaver when workspace is unoccupied
   iv. Computer workstations should be shut down completely at end of work day
   v. Lock laptop or external devices containing sensitive data when not in use
   vi. Make certain data and/or PC work station screens are not visible to the public (e.g.- near windows, entry/exit doors, etc.)
   vii. If email is used to share sensitive data, encryption and/or password protection should be used. The following statement should accompany the body of the email:
       “This message may contain confidential and/or proprietary information and is intended for the person/entity to whom it was originally addressed. Any use by others is strictly prohibited.”

*See information regarding FERPA data at www.gvsu.edu/registrar and click on FERPA

SOFTWARE SUPPORT POLICY
SLT 11.12
Date of Last Update: April 19, 2015
Approved By: Senior Leadership Team

Responsible Office: Information Technology

POLICY STATEMENT
Information Technology is responsible for providing software support to the campus community. IT resources are finite. Therefore, reasonable limits must be identified regarding the number and variety of software products supported by IT. This policy is intended to define those limits.

PROCEDURES
The software industry is characterized by constant change. Therefore, it is unreasonable to establish a single, static list of supported software. It is equally unreasonable to force the campus community to change software on a frequent basis.

Information Technology will provide support for the most recent operating systems for Windows and Macintosh platforms as well as one version back.

Standard software applications issued with a university computer will be supported in the most recent version and one version back unless compatibility issues arise.

Institutional ownership of a site license does not imply IT support for all products covered by the license. Software provided in labs and classrooms outside of the standard applications listed above are not supported by Information Technology. Software assistance is required through the vendor providing the application.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - PERSONNEL ADMINISTRATION
BOT 4.1.1
Date of Last Update: June 01, 2017
Approved By: Board of Trustees
POLICY STATEMENT

4.1.1 Personnel Administration. Personnel Administration is a service activity in which each Appointing Officer has a role. The authority over the personnel program resides in the Board of Trustees, although the President, as agent of the Board, and other officers he/she may designate ("Appointing Officers") have the authority to make appointments within the approved personnel program. Centralized within the Human Resources office is the responsibility and advisory authority to determine that the philosophy and policies of the personnel program are effectively applied.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - EQUAL OPPORTUNITY
BOT 4.1.2

Date of Last Update:  
June 01, 2017

Approved By:  
Board of Trustees

POLICY STATEMENT

4.1.2 Equal Opportunity. The President and other officers to whom he/she designates authority for personnel actions are responsible for the enthusiastic application of all laws and regulations concerning fair employment practices, equal opportunity, etc., to all matters with respect to recruitment, appointment, assignment, and promotion of University's personnel. Matters of affirmative action are outlined in the "Affirmative Action Program" maintained in the Affirmative Action office.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - UNIVERSITY RESPONSIBILITIES
BOT 4.1.3

Date of Last Update:  
June 01, 2017

Approved By:  
Board of Trustees

POLICY STATEMENT

4.1.3 University Responsibilities. The President and other officers to whom he/she designates authority are responsible for administering the University and its property, supervising its operations, assigning and directing its faculty and staff, changing or introducing new operations, methods, or facilities, appointing, assigning, or disciplining faculty and staff members, subject to the guidelines herein set forth, and establishing such procedures which may be needed from time to time. For purposes of this Section 4.1, "faculty and staff" shall mean an employee covered by the Board of Trustees' Policies.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - DISCIPLINARY PROCEDURE
BOT 4.1.4

Date of Last Update:  
June 01, 2017

Approved By:  
Board of Trustees

POLICY STATEMENT

4.1.4 Disciplinary Procedure. The President and other administrators to whom he/she designates authority are responsible for discipline which normally shall be corrective rather than punitive in nature. A typical procedure for disciplinary action will be, depending on the seriousness or frequency of the cause, an oral discussion, a written warning, disciplinary lay-off without pay, and dismissal. All disciplinary actions are subject to the appropriate grievance procedure.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - PERSONNEL INFORMATION
BOT 4.1.5

Date of Last Update:  
June 01, 2017
GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - CONFLICT OF INTEREST

BOT 4.1.6

Date of Last Update:
June 01, 2017

Approved By:
• Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.6 Conflict of Interest

4.1.6.1 Employment. Appointment of any relative of a faculty or staff member must be approved by the President in advance of the appointment in order to insure that no conflicts of interest exist. Each Appointing Officer must insure that no conflicts of interest exist in matters of appointment, retention, promotion, termination, assignment or other conditions of employment for relatives of faculty or staff members within his or her unit.

4.1.6.2 Financial. It shall be the responsibility of the President (or his/her designee) to insure that conflicts of financial interest do not occur, and to take such steps to protect the University as seem to be required. The University respects the rights of its faculty and staff members in their activities outside their employment which are private in nature and which in no way conflict with or reflect upon the University.

4.1.6.3 Political Candidates or Office Holder. The University affirms the rights of its faculty and staff members as citizens to be active in political affairs which do not conflict with the professional standards and ethics of their employment. It shall be the responsibility of the President (or his/her designee) to ensure that conflicts involving professional standards and ethics do not occur with University faculty and staff members who are political candidates or office holders, and to take such steps to protect the University as may be required.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - EMERITUS APPOINTMENT

BOT 4.1.7

Date of Last Update:
February 08, 2019

Approved By:
• Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.7 Emeritus Appointment. Any retired faculty or staff member of the University who has made a significant contribution to the University through a reasonable period of service is eligible for emeritus status with an emeritus title usually conforming to that held at retirement. The President’s recommendation to the Board of Trustees will be made after consultation with the Appointing Officer, colleagues and vice-president. This recommendation may be made posthumously if all other criteria except retirement status have been

Personnel Information. All personnel information and files maintained by the University are the confidential property of the University and are maintained in the Human Resources office. Faculty and staff members can expect that a right to a reasonable degree of privacy will be honored and that the confidential character of certain personnel data will be respected as such. Generally, release of information and/or access to such information should be restricted in accordance with the policies of the University. Whenever possible, information released for public purposes shall be in a form which will protect the anonymity of the individual; however, as of October 1979, Michigan law does require that salary information be available to the public. All personnel information collected shall be pertinent to the needs of the University. Access to personnel files is limited to those persons responsible for personnel and the faculty or staff member’s supervisor. Letters of recommendation are the confidential property of the provider. A faculty or staff member will not be given access to letters of recommendation concerning himself/herself unless the provider of such recommendation agrees, in writing, to allow such access. All personnel records will be retained for the length of the faculty or staff member’s service and thereafter in compliance with all applicable federal, state and local laws. Temporary records such as insurance claims will be maintained only so long as they have a useful life. Records of terminated faculty and staff members will be maintained for a minimum of seven years and thereafter only those portions having a useful life will be maintained. Information of an official nature for state and federal agencies will be provided to the extent of the matter at hand and within the limits of the law. No anonymous information will be maintained in the files. Records of disciplinary actions will be placed in the personnel files only after the individual has had an opportunity to view a copy. The University will provide prospective employers with title, employment dates, and eligibility for rehire status only, unless additional information is requested by the faculty or staff member or former faculty or staff member. Recommendations by individual supervisors may be made at their own discretion and at their own risk, recognizing that the University may be responsible for the information given.

Personnel files may include, but are not limited to, payroll information and documentation, records of employment actions and documentation, records required by federal, state and local law, employment applications, vitae and resumes, recommendations, interview comments, fringe benefit information, merit and performance evaluation, records and documentation of disciplinary actions, official transcripts of baccalaureate or post baccalaureate degrees and such other information as may be needed from time to time. Other files maintained in accordance with the faculty appointment and evaluation policy and covered by the limitations expressed in that policy may be housed elsewhere.

Any retired faculty or staff member of the University who has made a significant contribution to the University through a reasonable period of service is eligible for emeritus status with an emeritus title usually conforming to that held at retirement. The President’s recommendation to the Board of Trustees will be made after consultation with the Appointing Officer, colleagues and vice-president. This recommendation may be made posthumously if all other criteria except retirement status have been
GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - HONORARY TITLES

BOT 4.1.8

Date of Last Update:
June 01, 2017

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.8 Honorary Titles. Persons who are performing significant services to the University may be given an honorary title conforming to the service performed upon recommendation of the President to the Board of Trustees. Honorary faculty and staff will be listed in appropriate publications, may participate in commencement, use library facilities, and will be encouraged to take an active role in the University. They will be appointed without compensation. The duration of an honorary appointment shall coincide with the period of service rendered.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - VERIFICATION OF CREDENTIALS

BOT 4.1.9

Date of Last Update:
June 01, 2017

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.9 Verification of Credentials. All advanced degrees recognized by the University must be earned from institutions approved by recognized accrediting bodies. In the case of foreign degrees, a formal evaluation will be made by the 

Appointing Officer

to determine equivalency with degrees awarded in the United States.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - OBLIGATIONS OF APPOINTEES

BOT 4.1.10

Date of Last Update:
June 01, 2017

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.10 Obligations of Appointees. As the result of accepting an appointment, the recipient becomes obligated to comply with all policies and regulations of the University applicable to the position including those in effect at the time of appointment and those duly adopted and issued thereafter. This obligation does not contravene the appointee’s rights of academic freedom or the express terms and conditions of the appointment. Among such policies are the following:

4.1.10.1 Outside employment. Since faculty and staff members are required to fulfill their responsibilities completely and effectively, any outside employment which a faculty or staff member wishes to undertake must be approved in advance by the 

Appointing Officer

4.1.10.2 Rights in published material, inventions and secret processes. The University seeks to promote the public good through excellence in teaching, active scholarship, and service. In the course of these activities, faculty, staff, and students create Intellectual Property that may be eligible for copyright, patent, and other forms of legal protection. In order to reinforce the fairness of mutual commitment and in the spirit of academic freedom, the University recognizes the rich and varied products of individual scholarship, in all its manifestations, are rightly the property of the Creator except as otherwise defined by this Section 4.1.10.2. The University also recognizes that Intellectual Property should remain available for the benefit of the entire University community and that the Creators shall not use Intellectual Property in conflict or competition with the University. Therefore, the University community seeks to establish an environment in which the creation of Intellectual Property is suitably recognized as an academic achievement and in which the benefits of intellectual property to the creators, the University community, and the general public are optimized.

A. Ownership. All Intellectual Property shall be owned by its Creators when such Intellectual Property is not considered 1) work made for hire; 2) expressly assigned or commissioned by the University; 3) grant or contract funded through the University; or 4) to require more than nominal use of University resources. Irrespective of ownership, Creators shall disclose promptly and with full disclosure, in the manner prescribed by the University in order to protect confidentiality of the Intellectual Property, to the Finance and Administration Office any Intellectual Property discovered or created as a result of 1) work made for hire; 2) expressly assigned or commissioned by the University; 3) grant or contract funded through the University; or 4) more than nominal use of University resources. The President or designee by written agreement is authorized to make
B. Right to use. In the event the Intellectual Property is owned by the Creator but involved University resources in the discovery or creation of the Intellectual Property, the University will retain a non-exclusive license to use the Intellectual Property within the University provided attribution is given to the Creator(s) of the Intellectual Property. In the event the Creator leaves the employ of the University, the University shall be able to modify the Intellectual Property for use within the University.

C. Commercial Application. Three options for the commercialization of a technology are noted below. The option will be chosen by Creator(s) and the Finance and Administration Office jointly, prior to the expenditure of substantial University resources. The option chosen should be that which best serves the mission of the University, including the objectives of this policy, and which is consistent with the available technology transfer resources of the University. The following three options for commercialization are available:

1. Licensing Third Parties. The University may license or assign Intellectual Property to external entities for further development and commercialization in exchange for a return on resulting revenues. The University and Creator shall divide the return on resulting revenues using one of the two formulas as follows:

   A. The University and the Creator divide the gross revenue 70% to the University and 30% to the Creator but the University assumes the expenses related to legal protection, marketing and commercialization and other transactional expenses related to the Intellectual Property; or,

   B. The University and the Creator divide the net revenue 50% to the University and 50% to the Creator but the University first recovers its expenses related to legal protection, marketing and commercialization and licensing and other transactional expenses related to the Intellectual Property.

If the University decides not to protect or license the Intellectual Property, or subsequently decides not to pursue commercialization of the Intellectual Property it may be reassigned to the Creator(s), upon request, in accordance with option 3 below.

2. Licensing Business Entities in which a Creator holds an ownership or management interest. The University or an affiliated entity may enter into license agreements with business entities in which the Creator holds an ownership interest. The terms may include royalty payment, equity interest, or a combination thereof.

3. Reassignment of ownership to Creator. The University may reassign ownership of Intellectual Property to Creator(s) who elects to market and protect the Intellectual Property. The return to the University for a reassignment of ownership will be ten percent (10%) of the net revenue generated by the Intellectual Property.

D. Definitions.

1. "Creator" shall mean a faculty or staff member who invents, discovers or creates Intellectual Property using University resources.

3. "Academic Works" shall mean Intellectual Properties that are artistic, scholarly, instructional or entertainment in nature and are not Technical Works. Academic Works include instructional materials, books, journal articles, written reports of research to the extent that they do not contain Technical Works, creative writings, manuscripts, music and art work.

4. "Technical Works" shall mean Intellectual Properties that are generally of a scientific, engineering or technical nature such as patentable or unpatentable inventions, devices, machines, processes, methods, invented or manufactured substances, and computer software.

5. "Nominal Use of University Resources" shall mean use that is customary or usual within the faculty, staff and student's appointment and assignment such as the use of an assigned office, computer, computing network, copier or similar reproduction device, telephone or similar telecommunication device, and office supplies in the ordinary support of his or her teaching, scholarly activities and service.

4.1.10.3 Oath of Teachers. Before serving in a teaching position, an appointee will have taken and subscribed the following oath or affirmation as required by Act 23 of the Public Acts of 1935:

"I do solemnly swear (or affirm) that I will support the Constitution of the United States of America and the Constitution of the State of Michigan, and that I will faithfully discharge the duties of my position according to the best of my ability."

4.1.10.4 Research Integrity. Research, research and creative activities are central to fulfilling the mission of the University. It is policy of the University that all employees, students, partners and affiliates always perform their roles related to research, scholarship and creative activity with ethical integrity. This requirement reflects a culture publicly committed to developing and fostering the highest standards of professional ethics. Research integrity is demonstrated in the decisions and actions that exemplify our core ethical values. The core ethical values in research related activities, including scholarship and creative performance, include: 1) truthfulness and honesty; 2) non-maleficence and beneficence; 3) trustworthiness, reliability, confidentiality, respect, and collegiality; and 4) accountability.

1. Truthfulness and Honesty. Intellectual and creative activities require thoroughgoing truthfulness and honesty in proposing, conducting and reporting research related activities, scholarship and artistic performance.

2. Non-maleficence and Beneficence. Endeavors involving human or animal subjects require balancing non-maleficence with beneficence in minimizing burdens to research subjects in relation to the potential benefits to those subjects and others.

3. Trustworthiness, Reliability, Confidentiality, Respect, and Collegiality. Research integrity requires trustworthiness and reliability in recognizing and building on the prior work of others, confidentiality in peer review and assessment, and respect and collegiality in interactions with colleagues and students.

4. Accountability. The broader community's welfare depends upon explicit researcher accountability for all research, scholarship and creative performance related activities, and for reporting misconduct about which one has direct knowledge.
4.1.11 Parking. The University provides free open reserved parking as near to the faculty or staff member's work station or office as possible.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - KEYS

BOT 4.1.12

Date of Last Update:
June 01, 2017

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.12 Keys. All faculty and staff members are issued keys and other equipment needed in the performance of their duties. All keys and such equipment must be used only as authorized and must be returned to the University upon termination of employment.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - IDENTIFICATION CARDS

BOT 4.1.13

Date of Last Update:
June 01, 2017

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.13 Identification Cards. Each faculty or staff member will be issued an identification card which must be surrendered upon termination. This card can be used for any purpose, at the University, requiring identification.

MAINTENANCE, GROUNDS, AND SERVICE STAFF

BOT 4.7.1

Date of Last Update:
June 01, 2017

Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.7.1 All policies for maintenance, grounds & service staff will be governed by the provisions of the collective bargaining agreement as ratified by the Board

HONORARY NAMING OF A PORTION OF A GVSU FACILITY POLICY

SLT 2.1

Date of Last Update:
June 30, 2014

Approved By:
Senior Leadership Team

Responsible Office:
Office of the President

POLICY STATEMENT

Only in exceptional circumstances where a former member of the Grand Valley State University community has made an extraordinary, significant, positive contribution will a portion of a facility be named for such a person. A portion of a facility may be a classroom, laboratory, conference room or similar space.

PROCEDURES
Nominations must be made in writing to the appropriate Vice President. With the support of the Vice President, the nomination will be forwarded to the Executive Associate to the President. The Executive Associate to the President will bring the nomination to the Senior Leadership Team who will review and give input to the President of the University. The President of the University will make the final determination on the naming of portions of facilities.

A nominee will typically have been employed by Grand Valley State University for a minimum of 20 years. In special circumstances the 20-year minimum may be waived.

The nominee must not be employed by the University at the time of the nomination. Nominations will be accepted only after a one-year waiting period following the end of the person’s service.

The nomination must include specific examples of the nominee’s contributions to the University.

The names of portions of facilities honoring former members of the University community shall be considered permanent as long as that portion of the facility exists or its purpose has not changed or the President subsequently determines otherwise.

It is generally understood that entire University buildings or facilities will not be named in honor of a former member of the University community. (Please see Grand Valley State University Board of Trustees’ Policies BOT 6.13.3, Naming of Buildings.)

Consideration for the naming of academic programs, centers, etc. will follow the same procedure as outlined above.

The President of the University will consider nominations in consultation with others at the university as appropriate. The final decision on the naming of a portion of a University facility will rest with the President of the University. The Executive Associate to the President will communicate the President’s decision to the requesting party and the appropriate Vice President.

POLICY ON POLICIES

SLT 2.2

Date of Last Update:
March 25, 2008

Approved By:
Senior Leadership Team

Responsible Office:
Office of the President

POLICY STATEMENT

The Grand Valley State University community will have access to clearly stated university-wide administrative policies, to be published as Grand Valley State University Policies on the University Web site. These policies will be:

- Formally approved and kept current
- Accessible to all parties in a centralized Grand Valley State University Policies website
- Communicated to operating units in a timely manner

PROCEDURES

A Policy is characterized by the following criteria:

- It is a governing principle that provides specific rules and provisions for implementing Board policies and setting expectations for the administrative operation of the University.
- It has institution-wide application.
- It enhances the University’s mission and connects it to individual conduct.
- It helps ensure compliance with applicable laws and regulations and Grand Valley State University Board of Trustees policies, promotes operational efficiencies and reduces institutional risk.
- It may change infrequently and sets a course for the foreseeable future.
- It is approved by the President and/or the Senior Leadership Team.

There are many department-level policies that apply only to those within a department and do not meet all of the above criteria. Therefore, they are not considered to be Grand Valley State University Board of Trustees’ Policies, and are not governed by this document. However, these policies may not conflict with the Board of Trustees’ Policies or Senior Leadership Team (SLT) Policies.

The Grand Valley State University Board of Trustees’ Policies will not include: curricular requirements for degrees, the basic terms and conditions of employment subject to collective bargaining, Academic & Student Affairs Policies as published in the Faculty Handbook and Student Code, Catalog, or division-wide policies (approved by a Vice President in consultation with the President).

Additional Policy Criteria for Vice Presidential Review

A Vice President or the Provost may use the following criteria in addition to the above policy definition when determining whether a proposed policy is suitable for consideration as a Grand Valley State University Policy:

I. People

- a. Does it impact inclusion or equity?
- b. Who will be affected; how many will be affected?
  - i. Students
  - ii. Faculty
  - iii. Staff
  - iv. External or internal audience
  - v. More than one department/division
  - vi. More than one campus

II. Money

- a. Is there a source of funding?
- b. Does it involve an expense or provide revenue?
I. One-time expense
   ii. On-going expense
   iii. Fee or refund involved

III. Space
   a. Does it affect or commit a use of space?
   b. Does it involve the use of University communication systems?

ART COLLECTION MAINTENANCE AND CARE POLICY

SLT 3.1

Date of Last Update:
December 05, 2014

Approved By:
Senior Leadership Team

Responsible Office:
Art Gallery Department
POLICY STATEMENT

The Grand Valley State University art collection is made up of paintings, drawings, prints, sculptures, ceramics, textiles, and other works of art as defined by the Art Gallery Department but does NOT include plaques, signage, degrees, awards, and other similar items. The art collection is displayed on every University campus, and in nearly every University facility and building. Faculty and staff members, contractors, students, and other people with duties/responsibilities requiring them to come into contact with the University art collection are subject to the following policies and procedures to ensure that the University’s legal, ethical, and fiduciary responsibilities for the safekeeping of these assets are maintained. For more details on all other internal art procedures, see the Art Gallery Collections Policy on the Art Gallery’s website or contact the University Art Gallery at (616) 331–3638.

PROCEDURES

Maintenance and Care
All art at the University is to be cleaned, handled, installed, de-installed, and transported exclusively by the staff of the University Art Gallery. Other than representatives of the University Art Gallery, individuals must have written permission from the Director of Galleries and Collections, Assistant Director, or the Curator of Collections Management before handling or moving any pieces of the art collection.

Building Construction/Renovation Projects
The Director of Galleries and Collections or designee will call a meeting in December of each year with representatives from Facilities Services, Facilities Planning, and Auxiliary Services (Housing) for the purpose of identifying upcoming projects that will affect the art collection.

A follow-up meeting, called by Director of Galleries and Collections or designee, will take place in April of the next year for updating project status and will include a timeline for each project identified. Facilities Services Project Managers will be identified and included on the project lists.

The Director of Galleries and Collections, or designee, will attend the bi-monthly Facilities Project Status meetings to be kept up to date on all ongoing university construction projects and timelines.

The Art Gallery office will be alerted by a representative of Facilities Planning and Facilities Services as soon as reasonably possible for all, including last-minute, building project additions, deletions or changes. This includes a preferred art removal lead-time notice of no less than two weeks. This notice will be made directly by contacting the Art Gallery office.

The Art Gallery office will be contacted immediately in the event of an emergency (flood, fire, etc.) via a phone call if any piece of the art collection is in jeopardy of damage or destruction. The Art Gallery staff will maintain a disaster and emergency preparedness plan (under development) for its collections and will make it accessible on its website.

Use and Access
The University art collection shall be accessible for research and study by responsible investigators, subject to procedures necessary to safeguard the objects, the space in which they are located, and to restrictions imposed by limitations of exhibition requirement, availability of study space and facilities, and availability of appropriate curatorial staff as determined by the curator/manager in charge of the collection. The entire University art collection is made digitally accessible through an online searchable database and mobile device applications. Information about both may be found online at the Art Gallery website, www.gvsu.edu/artgallery.

BRIDGE FUND REQUEST POLICY

SLT 3.2

Date of Last Update:
July 31, 2008

Approved By:

Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT

Grand Valley State University does not encourage creating nor approving a Request to Add a New Fund (RANF) and establishing a FOAP prior to the official receipt of a fully executed award. A fully executed award is an externally sponsored agreement (grant, contract, or cooperative agreement) that is signed by the duly authorized official of both the external sponsor and Grand Valley State University. It is important to note that any expenses incurred prior to an award and without the appropriate approvals place the University at risk.

However, in some extraordinary situations, effective project management or research necessitates incurring expenses prior to the receipt of a fully executed award. In such cases, Principal Investigators may request a "bridge fund" be established in anticipation of the fully executed award. Principal Investigators should contact the Office of Sponsored Programs (OSP) to initiate a Bridge Fund Request.

PROCEDURES

In an effort to minimize the risk to the University, the Office of Sponsored Programs will verify with the sponsor the allowability of pre-award costs, the anticipated award amount, and the period of performance. Once OSP receives verification in writing from the sponsor’s grants or contracts officer, the responsible Principal Investigator, Chair/Unit Head, Dean, and University Authorizing Official are all required to agree in writing to proceed with the expenditure of University funds in anticipation of the award. This agreement will be prepared by OSP in consultation with the Office of Business and Finance. It will be the responsibility of the Principal Investigator to obtain the required signatures of the appropriate Chair/Unit Head, Dean, University Authorizing Official, and Executive Officer (Office of the Provost).

The Bridge Fund Request will be processed in a manner similar to the Request to Add A New Fund. However, attached to the Bridge Fund Request will be:

1. Written verification from the sponsor (signed by the sponsor Grants/Contracts Officer) received by OSP
2. Bridge Fund Request Agreement signed by the Chair/Unit Head, Dean, and University Authorizing Official
3. A copy of the proposal application, narrative & budget
A Bridge Fund Request shall not exceed 15% of the anticipated GVSU award amount. The maximum allowable amount requested will be verified by OSP in consultation with the Office of Business & Finance. If the award is for multiple years, the Bridge Fund Request shall not exceed 15% of the anticipated GVSU award amount for the first year of the funding. Upon the official receipt of the fully executed award, the bridge fund transition into the official FOAP for the project.

Should funding not be received from the sponsor (e.g. the award start date is delayed, or the costs are determined to be unallowable, etc.) coverage of costs incurred on the project becomes the responsibility of the Department Chair/Unit Head having initiated and signed the initial Bridge Fund Request form.

This policy was effective August 1, 2007 and will be revisited for any revisions, changes, or sunset within one year of its effective date.

COLLEGIALLY POLICY

SLT 3.3

Date of Last Update:
June 06, 2014

Approved By:
Senior Leadership Team

Responsible Office:
Provost Office

POLICY STATEMENT

Grand Valley State University has a tradition of collegiality and shared governance and strives to maintain these standards as a mainstay of its institutional culture. As a value stated in the Board of Trustees’ policies as adopted by the Board of Trustees BOT 1.3:

A range of thoughtful perspectives is necessary for open inquiry, liberal education, and a healthy community. Recognizing this, we seek and welcome a diverse group of students, faculty and staff. We value a multiplicity of opinions and backgrounds and seek ways to incorporate the voices and experiences of all into our University. We value our local community and embrace the participation of individuals and groups from Michigan, the nation and the world. We also encourage participation in educational opportunities abroad.

In order to foster a healthy and diverse environment, we will act with integrity, communicate respectfully, and accept responsibility for our words and actions. This University is a community whose varied functions, responsibilities, and contributions are supportive of the instructional, research, and service mission of the institution. Collegial interactions as referenced throughout this policy are those interactions that occur among and between colleagues, subordinates, supervisors, administrators and students. Collegial interactions are essential to support that mission in an effective, efficient, and ethical manner.

PROCEDURES

FACULTY AND STAFF MEMBER

If a faculty or staff member believes that she or he has been subjected to act(s) of non-collegiality, ideally, the individual should first try to discuss the matter with the offending person and/or the appropriate unit head or supervisor. If circumstances make this too difficult or if this does not resolve the matter, the faculty or staff member may seek assistance from the Work Life Consultant in Human Resources. In addition to providing help in resolving the matter, the Work Life Consultant can suggest other available resources. If using this process does not resolve the matter or the faculty or staff member so chooses, she or he may file a complaint using the appropriate Complaint Process identified for each staff group as listed below.

Complaint Process:
Faculty members – [Chapter 4, Section 2.18 of the Faculty Handbook](http://gvsu.edu/)
Executive, Administrative and Professional Staff – [Board of Trustees’ Policies 4.4.7](http://gvsu.edu/)
Professional Support Staff – Section 3.2.4 of the Agreement
Confidential Professional Support Staff – Section 9 of the Confidential PSS Handbook
Maintenance, Grounds and Service Staff – Section 5.2 of the Agreement
Department of Public Safety Staff – Section 5.2 of the Agreement
Security Staff – Personnel Policies in the Security Staff Handbook

STUDENT

If a student believes that she or he has been subjected to act(s) of non-collegiality, ideally, the individual should first try to discuss the matter with the offending person. If circumstances make this too difficult or if this does not resolve the matter, the student may seek assistance from the Dean of Students Office. In addition to providing help in resolving the matter, the Dean of Students Office representative can suggest other available resources. If using this process does not resolve the matter or the student so chooses, she or he may file a complaint using the appropriate process in the Student Code.

NOTE: The GVSU Collegiality Policy was modeled after policy from Northern Illinois University [www.niu.edu](http://www.niu.edu)

DEFINITIONS:

“Collegiality” defined:

Collegiality represents an expectation of a professional relationship among and between faculty, staff, and students with a commitment to sustaining a positive and productive
environment as critical for the progress and success of the University community. It consists of collaboration and a shared decision-making process that incorporates mutual respect for similarities and for differences - in background, expertise, judgments, and points of views, in addition to mutual trust. Central to collegiality is the expectation that members of the University community will be individually accountable to conduct themselves in a manner that contributes to the University's academic mission and high reputation. Collegiality among faculty, staff, and students involves a similar professional expectation concerning constructive cooperation, civility in discourse, and engagement in academic and administrative tasks within the respective units and in relation to the institutional life of the University as a whole. Collegiality is not necessarily congeniality nor is it conformity nor excessive deference to the judgments of faculty, staff, and students; these are flatly oppositional to the free and open development of ideas. Evidence of collegiality is demonstrated by the protection of academic freedom, the capacity of faculty, staff, and students to carry out their professional and learning functions without obstruction, and the ability of a community of scholars to thrive in a vigorous and collaborative intellectual climate.

Non-collegial Behavior(s):

Allegations or complaints of repeated and unreasonable activity, or a severe non-collegial act, that clearly interferes with the professional working, learning, or other University environment, if verified, will constitute a violation of this policy. Such allegations will be examined in a reasonable, objective, and expedient manner, and in accordance with applicable federal and state laws and university due process procedures. It is crucial for the University to ensure the right of all faculty, staff, and students to perform their individual and collaborative roles in a workplace, learning or other University environment that is free from incivility, misuse of authority, intimidation, humiliation, retaliation, and infringement upon personal and academic freedoms. Non-collegial behaviors constitute bullying.

---

**CONFLICT OF INTEREST IN RESEARCH POLICY**

**SLT 3.4**

**Date of Last Update:**
December 22, 2016

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Center for Scholarly and Creative Excellence

**POLICY STATEMENT**

The University is committed to transparency, integrity of scholarship, and independence as it pursues its mission to create, preserve, and disseminate knowledge through teaching, research, and public service. Accordingly, Grand Valley State University allows and encourages faculty and staff to engage in outside activities and relationships that enhance the mission of the University. All faculty and staff members are to act with honesty, integrity, and in the best interest of the University when performing their duties, and to abide by the highest standards of research, educational, professional, and fiscal conduct.

External sponsors, whether governmental or private, institute conflict of interest regulations of their own for investigators seeking research funding. The purpose of such regulations is to promote objectivity in research and to provide a reasonable expectation that the design, conduct and reporting of sponsored research will be free from bias arising from Financial Interests of participating investigators. As a recipient of external funding from governmental and nongovernmental sponsors, the University must comply with these regulations. Similarly, investigators engaged in research on human subjects will be expected to comply with the Conflict of Interest (COI) provisions of the University’s Human Research Review Committee (HRRC) whether the research is funded from external sources or not.

No research, sponsored program, or technology transfer activities occurring at the University shall be adversely affected by the financial interests of the University personnel carrying out those activities. Prior to participating in a research, sponsored program, or technology transfer activity, University personnel having a potential conflict of interest shall disclose the details to the University. The Research Integrity Officer at the University shall be responsible for reviewing the disclosures and instituting an adequate plan for the management of any potential financial conflict of interest.

If any application for external funding is involved, faculty and staff investigators shall ensure that they have disclosed all Significant Financial Interests related to their University Responsibilities prior to submitting the application, and as soon as possible thereafter if a new Significant Financial Interest meeting the disclosure standard arises. Disclosures shall also be updated as soon as possible, but within 30 days, when an existing Significant Financial Interest ends or changes in a material way.

Faculty and Staff investigators funded by the Public Health Service (PHS) and/or other agencies that abide by PHS COI regulations are subject to additional requirements in accordance with 42 C.F.R. Part 50.601. Investigators involved in research funded by PHS sponsors must complete required conflict of interest training before engaging in research and every four years thereafter. GVSU may require training more frequently than every four years if there is a substantive conflict of interest change or specific instances of noncompliance.

This policy fulfills federal regulations requiring institutions receiving federal funding to have in place a written, enforced policy and process to identify and manage, reduce, or eliminate conflicts of interest of persons engaged in the design, conduct, or reporting of federally funded research.

---

**COPYRIGHT POLICY**

**SLT 3.5**

**Date of Last Update:**
May 06, 2015

**Approved By:**
Senior Leadership Team

**Responsible Office:**
University Libraries

**POLICY STATEMENT**

The Grand Valley State University Libraries are committed to following all applicable laws regarding copyright and other intellectual property. This includes not only preserving the rights of creators and owners of copyright, but also supporting the rights of users of copyrighted material, including fair use and other exemptions from copyright. This policy outlines the role of the University Libraries in providing education, information, and support regarding copyright, in order to fulfill our mission of advancing intellectual growth and
PROcedures

The University Libraries work to educate and support our students, faculty, and staff by serving as an information resource on copyright law as well as the rights of creators, owners, and users of copyrighted materials. We provide detailed resources for understanding and working with copyright through our copyright guide: http://www.gvsu.edu/library/copyright.

We also offer educational programming, individual consultations, and other services related to copyright issues. For more information on the copyright services we provide, or for support with a copyright issue, please contact a librarian https://www.gvsu.edu/library/librarians.

The University Libraries offer education and information, but we do not enforce others' compliance with copyright law, nor do we provide legal advice. We can help faculty, students, and staff understand how copyright law works in general, and provide information on specific issues, but the final responsibility for ethical and legal use of copyrighted materials rests with the user. This responsibility extends to the use of technology provided by the Libraries, such as scanners and photocopiers.

The University Libraries do take responsibility for adhering to copyright law when using copyrighted materials in our mediated services, including course reserves and Document Delivery, and we make internal decisions accordingly. However, we cannot make decisions for other users; we can only provide information and education. For legal advice pertaining to copyright and other intellectual property issues, we recommend that you contact the Division of Legal, Compliance & Risk Management.

Export Control Policy

SLT 3.6

Date of Last Update: April 24, 2019

Approved By: Senior Leadership Team

Responsible Office: Center for Scholarly and Creative Excellence

Policy Statement

All personnel at Grand Valley State University, including faculty at all levels, staff, students, visiting scholars, and all other persons herein referred to as “GVSU Personnel” retained by or working at the University must comply with all U.S. export control laws and regulations while teaching, conducting research, or providing service activities at or on behalf of the University. No GVSU Personnel may engage in any export activity that is prohibited by the U.S. Department of Commerce, the U.S. Department of State, the U.S. Department of Treasury’s Office of Foreign Assets Control, or any other government agency that enforces export laws/regulations. Similarly, GVSU Personnel may not transfer any controlled item, including technology and technical data, to any foreign nationals inside or outside the United States territory without approved documentation.

Compliance with export control laws and regulations must be considered and if necessary achieved before engaging in science or technology-based research, executing contracts or other agreements, purchasing high-technology devices or software, or traveling internationally. GVSU Personnel are responsible for the following:

(i) Ensuring their educational, research, and other University activities are conducted properly and in compliance with export control regulations, all requirements of this policy, and any technology control plan which they are included;
(ii) Ensuring contracts and service agreements entered into on behalf of the University include the appropriate export control language;
(iii) Notifying the Office of Research Compliance and Integrity at least 30 days prior to traveling on behalf of the University to any of the following locations:
   (1) Embargoed and/or targeted sanctioned countries identified by the Export Administration Regulations and/or the Office of Foreign Assets Control;
   (2) Prohibited countries identified by the International Traffic in Arms Regulations;
(iv) Obtaining pre-approval from the Office of Research Compliance and Integrity to take or ship any University property to an embargoed, targeted sanctioned, and/or prohibited country as defined in (iii) above; and
(v) Ensuring University business is not conducted with any individual or entity on a prohibited party list published by the Departments of Commerce, State, or the Treasury.

It is essential that all GVSU Personnel keep current with information and training provided by the University. The Vice Provost for Research Administration (VPRA), or designee, is the University’s Empowered Official who is responsible for overseeing the University’s export compliance program.

The University’s Empowered Official or designee, is legally empowered to sign license applications or other requests for approval on behalf of the University and has authority to:

(i) Enquire into any aspect of a proposed export or temporary import by the University,
(ii) Verify the legality of the transaction and the accuracy of the information to be submitted, and
(iii) Refuse to sign any license application or other request for approval without prejudice or other adverse recourse.

For more information about export controls, please contact the Office of Research Compliance and Integrity at 616-331-3197 (https://www.gvsu.edu/export/).

Non-Affiliate/Guest Use of Library Resources and Computers

SLT 3.9

Date of Last Update: February 19, 2020

Approved By: Senior Leadership Team

Responsible Office: University Libraries
POLICY STATEMENT

Grand Valley has developed this policy in cooperation with its libraries and library staff to outline the policy guest usage of written materials, books and documents housed within the library as well as library computer resources.

Tours

All requests for tours will be evaluated according to purpose, outcomes and facility availability. Scheduling is based on staff availability, the University academic calendar and activity within the library. Tours may be restricted during mid-term and final exam study periods.

General building tours may be requested by calling 616.331.3500.

Walk-in tours of the Mary Idema Pew Library Learning & Information Commons are offered throughout the year. No registration is necessary, and these tours are available on a first come, first served basis, and limited to fifteen per session. Inquire at the Service Desk upon arrival. Self-guided tour brochures are available at the Service Desk.

GVSU course specific tours of any of the University Libraries locations may be requested, please contact your subject librarian.

University, school and professional groups interested in specific library programming; building vision and project, technology, architecture, facilities, or LEED information may request an administrative meeting and building tour by contacting University Libraries Administration at 616.331.2606.

Library Resources

Borrowing of GVSU library items requires a valid GVSU ID, GVSU Alumni Card, or MelCat Visiting Patron status.

Computer Access

Guests must present a valid, government issued ID or other photo ID with additional proof of residence to library staff. Additionally, guest users will agree to abide by current GVSU computer use policies. Failure to do so will result in computer access privileges being revoked. Library staff will exercise discretion in limiting guest access in favor of GVSU students, faculty and staff. Accommodations will be made for those in need of accessing our government depository collections.

Room Reservations

The University Libraries is oriented toward the students, faculty and staff of Grand Valley State University. Room reservations are limited to GVSU affiliated individuals and require authentication.

Minor Guests

In accordance with section V of the Minors on Campus Policy (SLT 9.8), the Libraries are not considered a venue appropriate for unescorted or unsupervised minors. Authorized representatives may check out items for minors, and in doing so; assumes responsibility for the material.

In accordance with the Minors on Campus Policy section IV, minors who are enrolled in GVSU courses, have all privileges and responsibilities of students using the Libraries.

EXTERNALLY SPONSORED PROJECTS POLICY

SLT 3.11

Date of Last Update:
September 04, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY

This document establishes Grand Valley State University’s (University) official policy governing the administration of proposals, awards, contracts, and agreements for all externally sponsored projects. Externally Sponsored Projects do not include Purchasing Agreements or Philanthropic Gifts.

The purpose of this policy is to help ensure that all proposals and awards for externally sponsored projects conform to federal regulations, including the Office of Management and Budget 2 CFR 200—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (a.k.a., the Uniform Guidance)—and are consistent with GVSU’s academic and business policies and sound fiscal practices.

POLICY STATEMENT

Only an Authorized Organizational Representative of the University may submit proposals to fund and/or otherwise support externally sponsored projects on behalf of the University.

In addition, an Authorized Organizational Representative may accept on behalf of the University any Externally Sponsored Project award resulting from such proposal submissions or other solicitation processes. The University will not normally accept awards received from outside sources without prior proposal approval as provided in this policy.

DEFINITIONS:

Assistance Action: The main purpose of an assistance action is to transfer money, property, services, or anything of value to the recipient in order to accomplish a public purpose of support or stimulation. The agency must have legal authority to award assistance agreements for this purpose. Grants or cooperative agreements are used to award assistance funds.

Authorized Organizational Representative: An Authorized Organizational Representative is the Vice Provost for Research Administration and any University employee(s) to whom the Vice Provost for Research Administration has delegated oversight responsibility for the administration and management of Externally Sponsored Projects at the University. Only an Authorized Organizational Representative has the authority to submit proposals, accept awards, and sign contracts and agreements for Externally Sponsored Projects on behalf of the University.

Externally Sponsored Project: Externally Sponsored Projects include all projects supported by way of grants and cooperative agreements (direct Assistance Actions); incoming or outgoing sub-recipient agreements or subawards (pass-through Assistance Actions); certain incoming or outgoing contracts (i.e., externally sponsored Procurement Actions), including direct contracts, service agreements, and consulting agreements; pass-through subcontracts and service agreements; and certain other agreements, including master
collaboration agreements, material transfer agreements, and data-use agreements—whether funded or unfunded. Externally sponsored projects do not include Purchasing Agreements or Philanthropic Gifts.

Philanthropic Gift: A philanthropic gift is an instrument by which an outside donor voluntarily transfers money, services, or property from a donor to the University. There is no expectation of direct economic benefit or the provision of goods or services to the donor, although donors can place stipulations on gifts that direct the funds to the donors’ areas of interest. The absence of quid pro quo language helps define the charitable nature of this type of giving.

Procurement Action: The main purpose of a procurement action is to acquire property or services by purchase, lease, or barter for the use or direct benefit of the purchaser (whether the purchaser is the university purchasing from an outside entity or an outside entity purchasing services from the university). An agreement or contract is used as the legal instrument to award a Procurement Action.

Purchasing Agreement: An agreement entered into by the University through its Procurement Services Office and an outside vendor or supplier to purchase goods and/or services. Examples of non-sponsored purchasing agreements include software licenses, pricing agreements, equipment maintenance agreements, custodial and facilities services, landscaping services, and office supply-vendor agreements.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.

Office of Sponsored Programs

POLICY

All costs proposed to be charged on externally sponsored projects (as defined at SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY) at Grand Valley State University (the University) must comply with the Federal cost principles prescribed in 2 CFR 200 Subpart E, §200.400; the policies of the sponsoring agency; the specific funding solicitation for which the cost is proposed; and all applicable policies of the University.

Specifically, in order to be deemed an allowable cost on such a project, the cost of any particular item must:

1. Be necessary and reasonable for the performance of the awarded project. That is, the project cannot be performed without the item and a reasonable and prudent person would incur the cost of the item under the circumstances prevailing at the time the decision was made to propose or incur the cost (§200.403-404).

2. Be fully allocable to the particular awarded project or be proportionally allocable to it and another cost objective according to the relative benefit derived (§200.405).

3. Be treated consistently. A cost may not be assigned to a sponsored project as a Direct Cost if any other cost incurred for the same purpose in like circumstances has been allocated to the awarded project as an Indirect Cost. University policies governing the treatment of costs must apply uniformly to both sponsored- and non-sponsored activities. Like expenses must be treated the same in like circumstances (§200.400(e)).

Such costs must also meet one of the following two criteria:

1. Be an item or category of cost that is not expressly disallowed by the federal government (guidance available at §200.420-475, General Provisions for Selected Items of Cost); the sponsor (as documented in sponsor policy statements and in the applicable sponsor funding solicitation); or the University (as defined below under Unallowable Costs and documented in the Business and Finance Procedures and the University-Wide Policies); OR

2. Be an otherwise unallowable cost that is expressly allowed by the sponsor, whether as stipulated in an award or proposal-solicitation document or as documented in a prior written approval request duly executed by an Authorized Organizational Representative of the University. If an expense does not meet the above criteria, it must not be charged to an externally sponsored project at the University.

DEFINITIONS:

Direct Costs are expenses that are specifically associated with a particular externally sponsored project that can be directly assigned to such activities with a high degree of accuracy.

Indirect Costs (also referred to as Facilities & Administration [F&A] or overhead costs) are expenses that cannot be identified specifically with a particular project or activity. Indirect costs benefit multiple activities and programming objectives. In order to capture the amount of indirect costs that should be allocated to a grant, the University has calculated an indirect cost rate, approved by the federal government.

The indirect costs included in this rate are made up of two broad categories: Facilities and Administration.

Facilities costs include:

- Custodial and Maintenance
- Utilities
- Grounds Services
- Parking Operations, less parking fines and fees
- Property and Liability Insurance
- Facility Planning and Management
- Engineering Planning and Management
- Depreciation

Administration costs include all the expenses incurred in providing the following university services:

- Central Administration
- Business & Finance, including financial audit
- Human Resources
Federal Cost Principles are the Federal regulations that govern expenditures on federal awards and which also apply to non-federal awards to GVSU because of the University’s required federal compliance under 2 CFR 200 Subpart F: Audit Reporting.

Prior Written Approval is a formal permission the University must document before it proposes or incurs a special or unusual cost that may be deemed unallowable under the federal cost principles under normal circumstances.

Requests for prior written approval must be rationalized in writing as allowable under an “unlike circumstances” justification by the University personnel who wish to propose the special or unusual costs. The requests are then reviewed, approved, and (assuming approval is granted) formally submitted to the sponsoring agency by the Authorized Organizational Representative of the University (as defined in SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY).

In accordance with the Uniform Guidance at 2 CFR 200, prior written approval from the sponsor is explicitly required (either in the awarded proposal budget, during award negotiation, or prior to incurrence of costs in the event that the expense is to be proposed post-award) for a number of items, including the following:

1. Administrative expenses (§200.413(c))
2. Change of scope (§200.308 (c)(1))
3. Cost sharing or matching (§200.308 (c)(7))
4. Entertainment costs (§200.438)
5. Equipment and other capital expenditures (§200.313, 439)
7. Fines, penalties, damages and other settlements (§200.441)
8. Fixed amount subawards (§200.332)
9. Fund raising and investment management expenses (§200.442)
10. Memberships in any civic or community organization (§200.457 (c))
11. Organization costs (§200.455)
12. Participant support costs, any transfer of budget (§200.308 (c)(5))and (§200.456)
13. Rearrangement and reconversion expenses (Renovations) (§200.462)
14. Selling and marketing costs (§200.467)
15. Subawards, any changes or transfers (§200.308) (c)(6)
16. Supplemental compensation for incidental activities (§200.430 (h) (iii))
17. Use of program income (§200.307)

Unallowable Costs are costs that could be considered appropriate and reasonable, but which are not eligible for reimbursement by the federal government and therefore to ensure consistent treatment under the federal cost principles, are not allowable on any sponsored program. Exceptions are possible with a strong justification for unlike circumstances and with prior written approval (as defined above) from the Authorized Organizational Representative of the University and the sponsor.

Unallowable costs include:

1. Advertising and public relations
2. Advisory councils
3. Alcoholic beverages
4. Alumni/ae activities
5. Bad debt expense
6. Collections of improper payments
7. Commencement and convocation costs
8. Contributions and donations
9. Entertainment costs
10. Fines, penalties, damages and other settlements
11. Fund raising and investment management costs
12. Lobbying
13. Intra-Institution of Higher Education (IHE) Consulting
14. Losses on other awards or contracts
15. Club, social, dining club or lobbying organization memberships
16. Proposal costs
17. Meals and travel associated with lobbying, fund raising, alumni activities
18. Student activities
19. Passports and immigration visas

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.
POLICY

Grand Valley State University (the University) shall minimize cost sharing on all externally sponsored projects (as defined at SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY). The University will allow cost sharing on such projects under the following conditions:

1. When it is required by the sponsoring agency (Mandatory Cost Sharing) as documented in a proposal solicitation, program description, sponsor policy, Catalog of Federal Domestic Assistance record, broad agency announcement or other official sponsor document.
2. When a reasonable justification is made that provision of Voluntary Cost-Sharing (whether Committed or Uncommitted) will improve the competitiveness of a proposal.

Further, in cases under which the University will allow cost sharing:

1. The proposed cost sharing must be thoroughly and accurately quantified;
2. The proposed cost sharing must represent an allowable cost (as defined in SLT 3.11.1 ALLOWABLE COST POLICY);
3. The proposed cost sharing must be limited to what is required by the sponsor (Mandatory Cost Sharing) or to what is deemed reasonable by the Appointing Officer (as defined in BOT 4.1.1: GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF – PERSONNEL ADMINISTRATION) who has authority over the resources proposed to be committed (Voluntary Cost Sharing);
4. The approval to subsidize all proposed cost sharing must be documented by the Appointing Officer who has authority over the resources proposed to be committed;
5. The quantification and approval of cost-sharing subsidies must be documented and approved by the Authorized Organizational Representative of the University (as defined at SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY) using the standard systems and processes of the Office of Sponsored Programs; AND
6. All approved cost sharing included in an awarded externally sponsored project must be monitored, tracked, and reported by the Grants Accounting office in accordance with all applicable federal and sponsor requirements.

DEFINITIONS:

Cost Sharing: Cost sharing is that portion of an externally sponsored project cost that is not reimbursed by the sponsor (whether federal or non-federal) and therefore represents a commitment of institutional resources that would generally otherwise be devoted to other University purposes.

There are three forms of cost sharing:

1. Mandatory Cost Sharing, which is required by the sponsor as an award condition and becomes an obligation once an award is made;
2. Voluntary Committed Cost Sharing, which is voluntarily offered and documented in a proposal submission and therefore becomes an obligation once an award is made; and
3. Voluntary Uncommitted Cost Sharing, in which voluntary cost sharing is intended, but not explicitly committed (documented) in a proposal, and therefore not a binding commitment that must be tracked and reported.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.

SUPPLEMENTAL COMPENSATION ON EXTERNALLY SPONSORED PROJECTS POLICY

SLT 3.11.3

Date of Last Update:
September 04, 2019

Approved By:
- Senior Leadership Team

Responsible Office:
Office of Sponsored Programs

POLICY

Grand Valley State University (the University) normally does not allow for compensation charges in excess of an individual’s Institutional Base Salary on any Externally Sponsored Project (as defined in SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY). In most cases, funding from such projects must supplant, not supplement Institutional Base Salary during the Base-funded Appointment Period.

In the absence of unusual circumstances and specific Prior Written Approval (as defined in SLT 3.11: ALLOWABLE COSTS POLICY) from the appropriate University and/or sponsor officials as described in this policy, faculty member compensation for sponsored-project work at the University must offset Institutional Base Salary through:

1. The use of Significant Focus Time (as defined in SG 3.01: FACULTY RESPONSIBILITIES);
2. The application of Reassigned Time (as defined in SG 3.03: REASSIGNED TIME); or
3. Some combination of Significant Focus Time and Reassigned Time.

Absent Prior Written Approval for Supplemental Compensation following procedures stated below, Administrative/Professional staff members must also offset Institutional Base Salary to participate in externally sponsored projects (supplant, not supplement). Such offsets shall require a reorganization of established job duties in the staff member’s organizational unit that is approved by the staff member’s Appointing Officer and Executive Officer.

In order to charge Supplemental Compensation to federally funded Externally Sponsored Project accounts at the University, the work performed must be justifiable as Intra-Institution of Higher Education Consulting as defined at 2 CFR 200.430—COMPENSATION, PERSONNEL SERVICES, which limits such charges according to their adherence to specific criteria. Such consulting must be:

1. Across departmental lines or involve a separate or remote location that is at least 30 miles away from the employee’s University campus office;
2. Outside the scope of the employee’s regular appointment as documented in the employee’s appointment letter;
3. Short term in nature; and
4. Provided for in the sponsored agreement, or approved in writing by the sponsoring agency prior to the incurrence of applicable expenses.

In order to charge Supplemental Compensation to a non-federal Externally Sponsored Project account, the allocation is subject to the prior written approval of the Vice Provost for Research Administration as well as the sponsoring agency.

DEFINITIONS:

**Base Appointment Period** at the University generally falls into one of two categories:
1. An Academic Year Appointment is comprised of the nine-month span from August 6 of a given calendar year to May 5 of the following calendar year.
2. A 12-month Appointment is comprised of the twelve-month span from August 6 of a given calendar year to August 5 of the following calendar year.

**Institutional Base Salary** is the annual salary the University pays for an employee’s appointment, regardless of appointment category and whether the employee’s time is spent on research, teaching, administration, patient care, or other University responsibilities. Institutional Base Salary does not include bonuses, one-time payments, incentive pay, or income that an employee is permitted to earn outside of their University responsibilities such as Private Consulting.

**Private Consulting** refers to works for hire performed by a University employee outside of their University responsibilities. To be deemed private consulting, work must be performed without the use of any University resources, including administrative services of any kind, facilities (classroom, clinical, meeting, or office space), supplies, equipment, computing resources, and any other service or resource owned by the University. Any outside employment must be approved in advance by the Appointing Officer (BOT 4.1.10).

**Supplemental Compensation** also known as extra salary or extra service pay, is compensation a University employee receives in excess of Institutional Base Salary; Supplemental Compensation represents payments for services outside the normal scope of employment.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.

---

**FACILITIES AND ADMINISTRATIVE COST POLICY**

**SLT 3.11.4**

**Date of Last Update:**
July 13, 2016

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Center for Scholarly and Creative Excellence

**POLICY STATEMENT**

Grand Valley State University’s Facilities and Administrative (F&A) rate (also known as the indirect-cost rate) is established in accordance with the Federal Office of Management and Budget under 2 CFR 200 Uniform Guidance (previously A-21). The rate is negotiated between the University and the U.S. Department of Health and Human Services, the cognizant federal agency that oversees the administration of sponsored agreements at the University. The University’s F&A rate reflects the cost of real, auditable expenses incurred in the conduct of sponsored research and programs. Included among these costs are depreciation costs of buildings and equipment, maintenance and repairs, janitorial services, utilities, hazardous waste disposal, libraries, and general administrative costs such as sponsored programs administration, departmental administration, and general administration (accounting, purchasing, legal services, personnel, and compliance). These costs are “indirect” because they are not easily identified with a specific project and therefore are not included in the “direct” portion of the budget. Such indirect costs support the conduct of research and other sponsored programs, regardless of the source of funding, and therefore must be applied to all sponsored projects. For reasons of sound management and equitable stewardship of resources used in support of all sponsored activities, it is expected that all sponsored projects recover full F&A costs.

**PROCEDURES**

**Facilities & Administrative (F&A) Cost Recovery Policy:**

It is the University’s policy that all proposals and agreements for sponsored research, including subawards and industry contracts, are subject to the recovery of facilities and administrative costs (F&A) at the University’s approved and published rate. In some cases, the sponsor has a written policy, uniformly applied, prohibiting F&A costs or restricting the payment of such costs to a lower rate. An exception to the University’s F&A cost recovery policy may be warranted if it is clearly in the best interest of the University to accept the award with less than full F&A cost recovery. Any reduction (defined as a waiver of F&A) is strongly discouraged and requires prior approval from the Vice Provost for Research Administration. This exception does not apply to for-profit (industry) sponsors, as such sponsors are expected to provide full F&A when funding a sponsored project. Designation of a sponsored award as a gift will not preclude the recovery of indirect costs if such costs are allowed by the donor.

**Facilities & Administrative (F&A) Cost Return and Use Policy:**

Each year, the University returns a portion of the recovered F&A costs as appropriate to those generating the grants and contracts. This return of F&A costs generally occurs at the end of each fiscal year and is based upon the F&A costs recovered on sponsored projects during the preceding fiscal year (July 1 - June 30). For sponsored awards originating within academic units with a tenure stream Faculty Principal Investigator, recovered funds are distributed as follows.

- Faculty Principal Investigator – 12.5%*
- Faculty Home Department – 7.5%
- Appointing Officer of unit generating the recovered funds – 20%
- Provost – 20%
- General Fund (Facilities Infrastructure) – 40%

For all other proposals, recovered funds are distributed as follows.
Appointing Officer of unit generating the recovered funds – 40%
Provoost – 20%
General Fund (Facilities Infrastructure) – 40%

It is anticipated that, when appropriate, recovered funds will be used strategically for research initiatives, faculty start-ups, bridge funding and required cost share, and to provide the necessary administrative support for research projects. Indirect cost recovery funds cannot be used to increase the principal investigator’s annual compensation.

Charter Schools are not considered a sponsored program and therefore not affected by this policy.

*Note: if the recovered funds allocated to the Faculty PI are less than $500, funds will be deposited into departmental FOAPs rather than individual Faculty PI FOAPs

GENERAL RESPONSIBILITIES OF PRINCIPAL INVESTIGATORS/PROJECT DIRECTORS POLICY

SLT 3.11.5

Date of Last Update:
April 03, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT

The Principal Investigator/Project Director is responsible for a variety of general responsibilities, which are outlined in the following section.

PROCEDURES

Responsibilities

The following General Responsibilities form shall be provided by OSP to each Principal Investigator at the time of award. The Principal Investigator is responsible for signing and returning the original to OSP within five business days of its receipt. The original shall be retained in the award OSP record file in accordance with record retention guidelines. The Principal Investigator/Project Manager is responsible for:

- Compliance with the award terms and conditions. Notifying OSP of potential scope, budget or schedule shifts, and requesting/obtaining Authorizing Official review and approval of such, if required.
- Obtaining signatures on the (Request to Add a New Fund (RANF) form, and submitting the RANF to the Office of Business & Finance. A copy of the original proposal, notice of award, budget, and other official documents must be attached to the RANF form. The RANF will not be processed without these attachments.
- Ensuring that the Salary Request is prepared and signed by the Unit Head/Dean and other appropriate individuals. Salary Request letters accompany the signed RANF form.
- Management of the grant, contract/subcontract, or cooperative agreement and conducting the project to meet project goals and objectives while adhering to agency guidelines and GVSU policies and procedures.
- Ensuring that all individuals involved in the administrative and financial aspects of the award receive BANNER training.
- The Office of Grants Accounting will assist with the invoicing and accounting process. The PI is also responsible for ensuring that all grant expenditures are reviewed on a monthly basis (at a minimum) and ensuring that those expenses incurred are approved in the BANNER system.
- Ensuring that for those items acquired or purchased under the terms of the award and with grant funds that sponsor requirements and GVSU Purchasing Procedures are followed.
- Ensuring that all project expenditures are directly related to the project and necessary to meet project goals and objectives. Knowing the cost sharing requirements that were committed in the budget approved by the agency and GVSU and insuring that these obligations are met.
- Completing a Conflict of Interest Financial Disclosure form, and having no conflict of interest that could affect the conduct of the project. Any such possible conflict of interest must be reported to OSP as soon as it is apparent.
- Ensuring that the PI as well as all undergraduate, graduate, or post-doctoral students receive Responsible Conduct of Research training, if required by the sponsor. PIs and students are required to sign a Completion of Training form confirming the date, receipt, and satisfactory completion of this training. The form must be returned to OSP for the record file.
- Ensuring that GVSU policies and federal regulations governing the protection of human research subjects are followed. Ensuring the adherence to federal governing regulations and GVSU Animal Care and Use Policy for the use of animals in research.
- Ensuring compliance with the GVSU policy on Political Activity, as well as ensuring compliance with the terms and conditions of an award governing such activity.
- Submitting required reports and/or documentation in a timely manner.
- Certifying that s/he, and any subcontractor or sub-recipient on this project, is not debarred, suspended or proposed for debarment by any federal entity. The PI agrees to notify the University (both OSP and Purchasing Dept.) of any change in this status, should one occur, until such time as an award is made under a procurement action. See www.sam.gov.

SERVICE AND CONSULTING AGREEMENTS POLICY

SLT 3.11.6

Date of Last Update:
October 15, 2018

Approved By:
POLICY STATEMENT

This document establishes Grand Valley State University’s (University) official policy governing the approval and management of service or consulting agreements that employees through the University, meaning cases in which the University would be the contracting party. These are agreements under which Principal Investigator (PI)-Eligible faculty and/or Administrative/Professional (A/P) staff members are obligated to provide specified services or “deliverables” and that do not fall squarely within the traditional framework of research or teaching activities. While these agreements may have research, scholarly, or other benefits to the University, those benefits are a secondary aspect, not the primary purpose of the activity. The terms “service agreement” or “consulting agreement” are intended to be descriptive; such agreements could have other labels or titles.

In some cases, employees who may consider providing services independently of the University as consultants will do this for their own account, on their own time, and using their own resources and subject to applicable University policies. However, review and approval of all proposed service and consulting agreements under this policy is required to ensure compliance with employment, tax, and intellectual-property law; regulatory requirements governing research and the use of certain kinds of data; and institutional policies regarding student engagement in externally funded activity and the appropriate use of University resources.

The University should be the contracting party only when justified by compelling reasons that meet the General Criteria of this policy. There are occasions, however, when a PI-Eligible faculty or AP staff member wants to provide a service through the university. For example, the activity may have a strong academic and/or university programmatic component and the faculty or A/P staff member may want to be able to use university facilities, resources, staff, or students to carry out the proposed contractual activity. In those circumstances, this policy allows for the University to act as the contracting party, but only if the activity in question meets the General Criteria of this policy.

By way of illustration, but without limitation, services that PI-Eligible faculty and A/P staff members may seek to provide through this policy may include:

- Performing an evaluation or assessment of an external program, such as an educational program or public-health initiative;
- Establishing rating criteria, such as standards for measuring health or safety outcomes;
- Providing technical assistance to a foreign government in areas such as social, health or economic services;
- Delivering professional-development services;
- Partnering with industry to engage students in technical projects the delivery of which will contribute to the educational goals of the students involved; and/or
- Assisting a city government in its urban planning.

PROCEDURES

This policy designates authority to the Vice Provost for Research Administration or their designee to establish such operational procedures as deemed necessary to implement the policy, and ensure operational efficiency, proper oversight of compliance and financial management, and ensure the success of externally sponsored projects at the University.

DEFINITIONS:

Authorized Organizational Representative (AOR): The official to whom the Provost delegates authority to submit proposals to fund and/or otherwise support externally sponsored projects on behalf of the University and to accept on behalf of the University any awards, contracts, or agreements resulting from such proposal submissions or other solicitation processes.

PI-Eligible: University faculty and AP staff members who are documented as eligible to serve as a Principal Investigator as defined in the University’s Principal Investigator Eligibility Policy.

Benefits and Risks

Often, participating in service agreements involves high-profile and challenging projects that may benefit members of the university community by, for example:

- Adding significantly to faculty, staff, and student expertise;
- Demonstrable connections to curricular and co-curricular development, new teaching cases, program development in executive education, and professional development;
- Engaging faculty in domestic and international matters that are highly relevant to their teaching and scholarship, or employees in their administrative responsibilities; and/or
- Initiating or reinforcing strong institutional relationships that can serve long-term University interests.

Though there may be much to recommend the pursuit of these opportunities, especially where there is substantial potential to advance scholarship, education, and service, these arrangements may also pose risks that need to be managed. Service and Consulting Agreements are more complicated for the University to manage than routine sponsored-project agreements because of the expectations of the external entities, who perceive themselves as clients or customers rather than sponsors.

The following potential risk factors will be considered in the evaluation of Service and Consulting Agreements:

- The University, as the contracting party in these agreements, bears the risk of liability or reputational harm for non-performance or poor performance of agreed-upon tasks and for unsatisfactory contract “deliverables.” Potential risks reach beyond the payments to the University and could include monetary damages from the downstream effects of contested performance.
- Unlike in sponsored-project arrangements (i.e., assistance awards, such as grants or cooperative agreements), in which the sponsor may be presumed to be committed to the principles of objective science or the enhancement of the public welfare, “clients” or “customers” in service arrangements may be more focused on obtaining specific results and will likely be more involved in directing performance of the services. Institutional integrity and impartiality may be called into question if expectations are not properly managed at the outset.
- The use of the University’s students and staff to assist in these projects also raises unique policy issues. The University has a duty to students in particular. They should not be made to work on projects unless the work advances their educational goals. The interests of employees, students, and the institution must be safeguarded in the negotiation of such arrangements to assure them that they may generate and publish works of scholarship, receive proper credit for their work, obtain appropriate intellectual property or other proprietary rights in the work product, and avoid confidentiality or other obligations that may compromise transparency and injure reputations.
- Special attention must be paid to assure that these arrangements comply with the university’s obligations as a tax-exempt organization (e.g., IRS regulations regarding Unrelated Business Income).
**General Criteria**

The proposed Service and Consulting Agreement must:

1. Advance the core mission of the academic or non-academic organizational units that will carry it out;
2. Provide a significant institutional and/or public benefit; and,
3. If students are to participate in the activity, provide both a learning experience that advances student educational goals and that students will be free to use and disclose details of the experience in their academic and career pursuits, unless a Non-disclosure Agreement has been approved by the Office of the Vice Provost for Research Administration.

The determination as to whether a proposed Service and Consulting Agreement meets these criteria shall be the responsibility of the employee’s Appointing Officer. Such determinations shall be documented using University procedures for sponsored activity.

In addition, the proposed Service and Consulting Agreement must:

1. Present manageable and limited risks;
2. Be accurately budgeted to generate sufficient revenue to pay for full performance that includes both the direct charges associated with the activity and the university’s full federal negotiated facilities & administrative cost rate;
3. Be properly accounted for from a tax perspective;
4. Be reviewed and processed by the Technology Commercialization Office and the Office of Sponsored Programs (which may include the execution of a non-disclosure agreement to protect the intellectual property of the parties to the agreement; and
5. Receive approval from the employee’s Appointing Officer.
6. Be approved and submitted by the Vice Provost of Research Administration and/or designee.

And finally, once the Service and Consulting Agreement is fully executed, and throughout the performance of the contractual scope of work, the PI and responsible organizational unit must ensure that the activity complies with:

1. The contracted scope of work, timeline, and all agreed deliverables;
2. All applicable federal and state laws and regulations (e.g., export controls, use of human or animal subjects, intellectual property rights, disclosure and mitigation of financial and other conflicts of interest); and
3. All relevant University policies, such as invoicing for payment via the central accounting office of the University, and the use of the University’s name, facilities, equipment, supplies, and other resources.

---

**PRINCIPAL INVESTIGATOR ELIGIBILITY POLICY**

SLT 3.11.7

**Date of Last Update:**
October 15, 2018

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Center for Scholarly and Creative Excellence

**POLICY**

This policy establishes the eligibility requirements for and the duties and responsibilities of all Principal Investigators (PI) at Grand Valley State University (University). The policy also provides for the establishment of formal processes to request and approve exceptions to the PI eligibility requirements.

**POLICY STATEMENT**

For each externally sponsored project, it is customary to designate as PI one person who bears ultimate responsibility for scientific, technical, and programmatic decisions, and all financial, administrative, and compliance matters relating to the project. It is the policy of Grand Valley State University that only eligible University faculty, staff, and trainees and appointees (when appropriate) may serve as the PI on externally sponsored projects to be carried out on behalf of the University.

Serving as the nominal project leader to lend credibility to a proposal while delegating PI responsibility to another person (i.e. “fronting” as the PI) is never permissible and is considered a violation of this policy.

PI eligibility is conferred in one of two ways: (1) automatically, by position, and (2) via special request, both subject to training as required by this policy.

1. Automatic Eligibility: PI eligibility is automatically conferred upon tenured and tenure track faculty at the rank of Professor, Associate Professor, or Assistant Professor.

Special-Request Eligibility: If PI eligibility is not conferred automatically, it may be conferred by Special Request of the employee’s authorizing official (dean, provost, vice president) or their designee(s). Certain non-academic units (e.g., the University Art Gallery, Small Business Development Center, Johnson Center for Philanthropy, Van Andel Global Trade Center) may request long-term PI status for the director, associate director, and other Administrative/Professionals (regular, full-time employees), as they deem appropriate. These personnel are all subject to standard Compliance and Training requirements for PI Eligibility.

1. Fellowships and Training Opportunities

Trainees (typically graduate students and post-doctoral fellows) may be eligible to be PIs on fellowship and training programs when that designation is required by the funding agency as documented in a funding opportunity announcement and a PI-eligible faculty or staff member is identified and documented as their sponsor/mentor. In this circumstance, a trainee’s PI eligibility is conferred and verified by the applicable Department/Unit Head’s approval during the internal proposal-routing process. It is not necessary to document approval of trainee PI eligibility via Special Request.

Trainee PI status is consistent with the treatment of all Special Requests for PI eligibility, in that it is conferred on a case-by-case basis; it does not confer blanket PI eligibility status for any other externally sponsored projects.

**Compliance and Training Requirements**

However it is conferred, PI Eligibility Status is contingent upon the documented completion of all required compliance and sponsored-projects training.
requirements, certification, and documentation are determined and administered collaboratively by the Vice Provost for Research Administration, the Office of Sponsored Programs, the Office of Research Compliance & Integrity, and the Controller.

PROCEDURES

This policy designates authority to the Vice Provost for Research and the Director of Sponsored Programs to establish such operational procedures as they deem necessary to implement this policy, and ensure operational efficiency, proper oversight of compliance and administration, and the success of externally sponsored projects at the University.

It is the responsibility of the Office of Sponsored Programs to review all proposals to fund externally sponsored projects to determine and document PI eligibility prior to proposal submission. Proposals put forward by individuals without documented PI eligibility will generally not be approved for submission. Awards resulting from proposals submitted by ineligible PIs who either knowingly or unwittingly circumvent the standard approval process will generally not be accepted by the University.

Responsibilities of All Principal Investigators

Although the University is legally responsible to the sponsor as the actual recipient of any externally sponsored award, the Principal Investigator (PI) is accountable for the proper fiscal management and conduct of the project. This includes managing the project within funding limitations and all of the terms of the award, assuring that the sponsor is notified when significant conditions related to project status change, and ensuring that all programmatic reporting requirements are met in a timely fashion. To assist PIs, the University provides supporting administrative services and has established procedures to help meet both sponsor and University requirements. While responsibility for the day-to-day management of project finances may be delegated to administrative or other staff, accountability for compliance with federal requirements, University policies, and sponsor requirements ultimately rests with the PI. The full cooperation and vigilance of the PI, along with the University, is necessary to maintain the stewardship role.

1. Preparation of Proposals

Principal Investigators have primary responsibility for planning and carrying out the preparation and submission of proposals for external support. Although PIs may have administrative staff to assist with the proposal-development process, they are ultimately responsible for the quality and scientific integrity of the proposal, and for understanding and complying with all University policies for managing external support.

a. Technical Proposal

The Principal Investigator is responsible for preparing the technical proposal.

b. Proposal Budget

The Principal Investigator prepares, or directly supervises the preparation of, all aspects of the proposed budget and budget justification. This responsibility includes coordination with Procurement Services and compliance with all procurement policies and procedures. It also includes identifying any requests and sufficient resources for cost sharing (including matching funds); the need for space or space modifications (including any accommodations for large and/or unusual equipment); and the need for outside collaborators (sub-recipients, contractors, consultants). The PI ensures all costs are allowable, allocable, and reasonable for the project in accordance with the federal cost principals set out in OMB 2 CFR 200, and that all proposals include full recovery of all anticipated project costs. Full recovery includes recovery of indirect costs at GVSU’s negotiated federal rate or (in the case of non-federal sponsors or federal training grants) the maximum rate allowed under published sponsor policy.

c. Regulatory Requirements

The PI is responsible for anticipating whether the research will involve human subjects, live animals as subjects, recombinant DNA, infectious agents, narcotics or biological toxins, human blood or body fluids, radioactive materials, hazardous materials, export controls, conflicts of interest, or other regulated activities requiring University review or clearance. The PI is responsible for preparing information and forms required for review by the University’s Office of Research Compliance & Integrity.

d. Project Approvals

The Principal Investigator prepares, or directly supervises the preparation of, and electronically signs internal proposal-approval forms, and requests required approvals in a timely fashion.

2. Acceptance of the Award

The PI is responsible for collaborating with the Office of Sponsored Programs in any negotiations with the sponsor relating to modifications of the project scope or budget or proposed terms and conditions of the award.

The Principal Investigator is responsible for reviewing and approving the award agreement, in conjunction with OSP, including the scope of work, budget, and the special terms and conditions of the award, and for managing the award in accordance therewith.

3. Conduct and Management of Award

The Principal Investigator is responsible for all actions required to manage and complete the scientific, programmatic, and financial aspects of the externally sponsored project in accordance with all of its terms and conditions, including the performance of all sub-recipients. The Principal Investigator is also responsible for the management of the award budget and expenditures in accordance with federal, GVSU, and sponsor requirements. This responsibility includes attesting to the allowability, allocability, and reasonableness of all expenditures. Principal investigators are responsible for routine monitoring of the status of grant accounts to prevent overdrafts and incorrect charges and to ensure that unallowable costs are not charged to an award.

The Principal Investigator is responsible for the timely submission of all required programmatic reports, interim and final. The information contained in such reports must be supported by adequate documentation. The Principal Investigator will provide copies of all required programmatic and progress reports to the OSP and the Grants Accounting office.

DEFINITIONS:

**Externally Sponsored Project:** All grants and cooperative agreements (direct assistance actions); all incoming or outgoing sub-recipient agreements or subawards (pass-through assistance actions); certain incoming or outgoing contracts (i.e., externally sponsored procurement actions), including direct contracts, service agreements, and consulting agreements; pass-through subcontracts and service agreements; and certain other agreements, including master collaboration agreements, material transfer agreements, and data-use agreements—whether funded or unfunded. Externally sponsored projects do not include purchasing agreements or philanthropic gifts.

**Principal Investigator (PI):** An individual with a formal affiliation with the University, normally an employee, who is or becomes eligible under this policy to submit a proposal for extramural support for a research, training, public-service, or other externally sponsored project, who personally participates in the project to a significant degree, and who has primary responsibility for the scientific, technical, programmatic, and administrative conduct and reporting of the project, including compliance and financial matters. A Principal Investigator who is the head of a training or other sponsored project may be known as a Project Director. For the purposes of this policy, the terms shall be considered equivalent.
The University only recognizes one individual as the Principal Investigator and this individual must personally participate in the project to a significant degree.

Co-Investigator (Co-I): An investigator who will share responsibility for the scientific, technical, and/or administrative conduct and reporting of a research or sponsored project with the Principal Investigator. Each individual named as a Co-Principal Investigator at the University must meet the same eligibility requirements as a PI as noted above. There may be more than one Co-Principal Investigator, but one person is designated as the leader (PI) of the project. While the University allows this approach, not all sponsors allow Co-PI models. In certain cases, a sponsor (e.g., the National Institutes of Health—NIH) may allow a Multiple Principal Investigator model to be employed in a research or sponsored project. Such models feature multiple PIs who are expected to equally share responsibility for leadership of multidisciplinary and other types of “team science” projects that are not optimally served by the single Principal Investigator model. Such models typically require a single “Contact PI” and special justification in the form of a Multi-PI Plan that documents processes for project governance and resolution of conflicts.

TEXTBOOKS AND COURSE MATERIALS POLICY

SLT 3.12
Date of Last Update: October 10, 2016
Approved By:
   • Senior Leadership Team

Responsible Office:
Provost Office

POLICY STATEMENT

Textbooks and related course materials continue to be essential to the delivery of knowledge. For various reasons, the cost of those materials has continued to rise. The goal of the University is to provide the best quality educational resources at the lowest possible cost to the students by minimizing the cost of textbooks and course materials used at the university while maintaining quality of education and academic freedom.

PROCEDURES

The Provost’s Office is responsible for overseeing the faculty role in textbook selection. It discharges that responsibility by working closely with the Deans of the colleges. Business and Finance is responsible for overseeing the practices of the GVSU Laker Store.

Responsibilities of the Faculty:

   • Faculty members shall submit lists of required textbooks, recommended textbooks and supplemental course materials to the GVSU Laker Store by the specified deadlines.

   • Faculty are expected to compare various textbook options and to make the selection by taking into account pedagogical value, price, and availability. If all other considerations are about the same, the less expensive option should be selected. When there are multiple sections of a course taught by different instructors, it is preferable (but not required) that departments order the same textbook for all sections, in order to benefit students who may be adjusting their schedule during drop/add week and to support inventory management for the GVSU Laker Store.

   • When faculty wish to require the purchase of any published textbooks or materials for which they have or will receive royalties or revenue, this decision shall be reviewed by the Unit Head, who shall determine whether the selection is appropriate, taking into account the criteria above. The purpose of the review is to disclose and to manage any actual or potential conflict of interest. The Unit Head may authorize that the review be conducted by a designee if certain disciplinary expertise is needed or if the Unit Head cannot provide a neutral review. If the Unit Head cannot identify a designee, then the review shall be conducted by the Dean or designee.

Responsibilities of the GVSU Laker Store:

   • The GVSU Laker Store will continue to reduce textbook prices whenever possible.

   • The GVSU Laker Store will buy back used textbooks, and the following semester make the used copies available at reduced price and display them next to the new ones.

   • When filling departmental textbook orders, the GVSU Laker Store shall acquire as many used as still up to date copies as possible, make them available at reduced price, and place them next to the new ones.

   • The GVSU Laker Store will display the required texts and materials with the course instructors’ names and course section numbers. This will help students make informed decisions when finalizing course schedules.

TRAINING OF PERSONNEL INVOLVED IN ANIMAL RESEARCH

SLT 3.13
Date of Last Update: July 31, 2008
Approved By:
   • Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT

In conduction of research, all people working with laboratory animals must be qualified to do so in order to ensure the humane treatment of animals. As such, Grand Valley complies
PROCEDURES

The Animal Welfare Act (AWA) Sec. 2.32 (a), (b), and (c) specify:

(a) It shall be the responsibility of the research facility to ensure that all scientists, research technicians, animal technicians, and other personnel involved in animal care, treatment, and use are qualified to perform their duties. This responsibility shall be fulfilled in part through the provision of training and instruction to those personnel.

(b) Training and instruction shall be made available, and the qualifications of personnel reviewed, with sufficient frequency to fulfill the research facility’s responsibilities under this section and §2.31.

(c) Training and instruction of personnel must include guidance in at least the following areas:

1. Humane methods of animal maintenance and experimentation, including:
   (i) The basic needs of each species of animal;
   (ii) Proper handling and care for the various species of animals used by the facility;
   (iii) Proper pre-procedural and post-procedural care of animals; and (iv) Aseptic surgical methods and procedures;

2. The concept, availability, and use of research or testing methods that limit the use of animals or minimize animal distress;

3. Proper use of anesthetics, analgesics, and tranquilizers for any species of animals used by the facility;

4. Methods whereby deficiencies in animal care and treatment are reported, including deficiencies in animal care and treatment reported by any employee of the facility. No facility employee, Committee member, or laboratory personnel shall be discriminated against or be subject to any reprisal for reporting violations of any regulation or standards under the Act;

5. Utilization of services (e.g., National Agricultural Library, National Library of Medicine) available to provide information:
   (i) On appropriate methods of animal care and use;
   (ii) On alternatives to the use of live animals in research;
   (iii) The could prevent unintended and unnecessary duplication of research involving animals; and
   (iv) Regarding the intent and requirements of the Act.

The PHS Policy, Section IV.C.1.f. places the responsibility specifically with the IACUC to ensure that personnel conducting procedures on research animals are appropriately qualified and trained in those procedures. The Institutional Animal Care and Use Committee may require additional training for each individual, depending on their prior training and experience with animals.

UNITED STATES GOVERNMENT DOCUMENTS INTERNET USE

SLT 3.14

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
University Libraries

POLICY STATEMENT

Grand Valley State University Libraries will provide the public with free and unrestricted access to online government information provided through the Federal Depository Library Program in accordance with section 1911 of Title 44, United States Code.

PROCEDURES

The public is able to access these materials on the Government Documents personal computers in Mary Idema Pew Library Learning & Information Commons and Steelcase libraries. Patrons are not required to provide any form of identification to use these computers, although they will need to see a librarian or staff person at the reference desk to login. Patrons using these computers are expected to adhere to the university’s policies regarding the use of electronic resources.

SPACE ASSIGNMENT POLICY

SLT 3.15

Date of Last Update:
July 16, 2012

Approved By:
Senior Leadership Team

Responsible Office:
POLICY STATEMENT

Space is an institutional resource of Grand Valley State University. As such, it does not belong to an individual, a program, a unit or a college and may be reassigned in the best interests of the University. The goal of the University’s allocation and reallocation of space is to achieve the highest and best use of University resources.

The Provost’s Office is responsible for assigning and overseeing space used for academic purposes, including classrooms, laboratories, academic secretarial spaces, and faculty offices. It discharges that responsibility by working closely with the Facilities Planning Office to maintain and remodel existing space; to allocate and reallocate that space; to help plan, schedule, and coordinate moves; to plan new space; and to explain allocation and reallocation decisions.

The Facilities Planning Office is responsible for overseeing all non-academic space, including outdoor space. It discharges that responsibility by working closely with the Provost’s Office to maintain and remodel existing space; to allocate and reallocate that space; to help plan, schedule, and coordinate moves; to plan new space; and to explain allocation and reallocation decisions.

At least annually, Facilities Planning will conduct a physical review of space to investigate identified issues or potential space issues that need attention.

Periodically, the Provost’s Office and the Facilities Planning Office will meet with appropriate representatives of the University’s organizational units to discuss upcoming moves and longer term plans for expansion and/or contraction.

This policy is applicable to all departments, offices, University employees and other members of the University community occupying space owned or leased by the University.

ADOPTION LEAVE POLICY

SLT 4.1

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
Human Resources

POLICY STATEMENT

The University recognizes the need for family and medical related leave. The following policy complies with The Family and Medical Leave Act (FMLA) and provides guidelines for procedures regarding unpaid leave. By enacting this policy Grand Valley aims to allow necessary time away from the university for individuals to cope with and adapt to various family and medical related situations as described in this policy.

PROCEDURES

The Family and Medical Leave Act (FMLA) provides eligible faculty and staff up to 12 weeks of unpaid leave a year. A faculty or staff member must work for 12 months, completing 1,250 work hours within those 12 months, to be eligible for FMLA leave. If eligible, leave may be requested for the following reasons:

- Birth of a child
- Adoption of a child
- Placement of a child for foster care
- The faculty or staff member is needed to care for a family member (child, spouse, or parent) with a serious health condition
- The faculty or staff member’s own serious health condition makes him or her unable to perform his or her job

Further provisions of the law are addressed in the FMLA policy. A copy of the FMLA policy is available on the Policy Website.

Grand Valley, along with all other Michigan Public Universities, does not provide for paid adoption or parental leave. However, the University does provide unpaid leave that exceeds the requirements of FMLA. FMLA requires the University to provide up to 12 weeks of unpaid leave while the University’s unpaid leave policy allows for up to 12 months of unpaid leave. Further details of the program are outlined in section 4.2.30.12 of the Board of Trustees Policies. This section is also included in the Faculty Handbook. In order to receive an unpaid leave, the faculty or staff member should submit a written request to the Unit Head. The request should outline the need for the leave and the expected duration. The request should be submitted as soon as possible. When possible, the request should be submitted at least 30 calendar days prior to the date the leave will begin.

Qualifying Expenses

Qualifying adoption expenses will be reimbursed up to a maximum of $3,000 per child. Qualifying expenses are defined as those that are reasonable and necessary adoption fees, court costs, attorney fees, traveling expenses while away from home, and other expenses related to, and whose principal purpose is for, the legal adoption of a child.

Process for Applying for Benefits

Upon formal placement of the adopted child, submit an adoption assistance claim form to Human Resources at 1090 James H. Zumberge Hall along with detailed receipts for eligible expenses. Human Resources will determine eligible expenses, the amount payable for reimbursement and will submit a request to the Payroll Office for payment. The reimbursement will be processed with the next payroll.

Taxation of Benefits

The amount of tax credits and exclusions available to adopting parents vary. Since an employer’s adoption assistance is not subject to income tax withholding, GVSU will not determine the extent to which the payment of reimbursement on behalf of each employee is eligible for the exclusion. However, GVSU will withhold taxes only for Social Security and Medicare.

Adding Dependent to Insurance

At the time of placement, you may add your child to your benefit plans. Any additions or changes must occur within 30 days of the official placement. Contact Human Resources at 331-2215 to add dependents.

EXERCISE RELEASE TIME POLICY
POLICY STATEMENT

Faculty and staff well being is valued at GVSU. Physical activity is a vital component to wellbeing and GVSU strives to increase the ability for faculty and staff to take time to fit physical activity into their day. The exercise release time policy reflects University’s mission by providing opportunities for faculty and staff to maintain optimal health and capacity to educate students. The policy supports university values, specifically sustainability and effective teaching. The concept of sustainability includes modeling a lifestyle of healthy living through active living, which this policy supports.

Supporting physical activity through the exercise release time policy also has the ability to create more positive interactions between faculty, staff and students in and outside of the classroom. The policy provides opportunities for physical activity during the workday encouraging and promoting health risk reduction. It has been shown that physical activity increases attentiveness, reduces stress and biochemical functions such as blood pressure and glucose levels. A healthier faculty and staff population with fewer health risks can increase the number of positive interactions between faculty, staff and students through improved attentiveness, reduced stress and more.

PROCEDURES

Upon supervisor approval, GVSU staff may utilize up to two (2) 30 minute time periods a week to allow time to freshen up from, or in preparation for, a fitness class or individual workout. Pending schedules and workload, up to two additional 30-minute time periods may be permitted. This time can be added to the beginning of the workday, added to the lunch period, or to the days end and is inclusive of travel time if needed (i.e. to the Field house or YMCA for a class). Days and times to utilize this policy may be determined with the help of a written agreement between the supervisor and staff member. The release time may be divided into time prior to or after the indicated workout period. For further information contact the Health and Wellness Coordinator at 331-2215.

FAQ's

Q: I want to participate in a spinning class over the noon hour what does this mean?
A: It means you can use up to an additional 30 minutes after the spinning program ends to continue stretching and cool down, freshen up and return to work. The same would be true for an exercise class right before work. Remember that you need to review and have this approved by your supervisor.

Q: Is this a new policy?
A: This policy is not a new policy but a restatement of a prior one regarding fitness classes.

Q: I work on the downtown campus, does this policy apply to classes offered at the YMCA or other nearby clubs?
A: Yes. This applies to scheduled classes offered off the GVSU campus.

Q: If I miss a week of release time, can I make up the time during a following week?
A: No. Exercise release time cannot be accumulated or traded in day to day or week to week.

Q: How do I request exercise release time?
A: Employee Affiliation: AP Staff, MCS/COT Staff, Security Staff

First Step:

- Notify your supervisor and obtain approval for exercise release time.
- Request to use exercise release time should be in writing unless verbal request is accepted by the supervisor. An optional form is provided in the policy.

Upon Approval:

- Supervisor and staff member continue to communicate and review staff use of the policy monthly. Changes are made if necessary.

FAMILY AND MEDICAL LEAVE ACT (FMLA) POLICY

POLICY STATEMENT

The Family and Medical Leave Act of 1993 (FMLA) gives eligible Grand Valley State University faculty and staff the right to take unpaid leave or paid leave, if appropriate benefits have been earned, for a period of up to 12 work weeks in a 12-month period because of the birth of a child (maternity/paternity) or the placement of a child for adoption or foster care, because the faculty or staff member is needed to care for a family member (child, spouse, or parent) with a serious health condition, or because the faculty or staff member’s own serious health condition makes he/she unable to do his or her job, or because of any qualifying exigency arising out of the fact that the staff member’s spouse, son, daughter, or parent is a covered military member on active duty (or notified of impending call or order to active duty) in support of a contingency operation, or to care for a covered
5. Intermittent/reduced schedule leaves, unless otherwise noted, are subject to the appropriate general provisions of this policy.

4. Intermittent/reduced schedule leave is counted toward the 12 week maximum FMLA leave which can be used during a 12-month period.

3. Intermittent/reduced schedule leave must be taken in 30-minute increments.

2. Intermittent/reduced schedule leave must be scheduled whenever possible at least ten (10) days in advance.

1. Faculty or staff members may request and be granted intermittent/reduced schedule leave in the case of a serious illness of themselves, their parent, spouse or child if there is a connection with the birth of a child, an adoption or foster care.

F. Intermittent and/or Reduced Schedule Leaves

2. If a faculty or staff member does not return from the FMLA leave, he/she may be required to repay the University for the cost of benefits received while he/she was on leave.

1. Benefits - the faculty or staff member on FMLA leave will continue to receive University provided medical and dental insurance as though he/she was working. Such benefits will continue whether the leave is paid or unpaid. If a premium is required, provision to pay the premium during an unpaid leave must be arranged by the faculty or staff member by contacting the Human Resources Office. The same procedure will be followed for collecting premiums under an unpaid FMLA leave as is done for other unpaid leaves. Failure to make required payments will result in loss of coverage, or in an obligation to repay the University if it elects to advance moneys to keep the coverage in effect. If the leave is paid, any required premium will continue to be deducted from the faculty or staff member's paycheck, as is the customary manner.

2. If a faculty or staff member does not return to work after the FMLA leave is over and he/she does not apply for and receive approval for another University leave, he/she will be considered to have voluntarily resigned employment with the University.

5. The University will not discharge or discriminate against, or otherwise interfere with, restrain or deny a faculty or staff member from exercising rights under the FMLA.

D. Time Period

1. For purposes of the FMLA, the 12-month period will be a "rolling" 12-month "look back" period based on the faculty or staff member's use of the FMLA leave during the previous 12 months. Therefore, an employee will not be entitled to more than 12 weeks of FMLA leave during any 12-month period.

2. A faculty or staff member requesting a FMLA leave may be required to use available accrued vacation for all or part of the leave. If he or she does not have enough accrued vacation to cover the leave period, he/she may use a combination of vacation and unpaid leave.

3. University policies on leaves of absences, sick leave, salary continuation etc., will run concurrently with the provisions of the FMLA when applicable. For example, if an individual who was receiving salary continuation for 4 weeks, requested additional leave under FMLA, may have up to an additional 8 weeks approved, provided the situation qualified under the FMLA policy. The 4 weeks of salary continuation would count towards the 12 weeks of FMLA. In addition, if the individual had 2 weeks of accrued and unused vacation the supervisor may require him/her to first use accrued vacation time. Additional paid or unpaid leave may be considered, consistent with other University approved leave of absence policies.

E. Faculty/Staff Member Benefits

1. Benefits - the faculty or staff member on FMLA leave will continue to receive University provided medical and dental insurance as though he/she was working. Such benefits will continue whether the leave is paid or unpaid. If a premium is required, provision to pay the premium during an unpaid leave must be arranged by the faculty or staff member by contacting the Human Resources Office. The same procedure will be followed for collecting premiums under an unpaid FMLA leave as is done for other unpaid leaves. Failure to make required payments will result in loss of coverage, or in an obligation to repay the University if it elects to advance moneys to keep the coverage in effect. If the leave is paid, any required premium will continue to be deducted from the faculty or staff member's paycheck, as is the customary manner.

2. If a faculty or staff member does not return from the FMLA leave, he/she may be required to repay the University for the cost of benefits received while he/she was on leave.

3. If the faculty or staff member does not return from leave, he/she may continue his/her medical and dental coverage by paying all required premiums under the COBRA provisions.

F. Intermittent and/or Reduced Schedule Leaves

1. Faculty or staff members may request and be granted intermittent/reduced schedule leave in the case of a serious illness of themselves, their parent, spouse or child if there is a medical necessity and if the medical need can be best accommodated through such a leave. Intermittent/reduced schedule leave is not available (except as medically required) in connection with the birth of a child, an adoption or foster care.

2. Intermittent/reduced schedule leave must be scheduled whenever possible at least ten (10) days in advance.

3. Intermittent/reduced schedule leave must be taken in 30-minute increments.

4. Intermittent/reduced schedule leave is counted toward the 12 week maximum FMLA leave which can be used during a 12-month period.
5. Intermittent/reduced schedule leaves, unless otherwise noted, are subject to the appropriate general provisions of this policy.

6. The faculty or staff member is required to schedule intermittent leave, when possible, so not to unduly interfere with the department's operations.

7. If the faculty or staff member was temporarily transferred to another position during his/her intermittent or reduced schedule leave, the employee must give the University ten (10) days notice of the ability to end the leave and return to his/her former position or an equivalent position.

G. Conditions and Procedures for Birth and Adoption (Family Leave)

An eligible faculty or staff member is entitled to take up to 12 consecutive weeks off for family leave for the birth of his/her newborn child, for the legal adoption of his/her child: or, to accept foster care placement of a child. The following conditions apply:

1. The 12 weeks of leave must be taken consecutively (no intermittent or reduced schedule leave) and within the first 12 months after the birth or adoption.

2. Each employee is entitled to 12 weeks except if both spouses work for Grand Valley State University. In that case, the total number of weeks taken between the two faculty or staff members cannot exceed 12.

3. The medical recovery period for the birth of a baby will be considered as a medical leave, and be counted towards the 12 weeks of FMLA. For example, if a faculty or staff member gives birth, her physician may require a six-week medical leave of absence. If, after the six weeks, the faculty or staff member can medically return to work, she may then take an additional six weeks off as part of the provisions of the family leave. This second six-week period off work must be taken within the first 12 months following the baby’s birth.

4. The faculty or staff member requesting family leave for birth/adoption (other than under the provisions of Income Protection) may use available accrued vacation time, unpaid leave or a combination of paid and unpaid leave as part of the FMLA leave, or the University may require the faculty or staff member to substitute available paid leave for FMLA leave. If the employee does not have enough paid benefit time to cover the leave, he/she will go on an unpaid leave.

5. Verification of adoption, birth of a child of foster placement may be required.

H. Procedures on Serious Health Condition of Family Member

An eligible faculty or staff member is entitled to take up to 12 weeks off from work to care for a spouse, parent or child with a serious health condition.

1. A serious health condition means an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider.

2. The “need to care for” a family member includes both physical and psychological care when the family member is unable to care for his/her own basic medical hygiene or nutritional needs or safety, or is unable to transport him/herself to the doctor, etc. It also includes time needed to make arrangements for changes in care, such as transfer to a nursing home.

3. A “child” includes a biological, adopted, or foster child, stepchild, legal ward, or a child of a person standing in loco parentis who is under the age of 18 or, if older than 18, is incapable of self-care because of mental or physical disability. The term “spouse” means husband or wife. “Parent” is the person who acted as a parent when the faculty or staff member was a child but does not include mother-in-law or father-in-law.

4. The leave may be taken intermittently or on a reduced schedule but the total amount of time off cannot exceed 12 weeks of the faculty or staff member's normal hours worked.

Example: Full-time faculty or staff member: 40 hours/week X 12 weeks = 480 hours
Part-time faculty or staff member: 20 hours/week X 12 weeks = 240 hours

5. Only in the case of a serious illness of a child when both parents work at Grand Valley, can each parent then take 12 weeks off. This is an illness so serious as to require a parent to stay with the child.

I. Procedures on Faculty/Staff Member’s Own Serious Health Condition

An eligible faculty or staff member is entitled to take up to 12 weeks off from work due to their own serious health condition, which prevents them from being able to perform the functions of their position.

1. A serious health condition means an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider.

J. Military Family Leave

1. An eligible faculty or staff member is entitled to take up to 12 weeks off from work because of any qualifying exigency arising out of the fact that the staff member’s spouse, son, daughter, or parent is a covered military member on active duty (or notified of impending call or order to active duty) in support of a contingency operation.

2. Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings.

3. The University will provide eligible employees up to 26 weeks of leave during a single (one time only) 12-month period to care for a covered service member (spouse, son, daughter, parent, or next of kin). Leave to care for an injured or ill service member, when combined with other FMLA-qualifying leave, may not exceed 26 weeks in a single 12-month period.

a. A “covered servicemember” means:

i. A member of the Armed Forces (including the National Guard or Reserves) who is undergoing medical treatment, recuperation, or therapy, is otherwise on the temporary disability retired list, for a serious injury or illness.

ii. A veteran who was discharged or released under conditions other than dishonorable at any time during the five-year period prior to the first day the eligible employee take FMLA leave to care for the covered veteran, and who is undergoing medical treatment, recuperation, or therapy of a serious injury or illness.

b. The term “serious injury or illness” means:

i. In the case of a member of the Armed Forces, means an injury or illness that was incurred (or aggravated) by the member in the line of duty while on active duty in the Armed Forces, provided that such injury or illness may render the family member medically unfit to perform duties of the member's office, grade, rank or rating.

ii. In the case of a veteran who was a member of the Armed Forces at any time during a period when the person was a covered servicemember, means a qualifying injury or illness that was incurred (or aggravated) by the member in the line of duty and that manifested itself before or after the member became a veteran.

K. Certification of Need for FMLA Leave

1. Initial Certification - Grand Valley may require certification from the faculty or staff member's health care provider for the following reasons: to verify that the faculty or staff member is needed to care for the family member, or the faculty or staff member is not able to perform his/her job duties. The University reserves the right to ask for a second opinion by a health care provider chosen by the University. Such an opinion will be paid for by the University. If the University requests a third opinion, that opinion will be final and binding. If the second opinion and the original opinion conflict, the University will pay for a third opinion. The University and the faculty or staff member will work together to reach
agreement on whom to use for the third opinion. All certification must be provided to the University within 15 calendar days of the University's request, if practical. The third opinion will be final and binding.

2. Continuing Certification - Each 30 days, the University may request verification of the need to continue the leave. Failure to provide such requested documentation in a 15-day period may result in termination of FMLA leave.

3. A "health care provider" may include, for example, a licensed doctor of medicine or osteopathy, dentist, clinical psychologist, and other health care providers authorized under the Family Medical Leave Act.

4. When the faculty or staff member is ready to return from his/her leave, he/she may be required to submit medical verification (if applicable) of his/her ability to return to work.

L. Questions and Policy Interpretation

1. The Human Resources Office is responsible for implementing and coordinating the provisions of the FMLA for the campus. Questions may be directed to the Human Resources Office, extension X12215.

2. If there are any conflicts between the University policy and provisions of the Federal Act, the provisions of the Federal Act will supersede, with the exception of situations where University policy, handbooks or contracts provide benefits greater than the act. The Federal Act and the Federal regulations will be used to resolve issues that arise.

**IDENTIFICATION CARD POLICY**

SLT 4.4

Date of Last Update: July 31, 2008

Approved By: Senior Leadership Team

Responsible Office: Human Resources

**POLICY STATEMENT**

Grand Valley State University issues a photo identification card to all active faculty and staff members who have a full-time, part-time or temporary appointment. This card is to be used for purposes of identification at all Grand Valley campuses. Lost or stolen ID cards should be reported to Human Resources. In the event of a name change, a new card will be issued.

ID cards for faculty and staff members can be obtained by visiting Human Resources at 1090 James H. Zumberge Hall on the Allendale campus or at the Student Assistance Center in the DeVos Center in downtown Grand Rapids. Retirees may also obtain an ID card at these locations.

Upon separating from the University, faculty and staff members will turn in their ID cards to Human Resources. ID cards belong to Grand Valley State University and are not transferable nor can they be used by anyone other than the person to whom it was issued.

Responsible Office: Human Resources

**POLICY STATEMENT**

Grand Valley State University faculty and staff members in the Armed Forces, Reserves, National Guard, or other “uniformed services” who are called to active duty will be granted an unpaid leave of absence and reinstatement privileges as prescribed by the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA).

“Uniformed services” includes: active duty, active duty for training, active duty for special work, weekend or weekday drill, funeral honors, or fitness for duty examination (whether voluntary or involuntary).

**PROCEDURES**

Military leave is available to all full and part-time faculty and staff of the University, including probationary staff members.

A. Military Duty Pay

A regular faculty or staff member who loses time from work during his/her regular schedule of hours because of military training as a reservist or National Guardsman or due to a civil disturbance, not exceeding four (4) weeks per year, shall be paid the difference between his/her base military pay and his/her regular pay. Adjunct faculty and temporary staff members are not eligible for military duty pay.

B. Benefits

The University will continue to provide health insurance for benefit eligible faculty and staff members, as well as their enrolled dependents, who are on duty less than thirty (30) days. Faculty and staff members serving for more than thirty 30 days may elect to continue health insurance coverage for themselves and any enrolled dependents through COBRA.

C. Leave Period
Faculty and staff members are entitled to an unpaid military leave of absence, with reemployment rights, for a period up to five years. The five years is a cumulative total and includes both past and present military service. Military leave for adjunct faculty and temporary staff will not extend beyond the appointment end date.

D. Reinstatement Requirements

Regular faculty and staff members have the right to be reemployed at the University following a military leave of absence as long they meet the following reinstatement requirements.

1. The faculty or staff member ensures that Human Resources or the applicable appointing officer receives advance written or verbal notice of your service.
2. The faculty or staff member has five (5) years or less of cumulative service in the uniformed services while employed at the University.
3. The faculty or staff member returns to work or applies for reemployment in a timely manner after conclusion of service, and
4. The faculty or staff member has not been separated from service with a disqualifying discharge or under other than honorable conditions.

Military leaves of absences for temporary staff and adjunct faculty will not extend beyond the appointment end date.

If eligible to be reemployed, a faculty or staff member has the right to be restored to the job and benefits he/she would have attained if he/she had not been absent due to military service or, in some cases, a comparable job. The faculty or staff member’s seniority would also be restored to the level they would have attained if they have been on duty at the University continuously.

Questions and Policy Interpretation

The Human Resources Office is responsible for implementing and coordinating the provisions of the Military Leave of Absence Policy for the University. Questions may be directed to the Human Resources Office at (616) 331-2215.

If there are any conflicts between the University policy and provisions of the Federal Act, the provisions of the Federal Act will supersede, with the exception of situations where the University policy, handbooks or bargaining agreements provide benefits greater than the act. The Federal Act and the Federal regulations will be used to resolve issues that arise.

SMOKING (AND VAPING) POLICY

SLT 4.6

Date of Last Update:
March 02, 2014

Approved By:

Senior Leadership Team

Responsible Office:
Human Resources

POLICY STATEMENT

The United States Department of Health and Human Services Surgeon General Report of 2006 indicates that secondhand smoke is an avoidable cause of disease and death. Exposure to second hand smoke, even for a short time, results in adverse affects to the cardiovascular system and can cause coronary heart disease and lung cancer. The report concludes that second hand smoke can cause disease and premature death in individuals who do not smoke. Reducing and eliminating opportunities for exposure to second hand smoke protects the overall health of non-smokers. By enacting this policy, Grand Valley State University is taking action to minimize the harmful effects and discomfort which smoking produces for the benefit of all members of the University Community. During the interim until further study and review can be concluded, for purposes of this policy, the use of electronic cigarettes (vaping) shall follow this policy to the same extent as smoking a tobacco product.

PROCEDURES

All buildings at GVSU locations are designated as smoke free. Smoking is prohibited in all indoor spaces; including, but not limited to, educational, housing and dining locations. Smoking is prohibited within twenty-five (25) feet of any GVSU building, within twenty-five feet of any GVSU bus stop on University property and within twenty-five feet of the Little Mac Bridge on the Allendale campus.

Smoking is prohibited in all University owned, leased or rented vehicles. At all Intercollegiate Athletic facilities and at The Meadows Golf Club smoking is permitted in designated outdoor smoking areas only.

Smokers must cease smoking prior to entering any prohibited smoking area; twenty-five feet from any building, bus stop and bridge.

While GVSU permits smoking in areas not designated to be smoke free, it is the responsibility of smokers to be respectful of non-smokers in choosing a location in which to smoke so as to minimize non-smokers’ contact with second-hand smoke.

Smokers are responsible for properly disposing of all smoking related litter, which includes cigarette and cigar butts, tobacco, etc. Disposal of any smoking litter is not permitted on University grounds except in the provided ash receptacles.

If University facilities are rented by non-University individuals or groups, they shall be notified of and required to comply with this policy.

As the University acquires space or constructs new buildings or additions, smoking shall not be permitted in these buildings or areas. The above twenty-five foot distance from any building will be maintained at all new facilities.

GVSU recognizes that smoking is highly addictive. Smokers interested in assistance with quitting smoking should contact the appropriate office to learn about smoking cessation options and support. Students should contact the Campus Recreation Fitness and Wellness Office and faculty and staff members should contact the Wellness Coordinator in the Human Resources Office.

Policy Enforcement

This policy assumes that with notice to our community individuals will voluntarily adhere to these regulations and enforcement will not be needed. If smoking is observed in violation of this policy the appropriate action to take is to:

- Politely ask the person who is smoking either to stop smoking or to move to a designated smoking area, outside of the twenty-five foot perimeter of the building, bus stop or bridge.
ALCOHOL AND OTHER DRUGS POLICY

SLT 5.1

Date of Last Update:
October 30, 2018

Approved By:
Senior Leadership Team

Responsible Office:
Alcohol and Other Drugs Campus Education and Services Office (ACES)

POLICY

Grand Valley State University strives to provide a healthy University community free of the abuse of alcohol or other drugs and illegal or unauthorized use of alcohol and controlled substances. This commitment to students, faculty, and staff is evidenced by the:

- Publication of standards of conduct and University policies
- Provision of alcohol and other drug abuse prevention programs
- Availability of counseling, treatment, and rehabilitation resources
- Enforcement of applicable University policies
- Enforcement of federal and state laws and local ordinances that govern alcohol and other drug use (including underage drinking, hosting, and furnishing laws)
- Promotion of an environment that supports healthy choices

The unlawful manufacture, possession, use, distribution or dispensation of illicit or prescription drugs and the unlawful possession, use, or distribution of alcohol by faculty, staff, and students on University-controlled property or as part of University activities is prohibited. This prohibition includes Marijuana as federal law bans it from University owned and controlled property and workplaces. All University employees will, as a condition of employment, abide by the terms of this policy. Faculty, staff, and students are responsible for making decisions within the context of University policies and federal, state, and local laws related to alcohol and other drugs.

The Alcohol and Other Drugs Policy Handbook (www.gvsu.edu/aces) includes information about University drug and alcohol abuse prevention programs; health risks; counseling, treatment and rehabilitation resources; legal sanctions and summary of laws; University employee and student sanctions for violations of alcohol and other drug policies; employee notification obligations; requirements for Federal grant recipients; and links to additional University policies, procedures, and resources.

POLICY STATEMENT

This policy and the Alcohol and Other Drugs Policy Handbook will be electronically distributed annually to all faculty, staff, and students. The coordinator of the ACES (Alcohol & Other Drugs Campus Education and Services) Office will conduct the required review, no less than biennially, in even-numbered years.

ANIMALS ON PROPERTY OWNED OR CONTROLLED BY THE UNIVERSITY

SLT 6.1

Date of Last Update:
May 20, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Public Safety

POLICY

This Policy applies to all faculty, students, staff, contractors, vendors and visitors.

POLICY STATEMENT

This policy is intended to enhance the safety and health of students, faculty, staff, contractors, vendors and other visitors, and to supplement the existing GVSU policies, by providing rules and regulations regarding the presence of animals in GVSU facilities.

No person shall bring any animal(s) onto University owned or controlled property unless otherwise permitted by this or other University policy as listed below. Individuals wishing to request a modification or exception to this policy as a reasonable accommodation should contact the Office of Disability Support Resources. https://www.gvsu.edu/dsr

PROCEDURES

A. Animals Permitted on Property Owned or Controlled by the University *:
1. Service Animals are permitted within all University facilities subject to the additional requirements of this policy. Individuals who wish to bring a service animal into a University housing facility may do so without prior approval. However, students are strongly encouraged to reach out to the University’s Office of Disability Support Resources (DSR) to ensure that their experience bringing the animal to campus is a positive one. Advance notice of a service animal in housing facilities will enable the University to appropriately plan for the animal’s presence and will allow more flexibility in meeting the student’s needs. Service animals are permitted to accompany the resident to all areas of housing where residents are normally permitted to go. Please note that service animals are required to be at least 12 months of age unless an exception to this requirement has been approved by DSR.

2. Employees with a disability who wish to utilize a service animal as a reasonable accommodation in a University office or other areas of campus buildings not open to the general public, must submit the request to the Office of Disability Support Services at least 30 days before the animal is needed.

3. Service animals in training are permitted in all public facilities on the same basis as working service animals, provided that the service animal is being led or accompanied by a trainer for the purpose of training the dog and the trainer has documentation confirming the trainer is affiliated with a recognized or certified service dog training organization. Service animals in training are not permitted in certain classrooms, offices, or other areas of campus buildings not open to the general public. Facilities generally considered off limits unless an exception is granted:

- a. Research Laboratories: The natural organisms carried by service animals may negatively affect the outcome of the research. At the same time, the chemicals, and/or organisms used in the research may be harmful to service animals.
- b. Areas Where Protective Clothing is Necessary: Any room where protective clothing is required or necessary. Examples include chemistry laboratories, research/medical laboratories, wood shops, metal or machine shop, electrical shops, etc.
- c. Areas Where There is Danger to the Service Animal: Any room, including a classroom where there are sharp metal cuttings or other sharp objects on the floor or protruding from a surface; where there is hot material on the floor e.g., molten metal or glass; where there is a high level of dust; or where there is moving machinery. Where the threat of injury is to the health of the dog, the student will be permitted to make the decision.

4. A student or employee with a disability who wishes to utilize a service dog in training in University housing, classrooms, offices, or other areas of campus buildings not open to the general public must seek approval through the reasonable accommodation process.

5. Animals under the control of a law enforcement officer acting in the course of his or her duties.

6. Animals kept in residence halls as approved by the Department of Housing and Residence Life including animals kept by housing staff in residence. All animals must register with and be approved by Disability Support Resources prior to entering University housing, in accordance with this policy: https://www.gvsu.edu/cms4/asset/C7BF326A-0990-A17D-F66456C52989A6FA/assistance_animals_policy.pdf.

7. Service animals are permitted to accompany the resident to all areas of housing where residents are normally permitted to go.

8. Animals approved by the University for use in research or for instructional purposes. http://www.gvsu.edu/iacuc/

9. Animals brought on campus for a special event sponsored by the University or a student organization provided that the event has been pre-approved in writing by the Dean for the sponsoring college or department or by the Office of Student Life.

10. Animals accompanied by members of the University community and visitors, as long as they remain on sidewalks and University walkways.

11. Any animal brought into a University owned or controlled property pursuant to this Policy must be properly licensed, vaccinated and tagged as required by applicable law. All animals must be under the control of their owner or handler and must be on a leash at all times, unless the owner is unable to use a leash due to a disability or the use of a leash would interfere with the service animal’s ability to perform its duties. In that case, the owner must be able to control the service animal by other effective means such as voice controls or signals.

12. Animals may not be cleaned or groomed in rest rooms, locker rooms, or other University facilities.

*For purposes of this Policy, “University Facility or Facilities” means any building, facility, structure or improvement, open or enclosed, that is owned, licensed, leased by, or under the control of the University.

**B. General Requirements**

Persons bringing animals onto University owned or controlled property as permitted by this Policy are solely responsible for:

- a. the full control, supervision and care of the animal
- b. ensuring that animal droppings or other waste are picked up, thoroughly cleaned up and properly disposed of;
- c. reimbursing the University for the costs associated with the repair of any real and/or personal property and/or University facility damaged directly or indirectly by the animal or the animal’s presence in the facility.
- d. assuming full responsibility for any harm caused to others by their animal including medical expenses.
- e. animals must not be cleaned or groomed in rest rooms, locker rooms, or other University facilities.

In addition, individuals bringing animals on campus must comply with all other applicable University ordinances, policies, practices and procedures and any applicable local, state or federal ordinance, statute and/or regulation.

**C. Areas Requiring Pre-Approval for Service Animals:**

1. The University may prohibit the use of service animals in certain locations due to health or safety restrictions, where service animals may be in danger, or where their use may compromise the integrity of research. Restricted locations may include, but are not limited to: teaching laboratories, classrooms, medical and surgical areas, and research areas.

2. Exceptions to restricted areas may be granted on a case-by-case basis by contacting the Office of Disability Support Resources. In making its decision, DSR will consult with the appropriate department and/or laboratory representative regarding the nature of the restricted area and any ongoing research. Additional requirements may be necessary to protect the animal. To be granted an exception: A student and/or employee who wants their animal to be granted admission to an off-limits area should contact DSR. Visitors should also contact DSR.

**D. Clarifying Animal Status:**

1. Service animals are permitted in all public facilities on campus in accordance with this Policy. University employees should refrain from questioning any individual about an accompanying service animal, including persons with non visible disabilities, unless there is a genuine question about the animal based upon its behavior.

2. In the unusual circumstance when an inquiry must be made to determine whether an animal is a service animal, a University employee may only ask two questions:
   - Is the animal a service animal required because of a disability?
   - What work or task has the animal been trained to perform?
DEFINITIONS:

1. Service animal: “any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the individual’s disability.” (28 CFR 36.104) The crime deterrent effects of an animal’s presence and the provision of emotional support, well-being, comfort or companionship do not constitute work or tasks for the purposes of this definition.

Examples of work or tasks that service animals perform include, but are not limited to: assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as books or the telephone, alerting a person to a sudden change in blood sugar levels, providing physical support and assistance with balance and stability to individuals with mobility disabilities, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

a. The University may permit the use of a miniature horse on the same basis as a service animal if the horse has been trained to do work or perform tasks for the benefit of the individual with a disability and after an assessment of the following factors: the type, size and weight of the miniature horse and whether the facility can accommodate these features; whether the handler has sufficient control of the miniature horse; whether the miniature horse is housebroken; and whether the miniature horse’s presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation. (28 CFR 35.136)

2. Service animal in training: Dogs twelve months of age and older being individually trained to do work or perform tasks for people with disabilities that are at all times housebroken; or displays aggressive behavior and the behavior is outside the duties of the service animal. Ill, unhygienic, and/or unsanitary service animals are not permitted in public campus areas. The individual responsible for such an animal may be required to remove the animal. A service animal may also be removed if the animal is out of control and the owner does not take effective action to keep the animal under control. If the out of control behavior happens repeatedly, the owner may be prohibited from bringing the animal into facilities until the owner can demonstrate that significant steps have been taken to mitigate the animal’s behavior.

2. When an animal has been properly removed pursuant to this policy, the University will work with the handler/owner to determine reasonable alternative opportunities to participate in the University’s services, programs, and activities without having the animal on the premises.

3. Any individual with a dispute or disagreement concerning the removal or restriction of a service animal or any other aspect of this policy should first contact Disability Support Resources. If the matter is not resolved, a request for mediation should be submitted to DSR. Individuals may also file a written complaint with the Equity and Compliance Unit in the Division of Inclusion and Equity by calling 616-331-2894 or at https://gvsutix-gme-advocate.symplicity.com/public_report/index.php/pid234800.

CANCELLATION/CLOSURE POLICY

SLT 6.3

Date of Last Update:

September 06, 2017

Approved By:

Senior Leadership Team
POLICY STATEMENT

Grand Valley State University will close or cancel all or part of its operations in cases of emergency, utility disruptions, or for weather related reasons.

TYPES OF OPERATIONAL CHANGE:

- Cancellation: Classes will not be held. All staff are to report to work at their regular time.
- Closure/Closed: Classes and campus events will not be held. Only ESSENTIAL staff are to report to work.

When GVSU is closed, only essential staff are to report. Designated personnel in the following departments are deemed essential and are expected to report:

- Department of Public Safety
- Facilities Services
- Athletic & Recreation Facilities
- Food Service
- Housing
- Information Technology
- Library
- Pew Campus Operations
- WGVU Television and Radio

Appointing officers have discretion to call in non-essential staff as circumstances may require.

Students, faculty and staff should assume the university is open unless they are advised otherwise through GVSUAlert!, the university’s emergency notification system, or on the radio or television. In the event of closure or class cancellation, every effort will be made to make the announcement no later than 6:30 AM for daytime classes and 3:00 PM for evening classes.

University Criteria for Weather-related Cancellations or Closures

In evaluating whether to close for weather-related reasons, the following criteria are used: 1) the ability of the university’s road crews to keep campus roads and parking lots cleared; 2) the conditions of primary and secondary roads in the area as reported by the Michigan Department of State Police as well as by central dispatch authorities in Kent and Ottawa counties; and, 3) weather reports regarding the track of the storm and other conditions.

Because commuting students, faculty and staff come from such a broad geographic area, it is extremely difficult to arrive at a decision that is appropriate for each vicinity. Weather conditions rarely are uniform throughout this large area. There is no one decision that will satisfy everyone; however, a diligent effort is made to arrive at a reasonable decision that considers the safety of students as well as their right to receive instruction. Under no circumstances does GVSU ask students, faculty or staff to assume undue risk in traveling to the University in inclement weather.

When GVSU Allendale is closed because of weather-related conditions, the Pew Grand Rapids Campus and the Meijer Holland Campus will also close.

When Muskegon Community College is closed, GVSU’s classes in Muskegon are canceled and the office in the Stevenson Center for Higher Education will close.

When Northwestern Michigan College in Traverse City is closed, GVSU’s classes in Traverse City are canceled and the office in the NMC University Center will close.

Decisions to close or cancel activities at the Annis Water Resources Institute (AWRI), the Muskegon Innovation Hub and the Detroit Center will be made separately, as these facilities host tenants, business events, and research functions not affiliated with university operations.

Announcements of closing and cancellation will be made through GVSUAlert!, on the Grand Valley web home page www.gvsu.edu and on GVNOW at www.gvsu.edu/gvnow. Notifications may also be heard on area radio and television stations. For a more detailed update on campus conditions and area roads, tune to the Grand Valley State television and radio stations, WGVU-FM 88.5, WGVU-AM 1480, WGVS-AM 850, WGVU-FM 95.3, WGVU-TV 35, and WGVK-TV52. Please do not call the university switchboard to seek closing or cancellation information.

Rescheduling Final Exams Affected by Cancellation or Closure

In the event of a cancellation or closure on a specified exam day, any classroom-based exams affected would be held on the next available day after the exam week has concluded. For example, if a Tuesday exam day were affected, the next available day after the conclusion of the exam week would be Saturday. If two exam days were affected, i.e. Wednesday and Thursday, Wednesday’s exam would take place on Saturday and Thursday’s exam would be the following Monday. Faculty and students are advised to be aware of this contingency when making travel plans.

In the event of a cancellation or closure during exam week, faculty who are able to modify their exams to allow for online, take-home, or similar formats may do so for all students who agree. Faculty have an obligation to provide the option to students to be examined in the manner described in the syllabus, and for those students, exams will be scheduled as described above.

ENDOWMENT SPENDING

SLT 6.4

Date of Last Update: January 04, 2013

Approved By:

- Senior Leadership Team

Responsible Office: Business and Finance
POLICY STATEMENT

Each year the University Board of Trustees approves spending rates for true and quasi-endowments. These rates are used to calculate the amount that can be distributed from each endowment. Only investment income is distributed from true endowments, as the principal must be maintained intact in perpetuity. Spending distributions are calculated quarterly for the current fiscal year based on the average balance over a rolling three year period and transferred to the various spending funds at that time. Effective January 1, 2002 an endowment requires a minimum balance of $30,000 in principal before spending can begin.

PROCEDURES

A spending fund is created for each endowment so that monies are expended according to the purpose for which the endowment was established; usually a restricted fund is utilized for true endowments and a designated fund for quasi-endowments. Documentation that supports how the funds are expended must be maintained for five years. Specifically, for true endowments established to fund scholarships, the selection committee must ensure that documentation regarding the criteria utilized for candidate selection and award is maintained for a five-year period.

EQUIPMENT ACQUISITION AND DISPOSAL POLICY

SLT 6.5

Date of Last Update:
January 04, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Business and Finance

POLICY STATEMENT

The GVSU Purchasing Office (331-2280) is responsible for the acquisition and disposal of University-owned equipment, as outlined below.

PROCEDURES

1. ACQUISITIONS

A. New Equipment with a Value Greater Than $ 5,000.00
   If your department has received new equipment and its cost is greater than $ 5,000.00, it needs to be tagged for inventory purposes. This process involves the placement of an inventory tag on the equipment plus recording of pertinent information – serial number, model number, location of equipment and the department, which purchased the equipment.

B. New Equipment with a Value Less Than/Equal to $ 5,000.00
   If your department has received new equipment and its cost is less than or equal; to $ 5,000.00, tagging is optional. To have equipment tagged contact the Accounting Office at 331-2233.

2. DISPOSAL

Purchasing is responsible for the disposal of surplus, obsolete and worn out equipment. They will coordinate making the appropriate journal entries to update the equipment inventory, removal of University ID tags, and settlement of proceeds. Contact 331-2280 for requests to dispose of property and for appropriate disposal advice.

EVENT SIGNS AND BANNERS POLICY - ALLENDALE CAMPUS

SLT 6.7

Date of Last Update:
November 05, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Facilities Services

POLICY STATEMENT

Grand Valley State University event sign and banner policy is intended to establish a uniform system used across campus. The primary function of a sign or banner is to provide information. The effectiveness of distributing this information will be based on consistent design and standards. Implementation and maintenance of the event sign system will be the responsibility of the GVSU Facilities Services Department.

PROCEDURES

Event signs are made by Facilities Services. Banners are provided by the customer. When making a request, please follow the steps listed below:

1. Call Facilities Customer Service at 331-3000 to place your sign or banner request approximately two weeks prior to the event.

2. All banners are to be provided by the customer. There are two (2) locations on campus where they can be hung. One is in front of Lake Huron Hall in the Academic Mall area. The other is at the Northwest side of the Student Services Building facing Campus Dr. The banner(s) will be tied to metal posts that are secured into the ground. Banners may not hang from sculptures, the roof or inside any building, or be placed in the ground at a different location other than the two indicated unless approval has been given by the
HEATING AND COOLING SET POINTS

SLT 6.8

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
Facilities Services

POLICY STATEMENT

The University established standard set-points for heating and cooling on all campuses in order to conserve resources and control energy costs. These standards are described below.

PROCEDURES

During the winter season the heating controls are set at a maximum of 70° F. During the summer season the minimum cooling temperature will be 76° F. Facilities Services will respond to hot/cold calls to ensure that systems are running properly, but will not adjust the temperatures to levels outside of the standards.

Facilities Services also discourages the use of space heaters and fans in areas that are at the accepted standard temperature levels above. If there is a special need please contact Facilities Services at 331-3000.

IDENTITY THEFT DETECTION POLICY

SLT 6.9

Date of Last Update:
May 05, 2009

Approved By:
Senior Leadership Team

Responsible Office:
Business and Finance

POLICY STATEMENT

Grand Valley State University (GVSU) will comply with the applicable requirements of 16 C.F.R. 681, a federal regulation issued by the Federal Trade Commission (FTC) as part of the implementation of the Fair and Accurate Credit Transaction (FACT) Act of 2003 requiring that financial institutions and creditors (which include higher education institutions) implement written programs that provide for the detection of and response to specific activities ("Red Flag") that could be related to identity theft.

Grand Valley State University is required to adopt policies and procedures to mitigate identity theft. Activities that cause GVSU to be considered a "creditor" under the Red Flags Rule include:

1. Participating in the Federal Perkins Loan program
2. Participating in alternative or private educational loans
3. Offering institutional loans to students, faculty, or staff
4. Offering a plan for payment of tuition throughout the semester rather than requiring full payment at the beginning of the semester.
5. Stored Value Cards

PROCEDURES

Identification of Red Flags

In order to identify relevant Red Flags, GVSU considers the type of accounts that it offers and maintains, methods it provides to open its accounts, methods it provides to access its accounts, and its previous experience with identity theft. GVSU identifies the following Red Flags in each of the listed categories:

1. Notification and Warnings from Credit Reporting Agencies
   a. Report of fraud accompanying a credit report
   b. Notice or report from a credit agency of a credit freeze on an applicant
   c. Notice or report from a credit agency of an active duty alert for an applicant
   d. Receipt of a notice of address discrepancy in response to a credit report request
To further prevent the likelihood of identity theft occurring with respect to covered accounts, GVSU will take the following steps as they relate to internal operating procedures:

2. Suspect Documents
   a. Identification document or card that appears to be forged, altered or inauthentic
   b. Identification document or card on which a person's photograph or physical description is not consistent with the person presenting the document
   c. Other document with information that is not consistent with existing student information
   d. Application for services that appears to have been altered or forged

3. Suspicious Personal Identifying Information
   a. Identifying information presented that is inconsistent with other information the student provides (example: inconsistent birth dates)
   b. Identifying information presented that is inconsistent with other sources of information (example: an address not matching an address on a loan application)
   c. Identifying information presented that is the same as information shown on other applications that were found to be fraudulent
   d. Identifying information presented that is consistent with fraudulent activity (example: an invalid phone number or fictitious billing address)
   e. Social security number presented identical to one given by another student
   f. Address or phone number presented that is the same as that of another person
   g. A person fails to provide complete personal identifying information on an application when reminded to do so
   h. A person's identifying information is not consistent with the information that is on file for the student

4. Suspicious Covered Account Activity or Unusual Use of Account
   a. Change of address for an account followed by a request to change the student's name
   b. Payments stop on an otherwise consistently up-to-date account
   c. Account used in a way that is not consistent with prior use
   d. Mail sent to the student is repeatedly returned as undeliverable
   e. Notice to University that a student is not receiving mail sent by the University
   f. Notice to GVSU that an account has unauthorized activity
   g. Breach in GVSU's computer system security
   h. Unauthorized access to or use of student account information

5. Alerts from Others
   Notice to GVSU from a student, identity theft victim, law enforcement or other person that the University has opened or is maintaining a fraudulent account for a person engaged in identity theft

Red Flag Detections

Student Enrollment
To detect any of the Red Flags identified above associated with the enrollment of a student, GVSU personnel will take the following steps to obtain and verify the identity of the person opening the account:
   a. Require certain identifying information such as name, date of birth, academic records, home address or other identification
   b. Verify the student's identity at time of issuance of student identification card (review driver's license or other government-issued photo identification)

Existing Accounts
To detect any of the Red Flags identified about for an existing covered account, GVSU personnel will take the following steps to monitor transactions on accounts:
   a. Verify the identification of students if they request information (in person, via telephone, facsimile or email)
   b. Verify the student's identity at time of issuance of student identification card (review driver's license or other government-issued photo identification)
   c. Notify the Program Administrator for determination of the appropriate step(s) to take
   d. Notify law enforcement
   e. Determine that no response is warranted under the particular circumstances
   f. Take appropriate steps to modify the applicable process to prevent similar activity in the future

Consumer ("Credit") Report Requests
To detect any of the Red Flags identified above for an employment or volunteer position for which a credit or background report is sought, GVSU personnel will take the following steps to assist in identifying address discrepancies.
   a. Require written verification from any applicant that the address provided by the applicant is accurate at the time the request for the credit report was made to consumer reporting agency
   b. In the event that notice of an address discrepancy is received, verify that the credit report pertains to the applicant for whom the requested report was made and report to the consumer reporting agency an address for the applicant that GVSU has reasonably confirmed is accurate

Preventing and Mitigating Identity Theft
In the event that GVSU personnel detect any identified Red Flags, such personnel shall take one or more of the following steps, depending on the degree of risk posed by the Red Flag:
   a. Continue to monitor a covered account for evidence of identity theft
   b. Contact the student or applicant for which the credit report was requested
   c. Change any passwords or other security devices that permit access to covered accounts
   d. Not open a new covered account
   e. Provide the student with a new student identification number
   f. Notify the Program Administrator for determination of the appropriate step(s) to take
   g. Notify law enforcement
   h. Determine that no response is warranted under the particular circumstances
   i. Take appropriate steps to modify the applicable process to prevent similar activity in the future

Protecting Student Identifying Information
To further prevent the likelihood of identity theft occurring with respect to covered accounts, GVSU will take the following steps as they relate to internal operating procedures:
   a. Ensure that the GVSU website is secure or provide clear notice that the website is not secure
   b. Ensure complete and secure destruction of paper documents and computer files containing student account information when a decision has been made to no longer maintain such information
   c. Ensure that office computers with access to covered account information are password protected.
   d. Avoid use of social security numbers
   e. Ensure computer virus protection is up to date
Overview
Responsibility for developing, implementing and updating this Program lies with an Identity Theft Committee (Committee) for GVSU. This Committee is headed by a Program Administrator appointed by the President. Two or more individuals appointed by the Program Administrator comprise the remainder of the committee.

The Program Administrator is responsible for ensuring appropriate training of GVSU personnel review of staff reports regarding the detection of Red Flags and the steps for preventing and mitigating identity theft, determining which steps of prevention and mitigation should be taken in particular circumstances and considering periodic changes to the Program.

Staff Training and Reports
GVSU staff responsible for implementing the Program shall be trained either by, or under the direction of, the Program Administrator in the detection of Red Flags and the responsive steps to be taken when a Red Flag is detected. GVSU staff shall be trained, as necessary, to effectively implement the Program. GVSU employees are expected to notify the Program Administrator once they become aware of an incident of identity theft or of GVSU’s failure to comply with this Program. At least annually or as otherwise requested by the Program Administrator, GVSU staff responsible for development, implementation, and administration of the Program shall report to the Program Administrator on compliance with this Program. The report should address such issues as effectiveness of the policies and procedures in addressing the risk of identity theft in connection with the opening and maintenance of covered accounts, service provider arrangements, and significant incidents involving identity theft and management response, and recommendations for changes to the Program.

Service Provider Arrangements
When the GVSU engages a service provider to perform an activity in connection with one or more covered accounts, GVSU will take the following steps to ensure the service provider performs its activity in accordance with reasonable policies and procedures designed to detect, prevent and mitigate the risk of identity theft:

- Require, by contract, that service providers have such policies and procedures in place
- Require, by contract, that service providers review GVSU’s Program and report any Red Flags to the Program Administrator or GVSU employee with primary oversight of the service provider relationship

Program Updates
The Committee will periodically review and update this Program to reflect changes in risks to students and soundness of GVSU’s policies, procedures, protocols and practices from identity theft. In doing so, the Committee will consider GVSU’s experience with identity theft situations, changes in identity theft methods, changes in identity theft detection and prevention methods, and changes in GVSU’s business arrangements with other entities. After considering these factors, the Program Administrator will determine whether changes to the Program, including the listing of Red Flags, are warranted. If warranted, the Committee will update the Program, subject to approval by the Senior Leadership Team.

Definitions:
Account: a continuing relationship established by a person with a financial institution or creditor to obtain a product or service for personal, family, household or business purpose.
Account includes:

- an extension of credit, such as the purchase of property or services involving a deferred payment; and
- a deposit account

Card Issuer: a financial institution or creditor that issues a debit or credit card.

Consumer Reports: any written, oral, or other communication of any information by a consumer reporting agency bearing on a consumer’s credit worthiness, credit standing, credit capacity, character, general reputation, personal characteristics, or mode of living which is used or expected to be used or collected in whole or in part for the purpose of serving as a factor in establishing the consumer’s eligibility for:

- Credit or insurance to be used primarily for personal, family, or household purposes;
- Employment purposes; or
- Any other purpose authorized under U.S. Code: Title 13k, 1681b

Covered Accounts: an account that a financial institution or creditor offers or maintains, primarily for personal, family, or household purposes, that involves or is designed to permit multiple payments or transactions, such as a credit card account, mortgage loan, automobile loan, margin account, cell phone account, utility account, checking account, or savings account. Any account that the financial institution or creditor offers or maintains for which there is a reasonable foreseeable risk to customers or to the safety and soundness of the financial institution or creditor from identity theft, including financial, operational, compliance, reputation, or litigation. This includes all student accounts or loans that are administered by GVSU.

Debit Card: any card issued by a financial institution to a consumer for use in initiating an electronic funds transfer from the account of the consumer at such financial institution, for the purpose of transferring money between accounts or obtaining money.

Identifying Information: is any name or number that may be used, alone or in conjunction with any other information, to identify a specific person, including:

- Name
- Date of birth
- Address
- Government issued driver’s license
- Telephone number
- Alien registration number
- Social security number
- Government passport number
- Employer or taxpayer ID number
- Student identification number
- Computer Internet address
- Routing code

Identity Theft: a fraud committed or attempted using the identifying information of another person without authority.

Program Administrator: the individual designated by the President with primary responsibility for oversight of the Program.

Red Flag: a pattern, practice, or specific activity that indicates the possible existence of identity theft.
INTERIOR SIGNAGE STANDARDS POLICY
SLT 6.10
Date of Last Update:
July 31, 2008
Approved By:
Senior Leadership Team
Responsible Office:
Facilities Planning

POLICY STATEMENT
Grand Valley State University has developed and maintains standards that govern the design, content, appearance, installation and use of interior signage through the institution. These standards are published on the Facilities Planning Web site.

PROCEDURES
Requests for additional signage, revisions in existing signage and/or removal of signage should be handled by submitting a work order through the Facilities Services Web site or by contacting the Facilities Planning office at 331-2962.

INVOICE PAYMENT POLICY
SLT 6.11
Date of Last Update:
July 31, 2008
Approved By:
Senior Leadership Team
Responsible Office:
Business and Finance

POLICY STATEMENT
All purchases must be made in accordance with terms outlined in the Grand Valley State University Board of Trustees' Policies. Payment of the resulting invoices is subject to the policies and procedures outlined below.

PROCEDURES
1. Vendors are to mail invoices to:

   Grand Valley State University
   Accounts Payable
   2015 Zumberge Hall
   Allendale, Michigan 49401

2. The University requires each new vendor to submit a W-9. Accounts Payable will either retain a file copy if the first invoice has an EIN included, or solicit a W-9 from the vendor.

3. Accounts Payable maintains original invoices. Departments will receive a copy of each invoice that will then require an approved signature based on the Banner approval queue information for the department. If the invoice references a valid purchase order, receipt of goods/services may be confirmed by any member of the requesting department via signature. If the invoice does not have a corresponding purchase order, the only requesting department staff members who may approve the invoice for payment are those authorized in the Banner approval queue. Departments must provide complete FOAPs on each invoice.

4. Department should then return invoice copies to Accounts Payable as soon as possible. The University desires to pay its obligations within the negotiated vendor terms. If these terms include discounts, they will only be given to a department if the approved invoice is returned in time for the vendor terms to be met. Please allow up to three (3) days for processing within Accounts Payable.

5. When you use a hotel that direct bills for university guests lodging you are required to provide the guest's name and the business purpose of the stay.

6. Departments disputing an invoice must follow up with the vendor and inform Accounts Payable about reasons delaying authorization and return of disputed invoices.

7. If your department receives an invoice that is not yours, please return invoice to Accounts Payable for forwarding to the correct department. If available, please note correct destination on the invoice.

8. Invoices are processed daily. Checks are processed daily and cut based on the vendors terms. All checks are mailed or funds electronically transferred to vendors. Only those checks being presented to a guest in person will be held for pickup. The goal of the Accounts Payable department is to process authorized-for-payment invoices within five business days of receipt at 2015 James H. Zumberge Hall.
9. Payments to non-employees and international guests for services rendered require a purchase order. Payments are processed in accordance with contract terms.

10. Payments to employees for services, honoraria, stipends, prizes and awards are paid via the payroll system in accordance with IRS regulations.

Any questions should be directed to Accounts Payable at 616-331-2202.

---

KEY POLICY - ALLENDALE CAMPUS

SLT 6.12

Date of Last Update: July 31, 2008

Approved By: Senior Leadership Team

Responsible Office: Facilities Services

POLICY STATEMENT

The objective of this procedure is to define the system of key control at the University. Issuance of keys is a part of maintenance operations. Deans and administrators are urged to maintain a list of keys, which persons in their units possess for security and accountability. Issuance and usage of keys is to be in accordance with principles of reasonable security.

PROCEDURES

Responsibilities

A. Facilities Services is responsible for:
   1. Identification codes on keys.
   2. Issuing and maintaining key records.
   3. Maintenance, repair, and replacement of University key and lock hardware.
   4. Duplication of keys.

B. Deans, Department Chairs, and Administrators are responsible for:
   1. Approving keys for facility and/or staff members in their unit.

Key Request Procedures

A. Access to locked areas of the University is based upon need. Whenever possible, employees will be issued the minimum number of keys at the lowest level that will allow access to their areas of assignment only.

B. All key requests must be submitted on the Key Request Form, which is available on the Facilities Services Web site.

C. Information on the KEY REQUEST FORM must be complete with proper signatures/approvals (including your supervisor). The form is then forwarded to Facilities Services. Incomplete forms will be returned. Proper justification must be provided for anything other than keys to specific doors.

D. Upon approval, keys can be delivered to a designated office or picked up at the Central Utilities building. The Key Inventory form must be signed by the individual who will use the key at that time for return to Facilities Services for record keeping. No keys will be issued without these signatures.

E. Under normal circumstances, students and temporary employees will not be issued keys.

Level of Keys and Issuance

A system of keys ranging from the Great Grand Master Keys down to the lowest level of change key is used to satisfy user needs. Facilities Services aims to issue the smallest number of keys possible.

A. Great Grand Master (GGM) key is the highest level of key on the campus. The key covers all of the keyways within an entire key system. There are (5) key systems currently on campus. Great Grand Masters are issued to the Executive Officers, the Assistant Vice President for Facilities Services, the Assistant Vice President of Facilities Planning, the Director of Public Safety Services, Facilities Services Supervisors and Public Safety Officers. Other Facilities Services staff and some University personnel may be approved but only after administrative and executive officer authorization. All GGM key requests must receive the approval of the appropriate division heads as well as approval of the Assistant Vice President for Facilities Services.

B. X-KEYS are issued to Facilities Services, Public Safety, and Technology Services personnel only. This key allows access to key boxes that are located in designated buildings and contain a master key for that building. X-KEYS are issued to designated individuals within these departments based on proof of need. These key requests must be approved by the Assistant Vice President for Facilities Services.

C. BUILDING MASTER keys will allow entry into all areas of a building including mechanical spaces and designated to restricted spaces. These are keys placed in key boxes for access and use by service staff.

D. MASTER keys will operate all keyways in a building except mechanical rooms and designated restricted areas. These keys are issued to Deans or Administrative Officers with the responsibility for all building and department activities. Custodial staff will also be issued MASTER keys for the building to which they are assigned. Issuance of these keys must be approved by the Assistant Vice President for Facilities Services.

E. SUB-MASTER keys operate a sub-group of locks within a master key system such as a department. These are issued by the Assistant Vice President for Facilities Services.

F. ACCESS keys allow entry to individual offices or rooms. These are the primary keys issued to faculty and staff. Approval is from the Assistant Vice President of Facilities Services.

G. ENTRANCE keys operate entrance doors to buildings, departments or suites. Approval is from the Assistant Vice President of Facilities Services.

H. FILE keys are issued as requested to allow access to department files or personal office files, desks, and cabinets.
Key Lock Boxes
A. A KEY LOCK BOX is located in the Central Utilities Building (CUB) for temporary checkout of X-KEYS, MASTER OR GRAND MASTER keys for access to a building. Identification of the individual checking out the key as well as verification of need will be necessary. An ID is required (driver’s license and a Facilities Services ID card) and will be held in CUB pending return of these keys.

Employee Responsibilities
A. The employee is responsible for the security of keys assigned. Lost or stolen keys must be reported immediately to department administration, Facilities Services, and Public Safety. A replacement charge of $10.00 will be assessed for each lost or stolen key before a duplicate can be issued. The replacement fee of a lost or stolen sub master, master, x-key, or grand master will be $100.00 and must be paid before a duplicate is made. Request for keys lost due to theft must be accompanied by a police report. The employee’s department will be responsible for costs to re-key due to a lost or stolen key. Disciplinary action – if needed – will be left to the supervisor.
B. Employees who change offices will be issued new keys at the time old keys are returned. A Key Request Form needs to be completed for the new keys. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. KEYS MUST BE RETURNED TO FACILITIES SERVICES.
C. Broken keys should be returned at the time the new key is issued.
D. Requests for desk and file cabinet keys will be supplied if they are in stock. If not, the department is responsible for supplying the key to be duplicated.
E. UNDER NO CIRCUMSTANCES ARE GVSU KEYS TO BE DUPLICATED OR GIVEN TO OTHER EMPLOYEES. THE PERSON WHO SIGNED FOR THE KEY WILL BE HELD RESPONSIBLE. Any requests for additional access are to be made through the normal procedures. Appropriate disciplinary action will be pursued for unauthorized duplication.
F. All keys are to be turned in to Facilities Services at the time of termination of employment. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. All terminating or retiring employees are encouraged to check with Facilities Services well in advance of their last day to determine what keys have been issued to them.
G. Under normal circumstances, students and temporary employees will not be issued keys. Employees should NOT sign out keys for these employees.

Key History Assignment Cards
A Key History Assignment card is maintained for each employee possessing a GVSU key. The information on the card includes the employee’s name, job title, department, phone number and office location. Also the card lists the date a key is issued, the key numbers, access location, room numbers, employee’s signature, and date of key return.

Return of Keys
A. When a key is returned from an employee because the need for the key no longer exists, the Key History Assignment Card is pulled from the employee file and the return date is noted.
B. Upon termination of GVSU employment, Facilities Services will be notified by Human Resources. The employee’s supervisor should follow up and direct the proper return of keys to Facilities Services.
C. These key changes are reflected on the Key History Assignment Card and the file is removed from ongoing records.
D. UNDER NO CIRCUMSTANCES ARE KEYS TO BE RETAINED BY THE DEPARTMENT AND GIVEN TO A NEW EMPLOYEE.

Special Key Issuance – Facilities Services
A. Contractors are issued temporary access cards the Central Utilities Building (CUB). Cards are to be returned immediately upon completion of the contract service.
B. Temporary Employees will be allowed to check out the required keys / access cards from CUB using the same basis as student’s checkout.
C. Temporary Job Assignments – employees receiving temporary job assignments may checkout the appropriate building key / access card from CUB to work in the assigned area. A Facilities Services ID must be presented and will be held pending return of these keys. (Example: custodians or maintenance personnel temporarily assigned to a different routine.) These keys may be held for the duration of the temporary assignment and do not have to be returned daily.
D. Restricted keyways – no future building re-keying will allow for spaces off the GGM system. Areas or departments may be off the building master but not off the GGM.
Deans, Department Chairs, and Administrators are responsible for:

- Approving keys for faculty and/or staff members in their unit.

**Key Request Procedures**

Access to locked areas of the Pew Campus is based upon need.

Whenever possible, employees will be issued the minimum number of keys at the lowest level that will allow access to their areas of assignment only.

All key requests must be submitted on the **KEY REQUEST FORM**, which is available on the Pew Campus Operations website.

Information on the **KEY REQUEST FORM** must be complete with proper supervisor or department approval. The form is then electronically submitted to the Pew Campus Operations. Incomplete forms will be denied. Proper justification must be provided for anything other than keys to specific doors. Upon approval, the requestor will receive an email letting them know that the key/card(s) are ready to be picked up at the Pew Campus Operations Office at the Bicycle Factory, suite 350. The key inventory form must be signed by the individual who will use the key. The form is then filed at that time by Pew Campus Operations for record keeping. No keys will be issued without these signatures or to anyone other than the requesting employee.

Under normal circumstances, students and temporary employees will not be issued keys.

**Levels of Keys and Issuance**

A system of keys ranging from Great Grand Master Keys down to the lowest level of change key is used to satisfy user needs. Pew Campus Operations aims to issue the smallest number of keys possible. Keys will not be issued where card access is available.

GREAT GRAND MASTER KEY is the highest-level key on campus. This key covers all of the keyways within an entire key system. There are five (5) key systems currently on campus. All GGM key requests must receive the approval of the appropriate division heads as well as approval of the Assistant Vice President for Facilities Services and Planning and the Vice President for Finance and Administration.

GRAND MASTER KEY is the second highest-level key on campus. This covers all of the keyways of the Pew Campus OR of the Allendale Campus. These key(s) are issued to the Assistant Vice President for Facilities, Director or Assistant Director of Pew Campus Operations, the Director or Assistant Director of Plant Services, the Director of Facilities Planning, the Director of Public Safety Services, Plant Services Supervisors and Public Safety Officers. Other Plant Services staff and some University personnel may be approved but only after administrative and executive officer authorization. All GGM key requests must receive the approval of the appropriate division heads as well as approval of the Assistant Vice President for Facilities Services and Planning and the Vice President for Finance and Administration.

LOCK BOX KEYS are issued to Plant Services, Public Safety, Technology Services, Pew Campus Operations and designated contractors only. This key allows access to key boxes that are located in designated buildings and contain a master key for that building. Lock Box keys are issued to designated individuals within these departments based on proof of need. These key requests must be approved by the Assistant Vice President for Pew Campus & Regional Centers.

MASTER KEYS operate all keyways except mechanical rooms and designated restricted areas. These keys are issued to Deans or Administrative Officers with responsibility for all building and department activities. Custodial Staff will also be issued master keys for the building to which they are assigned. Issuance of these keys must be approved by the Assistant Vice President for Pew Campus & Regional Centers.

SUB-MASTER keys operate a sub-group of locks within a master key system such as a department. These are issued based on proof of need and require approval of the Assistant Vice President for Pew Campus & Regional Centers.

OPERATOR keys allow entry to individual offices or rooms. These are the primary keys issued to faculty and staff. Approval is from the Assistant Vice President for Pew Campus & Regional Centers.

ENTRANCE keys operate entrance doors to buildings, departments, or suites. Approval is from the Assistant Vice President for Pew Campus & Regional Centers.

FILE keys are issued as requested to allow access to department files or personal office files, desks, cabinets.

**Lock Box**

A **LOCK BOX** is located in the loading dock of EC, DEV, SCB, BIK, DET and CHS buildings. These are for temporary checkout of X MASTER keys for access to a building.

**Vendor Sign Out**

Temporary keys for the Pew Campus may be signed out to vendors on a daily basis. Identification of the individual checking out the key as well as verification of need will be necessary. The keys are signed out from the Pew Campus Operations Office at the Bicycle Factory, suite 350.

**Employee Responsibilities**

The employee is responsible for the security of keys assigned. Lost or stolen keys must be reported immediately to department administration and Pew Campus Operations. A replacement charge of $10 will be assessed for each lost or stolen key before a duplicate key can be issued. The replacement fee for a lost or stolen sub-master, master, lock box key or grand master will be $100 and must be paid before a duplicate is made. Request for keys lost due to theft must be accompanied by a police report. The employee’s department will be responsible for costs to rekey due to lost or stolen key.

Employees who change offices will be issued new keys at the time the old keys are returned. A Key Request Form needs to be completed for the new keys. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. KEYS MUST BE RETURNED TO THE PEO CAMPUS OPERATIONS OFFICE.

Broken keys should be returned at the time the new key is issued.

UNDER NO CIRCUMSTANCES ARE GVSU KEYS TO BE DUPLICATED OR GIVEN TO OTHER EMPLOYEES. THE PERSON WHO SIGNED FOR THE KEY WILL BE HELD RESPONSIBLE. Any requests for additional access are to be made through the normal request procedures. Appropriate disciplinary action will be pursued for unauthorized duplication.

All keys are to be turned into the Pew Campus Operations Office at the time of termination of employment. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. All terminated or retiring employees are encouraged to check with Pew Campus Operations well in advance of their last day to determine what keys have been issued to them. Under normal circumstances, students and temporary employees will not be issued keys. Employees that sign out keys for these people WILL be held responsible for the keys.

**Key History Assignment Cards**

A Key History Assignment card is maintained for each employee possessing a GVSU key. The information on the card includes the employee’s name, job title, department and phone number. The card also lists the date the key is issued, the key numbers, access location, room numbers, employee’s signature, and dates of key return.

**Return of Keys**

When a key is returned from an employee because the need for the key no longer exists, the Key History Assignment card is pulled from the employee file and the return date is
Upon termination of GVSU employment, Pew Campus Operations will be notified by Human Resources. The employee’s supervisor should follow up and direct the proper return of Pew Campus keys to Pew Campus Operations.

These key changes are reflected on the Key History Assignment card and the file is removed from ongoing records.

UNDER NO CIRCUMSTANCES ARE KEYS TO BE RETAINED BY THE DEPARTMENT AND GIVEN TO A NEW EMPLOYEE.

Special Key Issuance

Vendors are issued temporary keys through the Pew Campus Operations Office. Such keys are to be returned immediately upon completion of the contract service or by 5:00 p.m. each day. Keys may be kept overnight with operations manager approval.

Students and Temporary Employees may have keys temporarily assigned to them for the duration of their daily shift only and then must be returned daily. These are to be checked out through the Pew Campus Operations Office and require supervisor’s permission. A driver’s license must also be presented and information will be recorded in the Pew Campus Operations Office.

Temporary Job Assignments – Employees receiving temporary job assignments may check out the appropriate building key from the Pew Campus Operations Office to work in the assigned area. (Example: custodians or maintenance personnel temporarily assigned to a different routine). These keys may be held for the duration of the temporary assignment and do not have to be returned daily.

LIGHTNING/SEVERE WEATHER POLICY - ATHLETICS

SLT 6.14

Date of Last Update: August 22, 2014

Approved By:

Senior Leadership Team

Responsible Office: Athletics

POLICY STATEMENT

The safety of all participants and observers of athletic events is extremely important. Therefore, the Athletics Department has developed the following policy and chain of command in order to ensure the safety of both athletes and onlookers in the case of severe weather during an athletic event.

PROCEDURES

Chain of Command

The athletic trainer(s) present (most practices) in coordination with the game administrator and game officials are responsible for terminating an athletic activity in the event of lightning or other severe weather. During outdoor activities, a primary responsibility of the athletic trainer(s) is to have the ability to make sound decisions on environmental factors effecting the safety and well being of the athletes as well as others involved with the activity.

The certified athletic trainer will communicate with the game administrator, the head coach, and game official(s)/umpire(s) of the potential for lightning or severe weather and will make the recommendation that all activities stop or be suspended.

If the head coach is not present, the senior most member of the coaching staff will assume responsibility.

If an athlete proceeds with their outside activity against the recommendation of the individual in charge to seek a safe shelter, the athlete assumes all personal liability with regard to their safety and health.

If a coach and/or game official(s)/umpires(s) make the decision to continue to practice and/or continue with a game or other activity despite a Telvent weather warning, the cancellation of classes, and/or the verbal instruction by a certified athletic trainer or game administrator, they will be doing so against the recommendations of the Grand Valley State University Athletic Department and will be personally liable for any and all injuries.

Severe Weather

In the event of severe weather, the following measures will be taken by Grand Valley:

The athletic training staff will check the weather daily prior to the practice or competition. Up-to-date weather reports will be obtained by using Telvent services.

During outdoor practices and games, an early warning text message system from Telvent may be used to help determine the occurrence of and/or distance of lightning in the area. The weather reports and systems will be monitored for storms that may develop during practices and games.

When an early warning text message system from Telvent has detected lightning or thunder has been heard, the athletic trainer in charge will monitor the distance on the early warning system. When the lightning is within an 8-mile radius of the venue, the activity will be ceased and a warning message with recommended safe structure will be given.

Anytime the Meadows sirens are used to close the golf course, all athletic outdoor activities will be suspended.

The certified athletic trainer will be responsible for notifying the head coach, official(s)/umpire(s) and game administrator (if present) of the lightning or severe weather. The certified athletic trainer will recommend play to be suspended at this time and shelter should be taken.

Any person who feels they are in danger of any lightning activity will have the right to leave the field or event site to seek safe shelter without fear of penalty or repercussion.

If play is suspended due to severe weather, everyone (including observers) should seek shelter in the designated “safe structures” (listed in Table A). A “safe structure” is defined as “any building normally occupied or frequently used by people, i.e. a building with plumbing and/or electrical wiring that acts to electrically ground the structure.” This structure does not include: shower facilities, baseball/softball dugouts, outside storage sheds, and canopies/awnings/tents. When in a “safe structure,” stay away from corded telephones, electrical appliances, lighting fixtures, ham radio microphones, electric sockets, and plumbing.

In the absence of a “sturdy, frequently inhabited building,” one may seek shelter in fully enclosed hardtop vehicles but should not touch the sides of the vehicle.
If no “safe structure” is available within reasonable distance, find a thick grove of small trees surrounded by taller trees or a dry ditch and assume a lightning safe position. A lightning safe position is one in which one is crouched on the ground with only the balls of the feet touching the ground, with their arms wrapped around the knees and head lowered. Do not lie flat on the ground. Stay away from the tallest trees or objects (i.e. light poles or flag poles), metal objects (i.e. fences or bleachers), individual trees, standing pools of water, and open fields. Avoid being the highest object in a field.

Any person who feels his/her hairs stands on end or skin tingle should immediately assume a lightning safe position.

Avoid using a landline telephone. Cellular phones may be used in an emergency situation.

**Resumption of Activity**

Play will resume thirty minutes following the last flash of lightning per the Telvent warning system. The certified athletic trainer will make this recommendation to the official(s) during an official game.

Blue skies and absence of rain are not protection from lightning. Lightning can strike up to ten miles from the rain shaft and it does not have to be raining for lightning to strike.

**Care of a Lightning-Strike Victim**

A lightning strike does not stay attached to the source therefore they do not carry an electrical charge. It is safe to touch the victim to move him/her to a safe location and to render medical treatment. Medical personnel should consider their own personal safety before venturing into a dangerous situation to render care.

Lightning-strike victims who show signs of cardiac or respiratory arrest need emergency help quickly. CPR and AED use should begin immediately, if necessary. Prompt, aggressive CPR has been highly effective for the survival of victims of lightning strikes.

Victims should be assessed and treated for apnea, asystole, hypothermia, shock, fractures and burns.

Refer to the Safe Structures table.

SPACE HEATERS AND PERSONAL APPLIANCE POLICY

SLT 6.16

Date of Last Update:
January 12, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Pew Campus Operations/ Allendale Facilities Services

POLICY STATEMENT

The following policy language is intended to promote the safety of the campus community, improve the comfort of faculty/staff, prevent physical damage to university facilities and conserve energy at Grand Valley State University.

PROCEDURES

Space Heaters:
The use of electric space heaters (or those fueled by other means) is strictly prohibited in any GVSU facility. Electric space heaters pose a safety risk and fire hazard by overloading building electrical circuits. They are also a very inefficient means of providing heat and often result in the discomfort of occupants in nearby offices or work areas.

Individuals who believe their work area is too cold (or hot) may contact Facilities Services (Allendale Campus) at extension 1-3000, or Operations at extension 1-6700 (Pew Campus & Regional Centers). A work order may also be submitted online at webtma.plant.gvsu.edu to request that their space be evaluated for temperature adjustments.

Other Personal Appliances:
The following appliances are also prohibited from being used in offices or other non-designated common areas at GVSU:

- Air conditioners
- Grills
- Coffee makers
- Crock-Pots
- Toaster ovens
- Toasters
- Mini Refrigerators
- Other small kitchen appliances
- Microwaves
- Other appliances that do not meet the intent of this policy

Many of these appliances are available to faculty/staff in designated break kitchens and lounge areas. If your department wishes to add an additional shared item to a break/lounge area, please contact the Operations Manager or Facilities Supervisor for your designated building to discuss its placement.

Exceptions:
Operations and Facilities Services will work to accommodate medical necessities, departmental events or other special conditions that may warrant an exception to this policy.

Responsibility:
Enforcement of this policy is the responsibility of departmental supervisors. Facilities Services and Operations staff will report unauthorized space heaters and other appliances discovered in the course of their work. The supervisor, chair, dean or director that is responsible for the area will be notified.

TIMECARD / TIMEKEEPING POLICY

SLT 6.17

Date of Last Update:
January 04, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Business and Finance

POLICY STATEMENT

Timekeeping must accurately reflect all hours worked and should be recorded on a daily basis. Misrepresentation of hours worked or forgery is a violation of the law. Misrepresenting hours worked, forging a timecard, and swiping, or inputting hours for someone else may lead to immediate termination of employment.

PROCEDURES

Electronic Timekeeping

It is the responsibility of the staff member to accurately record all hours worked in Ultra Time and inform their supervisor that the hours are ready to be confirmed, or it is the
responsibility of the staff member to accurately swipe their identification card in order for their supervisor to confirm their hours. All hours must be confirmed by 3:00 pm on the Monday following the end of the pay period.

**Timecards**

Each timecard is coded with information for the correct pay period. It is important that you use the correct timecard for the pay period. It is the responsibility of the staff member to accurately complete and submit their timecard to their supervisor (the supervisor must have signature authority on the account being charged) for their signature. The signed timecard must be in the Payroll Office 1035 James H. Zumberge Hall by 5:00 pm on the Monday following the end of a pay period.

For additional information, contact the Payroll Office.

---

**TRAVEL POLICY AND PROCEDURES**

SLT 6.18

*Date of Last Update:* February 27, 2012

*Approved By:* Senior Leadership Team

*Responsible Office:* Business and Finance

**POLICY STATEMENT**

This document is designed to provide guidance to faculty and staff on University travel policies, regulations and procedures. These guidelines are in general terms and are not expected to cover every situation. For questions regarding policies, procedures or travel arrangements, call Procurement Services at 616-331-2280. For questions regarding travel and expense reimbursement, call the Accounting Office at 616-331-2203.

**PROCEDURES**

**AUTHORIZATION**

It is the responsibility of each prospective traveler to secure the appropriate approval for University travel from his/her supervisor, department head, dean, director or executive officer. Additional regulations may apply for travel associated with grant funding, especially for international travel. The following individuals would be eligible for reimbursement of reasonable expenses while traveling for University-related purposes:

- University Board of Trustees, faculty and staff employees.
- Non-employee guests invited to the University for lectures, consulting, interviews, recruiting, and other special occasions, or those requested to travel for the University as specified in a contractual arrangement.

**ARRANGEMENTS**

**Employees:** Each traveler is responsible for arranging his/her own travel schedule, booking reservations, and payment of expenses. Please contact the Procurement Services Department for information pertaining to the University’s preferred travel agency. Call 616-331-2280 or email purchasing@gvsu.edu.

**University Guests/Groups:** The host department is responsible for coordinating travel arrangements for University guests and non-employee groups. Please contact the Procurement Services Department for information pertaining to the University’s preferred travel agency. Call 616-331-2280 or email purchasing@gvsu.edu for assistance in booking air and/or ground transportation, hotel accommodations, car/van rentals or bus charters.

To request charges direct billed to the University, the following information must be given to the travel agency: guest name, dates of travel, hotel reservation, car rental, University host/arranger’s name, department name, account number, and phone number. Upon receipt of invoices from the travel/hotel/car rental agency, the Accounting Office will send a copy to the department for verification of the direct-billed charges and authorized signature for payment approval. The approved invoice copy must be returned to the Accounting Department promptly.

**CHARGING TRAVEL EXPENSES**

University faculty and staff may charge all business travel and entertainment expenses to an existing personal credit card or they may obtain a Fifth Third MasterCard through the Human Resources office. This is a personal credit card, and there is no annual fee to participate in this program. Call the Human Resources office at 616-331-2215 for an application or for additional information.

It is important to note that individual cardholders are personally liable for all charges on their Fifth Third MasterCard charge card. A monthly statement of charges will be sent to the cardholder, who is solely responsible for full and timely payment of all charges. Requests for eligible travel reimbursement should be made soon after completion of the trip and need not wait for receipt of the credit card statement. Refer to the expense reimbursements section for reimbursement of airline tickets purchased far in advance of trip.

**EXPENSE REIMBURSEMENTS**

The following individuals are eligible for reimbursement of reasonable expenses while traveling for University-related purposes:

- University Board of Trustees, faculty and staff employees.
- Non-employee guests invited to the University for lectures, consulting, interviews, recruiting, and other special occasions, or those requested to travel for the University as specified in a contractual arrangement or approved by the appropriate executive officer.

Refer to the Travel & Expense Guidelines for the current reimbursement schedule.

**TRANSPORTATION**

A. Commercial Airlines

1. Airfare must be booked at lowest economy or coach class unless the traveler certifies on the travel and expense form that such classes were not available. The passenger’s ticket coupon/receipt or e-ticket itinerary must be submitted when reconciling expenses. If a credit card statement for airfare is due before the trip has been completed, the
University will reimburse that expense to the traveler when requested on the travel and expense form.

2. The University will permit the benefits of airline frequent flyer programs derived from travel paid for by the University to accrue to the traveler. However, travelers are encouraged to apply these benefits toward future University travel.

B. Charter Air Service – Charter air service may be authorized when it is to the advantage of the University measured by comparative travel costs and the time constraints of the travelers.

C. Personal Aircraft – Air travel for University business on an aircraft owned/leased by employees is prohibited. All University air travel must be booked on regularly scheduled commercial airlines or a University chartered aircraft.

D. Public Transportation – Taxis, buses, subways, limousines, etc. are reimbursable at full fare for University business.

E. Rental Vehicles – The use of rental vehicles is limited to situations where commercial transportation is either not available or is impractical. Renting vehicles for use at out-of-state destinations is permitted if necessary to the purpose of the trip. The University will reimburse expenses for economy or midsize vehicles. Contact either the facilities services office or the University’s preferred travel agency for assistance with rental vehicles.

   1. A major credit card is required as security at time the vehicle is picked up. The rental agreement form and receipt must accompany the Travel and Expense Form for reimbursement.
   2. The University has discount agreements with several major rental agencies. Discount cards are available from the travel agency or the Procurement Services Office. Request the applicable discounted rate when reserving a vehicle. Some promotional specials may be more economical than the discounted rate; request the best rate available.
   3. Refer to the insurance section regarding appropriate coverage.

F. Personal Vehicles

1. If an employee works primarily on campus and has a GVSU principal office assigned or principal place of business, the mileage reimbursement allowed will be calculated from their principal GVSU office or place of business. Employees involved in work or temporary assignments off campus (i.e. field supervision, teaching, TV broadcasting, etc.) will be allowed mileage reimbursement based on their distance from their GVSU campus principal office/place of business or from their home to the place of the work or temporary assignment, whichever is less. Mileage for travel between home and campus is personal commuting and is not reimbursable.

2. If an employee works primarily in the field off-campus, the mileage reimbursement allowed will be from either their home or an alternative location that is approved by the appointing officer. This approved location will be considered the point that mileage reimbursement will be calculated from.

3. Mileage within a campus location (Pew or Allendale, for example) is generally not reimbursable unless the employee is required to transport special equipment or tools to perform their duties and/or receives appointing officer approval.

4. Mileage between all campuses is permissible for reimbursement. Employees are encouraged to utilize the bus service between the Grand Rapids and Allendale campuses whenever possible rather than to request reimbursement.

5. Personal vehicles may be used in lieu of commercial airline travel. Mileage will be reimbursed at the established current rate but should cost the University no more than the commercial coach/economy airline fare. Similarly, transportation by bus, train, or other means will be reimbursed for actual cost but no more than the commercial coach/economy airline fare.

6. Expenses for gasoline, repairs, towing, etc. are included in mileage allowance. Expenses for parking, storage, tolls and ferries are reimbursable and limited to the actual amount paid. Parking fines and fees at University facilities are not reimbursable expenses. Any fine or charge for a violation of public policy (such as a speeding ticket, etc.) is not a reimbursable expense.

7. Refer to the Table of Standard Mileage for the current schedule and eligible reimbursements.

8. Any exception to the policies in F. Personal Vehicles requires approval by the Vice President of the respective division.

Meals

A. Reimbursement for individual meals will not exceed the maximum per diem allowance. Reimbursement for meals included in a conference or meeting fee is not allowed. Meals for employees involved in assignments off campus are allowable when deemed appropriate by their supervisor.

B. Meals including University guests are allowable at the actual cost, not to exceed the maximum per diem allowance. Reimbursement requests must include a receipt with the guest’s name, company name, and business purpose of the meeting.

C. Meals for University employee groups are reimbursable only with appropriate executive officer approval and documentation.

Lodging

Actual lodging expenses, as evidenced by an original receipt, are reimbursable. The maximum single room rate will be reimbursed when a University traveler shares lodging with a non-University person. Room service expenses are reimbursable in accordance with the per diem allowance. Reasonable expenses incurred for tips are reimbursable without receipt.

The University’s travel agency has discount agreements with several properties. Contact the travel agency for assistance with lodging accommodations.

Conference Fees

Actual registration fees for conferences, seminars, etc. will be reimbursed as evidenced by a registration confirmation or paid receipt. Fees for non-business and/or spousal activities associated with the conference, such as golf or tour events, are not reimbursable. It is preferred that the conference registration be paid with the University’s purchasing card.

Conference registrations may also be processed for payment by submitting an online Purchasing Requisition through Banner. A copy of the completed registration form (with the requisition number written on it) can then be sent to the Procurement Services Office in 201 LMH.

Miscellaneous Expenses

A. Telephone calls and telegrams made for business purposes are allowable and must be listed separately on the Travel and Expense Form. Dates, company names and names of persons called must be identified.

B. Reasonable expenses incurred for handling, storage and checking of baggage are allowed.

C. Personal expenses incurred for valet service, entertainment, personal phone calls, etc. will not be reimbursed.

D. Parking fees at University facilities are not reimbursable expenses.

Out-Of-Pocket Expenses

The Travel and Expense Form may also be used for reimbursement of non-travel related, out-of-pocket expenses up to $100. The form must include a description of the items to be reimbursed, FOAP, appropriate signatures, and the original receipt(s) must be included. Copies of personal checks are not acceptable as documentation for reimbursement.

EXPENSE RECONCILIATION

Travel and Expense Form

A. All reimbursement requests for travel expenses must be submitted on a Travel & Expense Form. The purpose and dates of the trip must be clearly stated. Submit the completed form and required receipts to the Accounting Office. Any unused travel advance funds must be returned with the completed Travel and Expense Form and required receipts to the Accounting Office or Cashier’s Office. Do not send cash in the mail.
B. University guests and other approved non-University employees should also use the Travel and Expense Form to request reimbursement of travel expenses. The completed form with "G" number (or for non-GVSU employees the Social Security number) must be approved by appropriate executive officer or as specified in a contractual arrangement.

Settlement Date
The Travel and Expense Form should be submitted at the earliest practical date after return from the trip, but within thirty (30) calendar days (fifteen for travel advances).

Required Receipts
Only actual business expenses incurred, supported by the required original receipts must be submitted for reimbursement. Any extenuating circumstances resulting in altered travel plans or unusual expenses must be clearly explained on the Travel and Expense Form. Any questionable claims, non-compliant requests, or alterations of receipts may result in the form being returned to the traveler for explanation, deductions from the requested reimbursement amount, and/or approval by the appropriate executive officer.

Foreign Currency
Expenses must be expressed in U.S. dollars with the foreign exchange rates applied or currency difference identified where necessary. The Travel and Expense Form total must be stated in U.S. dollars. Refer to the Universal Currency Converter for assistance.

CANCELLLED TRIP
A. If an approved trip is cancelled and a Travel Advance was issued, the original check or a personal check must be returned promptly to the Accounting Office for deposit.
B. Airline tickets already received are subject to airline/travel agency return regulations. When applicable, the credit will be issued to the party having made payment. Cancellation fees charged by the airline/travel agency are eligible for reimbursement. When reimbursement has already been received for the cancelled trip, the traveler must reconcile this credit promptly with the Accounting Office.

INSURANCE
University Vehicles
All University vehicles are insured for vehicle liability (including the statutory Michigan No Fault coverage) while being driven anywhere in the U.S. or Canada. Coverage is extended to anyone driving these vehicles with University permission.

Personal Vehicles
Employee personal vehicles are insured for vehicle liability while being driven on University business. This coverage is secondary to employee's personal automobile insurance and is subject to specific deductibles.

Rental Vehicles
Rental vehicles are covered under the University’s liability policy. All terms and conditions of the vehicle rental agreement should be read and followed, particularly concerning authorized drivers. Violations of the agreement or driving regulations may render the University responsible for any damages. Use the following guidelines for insurance coverage when renting vehicles. Questions concerning insurance coverage should be directed to the Division of Legal, Compliance and Risk Management at 616-331-2067.

A. Decline the collision damage waiver insurance. The University provides coverage that eliminates liability for replacement at full retail value due to collision damage.
B. Decline the personal accident insurance if rental was booked by the University’s preferred travel agency and/or paid for using a University P-Card or the Fifth Third MasterCard offered through GVSU. Travel agency and corporate charge card program contracts automatically provide accident/medical and death benefits under personal insurance coverage.
C. Decline the personal effects insurance for University property. The University is insured for property in the vehicle. Personal property may be covered under your personal insurance; confirm with your insurance agent. Accepting the coverage for personal property is at your expense.
D. When vehicles are rented for University business travel, all rental contracts should be issued in the University’s name to avoid confusion concerning vehicle liability insurance.

ACCIDENTS AND EMERGENCIES
Accident Reports
In addition to those actions normally required in the event of an accident, the driver of any vehicle on University business should:
A. Report the accident to his/her supervisor. Accidents involving serious personal injury or vehicle damage should be reported to the department of public safety.
B. If driving a University vehicle, a M.U.S.I.C. Motor Vehicle Loss Report must be submitted. Call the Division of Legal, Compliance and Risk Management at 616-331-2067 for assistance.
C. When another vehicle is involved in the accident, obtain that driver’s insurance company name and address. Also obtain the names, addresses and license plate numbers of potential witnesses.

Reporting Illness or Emergency
In cases of serious illness, accident or emergency that occur while traveling on University business, the traveler should notify his/her supervisor. If the supervisor cannot be reached, contact the Human Resources Office.

It is the responsibility of traveler to inform his/her supervisor of address and phone number while traveling on University business. This is important should it become necessary to contact traveler in the event of an emergency.

UNIVERSITY DESIGNATED AND PLANT RESERVE FUNDS POLICY
SLT 6.19

Date of Last Update:
October 12, 2015

Approved By:
Senior Leadership Team

Responsible Office:
University Budgets

POLICY STATEMENT
To establish rules governing expenditures charged against University Designated and Plant Reserve funds.
PROCEDURES

Expenditures over $25,000 individually or in the aggregate for a single project requires authorization from an Executive Office or their designee.

Expenditures over $50,000 individually or in the aggregate for a single project must be reported to Budget Committee.

Expenditures over $250,000 individually or in the aggregate for a single project must be submitted by Budget Committee to the University President for authorization.

DEFINITIONS:

Funds held outside the normal General Fund operating budgets that reside in the Designated and Plant Reserve funds as identified by the appropriate Executive Officer. Expenditures that are governed by this policy are those that are charged against funds that begin with “15” or “94”

UNMANNED AIRCRAFT SYSTEM / DRONE POLICY

SLT 6.20

Date of Last Update:
August 26, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Public Safety

POLICY STATEMENT

Operation of an Uncrewed Aircraft System (UAS) is prohibited over University Property by students, employees, vendors, contractors and other members of the public except with prior written approval from the Vice President for Finance and Administration of the University. Permission to operate a UAS over University Property will only be granted to University departments needing to operate a UAS for the benefit of the University. Operation of Model Aircraft is not permitted over University Property.

Purchasing of UAS also requires prior written approval from the Vice President for Finance and Administration. Potential purchasers may be employees, students or departments using University funds being disbursed through a University account, including grant funds.

PROCEDURES

Consideration will only be given for purchasing and/or operating a UAS if the written request to the Department of Public Safety includes all of the following:

1. exact dates and times of intended operation;
2. campus location and intended flight path;
3. the University purpose for the use of the UAS;
4. a current 333 exemption or Certificate of Waiver or Authorization (COA) or a Remote Pilot Certificate issued by the Federal Aviation Administration (FAA) or documentation verifying that the individual operating the UAS is fully authorized by the FAA to do so;
5. a photograph of the UAS with registration numbers attached or provision of FAA paperwork that identifies the registration numbers of the UAS being operated on the campus;
6. The Vice President for Finance and Administration will submit written approval for the purchase and/or operation of a UAS to the Department of Public Safety.

Operation of UAS on University property is to be done in accordance with only part 107 of the FAA rules for certified remote pilots and commercial operators. All rules of part 107 apply to operation on University property with the exception of prohibited external load and transportation of property for compensation or hire. Only the Vice President for Finance and Administration may waive any of the part 107 rules.

In operating a UAS for purposes of recording or transmitting visual images, operators must take all reasonable measures to avoid intrusions into areas normally considered private.

All uses of UAS must comply with the following:

1. UAS must not be used to monitor or record areas where there is a reasonable expectation of privacy in accordance with accepted social norms. These areas include but are not limited to restrooms, locker rooms, individual living center rooms, changing or dressing rooms, health treatment rooms, daycare facilities and classrooms during periods of instruction. UAS may not fly closer than thirty (30) feet outside a window of any university building.
2. UAS may not be used to monitor or record institutional or personal information, which may be found in an individual’s workspace, on computers or on other electronic devices.
3. UAS may not be used inside of any University building without prior permission given by an Executive Officer of the University.

Enforcement of Complaints

Any violations of this policy will be dealt with in accordance with applicable University procedures which may include disciplinary actions and where appropriate, legal action. All complaints concerning the operation of UAS over University Property should be referred to the Department of Public Safety. Users will also be subject to applicable Federal and State laws.

Any FAA fines incurred by individuals or departments will be the responsibility of the individuals involved.

DEFINITIONS:

For purposes of this Policy, these terms should have the following meaning:
Uncrewed Aircraft Systems (UAS) – UAS are also known as or may be characterized as unmanned aircraft systems or Drone.

According to the FAA, a UAS is the Uncrewed aircraft and all of the associated support equipment, control station, data links, telemetry, communications and navigation equipment, etc., necessary to operate the Uncrewed aircraft. UAS may have a variety of names including but not limited to quadcopter and quadrotor, FAA regulation applies to UAS regardless of size or weight. Model aircraft are not considered by the FAA as UAS and have different regulations.

COA – Certificate of Authorization or Waiver. The COA is an authorization issued by the FAA to a public operator for a specific UAS activity. After a complete application is submitted, FAA conducts a comprehensive operational and technical review. If necessary, provisions or limitations may be imposed as part of the approval to ensure the UAS can operate safely with other airspace users. In most cases, FAA will provide a formal response within 60 days from the time a completed application is submitted.

333 Exemption – FAA exemption based on Section 333 of the FAA Modernization and Reform Act of 2012 (FMRA) which grants the Secretary of Transportation the authority to determine whether an airworthiness certificate is required for a UAS to operate safely in the National Airspace System.

Remote Pilot Certificate - Certificate of authorization issued by the FAA to public operator for commercial operation of UAS activity of a craft under 55 lbs. in weight.

*It is the University’s practice is to use gender-inclusive terms in its policies, however, this term is used for consistency with federal regulations.

---

**LAKER STORE POLICY**

**SLT 6.21**

**Date of Last Update:**
October 20, 2015

**Approved By:**

Senior Leadership Team

**Responsible Office:**

GVSU Laker Store

**POLICY STATEMENT**

GVSU Laker Store is dedicated to serving the students of Grand Valley State University with resources, which enhance the University’s mission and image.

**PROCEDURES**

**Textbook Locations**

**GVSU Laker Store - Allendale** carries the textbooks and supplies required for classes taught on the Allendale campus and for those taught in Holland and other "satellite" locations across the state. These are available online at [http://lakerstore.gvsu.edu](http://lakerstore.gvsu.edu) or by calling toll free at 866-299-0001.

**GVSU Laker Store – Robert C. Pew Grand Rapids Campus** carries the textbook and supplies for classes taught in Grand Rapids, including those at the Cook-DeVos Center for Health Sciences.

**Other Merchandise**

Both store locations offer a selection of GVSU imprinted clothing and gifts, greeting cards, leisure reading books, school supplies, and a full line of computers and accessories, including Apple products. The leisure reading department includes a faculty book section. Faculty who publish are encouraged to notify the GVSU Laker Store staff, and we will add the title to our inventory.

**Discounts, Sales and Promotions**

GVSU Laker Store attempts to maintain pricing policies that are reasonable, fair and consistent. As a result, the same pricing is made available to students, faculty and staff. Sales and promotions are announced in advance on the GVSU Laker Store website and the University bulletin board, in addition to fliers and posters across campus. The same promotions are made available at both store locations.

**Merchandise Returns Policies**

Textbooks may be returned for a full refund through the first week of classes with a valid receipt. Specific deadlines are announced each semester. Other merchandise can generally be returned within a reasonable period when accompanied by a valid receipt. Merchandise, other than textbooks, will be accepted for an exchange when no receipt is presented. Refunds for purchases paid with cash or check will be refunded in cash, while returns for credit card purchases will be credited to the card.

**Book Sell Back**

GVSU Laker Store conducts a daily textbook sell-back at both store locations. Generally, sellback values increase near the end of each semester, and the majority of students sell their books during final exam week. Books that will be used at GVSU in the coming semester are purchased by the bookstore at 50% of the new book retail price until store quotas are met. Books that are not being used at GVSU may be purchased at 5-30% of retail price as long as they are current editions.

**Textbook Orders**

To insure the arrival of textbooks for the start of classes and to offer students an opportunity to sell their books at the end of the term, it is requested that faculty submit textbook orders by published deadlines. Textbook orders need to be in the bookstore by October 25 for winter semester, by February 25 for spring-summer semester, and by March 25 for fall semester. Requisitions may be submitted on-line in the faculty access section of the bookstore's website at [http://lakerstore.gvsu.edu](http://lakerstore.gvsu.edu).

For access information, please consult your department coordinator. When submitting a requisition, please provide accurate ISBN information to insure that the correct book is ordered. GVSU Laker Store staff also appreciate notification that "no books are required" for a class when appropriate.

**Coursepacks**

Faculty may choose to create coursepacks for sale through the bookstore. This may be done by working with a custom publisher, which manages copyright clearances and copying, or through the University’s Copy Center. In the latter case, faculty must perform copyright clearances themselves. Letters from publishers authorizing copying of materials, together with a complete and final version of the coursepack, should be forwarded to the appropriate bookstore location well in advance before the start of the semester. The textbook manager will arrange for copying, return the original to the faculty member, and place coursepacks on the shelf in time for the start of the semester.

**Desk Copy Loans**

Publishers will not honor requests for desk copy loans from bookstore personnel, so such requests should be made directly to the publisher. Faculty requiring a desk copy of an
CONFERENCE AND EVENT PLANNING POLICY
SLT 6.22
Date of Last Update:
February 19, 2020
Approved By:
Senior Leadership Team
Responsible Office:
Conference Planning & Hospitality Services

POLICY STATEMENT
It is the policy of Grand Valley State University that certain spaces and rooms be scheduled on a coordinated basis through the Conference and Event Planning Department. Room rental and event scheduling on the Pew Campus, Health Campus, and Regional Centers, and at the Alumni House, will be managed by the Conference and Event Planning Department. Additional information and procedures may be found on the Conference and Event Planning Department website.

WEAPONS POLICY
SLT 6.27
Date of Last Update:
May 22, 2017
Approved By:
Senior Leadership Team
Responsible Office:
Public Safety

POLICY STATEMENT
The University is committed to maintaining a safe environment in which students, faculty, staff, and visitors are free to learn, live, work and visit the University campus or a facility without fear of violence. To carry out this mission, the University prohibits the use or possession of firearms, weapons, electrical devices, and explosives on its property, except as provided in this policy.

A person shall not possess any firearm or weapon anywhere upon property governed by the University, except University Police Officers and other legally established law enforcement officers acting in the course of and scope of employment, and except for use in authorized University construction-related activities.

A “weapon” shall include but is not limited to:
1. any firearm,
2. any device from which an electrical current, impulse, wave, or beam may be directed that is designed to incapacitate temporarily, injure or kill,
3. any other instrument or device of any kind that operates based on spring, gas or air, contains explosive materials, or
4. any instrument or device, such as a knife, that has a sharp blade greater than three inches.

A person shall not use any firearm, gun, weapon, chemical, biological, radioactive, or other dangerous substance or compound to injure, molest, or coerce another, anywhere upon property governed by the University, except for a self-defense spray or foam for protection of a person or property under the circumstances that would justify the person’s use of physical force.

Additionally, a person shall not use or possess fireworks (unless approved in advance by a Vice President for use at a University event), explosives, toxic or dangerous chemicals; other lethal weapons, equipment, chemicals or materials are prohibited anywhere upon property governed by the University.

Questions about weapons should be directed to the University Department of Public Safety.

CRISIS COMMUNICATION PLAN
SLT 7.1
Date of Last Update:
September 15, 2014
Approved By:
Senior Leadership Team
Responsible Office:
University Communications

POLICY
The audience for this plan includes all students, faculty, staff, alumni, parents, trustees, the Grand Valley Foundation, and the general public.

POLICY STATEMENT
The purpose of this communication plan is to set guidelines to be followed for sharing information with executive officers, faculty, staff and students, as well as the general public. This includes both emergency and non-emergency communications. The plan is coordinated with the Comprehensive Emergency Management Plan (CEMP) administered by the Emergency Coordinator.

Executive Summary

- The Vice President for University Relations shall serve as the crisis communication director along with another cabinet member. In a physical emergency, that second executive officer will be the Vice President for Finance and Administration. In a public relations issue, the second executive officer will be determined by the issue.
- The Associate Vice President for University Communications, Chief of Police, Dean of Students, Vice President for Enrollment Development, and the Associate Vice President for Facilities shall be the crisis communication coordinators.
- Whenever a situation affecting the campus reaches proportions that cannot be handled by routine measures, the crisis communication coordinators shall notify the Vice President for University Relations.
- The crisis communication director communicates with the other executive officers and Board of Trustees.
- Each university administrator, upon being notified, is to provide applicable information to those persons under his/her direction as per the crisis notification system.
- Main and field crisis communication posts shall be established as required by the situation and shall be equipped with communications systems required to utilize resources.

Following the crisis, the crisis communication coordinators will gather all appropriate individuals for debriefing and review. Appropriate action will be determined.

PROCEDURES

TYPES OF COMMUNICATION

Emergency Notification:
An emergency is defined as a serious, unexpected, and often dangerous situation requiring immediate action. A university emergency is generally defined as any incident or event causing or potentially causing serious injury to persons, extensive property damage, loss of life, or disruption of university operations.

NOTE: The Comprehensive Emergency Management Plan can be found at [http://gvsu.edu/s/0pC](http://gvsu.edu/s/0pC)

If an Emergency Notification should be sent, GVPD or Pew Campus Security will write the initial notification message and send it using Grand Valley’s emergency notification system (RAVE). The crisis communication director, and the crisis communication coordinators will determine who else needs to be notified and the appropriate action and follow-up messages as it relates to each campus.

The Vice President for University Relations and the Associate Vice President for University Communications, or their designees, will write any subsequent message(s). A designated representative from University Communications will be responsible for distributing the alert using RAVE. University Communications will post messages on the university home page, GVNow and/or use the university’s social media outlets.

NOTE: The Comprehensive Emergency Management Plan can be found at [http://gvsu.edu/s/0pC](http://gvsu.edu/s/0pC)

NOTE: Evacuation of Buildings procedures should follow instructions found in the Annual Security and Fire Safety Report [www.gvsu.edu/gvpd/securityreport](http://www.gvsu.edu/gvpd/securityreport).

If a Timely Warning should be considered, GVPD or Pew Security will notify the crisis communication director and/or crisis communication coordinator(s). A Timely Warning is required if GVPD or Pew Security receives a report that a Clery crime has been committed on GVSU Clery geography and considers there to be a serious or continuing threat to students and employees. The content of a Timely Warning needs to include information that would promote safety and aid in the prevention of similar crimes and information about the crime that triggered the Timely Warning. The Vice President for University Relations and the Associate Vice President for University Communications, or their designees, will write the message(s). A designated representative from University Communications will be responsible for distributing the alert using RAVE. University Communications will post messages on the university home page, GVNow and the university’s social media outlets.

SAFETY NOTICE FOR OFF-CAMPUS INCIDENTS

Grand Valley may elect to issue a safety notice to members of the University when it is determined there is a reoccurring series of criminal activity, a disruption to operations, or when the Department of Public Safety determines that there may be a serious continuing or ongoing threat to the health or safety of off-campus students. When deemed necessary, the Department of Public Safety will notify the Vice President for University Relations or Associate Vice President for University Communications for dissemination.

PUBLIC WEATHER INFORMATION

If the weather poses an immediate threat to the campus community the Comprehensive Emergency Management Plan (CEMP) will be followed and communications made accordingly. When there is inclement weather that requires cancellation or closure, the GVSU Cancellation/Closure Policy shall be followed.

REPORTING TO UNIVERSITY COMMUNICATIONS POTENTIAL REPUTATIONAL INCIDENTS OR CRISIS

Whenever an event or issue appears to have potential for becoming a controversial news story the Grand Valley staff or faculty member aware of the circumstance should immediately notify the unit head who has responsibility in the situation.

The unit head should immediately communicate all available information to the appropriate appointing officer/dean and/or executive officer, and the Associate Vice President for University Communications. University Communications should be notified regardless of the availability of the appointing officer/dean and/or executive officer.

DEFINITIONS:

Crisis Communication Director:
The Vice President for University Relations or designee will be responsible for supervising communications being released during and surrounding a crisis.

Crisis Communication Coordinators:
The Associate Vice President for University Communications, Chief of Police, Dean of Students, Vice President for Enrollment Development, and the Associate Vice President for Facilities shall be the crisis communication coordinators. It is the responsibility of these individuals to communicate with one another about the nature of the incident and then share the information with the appropriate personnel.

IDENTITY STANDARDS POLICY

SLT 7.2
POLICY STATEMENT

To convey clear messages about Grand Valley, it's important that University messaging is consistent in look and tone. In addition, Grand Valley's logos are trademarked so it's very important that they are used correctly. Institutional Marketing has created a standards guide to assist with consistency.

PROCEDURES

The address for the website containing the standards guide and other helpful information is www.gvsu.edu/identity/. From this site, you can find logo dos and don’ts, download logos, determine word usage, read about GVSU’s marketing messages, and get help with publication, website, and advertising guidelines. Please contact 331-2525 for more information.

MOTION PICTURE/VIDEO/FILM/DIGITAL IMAGING PRODUCTION ON THE CAMPUS

SLT 7.3

POLICY STATEMENT

GVSU understands the importance of the film industry to the local economy and the benefit it can provide to our students interested in a career in film and film production. However, film production on campus is permitted only if it does not interfere with normal University business and/or previously scheduled events. A Location Permit is required to film on campus. The Location Permit can be approved only when all of the appropriate procedures and requirements have been met. Use of any location can only be approved with the consent of the impacted University units or buildings and consideration of the impact on surrounding areas and activities. Scheduled University events, regardless of size, take precedence over film shoots in determining location availability.

PROCEDURES

Requests for Permits

Requestors for a Location Permit must complete the appropriate application. This application and complete script (if applicable) shall be submitted to University Communications. Upon receipt, the completed application and script will be forwarded to a core committee that will include a representation of affected units or buildings for review and project approval.

Fees & Costs

Location fees and operational costs will be charged and are based on a number of variables. The length of the shoot, locations involved, and types of GVSU services needed are all considered in determining the total operational costs. In certain limited instances fees and costs may be waived for uses such as public service announcements. Other forms of media may be subject to this fee and will be handled on a case-by-case basis.

Alterations to Premises

Production companies may not make any alterations to the University Premises (either temporary or permanent), including trimming, cutting or removing natural features such as trees and shrubs, without the express written approval of the University. Production companies will leave the University Premises and all property of any kind located therein in as good order and condition as they were immediately prior to production. Production companies will be responsible for paying for any expenses to restore the University’s Premises to its original condition.

Code of Conduct

While filming on our campus production companies and their employees are guests of the University and should treat this location and campus community with respect and courtesy. The production company, cast, crew and all others associated with the project are expected to comply fully with University Policies. They will be expected to adhere to the Filmmaker’s Code of Professional Responsibility, which is Attachment A to the Guidelines and Procedures for this policy.

University Identification and Appropriate Use of Campus Images

No identification of GVSU as a location is permitted, except in rare instances and only when the specific use is submitted for prior approval University Communications. The request will only be approved when it is deemed to be in the University’s best interests.

Identification includes but is not limited to trademarks, icons, recognizable University landmarks, and the use of merchandise containing trademarked images/logos (i.e. flags, apparel, posters, miscellaneous items containing logo, etc.). Identification also includes verbal references on film.

Filming and Athletics

Under no circumstances is the production company to film or use any information images/names/biographical information pertaining to any current university intercollegiate athlete for any purpose. Appearing in a commercial production that identifies them as university intercollegiate athletes will jeopardize their NCAA eligibility.
Cancellation

If written notice of cancellation for an approved location permit is received before the production begins, then the production is liable for any actual costs incurred by the University as of the receipt of the cancellation notice. University shall have the right of cancellation if the Agreement holder is deemed insolvent or, in the University’s sole opinion, shall fail to perform any material term in the Agreement after having received written notice from the University to do so.

Exceptions to Policy

Student projects are subject to School of Communication requirements and procedures and do not require a permit. Incidental filming that includes uses such as: filming for non-commercial or internal use, class projects, or personal use. This filming requires no special services and does not in any way disrupt the normal functioning of the University.

This filming cannot be used for commercial purposes after the fact without written permission from Grand Valley State University.

PUBLICATIONS AND ADVERTISING

SLT 7.4

Date of Last Update:
October 18, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Institutional Marketing

POLICY STATEMENT

Institutional Marketing manages, designs, and produces a full range of publications and visual materials, including recruitment materials, course catalog, programs, brochures, posters, postcards, banners, and invitations. Advertising is also designed and produced in the Office of Institutional Marketing for the purposes of university image/awareness and recruitment. If not produced by Institutional Marketing, all publications and ads should be approved by Institutional Marketing before publication. Logo, design, and copy standards can be found at http://www.gvsu.edu/identity

PROCEDURES

Because of the high demand for print pieces, the following priorities have been set for pieces to be produced by Institutional Marketing:

1. The Office of the President
2. Publications used by academic services in student recruiting
3. Materials used off campus for development purposes
4. Major publications of the university dealing with the general public or special external audiences
5. Advertising production support for development and student recruiting
6. Other university publications

Requests for forms, applications, etc. are not handled by Institutional Marketing and should be ordered through Procurement Services.

All publications and advertising should be sent to Institutional Marketing for review before they are printed or posted. Please contact 331-2525 for more information.

WEB POLICIES FOR ACADEMIC AND ADMINISTRATIVE UNITS

SLT 7.5

Date of Last Update:
December 18, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Institutional Marketing

POLICY STATEMENT

All GVSU units are required to maintain their webpages on the university’s domain www.gvsu.edu and use the university’s content management system unless authorized by Institutional Marketing. All GVSU organizations, whether on the gvsu.edu domain or authorized to maintain their own servers and publish pages under domains other than www.gvsu.edu/ are equally responsible for adhering to GVSU Web standards.

The purpose of website design standards is to:

- Reinforce GVSU’s identity
- Meet the needs of the constituencies Grand Valley serves
- Provide continuity in website appearance
- Protect and regulate the use of proprietary GVSU names, logo marks, word marks, and graphic devices
- Keep content current
- Faithfully represent GVSU to the public

Web standards can be found at http://www.gvsu.edu/identity

ALUMNI HOUSE POLICY FOR FACULTY/STAFF
POLICY

The Alumni House is available for use by departments of the University. However, the reservation must be made by a faculty or staff member. Faculty and staff members that wish to use the Alumni House for a personal event may do so; all room rentals and additional charges will apply.

POLICY STATEMENT

General

The applicant undertakes to observe all rules and directions, which are imposed by GVSU and the Alumni Relations Office generally, or specifically, in respect to the space which is being used.

The room rental fee will be waived for University-sponsored events providing all additional charges (i.e. catering, equipment, a/v, etc.) are paid by a University account number.

Inform the Event Coordinator if there will be any distinguished or special guests attending the event.

Reservations

Reservations for University events must be made by a University employee. All reservations are to be arranged with the Event Coordinator at (616) 331-3590.

When the Event Coordinator approves the reservation request, he/she will send the primary contact a confirmation of the event with all event details submitted in the reservation form.

Reservations will be made according to the event time specified on the request form. The Event Coordinator will add to your reservation two hours before event start and one hour after event end time for any necessary setup and/or cleanup you may require; contact the Event Coordinator if you require more time.

Food and Beverage

For events that involve the service of prepared food and drink, you must use the University’s catering service (Classic Fare Catering).

If you will use the University catering service for your event, please arrange your menu selections with the Event Coordinator by the deadlines described on the event confirmation.

For events the involve the service of alcohol, you must agree to abide by all Michigan Liquor Control Commission rules and regulations involved in the service of alcohol in addition to those established by the University. Final alcohol selections must be given to the Event Coordinator at least two weeks prior to the event to ensure the availability of requested menu items. No changes/additions will be accepted after the deadline.

A final guest count must be given to the Event Coordinator at least three (3) business days prior to the event. If a final guest count is not received three business days prior to the event, the food service provider will consider the last communicated guest count to be the final guest count. The final bill will be based on the final guest count given or actual number served, whichever is higher.

Please contact the Event Coordinator at (616) 331-3590 for information on hosting a non-University sponsored event.

Minimum charges may be applicable for food and bar service.

Outside food and drink are not allowed in the Alumni House.

Food and drink from the Alumni House, partial or whole, are not to leave the premises by state law.

No event may exceed 12:00 midnight, and alcohol service will be discontinued at 11:30 pm.

Set-up and Special Requests

The Perry Dining Room has a standard furniture set-up; additional furnishings or the rearrangement of existing furnishing may result in additional expenses. Set-up requests must be made in advance with the Event Coordinator and must be finalized five (5) business days before the event date. Changes to the set-up after this deadline may incur an additional charge.

Contact the Event Coordinator to order additional equipment, audiovisual equipment, and any other special requests at least five (5) business days before the event.

Cancellation

The Event Coordinator encourages a five (5) business day notice for event cancellations. Special cases will be handled on a case-by-case basis.

You may cancel your event up to three (3) business days prior to the scheduled time of the event at no charge. Events cancelled with less than three (3) business days’ notice will be billed for costs incurred, up to 100% of the total bill.

Late charges will occur when catered events are planned less than three (3) business days in advance. These charges will be 10% of the total cost of the event with a minimum of $10.00.

Release of Alumni Contact Information
ENDOWMENT MATCH POLICY
SLT 8.2
Date of Last Update:
November 01, 2019
Approved By:
Senior Leadership Team
Responsible Office:
University Development

POLICY STATEMENT
To provide additional incentive for employees to support endowments the University provides a match equal to the amount of the employee’s gift up to $25,000. Gifts are defined as outright gifts, payments and sustainer payments. Gifts are matched the same year upon actual receipt of cash or similar monetary instruments.

PROCEDURES
The following criteria are to be followed:

Only contributions to named endowments will qualify for matching funds.

Current and retired faculty and staff and their spouse’s contributions will be eligible for match. This definition excludes adjunct faculty and staff.

The available funds for matching will be limited to current year earnings of unrestricted endowed funds and undistributed interest earnings. Use of the general fund for employee gift matching is not permitted. If contributions eligible for match exceed available funding, the match will need to be reduced by an appropriate percentage for all gifts.

The match on one single gift is limited up to $25,000 per donor per year of the gift. Matching gifts over $25,000 requires a recommendation from the President and approval by the Chair of the Board of Trustee's Finance and Audit Committee in consultation with the Vice President for Finance and Administration regarding funding availability.

The eligible contributions that are received during the calendar year will be matched in the following February. Any eligible gifts received after December 31st will be matched the following February.

FUNDRAISING POLICY
SLT 8.3
Date of Last Update:
December 08, 2014
Approved By:
Senior Leadership Team
Responsible Office:
University Development

POLICY STATEMENT
University Development helps Grand Valley State University fulfill its mission and realize its aspirations in three ways: (1) securing, stewarding and increasing financial support; (2) building meaningful partnerships with external and internal constituents; and (3) communicating the university’s character, quality, priorities and goals.

Accordingly, University Development must strive at all times to ensure that its policies and procedures and those of the university are in compliance with local, state and federal regulations in regard to the solicitation and acceptance of gifts. Any deviation from the Internal Revenue Code could result in fines, public embarrassment and/or the loss of the University’s tax-exempt status.

For these and many other reasons, all fundraising requests made in the name of the University must be approved in advance by the Vice President for Development. In addition, only the Vice President for Development or their designee is empowered to issue the University’s official receipt that qualifies a donor’s charitable contribution as deductible for tax purposes.

Any fundraising activity that employs the name, image or reputation of the University, in an effort to secure financial gifts will be considered fundraising in the name of the University and is subject to this policy. In the area of “sponsored research”, University Development may work with the Office of Sponsored Research to determine the most appropriate fit for the project.

Any potential fundraising activities on behalf of an University program or initiative must first be approved by the appropriate dean and/or the divisional vice president before a request for assistance is directed to University Development. In all decisions related to funding, the priorities of the University, as approved by the Board of Trustees, shall guide the decision making process.

University Development will not share lists of donors or other constituents with individuals and organizations not affiliated with approved university fundraising activities.

This policy shall apply to any and all members of the University community, as well as to any other individuals or organizations who may represent themselves as members of the University community or who claim to be acting on behalf of the University. This policy does not apply to members of the University community when they are engaged in fundraising activities for other organizations and/or when they have explicitly stated that their fundraising activities are unrelated to the university.

Today’s donors have more outlets for their philanthropic desires than ever before. As competition for the philanthropic dollar has increased, donors now receive numerous appeals from multiple non-profit organizations. Consequently they are likely to become annoyed by multiple requests from the same organization. To ignore this is to risk reduced support,
an outright refusal, or perhaps even permanent discontinuation of support.

Grand Valley State University can be at the forefront of a donor’s choice if we are clear in our intent, focused on the university’s highest priorities, and present exciting opportunities for support. Coordination of university-wide fundraising activities is imperative.

**Prohibited Activities**

Members of the University community are prohibited from engaging in the following tactics and activities for purposes of fundraising:

- Use of home addresses from the university telephone directory to compile calling or mailing lists.
- Use of the Grand Valley State University Alumni Directory to compile calling or mailing lists.
- Using one’s status as a Grand Valley State University employee or student to secure a gift commitment unless specifically authorized to do so.
- Using “mass e-mails” on the campus intranet system to solicit gifts unless specifically authorized to do so by University Development.
- Conducting lotteries or similar games of chance, which the State of Michigan defines as gambling. Raffles may be conducted with prior approval from the Office of Student Life.

For procedures and protocols implementing this policy please contact the Development Office.

---

**GIFT ACCEPTANCE AND DISPOSITION POLICY**

**SLT 8.4**

**Date of Last Update:**

July 31, 2008

**Approved By:**

Senior Leadership Team

**Responsible Office:**

University Development

**POLICY STATEMENT**

This policy is established to govern the acceptance and disposition of all gifts made to Grand Valley State University, whether such gifts are inter vivos (lifetime) or from estates, other than gifts of: (1) cash or (2) publicly traded equities traded on national exchanges. The Vice President for Development in advance of acceptance must approve all such gifts, which fall under this policy.

Gifts subject to this policy will be considered in four categories:

1. Tangible personal property
2. Real property
3. Life insurance
4. Other assets

The latter category includes, but is not limited to: promissory notes, assignments of promissory notes, partnership interests, and restricted or non-publicly traded securities. The criteria for acceptance, the acceptance/approval process, and the disposition policy (where relevant) for each category are set forth below.

**PROCEDURES**

1. **Tangible personal property**
   
   **A. Criteria for acceptance**

   Gifts of tangible personal property, including but not limited to works of art, manuscripts, literary works, boats, motor vehicles, and computer hardware, may be accepted only after thorough review indicates that the property is (1) readily marketable or (2) needed by the University for use in a manner that is related to one of the purposes for which tax-exempt status of the University was granted; that is, for education, research, or a combination of both.

   **B. Approval/acceptance process**

   A Development Officer or other appropriate gift officer will prepare a written summary of the gift proposal and submit that summary to the Assistant Vice President for Development Services. At a minimum, the summary shall include the following information:

   - A description of the asset
   - The purpose of the gift (e.g. to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
   - An estimate or appraisal of the gift’s fair market value and marketability
   - Any potential University use and, if so, written review by the department to benefit from the asset
   - Any special arrangements requested by the donor concerning disposition (e.g., price considerations, time durations prior to disposition, potential buyers, etc.)

   The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, of necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the University’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

   If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of tangible personal property, the Development Officer will acknowledge receipt of the gift on behalf of the University. The University will not appraise or assign a value to the gift property. It is the donor’s responsibility to establish a value for the gift and provide, at the donor’s expense, a qualified appraisal required by the IRS in the case of gifts of tangible personal property valued in excess of $1,500.

   The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance acceptable to the University, and the delivery of the property, as applicable. The donor will pay all costs associated with the conveyance of the gift. In addition, the filing of Form 8283 by the donor is required by the IRS for gifts of tangible personal property valued at more than $500. The donor should send this form to the Gift Assistant for execution.

   **C. Disposition**

   Upon approval of a proposed gift of tangible personal property by the Vice President for Development, he/she will assign a University office the responsibility for disposing of the gift, unless the gift is intended for a specific University purpose, in which case no immediate disposition is necessary. Any guidelines on disposition, including minimum
sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the university office responsible for disposing of the gift.

Upon approval of a proposed gift, the Vice President for Business and Finance or his/her designee will identify a Fund and Organization Code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, a development code will be used as a holding account.

Until the property is sold or otherwise disposed of, the university office responsible for disposing of the gift will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.

The Vice President for Development must be consulted before a gift of tangible personal property may be sold for less than appraised value, estimated fair market value, or guidelines imposed by University Development in approving the gift, as the case may be. If in the judgment of the person responsible for disposing of the gift, a current appraisal of the property would assist in disposing of the property, the person responsible for disposing of the gift may request permission to have the appraisal performed.

Upon sale of the property, the office responsible for disposing of the gift will prepare a final report on the property, including a financial summary of net proceeds to the extent known, and distribute it to the Vice President for Development, the Vice President does Business and Finance or his/her designee, and the designated representative of the department to benefit from the gift.

2. Real Property
The University will consider gifts of real property, both improved and unimproved (e.g., detached single-family residences, condominiums, apartment buildings, rental property, commercial property, farms, acreage, etc.), including gifts subject to a retained life estate, only after a thorough review of the criteria for acceptance set forth below under the direction and supervision of the Vice President for Business and Finance or his/her designee. All gifts of real property shall be subject to terms and conditions as set forth in the Grand Valley State University Policy for Accepting Gifts of Real Estate.

A. Criteria for Acceptance
   i. Market Value and Marketability: The Vice President for Business and Finance or his/her designee must receive a reasonably current appraisal of the fair market value of the property and interest in the property the University would receive if the proposed gift is approved. Development Officers must understand and communicate to donors that it is the University’s policy to dispose of all gifts of real estate (other than property which the University wishes to retain) as expeditiously as possible. Thus, regardless of the value placed on the property by the donor’s appraisal, the University will attempt to sell at a reasonable price in light of current market conditions, and the donor needs to be informed that any such sale occurring within two years of the date of gift will be reported to the IRS on Form 8283.
   
   ii. Potential Environmental Risks: All proposed gifts of real property, including gifts from estates, must be accompanied by a Phase I environmental audit performed at the donor’s expense. The only permitted exception to this requirement is for residential property, which has been used solely for residential purposes for a significant (at least twenty year) period of time. In cases where this exception applies and no environmental audit is undertaken, the donor/executor must have an outside party complete an Environmental Checklist prepared by the Vice President for Business and Finance or his/her designee and may be required to execute an environmental indemnity agreement. Even in cases where a Phase I audit is submitted, the Vice President for Business and Finance or his/her designee may require that the donor sign an environmental indemnity agreement.
   
   iii. Limitations and Encumbrance: The existence of any and all mortgages, deeds of trust, restrictions, reservations, easements, mechanic liens and other limitations of record must be disclosed. No gift of an interest in real estate will be accepted until all mortgages, deeds of trust, liens and other encumbrances have been discharged, except in very unusual cases where the fair market value of the University’s interest in the property net of all encumbrances is substantial or where a separate agreement to pay such encumbrances which might be charges to the University has been executed by a financially responsible party.

   iv. Title Information: The existence and amount of any carrying costs, including but not limited to property owners’ association dues, country club membership dues and transfer charges, taxes and insurance, must be disclosed.

   v. Appraisal of the Properties: The result of a title search

B. Approval/Acceptance Process
The Development Office, with the assistance of the Vice President for Business and Finance or his/her designee, will prepare a written summary of the gift proposal and submit that summary to the Vice President for Development. At a minimum, the summary shall include the following information:

   • Description of real property
   • The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
   • An appraisal of the properties and, if different, the University’s interest in the property’s fair market value and marketability
   • The result of a title search
   • Any potential for income and expenses, encumbrances, and carry costs prior to disposition
   • Any environmental risks or problems revealed by audit or survey
   • Any potential University use
   • Any special arrangements requested by the donor concerning disposition (e.g., price consideration, time durations prior to disposition, potential buyers, realtors or brokers with whom the donor would like the University to list the property, etc.)

The Vice President for Development and the Vice President for Business and Finance will review the material present by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the University’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of real property, the Development Officer will acknowledge receipt of the gift on behalf of the University upon notice by the Vice President for Business and Finance or his/her designee that the property has been properly recorded in the local Registry of Deeds. The University will not appraise or assign a value to the gift property. It is the donor’s responsibility to establish a value for the gift and to provide, at the donor’s expense, a qualified appraisal required by the IRS.

The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance. The costs associated with the conveyance and delivery of the gift, including but not limited to recording fees and, if deemed necessary by the Vice President for Business and Finance or his/her designee, a current survey, title insurance and/or attorney’s title opinion, will be either paid by the donor or charged to the fund code of the department(s), program(s), or endowment(s) to benefit by the donation. In addition, the IRS for gifts of real property requires the filing of Form 8283 by the donor. The donor should send this form to the Vice President for Business and Finance or his/her designee for execution.

C. Disposition
It is the responsibility of the Vice President for Business and Finance or his/her designee to dispose of all gifts of real property Any guidelines the Vice President for Business
and Finance or his/her designee wishes to impose on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the Vice President for Development.

If the Vice President for Business and Finance or his/her designee determines that it is in the best interests of the University to retain for its own use a gift of real property, it will be recommended to the appropriate officers of the University and to the Board of Trustees that the University purchase the property and that, in all other cases they authorize liquidation of such funds for the benefit of the designated gift purpose.

Upon acceptance of a gift, the Vice President for Business and Finance or his/her designee will designate a code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, the code will be used as a holding account. Until the property is sold or otherwise disposed of, the Vice President for Business and Finance or his/her designee will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.

Upon sale of the property, the Vice President for Business and Finance or his/her designee will prepare a final report on the property, including a financial summary of net proceeds, and distribute it to the Vice President for Development and the designated representative of the department to benefit from the gift. The Vice President for Business and Finance or his/her designee responsible for filing Form 8283 for gifts of real property sold by the University within two years of the date of gift.

The Vice President for Business and Finance or his/her designee of responsible for filing Form 8283 for gifts of real property sold by the University within two years of the date of gift.

3. Life Insurance

A. Criteria for Acceptance

With approval of the Vice President for Development, the University will accept gifts of life insurance policies that meet the following two criteria:

- Has a minimum face value of $10,000
- Has a payment schedule not to exceed ten years and which assumes an interest rate not to exceed two percent below prime interest rate as of the effective date of the policy

Grand Valley State University is designated as the owner and beneficiary of the policy. If intended for endowment purposes, the face value of the policy meets the minimum funding standards for endowments established by the Board of Trustees.

B. Approval/Acceptance Process

The Development Officer will prepare a written summary of any proposed gift of a life insurance policy, which fails to meet all of the criteria specified in the section above and submit that summary through the University’s Director of Planned & Endowed Giving or his/his designee. At a minimum, the summary shall include the following information:

- Description of the type of life insurance policy, face value, premium payment schedule, interest rate, age of insured(s), and other relevant policy information
- The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift

The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as to whether to accept or reject the proposed gift or, if necessary, to postpone a decision pending the receipt of additional information. The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the University’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of a life insurance policy, the assigned Development Officer will acknowledge receipt of the gift on behalf of the University.

The gift will be completed upon the execution and delivery of the life insurance policy to the University or an assignment of the policy in the event that the University is not the original owner of the policy.

C. Administration

The Office of University Development shall administer all gifts of life insurance policies and shall maintain records of all donor policies, contribution schedules, donor designations of death benefits, and the like. The University’s Director of Planned & Endowed Giving or his/his designee shall be responsible for pledge reminders and monitoring payments of premiums.

The Vice President for Business and Finance or his/her designee shall be responsible for confirming the existence and cash value of all policies in force at least annually and for collecting and distributing death benefits. Upon receipt of death benefits, the Vice President for Business and Finance or his/her designee shall provide notice to the department(s), program(s), or endowment(s) to benefit from the gift.

4. Other Assets

Other assets include but are not limited to: promissory notes, assignments of promissory notes, partnership interests, and restricted or non-publicly traded securities.

A. Criteria for Acceptance

The University will consider gifts of other assets, including but not limited to promissory notes, assignment of promissory notes, partnership interests and restricted or non-publicly traded securities, only after a thorough review of the criteria set forth below.

i. Market Value and Marketability: The University must receive a reasonably current appraisal of the fair market value of the property and interest in the property the University would receive if the proposed gift is approved. Development Officers will inform the donor that, if the gift is completed, the IRS will require an appraisal made within sixty days of the date of gift. The appraisal and other information must indicate clearly and convincingly that there is in fact a market for the asset under consideration and that the asset can be sold within a reasonable period of time.

ii. Potential Environmental Risks: All proposed gifts in which the University would acquire an interest in real property must be accompanied by a Phase I environmental audit performed at the donor’s expense. The only permitted exception to this requirement is for residential property, which has been used solely for residential purposes for a significant (at least twenty-year) period of time. In cases where this exception applies and no environmental audit is undertaken, the donor must have an agent complete an Environmental Checklist prepared by the Vice President for Business and Finance or his/her designee and may be required to execute and environmental indemnity agreement.

iii. Limitations and Encumbrances: The existence of any and all mortgages, deeds of trust, restrictions, reservations, easements, mechanic liens and other limitations of record must be disclosed. No gift of an interest in real estate will be accepted until all mortgages, deeds of trust, liens and other encumbrances have been discharged, except in very unusual cases where the fair market value of the University’s interest in the property net of all encumbrances which might be charged to the University had been executed by a financially responsible party.
A copy of any title information in the possession of the donor, such as the most recent survey of the property, a title insurance policy, and/or an attorney’s title opinion, must be furnished.

B. Approval/Acceptance Process
The Development Officer will prepare a written summary of the gift proposal and submit that summary to the Vice President for Development and the Vice President for Business and Finance. At a minimum, the summary shall include the following information:

- Description of the asset
- The purpose of the gift (e.g. to fund an endowed chair, a deferred gift, and unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
- An estimate or appraisal of the asset’s fair market value and marketability
- Potential for income and expenses, encumbrances, and carry costs prior to disposition
- Any environmental risks or problems revealed by audit or survey
- Credit history or financial statement of financially responsible party, if applicable
- Any special arrangements requested by the donor concerning disposition (e.g., price considerations, time durations prior to disposition, potential buyers, realtors or brokers with whom the donor would like the University to list the property, etc.)

The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the university’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of an asset in Category 4, the assigned Development Officer will acknowledge receipt of the gift on behalf of the university. The university will not appraise or assign a value to the gift property. It is the donor’s responsibility to establish a value for the gift and to provide, at the donor’s expense, a qualified appraisal required by the IRS in the case of assets valued in excess of $1,500.

The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance, and the delivery of the property, as applicable. The cost associated with the conveyance will be paid by the donor upon delivery of the gift. In addition, the filing of Form 8283 by the donor is required by the IRS for gifts of assets valued at more than $1,500. The donor should send this form to the Office of University Development for execution.

C. Disposition
It is the responsibility of the Vice President for Business and Finance or his/her designee to dispose of all gifts of assets in this Category 4. If the asset involves an interest in real estate, it is generally expected that the Vice President for Business and Finance or his/her designee will assist in disposing of the asset. If the asset is a security, it is generally expected that the Vice President for Business and Finance or his/her designee will follow policies for disposing the asset. Any guidelines the Vice President of Business and Finance or his/her designee wish to impose on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the Vice President for Development at this time.

Upon acceptance of a gift, the Vice President for Business and Finance or his/her designee will designate a code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, the Vice President for Business and Finance or his/her designee will determine how the gift will be disposed.

Until the property is sold or otherwise disposed of, the Vice President for Business and Finance or his/her designee will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.

Upon sale of the property, the Vice President for Business and Finance or his/her designee will prepare a final report on the property, including a financial summary of net proceeds, and distribute it to the Vice President for Development and the designated representative of the department to benefit from the gift.

The Vice President for Business and Finance or his/her designee is responsible for filing Form 8283 for assets valued at more than $5,000 sold by the university within two years of the date of gift.

5. Acceptance and Disposition of Deferred Gifts

A. Deferred Giving
Development Services is asked to record various types of deferred gifts; the office is often asked to provide a description of the nature of such a gift, or explain how various types of deferred gifts should be recorded by us and/or handled for tax purposes. Ultimately, the Gift Assistant should refer related inquiries to the university’s Director of Major & Deferred Gifts. This does not, however, remove the need for the Gift Assistant to be familiar with this type of gift. For this reason, below are the general explanations of certain types of deferred gifts with commonly accepted rules. Information concerning specific treatment of these gifts at Grand Valley State University should be procured from the Office of University Development.

B. Bequests
The most common and simplest form of deferred giving: a bequest is a gift of property that is made through a donor’s will.

Benefits to Donors: Donors do not have to part with any money until they die, and do not owe any estate tax on the amount of the bequest.

6. Charitable Remainder Trusts
Two basic types of charitable remainder trusts qualify for federal tax benefits. In both arrangements, a donor gives stock, cash, or other assets to a trust. Those assets are invested; producing income for the donor - or other beneficiary – either for a fixed period of time or until the donor dies. The donor is allowed to claim a tax deduction for the estimated portion of the assets that will ultimately go to charity. When the donor dies, the charity keeps all remaining assets. There are two types of remainder trusts:

A. Unitrusts
Under a basic unitrust, the donor receives one or more yearly payments equaling a fixed percentage of the value of the asset. The value is assessed each year. Under a net-income unitrust, the donor receives only the income earned by the trust, even if the trust earns less than the payout rate. However, the trust can be set up to include a “make-up provision,” which allows donors to make up the lost income, provided the trust earns more than the payout rate in future years.

B. Annuity Trusts
The donor receives a yearly fixed payment equaling at least five percent of the value of the asset at the time the deferred-giving agreement was signed. Donors who give real estate commonly use charitable remainder trusts. Real estate is not usually given through gift annuities and cannot be given to pooled-income funds.

Benefits to Donors: Donors can get income-tax deductions and escape capital-gains taxes by making such gifts. Many donors find the trusts an appealing way to prepare for retirement. The assets can be invested to earn a lower rate of return when the donor is younger and then shifted to earn a higher rate of return, and thus provide more income, during a donor’s later years.

C. Gift Annuities
Donors contribute cash, securities, or other assets to a charity. In exchange, they receive annual payments for a fixed amount of time. With a deferred gift annuity, the annual payments do not start when the gift is made; they begin at a time specified by the donor when the gift is made.

Benefits to Donors: Gift annuities are attractive to donors who want to receive income from assets that have risen sharply in value, such as cash or stocks. In return for gifts of such assets, the charity guarantees the donators a fixed annual income for the rest of their lives and helps them avoid capital-gains tax. The donor also receives an income-tax break on a portion of the earnings from an annuity; the exact amount depends on the donor’s age.

D. Pooled-Income Funds

The donor gives cash, securities, or other assets to a non-profit organization, which then invests those assets in a large, diversified portfolio. The donor receives income from the fund proportionate to the value of his or her contribution, as well as an income-tax deduction based on the estimated principal that will be left to the charity. Obtaining a “unit” in a pooled-income fund is similar to buying a share of a mutual fund.

Benefits to Donors: Life gift annuities, pooled-income funds appeal to donors who want to earn income on stock and other assets and escape capital-gains taxes. Unlike annuities, a donor’s income from a pooled-income fund is tied to fluctuating interest rates. That means that in the long run, donors may receive larger earnings than they do from annuities, but they can also do less well in the short term. As a result, the funds tend to appeal to younger people who are more often willing to take risks with their investments.

E. Charitable Lead Trusts

A charity receives the income from the donor’s assets for a specified time, after which the asset is transferred back to the donor or to the donor’s heirs.

Benefits to Donors: A lead trust can reduce gift and estate taxes or provide a charitable deduction for the donor. Charitable lead trusts are most appealing to donors who want to pass appreciated assets to their heirs without paying a substantial amount in taxes. The donor pays a gift tax on the asset when it is placed in the trust; after that it can grow tax-free. At the end of the specified period, the asset is returned to the donor’s heir or heirs, who do not have to pay any additional taxes.

7. Deferred Gifts Policy of Grand Valley State University

In an effort to maintain continuity and consistency with deferred gifts to Grand Valley State University, the following policy has been established:

Gifts governed by this policy: All deferred gifts to the University, which are managed by Grand Valley State University or its agents, including but not limited to the following:

- Gifts establishing charitable remainder trusts
- Gifts to the pooled income funds
- Gifts purchasing charitable gift annuities
- Gifts funding charitable lead trusts

Gifts not governed by this policy: Deferred gifts that do not require management; for example, gifts of personal residences or farms with retained life estate in donor and deferred gifts with assets managed by trustees other than Grand Valley State University.

Trustee: Grand Valley State University has the option to serve as trustee of any deferred gift in which the University’s interest equals at least fifty-one percent of the total charitable interests. Usually the University prefers the use of a commercial trustee.

Payout rates: The payout rates offered to donors shall be competitive and determined in consultation with a Development Officer.

Value of Remainder: No deferred gift (except for deferred gift annuities) shall be accepted in which the value of the University’s remainder interest is less than twenty-five percent of the value of the assets transferred.

Minimum gift amounts: Grand Valley State University has the following minimums for acceptance of deferred gifts

- Charitable remainder trusts: Initial gift – $100,000
- Pooled income fund gifts: Initial gift - $5,000 Additional gifts - $1,000
- Charitable gift annuities: Initial gift - $10,000

Note: Gift annuities may not be offered to residents of states in which such contracts are considered to be insurance products or securities. Currently almost one-half of the states (including Florida, New York and California) classify these contracts as either insurance or securities. Because this list is constantly changing, approval should be obtained from the Development Office before discussions for this gift type are initiated.

Acceptable gift assets: The University will accept the following assets:

- Cash
- Publicly traded securities
- Real estate (subject to approval of the Vice President for Development)
- Other assets, such as closely held stock and partnership interests (subject to approval of the Vice President for Development.)

Valuation of gift assets: The University will follow applicable federal tax law.

Final approval, acceptance, and execution by the University: The Vice President for Development, in collaboration with the Vice President for Business and Finance or his/her designee must approve all documents.

All documents must be sent first to the donor for signature and then to the University’s Vice President of Business and Finance or his/her designee.

The Vice President of Business and Finance or his/her designee shall execute the documents on behalf of the University; and the documents shall be executed in duplicate and the originals distributed as follows:

- One original to donor
- One original to Vice President of Business and Finance or his/her designee
- Copies to the appropriate Development Officer

PRIVACY POLICY

SLT 8.5

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team
POLICY STATEMENT

Grand Valley State University maintains a database (Millennium) of biographical and gift/pledge information about alumni and friends in accordance with the general needs and expectation of the university community. The information contained in this database is intended exclusively for purposes related to Grand Valley State University programs.

It is the desire of Development Services to support the ongoing activities of Grand Valley State University by providing assistance for programs, communication and events that bring together the expanding orbit of constituents of the university. In order to provide the best possible service to those with legitimate needs for such information, and at the same time maintain the confidentiality of the information entrusted to us by our constituents, the following policies have been developed. These policies were approved in 2007 by the Vice President for Development and now apply to every request for information and to direct access to the Millennium System.

PROCEDURES

Organizations that may request information

The following organizations and individuals may request information from the Millennium database:

- Grand Valley State University affiliated organizations and constituent groups, in support of approved activities, including:
  - Office of Alumni Relations
  - Constituent groups approved by the Office of Alumni Relations
  - University Development
  - Other administrative units
  - Academic units
  - Athletic programs
  - Office of Career Planning

In cases of dispute about whether an organization has a legitimate affiliation with the University, the final decision will rest with the Vice President for Development or the Director of Development Services as the Vice President’s designee.

- Other colleges and universities seeking the location of alumni with degrees from both Grand Valley State University and the requesting institution
- Law enforcement agencies and student loan agencies
- Agencies that assist Development Services in locating Grand Valley State University’s alumni

Any other requests will be forwarded to that person whose information is sought so that he/she can decide whether or not to contact the requestor. No information will be released for those records coded “No Contact” indicating the alumnus or alumna has requested no university contact. The same rule will apply to records coded Confidential.

All requests for information from members of the media must be referred to University Communications.

Information that may be released

The following information may be released from the Millennium database:

- “Public information,” which is limited to:
  - Full name
  - Degree(s) and date of degree(s) awarded by Grand Valley State University
  - Major field of study
  - Class year

“Public information” will be provided only to those requestors identified above.

Federal law severely restricts the amount of information that may be released on current students. Therefore, no information on students will be released based on data maintained in Millennium. All requests for information on current students should be forwarded to the Registrar’s Office.

Information provided to volunteer alumni constituent groups would be limited to those alumni who are affiliated with the requesting group.

In addition to public information, request from the University Development, Alumni Relations, administrative, academic, or athletic units of Grand Valley State University and central administration may be provided the following information:

- Employment
- Student activities
- Alumni activities
- Family members
- Degrees obtained from other institutions
- Miscellaneous comments, awards and text
- Gift and pledge data
- Selected biographical attributes

Acceptable use of information

The following statements specify the acceptable internal uses of information from the alumni database:

1. Development Services will make available information from its database for the support of approved, university-related activities.

2. Approved activities include:
   a. Alumni Relations
   b. Fundraising
   c. Public Relations
   d. Governmental relations
   e. School/department communications to alumni/constituents
3. Information maintained in Millennium is not available for release for nonrelated commercial or political purposes.

4. If the information provided will result in the preparation of lists or directories that are to be published in book, magazine, newsletter, electronic media or other forms for general distribution among alumni groups, prior to publication each individual who might be included must be provided the opportunity to indicate in writing whether he/she wishes to be excluded.

5. Requestors of data from Millennium may contract to services of outside vendors (e.g. data processing consultants, direct mail firms, marketing and merchandise firms, etc.) to process and/or distribute information obtained from Millennium. In these cases:

   a. The vendor must agree to use the information only for the purpose intended by the university client. The sale or transfer of the information by the vendor is strictly prohibited.
   b. If the project in question results in the publication of directories or lists as identified above, the procedures outlined must be followed prior to publication.
   c. The vendor must ensure the prompt return of and university-owned computer tapes or electronic software provided in fulfillment of the contract.
   d. The university client or the vendor agrees to pay any costs associated with systems programming or special data processing that might be required beyond the normal capabilities of the Millennium computer system.
   e. In all cases involving the use of outside vendors or contractors, the absolute confidentiality of the information provided from the Millennium database is the responsibility of the requestor.

6. Formats available for distribution of information: Information may be obtained in the form of lists, labels, computer tapes, diskettes, and downloads by authorized university representatives in support of approved activities as noted above. It is the responsibility of the unit requesting information to maintain the absolute confidentiality of that information as specified in this policy statement.

7. Privacy Statement attachment: A privacy statement will be attached to any of the information provided to requestors of data from Millennium stating the following: The enclosed (attached) data is for the sole use of the requestor and may contain confidential and privileged information. Any unauthorized review, use, disclosure or distribution is prohibited. Responsibility for the absolute confidentiality of the information provided is the responsibility of the requestor.

8. Compliance with these policies: Failure to abide by any of the policies stated within this document may result in denial of access to information contained in the Millennium database. Request for reinstatement to access to this information must be approved by the Vice President for Development or a designee and must include written assurance of future compliance with these policies.

In cases of dispute about what constitutes an approved activity, the final decision will rest with the Vice President for Development or the Director of Development Services as the Vice President’s designee.

**Statement of database access policies**

Direct access to Millennium is restricted by the Millennium Security policies and procedures as well as the university’s Conditions of Use Information Technology Services Policy.

---

**ANTI-HARASSMENT POLICY**

SLT 9.1

**Date of Last Update:**
March 31, 2016

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Inclusion and Equity/Office of Affirmative Action

**POLICY STATEMENT**

**Article I. Purpose**

The goal of Grand Valley State University is to maintain a positive work environment for employees and a climate conducive to learning for students. The University, consistent with its policies and procedures, promotes institutional diversity by embracing such concepts as "affirmative action" and "equal opportunity" as a campus-wide strategy to provide equal access to opportunity. The University’s commitment to non-discrimination is the foundation for such efforts. This policy outlines expectations for institutional and individual conduct that apply to all University faculty and staff members.

It is neither the purpose nor intent of this policy to infringe on academic freedom as defined by Grand Valley State University’s Board of Trustees’ Policies and the Faculty Handbook.

**PROCEDURES**

**Article II. Prohibited Conduct Harassment**

Harassment is unprofessional conduct that could reasonably be understood as (1) having the purpose or effect of creating an intimidating, hostile, or offensive environment, (2) having the purpose or effect of unreasonably interfering with an individual's work performance or access to educational activities and programs, (3) otherwise adversely affecting an individual's employment opportunities or access to educational activities and programs.

Harassment on the basis of age, color, disability, familial status, height, marital status, national origin, political affiliation, race, religion, veteran status, or weight is considered a violation of university policy. (For sex/gender, sexual orientation, gender identity and/or gender expression, see Sexual or Gender-Based Harassment Policy.)

**Article III. Sanctions**

Any person who violates the University’s Anti-Harassment Policy may be subject to a range of sanctions (in accordance with University policies) which could include, but is not limited to, dismissal, according to due process, from University employment. Violators may also be subject to civil action or criminal prosecution because harassment and other...
discriminatory behavior may violate state or federal laws.

Article IV. Retaliation

1) Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.

a. Retaliation includes threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.

b. Retaliation may be present even where there is a finding of “no responsibility” on the allegations of prohibited conduct.

c. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.

2) Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

Article V. Procedural Guidelines for Discrimination and Harassment Complaints

A. Preliminary Issues

The following procedures are intended to enforce the University’s Equal Opportunity/Affirmative Action Policy (EEO/AA Policy) and the University’s Non-Discrimination and Anti-Harassment Policy. The procedures are initiated by making a complaint that alleges discrimination, including unlawful harassment, has occurred.

Complaints may be either formal or informal, and the procedure for each is described below.

B. Purpose of these Guidelines

The purpose of these procedural guidelines is to ensure that discrimination complaints, including harassment, are handled promptly and effectively in a manner that is procedurally fair to all parties. The Affirmative Action Office may deviate from these Guidelines as necessary to achieve the goals of prompt, thorough, and effective complaint resolution in a procedurally fair manner.

C. Time limit for Filing a Complaint

Typically, both formal and informal complaints should be reported as soon as possible and within sixty (60) days after discovery of the act which constitutes an instance of inappropriate behavior. The University retains the right to accept and address complaints reported anytime after the 60 day recommended time limit.

D. Confidentiality

Although discretion will be exercised, a guarantee of confidentiality or anonymity cannot be made because the fact-finding investigation will involve discussions with other parties. Information about the Complainant and the incidents giving rise to the complaint will be revealed only as investigatory and disciplinary processes require. Confidentiality will be observed to the extent permitted by law and which is consistent with protecting the welfare of the faculty, staff, and students, and the interests of the University.

E. Where to Make a Complaint

In most cases, a University Faculty/Staff member with a complaint alleging harassment in violation of this Policy, whether formal or informal, should report this to the Affirmative Action Office. A University student with a complaint alleging harassment in violation of this Policy, whether it is formal or informal, should report it to the Affirmative Action Office or the Dean of Students Office. In the event a complaint is received in offices other than the offices mentioned above, faculty and staff are responsible for referring the individual to the appropriate office.

F. Emergency

Provisional, emergency actions departing from these procedures may be taken by a University Appointing Officer with the advice of the Affirmative Action Office and the University Counsel Office and must be followed as promptly as possible by steps providing Respondent(s) with the notice and opportunity to defend the allegations.

Article VI. Informal Complaints

Individuals who believe they have experienced or may have witnessed discrimination or harassment in violation of this Policy should consult with the Affirmative Action Office. Contacting the Affirmative Action Office about a concern does not automatically result in a formal complaint.

The party making the complaint (the “Complainant”) may request that the University official consulted speak informally with the alleged offender(s) (the “Respondent”) informing them of the salient features of the complaint. If this process does not resolve the matter or, if the Complainant or University official who is consulted prefers, he/she may pursue any of the avenues of resolution listed below.

Informal complaints are those complaints where the Complainant or a witness of an alleged offense asks the Affirmative Action Office to assist in the resolution of an alleged violation of the Non-Discrimination and Anti-Harassment Policy.

1. Advising. One function of the Affirmative Action Office is to hear and address complaints concerning discrimination, including harassment of any type, in violation of this policy. If the Complainant seeks a preliminary informational and advising session with the Affirmative Action Office, an opportunity for full discussion of the case shall be provided. The Affirmative Action Office shall aid the Complainant in exploring all possible options for resolving the complaint as effectively as possible. In doing so, the Affirmative Action Office will observe the confidentiality provisions of this Policy.

Some incidents, if considered serious, may require some type of follow-up actions to be taken by the Affirmative Action Office. If any follow-up actions are deemed necessary, the Affirmative Action Office will inform the person who identified the concern that action will be taken.

Students may seek advice and guidance from the Dean of Students or the Affirmative Action Office.

2. Alternative Dispute Resolution (ADR). The goal of ADR is to provide a forum where the Complainant and Respondent can, with the aid of the third party come to a mutually agreed-upon resolution. ADR works only when both the complaining and responding parties voluntarily participate in the process. ADR facilitators may be assigned by the Affirmative Action office. By definition, informal resolutions do not include imposing sanctions, but they may involve mutually acceptable consequences.

a. Mediation Process. A favored method of alternative dispute resolution (ADR) of complaints is mediation, which also is a voluntary conflict-resolution process. The Complainant and the Respondent voluntarily agree to work with a third party mediator, who is usually a member of the University community that is a trained mediator, to resolve the complaint. This mediation is intended to resolve the complaint to the satisfaction of both the Complainant and the Respondent. Informal complaints need not be put in writing or signed by the Complainant. Certain types of incidents, however, may not be appropriate for mediation.
i. A faculty or staff member or student initiates the mediation process by making an informal complaint within the Human Resources Office or the Affirmative Action Office. Students may initiate the process in the Dean of Students Office or may consult with the Affirmative Action Office. The complaint need not be in writing or be signed by the complainant.

ii. The office receiving the complaint will discuss the mediation process with the Complainant to determine if mediation might be an appropriate method to resolve the complaint.

iii. If the Complainant wishes to proceed with mediation, then a person designated by the Affirmative Action Office, the Human Resources Office, or the Dean of Students Office meets with the alleged offender, informing him or her that an informal complaint has been filed and that the Complainant wishes to resolve it by mediation. The mediation process will be discussed with the alleged offender to determine if mediation might be an appropriate method to resolve the complaint. The Respondent is also informed that mediation is a voluntary conflict resolution process intended to make each party aware of the position or feelings of the other and to resolve the conflict.

iv. If both parties agree to mediation, a Mediator will be selected by the Affirmative Action Office, the Human Resources Office, or the Dean of Students Office. The mediator will be a trained member of the University community who is deemed the most suitable and knowledgeable based on the circumstances involved.

v. Mediation may also include meetings between the Mediator and the parties separately.

vi. If mediation has been successful, the Mediator will inform the Affirmative Action Office that the complaint has been resolved.

vii. If the Mediator determines that mediation cannot adequately resolve the issues, he or she will inform the Complainant and Respondent of this as well as the options available, such as filing a formal complaint. The Mediator will also notify the Affirmative Action Office that mediation was unsuccessful.

viii. If the Complainant is dissatisfied with the results of mediation, he or she may file a formal complaint.

Article VII. Formal Complaints (Written)

Formal complaints are those complaints where the faculty/staff/student files a written complaint with the Affirmative Action Office.

A. Filing a Formal Complaint

Complainants must provide a written description of the alleged(s) and the name of the alleged offender. Complaint forms are available from the Affirmative Action Office and on the web at http://www.gvsu.edu/inclusion/ under "Forms." The Complainant should complete the form, listing: the type of alleged offense; summary of alleged discrimination; who discriminated against the Complainant; what action has been taken so far; what action is suggested; and whether the Complainant has filed a complaint/grievance with any other agency. The Complainant must sign the complaint form and submit it to the Affirmative Action Office to begin a formal investigation.

B. Notifications

Certain notifications are required to ensure fairness and equity to all parties involved:

1. The appropriate Appointing Officer responsible for the areas where the Complainant and Respondent are employed will be notified. The appropriate Vice President and the Appointing Officer for the Respondent shall receive a copy of the Complaint.

2. Once he or she becomes the focus of a complaint, the Respondent must be notified of the complaint, the identity of the Complainant and the nature of the complaint. They will also be advised not to contact the Complainant directly or to retaliate against him/her. The appropriate Appointing Officer will meet with the Respondent and provide a copy of the Complaint and be advised of the obligation of non-retaliation.

3. If either the Complainant or Respondent is represented by a collective bargaining agreement, the appropriate official in the Human Resources Office will be contacted immediately to assist in the facilitating the fact-finding investigation process.

4. If the complaint is against a student, the Complainant may elect to pursue a formal charge through the Dean of Students Office. The Affirmative Action Office will notify the Dean of Students as appropriate.

5. If the complaint is against an appointing officer, only the appropriate Vice President is notified. If the complaint is against a Vice President or Provost, the President is notified. If the complaint is against the President, the Chair of the Board of Trustees is notified. If the complaint is against a member of the Board of Trustees, the Chair of the Board of Trustees will be notified. If the complaint is against the Chair of the Board of Trustees, the Vice Chair of the Board of Trustees will be notified.

6. The Affirmative Action Office will maintain periodic contact with the Complainant and Respondent regarding the complaint status throughout the investigation.

C. Steps in the Investigation Process

A formal fact-finding investigation process will be carried out in as timely a manner as possible. However, all parties involved are encouraged to recognize that a thorough investigation requires time. While no specific deadlines are established, required notifications, respondent and, where applicable, union representation and investigation activities should begin as quickly as possible after receiving the written complaint.

1. The Affirmative Action Office will determine the most effective method of investigating the concerns raised by the Complainant. If circumstances deem that the investigation should be referred to the Student Grievance Process, then the Dean of Students will handle oversight responsibilities of the complaint. If not referred to the Dean of Students, then the Affirmative Action Office is responsible for the investigation.

2. Unless unusual circumstances prevent or suggest otherwise, a co-investigator will be identified to participate in the investigation process that will be led by the Assistant Vice President for Affirmative Action. The co-investigator will be a trained/experienced member of GVSU’s faculty or staff.

3. The investigation will involve conducting a thorough fact-finding investigation that includes meeting with the Complainant, Respondent, pertinent witnesses and reviewing and analyzing relevant documents as they relate to each allegation of the complaint. The investigators have the obligation to remain neutral during the investigation. Occasionally, a different or less formal response to the complaint may be warranted. Although the Affirmative Action Office may deviate from these guidelines, it will still respond to the complaint in a prompt, thorough and effective manner that is procedurally fair.

4. Communication with the Complainant and Respondent regarding the current status of the investigation and anticipated or adjusted timelines for concluding will occur on a regular and timely basis.

D. Investigation Report

1. A Final Investigation Report will contain: 1) a summary of the Complainant(s) allegations and the Respondent’s relevant statement in response to the allegations; 2) analysis of findings that includes a description of the relevant information provided by witnesses or obtained from the documents; and 3) the conclusion about whether or not university policy has been violated.
2. The Final Investigation Report will be provided to the appropriate Appointing Officer and Vice President. The Assistant Vice President for Affirmative Action will verbally notify both the Complainant and the Respondent about whether or not university policy was violated. The co-investigator’s involvement in the matter concludes when the final investigation report is issued.

3. The Assistant Vice President for Affirmative Action will meet with a representative from the University Counsel Office and the Appointing Officer to discuss recommendations for any follow-up actions.

E. Standard for Determining Violations of This Policy

Allegations of violations of this Policy will be evaluated by considering the totality of the particular circumstances, including the nature, frequency, intensity, location, context, and duration of the questioned behavior. Although repeated incidents generally create a stronger claim of harassment, a serious incident, even if isolated, can be sufficient to rise to the level of being considered a policy violation.

F. Corrective Action

If the report finds that the EEO/AA policy or this Non-Discrimination and Anti-Harassment Policy were violated, the University will determine appropriate corrective action, up to and including dismissal. The University may also take corrective action if no discrimination or harassment is found, but Respondent is found to have engaged in inappropriate workplace behavior. If corrective action is to be taken against a Respondent that is represented by a collective bargaining agreement, the appropriate official in the Human Resources Office will be contacted immediately to assist in the facilitating the corrective action.

Article VIII. Other Information

Copies of complaint procedures are available online at: www.gvsu.edu/inclusion. Information regarding other grievance procedures is located in the following documents:

1. Faculty members - Section 3.02 of the Faculty Handbook.
2. Executive, Administrative and Professional Staff - Board of Trustees’ Policies, BOT 4.4.8
3. Clerical, Office and Technical Staff - Section 6, Grievance, of the present contract.
4. Confidential Clerical - Section 9, Grievances, of the Personnel Policies in the Confidential Clerical handbook.
5. Maintenance, Grounds, and Services - Section 6, Grievances, of the present contract.
6. Department of Public Safety Staff - Section 6, Grievances, of the present contract.
8. Student Employee - Student Employee Handbook and Student Code, Article IV. Student Grievance Procedures

CONSENSUAL RELATIONSHIP POLICY

SLT 9.2

Date of Last Update:
November 19, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity/Office of Affirmative Action

POLICY STATEMENT

Possessing and mastering a range of thoughtful perspectives is necessary for open inquiry, a liberal education, and a healthy community. Recognizing this, the University seeks to include, engage, and support a diverse group of students, faculty, and staff. The institution values a multiplicity of opinions and backgrounds, and is dedicated to incorporating multiple voices and experiences into every aspect of its operations. We are committed to building institutional capacity and strengthening our liberal education through providing an inclusive environment for all of our University constituents.

Article I. Purpose

The University’s goals are to maintain a positive work environment and a climate conducive to learning for students. The unequal institutional power inherent in academic and work relationships may heighten the vulnerability of those in subordinate positions. Accordingly, individuals holding positions of authority at the University must be aware of and sensitive to the potential conflict of interest, ethical concerns, and issues of sexual harassment that may occur in consensual relationships. Specifically, the parties to a consensual relationship must be aware that such relationships can create in co-workers and students perceived and real conflicts of interest. These relationships also create an environment of fear of unfair treatment in terms of promotions, grades, professional and/or educational opportunities, etc. This Policy outlines expectations for institutional and individual conduct that apply to all University faculty and staff members and students.

Article II. Consensual Relationships

Consensual romantic and sexual relationships between faculty and their students or between supervisors and their subordinates are inappropriate. Individuals should be aware that these relationships may create a perception of favoritism while the relationships continue. These relationships may be less consensual than perceived by the individual whose position confers power. The relationship also may be viewed in different ways by each of the parties, particularly in retrospect. Furthermore, circumstances may change and the conduct that was previously welcome may become unwelcome. If a sexual harassment complaint is subsequently filed, the argument that the relationship was consensual will be evaluated in light of the power differential in determining whether the University’s Anti-Harassment Policy has been violated. Under these circumstances, it will be extremely difficult to use mutual consent as a defense.

Consensual Romantic or Sexual Relationships between Faculty/Staff and Students. A faculty or staff member who has educational, supervisory, evaluation, advising, coaching, or counseling responsibilities for students shall not assume or maintain those responsibilities for a student with whom the faculty or staff member has engaged in romantic or sexual relations, even if such relations were consensual. Whether such romantic or sexual relationships predate the assumption of educational, supervisory, evaluation, advising, coaching, or counseling responsibility for the student, or arise out of the educational relationship, the faculty or staff member shall immediately disclose the romantic or sexual relationship to his or her Unit Head or supervisor, who shall promptly arrange alternate oversight of the student.

Consensual Romantic or Sexual Relationships between Supervisors and Subordinates. If a romantic or sexual relationship exists or develops between a supervisor, manager, or
Complaints concerning relationships between students are governed by the GVSU Student Code. Harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature made by a person having power or authority over another constitutes sexual harassment when submission to sexual conduct is made either explicitly or implicitly a term or condition of rating or evaluating an individual’s educational or employment progress, development or performance. This includes when submission to such conduct would be a condition for access to receiving the benefits of any educational or employment program.

Consensual romantic or sexual relationships between students. Complaints concerning relationships between students are governed by the GVSU Student Code.

ARTICLE III. Disciplinary Actions
Disciplinary action will be taken against faculty or staff members who violate this Policy, either by entering into or engaging in a sexual relationship with a student or subordinate for whom he or she has educational, supervisory, evaluation, advisory, coaching, or counseling responsibilities or by failing to report such relationship or failing to cooperate in making alternative arrangements.

ARTICLE IV. Confidentiality
Confidentiality of the disclosure of consensual romantic or sexual relationships will be observed to the extent permitted by law and that is consistent with protecting the welfare of faculty, staff, and students and the interests of the University.

SEXUAL OR GENDER-BASED HARASSMENT (INCLUDING RETALIATION) POLICY

SLT 9.3

Date of Last Update: May 15, 2019

Approved By: Senior Leadership Team

Responsible Office: Inclusion and Equity

POLICY STATEMENT

Sexual or gender-based harassment is prohibited conduct at the University. No employee, student or other person at the University shall engage in sexual or gender-based harassment. The University will take prompt and effective steps to end sexual or gender-based harassment; eliminate any hostile environment caused by sexual or gender-based harassment; prevent its recurrence; and remedy the discriminatory effects on the victim and others as appropriate.

This policy and related procedures for addressing complaints of sexual and gender-based harassment, apply to all University programs and activities, including those conducted off-campus. Where relevant, if the off-campus sexual or gender-based harassment did not occur in the context of a University program or activity, the University will consider the effects of such off-campus sexual or gender-based harassment when evaluating whether it creates a hostile environment on campus or in an off-campus education program or activity.

PROCEDURES

Reporting, Procedures & Notifications

1. Reports: Reports of sexual or gender-based harassment should be made immediately to the Title IX Office and can also be filed online. Under Title IX, most University employees are considered “Responsible Employees” meaning they are required to report to the Title IX Office incidents of Sexual Misconduct that they observe or about which they learn. Professional counselors at the University who provide mental-health counseling are not considered “Responsible Employees” and, therefore, are not required to report any incident of Sexual Misconduct. Other resources are also available: see the following link. Any inquiry concerning the application of Title IX may be referred to the Title IX Coordinator or to the U.S. Department of Education Office of Civil Rights.

2. Procedures: Procedures for responding to reports of sexual or gender-based harassment are maintained by the Division of Inclusion and Equity. Procedures will be reviewed on an annual basis for proposed revision to be implemented the following academic year. Revisions to procedures are approved by the Vice President of Inclusion and Equity, in consultation with the Senior Leadership Team. The University community (students and employees) will also be broadly consulted and periodically surveyed to obtain input on revisions.

3. Notifications: The University community will be notified, annually, of this policy and any revisions, inquiry contact information, and available resources and provided regular training regarding this policy as well as prevention and awareness education related to the prevention of and response to sexual and gender-based harassment.

DEFINITIONS:

Definitions

1. Sexual Harassment is unwelcome sexual, sex-based, request for sexual favors whether verbal, written, graphic, physical or otherwise, or other unwanted conduct of a sexual nature. When conditions are present as outlined in a. and/or b. below.

2. Gender-Based Harassment includes harassment based on gender, sexual orientation, transgender, gender non-conforming, transitioning, gender identity, or gender expression, which may include acts of aggression, intimidation, or hostility, whether verbal or non-verbal, graphic, physical, or otherwise, even if the acts do not involve conduct of a sexual nature. When conditions are present as outlined in a. and/or b. below.

   a. Quid pro quo harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature made by a person having power or authority over another constitutes sexual harassment when submission to sexual conduct is made either explicitly or implicitly a term or condition of rating or evaluating an individual’s educational or employment progress, development or performance. This includes when submission to such conduct would be a condition for access to receiving the benefits of any educational or employment program.

   b. Creates a hostile environment that is:

      i. Sufficiently severe, or persistent or pervasive, and objectively offensive that it unreasonably interferes with, limits, or deprives an individual from participating in or
benefitting from the University’s education or employment programs and/or activities.

ii. A hostile environment can be created by persistent or pervasive conduct or by a single or isolated incident, if sufficiently severe. The more severe the conduct, the less need there is to show a repetitive series of incidents to prove a hostile environment, particularly if the conduct is physical; a single incident of sexual or gender-based harassment, for example, may be sufficiently severe to constitute a hostile environment. In contrast, the perceived offensiveness of a single verbal or written expression standing alone, is typically not sufficient to constitute a hostile environment.

iii. In evaluating whether a hostile environment exists, the University will consider the totality of known circumstances, including, but not limited to:
   1. The frequency, nature and severity of the conduct;
   2. Whether the conduct was physically threatening;
   3. The effect of the conduct on the Complainant’s mental or emotional state;
   4. Whether the conduct was directed at more than one person;
   5. Whether the conduct arose in the context of other discriminatory conduct (see Anti-Harassment Policy);
   6. Whether the conduct unreasonably interfered with the Complainant’s educational or work performance and/or University programs or activities; and/or,
   7. Whether the conduct implicates concerns related to academic freedom or protected speech.

c. Transgender, gender non-conforming, transitioning, gender identity, and gender expression definitions:
   i. Transgender: An umbrella term that can be used to describe people whose gender identity and/or expression is different from their sex assigned at birth.
   ii. Gender non-conforming: Describes people who have, or are perceived to have, gender characteristics and/or behaviors that do not conform to traditional or societal expectations.
   iii. Transition/Transitioning: The process of changing one’s gender from the sex assigned at birth to one’s gender identity.
   iv. Gender Identity: A personal, internal sense of oneself as, for example, male, female, both, or neither.
   v. Gender Expression: The external appearance of one’s gender identity, or how one represents one’s gender through hair style, clothing, mannerisms, etc.

Retaliation

1. Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.
   a. Retaliation includes threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.
   b. Retaliation may be present even where there is a finding of “no responsibility” on the allegations of prohibited conduct.
   c. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.

2. Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

More information about Procedures related to this policy, and other useful information can be accessed at the following link.

SEXUAL MISCONDUCT POLICY INCLUDING: SEXUAL ASSAULT, SEXUAL EXPLOITATION, INTIMATE PARTNER VIOLENCE (DOMESTIC OR DATING VIOLENCE), STALKING & RETALIATION

SLT 9.4

Date of Last Update:
March 03, 2016

Approved By:
- Senior Leadership Team

Responsible Office:
Inclusion and Equity

POLICY STATEMENT

I. Sexual Misconduct is any conduct that is considered sexual assault, dating violence, domestic violence, stalking and sexual exploitation as those terms are defined by this policy. Sexual Misconduct is prohibited conduct at the University. No employee, student or other person at the University shall engage in Sexual Misconduct. The University will take prompt and effective steps to end Sexual Misconduct, eliminate any hostile environment caused by Sexual Misconduct, prevent its recurrence, and remedy the discriminatory effects on the victim and others as appropriate.

This policy and related procedures for addressing complaints of Sexual Misconduct apply to all University programs and activities, including those conducted off-campus. Where relevant, if the off-campus Sexual Misconduct did not occur in the context of a University program or activity, the University will consider the effects of such off campus Sexual Misconduct when evaluating whether it otherwise creates a hostile environment on campus or in an off-campus education program or activity.

PROCEDURES

II. Reporting, Procedures & Notifications

1. Reporting: Reports of Sexual Misconduct should be made immediately to the Title IX Office and can also be filed online. Under Title IX, most University employees are considered “Responsible Employees” meaning they are required to report to the Title IX Office incidents of Sexual Misconduct that they observe or about which they learn. Professional counselors at the University who provide mental-health counseling are not considered “Responsible Employees” and, therefore, are not required to report any incident of Sexual Misconduct. Other resources are also available: see the following link. Any inquiry concerning the application of Title IX may be referred to the Title IX Coordinator or to the U.S. Department of Education Office of Civil Rights.

2. Procedures: Procedures for responding to reports of Sexual Misconduct are maintained by the Division of Inclusion and Equity. Procedures will be reviewed on an annual basis for proposed revision to be normally implemented the following academic year. Revisions to procedures are approved by the Vice President of Inclusion and Equity, in consultation with the Senior Leadership Team. The University community (students and employees) will also be broadly consulted and periodically surveyed to obtain input on revisions.

3. Notification: The University community will be notified, annually, of this policy and any revisions, inquiry contact information, and available resources and provided regular training regarding this policy as well as education related to the prevention and awareness of and response to Sexual Misconduct.
DEFINITIONS:

III. Definitions

1. Sexual Assault is an offense that meets the definition of rape, fondling, incest, or statutory rape, as defined in the Federal Bureau of Investigation’s (FBI) Uniform Crime Reporting (UCR) program, as having or attempting to have sexual intercourse or sexual contact with another individual by force or threat of force; without affirmative consent; or where the person is incapacitated.

2. Sexual Assault consists of (a.) Sexual Contact and/or (b.) Sexual Intercourse that occurs without (c.) Affirmative Consent.
   a. Sexual Contact is any intentional sexual touching, however slight, with any object or body part (as described below), performed by a person upon another person.
   i. Sexual Contact includes: (a) intentional touching of the breasts, buttocks, groin or genitals, whether clothed or unclothed, or intentionally touching another with any of these body parts; and (b) making another touch you or themselves with or on any of these body parts; (c) causing another to touch one’s intimate parts, disrobing or exposure of another without permission.
   b. Rape is sexual penetration, however slight, of another person without affirmative consent. Penetration can be of the mouth, vagina, or anus, and can be with a penis, tongue, finger, or foreign object.
   c. Sexual Intercourse is vaginal or anal penetration, however slight, with any object or body part (as described below) performed by a person upon another person; and/or, oral penetration involving mouth to genital contact.
   i. Sexual Intercourse includes: (a) vaginal penetration by a penis, object, tongue, or finger; (b) anal penetration by a penis, object, tongue, or finger; and (c) any contact, no matter how slight, between the mouth of one person and the genitalia of another person.
   d. Affirmative Consent is informed (knowing); voluntary (freely given); and, active (not passive), meaning that, through the demonstration of clear words or actions, a person has indicated permission to engage in mutually agreed-upon sexual activity and the consenting person is not incapacitated as defined by this policy.
   i. Affirmative Consent cannot be obtained by Force. Force includes: (a) the use of physical violence, (b) threats, (c) intimidation, and/or (d) coercion.

1. Physical violence means that a person is exerting control over another person through the use of physical force. Examples of physical violence include but are not limited to hitting, punching, slapping, kicking, restraining, strangling, and brandishing or using any weapon.

2. Threats are words or actions that would compel a reasonable person to engage in unwanted sexual activity. Examples include threats to harm a person physically, to reveal private information to harm a person’s reputation, or to cause a person academic or economic harm.

3. Intimidation is an implied threat that menaces or causes reasonable fear in another person. A person’s size, alone, does not constitute intimidation; however, a person’s size may be used in a way that constitutes intimidation (e.g., blocking access to an exit).

4. Coercion is the use of an unreasonable amount of pressure to gain sexual access. Coercion is more than an effort to persuade, entice, or attract another person to have sex. When a person makes a clear decision not to participate in a particular form of Sexual Contact or Sexual Intercourse, a decision to stop, or a decision not to go beyond a certain sexual interaction, continued pressure can be coercive. In evaluating whether coercion was used, the University will consider: (i) the frequency of the application of the pressure, (ii) the intensity of the pressure, (iii) the degree of isolation of the person being pressured, and (iv) the duration of the pressure.
   ii. Affirmative Consent cannot be gained by taking advantage of the incapacitation of another, where the person initiating sexual activity knew or reasonably should have known that the other was incapacitated.

1. Incapacitation means that a person lacks the ability to make informed, rational judgments about whether or not to engage in sexual activity.

2. Incapacitation is such that it renders the person incapable of self-care and protection. Incapacitation could be the result of alcohol or other drugs or due to a temporary or permanent physical or mental health condition.
   iii. Affirmative Consent to one form of sexual activity does not, by itself, constitute Affirmative Consent to another form of sexual activity.

IV. Intimate Partner Violence

Intimate Partner Violence is any act of Domestic Violence or Dating Violence as defined by this Policy.

1. Domestic Violence is any act of violence committed by any of the following individuals: (a) a current or former spouse or intimate partner of the victim; (b) person with whom the victim shares a child in common; (c) person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner; and/or, (d) a resident or former resident of the victim’s household in the event such household residents have a current or prior intimate relationship.
   a. An incident of domestic violence can consist of a single act of violence or a pattern of violent acts that includes, but is not limited to, sexual or physical abuse, or the threat to engage in such abuse.
   b. For the purposes of determining Intimate Partner Violence, whether the relationship is of a romantic or intimate nature is determined by a variety of factors, including: (a) the length of the relationship, (b) the type of relationship, and (c) the frequency of interaction between the persons involved in the relationship.
   c. A relationship of a romantic or intimate nature means a relationship that is characterized by the expectation of affection or sexual involvement between the parties.
   d. An incident of dating violence can consist of a single act of violence or a pattern of violent acts that includes, but is not limited to, sexual or physical abuse, or the threat to engage in such abuse.

V. Stalking

1. Stalking occurs when a person engages in a course of conduct directed at a specific person under circumstances that would cause a reasonable person to fear bodily injury or to experience substantial emotional distress.
   a. Course of conduct means two or more acts, including but not limited to acts in which a person directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about another person, or interferes with another person’s property.
b. Reasonable person means a reasonable person under similar circumstances.

c. Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

2. Stalking includes “cyber-stalking,” a particular form of stalking in which a person uses electronic media, such as the internet, social networks, blogs, cell phones, texts, or other similar devices or forms of contact. This policy prohibits all stalking, not just stalking that occurs within the context of a relationship.

VI. Sexual Exploitation

Sexual Exploitation is purposely or knowingly doing any of the following:

1. Causing the incapacitation of another person (through alcohol, drugs, or any other means) for the purpose of compromising that person’s ability to give Affirmative Consent (see Section III.2.d.) to sexual activity;
2. Allowing third parties to observe private sexual activity from a (a) hidden location (e.g., closet), or (b) through electronic means (e.g., Skype or live streaming of images);
3. Engaging in voyeurism (e.g., watching private sexual activity without the consent of the participants or viewing another person’s intimate parts (including genitalia, groin, breasts or buttocks) in a place where that person would have a reasonable expectation of privacy);
4. Recording or photographing private sexual activity and/or a person’s intimate parts (including genitalia, groin, breasts or buttocks) without consent;
5. Disseminating or posting images of private sexual activity and/or a person’s intimate parts (including genitalia, groin, breasts or buttocks) without consent;
6. Knowingly exposing another person to a sexually transmitted infection or virus without the other’s knowledge;
7. Arranging for others to have non-consensual sexual contact, as defined by the Sexual Misconduct policy, with a non-consenting person.

VII. Retaliation

1. Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.

a. Retaliation includes threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.

b. Retaliation may be present even where there is a finding of “no responsibility” on the allegations of prohibited conduct.

c. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.

2. Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

More information about Procedures related to this policy, and other useful information can be accessed at the following link.

---

**DISABILITY ACCOMMODATION POLICY FOR FACULTY AND STAFF**

**SLT 9.5**

**Date of Last Update:**
September 16, 2013

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Inclusion and Equity

**POLICY STATEMENT**

Grand Valley State University is committed to the fundamental academic principles of equity and accessibility by providing all faculty, staff and students with access to the University’s programs, services, events and activities. The aim of this policy is to support an inclusive academic environment by incorporating design concepts that reduce or remove barriers. University faculty or staff members who are persons with a disability are not required to identify themselves as persons with a disability or to request an accommodation. However, the University cannot accommodate an individual who does not inform the University about his/her disability and his/her need for an accommodation. A faculty or staff member seeking an accommodation must request it by submitting their request to the Disability Support Resources Office following its procedures.

**PROcedures**

The Disability Support Resources Accommodation Process

To request an accommodation, a University faculty or staff member must:

A. Self-identify as a person with a disability by application to the Disability Support Resources office (DSR). It should be noted that The University conducts a survey of faculty and staff for statistical purposes and this does not constitute a method of self identification consistent with this policy. If a faculty or staff member requests an accommodation, the supervisor/unit administrator should refer the faculty or staff member to the DSR or its web site at [http://www.gvsu.edu/dsr/](http://www.gvsu.edu/dsr/)

B. Provide documentation of the disability; and

C. Indicate in the application to the Disability Support Resources office, his/her need for accommodation and provide supporting medical documentation from an appropriate professional, if requested by the Disability Support Resources office. The medical professional must have first-hand knowledge of the condition and a familiarity with the physical, emotional and cognitive demands of the disability.

Once an application has been submitted to the DSR, a DSR advisor will review the application and may contact the faculty or staff member who submitted the application. The advisor will contact the supervisor/unit administrator and discuss whether an accommodation is warranted, explore possible accommodations, and assess the effectiveness each would have in enabling the faculty or staff member to perform his/her job including the following:
A. The essential job functions of the position. The essential functions are the fundamental job duties of the employment position at issue. To be qualified for a position, an individual must be able to perform the essential functions of the job, with or without a reasonable accommodation.

B. The faculty or staff member’s ability to perform essential job functions with or without a reasonable accommodation; and,

C. Possible types of reasonable accommodations, if any are needed.

Reasonable accommodations vary depending on the circumstances of each case. In evaluating alternatives for accommodation, the preferences of the individual are considered, but the ultimate decision regarding what type of accommodation, if any, will be provided is made by the University. Nothing in this document shall be construed to waive the University’s right to contest whether a faculty or staff member is disabled or is entitled to an accommodation.

Medical documentation, as well as other related materials, will be maintained at DSR. Such documentation is kept confidential, except as necessary to administer the accommodation process or otherwise permitted by law. Such documentation may be shared only with those individuals involved in the accommodation process on an as needed basis.

During the accommodation request process, DSR may:

A. Request additional documentation;

B. Consult with Human Resource Office;

C. Evaluate whether any accommodation is needed and, if it is, whether an accommodation is reasonable and should be made (this evaluation may include preparing cost estimates);

D. Assess various accommodations;

E. Identify alternative accommodations or solutions;

F. Provide information from resources about the capabilities of persons with similar disabilities and the tools/techniques they use;

G. Determine a reasonable accommodation, if appropriate;

H. Provide a written determination to the department/unit and faculty or staff member;

I. Explain the department/unit’s responsibility to fund an accepted accommodation or seek alternative funding, if needed;

DSR makes a determination regarding implementation of accommodations. DSR will consider each request for reasonable accommodation and determine: (1) whether the accommodation is needed, (2) if needed, whether the accommodation would be effective, and (3) if effective, whether providing the reasonable accommodation would impose an undue hardship.

Appeals

If a faculty or staff member or supervisor/unit administrator disagrees with the DSR determination, the decision may be appealed to the Vice President of Inclusion and Equity, in writing to:

Vice President of Inclusion and Equity
4035 James H. Zumberge Hall
Allendale, MI 49401
Office number: (616) 331-3296

Retaliation

Retaliation against a faculty or staff member who requests an accommodation is prohibited. Individuals who feel that they have experienced retaliation may contact the Division of Inclusion and Equity

RELIGIOUS INCLUSION POLICY
SLT 9.6

Date of Last Update: November 19, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity/Office of Affirmative Action

POLICY STATEMENT

Possessing and mastering a range of thoughtful perspectives is necessary for open inquiry, a liberal education, and a healthy community. Recognizing this, the University seeks to include, engage, and support a diverse group of students, faculty, and staff. The institution values a multiplicity of opinions and backgrounds, and is dedicated to incorporating multiple voices and experiences into every aspect of its operations. We are committed to building institutional capacity and strengthening our liberal education through providing an inclusive environment for all of our University constituents.

Purpose

Many University students, staff, and faculty observe religious traditions from a variety of religions. This Religious Inclusion Policy (“Policy”) acknowledges the right of students, staff,
and faculty to engage in religious observances. The University is committed to accommodate the exercise of that right.

The University acknowledges that conflicts in scheduling mandatory academic requirements and employment obligations with religious observances are inevitable. Although the University does not observe religious holidays, it recognizes that there are a number of religious holidays that affect significant numbers of our students, staff, and faculty. This Policy is intended to provide clarity to students, staff, and faculty who seek accommodation to practice their faith.

**PROCEDURES**

**Accommodations**

Grand Valley State University will make a reasonable effort to allow its students, staff, or faculty to be away from work or a class to observe their religious beliefs, except where accommodating the request would result in undue hardship on the University in its mission, operation or in meeting its academic standards. The University provides quiet areas for student, staff, and faculty reflection, meditation, and prayer. A list of these quiet areas may be found on the Inclusion and Equity webpage.

Faculty should be sensitive to the observance of religious holidays so that students who miss classes to practice their faith are not disadvantaged. A list of religious holidays is found on the Inclusion and Equity website. Please note that this list is meant to be inclusive of most major religious traditions (although certainly not comprehensive), and that religious holidays have no official status at the University.

Faculty should make every effort to avoid scheduling examinations or assigning work that is due on religious holidays. Some religious holidays begin at sundown on the evening before the published date of the holiday. Consequently, faculty should avoid scheduling late afternoon exams on these days.

Faculty shall not penalize any student who has properly notified the faculty member by complying with the Request Accommodation Procedure for his/her absence in classes, examination, or assignments. Faculty should accept a student’s claim of a scheduling conflict on religious grounds at face value. If class attendance is required by the faculty member, classes missed to observe a religious holiday may not be counted as an absence.

Faculty must provide a reasonable opportunity for such a student to make up missed assignments and examinations within a reasonable period of time before or after the student’s absence, provided the student has properly notified the faculty member by submitting a Request Accommodation Form. Faculty must give the student the opportunity to do appropriate make-up work that is no more difficult or time-consuming than the original exam or assignment.

Nothing in this Policy, however, exempts a student from meeting course requirements or completing assignments. The faculty member may respond appropriately if the student fails to satisfactorily complete the make-up assignment or examination.

Further, when scheduling university events and activities, such as Family Weekend, Commencement, Convocation, and University sponsored conferences, planners should consult the list of religious holidays on the Inclusion and Equity website before selecting the date and time to ensure inclusiveness.

**Religious Accommodation Procedure**

All requests for accommodation for religious observance should be made in the following manner:

**Students** Faculty should inform students of all examination dates and assignment deadlines at the start of each semester in the class syllabus. If a conflict with a religious observance exists, students must request a religious accommodation from their faculty within the first two weeks of each semester or as soon as reasonably possible after the instructor announces a particular mandatory class, examination, or assignment so that alternative arrangements can be made for any class, examinations, or assignments missed. If an accommodation is needed within the first two weeks of the semester, the student must provide the faculty member with reasonable advance notice of the need for accommodation. Requests for accommodation must be made through a Religious Accommodation Form, which may be found at the Dean of Students Office, the Office of Affirmative Action or under “Forms” at [www.gvsu.edu/inclusion](http://www.gvsu.edu/inclusion). It is the student’s responsibility to provide faculty with reasonable notice of the need for accommodation and the timing of the notice may be taken into account in determining whether granting the request would create an undue hardship.

The faculty member and the student should discuss and agree upon what would constitute a reasonable accommodation in each given case. If the student and faculty member agree upon an accommodation, the accommodation must be carried out and disclosed on the Religious Accommodation Form. The completed Religious Accommodation Form shall be filed by the faculty member in the Dean of Students Office.

If the student and faculty member cannot agree on an accommodation, either party may bring the matter to the Unit Head to determine the accommodation. Either party may appeal the Unit Head’s decision to the Dean, who will make a final binding decision.

Where a student has obligations to a placement site (e.g. internships), that student must also work out arrangements with the placement site to make up for missed responsibilities or duties.

**Staff** The use of vacation and personal leave is governed by the staff member’s respective Board of Trustees’ Policies, Staff Handbook, or Collective Bargaining Agreement. Vacation days requested for the express purpose of religious observance will not be unreasonably denied by the staff member’s supervisor if the staff member has accrued vacation leave or is eligible for personal leave and the granting of leave or vacation time will not result in undue hardship for GVSU.

Faculty: The use of vacation and personal leave is governed by the Faculty Handbook. Requests by a faculty member for leave for religious accommodation, however, shall be considered under this Policy if the faculty member has made arrangements for any missed classes and the granting of the leave will not result in undue hardship for GVSU. Faculty that miss class time due to a religious observance must make alternate arrangements for that time with his or her Unit Head. If the Unit Head denies the request, the faculty member may appeal to the Dean, who will have final decision authority over the request.

Nothing in this Policy exempts a GVSU faculty or staff member from fulfilling their job responsibilities.

**Confidentiality**

Although discretion will be exercised, a guarantee of confidentiality or anonymity cannot be made because the determination of a reasonable religious accommodation will involve discussions with other parties. Information about the request for religious accommodation will be revealed only as the deliberation process requires. Discretion will be observed to the extent permitted by law and that is consistent with protecting the welfare of the students, staff, and faculty and the interests of the University.

**Retaliation**

Any attempt to retaliate against an individual who files a religious accommodation request or otherwise utilizes this Policy is prohibited.

---

**WEB ACCESSIBILITY POLICY**

SLT 9.7

**Date of Last Update:**

November 12, 2018

**Approved By:**
POLICY STATEMENT

Grand Valley State University is committed to the fundamental academic principles of equity and accessibility by providing all students and staff with equitable access to the University's programs, services, events and staff development activities. The aim of this policy is to support an inclusive academic environment by incorporating design concepts that reduce or remove barriers to our websites or to provide equally effective alternative access.

This policy establishes minimum standards for the accessibility of web-based information and services considered necessary to meet the University's goals and ensure compliance with applicable law. The University has assigned web accessibility responsibilities to its Americans with Disabilities Act Coordinator and Web Manager, or their designees.

This policy applies to all official web pages and associated web-based services developed by or for a college, school, department, program, or unit of the University.

The University will ensure that new online content and functionality developed, procured, or used will be fully accessible to individuals with disabilities. This action will include any staff training that may be necessary to ensure full implementation.

All new web pages published by any University college, school, department, program, or unit on or after the effective date of this policy must conform to WCAG 2.0 Level AA Technologies Accessibility Standards and this policy.

For existing online content, the University has: developed a strategy for identifying inaccessible content and functionality for individuals with disabilities; developed a notice to person with disabilities regarding how to request that the University provide access to online information or functionality; prominently posted this notice on its home page and throughout its website; and developed a process to ensure that, upon request, inaccessible content and functionality will be made accessible in an expedient manner.

Each web site must contain a link to report accessibility issues, or to request an accessible version, should users have trouble accessing content within the site. This would usually be the site administrator or content author.

PROCEDURES

Training

Accessibility training will be provided and required of all faculty, staff and other authorized representatives prior to being given access to manage any online content through the Content Management System (CMS) or through remote access to a web server (FTP, SFTP, SSH, etc.).

This training will help content administrators produce accessible content, and assess and correct content that may be inaccessible. All content administrators will be required to attend Accessibility Training on an annual basis as long as they manage online content.

Enforcement

If necessary, at the discretion of the Web Accessibility Coordinators or their designees, some or all non-compliant portions of the web pages and resources may be taken offline, or brought into compliance by designated staff or contractors.

Purchasing of Outside Content

All web-based content and systems, whether developed internally or obtained from third-parties that the University chooses to make available, is expected to conform to accessibility standards set forth in this policy. Accessibility of these technologies should be verified by University staff with demonstrated ability in accessibility evaluation. This verification process should be accomplished through hands-on evaluation of the product, prior to purchase.

When evaluating third-party products, it is advisable to choose the most accessible product in the space. However, not always will there be accessible choices, or the most accessible choice may not align with other dominant selection criteria. In cases where a product with limited accessibility has been purchased, interim, equivalent accommodations documented in an approved ADA exception should be in place until the service can be made accessible.

Contact Information

Any concerns with the accessibility of online content should be directed to the Americans with Disabilities Act Coordinator, 4035 James H. Zumberge Hall, 616-331-3296 and/or Web Manager, 2090 James H. Zumberge Hall, 616-331-2525 or their designees who serve as the University’s Web Accessibility Coordinators. You may also utilize the Section 504 and Title II grievance procedures found at http://www.gvsu.edu/accessibility.

MINORS ON CAMPUS POLICY

SLT 9.8

Date of Last Update:
August 20, 2018

Approved By:
• Senior Leadership Team

Responsible Office:
Human Resources

POLICY

“Grand Valley is committed to strengthening our living, learning, and working environment by recognizing and removing the barriers to full participation and providing a safe, inclusive, vibrant community for all.” – Inclusiveness core value section of the University’s Strategic Plan

Grand Valley State University is committed to being a safe and healthy environment for all. This includes students, faculty, staff, and campus visitors, especially those who are minors. As a public university open to everyone, the University welcomes children and teenagers on our campuses for a variety of programs and activities planned by the University or by outside organizations. In all situations, adults are expected to be positive role models for minors, acting in a respectful and responsible manner consistent with the mission and values of the University. To promote this vision, the University publishes and enforces policies, procedures, and guidelines that have the goal of promoting health, safety, and
that involves Minors or provides University housing for Minors participating in a Program, whether utilizing University housing or not, shall abide by the following:

1. **Waiver or release forms:** participation, medical treatment, use of photographs and other media: All Minors participating in a University Program must provide a waiver or release form for participation in the program, medical treatment authorization, and use of photographs and other media by the University. This can be one form or several, and all forms must be signed by a Parent, Legal Guardian, or Foster Parent prior to their participation in a Program.

2. **Behavior of Minors on Campus.** Minors are to be held to the same standards of behavior expected of enrolled students, as described in University policies.

3. **Information maintained by Programs.** All Programs shall maintain an up-to-date list of all Program names and dates, locations, attendance information (names, ages and emergency contacts for Program Participants); list of all Authorized Adults, documentation of their training (item #5 below) and background check (item #6 below) for the Program; and a Program contact, so that in the event of an emergency, appropriate measures may be taken. All Programs must establish a procedure for the notification of a Program Participant's Parent/Legal Guardian/Foster Parent in the case of an emergency, which might include medical or behavioral issues involving the Minor, or changes in the Program due to unforeseen and significant disruptions. Parents/Legal Guardians/Foster Parents must also be given contact information in a manner in which the Program Participant can be contacted while the Program is in session. All information, including release forms, shall be retained by the Sponsoring Unit for five years after the Program ends.

4. **Supervision of Minors.** All Programs must provide adequate supervision of Minors while they are on Campus. One-on-One Contact with Minors is discouraged, unless in public spaces. In general, it is required that two or more Authorized Adult will be involved in activities where Minors are present. Parents/Legal Guardians/Foster Parents may sign a waiver giving consent for their Child to be alone with an Authorized Adult. (For example, if music lessons are being provided by an adult instructor.) Exceptions in rare circumstances may also be granted (see below).

5. **Training of Authorized Adults.** Each Authorized Adult, who is not the Minor's Parent, Legal Guardian, Foster Parent or an adult designated by the Parent or Legal Guardian, who will be participating with Minors in a Program, shall complete training in the conduct and reporting requirements of this policy. This training is given to maximize the protection of Minors from abuse of any kind. The appropriate vice president, dean, unit head, or area director may enhance and/or supplement the required training Program to meet specific needs of the particular Program involved. Documentation that the Authorized Adults have been trained should be maintained by a designated and identified member of the Program's Sponsoring Unit for five years.

6. **Background checks of Authorized Adults.** All Authorized Adults in the Program must complete and submit the Authorization for Release of Information for Background Check Form to Human Resources. Background checks must be completed every five years. (See also PC 10.7 Volunteers Policy for Authorized Adults who are not University employees.)

7. **Procedures for release of Minors.** All Programs must establish a procedure for the pick-up and drop-off of Program Participants, specifying times and locations. The Authorized Adult(s) overseeing the pick-up and drop-off of Program Participants shall remain at the specified location until all Minors have been released. If a minor is not picked up, the Authorized Adult(s) will contact the parent or guardian, the program director and finally, Grand Valley Department of Public Safety if needed.

In rare circumstances, strict adherence to this policy's requirements may not always be feasible or be the best practice for managing risk. If a Program can justify an exception in consultation with and with approval from Human Resources, or, when appropriate, obtain written consent by the Parent/Legal Guardian/Foster Parent for the parameters applicable to the Program, certain requirements under this policy may be waived. Such waivers will be considered on a case-by-case basis.

II. **Conduct Requirements of Authorized Adults**

All Authorized Adults, participating in Programs and activities covered by this policy, should be positive role models and act in a caring, honest, respectful, and responsible manner. They are required to comply with all applicable laws and University policy. In addition, at all times, they shall:

1. **In general,** avoid One-on-One Contact with Minors, unless in public spaces. Two or more Authorized Adults must be involved in Programs where Minors are present unless a waiver has been signed or an exception has been granted.

2. Have separate accommodations from the Minors. An Authorized Adult should not have One-on-One Contact by entering a Minor’s room, bathroom facility, or similar area without another Authorized Adult in attendance.

3. **Not take photographs or digital images of Minors other than specified in the waiver for photography** (see Section I.1).

4. **Not engage in private communication not pertaining to Program matters with a Minor by email, telephone, text message, social media, or any other method at any time, except when there is a clear educational purpose and the communication is consistent with the mission of the University.**

5. **Not meet with Minors outside of established times for Program activities.** Any exceptions require written Parent/Legal Guardian/Foster Parent authorization and must include more than one Authorized Adult from the Program.

In the presence of a Minor or during any University Program, not engage in any sexual activity or romantic conversations, or sexually explicit comments.

7. Not possess, have within reach and/or share sexually-oriented printed or computerized or portable materials, magazines, cards, videos, films, clothing, smartphones, etc.) in any form available to Minors participating in Programs or activities covered by this policy or assist them in any way in gaining access to such materials. The one exception would be legitimate sexual education Programs in which the Minor's Parent/Legal Guardian/Foster Parent have given prior written consent.

8. **Not engage in abusive conduct of any kind toward, or in the presence of, a Minor.** For example, no Authorized Adult shall strike, hit, administer corporal punishment or touch in an abusive or illegal manner any Minor. If necessary, touching should only be in the open, in response to the Minor’s immediate physical needs, for a purpose that is consistent with the Program’s mission and culture, or for a clear educational, development, safety, or health-related purpose (i.e., treatment of an injury).

9. **Not possess fireworks, firearms, knives, or other weapons, unless being used for an officially sanctioned and approved instructional Program.** (See also the Weapons policy [PC 6.27].)
10. Not transport Minors, except as specifically authorized in writing by the Minor’s Parent/Legal Guardian/Foster Parent, or in the case of an emergency.

11. Not engage in the use of alcohol or illegal drugs, or be under the influence of alcohol or illegal drugs, during such Programs or activities. (See also the Alcohol and Other Drugs policy [PC 5.1].)

12. Respect and adhere to any resistance from the Minor unless it is a life-threatening emergency.

13. Not continue to participate in Programs or activities if an allegation of prohibited or illegal conduct has been made against an Authorized Adult covered by this Policy until such allegation has been satisfactorily resolved and future participation in Programs is permitted by the University.

14. Not engage in any activity that violates the policies of the University (www.gvsu.edu/policies). This includes the harassment policies [PC 9.1, PC 9.3], the Sexual Misconduct policy [PC 9.4], and the Religious Inclusion policy [PC 9.6].

Those who do not meet the prescribed standards of behavior may be asked to leave the Campus and/or Program and may be subject to expulsion from the Program, suspension of attendance, being issued a “no-trespass” order by Public Safety, or disciplinary action up to and including termination of employment. (See also Section VII of this policy.)

The behavioral requirements in this policy are not meant to preclude enrolled University students from developing appropriate friendships with Minors who are close in age to the enrolled student; rather, the requirements are meant to protect Minors from abusive or illegal contact and inappropriate relationships.

III. Third Party Programs Held on University Property

Third Parties using University facilities for events that involve Minors shall operate within all policies and requirements to use University facilities. In addition, adults who interact with Minors in these activities shall conform to the conduct requirements in Section II of this policy.

IV. Minors Enrolled in Courses

Minors who are matriculated students of the University, guest students from other institutions, or dual-enrolled students are subject to all university policies. Adults who interact with Minors in courses (e.g., faculty teaching courses, academic advisors) are also subject to all university policies and shall conform to the conduct requirements in Section II of this policy. The requirements of Section I of this policy do not apply.

V. Minors at the University Who Are Not Participating in a Program

1. Minors brought to Campus by an employee, student, or visitor, and who are not participating in a Program by a Sponsoring Unit, are the sole responsibility of the employee, student, or visitor. The person bringing the child to Campus is responsible for all aspects of the Minor’s behavior including the Minor’s safety and is financially responsible for any damages caused by the Minor.

2. Minors are permitted at events and venues open to the public. However, the University reserves the right to determine, in its sole discretion, whether selected events or venues are appropriate for unescorted or unsupervised Minors.

3. In the event a Minor is on Campus and (1) is unsupervised by an adult, (2) they are not a Participant in a University Program, and (3) they are not a Participant in a Third Party Program (Section III), they may be required to leave the Campus.

Activities for which this Section V of the policy is relevant include:

- Events or performances on Campus that are open to the general public (e.g., athletic competitions, plays, concerts);
- Pre-enrollment visits such as admission, recruiting, and orientation events;
- Services provided by the Campus Health Center or other similar On-Campus clinical services during which a Minor is under the supervision of a Parent/Guardian/Foster Parent or a clinical provider;
- Non-residential field trips to Campus supervised by a Minor’s school or organization;
- Private, personal events (e.g., birthday parties, weddings) for which the user has a separate, signed agreement with the University to use space on Campus.

The following activities are exempt from this policy: Off-campus clinical, practicum, internships, student teaching, or similar experiences in which (1) University students (undergraduate or graduate) interact with Minors as part of the experience and (2) are supervised by a third party. This also includes Off-Campus events in which registered student organizations participate with third-party organizations.

VI. Reporting Requirements

Reporting requirements of suspected child abuse or other illegal conduct towards a Minor shall be in accordance with applicable federal, state and local laws. In particular, see:

- State of Michigan Department of Health and Human Services rules on reporting abuse and neglect. (This page includes indicators of child abuse and/or neglect and the State of Michigan’s definition of “Mandatory Reporters”.)

Individuals who witness or suspect child abuse should conduct an investigation or delay in notifying the appropriate authorities via 911. Such actions could taint any appropriate criminal or administrative investigation and render evidence inadmissible.

In addition, the University’s Police Department/Public Safety site provides up-to-date definitions of unlawful behavior: https://www.gvsu.edu/gvpd/title-ix-and-campus-security-authority-report-141.htm

VII. Additional Considerations

1. When an Authorized Adult or other person has been alleged to engage in inappropriate conduct with a Minor, that individual must discontinue any further participation in Programs covered by this policy until such allegation has been satisfactorily resolved and he or she has been given written permission by the University to participate again in Programs. Resolution of the allegation will involve appropriate investigatory steps, and any written permission to continue participation (or participate in the future) in a Program covered by this policy must be coordinated with Human Resources.

2. Any person that requires accommodations due to a disability, while visiting campus must inform the Sponsoring Unit of their needs.

VIII. Interaction with Other Standards, Practices, and Requirements

Nothing in this policy is meant to supersede or replace the standards of practice of other entities in responding to child abuse, suspected incidents of child abuse or threats of child abuse. Satisfying the requirements of this policy does not relieve a person from any obligation to follow the protocols of another entity that may apply to the particular incident.

Individual University units maintain the discretion to impose safety measures beyond those required by this policy on University Programs they sponsor or oversee. Additionally, all state and federal requirements must be followed.

PROCEDURES

Human Resources may develop forms and guidelines to assist Programs that wish to work with Minors on Campus. In addition, Human Resources will conduct random audits annually to ensure compliance with this policy.

DEFINITIONS:
Definitions

1. “Authorized Adult” is an individual, age 18 and older, paid or unpaid, who supervises, chaperones, or otherwise works with Minors in Program activities, or recreational, and/or residential facilities. This includes but is not limited to faculty, employees, student employees, staff, volunteers, graduate and undergraduate students, interns, teachers, employees provided by temporary agencies, third-party hosts, and independent contractors/consultants. The role of Authorized Adult may include positions such as counselors, chaperones, coaches, instructors, and other similarly situated persons. Temporary guest speakers, presenters and other individuals who have no direct contact or only incidental contact with Program Participants, other than as short-term activities supervised by Program staff, are not considered Authorized Adults but are still expected to conform to the conduct requirements in Section II of this policy.

2. “Campus” includes all domestic real property owned or leased by the University and can include any of its campuses.

3. “Parent” is the natural Parent or adoptive Parent as recognized under the law, of a Minor child whose parental rights and responsibilities have not been terminated under applicable law. “Legal Guardian” is any person appointed under applicable law to have the care and management of the person, the estate, or both of a Minor. “Foster Parent” is a person appointed by the court to temporarily provide the care and management of the minor child.

4. “One-on-One Contact” is personal, unsupervised interaction between any Authorized Adult and a single Program Participant Minor without at least one other Authorized Adult, Parent or Legal Guardian being present. Unless in public spaces, such contact is to be avoided by all adults on Campus, whether considered an Authorized Adult under this policy or not.

5. “Program” or “Programs” are programs and activities offered by various academic or administrative units of the University, whether on University property or not, that potentially will include Minors as Program Participants. This includes but is not limited to workshops, sports camps, academic camps, conferences, and similar activities.

6. “Program Participants” are Minors who are involved in University-sponsored Programs both on and off Campus.

7. “Sponsoring Unit” is the academic or administrative unit of the University that offers a Program or gives approval for housing or other use of facilities.

CONFLICT OF INTEREST POLICY

SLT 10.1

Date of Last Update:
August 13, 2012

Approved By:

- Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

In the pursuit of its mission, Grand Valley State University through its Board of Trustees, Senior Leadership Team, faculty, staff and other representatives operates with the highest level of ethical behavior including, but not limited to, acting with integrity, reasonableness and fairness in our dealings, and avoiding bias or undue influence. Consistent with these values, the Board of Trustees has adopted institutional policies for identifying and managing potential, actual and perceived conflict of interest situations:

Grand Valley State University Board of Trustees' Policies, 6.16: Economic Development

1. Employment. Appointment of any relative of a faculty or staff member must be approved by the president in advance of the appointment in order to insure that no conflicts of interest exist. Each appointing officer must insure that no conflicts of interest exist in matters of appointment, retention, promotion, termination, assignment or other conditions of employment for relatives of faculty or staff members within his or her unit.

2. Financial. It shall be the responsibility of the president (or his/her designee) to insure that conflicts of financial interest do not occur, and to take such steps to protect the university as seem to be required. The university respects the rights of its faculty and staff members in their activities outside their employment, which are private in nature and which in no way conflict with or reflect upon the university.

3. Political Candidates or Office Holder. The university affirms the rights of its faculty and staff members as citizens to be active in political affairs, which do not conflict with the professional standards and ethics of their employment. It shall be the responsibility of the president (or his/her designee) to ensure that conflicts involving professional standards and ethics do not occur with Grand Valley State University faculty and staff members who are political candidates or office holders, and to take such steps to protect the university as may be required

Grand Valley State University Board of Trustees' Policies, 6.16: Economic Development

Consistent with its public service mission, the University has a responsibility for supporting the economic development of the state, particularly west Michigan through a variety of initiatives including but not limited to the Van Andel Global Trade Institute, the West Michigan Science and Technology Initiative through the Grand Rapids SmartZone and the Muskegon SmartZone. These efforts will involve the development and commercialization of intellectual property using University resources, which may result in royalty or ownership interests for the benefit of the University. In compliance with MCL 15.321 et. seq., the President must review any conflict of interest and authorize such activities as may be deemed necessary when the University is an interested party in the joint development or commercialization of intellectual property with any employee of the University or a business in which the University employee has an equity interest. The President shall report his/her approval of such conflicts, including a summary of the issues and the rationale for his/her decision, at the next regularly scheduled board meeting, and shall make an annual report of all such conflicts.

PROCEDURES

In addition to the policy obligations described above, the University requires compliance with procedures to avoid or address conflicts of interest as provided by the following offices:

Refer to the Procedures for Conflicts of Interest table.

**LEGAL SERVICES POLICY**

SLT 10.2

**Date of Last Update:**

March 03, 2015

**Approved By:**

- Senior Leadership Team

**Responsible Office:**

Legal, Compliance & Risk Management

**POLICY STATEMENT**

Pursuant to Grand Valley State University Board of Trustees' Policies BOT 10.2 approved by the Board of Trustees, the President has designated that legal services be coordinated through one administrative office, the Division of Legal, Compliance and Risk Management. All legal services for Grand Valley State University shall be provided through the Division of Legal, Compliance & Risk Management, either by its legal staff, by outside counsel retained by this Division or both. All requests for legal services on behalf of the University must be directed to this Division. The Division of Legal, Compliance and Risk Management provides legal counsel and assistance exclusively to Grand Valley State University representatives regarding University matters.

Personal legal advice or representation with regard to a personal matter should be privately retained and paid for by other than University funds.

**FREEDOM OF INFORMATION ACT POLICY**

SLT 10.3

**Date of Last Update:**

June 03, 2019

**Approved By:**

- Senior Leadership Team

**Responsible Office:**

Legal, Compliance & Risk Management

**POLICY STATEMENT**

Section 1 of the Michigan Freedom of Information Act ("FOIA" or "the statute") provides, "It is the public policy of this state that all persons, except those persons incarcerated in state or local correctional facilities, are entitled to full and complete information regarding the affairs of government and the official acts of those who represent them as public officials.
and public employees, consistent with this act. The people shall be informed so that they may fully participate in the democratic process.”(1) To that end, all people, excluding prisoners, are allowed to file FOIA requests with a Grand Valley State University (the “University”). A requester must simply file a request in writing with the University’s FOIA Coordinator, and the University will begin processing his or her request.(2) Each request must include the requesting person’s complete name, address (in compliance with United States Postal Service addressing standards), and either a telephone number or email address.

The University, in its initial response, will do one of the following within the timeframe permitted by the statute: grant the request, partially grant the request, deny the request, inform the requester that additional time is needed, require a fee deposit prior to further processing, or inform the requester that the requested record has not been sufficiently described.

If a request is denied or partially denied, the University will explain why the documents have not been released and inform the requester of his or her challenge and appeal options.

A fee deposit will be required when processing a request that will require significant University employee time and resources. The University will notify the requester of the estimated cost and provide a non-binding, best efforts estimate of the time it will take to complete the processing of the request. It is possible that after further processing of the request, the University will determine that the cost of processing the request is significantly less or greater than the estimated cost. If that is the case, the University will notify the requester to allow the requester to determine whether and how he or she wants to proceed with the request.

After the University receives a required deposit, it will make every effort to provide the requested documents within the time estimate provided. Requesters must understand, however, that at any given time, the University is processing multiple requests and cannot devote all of its time to one particular request.

If a requester feels that he or she was wrongly denied responsive documents, he or she may appeal to the Head of the Public Body, which for the purposes of these Procedures and Guidelines is the Vice President and General Counsel, or file a civil action. If a requester believes that the University has required a fee that exceeds the amount permitted under the Procedures and Guidelines, he or she may file a civil action. Requesters are also always free to contact the FOIA Coordinator at 616-331-2067 or foia@gvsu.edu with any questions about the processing of their requests. Detailed Procedures and Guidelines follow.

PROCEDURES

1. How to submit a FOIA request to the University
   a. A FOIA request must be submitted in writing to the FOIA Coordinator in the Division of Legal, Compliance & Risk Management. The request may be transmitted in hard copy, by email, or by facsimile.
   b. The University’s FOIA Coordinator address 4068 James H. Zumberge Hall, Grand Valley State University, Allendale, MI 49401. The email address is foia@gvsu.edu. The fax number is (616) 331-3950.
   c. A request should describe the record(s) sought sufficiently to enable the University to find the record(s) and should provide the requester’s contact information.
   d. Requests should state that they are submitted pursuant to the Michigan Freedom of Information Act.
   e. Requests received electronically are deemed received the next business day. A business day is defined as Monday through Friday, exclusive of holidays and institutional closure days.
   f. If a request is delivered to the FOIA Coordinator’s junk mail folder, the request will be deemed received one business day after the FOIA Coordinator becomes aware of the request. The FOIA Coordinator will check the junk mail folder at least once per week.

2. Responses to FOIA requests to the University
   a. The University will respond to a FOIA request within five (5) business days of the FOIA Coordinator receiving the request.
   b. A response will consist of one or more of the following:
      i. A granting of the request
      ii. A partial granting of the request, and a partial denial because some or a portion of the records do not exist, are not in the possession of the University, and/or are exempt from disclosure
      iii. A complete denial of the request because all of the records do not exist, are not in the possession of the University, and/or are exempt from disclosure
      iv. A notice that more time is needed to process the request
         1. If more time is needed, the University will send out a follow up response within 10 business days of the initial response.
      v. A notice that a fee deposit is required prior to further processing
         1. If a fee deposit is required, the University will include in its response a non-binding, best efforts estimate regarding the time it will take to provide the records to the requester.
         vi. A notice that the record(s) sought has (have) not been sufficiently described to enable the University to locate the record(s).
   c. The response will state the FOIA exemptions under which any information and/or documents are withheld, if applicable.
   d. If any part of a request for records is denied for any reason, the response will set forth the procedures for appealing the denial.

3. Deposit Requirements
   a. A fee deposit will be required when the processing of a request will result in fees equal to or greater than $50.00.
   b. The required deposit will equal up to 50% of the estimated cost of fulfilling the request as calculated at the time of the initial response.
   c. If the University requires a deposit, it will not process the FOIA request further until the deposit is paid.
   d. If a deposit is not received by the FOIA Coordinator within 45 days of the initial notice, the request will be considered withdrawn. Notice of a deposit requirement is considered received three days after it is sent, regardless of the means of transmission.
   e. If, after receipt of the deposit and further processing of the request, the University learns that the processing costs will be significantly different from the estimated costs, the University will so notify the requester. Where the actual effort to search for, review and separate exempt material significantly exceeds the original estimate, the University will notify the requester. The requester may choose to receive a revised fee deposit notice, or limit his/her original request to those records, which may be processed within the time stated in the original fee estimate.
   f. A person who makes a FOIA request for which a deposit is required may withdraw that FOIA request without charge instead of paying the required deposit. Failure to pay the deposit will be deemed a withdrawal of the FOIA request.
g. The University will treat multiple concurrent FOIA requests on the same topic(s) and/or regarding the same record keeper(s) and from the same person as one FOIA request for purposes of determining whether the fee is below $50.00.

h. Where a requester who has not paid the final fee for the processing of an earlier request files a new FOIA request, the University may require a deposit of all (100%) of the estimated fees for processing the subsequent request prior to processing the subsequent request.

4. Calculation and Payment of Fees
   a. Fees are calculated by adding together the following costs:
      i. The labor costs for searching for, locating, and examining responsive records
      ii. The labor costs for review, separation, and deletion of exempt information from non-exempt information
      iii. The cost of non-paper physical media, if used
      iv. The cost per copy of paper copies, not to exceed $.05/page for standard 8 ½ x 11 inch paper
      v. The labor costs directly associated with duplication or publication, which may include copying to non-paper media
      vi. The cost of mailing
   b. Final fees for responding to a FOIA request will be billed when the University responds to the FOIA request. A detailed FOIA fee itemization form will be provided by the University with the response. The amount invoiced must be paid within ninety (90) days. The University reserves the right to require payment in full of all fees incurred in processing a FOIA request before delivering the final, responsive documents.
   c. The University’s decision to deny access to public records sought by a FOIA request because those records are, in whole or in part, exempt from disclosure does not excuse the person who files that FOIA request from payment of fees for the work undertaken by the University in response to that request.
   d. The University may waive or reduce the fees it is authorized to charge if it determines that a waiver or reduction of the fee is in the public interest because responding to the FOIA request can be considered as primarily benefiting the general public.
   e. Fee reductions or waivers are required in certain instances involving proven indigence or non-profit organizations. The University will apply these reductions or waivers in accordance with the statute.

5. Procedures for Challenge and Appeal
   a. If the University denies a request in whole or in part, the requester may:
      i. Submit an appeal to the Head of the Public Body, which for the purpose of these Procedures and Guidelines is the Vice President and General Counsel, in writing, via the FOIA Coordinator, using the contact information listed in Item 1, above. The appeal must specifically use the word "appeal" and identify the reason(s) the requester seeks reversal of the denial. The Head of the Public Body must respond to the appeal within ten (10) business days by doing one of the following:
         1. Reversing the FOIA Coordinator’s decision
         2. Upholding the FOIA Coordinator’s decision
         3. Reversing in part and upholding in part the FOIA Coordinator’s decision
         4. Issuing a notice of extension for not more than ten (10) additional business days.
      ii. Commence a civil action in the Court of Claims within one hundred eighty (180) days after the University’s final determination to deny a request.
   b. If a requester believes that the University has required payment of a fee that exceeds the amount permitted under these Procedures and Guidelines, he or she may commence an action in the Court of Claims for a fee reduction within forty five (45) days after receiving the notice of the required fee.
   c. If a requester has questions regarding any FOIA response, including estimated fees or actual fees assessed, the requester should not hesitate to contact the FOIA Coordinator by email: foia@gvsu.edu or telephone 616-331-2067.

FOOTNOTES
(1) M.C.L.A. 15.231.
(2) Verbal requests for information are not FOIA requests for purposes of these Procedures and Guidelines. If a verbal request for information is received by a University employee who knows that the information is available on the University’s website, the employee, where practicable, will inform the requester about the University’s website address.
(3) The University has determined, consistent with FOIA, that failure to charge fees in situations where the fees would be equal to or greater than $50.00 would result in unreasonably high costs to the University.
(4) A copy of the standard form that the University uses for fee itemization, with additional explanatory information, is attached to these Procedures and Guidelines.
(5) Labor costs will be estimated and charged in increments of 15 minutes or more, with all partial time increments rounded down. The labor is charged at the hourly rate of the lowest paid University employee capable of doing the work, plus fringe benefits, if applicable. If it is not possible for the work to be done by a University employee, the University will contract the work out and charge per the provisions of the statute.

GROUNDS AND FACILITY USE POLICY
SLT 10.4

Date of Last Update:
September 06, 2017

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management
I. Pursuant to Article VIII of the Michigan Constitution of 1963, Grand Valley State University ("the University") has the responsibility to serve as a public institution of higher education. To carry out this Constitutional mandate, the University owns and/or controls property and facilities. The University has established the following grounds and facility use policy to ensure the University’s educational mission is actualized, while allowing for the exchange of ideas.

This policy applies to all buildings, grounds, and other spaces owned or controlled by the University.

For purposes of this policy, the term "Expressive Activity" includes:

1. Meetings and other group activities of students and student organizations;
2. Speeches, performances, demonstrations, rallies, vigils, and other events by students, student organizations, and outside groups invited by student organizations;
3. Distributions of literature, such as leafletting and pamphletting; and
4. Any other expression protected by the First Amendment to the U.S. Constitution.

University property is primarily dedicated to academic, student life and administrative functions. But it also represents the "marketplace of ideas," and especially for students, many areas of campus represent a public forum for speech and other Expressive Activities. For students and registered student organizations, certain areas of campus are venues for free expression, including speeches, demonstrations, and the distribution of literature, as provided by this policy.

The University shall not consider the content or viewpoint of the Expressive Activity or the possible reaction to that Expressive Activity in applying this policy. The University shall not impose restrictions on students, student organizations, or university employees due to the content or viewpoint of their Expressive Activity or the possible reaction to that Expressive Activity. In the event that other persons react negatively to a student’s, registered student organization’s, or university employee’s Expressive Activity, the University (including representatives from the Department of Public Safety) shall take all necessary steps to ensure public safety while allowing the Expressive Activity to continue, unless the University’s operations are materially and substantially disrupted.

No Expressive Activity shall be permitted to violate or hinder the rights of others within the campus community.

The University does not assume any obligation or responsibility for the content of the materials distributed.

PROCEDURES

II. General Rules.

Subject to the additional rules set forth herein, students and student organizations shall be allowed to conduct Expressive Activities on University property within the following parameters:

1. The Expressive Activity does not block access to campus buildings and does not impede ingress or egress to the University, any University property, parking lot, building, faculty, or event (generally a minimum of 25 feet).
2. The Expressive Activity takes place at least 50 feet from academic buildings.
3. The Expressive Activity does not obstruct vehicular or pedestrian traffic.
4. The Expressive Activity does not constitute unlawful activity.
5. The Expressive Activity does not create a clear and present threat to public safety.
6. The Expressive Activity does not take place in a location that has already been reserved by the University, a registered student organization, or an outside organization.
7. The Expressive Activity does not use any amplification devices.
8. The Expressive Activity does not include posting materials on University property, except as provided by the University Posting Guidelines [http://www.gvsu.edu/posting/]
9. The Expressive Activity does not include soliciting or accepting donations, except as provided in this policy.
10. The Expressive Activity takes place between the hours of 8 a.m. and 5 p.m., except as otherwise provided in this policy. Gatherings at the Carillon Tower or the Transformational Link may take place until 11 p.m.
11. Distribution of printed materials must be done in person.
12. Individuals and/or groups engaged in Expressive Activity are responsible for picking up any printed materials dropped on the ground around the areas of distribution. The University may charge such individuals and/or groups a reasonable clean up fee if they fail to do so.
13. Parking lots, ramps, and garages are not designated or suitable for Expressive Activities, and windshield flyers are not permitted.
14. Individuals and/or groups engaging in Expressive Activity agree to pay for any damage they cause to University property.
15. For University employees, the Expressive Activity addresses a matter of public concern.

This policy shall not apply to any person or organizations desiring to sell merchandise or services on campus. Any person or organization desiring to sell merchandise or services on campus should contact the Event Services Office at 616-331-2350.

B. Outdoor Locations.

For outdoor University areas, students, registered student organizations, and employees may freely engage in spontaneous Expressive Activities provided that such activities are in compliance with all other provisions of this policy.

Students and registered student organizations may reserve outdoor University facilities to solicit and accept donations for charitable causes or to engage in other Expressive Activities.

C. Indoor Locations.

For indoor University facilities and areas, students, registered student organizations, and University employees may freely engage in spontaneous Expressive Activities subject to the following conditions:

1. Distribution of written or printed materials, such as leafletting or pamphletting, and petitioning for signatures may be conducted at all outdoor locations and the indoor locations specified in this policy.
2. Guests may speak at indoor locations as long as they are invited by a student or a registered student organization.
3. The Expressive Activities are in compliance with all other provisions of this policy.

Students and registered student organizations may use the Kirkhof Center for the following activities:

1. Students and registered student organizations may reserve space in the Kirkhof Center for any proper purpose, including, but not limited to, to promote a cause or event, to promote a student organization, or to solicit and accept donations for charitable causes.
2. Distribution of written or printed materials, such as leafletting or pamphletting, and petitioning for signatures may be conducted inside the Kirkhof Center, as long as the student or registered student organization reserves the space pursuant to this policy.
D. Reserving Campus Facilities:

1. If students, registered student organizations, or University employees wish to reserve indoor or outdoor campus facilities, they shall submit their application for reservation to Event Services at least two business days prior to the reservation date. The University will respond to the reservation application within one business day.

2. If individuals or organizations who are not members of the University community (i.e., not students, student organizations, or University employees) wish to use campus facilities for Expressive Activities on campus, they may use either the area surrounding the Carillon Tower or the plaza surrounding the Transformational Link. Use of this space is free of charge and may be reserved by contacting Event Services at 616-331-2350. A reservation for use of the space will take precedence over a spontaneous Expressive Activity. Expressive Activities must stay within 50 feet of each of these landmarks and are to follow the General Rules provided herein.

3. Students, registered student organizations, University employees, and non University members may reserve facilities for Expressive Activities to take place after 5 p.m., subject to the facility’s hours and availability.

4. Reservation requests will be processed and granted on a first-come, first-served basis. These requests may be denied for the following reasons only:
   a. The requested venue is an indoor facility and the request conflicts with any other provision of this policy;
   b. The venue is already reserved for another event(1); 
   c. The activity will attract a crowd larger than the venue can safely contain;
   d. The activity is a clear and present threat to public safety, according to the university’s police or security department;
   e. The activity will occur during college examination periods; or
   f. The activity is unlawful.

5. During an event, the student, student organization, or University employee requesting the reservation is responsible for preserving and maintaining the facility it reserved. If it causes any damage to those facilities, the person(s) or organization (and its officers, if applicable) shall assume responsibility.

FOOTNOTES
(1) In the event that multiple individuals or organizations submit conflicting reservation requests, the following order of precedence shall govern: (1) official University activities and events; (2) registered student organization activities and events; (3) student activities and events; and (4) all other activities and events.

COMMERCIAL ACTIVITY POLICY

SLT 10.4.1

Date of Last Update:
August 31, 2017

Approved By:

Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

Pursuant to Article VIII of the Michigan Constitution of 1963, Grand Valley State University ("the University") has the responsibility to serve as a public institution of higher education. To carry out this constitutional mandate, the University owns and/or controls property and facilities. The University has established the following policy to ensure the University’s educational mission is actualized, while allowing certain Commercial Activities on University property.

The University reserves the right to deny proposed Commercial Activities that compete with the University or its operations. This policy does not apply to the use of student housing facilities by residents, which is subject to the terms and conditions of the housing agreement. The use of University property for government functions is not subject to this policy.

Definitions

For the purposes of this policy, the term “Commercial Activities” includes:

1. The lawful selling, promotion, or offering of products, goods, or services;
2. The dissemination or collection of information for the purpose of facilitating the sale of goods or services;
3. Any activity that attempts to raise funds, whether through the sale of goods and services or via donations for any entity that is not a charitable organization (eg a 501(c)(3) nonprofit entity);
4. The distribution or offering of free gifts, incentives, or promotions.

PROCEDURES

1. University Departments

University departments and its service providers whose function includes the sale of food or merchandise or the use of outside vendors and/or advertisers are exempt from this policy. This includes, but is not limited to, all campus dining facilities, the Laker Store, University Athletics, and University Development.

2. Registered Student Organizations

Registered Student Organizations (RSOs) may engage in Commercial Activities on University grounds subject to the provisions in the Grounds and Facility Use Policy and the conditions below.

1. When an RSO is using University property for Commercial Activities, 100% of the proceeds must either return to the RSO or be donated to a specified charitable organization.
2. RSOs may not sponsor or partner with outside solicitors as part of a Commercial Activity.
3. RSOs must have at least one of their organization’s members present at all times during the Commercial Activity period, and all sales must be made on a person-to-person basis.
4. Any literature distribution must include the name of the RSO responsible for the publication.
3. Students, Employees, and Non-University Solicitors

Students, employees, and those not affiliated with the University may engage in Commercial Activities only when renting indoor University facilities for an event, subject to the terms and conditions of their rental agreement, or when reserving outdoor space limited to the Cook Carillon Tower plaza. Outdoor reservations must be submitted to the Event Services Office at least five business days prior to the intended solicitation period. Due to high demand for space use, reservations must be canceled at least 72 hours prior to the scheduled event to receive a full refund or have previous payment applied to a new date. Reservations are subject to the provisions in the Grounds and Facility Use Policy.

1. When using a designated outdoor space for Commercial Activities, students, employees, and non-University solicitors are required to pay $250 per calendar day to the University.
2. There shall be no more than three separate Commercial Activities using outdoor locations at any one time.
3. Each individual or organization is entitled to use outdoor University property as provided in this policy for a maximum of five days per semester for purposes of Commercial Activities.

POLITICAL ACTIVITY POLICY

SLT 10.5

Date of Last Update:
September 10, 2012

Approved By:
* Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

Political activity of faculty and staff members at Grand Valley State University as addressed in the Grand Valley State University Board of Trustees’ Policies BOT 4.1.6.3, in pertinent part, states: “The University affirms the rights of its faculty and staff members as citizens to be active in political affairs which do not conflict with the professional standards and ethics in employment.”

Further, the Board of Trustees address the subject of Academic Freedom of faculty in the Grand Valley State University Board of Trustees’ Policies BOT 4.2.2 specifically sections 2 & 3:

2. Faculty members are entitled to freedom in the classroom in discussing their subject, but they should be careful not to introduce into their teaching controversial matter, which has no relation to their subject. (The words faculty member as used in this document are understood to include the investigator who is attached to an academic institution without teaching duties.)

3. University or university faculty members are citizens, members of a learned profession, and officers of an educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As persons of learning and as educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times act in a professional and responsible manner, and should make every effort to indicate that they are not institutional spokespersons.

In addition to University policy, state law, specifically the Michigan Campaign Finance Act, regulates political activities of public bodies, such as state universities, and its employees.

PROCEDURES

In light of University Board of Trustees’ policies and state law, the following guidelines are intended to help faculty and staff with compliance:

1. Faculty and staff members may engage themselves, as private citizens, in political activities including support or opposition to candidates for office or ballot questions on their own time. If you are working for the University and charging your time to a federal grant, any activity to support a political candidate or ballot question must be conducted on personal time. For questions about federal grants, contact the Office of Sponsored Programs for more information.
2. University departments or programs may sponsor presentations and discussion groups about an upcoming election provided that the purpose is to provide factual information on a political subject or issue if the communication does not support or oppose a ballot question or candidate by name or clear inference.
3. Classroom discussions of candidates and ballot questions must be related to course content as described in the catalog and course syllabus. A reminder to students to register to vote and to vote is permissible.
4. Faculty and staff members may express their support or opposition to candidates or ballot questions by wearing buttons.
5. Faculty and staff members, as private citizens, may elect to lend their names to support one or more candidates for office or in support of or opposition to a ballot question. However, care must be exercised to assure that the faculty or staff member does not use their University title in relation to such advocacy.
6. Faculty and staff members shall not use University resources for political activity to support or oppose candidates for office or ballot questions. “University resources” includes, but is not limited to:
   a. University funds or money administered through a University budget;
   b. University facilities including office space or meeting rooms (except speech in open forum areas) or use of University office address;
   c. University equipment including office or cellular telephones, computer hardware or software, printers, copiers and facsimile machines;
   d. University-provided email addresses or use of the University email system;
   e. University supplies including stationary, paper, postage, pens, pencils, and other office supplies;
   f. University identifying marks including trademarks, logos, University letterhead, and University titles; and
   g. University time including when the faculty or staff member is working or the use of clerical or student worker time.

SOCIAL SECURITY NUMBER PRIVACY POLICY

SLT 10.6

Date of Last Update:
July 31, 2008
Members of the GVSU community shall maintain the confidentiality of university information or documents containing social security numbers. All documents containing social security numbers shall be stored in a physically secure manner. Social security numbers shall not be stored on computers or other electronic devices that are not secured against unauthorized access. Documents containing social security numbers will be retained in accordance with the requirements of state and federal law and consistent with the provisions of this policy.

GVSU shall take reasonable measures to enforce this Privacy Policy and to correct and prevent the reoccurrence of any known violations. Anyone who knowingly obtains, uses or discloses social security numbers for unlawful purposes or contrary to the requirements of this policy, state or federal law, shall be subject to discipline up to and including discharge for employees or expulsion for students consistent with existing disciplinary policies. Additionally, certain violations of the Act carry criminal and/or civil sanctions. GVSU will cooperate with the appropriate law enforcement or administrative agencies in the apprehension and prosecution of any person who knowingly obtains, uses or discloses Social Security numbers for unlawful purposes.

This policy applies to all members of the GVSU community including faculty, staff and students.

1. Applicability. This policy applies to all members of the GVSU community including faculty, staff and students.

2. Access to Social Security Numbers. GVSU restricts access to information or documents containing social security numbers to members of the GVSU community who have a legitimate university business reason to access such information or documents. The heads of departments having access to records containing social security numbers shall determine which other personnel within their departments have a legitimate reason in the University’s ordinary course of business to have access to such social security numbers. Personnel using such records containing Social Security Numbers must take appropriate steps to secure such records when not in immediate use.

3. Confidentiality of Social Security Numbers. Members of the GVSU community shall maintain the confidentiality of university information or documents containing social security numbers consistent with the law and this policy. No person shall knowingly obtain, store, transfer, use, disclose, or dispose of social security numbers except in accordance with the law and this policy.

4. Obtaining Social Security Numbers. Social security numbers should be collected only where required or permitted by federal and state law or for legitimate university business reasons consistent with law and policy.

5. Public Display. No more than four sequential digits of a social security number shall be on public display. Public display means to post, make visible, or set out for open view to members of the public or in a public manner. This includes open view on a computer screen or device.

6. Account Numbers. As of the effective date of this policy, GVSU has undertaken a systematic process to eliminate social security numbers as identification numbers for all current members of the GVSU community. Once assigned an alternative identification number, neither the University nor the individual may return to the use of a social security number as an identification number for that person.

7. Mailed Documents. Documents containing more than four sequential digits of a social security number shall only be sent by mail in cases where state or federal law, rule, regulation, or court order or rule authorizes, permits or requires that a Social Security number appear in the document, the document is sent as part of an application or enrollment process initiated by the individual, at the request of or with the permission of the individual, their parent or guardian, or with regard to an employee or health insurance benefit. Documents containing more than four sequential digits of a social security number, that are properly sent through the mail, shall not reveal the number through the envelope window or otherwise be visible from the outside of the envelope or package. Mail includes delivery by regular US mail, campus mail, or any other delivery service that does not require the signature of the recipient indicating actual receipt.

8. Freedom of Information Act Requests. Where more than four sequential digits of a social security number are contained within a document subject to release under the Freedom of Information Act, the social security number shall be redacted or otherwise rendered unreadable before the document or copy of the document is disclosed. Any request for disclosure of documents under the Freedom of Information Act shall be first referred to the Division of Legal, Compliance and Risk Management.

9. Storage of Documents. All documents containing social security numbers shall be stored in a physically secure manner. Social security numbers shall not be stored on computers or other electronic devices that are not secured against unauthorized access.

10. Disposal of Documents. Documents containing social security numbers will be retained in accordance with the requirements of state and federal law and consistent with the legitimate business needs of GVSU. At such time as documents containing social security numbers may be disposed of, such disposal shall be accomplished in a manner that protects the confidentiality of the Social Security numbers, such as by shredding.

11. Unauthorized Use or Disclosure of Social Security Numbers. GVSU shall take reasonable measures to enforce this Privacy Policy and to correct and prevent the reoccurrence of any known violations. Anyone who knowingly obtains, uses or discloses social security numbers for unlawful purposes or contrary to the requirements of this policy, state or federal law, shall be subject to discipline up to and including discharge for employees or expulsion for students consistent with existing disciplinary policies. Additionally, certain violations of the Act carry criminal and/or civil sanctions. GVSU will cooperate with the appropriate law enforcement or administrative agencies in the apprehension and prosecution of any person who knowingly obtains, uses or discloses Social Security numbers for unlawful purposes.

12. Lawful and Required Use. Nothing in this policy is designed to prohibit the collection, retention or transmission of documents or records containing Social Security numbers as required or permitted by state or federal law, rule or regulation, at the request of or with permission of the individual, for administrative use in the ordinary course of business to verify identity, to pursue legal rights of GVSU, or to provide or administer employee benefits such as health or retirement benefits.

VOLUNTEERS POLICY

SLT 10.7

Date of Last Update:
April 25, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management
This policy is intended to reduce the risk related to the use of volunteers and their activities. The University accepts volunteer support to accomplish its educational mission and desires to ensure that volunteer relationships with the University are clearly established and understood by all parties. Payment for volunteer services is not allowed. However, University departments may reimburse volunteers for actual and reasonable expenses, following the appropriate university policies. The University requires the same attention to duties and responsibilities for volunteers as it does for employees of the University. This policy also does not cover or govern volunteers who agree to serve as human subjects in University research protocols, as they are covered by other policies under the administration of the Human Research Review Committee.

PROCEDURES

Relationship

Volunteer arrangements may not be used to circumvent the established processes that govern the employment of people. Volunteers do not have an employment relationship with the University on any grounds or for any reason and are not covered by the Fair Labor Standards Act, Michigan wage laws, or the Youth Employment Standards Act, and are not eligible for any University benefit, including Worker’s Compensation, or any other benefits of employment from the University, including but not limited to, health care, vacation, or sick time. Volunteers are not provided with accident or medical insurance, and are therefore responsible for any accident or medical expenses that may be incurred as a result of the volunteer assignment.

Payment for volunteer services is not permitted under any circumstance. However, the appropriate department has the authority to decide whether to reimburse a University volunteer for actual and reasonable expenses so long as the expenses fall under the University’s reimbursement guidelines located on the Business and Finance website. Reimbursement cannot be used as a substitute for compensation nor can it be linked to the volunteer’s productivity.

Volunteers may not receive any institutional marketing materials reflecting their name and the University logos such as: business cards, letterhead, unless approved by the appropriate Vice President or Senior Leadership Team member.

Protection of Volunteer

According to the Board Policy BOT 10.3, Indemnification:

“It is the policy of Grand Valley State University to support its Board members, officers, faculty, and staff in the reasonable and proper performance of their official duties, and to support students and volunteers when performing services on behalf of or under the direction of the university.”

Volunteers are indemnified in the same manner as employees. It is important that the department or unit managing the volunteer maintain records as specified in this policy in order to ensure their volunteers are properly covered.

Eligibility

To be eligible to become a volunteer, one must:

1. Be willing to provide services according to this policy, complete and sign a Grand Valley State University Volunteer Profile, Disclosure, and Consent Form as well as other associated forms if deemed appropriate,
2. Have parental consent if under the age of 18,
3. Complete the Authorization for Release of Information for Background Check if the volunteer assignment involves working directly with minor children, money or access to confidential information regarding employees, students, health, financial data, etc., and
4. Be authorized through the Department of Public Safety if the volunteer assignment requires operating a vehicle owned or leased by the University.

Responsibilities of the University Department Engaging Volunteers

Departments must keep records of volunteer names, dates of service(s), and services performed for a period of one year following the end of the volunteer assignment.

It is the responsibility of the individual unit to ensure that volunteers are aware of the unit’s rules and regulations. Volunteers must have the necessary training and/or supervision to safely carry out volunteer work. If the volunteer assignment involves providing professional services such as those performed by accountants, architects, doctors, engineers, etc., the department must assure that the volunteer has the appropriate credentials including licensure and/or certification.

One exception is that any legal services or assistance, whether by a volunteer or otherwise, must have prior written approval of the Vice President and General Counsel. According to Board policy, as stated in the Board of Trustees’ Policies, all legal services must be provided through the Division of Legal, Compliance and Risk Management.

If the volunteer assignment requires operating a vehicle, the volunteer must have a valid driver’s license, and have a good driving record as determined by the Department of Public Safety.

Responsibilities and Rights of the University Volunteer

Volunteers are responsible for complying with all University policies and all relevant laws including but not limited to: personal conduct, sexual assault, unlawful discrimination and harassment, compliance, workplace violence, substance abuse; misuse of confidential information; use of University technologies; financial responsibility; and vehicle use. Volunteers are not considered agents of the University unless the authority has been expressly delegated to them by an authorized University official. Volunteers are also expected to comply with any rules and regulations specific to the department for which they are volunteering.

Risk Management

Volunteers cannot replace employee positions. Volunteer services are generally limited to humanitarian, charitable, or public services. University volunteers are also prohibited from performing the following activities:

1. Working in any capacity in which he/she is employed by the University, or which is essentially similar to the individual’s regular work at the University, or under circumstances that suggest the decision to volunteer is not made freely,
2. Operating heavy equipment e.g. forklift, hi-lo, backhoe, etc.,
3. Working with highly hazardous or toxic chemicals or agents and/or dangerous equipment or environments i.e.: anything that could cause severe injury or death,
4. Any activity considered inappropriate for an employee,
5. Entering into any contract on behalf of the University,
6. Rendering professional services without possessing the required credentials,
7. Any actions beyond the scope of the volunteer assignment, and
8. Provide legal advice or assistance without prior written approval from the University Counsel.

In some cases where the volunteer assignment involves higher levels of risk exposure to the individual and others, the University department is responsible for disclosing those risks to the volunteer in writing. This will assure that information about the risks associated with the volunteer assignment are clearly communicated to the individuals who are engaged as university volunteers. Examples of services that require risk disclosure include but are not limited to:

1. Laboratory activities,
2. Services with potential exposure to bloodborne pathogens,
3. Professional services that require licensure and/or certification such as those performed by accountants, architects, doctors, engineers, etc. and trade services such as construction, plumbing, electrical, etc,
4. Travel of any kind,
5. Activities in any environment which requires orientation or training, and
6. Activities with patients and/or subjects of experiments.

Use of Volunteer Procedures

The procedures and forms to implement this policy can be found on the Risk Management Website.

DEFINITIONS:

A volunteer is defined as an uncompensated individual who performs services directly related to the operations of the University for its benefit, to the mission of the University, or for the volunteer to gain experience in specific endeavors. To qualify as a volunteer, an individual must be willing to provide services according to the directions of the appropriate University representative. An individual who provides services for an entity that is not directly related to the business of the University (e.g., a government or public agency), is not considered to be a University Volunteer for the purposes of this policy.

CELLULAR PHONE AND WIRELESS COMMUNICATION POLICY

SLT 11.1

Date of Last Update: April 29, 2015

Approved By: Senior Leadership Team

Responsible Office: Information Technology

POLICY STATEMENT

Authorized university employees that have duties/responsibilities that require them to carry a cell phone or related device to conduct official University business are subject to the following policies.

PROCEDURES

Cellular service will only be provided by approved GVSU vendors.

Executive Officers are responsible for approving either a cell phone or wireless device service before one is provided to any employee. Requestor should present written plan and recommendation, demonstrating the need to provide a cell phone to the appropriate executive officer and send via email, both the request and the approval, to the IT office at telco@gvsu.edu.

Upon approval, IT will arrange ordering and set up department billing for device and service. Monthly plan reimbursement by travel requisition will not be permitted. Adding additional family devices/services will not be permitted.

Each Executive Officer will annually review all participation along with usage and charges for their division. Detailed information will be provided by the Information Technology.

IT tracks usage, plans and expenditures and works with the service providers to structure GVSU’s cellular plans in the most efficient and cost effective way.

Directory assistance calls should be made via a lower rate number of 866-352-8161. Standard calls (calls to 411) can cost as much as $1.79 whereas the provided number costs $.37. The new directory assistance number is reserved for GVSU paid cellular users only. Do not share it with others.

This policy applies to cell phones paid for by GVSU.

EMAIL POLICY

SLT 11.2

Date of Last Update: October 09, 2015

Approved By: Senior Leadership Team

Responsible Office: Information Technology

POLICY STATEMENT

Grand Valley State University provides its faculty, staff and students with electronic mail intended for University-related purposes including direct and indirect support of the University’s instructions, research, and service missions; of University administrative functions; of student and campus life activities, and of the free exchange of ideas among members of the University community and between the University community and the wider local, national, and world communities.

The rights of academic freedom and freedom of expression apply to the use of University electronic mail. Electronic mail sent or received using University facilities is, however, University business and cannot be guaranteed total privacy. The University does not routinely inspect, monitor, or disclose electronic mail without the holder’s consent. Nonetheless, subject to the requirements for authorization, notification, and other conditions specified in this Policy, the University may deny access to its electronic mail services and may in exceptional circumstances inspect, monitor, or disclose electronic mail.
All users of University electronic mail are subject to:

- Comply with all federal, Michigan, and other applicable laws and regulations; all generally applicable University rules and policies; and all applicable contracts and licenses.
- Examples of such laws, rules, policies, contracts, and licenses include the laws of libel, privacy, copyright, trademark, obscenity, and child pornography; the Electronic Communications Privacy Act and the Computer Fraud and Abuse Act, which prohibit unauthorized use or entry into another's account; the University's Student Code; the University's Anti-Harassment policy; and all applicable software licenses.
- Users who engage in electronic communications with persons in other states or countries or on other systems or networks should be aware that they may also be subject to the laws of those other states and countries and the rules and policies of those other systems and networks. Users are responsible for ascertaining, understanding, and complying with the laws, rules, policies, contracts, and licenses applicable to their particular uses.
- Act within the normal standards of professional and personal courtesy and conduct. Access to University electronic mail services, when provided, is a privilege that may be wholly or partially restricted by the University without prior notice and without the consent of the e-mail users when required by and consistent with violations of University polices, regulations and law.
- Use only those computing resources that they are authorized to use and use them only in the manner and to the extent authorized. Ability to access computing resources does not, by itself, imply authorization to do so. Users are responsible for ascertaining what authorizations are necessary and for obtaining them before proceeding. Accounts and passwords may not, under any circumstances, be shared with, or used by, persons other than those to whom they have been assigned by the University.
- Respect the finite capacity of the resources and limit use so as not to consume an unreasonable amount of those resources or to interfere unreasonably with the activity of other users. Although there is no set bandwidth limit or CPU time, uses of University electronic mail may be required to limit resources in accordance with this principle.
- Inspection, monitoring or disclosure of University e-mail records will be at the e-mail holders consent wherever possible. However, if consent cannot be obtained either voluntarily or involuntarily, the request shall be brought before University Counsel.

Specific Provisions

A. Users

Users of University electronic mail services are to be limited primarily to University students, faculty, staff, retirees, and others authorized by the University. Upon normal termination of employment, employees may retain access to the e-mail account for 30 days. Employees terminated by the University will have the e-mail account terminated immediately. Retired employees may request access to the e-mail account as part of the benefit package. Students retain access to an e-mail account as long as they are registered for courses or completed graduation. GVSU retains the right to remove email services at any time.

B. Account Usage

GVSU has the right to restrict the amount of storage space available on the network. If an individual wishes to backup and store e-mail for extended purposes, it is the individual's responsibility to do so.

Users are granted access to services only for so long as they abide by the Computing Conditions of Use policy. No person shall gain use of the University's computer system without proper authorization. Any attempt by a user to gain access to another person's network account, private network drive, or restricted areas on the GVSU computer system is prohibited.

University e-mail services shall not be used to send unsolicited commercial emails and such use may result in your account being disabled.

University e-mail services shall not be used for purposes that could reasonably be expected to cause, directly or indirectly, excessive strain on any computing resources (bandwidth issues), or unwarranted or unsolicited interference with others use of e-mail or e-mail systems. Such uses include, but are not limited to, the use of e-mail services to: (1) send or forward e-mail chain letters; (2) "spam," that is, to exploit listserv or similar broadcast systems for purposes beyond their intended scope to amplify the widespread distribution of unsolicited e-mail; and (3) "letterbomb," that is, to resend the same e-mail repeatedly to one or more recipients to interfere with the recipient's use of e-mail.

C. Representation

Electronic mail users shall not give the impression that they are representing, giving opinions, or otherwise making statements on behalf of the University or any unit of the University unless appropriately authorized (explicitly or implicitly) to do so. Where appropriate, an explicit disclaimer shall be included unless it is clear from the context that the author is not representing the University. An appropriate disclaimer is: "These statements are my own, not those of the Grand Valley State University."

Policy Violations

violations of University policies governing the use of University electronic mail services may result in restriction of access to University information technology resources. In addition, disciplinary action, up to and including dismissal, may be applicable under other University policies, guidelines, implementing procedures, or collective bargaining agreements.

Violations will normally be handled through the University disciplinary procedures applicable to the relevant user. The University may temporarily suspend or block access to an account, prior to the initiation or completion of such procedures, when it reasonably appears necessary to do so in order to protect the integrity, security, or functionality of University or other computing resources or to protect the University from liability. The University may also refer suspected violations of applicable law to appropriate law enforcement agencies.

Refer to Appendix A. for detail on additional polices and guidelines.

Security and Privacy

The University owns all electronic mail address assigned by the University. The University employs various measures to protect the security of its computing resources and of their users' accounts. Users should be aware, however, that the University couldn't guarantee such security. Users should therefore engage in "safe computing" practices by establishing appropriate access restrictions for their accounts, guarding their passwords, and changing them regularly. Security and privacy of e-mail sent or received outside of GVSU is subject to standards of other organizations and may be more or less restrictive and provide more or less privacy protection.

Users should also be aware that their uses of University computing resources are not completely private. While the University does not routinely monitor individual usage of its computing resources, the normal operation and maintenance of the University's computing resources require the backup and caching of data and communications, the logging of
activity, the monitoring of general usage patterns, and other such activities that are necessary for the rendition of service.

The University reserves the right to monitor e-mail records, without notice, when

a. The user has voluntarily made them accessible to the public
b. It reasonably appears necessary to do so to protect the integrity, security, or functionality of University or other computing resources or to protect the University from liability
c. There is reasonable cause to believe that the user has violated, or is violating, this Policy
d. An account appears to be engaged in unusual or unusually excessive activity, as indicated by the monitoring of general activity and usage patterns
e. It is otherwise required or permitted by law

Any such individual monitoring, other than that specified in "a" above, required by law, or necessary to respond to perceived emergency and/or time-sensitive situations, must be authorized in advance by University Counsel and an Executive Officer.

The University, in its discretion, may disclose the results of any such general or individual monitoring, including the contents and records of individual communications, to appropriate University personnel or law enforcement agencies and may use those results in appropriate University disciplinary proceedings.

Normal examination of e-mail headers by the e-mail administrator is standard procedure to resolve problems and redirect incorrect addressed e-mail.

Posting and Authority to Change

Because University policies are subject to change, this list may change from time to time. The authoritative list at any time will be posted under the listings of University policies posted on the World Wide Web. Authority to change this list rests with the Vice Provost of Academic Services and Information Technology acting, where policies affecting faculty are concerned, with the advice of the Academic Senate, where policies affecting students are concerned, with the advice of the Dean of Students, where policies concerning legal matters, with the advice of University Counsel.

APPENDIX A - REFERENCES

The following list identifies additional policies and procedures, which support this Policy: These and other laws both provide privacy protection for e-mail and require the disclosure of e-mail under some circumstances.

COMPUTER VIRUS AND MALWARE POLICY

SLT 11.3

Date of Last Update:
September 06, 2016

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

When a device or account connected to the GVSU campus network is compromised by a virus or malicious software, the network is at great risk of harm due to potential damage of university data or disclosure of sensitive information. To preserve the health of the network and the devices connected to it, the infected device must IMMEDIATELY be disconnected and removed or the account blocked from the campus network until Information Technology personnel verify it is no longer compromised. Despite the disruption this may cause to the individual user, the user is required to produce any infected device to Information Technology immediately upon request in order to prevent information disclosure, data file destruction, or exploitation of the compromised account.

Information Technology personnel shall provide their identification and authorization to the device user that authorizes them to remove the afflicted device prior to its removal. For additional verification, you may call the Helpdesk at 331-2101 and ask for Level 2 staff member to verify the authorization to pick up a computer. To minimize interruption, Information Technology will take reasonable steps to provide a substitute device for use on the campus network while the user awaits repair of the original device. To report that a device might be infected, contact Information Technology immediately at 331-2101.
VOICEMAIL POLICY
SLT 11.4

Date of Last Update:
April 29, 2016

Approved By:
- Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT
Voicemail is offered to all AP and faculty personnel. Voicemail must be approved for PSS personnel and departmental lines by a Dean or Vice Provost and Vice President. Personal lines and other lines that utilize voicemail must follow the following procedures.

PROCEDURES
A department main number is never to be forwarded to a voicemail.

All greetings are to be personalized and changed when users intend to be out of the office for more than one day, especially if they do not plan to check voicemail.

An out of office greeting should provide the caller with an alternative name and telephone number to contact in case of emergency.

COMPUTING CONDITIONS OF USE (INFORMATION TECHNOLOGY)
SLT 11.5

Date of Last Update:
October 09, 2015

Approved By:
- Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT
As members of the Grand Valley State University community, you have the responsibility to use the university’s Information Technology resources in an effective, ethical, and legal manner. Ethical and legal standards that apply to information technology resources derive directly from standards of common sense and decency that apply to the use of any shared resource. Grand Valley depends first upon the spirit of mutual respect and cooperation that has been fostered at the university to resolve differences and ameliorate problems. The purpose of the statement is to promote the responsible, ethical, legal, and secure use of Grand Valley’s Information Technology resources, including access to the Internet, for the protection of all users.

PROCEDURES
The following guidelines will be applied to determine appropriate use of Services:

1. Accounts granted are intended solely for the use of the person the account was issued and shall not be shared.
2. To respect the privacy of other users. Users shall not intentionally seek information on, obtain copies of, or modify files, or passwords belonging to other users or the University, or represent others, unless explicitly authorized to do so by those users.
3. To respect the legal protection provided by copyright and licensing of programs, data, photographs, music, written documents and other material as provided by law.
4. To respect the intended usage of accounts and authorization for specified purposes only.
5. To respect the integrity of the system or network. One shall not intentionally develop or use programs, transactions, data, or processes that harass other users or infiltrate the system or damage or alter the software or data components of a system.
6. To adhere to all general university policies and procedures including, but not limited to, policies on proper use of information resources, information technology, and networks; acquisition, use, and disposal of University-owned computer equipment; use of telecommunications equipment; ethical and legal use of software; and ethical and legal use of administrative data.
7. Using university technology resources for commercial use is strictly prohibited. Such resources are to be solely used in conjunction with doing business for GVSU or purposes directly related to academic work.
8. To refrain from unauthorized use of network Services which significantly hampers other GVSU constituents network access.
9. Unauthorized use of GVSU networks and/or computers for non-academic purposes is prohibited, including revenue generating advertising and promotion of business not related to GVSU.
10. Network connections in Student Housing are intended strictly for client access to GVSU and Internet resources. Residents are not permitted to offer services to other computers, either external or internal, within the GVSU Housing Network. External requests for services destined to the GVSU Housing Network are not permitted. Information Technology reserves the right to disable network connections within the GVSU Housing Network if complaints are received and it is verified that a computer is offering an internal service.
11. The Computer Science and Engineering departments have dedicated networks that can be used for servers that need to offer services to other computers for educational purposes; in this case the department is responsible for monitoring and approving the services that are offered as well as verifying that the computers have been patched and secured against known Internet attacks.
12. All users of Grand Valley’s e-mail accounts are expected to adhere to the Electronic Mail Policy.
13. All users of Grand Valley’s external network connections (i.e., Merit and NSFNET) shall comply with the evolving “Acceptable Use” policies established by the external networks’...
governing bodies.

- Merit Acceptable Use Policy
- The NSFNET Backbone Services Acceptable Use Policy

The intent of this policy is to identify certain types of uses that are not appropriate. Using the guidelines given above, GVSU may at any time make a determination that a particular use is not appropriate.

GVSU will not monitor or judge the content of information transmitted via the Services, but will investigate complaints of possible inappropriate use. In the course of investigating complaints, GVSU staff will attempt to preserve the individual’s privacy. GVSU is subject to the Freedom of Information Act and may be required to supply personal computing information.

**DIGITAL MEDIA POLICY**

SLT 11.6

**Date of Last Update:**
April 19, 2015

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
Information Technology

**POLICY STATEMENT**

Technology provides multiple avenues for creating, collecting and distributing information. The ease of access to this information does not preclude the responsibility of understanding the legal issues involved in intellectual property.

**PROCEDURES**

Copyright law protects all material unless placed in the public domain, electronic and digital media included. Owners of copyrights hold exclusive right to the reproduction and distribution of their material.

Unauthorized use and distribution of copyrighted material is illegal. Legal action against the individual as well as the university may occur, this includes all audio and video files. The GVSU Library Course Reserve Department processes copyright clearance for all materials placed on library course reserve by professors. This includes both paper (traditional) and online digital access.

The Digital Millennium Copyright Act (DMCA) of 1998 provides recourse for copyright owners who believe that their rights have been infringed by unauthorized use of their protected works at an online location. Copyright owners may contact the service provider to request that the infringing material be removed or access blocked. Grand Valley State University’s designated DMCA agent is:

Bill Fisher
Associate Director, Technical Services
Grand Valley State University
Allendale, MI 49401
phone: (616) 331-2035

For More Information on the DMCA and other copyright issues see, [www.copyright.gov](http://www.copyright.gov)

**CONFIDENTIALITY, DATA & SECURITY POLICY**

SLT 11.7

**Date of Last Update:**
December 08, 2014

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
Information Technology

**POLICY STATEMENT**

Grand Valley State University regards security and confidentiality of data and information to be of utmost importance. As such, individuals employed by the University must follow the procedures outlined below.

**PROCEDURES**

Confidentiality of Data

Each individual granted access to data and information holds a position of trust and must preserve the security and confidentiality of the information he/she uses. Individuals are required to abide by all applicable Federal and State guidelines and University policies regarding confidentiality of data including, but not limited to, the Family Education Rights and Privacy Act (FERPA). FERPA protects student information and may not be released without proper authorization. Requests for information/documents should be referred to the Registrar’s Office or the Legal, Compliance & Risk Management Office.
Individuals with authorized access to Grand Valley State University’s computer resources, information system, records or files are given access to use the University’s data or files solely for the business of the University. Specifically, individuals should:

- a. Access data solely in order to perform his/her job responsibilities.
- b. Not seek personal benefit or permit others to benefit personally from any data that has come to them through their work assignments.
- c. Not release University data other than what is required in completion of job responsibilities.
- d. Not exhibit or divulge the content of any record, file or information system to any person except as it is related to the completion of their job responsibilities.

Additionally, individuals are not permitted to operate or request others to operate any University data equipment for personal business, to make unauthorized copies of University software or related documentation, or use such equipment for any reason not specifically required by the individual’s job description.

POLICY STATEMENT

Information Technology has two primary policies in place that deal with technology resources:

- Conditions of Use: As members of the Grand Valley State University community, all users have the responsibility to use the university’s information technology resources in an effective, ethical, and legal manner. This document outlines these responsibilities.
- E-Mail Policy: This Policy clarifies the applicability of law and of other University policies to electronic mail. It also defines new policy and procedures where existing policies do not specifically address issues particular to the use of electronic mail.

The policies and procedures to deal with abuse of technology resources for faculty and staff are outlined below.

FACULTY/STAFF ABUSE OF TECHNOLOGY

SLT 11.8

Date of Last Update:
April 19, 2015

Approved By:
- Senior Leadership Team

POLICY STATEMENT

Information Technology has two primary policies in place that deal with technology resources:

- Conditions of Use: As members of the Grand Valley State University community, all users have the responsibility to use the university’s information technology resources in an effective, ethical, and legal manner. This document outlines these responsibilities.
- E-Mail Policy: This Policy clarifies the applicability of law and of other University policies to electronic mail. It also defines new policy and procedures where existing policies do not specifically address issues particular to the use of electronic mail.

The policies and procedures to deal with abuse of technology resources for faculty and staff are outlined below.

- Level I - Complaint
  - Complaints may be received from an internal or external GVSU constituent
  - Upon verification of abuse by an Information Technology staff member, the information is communicated to either the Vice Provost and Dean of Academic Services or the Director of Information Technology
  - Upon review from the Vice Provost and Dean of Academic Services and/or the Director of Information Technology, the complaint is further acted upon or discarded.

- Level II - Contact/Action for First Offenders
  - The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted.
  - The individual is apprised of their abuse and asked to refrain from continuing the infringement. If email related, the individual will be required to retract the offending message.
  - The individual will be sent a notification from IT via email of the abuse infraction and asked to return the email with their understanding and intent to comply via the policy.
  - The email notification/compliance will be kept on file.

- Level III - Contact/Action for Second Offenders
  - The individual account will be suspended immediately (disable ability to send/receive messages).
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted.
  - The individual Dean or manager is contacted concerning the repeated abuse.
Level IV - Contact/Action for Third Offenders

Level IV - Contact/Action for Third Offenders

- The individual account privileges will be suspended immediately, which consist of email and network privileges.
- The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology.
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted. The individual Dean or manager is contacted concerning the repeated abuse.
- The HRO office is contacted concerning the repeated abuse.
- The individual is apprised of their abuse and told that their privileges have been revoked.
- The individual Dean or manager must contact the Vice Provost and Dean of Academic Services or the Director of Information Technology to discuss possible reinstatement of privileges.
- Upon further review with the Provost (for faculty issues) and the HRO office (for staff issues), the determination to re-instate the technology privileges will be determined.
- The decision will be kept on file.

Overriding Issues

- If at any time, the technology resources that have been abused are in jeopardy of causing mass problems for GVSU constituents or the network/files have been compromised, the Vice Provost and Dean of Academic Services or the Director of Information Technology may choose to immediately suspend the individual account to ensure the integrity and continuation of services for the rest of the constituents.
- Upon a decision of this nature, the situation will be brought to the Provost, HRO, appropriate Dean or manager as quickly as possible to remedy the issue at hand.
POLICY STATEMENT
GVSU provide public folders to allow postings from any Outlook user on events, announcements, information of interest and a method to buy/sell articles.

PROCEDURES

Guidelines for consistent and proper use

- Messages posted to the business related public folders should pertain to GVSU sponsored programs, events, or activities.
- Messages intended for private business or personal profit shall not be posted
- Commercial message and advertisements for non-GVSU entities shall not be posted
- Messages posted to the Barter Board specifically may refer to personal items for sale or items wanted to buy.
- Messages intended for private business are not allowed
- Commercial messages and advertisements for items for sale or services offered are prohibited, including home businesses.
- Complaints relative to purchases of items advertised should be conducted privately.
- Additionally, messages posted to these public folders board must respect the rights of other users; for example, they must comply with all University policies regarding sexual, racial, and other forms of harassment, and shall not divulge personal data concerning faculty, staff, or students without explicit authorization to do so.

Message life span:

- Any message posted here should be deleted by the author as soon as its purpose has been resolved
- Messages will be deleted automatically after 7 days.

SECURE OFFICE PROCEDURE

SLT 11.11

Date of Last Update:
April 19, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT
It is the responsibility of all employees of the University to protect sensitive data against loss or theft. Awareness, education and practice of the following procedures can assist in this matter. These procedures are in place to help protect employees, customers, contractors and the university from damages related to the loss or misuse of sensitive information.

This document refers to securing sensitive data and physical hardware within an office environment or mobile environment where data may be referenced (at home or on a laptop). It is not meant to address electronic data stored on university servers.

PROCEDURES

Goals
In order to effectively protect and secure university data, the following goals have been established:

a) Create, distribute and annually review the “Secure Office Procedure” document
b) Train all staff members whose jobs relate to sensitive data on both the “Secure Office Procedure” and Information Security Best Practices
c) Train departmental managers to be aware of the importance of the procedures and the need to enforce them

Staff Training
Employee awareness and education is an integral part of securing sensitive data for the university. The following procedures will be enforced to ensure proper training:

a) Upon hire, the Secure Office Procedure and Setting Strong Password documents are emailed to the new employee
b) Secure Office Procedure and Setting Strong Password documents are sent annually to all employees via email
c) Internal training, specific to each area, will be provided to employees who have access to sensitive data
d) Information Technology will provide Best Practices information at IT seminars and offer to attend annual departmental meetings to cover the below topics:
   i. Awareness of Social Engineering schemes
   ii. Secure Office Procedures
   iii. Strong Password creation
   iv. Data storage
   v. Data encryption
   vi. Backups
   vii. Anti-virus and Anti-spyware tools
viii. Non-secure technologies

GENERAL OFFICE SECURITY PRACTICES

The following procedures should be followed within office suites, individual offices or workrooms and mobile locations where data may be referenced:

a) Keys or keycards used for access to sensitive data should not be left unattended
b) Passwords should not be shared or written down and left in accessible locations
c) If you have a student that will regularly be using your machine, contact the helpdesk and request a staff account for that student. (Do NOT give out your password)
d) Make certain passwords aren’t common information such as date of birth, names of children, pets, telephone numbers, etc.
e) When you leave your workstation, lock your computer screen
f) Lock up laptops, USB drives, external drives, etc. when unsupervised
g) Contact the IT Helpdesk when a computer is to be passed to a new user. IT will clean the computer, removing previous data and place a clean image on the machine.
h) Printouts containing sensitive data should be removed from networked printers immediately and filed appropriately in secure cabinets
i) Dispose of sensitive data on hard copy by shredding immediately
j) Departmental front desk staff should confirm identity of all visitors (GVSU staff/student workers or non-GVSU employees) who are entering their area(s)
i. Employees should feel comfortable requesting what unit someone is from and the purpose of their visit
ii. Employees should feel comfortable confirming meeting prior to allowing staff member/student employee to proceed within their departmental areas
iii. Confirm with the GVSU employee they are scheduled to meet
iv. Non-GVSU employees must be escorted to/from meeting area/work area
v. Request ID if necessary
vi. Provide front office staff the ability to view your calendar or print a schedule of your meetings in advance so they will expect attendees
k) All staff should be responsible to watch for or listen to any unusual activity and to be cognizant of their surroundings.

Sensitive Information

Sensitive data can be distributed via hard copy or electronic means within an office. When given the choice, store data electronically versus printing a hard copy. Consider scanning a document to store it electronically versus hard copy.

a) “Sensitive information” includes but is not limited to the following items, whether stored in electronic or printed format:

i. All FERPA protected data*
ii. Credit card number (in part or in whole)
iii. Credit card expiration date
iv. Cardholder name
v. Cardholder address
vi. Social Security Number
vii. Business Identification Number
viii. Employer Identification Number
ix. Paychecks
x. Paystubs
xi. Benefit information
xii. Giving information/history
xiii. Health information
xiv. Content of external grants or contracts

b) Securing hard copy sensitive data:

i. Lock cabinets containing sensitive data when not in use or when away for extended periods of time
ii. Storage rooms containing sensitive data should be locked at the end of the day or when unsupervised
iii. Desks, workstations, common work areas, printers, and fax machines should be cleared of all sensitive data when not in use
iv. Whiteboards, dry erase boards, writing tablets, etc. should be erased, removed or shredded when not in use
v. Documents to be shredded should be done so immediately or locked up until shredding can occur
vi. At the end of the day, all sensitive data should be in a locked drawer or cabinet

b) Securing electronic sensitive data. Please contact Information Technology if there are questions in how you are storing/sharing sensitive data electronically.

i. Refrain, when possible from storing sensitive data on your personal computer hard drive or any external personal devices. Instead use the network drive space.
ii. If storing sensitive data is required on your personal computer hard drive or an external device, encryption and password protection should be applied
iii. Engage the screensaver when workspace is unoccupied
iv. Computer workstations should be shut down completely at end of work day
v. Lock laptop or external devices containing sensitive data when not in use
vi. Make certain data and/or PC work station screens are not visible to the public (e.g.- near windows, entry/exit doors, etc.)

b) Securing electronic sensitive data. Please contact Information Technology if there are questions in how you are storing/sharing sensitive data electronically.

i. Refrain, when possible from storing sensitive data on your personal computer hard drive or any external personal devices. Instead use the network drive space.
ii. If storing sensitive data is required on your personal computer hard drive or an external device, encryption and password protection should be applied
iii. Engage the screensaver when workspace is unoccupied
iv. Computer workstations should be shut down completely at end of work day
v. Lock laptop or external devices containing sensitive data when not in use
vi. Make certain data and/or PC work station screens are not visible to the public (e.g.- near windows, entry/exit doors, etc.)

b) Securing electronic sensitive data. Please contact Information Technology if there are questions in how you are storing/sharing sensitive data electronically.

i. Refrain, when possible from storing sensitive data on your personal computer hard drive or any external personal devices. Instead use the network drive space.
ii. If storing sensitive data is required on your personal computer hard drive or an external device, encryption and password protection should be applied
iii. Engage the screensaver when workspace is unoccupied
iv. Computer workstations should be shut down completely at end of work day
v. Lock laptop or external devices containing sensitive data when not in use
vi. Make certain data and/or PC work station screens are not visible to the public (e.g.- near windows, entry/exit doors, etc.)

vii. If email is used to share sensitive data, encryption and/or password protection should be used. The following statement should accompany the body of the email:

“This message may contain confidential and/or proprietary information and is intended for the person/entity to whom it was originally addressed. Any use by others is strictly prohibited.”
SOFTWARE SUPPORT POLICY

SLT 11.12

Date of Last Update:
April 19, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

Information Technology is responsible for providing software support to the campus community. IT resources are finite. Therefore, reasonable limits must be identified regarding the
number and variety of software products supported by IT. This policy is intended to define those limits.

PROCEDURES

The software industry is characterized by constant change. Therefore, it is unreasonable to establish a single, static list of supported software. It is equally unreasonable to force the
campus community to change software on a frequent basis.

Information Technology will provide support for the most recent operating systems for Windows and Macintosh platforms as well as one version back.

Standard software applications issued with a university computer will be supported in the most recent version and one version back unless compatibility issues arise.

Institutional ownership of a site license does not imply IT support for all products covered by the license. Software provided in labs and classrooms outside of the standard
applications listed above are not supported by Information Technology. Software assistance is required through the vendor providing the application.

Public Safety - Collective Bargaining Agreement

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - PERSONNEL ADMINISTRATION

BOT 4.1.1

Date of Last Update:
June 01, 2017

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.1 Personnel Administration. Personnel Administration is a service activity in which each Appointing Officer has a role. The authority over the personnel program resides in the
Board of Trustees, although the President, as agent of the Board, and other officers he/she may designate (“Appointing Officers”) have the authority to make appointments within the
approved personnel program. Centralized within the Human Resources office is the responsibility and advisory authority to determine that the philosophy and policies of the
personnel program are effectively applied.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - EQUAL OPPORTUNITY

BOT 4.1.2

Date of Last Update:
June 01, 2017

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.2 Equal Opportunity. The President and other officers to whom he/she designates authority for personnel actions are responsible for the enthusiastic application of all laws and
regulations concerning fair employment practices, equal opportunity, etc., to all matters with respect to recruitment, appointment, assignment, and promotion of University's
personnel. Matters of affirmative action are outlined in the "Affirmative Action Program" maintained in the Affirmative Action office.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - UNIVERSITY RESPONSIBILITIES
POLICY STATEMENT

4.1.3 University Responsibilities. The President and other officers to whom he/she designates authority are responsible for administering the University and its property, supervising its operations, assigning and directing its faculty and staff, changing or introducing new operations, methods, or facilities, appointing, assigning, or disciplining faculty and staff members, subject to the guidelines herein set forth, and establishing such procedures which may be needed from time to time. For purposes of this Section 4.1, “faculty and staff” shall mean an employee covered by the Board of Trustees’ Policies.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - DISCIPLINARY PROCEDURE

BOT 4.1.4

POLICY STATEMENT

4.1.4 Disciplinary Procedure. The President and other administrators to whom he/she designates authority are responsible for discipline which normally shall be corrective rather than punitive in nature. A typical procedure for disciplinary action will be, depending on the seriousness or frequency of the cause, an oral discussion, a written warning, disciplinary lay-off without pay, and dismissal. All disciplinary actions are subject to the appropriate grievance procedure.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - PERSONNEL INFORMATION

BOT 4.1.5

POLICY STATEMENT

4.1.5 Personnel Information. All personnel information and files maintained by the University are the confidential property of the University and are maintained in the Human Resources office. Faculty and staff members can expect that a right to a reasonable degree of privacy will be honored and that the confidential character of certain personnel data will be respected as such. Generally, release of information and/or access to such information should be restricted in accordance with the policies of the University. Whenever possible, information released for public purposes shall be in a form which will protect the anonymity of the individual; however, as of October 1979, Michigan law does require that salary information be available to the public. All personnel information collected shall be pertinent to the needs of the University. Access to personnel files is limited to those persons responsible for personnel and the faculty or staff member’s supervisor. Letters of recommendation are the confidential property of the provider. A faculty or staff member will not be given access to letters of recommendation concerning himself/herself unless the provider of such recommendation agrees, in writing, to allow such access. All personnel records will be retained for the length of the faculty or staff member’s service and thereafter in compliance with all applicable federal, state and local laws. Temporary records such as insurance claims will be maintained only so long as they have a useful life. Records of terminated faculty and staff members will be maintained for a minimum of seven years and thereafter only those portions having a useful life will be maintained. Information of an official nature for state and federal agencies will be provided to the extent of the matter at hand and within the limits of the law. No anonymous information will be maintained in the files. Records of disciplinary actions will be placed in the personnel files only after the individual has had an opportunity to view a copy. The University will provide prospective employers with title, employment dates, and eligibility for rehire status only, unless additional information is requested by the faculty or staff member or former faculty or staff member. Recommendations by individual supervisors may be made at their own discretion and at their own risk, recognizing that the University may be responsible for the information given.

Personnel files may include, but are not limited to, payroll information and documentation, records of employment actions and documentation, records required by federal, state and local law, employment applications, vitae and resumes, recommendations, interview comments, fringe benefit information, merit and performance evaluation, records and documentation of disciplinary actions, official transcripts of baccalaureate or post baccalaureate degrees and such other information as may be needed from time to time. Other files maintained in accordance with the faculty appointment and evaluation policy and covered by the limitations expressed in that policy may be housed elsewhere.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - CONFLICT OF INTEREST

BOT 4.1.6
POLICY STATEMENT

4.1.6 Conflict of Interest

4.1.6.1 Employment. Appointment of any relative of a faculty or staff member must be approved by the President in advance of the appointment in order to insure that no conflicts of interest exist. Each Appointing Officer must insure that no conflicts of interest exist in matters of appointment, retention, promotion, termination, assignment or other conditions of employment for relatives of faculty or staff members within his or her unit.

4.1.6.2 Financial. It shall be the responsibility of the President (or his/her designee) to insure that conflicts of financial interest do not occur, and to take such steps to protect the University as seem to be required. The University respects the rights of its faculty and staff members in their activities outside their employment which are private in nature and which in no way conflict with or reflect upon the University.

4.1.6.3 Political Candidates or Office Holder. The University affirms the rights of its faculty and staff members as citizens to be active in political affairs which do not conflict with the professional standards and ethics of their employment. It shall be the responsibility of the President (or his/her designee) to ensure that conflicts involving professional standards and ethics do not occur with University faculty and staff members who are political candidates or office holders, and to take such steps to protect the University as may be required.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - EMERITUS APPOINTMENT

BOT 4.1.7

Date of Last Update: February 08, 2019

Approved By: Board of Trustees

Responsible Office: Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.7 Emeritus Appointment. Any retired faculty or staff member of the University who has made a significant contribution to the University through a reasonable period of service is eligible for emeritus status with an emeritus title usually conforming to that held at retirement. The President's recommendation to the Board of Trustees will be made after consultation with the Appointing Officer, colleagues and vice-president. This recommendation may be made posthumously if all other criteria except retirement status have been met. In its sole judgement, the Board of Trustees reserves the right to revoke emeritus status. Emeriti will be appointed without compensation.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - HONORARY TITLES

BOT 4.1.8

Date of Last Update: June 01, 2017

Approved By: Board of Trustees

Responsible Office: Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.8 Honorary Titles. Persons who are performing significant services to the University may be given an honorary title conforming to the service performed upon recommendation of the President to the Board of Trustees. Honorary faculty and staff will be listed in appropriate publications, may participate in commencement, use library facilities, and will be encouraged to take an active role in the University. They will be appointed without compensation. The duration of an honorary appointment shall coincide with the period of service rendered.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - VERIFICATION OF CREDENTIALS

BOT 4.1.9

Date of Last Update: June 01, 2017

Approved By: Board of Trustees
**POLICY STATEMENT**

4.1.9 Verification of Credentials. All advanced degrees recognized by the University must be earned from institutions approved by recognized accrediting bodies. In the case of foreign degrees, a formal evaluation will be made by the Appointing Officer to determine equivalency with degrees awarded in the United States.

---

**GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - OBLIGATIONS OF APPOINTEES**

BOT 4.1.10

Date of Last Update:
June 01, 2017

Approved By:
Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

**POLICY STATEMENT**

4.1.10 Obligations of Appointees. As the result of accepting an appointment, the recipient becomes obligated to comply with all policies and regulations of the University applicable to the position including those in effect at the time of appointment and those duly adopted and issued thereafter. This obligation does not contravene the appointee's rights of academic freedom or the express terms and conditions of the appointment. Among such policies are the following:

4.1.10.1 Outside employment. Since faculty and staff members are required to fulfill their responsibilities completely and effectively, any outside employment which a faculty or staff member wishes to undertake must be approved in advance by the Appointing Officer.

4.1.10.2 Rights in published material, inventions and secret processes. The University seeks to promote the public good through excellence in teaching, active scholarship, and service. In the course of these activities, faculty, staff, and students create Intellectual Property that may be eligible for copyright, patent, and other forms of legal protection. In order to reinforce the fairness of mutual commitment and in the spirit of academic freedom, the University recognizes the rich and varied products of individual scholarship, in all its manifestations, are rightly the property of the Creator except as otherwise defined by this Section 4.1.10.2. The University also recognizes that Intellectual Property should remain available for the benefit of the entire University community and that Creators shall not use Intellectual Property in conflict or competition with the University. Therefore, the University community seeks to establish an environment in which the creation of Intellectual Property is suitably recognized as an academic achievement and in which the benefits of intellectual property to the creators, the University community, and the general public are optimized.

A. Ownership. All Intellectual Property shall be owned by its Creators when such Intellectual Property is not considered 1) work made for hire; 2) expressly assigned or commissioned by the University; 3) grant or contract funded through the University; or 4) to require more than nominal use of University resources. Irrespective of ownership, Creators shall disclose promptly and with full disclosure, in the manner prescribed by the University in order to protect confidentiality of the Intellectual Property, to the Finance and Administration Office any Intellectual Property discovered or created as a result of 1) work made for hire; 2) expressly assigned or commissioned by the University; 3) grant or contract funded through the University; or 4) more than nominal use of University resources. The President or designee by written agreement is authorized to make exceptions to this paragraph.

B. Right to use. In the event the Intellectual Property is owned by the Creator but involved University resources in the discovery or creation of the Intellectual Property, the University will retain a non-exclusive license to use the Intellectual Property within the University provided attribution is given to the Creator(s) of the Intellectual Property. In the event the Creator leaves the employ of the University, the University shall be able to modify the Intellectual Property for use within the University.

C. Commercial Application. Three options for the commercialization of a technology are noted below. The option will be chosen by Creator(s) and the Finance and Administration Office jointly, prior to the expenditure of substantial University resources. The option chosen should be that which best serves the mission of the University, including the objectives of this policy, and which is consistent with the available technology transfer resources of the University. The following three options for commercialization are available:

1. Licensing Third Parties. The University may license or assign Intellectual Property to external entities for further development and commercialization in exchange for a return on resulting revenues. The University and Creator shall divide the return on resulting revenues using one of the two formulas as follows:

   A. The University and the Creator divide the gross revenue 70% to the University and 30% to the Creator but the University assumes the expenses related to legal protection, marketing and commercialization and licensing and other transactional expenses related to the Intellectual Property; or,

   B. The University and the Creator divide the net revenue 50% to the University and 50% to the Creator but the University first recovers its expenses related to legal protection, marketing and commercialization and licensing and other transactional expenses related to the Intellectual Property.

If the University decides not to protect or license the Intellectual Property, or subsequently decides to not pursue commercialization of the Intellectual Property it may be reassigned to the Creator(s), upon request, in accordance with option 3 below.

2. Licensing Business Entities in which a Creator holds an ownership or management interest. The University or an affiliated entity may enter into license agreements with business entities in which the Creator holds an ownership interest. The terms may include royalty payment, equity interest, or a combination thereof.

3. Reassignment of ownership to Creator. The University may reassign ownership of Intellectual Property to Creator(s) who elects to market and protect the Intellectual Property. The return to the University for a reassignment of ownership will be ten percent (10%) of the net revenue generated by the Intellectual Property.

D. Definitions.

1. "Creator" shall mean a faculty or staff member who invents, discovers or creates Intellectual Property using University resources.

3. "Academic Works" shall mean Intellectual Properties that are artistic, scholarly, instructional or entertainment in nature and are not Technical Works. Academic Works include instructional materials, books, journal articles, written reports of research to the extent that they do not contain Technical Works, creative writings, manuscripts, music and art work.
4. “Technical Works” shall mean Intellectual Properties that are generally of a scientific, engineering or technical nature such as patentable or unpatentable inventions, devices, machines, processes, methods, invented or manufactured substances, and computer software.

5. "Nominal Use of University Resources" shall mean use that is customary or usual within the faculty, staff and student's appointment and assignment such as the use of an assigned office, computer, computing network, photocopier or similar reproduction device, telephone or similar telecommunication device, and office supplies in the ordinary support of his or her teaching, scholarly activities and service.

4.1.10.3 Oath of Teachers. Before serving in a teaching position, an appointee will have taken and subscribed the following oath or affirmation as required by Act 23 of the Public Acts of 1935:

“I do solemnly swear (or affirm) that I will support the Constitution of the United States of America and the Constitution of the State of Michigan, and that I will faithfully discharge the duties of my position according to the best of my ability.”

4.1.10.4 Research Integrity. Research, scholarship and creative activities are central to fulfilling the mission of the University. It is policy of the University that all employees, students, partners and affiliates always perform their roles related to research, scholarship and creative activity with ethical integrity. This requirement reflects a culture publicly committed to developing and fostering the highest standards of professional ethics. Research integrity is demonstrated in the decisions and actions that exemplify our core ethical values. The core ethical values in research related activities, including scholarship and creative performance, include: 1) truthfulness and honesty; 2) non-maleficence and beneficence; 3) trustworthiness, reliability, confidentiality, respect, and collegiality; and 4) accountability.

1. Truthfulness and Honesty. Intellectual and creative activities require thoroughgoing truthfulness and honesty in proposing, conducting and reporting research related activities, scholarship and artistic performance.

2. Non-maleficence and Beneficence. Endeavors involving human or animal subjects require balancing non-maleficence with beneficence in minimizing burdens to research subjects in relation to the potential benefits to those subjects and others.

3. Trustworthiness, Reliability, Confidentiality, Respect, and Collegiality. Research integrity requires trustworthiness and reliability in recognizing and building on the prior work of others, confidentiality in peer review and assessment, and respect and collegiality in interactions with colleagues and students.

4. Accountability. The broader community’s welfare depends upon explicit researcher accountability for all research, scholarship and creative performance related activities, and for reporting misconduct about which one has direct knowledge.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - PARKING

BOT 4.1.11

Date of Last Update: June 01, 2017

Approved By: Board of Trustees

Responsible Office: Legal, Compliance & Risk Management

POLICY

4.1.11 Parking. The University provides free open reserved parking as near to the faculty or staff member's work station or office as possible.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - KEYS

BOT 4.1.12

Date of Last Update: June 01, 2017

Approved By: Board of Trustees

Responsible Office: Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.12 Keys. All faculty and staff members are issued keys and other equipment needed in the performance of their duties. All keys and such equipment must be used only as authorized and must be returned to the University upon termination of employment.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - IDENTIFICATION CARDS

BOT 4.1.13

Date of Last Update: June 01, 2017

Approved By: Board of Trustees

Responsible Office: Legal, Compliance & Risk Management
POLICY STATEMENT

4.1.13 Identification Cards. Each faculty or staff member will be issued an identification card which must be surrendered upon termination. This card can be used for any purpose, at the University, requiring identification.

PUBLIC SAFETY

BOT 4.8.1

Date of Last Update: June 01, 2017

Approved By:

• Board of Trustees

Responsible Office:

Legal, Compliance & Risk Management

POLICY STATEMENT

4.8.1 All policies for public safety staff will be governed by the provisions of the collective bargaining agreement as ratified by the Board.

HONORARY NAMING OF A PORTION OF A GVSU FACILITY POLICY

SLT 2.1

Date of Last Update: June 30, 2014

Approved By:

• Senior Leadership Team

Responsible Office:

Office of the President

POLICY STATEMENT

Only in exceptional circumstances where a former member of the Grand Valley State University community has made an extraordinary, significant, positive, contribution will a portion of a facility be named for such a person. A portion of a facility may be a classroom, laboratory, conference room or similar space.

PROCEDURES

• Nominations must be made in writing to the appropriate Vice President. With the support of the Vice President, the nomination will be forwarded to the Executive Associate to the President. The Executive Associate to the President will bring the nomination to the Senior Leadership Team who will review and give input to the President of the University. The President of the University will make the final determination on the naming of portions of facilities.

• A nominee typically will have been employed by Grand Valley State University for a minimum of 20 years. In special circumstances the 20-year minimum may be waived.

• The nominee must not be employed by the University at the time of the nomination. Nominations will be accepted only after a one-year waiting period following the end of the person’s service.

• The nomination must include specific examples of the nominee’s contributions to the University.

• The names of portions of facilities honoring former members of the University community shall be considered permanent as long as that portion of the facility exists or its purpose has not changed or the President subsequently determines otherwise.

• It is generally understood that entire University buildings or facilities will not be named in honor of a former member of the University community. (Please see Grand Valley State University Board of Trustees’ Policies BOT 6.13.3, Naming of Buildings.)

• Consideration for the naming of academic programs, centers, etc. will follow the same procedure as outlined above.

The President of the University will consider nominations in consultation with others at the university as appropriate. The final decision on the naming of a portion of a University facility will rest with the President of the University. The Executive Associate to the President will communicate the President’s decision to the requesting party and the appropriate Vice President.

POLICY ON POLICIES

SLT 2.2

Date of Last Update: March 25, 2008

Approved By:

• Senior Leadership Team

Responsible Office:

Office of the President

POLICY STATEMENT
The Grand Valley State University community will have access to clearly stated university-wide administrative policies, to be published as Grand Valley State University Policies on the University Web site. These policies will be:

- Formally approved and kept current
- Accessible to all parties in a centralized Grand Valley State University Policies website
- Communicated to operating units in a timely manner

PROCEDURES

A Policy is characterized by the following criteria:

- It is a governing principle that provides specific rules and provisions for implementing Board policies and setting expectations for the administrative operation of the University.
- It has institution-wide application.
- It enhances the University’s mission and connects it to individual conduct.
- It helps ensure compliance with applicable laws and regulations and Grand Valley State University Board of Trustees policies, promotes operational efficiencies and reduces institutional risk.
- It may change infrequently and sets a course for the foreseeable future.
- It is approved by the President and/or the Senior Leadership Team.

There are many department-level policies that apply only to those within a department and do not meet all of the above criteria. Therefore, they are not considered to be Grand Valley State University Board of Trustees’ Policies, and are not governed by this document. However, these policies may not conflict with the Board of Trustees’ Policies or Senior Leadership Team (SLT) Policies.

The Grand Valley State University Board of Trustees’ Policies will not include: curricular requirements for degrees, the basic terms and conditions of employment subject to collective bargaining, Academic & Student Affairs Policies as published in the Faculty Handbook and Student Code, Catalog, or division-wide policies (approved by a Vice President in consultation with the President).

Additional Policy Criteria for Vice Presidential Review

A Vice President or the Provost may use the following criteria in addition to the above policy definition when determining whether a proposed policy is suitable for consideration as a Grand Valley State University Policy:

I. People

- a. Does it impact inclusion or equity?
- b. Who will be affected; how many will be affected?
  - i. Students
  - ii. Faculty
  - iii. Staff
  - iv. External or internal audience
  - v. More than one department/division
  - vi. More than one campus

II. Money

- a. Is there a source of funding?
- b. Does it involve an expense or provide revenue?
  - i. One-time expense
  - ii. On-going expense
  - iii. Fee or refund involved

III. Space

- a. Does it affect or commit a use of space?
- b. Does it involve the use of University communication systems?

ART COLLECTION MAINTENANCE AND CARE POLICY

SLT 3.1

Date of Last Update:
December 05, 2014

Approved By:
Senior Leadership Team

Responsible Office:
Art Gallery Department

POLICY STATEMENT

The Grand Valley State University art collection is made up of paintings, drawings, prints, sculptures, ceramics, textiles, and other works of art as defined by the Art Gallery Department but does NOT include plaques, signage, degrees, awards, and other similar items. The art collection is displayed on every University campus, and in nearly every University facility and building. Faculty and staff members, contractors, students, and other people with duties/responsibilities requiring them to come into contact with the University art collection are subject to the following policies and procedures to ensure that the University’s legal, ethical, and fiduciary responsibilities for the safekeeping of these assets are maintained. For more details on all other internal art procedures, see the Art Gallery Collections Policy on the Art Gallery's website or contact the University Art Gallery at (616) 331–3638.

PROCEDURES

Maintenance and Care
All art at the University is to be cleaned, handled, installed, de-installed, and transported exclusively by the staff of the University Art Gallery. Other than representatives of the University Art Gallery, individuals must have written permission from the Director of Galleries and Collections, Assistant Director, or the Curator of Collections Management before handling or moving any pieces of the art collection.

Building Construction/Renovation Projects
The Director of Galleries and Collections or designee will call a meeting in December of each year with representatives from Facilities Services, Facilities Planning, and Auxiliary Services (Housing) for the purpose of identifying upcoming projects that will affect the art collection.

A follow-up meeting, called by Director of Galleries and Collections or designee, will take place in April of the next year for updating project status and will include a timeline for each project identified. Facilities Services Project Managers will be identified and included on the project lists.

The Director of Galleries and Collections, or designee, will attend the bi-monthly Facilities Project Status meetings to be kept up to date on all ongoing university construction projects and timelines.

The Art Gallery office will be alerted by a representative of Facilities Planning and Facilities Services as soon as reasonably possible for all, including last-minute, building project additions, deletions or changes. This includes a preferred art removal lead-time notice of no less than two weeks. This notice will be made directly by contacting the Art Gallery office.

The Art Gallery office will be contacted immediately in the event of an emergency (flood, fire, etc.) via a phone call if any piece of the art collection is in jeopardy of damage or
destruction. The Art Gallery staff will maintain a disaster and emergency preparedness plan (under development) for its collections and will make it accessible on its website.

Use and Access
The University art collection shall be accessible for research and study by responsible investigators, subject to procedures necessary to safeguard the objects, the space in which they are located, and to restrictions imposed by limitations of exhibition requirement, availability of study space and facilities, and availability of appropriate curatorial staff as determined by the curator/manager in charge of the collection. The entire University art collection is made digitally accessible through an online searchable database and mobile device applications. Information about both may be found online at the Art Gallery website, www.gvsu.edu/artgallery.

BRIDGE FUND REQUEST POLICY
SLT 3.2
Date of Last Update:
July 31, 2008
Approved By:
Senior Leadership Team

POLICY STATEMENT
Grand Valley State University does not encourage creating nor approving a Request to Add a New Fund (RANF) and establishing a FOAP prior to the official receipt of a fully executed award. A fully executed award is an externally sponsored agreement (grant, contract, or cooperative agreement) that is signed by the duly authorized official of both the external sponsor and Grand Valley State University. It is important to note that any expenses incurred prior to an award and without the appropriate approvals place the University at risk.

However, in some extraordinary situations, effective project management or research necessitates incurring expenses prior to the receipt of a fully executed award. In such cases, Principal Investigators may request a ‘bridge fund’ be established in anticipation of the fully executed award. Principal Investigators should contact the Office of Sponsored Programs (OSP) to initiate a Bridge Fund Request.

PROCEDURES
In an effort to minimize the risk to the University, the Office of Sponsored Programs will verify with the sponsor the allowability of pre-award costs, the anticipated award amount, and the period of performance. Once OSP receives verification in writing from the sponsor’s grants or contracts officer, the responsible Principal Investigator, Chair/Unit Head, Dean, and University Authorizing Official are all required to agree in writing to proceed with the expenditure of University funds in anticipation of the award. This agreement will be prepared by OSP in consultation with the Office of Business and Finance. It will be the responsibility of the Principal Investigator to obtain the required signatures of the appropriate Chair/Unit Head, Dean, University Authorizing Official, and Executive Officer (Office of the Provost).

The Bridge Fund Request will be processed in a manner similar to the Request to Add A New Fund. However, attached to the Bridge Fund Request will be:

1. Written verification from the sponsor (signed by the sponsor Grants/Contracts Officer) received by OSP
2. Bridge Fund Request Agreement signed by the Chair/Unit Head, Dean, and University Authorizing Official
3. A copy of the proposal application, narrative & budget

A Bridge Fund Request shall not exceed 15% of the anticipated GVSU award amount. The maximum allowable amount requested will be verified by OSP in consultation with the Office of Business & Finance. If the award is for multiple years, the Bridge Fund Request shall not exceed 15% of the anticipated GVSU award amount for the first year of the funding. Upon the official receipt of the fully executed award, the bridge fund transition into the official FOAP for the project.

Should funding not be received from the sponsor (e.g. the award start date is delayed, or the costs are determined to be unallowable, etc.) coverage of costs incurred on the project becomes the responsibility of the Department Chair/Unit Head having initiated and signed the initial Bridge Fund Request form.

This policy was effective August 1, 2007 and will be revisited for any revisions, changes, or sunset within one year of its effective date.

COLLEGIALITY POLICY
SLT 3.3
Date of Last Update:
June 06, 2014
Approved By:
Senior Leadership Team

POLICY STATEMENT
Grand Valley State University has a tradition of collegiality and shared governance and strives to maintain these standards as a mainstay of its institutional culture. As a value stated in the Board of Trustees’ policies as adopted by the Board of Trustees BOT 1.3:
A range of thoughtful perspectives is necessary for open inquiry, liberal education, and a healthy community. Recognizing this, we seek and welcome a diverse group of students, faculty and staff. We value a multiplicity of opinions and backgrounds and seek ways to incorporate the voices and experiences of all into our University. We value our local community and embrace the participation of individuals and groups from Michigan, the nation and the world. We also encourage participation in educational opportunities abroad.

In order to foster a healthy and diverse environment, we will act with integrity, communicate respectfully, and accept responsibility for our words and actions. This University is a community whose varied functions, responsibilities, and contributions are supportive of the instructional, research, and service mission of the institution. Collegial interactions as referenced throughout this policy are those interactions that occur among and between colleagues, subordinates, supervisors, administrators and students. Collegial interactions are essential to support that mission in an effective, efficient, and ethical manner.

PROCEDURES

FACULTY AND STAFF MEMBER

If a faculty or staff member believes that she or he has been subjected to act(s) of non-collegiality, ideally, the individual should first try to discuss the matter with the offending person and/or the appropriate unit head or supervisor. If circumstances make this too difficult or if this does not resolve the matter, the faculty or staff member may seek assistance from the Work Life Consultant in Human Resources. In addition to providing help in resolving the matter, the Work Life Consultant can suggest other available resources. If using this process does not resolve the matter or the faculty or staff member so chooses, she or he may file a complaint using the appropriate Complaint Process identified for each staff group as listed below.

Complaint Process:

Faculty members – Chapter 4, Section 2.18 of the Faculty Handbook

Executive, Administrative and Professional Staff – Board of Trustees' Policies 4.4.7

Professional Support Staff – Section 3.2.4 of the Agreement

Confidential Professional Support Staff – Section 9 of the Confidential PSS Handbook

Maintenance, Grounds and Service Staff – Section 5.2 of the Agreement

Department of Public Safety Staff – Section 5.2 of the Agreement

Security Staff – Personnel Policies in the Security Staff Handbook

STUDENT

If a student believes that she or he has been subjected to act(s) of non-collegiality, ideally, the individual should first try to discuss the matter with the offending person. If circumstances make this too difficult or if this does not resolve the matter, the student may seek assistance from the Dean of Students Office. In addition to providing help in resolving the matter, the Dean of Students Office representative can suggest other available resources. If using this process does not resolve the matter or the student so chooses, she or he may file a complaint using the appropriate process in the Student Code.

NOTE: The GVSU Collegiality Policy was modeled after policy from Northern Illinois University (www.niu.edu)

DEFINITIONS:

"Collegiality" defined:

Collegiality represents an expectation of a professional relationship among and between faculty, staff, and students with a commitment to sustaining a positive and productive environment as critical for the progress and success of the University community. It consists of collaboration and a shared decision-making process that incorporates mutual respect for similarities and for differences - in background, expertise, judgments, and points of views, in addition to mutual trust. Central to collegiality is the expectation that members of the University community will be individually accountable to conduct themselves in a manner that contributes to the University's academic mission and high reputation. Collegiality among faculty, staff, and students involves a similar professional expectation concerning constructive cooperation, civility in discourse, and engagement in academic and administrative tasks within the respective units and in relation to the institutional life of the University as a whole. Collegiality is not necessarily congeniality nor is it conformity nor excessive deference to the judgments of faculty, staff, and students; these are flatly oppositional to the free and open development of ideas. Evidence of collegiality is demonstrated by the protection of academic freedom, the capacity of faculty, staff, and students to carry out their professional and learning functions without obstruction, and the ability of a community of scholars to thrive in a vigorous and collaborative intellectual climate.

Non-collegial Behavior(s):

Allegations or complaints of repeated and unreasonable activity, or a severe non-collegial act, that clearly interferes with the professional working, learning, or other University environment, if verified, will constitute a violation of this policy. Such allegations will be examined in a reasonable, objective, and expedient manner, and in accordance with applicable federal and state laws and university due process procedures. It is crucial for the University to ensure the right of all faculty, staff, and students to perform their individual and collaborative roles in a workplace, learning or other University environment that is free from incivility, misuse of authority, intimidation, humiliation, retaliation, and infringement upon personal and academic freedoms. Non-collegial behaviors constitute bullying.

CONFLICT OF INTEREST IN RESEARCH POLICY

SLT 3.4

Date of Last Update:

December 22, 2016

Approved By:

• Senior Leadership Team

Responsible Office:

Center for Scholarly and Creative Excellence
POLICY STATEMENT

The University is committed to transparency, integrity of scholarship, and independence as it pursues its mission to create, preserve, and disseminate knowledge through teaching, research, and public service. Accordingly, Grand Valley State University allows and encourages faculty and staff to engage in outside activities and relationships that enhance the mission of the University. All faculty and staff members are to act with honesty, integrity, and in the best interest of the University when performing their duties, and to abide by the highest standards of research, educational, professional, and fiscal conduct.

External sponsors, whether governmental or private, institute conflict of interest regulations of their own for investigators seeking research funding. The purpose of such regulations is to promote objectivity in research and to provide a reasonable expectation that the design, conduct and reporting of sponsored research will be free from bias arising from Financial Interests of participating investigators. As a recipient of external funding from governmental and nongovernmental sponsors, the University must comply with these regulations. Similarly, investigators engaged in research on human subjects will be expected to comply with the Conflict of Interest (COI) provisions of the University’s Human Research Review Committee (HRRC) whether the research is funded from external sources or not.

No research, sponsored program, or technology transfer activities occurring at the University shall be adversely affected by the financial interests of the University personnel carrying out those activities. Prior to participating in a research, sponsored program, or technology transfer activity, University personnel having a potential conflict of interest shall disclose the details to the University. The Research Integrity Officer at the University shall be responsible for reviewing the disclosures and instituting an adequate plan for the management of any potential financial conflict of interest.

If any application for external funding is involved, faculty and staff investigators shall ensure that they have disclosed all Significant Financial Interests related to their University Responsibilities prior to submitting the application, and as soon as possible thereafter if a new Significant Financial Interest meeting the disclosure standard arises. Disclosures shall also be updated as soon as possible, but within 30 days, when an existing Significant Financial Interest ends or changes in a material way.

Faculty and Staff investigators funded by the Public Health Service (PHS) and/or other agencies that abide by PHS COI regulations are subject to additional requirements in accordance with 42 C.F.R. Part 50.601. Investigators involved in research funded by PHS sponsors must complete required conflict of interest training before engaging in research and every four years thereafter. GVSU may require training more frequently than every four years if there is a substantive conflict of interest change or specific instances of noncompliance.

This policy fulfills federal regulations requiring institutions receiving federal funding to have in place a written, enforced policy and process to identify and manage, reduce, or eliminate conflicts of interest of persons engaged in the design, conduct, or reporting of federally funded research.

COPYRIGHT POLICY

SLT 3.5

Date of Last Update:
May 06, 2015

Approved By:

Senior Leadership Team

Responsible Office:
University Libraries

POLICY STATEMENT

The Grand Valley State University Libraries are committed to following all applicable laws regarding copyright and other intellectual property. This includes not only preserving the rights of creators and owners of copyright, but also supporting the rights of users of copyrighted material, including fair use and other exemptions from copyright. This policy outlines the role of the University Libraries in providing education, information, and support regarding copyright, in order to fulfill our mission of advancing intellectual growth and discovery at GVSU.

PROCEDURES

The University Libraries work to educate and support our students, faculty, and staff by serving as an information resource on copyright law as well as the rights of creators, owners, and users of copyrighted materials. We provide detailed resources for understanding and working with copyright through our copyright guide: [http://www.gvsu.edu/library/copyright](http://www.gvsu.edu/library/copyright).

We also offer educational programming, individual consultations, and other services related to copyright issues. For more information on the copyright services we provide, or for support with a copyright issue, please contact a librarian [https://www.gvsu.edu/library/librarians](https://www.gvsu.edu/library/librarians).

The University Libraries offer education and information, but we do not enforce others’ compliance with copyright law, nor do we provide legal advice. We can help faculty, students, and staff understand how copyright law works in general, and provide information on specific issues, but the final responsibility for ethical and legal use of copyrighted materials rests with the user. This responsibility extends to the use of technology provided by the Libraries, such as scanners and copiers.

The University Libraries do take responsibility for adhering to copyright law when using copyrighted materials in our mediated services, including course reserves and Document Delivery, and we make internal decisions accordingly. However, we cannot make decisions for other users; we can only provide information and education. For legal advice pertaining to copyright and other intellectual property issues, we recommend that you contact the Division of Legal, Compliance & Risk Management.

EXPORT CONTROL POLICY

SLT 3.6

Date of Last Update:
April 24, 2019

Approved By:

Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence
POLICY STATEMENT

All personnel at Grand Valley State University, including faculty at all levels, staff, students, visiting scholars, and all other persons herein referred to as “GVSU Personnel” retained by or working at the University must comply with all U.S. export control laws and regulations while teaching, conducting research, or providing service activities at or on behalf of the University. No GVSU Personnel may engage in any export activity that is prohibited by the U.S. Department of Commerce, the U.S. Department of State, the U.S. Department of Treasury’s Office of Foreign Assets Control, or any other government agency that enforces export laws/regulations. Similarly, GVSU Personnel may not transfer any controlled item, including technology and technical data, to any foreign nationals inside or outside the United States territory without approved documentation.

Compliance with export control laws and regulations must be considered and if necessary achieved before engaging in science or technology-based research, executing contracts or other agreements, purchasing high-technology devices or software, or traveling internationally. GVSU Personnel are responsible for the following:

(i) Ensuring their educational, research, and other University activities are conducted properly and in compliance with export control regulations, all requirements of this policy, and any technology control plan on which they are included;

(ii) Ensuring contracts and service agreements entered into on behalf of the University include the appropriate export control language;

(iii) Notifying the Office of Research Compliance and Integrity at least 30 days prior to traveling on behalf of the University to any of the following locations:
   (1) Embargoed and/or targeted sanctioned countries identified by the Export Administration Regulations and/or the Office of Foreign Assets Control; and
   (2) Prohibited countries identified by the International Traffic in Arms Regulations

(iv) Obtaining pre-approval from the Office of Research Compliance and Integrity to take or ship any University property to an embargoed, targeted sanctioned, and/or prohibited country, as defined in (iii) above; and

(v) Notifying the Office of Research Compliance and Integrity at least 30 days prior to traveling on behalf of the University to any of the following locations:

   (i) Ensuring their educational, research, and other University activities are conducted properly and in compliance with export control regulations, all requirements of this policy, and any technology control plan on which they are included;

   (ii) Ensuring contracts and service agreements entered into on behalf of the University include the appropriate export control language;

   (iii) Notifying the Office of Research Compliance and Integrity at least 30 days prior to traveling on behalf of the University to any of the following locations:

   (1) Embargoed and/or targeted sanctioned countries identified by the Export Administration Regulations and/or the Office of Foreign Assets Control; and
   (2) Prohibited countries identified by the International Traffic in Arms Regulations

It is essential that all GVSU Personnel keep current with information and training provided by the University. The Vice Provost for Research Administration (VPRA), or designee, is the University’s Empowered Official who is responsible for overseeing the University’s export compliance program.

The University’s Empowered Official or designee, is legally empowered to sign license applications or other requests for approval on behalf of the University and has authority to:

   (i) Enquire into any aspect of a proposed export or temporary import by the University,

   (ii) Verify the legality of the transaction and the accuracy of the information to be submitted, and

   (iii) Refuse to sign any license application or other request for approval without prejudice or other adverse recourse.

For more information about export controls, please contact the Office of Research Compliance and Integrity at 616-331-3197 (https://www.gvsu.edu/export/).

NON-AFFILIATE/GUEST USE OF LIBRARY RESOURCES AND COMPUTERS

SLT 3.9

Date of Last Update:
February 19, 2020

Approved By:
· Senior Leadership Team

Responsible Office:
University Libraries

POLICY STATEMENT

Grand Valley has developed this policy in cooperation with its libraries and library staff to outline the policy guest usage of written materials, books and documents housed within the library as well as library computer resources.

Tours

All requests for tours will be evaluated according to purpose, outcomes and facility availability. Scheduling is based on staff availability, the University academic calendar and activity within the library. Tours may be restricted during mid-term and final exam study periods.

General building tours may be requested by calling 616.331.3500.

Walk-in tours of the Mary Idema Pew Library Learning & Information Commons are offered throughout the year. No registration is necessary, and these tours are available on a first come, first served basis, and limited to fifteen per session. Inquire at the Service Desk upon arrival. Self-guided tour brochures are available at the Service Desk.

GSU course specific tours of any of the University Libraries locations may be requested, please contact your subject librarian.

University, school and professional groups interested in specific library programming; building vision and project, technology, architecture, facilities, or LEED information may request an administrative meeting and building tour by contacting University Libraries Administration at 616.331.2606.

Library Resources

Borrowing of GVSU library items requires a valid GVSU ID, GVSU Alumni Card, or MelCat Visiting Patron status.

Computer Access

Guests must present a valid, government issued ID or other photo ID with additional proof of residence to library staff. Additionally, guests will agree to abide by current GVSU computer use policies. Failure to do so will result in computer access privileges being revoked. Library staff will exercise discretion in limiting guest access in favor of GVSU students, faculty and staff. Accommodations will be made for those in need of accessing our government depository collections.

Room Reservations

The University Libraries is oriented toward the students, faculty and staff of Grand Valley State University. Room reservations are limited to GVSU affiliated individuals and require authentication.
Minor Guests

In accordance with section V of the Minors on Campus Policy (SLT 9.8), the Libraries are not considered a venue appropriate for unescorted or unsupervised minors. Authorized representatives may check out items for minors, and in doing so, assumes responsibility for the material.

In accordance with the Minors on Campus Policy section IV, minors who are enrolled in GVSU courses, have all privileges and responsibilities of students using the Libraries.

EXTERNALLY SPONSORED PROJECTS POLICY

SLT 3.11

Date of Last Update:
September 04, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY

This document establishes Grand Valley State University’s (University) official policy governing the administration of proposals, awards, contracts, and agreements for all externally sponsored projects. Externally Sponsored Projects do not include Purchasing Agreements or Philanthropic Gifts.

The purpose of this policy is to help ensure that all proposals and awards for externally sponsored projects conform to federal regulations, including the Office of Management and Budget 2 CFR 200—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (a.k.a., the Uniform Guidance)—and are consistent with GVSU’s academic and business policies and sound fiscal practices.

POLICY STATEMENT

Only an Authorized Organizational Representative of the University may submit proposals to fund and/or otherwise support externally sponsored projects on behalf of the University. In addition, an Authorized Organizational Representative may accept on behalf of the University any Externally Sponsored Project award resulting from such proposal submissions or other solicitation processes. The University will not normally accept awards received from outside sources without prior proposal approval as provided in this policy.

DEFINITIONS:

Assistance Action: The main purpose of an assistance action is to transfer money, property, services, or anything of value to the recipient in order to accomplish a public purpose of support or stimulation. The agency must have legal authority to award assistance agreements for this purpose. Grants or cooperative agreements are used to award assistance funds.

Authorized Organizational Representative: An Authorized Organizational Representative is the Vice Provost for Research Administration and any University employee(s) to whom the Vice Provost for Research Administration has delegated oversight responsibility for the administration and management of Externally Sponsored Projects at the University. Only an Authorized Organizational Representative has the authority to submit proposals, accept awards, and sign contracts and agreements for Externally Sponsored Projects on behalf of the University.

Externally Sponsored Project: Externally Sponsored Projects include all projects supported by way of grants and cooperative agreements (direct Assistance Actions); incoming or outgoing sub-recipient agreements or subawards (pass-through Assistance Actions); certain incoming or outgoing contracts (i.e., externally sponsored Procurement Actions), including direct contracts, service agreements, and consulting agreements; pass-through subcontracts and service agreements; and certain other agreements, including master collaboration agreements, material transfer agreements, and data-use agreements—whether funded or unfunded. Externally sponsored projects do not include Purchasing Agreements or Philanthropic Gifts.

Philanthropic Gift: A philanthropic gift is an instrument by which an outside donor voluntarily transfers money, services, or property from a donor to the University. There is no expectation of direct economic benefit or the provision of goods or services to the donor, although donors can place stipulations on gifts that direct the funds to the donors’ areas of interest. The absence of quid pro quo language helps define the charitable nature of this type of giving.

Procurement Action: The main purpose of a procurement action is to acquire property or services by purchase, lease, or barter for the use or direct benefit of the purchaser (whether the purchaser is the university purchasing from an outside entity or an outside entity purchasing services from the university). An agreement or contract is used as the legal instrument to award a Procurement Action.

Purchasing Agreement: An agreement entered into by the University through its Procurement Services Office and an outside vendor or supplier to purchase goods and/or services. Examples of non-sponsored purchasing agreements include software licenses, pricing agreements, equipment maintenance agreements, custodial and facilities services, landscaping services, and office supply-vendor agreements.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.

ALLOWABLE COST POLICY

SLT 3.11.1

Date of Last Update:
September 04, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Policies

All costs proposed to be charged on externally sponsored projects (as defined at SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY at Grand Valley State University (the University) must comply with the Federal cost principles prescribed in 2 CFR 200 Subpart E, §200.400; the policies of the sponsoring agency; the specific funding solicitation for which the cost is proposed; and all applicable policies of the University.

Specifically, in order to be deemed an allowable cost on such a project, the cost of any particular item must:

1. Be necessary and reasonable for the performance of the awarded project. That is, the project cannot be performed without the item and a reasonable and prudent person would incur the cost of the item under the circumstances prevailing at the time the decision was made to propose or incur the cost (§200.403-404).
2. Be fully allocable to the particular awarded project or be proportionally allocable to it and another cost objective according to the relative benefit derived (§200.405).
3. Be treated consistently. A cost may not be assigned to a sponsored project as a Direct Cost if any other cost incurred for the same purpose in like circumstances has been allocated to the awarded project as an Indirect Cost. University policies governing the treatment of costs must apply uniformly to both sponsored- and non-sponsored activities. Like expenses must be treated the same in like circumstances (§200.400(e)).

Such costs much also meet one of the following two criteria:

1. Be an item or category of cost that is not expressly disallowed by the federal government (guidance available at §200.420-475, General Provisions for Selected Items of Cost); the sponsor (as documented in sponsor policy statements and in the applicable sponsor funding solicitation); or the University (as defined below under Unallowable Costs and documented in the Business and Finance Procedures and the University-Wide Policies); OR
2. Be an otherwise unallowable cost that is expressly allowed by the sponsor, whether as stipulated in an award or proposal-solicitation document or as documented in a prior written approval request duly executed by an Authorized Organizational Representative of the University. If an expense does not meet the above criteria, it must not be charged to an externally sponsored project at the University.

Definitions:

Direct Costs are expenses that are specifically associated with a particular externally sponsored project that can be directly assigned to such activities with a high degree of accuracy.

Indirect Costs (also referred to as Facilities & Administration [F&A] or overhead costs) are expenses that cannot be identified specifically with a particular project or activity. Indirect costs benefit multiple activities and programming objectives. In order to capture the amount of indirect costs that should be allocated to a grant, the University has calculated an indirect cost rate, approved by the federal government.

The indirect costs included in this rate are made up of two broad categories: Facilities and Administration.

Facilities costs include:
- Custodial and Maintenance
- Utilities
- Grounds Services
- Parking Operations, less parking lines and fees
- Property and Liability Insurance
- Facility Planning and Management
- Engineering Planning and Management
- Depreciation

Administration costs include all the expenses incurred in providing the following university services:
- Central Administration
- Business & Finance, including financial audit
- Human Resources
- Legal Services
- Inclusion & Equity
- Library Operations
- Administrative Computer Operations
- Grants and Research Administration
- Department Administration, as defined by the federal government to be 20% of Dean and Dean’s assistant compensation
- Mail Services
- Public Safety
- University Communications

Federal Cost Principles are the Federal regulations that govern expenditures on federal awards and which also apply to non-federal awards to GVSU because of the University’s required federal compliance under 2 CFR 200 Subpart F, Audit Reporting.

Prior Written Approval is a formal permission the University must document before it proposes or incurs a special or unusual cost that may be deemed unallowable under the federal cost principles under normal circumstances.

Requests for prior written approval must be rationalized in writing as allowable under an “unlike circumstances” justification by the University personnel who wish to propose the special or unusual costs. The requests are then reviewed, approved, and (assuming approval is granted) formally submitted to the sponsoring agency by the Authorized Organizational Representative of the University (as defined in SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY).

In accordance with the Uniform Guidance at 2 CFR 200, prior written approval from the sponsor is explicitly required (either in the awarded proposal budget, during award negotiation, or prior to incurrence of costs in the event that the expense is to be proposed post-award) for a number of items, including the following:

1. Administrative expenses (§200.413(c))
2. Change of scope (§200.308 (c)(11))
3. Cost sharing or matching (§200.308 (c)(7))
4. Entertainment costs (§200.438)
5. Equipment and other capital expenditures (§200.313, 439)
Unallowable Costs are costs that could be considered appropriate and reasonable, but which are not eligible for reimbursement by the federal government and therefore to ensure consistent treatment under the federal cost principles, are not allowable on any sponsored program. Exceptions are possible with a strong justification for unlike circumstances and with prior written approval (as defined above) from the Authorized Organizational Representative of the University and the sponsor.

Unallowable costs include:

1. Advertising and public relations
2. Advisory councils
3. Alcoholic beverages
4. Alumni/ae activities
5. Bad debt expense
6. Collections of improper payments
7. Commencement and convocation costs
8. Contributions and donations
9. Entertainment costs
10. Fines, penalties, damages and other settlements
11. Fund raising and investment management costs
12. Lobbying
13. Intra-Institution of Higher Education (IHE) Consulting
14. Losses on other awards or contracts
15. Club, social, dining club or lobbying organization memberships
16. Proposal costs
17. Meals and travel associated with lobbying, fund raising, alumni activities
18. Student activities
19. Passports and immigration visas

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.

COST SHARING POLICY FOR EXTERNALLY SPONSORED PROJECTS

SLT 3.11.2

Date of Last Update:
September 04, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Office of Sponsored Programs

POLICY

Grand Valley State University (the University) shall minimize cost sharing on all externally sponsored projects (as defined at SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY).

The University will allow cost sharing on such projects under the following conditions:

1. When it is required by the sponsoring agency (Mandatory Cost Sharing) as documented in a proposal solicitation, program description, sponsor policy, Catalog of Federal Domestic Assistance record, broad agency announcement or other official sponsor document.
2. When a reasonable justification is made that provision of Voluntary Cost-Sharing (whether Committed or Uncommitted) will improve the competitiveness of a proposal.

Further, in cases under which the University will allow cost sharing:

1. The proposed cost sharing must be thoroughly and accurately quantified;
2. The proposed cost sharing must represent an allowable cost (as defined in SLT 3.11.1 ALLOWABLE COST POLICY);
3. The proposed cost sharing must be limited to what is required by the sponsor (Mandatory Cost Sharing) or to what is deemed reasonable by the Appointing Officer (as defined in BOT 4.1.1: GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF – PERSONNEL ADMINISTRATION) who has authority over the resources proposed to be committed (Voluntary Cost Sharing);
4. The approval to subsidize all proposed cost sharing must be documented by the Appointing Officer who has authority over the resources proposed to be committed;
5. The quantification and approval of cost-sharing subsidies must be documented and approved by the Authorized Organizational Representative of the University (as defined at SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY) using the standard systems and processes of the Office of Sponsored Programs; AND
6. All approved cost sharing included in an awarded externally sponsored project must be monitored, tracked, and reported by the Grants Accounting office in accordance with all applicable federal and sponsor requirements.
DEFINITIONS:

Cost Sharing: Cost sharing is that portion of an externally sponsored project cost that is not reimbursed by the sponsor (whether federal or non-federal) and therefore represents a commitment of institutional resources that would generally otherwise be devoted to other University purposes.

There are three forms of cost sharing:

1. Mandatory Cost Sharing, which is required by the sponsor as an award condition and becomes an obligation once an award is made;
2. Voluntary Committed Cost Sharing, which is voluntarily offered and documented in a proposal submission and therefore becomes an obligation once an award is made; and
3. Voluntary Uncommitted Cost Sharing, in which voluntary cost sharing is intended, but not explicitly committed (documented) in a proposal, and therefore not a binding commitment that must be tracked and reported.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.

SUPPLEMENTAL COMPENSATION ON EXTERNALLY SPONSORED PROJECTS POLICY

SLT 3.11.3

Date of Last Update: September 04, 2019

Approved By: Senior Leadership Team

Responsible Office: Office of Sponsored Programs

POLICY

Grand Valley State University (the University) normally does not allow for compensation charges in excess of an individual’s Institutional Base Salary on any Externally Sponsored Project (as defined in SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY). In most cases, funding from such projects must supplant, not supplement Institutional Base Salary during the Base-funded Appointment Period.

In the absence of unusual circumstances and specific Prior Written Approval (as defined in SLT 3.11: ALLOWABLE COSTS POLICY) from the appropriate University and/or sponsor officials as described in this policy, faculty member compensation for sponsored-project work at the University must offset Institutional Base Salary through:

1. The use of Significant Focus Time (as defined in SG 3.01: FACULTY RESPONSIBILITIES);
2. The application of Reassigned Time (as defined in SG 3.03: REASSIGNED TIME); or
3. Some combination of Significant Focus Time and Reassigned Time.

Absent Prior Written Approval for Supplemental Compensation following procedures stated below, Administrative/Professional staff members must also offset Institutional Base Salary to participate in externally sponsored projects (supplant, not supplement). Such offsets shall require a reorganization of established job duties in the staff member’s organizational unit that is approved by the staff member’s Appointing Officer and Executive Officer.

In order to charge Supplemental Compensation to federally funded Externally Sponsored Project accounts at the University, the work performed must be justifiable as Intra-Institution of Higher Education Consulting as defined at 2 CFR 200.430—COMPENSATION; PERSONNEL SERVICES, which limits such charges according to their adherence to specific criteria. Such consulting must be:

1. Across departmental lines or involve a separate or remote location that is at least 30 miles away from the employee’s University campus office;
2. Outside the scope of the employee’s regular appointment as documented in the employee’s appointment letter;
3. Short term in nature; and
4. Provided for in the sponsored agreement, or approved in writing by the sponsoring agency prior to the incurrence of applicable expenses.

In order to charge Supplemental Compensation to a non-federal Externally Sponsored Project account, the allocation is subject to the prior written approval of the Vice Provost for Research Administration as well as the sponsoring agency.

DEFINITIONS:

Base Appointment Period at the University generally falls into one of two categories:

1. An Academic Year Appointment is comprised of the nine-month span from August 6 of a given calendar year to May 5 of the following calendar year.
2. A 12-month Appointment is comprised of the twelve-month span from August 6 of a given calendar year to August 5 of the following calendar year.

Institutional Base Salary is the annual salary the University pays for an employee’s appointment, regardless of appointment category and whether the employee’s time is spent on research, teaching, administration, patient care, or other University responsibilities. Institutional Base Salary does not include bonuses, one-time payments, incentive pay, or income that an employee is permitted to earn outside of their University responsibilities such as Private Consulting.

Private Consulting refers to works for hire performed by a University employee outside of their University responsibilities. To be deemed private consulting, work must be performed without the use of any University resources, including administrative services of any kind, facilities (classroom, clinical, meeting, or office space), supplies, equipment, computing resources, and any other service or resource owned by the University. Any outside employment must be approved in advance by the Appointing Officer (BOT 4.1.10).

Consulting services that require the use of University resources are subject to SLT 3.17: SERVICE AND CONSULTING AGREEMENTS POLICY.

Supplemental Compensation, also known as extra salary or extra service pay, is compensation a University employee receives in excess of Institutional Base Salary; Supplemental Compensation represents payments for services outside the normal scope of employment.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.
POLICY STATEMENT

Grand Valley State University’s Facilities and Administrative (F&A) rate (also known as the indirect-cost rate) is established in accordance with the Federal Office of Management and Budget under 2 CFR 200 Uniform Guidance (previously A-21). The rate is negotiated between the University and the U.S. Department of Health and Human Services, the cognizant federal agency that oversees the administration of sponsored agreements at the University. The University’s F&A rate reflects the cost of real, auditable expenses incurred in the conduct of sponsored research and programs. Included among these costs are depreciation costs of buildings and equipment, maintenance and repairs, janitorial services, utilities, hazardous waste disposal, libraries, and general administrative costs such as sponsored programs administration, departmental administration, and general administration (accounting, purchasing, legal services, personnel, and compliance). These costs are “indirect” because they are not easily identified with a specific project and therefore are not included in the “direct” portion of the budget. Such indirect costs support the conduct of research and other sponsored programs, regardless of the source of funding, and therefore must be applied to all sponsored projects. For reasons of sound management and equitable stewardship of resources used in support of all sponsored activities, it is expected that all sponsored projects recover full F&A costs.

PROCEDURES

Facilities & Administrative (F&A) Cost Recovery Policy:
It is the University’s policy that all proposals and agreements for sponsored research, including subawards and industry contracts, are subject to the recovery of facilities and administrative costs (F&A) at the University’s approved and published rate. In some cases, the sponsor has a written policy, uniformly applied, prohibiting F&A costs or restricting the payment of such costs to a lower rate. An exception to the University’s F&A cost recovery policy may be warranted if it is clearly in the best interest of the University to accept the award with less than full F&A cost recovery. Any reduction (defined as a waiver of F&A) is strongly discouraged and requires prior approval from the Vice Provost for Research Administration. This exception does not apply to for-profit (industry) sponsors, as such sponsors are expected to provide full F&A when funding a sponsored project. Designation of a sponsored award as a gift will not preclude the recovery of indirect costs if such costs are allowed by the donor.

Facilities & Administrative (F&A) Cost Return and Use Policy:
Each year, the University returns a portion of the recovered F&A costs as appropriate to those generating the grants and contracts. This return of F&A costs generally occurs at the end of each fiscal year and is based upon the F&A costs recovered on sponsored projects during the preceding fiscal year (July 1 - June 30). For sponsored awards originating within academic units with a tenure stream Faculty Principal Investigator, recovered funds are distributed as follows.

- Faculty Principal Investigator – 12.5%*
- Faculty Home Department – 7.5%
- Appointing Officer of unit generating the recovered funds – 20%
- Provost – 20%
- General Fund (Facilities Infrastructure) – 40%

For all other proposals, recovered funds are distributed as follows.

- Appointing Officer of unit generating the recovered funds – 40%
- Provost – 20%
- General Fund (Facilities Infrastructure) – 40%

It is anticipated that, when appropriate, recovered funds will be used strategically for research initiatives, faculty start-ups, bridge funding and required cost share, and to provide the necessary administrative support for research projects. Indirect cost recovery funds cannot be used to increase the principal investigator’s annual compensation.

Indirect cost revenue recovered on Financial Aid expenditures will not be allocated and all proceeds will be returned to the General Fund.

Charter Schools are not considered a sponsored program and therefore not affected by this policy.

*Note: if the recovered funds allocated to the Faculty PI are less than $500, funds will be deposited into departmental FOAPs rather than individual Faculty PI FOAPS

GENERAL RESPONSIBILITIES OF PRINCIPAL INVESTIGATORS/PROJECT DIRECTORS POLICY

POLICY STATEMENT

The Principal Investigator/Project Director is responsible for a variety of general responsibilities, which are outlined in the following section.
PROCEDURES

Responsibilities

The following General Responsibilities form shall be provided by OSP to each Principal Investigator at the time of award. The Principal Investigator is responsible for signing and returning the original to OSP within five business days of its receipt. The original shall be retained in the award OSP record file in accordance with record retention guidelines. The Principal Investigator/Project Manager is responsible for:

- Compliance with the award terms and conditions. Notifying OSP of potential scope, budget or schedule shifts, and requesting/obtaining Authorizing Official review and approval of such, if required.
- Obtaining signatures on the (Request to Add a New Fund (RANF) form, and submitting the RANF to the Office of Business & Finance. A copy of the original proposal, notice of award, budget, and other official documents must be attached to the RANF form. The RANF will not be processed without these attachments.
- Ensuring that the Salary Request is prepared and signed by the Unit Head/Dean and other appropriate individuals. Salary Request letters accompany the signed RANF form.
- Management of the grant, contract/subcontract, or cooperative agreement and conducting the project to meet project goals and objectives while adhering to agency guidelines and GVSU policies and procedures.
- Ensuring that all individuals involved in the administrative and financial aspects of the award receive BANNER training.

The Office of Grants Accounting will assist with the invoicing and accounting process. The PI is also responsible for ensuring that all grant expenditures are reviewed on a monthly basis (at a minimum) and ensuring that those expenses incurred are approved in the BANNER system.

- Ensuring that for those items acquired or purchased under the terms of the award and with grant funds that sponsor requirements and GVSU Purchasing Procedures are followed.
- Ensuring that all project expenditures are directly related to the project and necessary to meet project goals and objectives. Knowing the cost sharing requirements that were committed in the budget approved by the agency and GVSU and insuring that these obligations are met.
- Certifying the time/effort of personnel paid by the grant, contract/subcontract, or cooperative agreement, or cost sharing/matching time on the project.
- Completing a Conflict of Interest Financial Disclosure form, and having no conflict of interest that could affect the conduct of the project. Any such possible conflict of interest must be reported to OSP as soon as it is apparent.
- Ensuring that the PI as well as all undergraduate, graduate, or post-doctoral students receive Responsible Conduct of Research training, if required by the sponsor. PIs and students are required to sign a Completion of Training form confirming the date, receipt, and satisfactory completion of this training. The form must be returned to OSP for the record file.
- Ensuring that GVSU policies and federal regulations governing the protection of human research subjects are followed. Ensuring the adherence to federal governing regulations and GVSU Animal Care and Use Policy for the use of animals in research.
- Ensuring compliance with the GVSU policy on Political Activity, as well as ensuring compliance with the terms and conditions of an award governing such activity.
- Submitting required reports and/or documentation in a timely manner.
- Certifying that s/he, and any subcontractor or sub-recipient on this project, is not debarred, suspended or proposed for debarment by any federal entity. The PI agrees to notify the University (both OSP and Purchasing Dept.) of any change in this status, should one occur, until such time as an award is made under a procurement action. See www.sam.gov

SERVICE AND CONSULTING AGREEMENTS POLICY

SLT 3.11.6

Date of Last Update:
October 15, 2018

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT

This document establishes Grand Valley State University’s (University) official policy governing the approval and management of service or consulting agreements that employees through the University, meaning cases in which the University would be the contracting party. These are agreements under which Principal Investigator (PI)-Eligible faculty and/or Administrative/Professional (A/P) staff members are obligated to provide specified services or “deliverables” and that do not fall squarely within the traditional framework of research or teaching activities. While these agreements may have research, scholarly, or other benefits to the University, those benefits are a secondary aspect, not the primary purpose of the activity. The terms “service agreement” or “consulting agreement” are intended to be descriptive; such agreements could have other labels or titles.

In some cases, employees who may consider providing services independently of the University as consultants will do this for their own account, on their own time, and using their own resources and subject to applicable University policies. However, review and approval of all proposed service and consulting agreements under this policy is required to ensure compliance with employment, tax, and intellectual-property law; regulatory requirements governing research and the use of certain kinds of data; and institutional policies regarding student engagement in externally funded activity and the appropriate use of University resources.

The University should be the contracting party only when justified by compelling reasons that meet the General Criteria of this policy. There are occasions, however, when a PI-Eligible faculty or AP staff member wants to provide a service through the university. For example, the activity may have a strong academic and/or university programmatic component and the faculty or A/P staff member may want to be able to use university facilities, resources, staff, or students to carry out the proposed contractual activity. In those circumstances, this policy allows for the University to act as the contracting party, but only if the activity in question meets the General Criteria of this policy.

By way of illustration, but without limitation, services that PI-Eligible faculty and A/P staff members may seek to provide through this policy may include:

- Performing an evaluation or assessment of an external program, such as an educational program or public-health initiative;
- Establishing rating criteria, such as standards for measuring health or safety outcomes;
- Providing technical assistance to a foreign government in areas such as social, health or economic services;
- Delivering professional-development services;
The official to whom the Provost delegates authority to submit proposals to fund and/or otherwise support externally sponsored projects on behalf of the University and to accept on behalf of the University any awards, contracts, or agreements resulting from such proposal submissions or other solicitation processes must ensure that the activity complies with:

And finally, once the Service and Consulting Agreement is fully executed, and throughout the performance of the contractual scope of work, the PI and responsible organizational determinations shall be documented using University procedures for sponsored activity.

The determination as to whether a proposed Service and Consulting Agreement meets these criteria shall be the responsibility of the employee's Appointing Officer. Such determinations shall be documented using University procedures for sponsored activity.

The following potential risk factors will be considered in the evaluation of Service and Consulting Agreements:

1. The University, as the contracting party in these agreements, bears the risk of liability or reputational harm for non-performance or poor performance of agreed-upon tasks and for unsatisfactory contract “deliverables.” Potential risks reach beyond the payments to the University and could include monetary damages from the downstream effects of contested performance.

2. Unlike in sponsored-project arrangements (i.e., assistance awards, such as grants or cooperative agreements), in which the sponsor may be presumed to be committed to the principles of objective science or the enhancement of the public welfare, “clients” or “customers” in service arrangements may be more focused on obtaining specific results and will likely be more involved in directing performance of the services. Institutional integrity and impartiality may be called into question if expectations are not properly managed at the outset.

3. The use of the University’s students and staff to assist in these projects also raises unique policy issues. The University has a duty to students in particular. They should not be made to work on projects unless the work advances their educational goals. The interests of employees, students, and the institution must be safeguarded in the negotiation of such arrangements to assure them that they may generate and publish works of scholarship, receive proper credit for their work, obtain appropriate intellectual property or other proprietary rights in the work product, and avoid confidentiality or other obligations that may compromise transparency and injure reputations.

4. Special attention must be paid to assure that these arrangements comply with the university’s obligations as a tax-exempt organization (e.g., IRS regulations regarding Unrelated Business Income).

**General Criteria**

The proposed Service and Consulting Agreement must:

1. Advance the core mission of the academic or non-academic organizational units that will carry it out;
2. Provide a significant institutional and/or public benefit; and,
3. If students are to participate in the activity, provide both a learning experience that advances student educational goals and that students will be free to use and disclose details of the experience in their academic and career pursuits, unless a Non-disclosure Agreement has been approved by the Office of the Vice Provost for Research Administration.

The determination as to whether a proposed Service and Consulting Agreement meets these criteria shall be the responsibility of the employee’s Appointing Officer. Such determinations shall be documented using University procedures for sponsored activity.

In addition, the proposed Service and Consulting Agreement must:

1. Present manageable and limited risks;
2. Be accurately budgeted to generate sufficient revenue to pay for full performance that includes both the direct charges associated with the activity and the university’s full federal negotiated facilities & administrative cost rate;
3. Be properly accounted for from a tax perspective;
4. Be reviewed and processed by the Technology Commercialization Office and the Office of Sponsored Programs (which may include the execution of a non-disclosure agreement to protect the intellectual property of the parties to the agreement; and
5. Receive approval from the employee’s Appointing Officer.
6. Be approved and submitted by the Vice Provost of Research Administration and/or designee.

And finally, once the Service and Consulting Agreement is fully executed, and throughout the performance of the contractual scope of work, the PI and responsible organizational unit must ensure that the activity complies with:

1. The contracted scope of work, timeline, and all agreed deliverables;
2. All applicable federal and state laws and regulations (e.g., export controls, use of human or animal subjects, intellectual property rights, disclosure and mitigation of financial and other conflicts of interest); and
3. All relevant University policies, such as invoicing for payment via the central accounting office of the University, and the use of the University’s name, facilities, equipment,
PRINCIPAL INVESTIGATOR ELIGIBILITY POLICY

SLT 3.11.7

Date of Last Update:
October 15, 2018

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY

This policy establishes the eligibility requirements for and the duties and responsibilities of all Principal Investigators (PI) at Grand Valley State University (University). The policy also provides for the establishment of formal processes to request and approve exceptions to the PI eligibility requirements.

POLICY STATEMENT

For each externally sponsored project, it is customary to designate as PI one person who bears ultimate responsibility for scientific, technical, and programmatic decisions, and all financial, administrative, and compliance matters relating to the project. It is the policy of Grand Valley State University that only eligible University faculty, staff, and trainees and appointees (when appropriate) may serve as the PI on externally sponsored projects to be carried out on behalf of the University.

Serving as the nominal project leader to lend credibility to a proposal while delegating PI responsibility to another person (i.e. “fronting” as the PI) is never permissible and is considered a violation of this policy.

PI eligibility is conferred in one of two ways: (1) automatically, by position, and (2) via special request, both subject to training as required by this policy.

1. Automatic Eligibility: PI eligibility is automatically conferred upon tenured and tenure track faculty at the rank of Professor, Associate Professor, or Assistant Professor.

Special-Request Eligibility: If PI eligibility is not conferred automatically, it may be conferred by Special Request of the employee’s authorizing official (dean, provost, vice president) or their designee(s). Certain non-academic units (e.g., the University Art Gallery, Small Business Development Center, Johnson Center for Philanthropy, Van Andel Global Trade Center) may request longterm PI status for the director, associate director, and other Administrative/Professionals (regular, full-time employees), as they deem appropriate. These personnel are all subject to standard Compliance and Training requirements for PI Eligibility.

1. Fellowships and Training Opportunities

Trainees (typically graduate students and post-doctoral fellows) may be eligible to be PIs on fellowship and training programs when that designation is required by the funding agency as documented in a funding opportunity announcement and a PI-eligible faculty or staff member is identified and documented as their sponsor/mentor. In this circumstance, a trainee’s PI eligibility is conferred and verified by the applicable Department/Unit Head’s approval during the internal proposal-routing process. It is not necessary to document approval of trainee PI eligibility via Special Request.

Trainee PI status is consistent with the treatment of all Special Requests for PI eligibility, in that it is conferred on a case-by-case basis; it does not confer blanket PI eligibility status for any other externally sponsored projects.

Compliance and Training Requirements

However it is conferred, PI Eligibility Status is contingent upon the documented completion of all required compliance and sponsored-programs training. Training requirements, certification, and documentation are determined and administered collaboratively by the Vice Provost for Research Administration, the Office of Sponsored Programs, the Office of Research Compliance & Integrity, and the Controller.

PROCEDURES

This policy designates authority to the Vice Provost for Research and the Director of Sponsored Programs to establish such operational procedures as they deem necessary to implement this policy, and ensure operational efficiency, proper oversight of compliance and administration, and the success of externally sponsored projects at the University.

It is the responsibility of the Office of Sponsored Programs to review all proposals to fund externally sponsored projects to determine and document PI eligibility prior to proposal submission. Proposals put forward by individuals without documented PI eligibility will generally not be approved for submission. Awards resulting from proposals submitted by ineligible PIs who either knowingly or unwittingly circumvent the standard approval process will generally not be accepted by the University.

Responsibilities of All Principal Investigators

Although the University is legally responsible to the sponsor as the actual recipient of any externally sponsored award, the Principal Investigator (PI) is accountable for the proper fiscal management and conduct of the project. This includes managing the project within funding limitations and all of the terms of the award, assuring that the sponsor is notified when significant conditions related to project status change, and ensuring that all programmatic reporting requirements are met in a timely fashion. To assist PIs, the University provides supporting administrative services and has established procedures to help meet both sponsor and University requirements. While responsibility for the day-to-day management of project finances may be delegated to administrative or other staff, accountability for compliance with federal requirements, University policies, and sponsor requirements ultimately rests with the PI. The full cooperation and vigilance of the PI, along with the University, is necessary to maintain the stewardship role.

1. Preparation of Proposals

Principal Investigators have primary responsibility for planning and carrying out the preparation and submission of proposals for external support. Although PIs may have administrative staff to assist with the proposal-development process, they are ultimately responsible for the quality and scientific integrity of the proposal, and for understanding and complying with all University policies for managing external support.

a. Technical Proposal

The Principal Investigator is responsible for preparing the technical proposal.
b. Proposal Budget
The Principal Investigator prepares, or directly supervises the preparation of, all aspects of the proposed budget and budget justification. This responsibility includes coordination with Procurement Services and compliance with all procurement policies and procedures. It also includes identifying any requests and sufficient resources for cost sharing (including matching funds); the need for space or space modifications (including any accommodations for large and/or unusual equipment); and the need for outside collaborators (sub-recipients, contractors, consultants). The PI ensures all costs are allowable, allocable, and reasonable for the project in accordance with the federal cost principals set out in OMB 2 CFR 200, and that all proposals include full recovery of all anticipated project costs. Full recovery includes recovery of indirect costs at GVSU’s negotiated federal rate or (in the case of non-federal sponsors or federal training grants) the maximum rate allowed under published sponsor policy.

c. Regulatory Requirements
The PI is responsible for anticipating whether the research will involve human subjects, live animals as subjects, recombinant DNA, infectious agents, narcotics or biological toxins, human blood or body fluids, radioactive materials, hazardous materials, export controls, conflicts of interest, or other regulated activities requiring University review or clearance. The PI is responsible for preparing information and forms required for review by the University’s Office of Research Compliance & Integrity.

d. Project Approvals
The Principal Investigator prepares, or directly supervises the preparation of, and electronically signs internal proposal-approval forms, and requests required approvals in a timely fashion.

2. Acceptance of the Award
The PI is responsible for collaborating with the Office of Sponsored Programs in any negotiations with the sponsor relating to modifications of the project scope or budget or proposed terms and conditions of the award.

The Principal Investigator is responsible for reviewing and approving the award agreement, in conjunction with OSP, including the scope of work, budget, and the special terms and conditions of the award, and for managing the award in accordance therewith.

3. Conduct and Management of Award
The Principal Investigator is responsible for all actions required to manage and complete the scientific, programmatic, and financial aspects of the externally sponsored project in accordance with all of its terms and conditions, including the performance of all sub-recipients. The Principal Investigator is also responsible for the management of the award budget and expenditures in accordance with federal, GVSU, and sponsor requirements. This responsibility includes attesting to the allowability, allocability, and reasonableness of all expenditures. Principal investigators are responsible for routine monitoring of the status of grant accounts to prevent overdrafts and incorrect charges and to ensure that unallowable costs are not charged to an award.

The Principal Investigator is responsible for the timely submission of all required programmatic reports, interim and final. The information contained in such reports must be supported by adequate documentation. The Principal Investigator will provide copies of all required programmatic and progress reports to the OSP and the Grants Accounting office.

DEFINITIONS:

Externally Sponsored Project: All grants and cooperative agreements (direct assistance actions); all incoming or outgoing sub-recipient agreements or subawards (pass-through assistance actions); certain incoming or outgoing contracts (i.e., externally sponsored procurement actions), including direct contracts, service agreements, and consulting agreements; pass-through subcontracts and service agreements; and certain other agreements, including master collaboration agreements, material transfer agreements, and data-use agreements—whether funded or unfunded. Externally sponsored projects do not include purchasing agreements or philanthropic gifts.

Principal Investigator (PI): An individual with a formal affiliation with the University, normally an employee, who is or becomes eligible under this policy to submit a proposal for extramural support for a research, training, public-service, or other externally sponsored project, who personally participates in the project to a significant degree, and who has primary responsibility for the scientific, technical, programmatic, and administrative conduct and reporting of the project, including compliance and financial matters. A Principal Investigator who is the head of a training or other sponsored project may be known as a Project Director. For the purposes of this policy, the terms shall be considered equivalent. The University only recognizes one individual as the Principal Investigator and this individual must personally participate in the project to a significant degree.

Co-Investigator (Co-I): An investigator who will share responsibility for the scientific, technical, and/or administrative conduct and reporting of a research or sponsored project with the Principal Investigator. Each individual named as a Co-Principal Investigator at the University must meet the same eligibility requirements as a PI as noted above. There may be more than one Co-Principal Investigator, but one person is designated as the leader (PI) of the project. While the University allows this approach, not all sponsors allow Co-PI models. In certain cases, a sponsor (e.g., the National Institutes of Health—NIH) may allow a Multiple Principal Investigator model to be employed in a research or sponsored project. Such models feature multiple PIs who are expected to equally share responsibility for leadership of multidisciplinary and other types of “team science” projects that are not optimally served by the single Principal Investigator model. Such models typically require a single “Contact PI” and special justification in the form of a Multi-PI Plan that documents processes for project governance and resolution of conflicts.

TEXTBOOKS AND COURSE MATERIALS POLICY
SLT 3.12

Date of Last Update:
October 10, 2016

Approved By:
Senior Leadership Team

Responsible Office:
Provost Office

POLICY STATEMENT

Textbooks and related course materials continue to be essential to the delivery of knowledge. For various reasons, the cost of those materials has continued to rise. The goal of the University is to provide the best quality educational resources at the lowest possible cost to the students by minimizing the cost of textbooks and course materials used at the university while maintaining quality of education and academic freedom.
PROCEDURES

The Provost’s Office is responsible for overseeing the faculty role in textbook selection. It discharges that responsibility by working closely with the Deans of the colleges. Business and Finance is responsible for overseeing the practices of the GVSU Laker Store.

Responsibilities of the Faculty:

- Faculty members shall submit lists of required textbooks, recommended textbooks and supplemental course materials to the GVSU Laker Store by the specified deadlines.

- Faculty are expected to compare various textbook options and to make the selection by taking into account pedagogical value, price, and availability. If all other considerations are about the same, the less expensive option should be selected. When there are multiple sections of a course taught by different instructors, it is preferable (but not required) that departments order the same textbook for all sections, in order to benefit students who may be adjusting their schedule during drop/add week and to support inventory management for the GVSU Laker Store.

- When faculty wish to require the purchase of any published textbooks or materials for which they have or will receive royalties or revenue, this decision shall be reviewed by the Unit Head, who shall determine whether the selection is appropriate, taking into account the criteria above. The purpose of the review is to disclose and to manage any actual or potential conflict of interest. The Unit Head may authorize that the review be conducted by a designee if certain disciplinary expertise is needed or if the Unit Head cannot provide a neutral review. If the Unit Head cannot identify a designee, then the review shall be conducted by the Dean or designee.

Responsibilities of the GVSU Laker Store:

- The GVSU Laker Store will continue to reduce textbook prices whenever possible.

- The GVSU Laker Store will buy back used textbooks, and the following semester make the used copies available at reduced price and display them next to the new ones.

- When filling departmental textbook orders, the GVSU Laker Store shall acquire as many used but still up to date copies as possible, make them available at reduced price, and place them next to the new ones.

- The GVSU Laker Store will display the required texts and materials with the course instructors’ names and course section numbers. This will help students make informed decisions when finalizing course schedules.

TRAINING OF PERSONNEL INVOLVED IN ANIMAL RESEARCH

SLT 3.13

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT

In conduction of research, all people working with laboratory animals must be qualified to do so in order to ensure the humane treatment of animals. As such, Grand Valley complies with the Animal Welfare Act as described below.

PROCEDURES

The Animal Welfare Act (AWA) Sec. 2.32 (a), (b), and (c) specify:

(a) It shall be the responsibility of the research facility to ensure that all scientists, research technicians, animal technicians, and other personnel involved in animal care, treatment, and use are qualified to perform their duties. This responsibility shall be fulfilled in part through the provision of training and instruction to those personnel.

(b) Training and instruction shall be made available, and the qualifications of personnel reviewed, with sufficient frequency to fulfill the research facility’s responsibilities under this section and §2.31.

(c) Training and instruction of personnel must include guidance in at least the following areas:

1. Humane methods of animal maintenance and experimentation, including:
   - The basic needs of each species of animal;
   - Proper handling and care for the various species of animals used by the facility;
   - Proper pre-procedural and post-procedural care of animals; and (iv) Aseptic surgical methods and procedures;

2. The concept, availability, and use of research or testing methods that limit the use of animals or minimize animal distress;

3. Proper use of anesthetics, analgesics, and tranquilizers for any species of animals used by the facility;

4. Methods whereby deficiencies in animal care and treatment are reported, including deficiencies in animal care and treatment reported by any employee of the facility. No facility employee, Committee member, or laboratory personnel shall be discriminated against or be subject to any reprisal for reporting violations of any regulation or standards under the Act;
Utilization of services (e.g., National Agricultural Library, National Library of Medicine) available to provide information:

(i) On appropriate methods of animal care and use;
(ii) On alternatives to the use of live animals in research;
(iii) The could prevent unintended and unnecessary duplication of research involving animals; and
(iv) Regarding the intent and requirements of the Act.

The PHS Policy, Section IV.C.1.f. places the responsibility specifically with the IACUC to ensure that personnel conducting procedures on research animals are appropriately qualified and trained in those procedures. The Institutional Animal Care and Use Committee may require additional training for each individual, depending on their prior training and experience with animals.

UNITED STATES GOVERNMENT DOCUMENTS INTERNET USE

SLT 3.14

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
University Libraries

POLICY STATEMENT

Grand Valley State University Libraries will provide the public with free and unrestricted access to online government information provided through the Federal Depository Library Program in accordance with section 1911 of Title 44, United States Code.

PROCEDURES

The public is able to access these materials on the Government Documents personal computers in Mary Idema Pew Library Learning & Information Commons and Steelcase libraries. Patrons are not required to provide any form of identification to use these computers, although they will need to see a librarian or staff person at the reference desk to login. Patrons using these computers are expected to adhere to the university’s policies regarding the use of electronic resources.

SPACE ASSIGNMENT POLICY

SLT 3.15

Date of Last Update:
July 16, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Provost and Facility Planning Offices

POLICY STATEMENT

Space is an institutional resource of Grand Valley State University. As such, it does not belong to an individual, a program, a unit or a college and may be reassigned in the best interests of the University. The goal of the University’s allocation and reallocation of space is to achieve the highest and best use of University resources.

The Provost’s Office is responsible for assigning and overseeing space used for academic purposes, including classrooms, laboratories, academic secretarial spaces, and faculty offices. It discharges that responsibility by working closely with the Facilities Planning Office to maintain and remodel existing space; to allocate and reallocate that space; to help plan, schedule, and coordinate moves; to plan new space; and to explain allocation and reallocation decisions.

The Facilities Planning Office is responsible for overseeing all non-academic space, including outdoor space. It discharges that responsibility by working closely with the Provost’s Office to maintain and remodel existing space; to allocate and reallocate that space; to help plan, schedule, and coordinate moves; to plan new space; and to explain allocation and reallocation decisions.

At least annually, Facilities Planning will conduct a physical review of space to investigate identified issues or potential space issues that need attention.

Periodically, the Provost’s Office and the Facilities Planning Office will meet with appropriate representatives of the University’s organizational units to discuss upcoming moves and longer term plans for expansion and/or contraction.

This policy is applicable to all departments, offices, University employees and other members of the University community occupying space owned or leased by the University.

ADOPTION LEAVE POLICY

SLT 4.1

Date of Last Update:
July 31, 2008

Approved By:
POLICY STATEMENT

The University recognizes the need for family and medical related leave. The following policy complies with The Family and Medical Leave Act (FMLA) and provides guidelines for procedures regarding unpaid leave. By enacting this policy Grand Valley aims to allow necessary time away from the university for individuals to cope with and adapt to various family and medical related situations as described in this policy.

PROCEDURES

The Family and Medical Leave Act (FMLA) provides eligible faculty and staff up to 12 weeks of unpaid leave a year. A faculty or staff member must work for 12 months, completing 1,250 work hours within those 12 months, to be eligible for FMLA leave. If eligible, leave may be requested for the following reasons:

- Birth of a child
- Adoption of a child
- Placement of a child for foster care
- The faculty or staff member is needed to care for a family member (child, spouse, or parent) with a serious health condition
- The faculty or staff member’s own serious health condition makes him or her unable to perform his or her job

Further provisions of the law are addressed in the FMLA policy. A copy of the FMLA policy is available on the Policy Website.

Grand Valley, along with all other Michigan Public Universities, does not provide for paid adoption or parental leave. However, the University does provide unpaid leave that exceeds the requirements of FMLA. FMLA requires the University to provide up to 12 weeks of unpaid leave while the University’s unpaid leave policy allows for up to 12 months of unpaid leave. Further details of the program are outlined in section 4.2.30.12 of the Board of Trustees’ Policies. This section is also included in the Faculty Handbook. In order to receive an unpaid leave, the faculty or staff member should submit a written request to the Unit Head. The request will outline the need for the leave and the expected duration. The request should be submitted as soon as possible. When possible, the request should be submitted at least 30 calendar days prior to the date the leave will begin.

Qualifying Expenses

Qualifying adoption expenses will be reimbursed up to a maximum of $3,000 per child. Qualifying expenses are defined as those that are reasonable and necessary adoption fees, court costs, attorney fees, traveling expenses while away from home, and other expenses related to, and whose principal purpose is for, the legal adoption of a child.

Process for Applying for Benefits

Upon formal placement of the adopted child, submit an adoption assistance claim form to Human Resources at 1090 James H. Zumberge Hall along with detailed receipts for eligible expenses. Human Resources will determine eligible expenses, the amount payable for reimbursement and will submit a request to the Payroll Office for payment. The reimbursement will be processed with the next payroll.

Taxation of Benefits

The amount of tax credits and exclusions available to adopting parents vary. Since an employer’s adoption assistance is not subject to income tax withholding, GVSU will not determine the extent to which the payment of reimbursement on behalf of each employee is eligible for the exclusion. However, GVSU will withhold taxes only for Social Security and Medicare.

Adding Dependent to Insurance

At the time of placement, you may add your child to your benefit plans. Any additions or changes must occur within 30 days of the official placement. Contact Human Resources at 331-2215 to add dependents.

EXERCISE RELEASE TIME POLICY

SLT 4.2

Date of Last Update:
April 20, 2013

Approved By:
- Senior Leadership Team

Responsible Office:
Human Resources

POLICY STATEMENT

Faculty and staff well being is valued at GVSU. Physical activity is a vital component to wellbeing and GVSU strives to increase the ability for faculty and staff to take time to fit physical activity into their day. The exercise release time policy reflects University’s mission by providing opportunities for faculty and staff to maintain optimal health and capacity to educate students. The policy supports university values, specifically sustainability and effective teaching. The concept of sustainability includes modeling a lifestyle of healthy living through active living, which this policy supports.

Supporting physical activity through the exercise release time policy also has the ability to create more positive interactions between faculty, staff and students in and outside of the classroom. The policy provides opportunities for physical activity during the workday encouraging and promoting health risk reduction. It has been shown that physical activity increases attentiveness, reduces stress and biochemical functions such as blood pressure and glucose levels. A healthier faculty and staff population with fewer health risks can increase the number of positive interactions between faculty, staff and students through improved attentiveness, reduced stress and more.

PROCEDURES

Upon supervisor approval, GVSU staff may utilize up to two (2) 30 minute time periods a week to allow time to freshen up from, or in preparation for, a fitness class or individual workout. Pending schedules and workload, up to two additional 30-minute time periods may be permitted. This time can be added to the beginning of the workday, added to the lunch period, or to the days end and is inclusive of travel time if needed (i.e. to the Field house or YMCA for a class). Days and times to utilize this policy may be determined with the
help of a written agreement between the supervisor and staff member. The release time may be divided into time prior to or after the indicated workout period. For further information contact the Health and Wellness Coordinator at 331-2215.

FAQ’s

Q: I want to participate in a spinning class over the noon hour what does this mean?
A: It means you can use up to an additional 30 minutes after the spinning program ends to continue stretching and cool down, freshen up and return to work. The same would be true for an exercise class right before work. Remember that you need to review and have this approved by your supervisor.

Q: Is this a new policy?
A: This policy is not a new policy but a restatement of a prior one regarding fitness classes.

Q: I work on the downtown campus, does this policy apply to classes offered at the YMCA or other nearby clubs?
A: Yes. This applies to scheduled classes offered off the GVSU campus.

Q: If I miss a week of release time, can I make up the time during a following week?
A: No. Exercise release time cannot be accumulated or traded in day to day or week to week.

Q: How do I request exercise release time?
A: Employee Affiliation: AP Staff, MCS/COT Staff, Security Staff
First Step:
  • Notify your supervisor and obtain approval for exercise release time.
  • Request to use exercise release time should be in writing unless verbal request is accepted by the supervisor. An optional form is provided in the policy.
Upon Approval:
  • Supervisor and staff member continue to communicate and review staff use of the policy monthly. Changes are made if necessary.

FAMILY AND MEDICAL LEAVE ACT (FMLA) POLICY

SLT 4.3
Date of Last Update:
June 01, 2017
Approved By:
  • Senior Leadership Team
Responsible Office:
Human Resources

POLICY STATEMENT

The Family and Medical Leave Act of 1993 (FMLA) gives eligible Grand Valley State University faculty and staff the right to take unpaid leave or paid leave, if appropriate benefits have been earned, for a period of up to 12 work weeks in a 12-month period because of the birth of a child (maternity/paternity) or the placement of a child for adoption or foster care, because the faculty or staff member is needed to care for a family member (child, spouse, or parent) with a serious health condition, or because the faculty or staff member’s own serious health condition makes he/she unable to do his or her job, or because of any qualifying exigency arising out of the fact that the staff member’s spouse, son, daughter, or parent is a covered military member on active duty (or notified of impending call or order to active duty) in support of a contingency operation, or to care for a covered servicemember with a serious injury or illness if the staff member is the spouse, son, daughter, parent, or next of kin of servicemember. Leave taken for one or more of these reasons, when combined together, may not exceed 12 weeks during the rolling backward 12-month period. Under certain circumstances, this leave may be taken on an intermittent basis rather than all at once, or the faculty or staff member may work a part-time schedule.

PROCEDURES

A faculty or staff member on FMLA leave is entitled to maintain the same health benefits (such as medical, dental and vision insurance) as he/she had before going on leave. The faculty or staff member, however, would continue to pay his/her share of any applicable premiums during the leave period.

A faculty of staff member generally has a right to return to the same position or an equivalent position with equivalent pay, benefits and working condition at the conclusion of the leave.

Grand Valley State University also requires notification, as explained in this document, from faculty and staff members who wish to take a leave under the parameters of the FMLA.

A. Who is eligible for FMLA?
1. All full-time and part-time faculty or staff members who meet all of the following criteria:
   a. Have worked at Grand Valley State University for at least 12 months.
   b. Have worked at least 1,250 hours of service during the 12-month period before the leave.
2. Grant, contract and temporary-funded faculty or staff members may be eligible for benefits under the FMLA during the term of their grant, contract or funding. The provisions of the FMLA do not continue past the date the funding or contract expires.

B. Notification Requirements
1. In order to receive leave under the FMLA, the faculty or staff member must notify his/her supervisor of the need for leave. When possible, this should be a minimum of 30 calendar days prior to the date the leave will begin.
2. If the faculty or staff member is unable to provide 30 days advance notice (such as in the case of a birth, adoption or medical emergency) the faculty or staff member must notify his/her supervisor as soon as possible.
3. Failure to provide advance notice (when determined it was possible to do so) may result in delaying approval of the FMLA leave.

C. Faculty/Staff Job Rights

1. Subject to the specific limitations contained in this Policy, eligible faculty or staff members may take a total of up to 12 weeks of FMLA leave during a 12-month period.

2. The faculty or staff member will be returned to his/her position or equivalent position at the end of the FMLA leave, provided: the grant/contract/term of employment did not expire during the leave, or the University is still offering those services previously performed by the faculty or staff member at the time the faculty or staff member is ready to return to work, or the faculty or staff member's position was not eliminated due to a business or economic reason.

3. If a faculty or staff member is requesting an intermittent or reduced schedule leave, the University has the right to transfer the faculty or staff to another position during the time period of such leave. However, such a temporary transfer would be to a similarly situated and similarly classified position. The faculty or staff member's salary, benefits, etc. would not be negatively affected.

4. If a faculty or staff member does not return to work after the FMLA leave is over and he/she does not apply for and receive approval for another University leave, he/she will be considered to have voluntarily resigned employment with the University.

5. The University will not discharge or discriminate against, or otherwise interfere with, restrain or deny a faculty or staff member from exercising rights under the FMLA.

D. Time Period

1. For purposes of the FMLA, the 12-month period will be a "rolling" 12-month "look back" period based on the faculty or staff member's use of the FMLA leave during the previous 12 months. Therefore, an employee will not be entitled to more than 12 weeks of FMLA leave during any 12-month period.

2. A faculty or staff member requesting a FMLA leave may be required to use available accrued vacation for all or part of the leave. If he or she does not have enough accrued vacation to cover the leave period he/she may use a combination of vacation and unpaid leave.

3. University policies on leaves of absences, sick leave, salary continuation etc., will run concurrently with the provisions of the FMLA when applicable. For example, if an individual who was receiving salary continuation for 4 weeks, requested additional leave under FMLA, may have up to an additional 8 weeks approved, provided the situation qualified under the FMLA policy. The 4 weeks of salary continuation would count towards the 12 weeks of FMLA. In addition, if the individual had 2 weeks of accrued and unused vacation the supervisor may require him/her to first use accrued vacation time. Additional paid or unpaid leave may be considered, consistent with other University approved leave of absence policies.

E. Faculty/Staff Member Benefits

1. Benefits - the faculty or staff member on FMLA leave will continue to receive University provided medical and dental insurance as though he/she was working. Such benefits will continue whether the leave is paid or unpaid. If a premium is required, provision to pay the premium during an unpaid leave must be arranged by the faculty or staff member by contacting the Human Resources Office. The same procedure will be followed for collecting premiums under an unpaid FMLA leave as is done for other unpaid leaves. Failure to make required payments will result in loss of coverage, or in an obligation to repay the University if it elects to advance moneys to keep the coverage in effect. If the leave is paid, any required premium will continue to be deducted from the faculty or staff member's paycheck, as is the customary manner.

2. If a faculty or staff member does not return from the FMLA leave, he/she may be required to repay the University for the cost of benefits received while he/she was on leave.

3. If the faculty or staff member does not return from leave, he/she may continue his/her medical and dental coverage by paying all required premiums under the COBRA provisions.

F. Intermittent and/or Reduced Schedule Leaves

1. Faculty or staff members may request and be granted intermittent/reduced schedule leave in the case of a serious illness of themselves, their parent, spouse or child if there is a medical necessity and if the medical need can be best accommodated through such a leave. Intermittent/reduced schedule leave is not available (except as medically required) in connection with the birth of a child, an adoption or foster care.

2. Intermittent/reduced schedule leave must be scheduled whenever possible at least ten (10) days in advance.

3. Intermittent/reduced schedule leave must be taken in 30-minute increments.

4. Intermittent/reduced schedule leave is counted toward the 12 week maximum FMLA leave which can be used during a 12-month period.

5. Intermittent/reduced schedule leaves, unless otherwise noted, are subject to the appropriate general provisions of this policy.

6. The faculty or staff member is required to schedule intermittent leave, when possible, so not to unduly interfere with the department's operations.

7. If the faculty or staff member was temporarily transferred to another position during his/her intermittent or reduced schedule leave, the employee must give the University ten (10) days notice of the ability to end the leave and return to his/her former position or an equivalent position.

G. Conditions and Procedures for Birth and Adoption (Family Leave)

An eligible faculty or staff member is entitled to take up to 12 consecutive weeks off for family leave for the birth of his/her newborn child, for the legal adoption of his/her child: or, to accept foster care placement of a child. The following conditions apply:

1. The 12 weeks of leave must be taken consecutively (no intermittent or reduced schedule leave) and within the first 12 months after the birth or adoption.

2. Each employee is entitled to 12 weeks except if both spouses work for Grand Valley S State University. In that case, the total number of weeks taken between the two faculty or staff members cannot exceed 12.

3. The medical recovery period for the birth of a baby will be considered as a medical leave, and be counted towards the 12 weeks of FMLA. For example, if a faculty or staff member gives birth, her physician may require a six-week medical leave of absence. If, after the six weeks, the faculty or staff member can medically return to work, she may then take an additional six weeks off as part of the provisions of the family leave. This second six-week period off work must be taken within the first 12 months following the baby's birth.

4. The faculty or staff member requesting family leave for birth/adoption (other than under the provisions of Income Protection) may use available accrued vacation time, unpaid leave or a combination of paid and unpaid leave as part of the FMLA leave, or the University may require the faculty or staff member to substitute available paid leave for FMLA leave. If the employee does not have enough paid benefit time to cover the leave, he/she will go on an unpaid leave.

5. Verification of adoption, birth of a child of foster placement may be requested.

H. Procedures on Serious Health Condition of Family Member

An eligible faculty or staff member is entitled to take up to 12 weeks off from work to care for a spouse, parent or child with a serious health condition.

1. A serious health condition means an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider.

2. The "need to care for" a family member includes both physical and psychological care when the family member is unable to care for his/her own basic medical hygiene or
3. A "child" includes a biological, adopted, or foster child, stepchild, legal ward, or a child of a person standing in loco parentis who is under the age of 18 or, if older than 18, is incapable of self-care because of mental or physical disability. The term "spouse" means husband or wife. "Parent" is the person who acted as a parent when the faculty or staff member was a child but does not include mother-in-law or father-in-law.

4. The leave may be taken intermittently or on a reduced schedule but the total amount of time off cannot exceed 12 weeks of the faculty or staff member's normal working hours. Example: Full-time faculty or staff member: 40 hours/week X 12 weeks = 480 hours
Part-time faculty or staff member: 20 hours/week X 12 weeks = 240 hours

5. Only in the case of a serious illness of a child when both parents work at Grand Valley, can each parent then take 12 weeks off. This is an illness so serious as to require a parent to stay with the child.

### I. Procedures on Faculty/Staff Member's Own Serious Health Condition

An eligible faculty or staff member is entitled to take up to 12 weeks off from work due to their own serious health condition, which prevents them from being able to perform the functions of their position.

1. **A serious health condition means an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider.**

### J. Military Family Leave

1. An eligible faculty or staff member is entitled to take up to 12 weeks off from work because of any qualifying exigency arising out of the fact that the staff member's spouse, son, daughter, or parent is a covered military member on active duty (or notified of impending call or order to active duty) in support of a contingency operation.

2. **Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings.**

3. The University will provide eligible employees up to 26 weeks of leave during a single (one time only) 12-month period to care for a covered service member (spouse, son, daughter, parent, or next of kin). Leave to care for an injured or ill service member, when combined with other FMLA-qualifying leave, may not exceed 26 weeks in a single 12-month period.

   a. A "covered servicemember" means:
      
      i. A member of the Armed Forces (including the National Guard or Reserves) who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness.
      
      ii. A veteran who was discharged or released under conditions other than dishonorable at any time during the five-year period prior to the first day the eligible employee takes FMLA leave to care for the covered veteran, and who is undergoing medical treatment, recuperation, or therapy of a serious injury or illness.

   b. The term "serious injury or illness" means:
      
      i. In the case of a member of the Armed Forces, means an injury or illness that was incurred (or aggravated) by the member in the line of duty and that necessitated treatment, medical care, or hospitalization.
      
      ii. In the case of a veteran who was a member of the Armed Forces at any time during a period when the person was a covered servicemember, means a qualifying injury or illness that was incurred (or aggravated) by the member in the line of duty and that manifested itself before or after the member became a veteran.

### K. Certification of Need for FMLA Leave

1. **Initial Certification - Grand Valley may require certification from the faculty or staff member's health care provider for the following reasons:** to verify that the faculty or staff member is needed to care for the family member, or the faculty or staff member is not able to perform his/her job duties. The University reserves the right to ask for a second opinion by a health care provider chosen by the University. Such an opinion will be paid for by the University. If the University requests a third opinion, that opinion will be final and binding. If the second opinion and the original opinion conflict, the University will pay for the third opinion. The University and the faculty or staff member will work together to reach agreement on whom to use for the third opinion. All certification must be provided to the University within 15 calendar days of the University's request, if practical. The third opinion will be final and binding.

2. **Continuing Certification - Each 30 days, the University may request verification of the need to continue the leave. Failure to provide such requested documentation in a 15-day period may result in termination of FMLA leave.**

3. A "health care provider" may include, for example, a licensed doctor of medicine or osteopathy, dentist, clinical psychologist, and other health care providers authorized under the Family Medical Leave Act.

4. When the faculty or staff member is ready to return from his/her leave, he/she may be required to submit medical verification (if applicable) of his/her ability to return to work.

### L. Questions and Policy Interpretation

1. **The Human Resources Office is responsible for implementing and coordinating the provisions of the FMLA for the campus. Questions may be directed to the Human Resources Office, extension X12215.**

2. If there are any conflicts between the University policy and provisions of the Federal Act, the provisions of the Federal Act will supersede, with the exception of situations where University policy, handbooks or contracts provide benefits greater than the act. The Federal Act and the Federal regulations will be used to resolve issues that arise.

---

**IDENTIFICATION CARD POLICY**

**SLT 4.4**

**Date of Last Update:**
July 31, 2008

**Approved By:**

- Senior Leadership Team

**Responsible Office:**
Human Resources
POLICY STATEMENT

Grand Valley State University issues a photo identification card to all active faculty and staff members who have a full-time, part-time or temporary appointment. This card is to be used for purposes of identification at all Grand Valley campuses. Lost or stolen ID cards should be reported to Human Resources. In the event of a name change, a new card will be issued.

ID cards for faculty and staff members can be obtained by visiting Human Resources at 1090 James H. Zumberge Hall on the Allendale campus or at the Student Assistance Center in the DeVos Center in downtown Grand Rapids. Retirees may also obtain an ID card at these locations.

Upon separating from the University, faculty and staff members will turn in their ID cards to Human Resources. ID cards belong to Grand Valley State University and are not transferable nor can they be used by anyone other than the person to whom it was issued.

MILITARY LEAVE OF ABSENCE POLICY FOR FACULTY STAFF

SLT 4.5

Date of Last Update:
April 25, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Human Resources

POLICY STATEMENT

Grand Valley State University faculty and staff members in the Armed Forces, Reserves, National Guard, or other “uniformed services” who are called to active duty will be granted an unpaid leave of absence and reinstatement privileges as prescribed by the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA).

“Uniformed services” includes: active duty, active duty for training, active duty for special work, weekend or weekday drill, funeral honors, or fitness for duty examination (whether voluntary or involuntary).

PROCEDURES

Military leave is available to all full and part-time faculty and staff of the University, including probationary staff members.

A. Military Duty Pay

A regular faculty or staff member who loses time from work during his/her regular schedule of hours because of military training as a reservist or National Guardsman or due to a civil disturbance, not exceeding four (4) weeks per year, shall be paid the difference between his/her base military pay and his/her regular pay. Adjunct faculty and temporary staff members are not eligible for military duty pay.

B. Benefits

The University will continue to provide health insurance for benefit eligible faculty and staff members, as well as their enrolled dependents, who are on duty less than thirty (30) days. Faculty and staff members serving for more than thirty 30 days may elect to continue health insurance coverage for themselves and any enrolled dependents through COBRA.

C. Leave Period

Faculty and staff members are entitled to an unpaid military leave of absence, with reemployment rights, for a period up to five years. The five years is a cumulative total and includes both past and present military service. Military leave for adjunct faculty and temporary staff will not extend beyond the appointment end date.

D. Reinstatement Requirements

Regular faculty and staff members have the right to be reemployed at the University following a military leave of absence as long they meet the following reinstatement requirements.

1. The faculty or staff member ensures that Human Resources or the applicable appointing officer receives advance written or verbal notice of your service.
2. The faculty or staff member has five (5) years or less of cumulative service in the uniformed services while employed at the University.
3. The faculty or staff member returns to work or applies for reemployment in a timely manner after conclusion of service, and
4. The faculty or staff member has not been separated from service with a disqualifying discharge or under other than honorable conditions.

Military leaves of absences for temporary staff and adjunct faculty will not extend beyond the appointment end date.

If eligible to be reemployed, a faculty or staff member has the right to be restored to the job and benefits he/she would have attained if he/she had not been absent due to military service or, in some cases, a comparable job. The faculty or staff member’s seniority would also be restored to the level they would have attained if they have been on duty at the University continuously.

Questions and Policy Interpretation

The Human Resources Office is responsible for implementing and coordinating the provisions of the Military Leave of Absence Policy for the University. Questions may be directed to the Human Resources Office at (616) 331-2215.

If there are any conflicts between the University policy and provisions of the Federal Act, the provisions of the Federal Act will supersede, with the exception of situations where the University policy, handbooks or bargaining agreements provide benefits greater than the act. The Federal Act and the Federal regulations will be used to resolve issues that arise.

SMOKING (AND VAPING) POLICY

SLT 4.6
POLICY STATEMENT

The United States Department of Health and Human Services Surgeon General Report of 2006 indicates that secondhand smoke is an avoidable cause of disease and death. Exposure to second hand smoke, even for a short time, results in adverse affects to the cardiovascular system and can cause coronary heart disease and lung cancer. The report concludes that second hand smoke can cause disease and premature death in individuals who do not smoke. Reducing and eliminating opportunities for exposure to second hand smoke protects the overall health of non-smokers. By enacting this policy, Grand Valley State University is taking action to minimize the harmful effects and discomfort which smoking produces for the benefit of all members of the University Community. During the interim until further study and review can be concluded, for purposes of this policy, the use of electronic cigarettes (vaping) shall follow this policy to the same extent as smoking a tobacco product.

PROCEDURES

All buildings at all GVSU locations are designated as smoke free. Smoking is prohibited in all indoor spaces; including, but not limited to, educational, housing and dining locations. Smoking is prohibited within twenty-five (25) feet of any GVSU building, within twenty-five feet of any GVSU bus stop on University property and within twenty-five feet of the Little Mac Bridge on the Allendale campus.

Smoking is prohibited in all University owned, leased or rented vehicles.

At all Intercollegiate Athletic facilities and at The Meadows Golf Club smoking is permitted in designated outdoor smoking areas only.

Smokers must cease smoking prior to entering any prohibited smoking area; twenty-five feet from any building, bus stop and bridge.

While GVSU permits smoking in areas not designated to be smoke free, it is the responsibility of smokers to be respectful of non-smokers in choosing a location in which to smoke so as to minimize non-smokers’ contact with second-hand smoke.

Smokers are responsible for properly disposing of all smoking related litter, which includes cigarette and cigar butts, tobacco, etc. Disposal of any smoking litter is not permitted on University grounds except in the provided ash receptacles.

If University facilities are rented by non-University individuals or groups, they shall be notified of and required to comply with this policy.

As the University acquires space or constructs new buildings or additions, smoking shall not be permitted in these buildings or areas. The above twenty-five foot distance from any building will be maintained at all new facilities.

GVSU recognizes that smoking is highly addictive. Smokers interested in assistance with quitting smoking should contact the appropriate office to learn about smoking cessation options and support. Students should contact the Campus Recreation Fitness and Wellness Office and faculty and staff members should contact the Wellness Coordinator in the Human Resources Office.

Policy Enforcement

This policy assumes that with notice to our community individuals will voluntarily adhere to these regulations and enforcement will not be needed. If smoking is observed in violation of this policy the appropriate action to take is to:

- Politely ask the person who is smoking either to stop smoking or to move to a designated smoking area, outside of the twenty-five foot perimeter of the building, bus stop or bridge.
- Should the problem persist, ask the person for his/her name and whether he/she is a student, faculty, staff member or visitor. If the person refuses to identify himself/herself, on the Allendale campus contact the Department of Public Safety Services at (616) 331-3255 or on the Pew Campus or other campuses contact Pew Campus Security at (616) 331-6677 for assistance.
- If the person violating this policy is a student, a complaint may be filed with the Dean of Students’ Office, (616) 331-3585, which shall take appropriate action.
- If the person is a faculty or staff member, a complaint may be filed with that person’s dean, unit head or supervisor who shall act pursuant to the appropriate personnel policies.
- If the person is a visitor, a complaint may be filed with the Department of Public Safety on the Allendale campus or with Pew Campus Security for the Pew Campus and regional campuses who will take appropriate action.

ALCOHOL AND OTHER DRUGS POLICY

SLT 5.1

Date of Last Update:
October 30, 2018

Approved By:
Senior Leadership Team

Responsible Office:
Alcohol and Other Drugs Campus Education and Services Office (ACES)

POLICY

Grand Valley State University strives to provide a healthy University community free of the abuse of alcohol or other drugs and illegal or unauthorized use of alcohol and controlled substances. This commitment to students, faculty, and staff is evidenced by the:

- Publication of standards of conduct and University policies
- Provision of alcohol and other drug abuse prevention programs
The unlawful manufacture, possession, use, distribution or dispensation of illicit or prescription drugs and the unlawful possession, use, or distribution of alcohol by faculty, staff, and students on University-controlled property or as part of University activities is prohibited. This prohibition includes Marijuana as federal law bans it from University owned and controlled property and workplaces. All University employees will, as a condition of employment, abide by the terms of this policy. Faculty, staff, and students are responsible for making decisions within the context of University policies and federal, state, and local laws related to alcohol and other drugs.

The Alcohol and Other Drugs Policy Handbook (www.gvsu.edu/aces) includes information about University drug and alcohol abuse prevention programs; health risks; counseling, treatment and rehabilitation resources; legal sanctions and summary of laws; University employee and student sanctions for violations of alcohol and other drug policies; employee notification obligations; requirements for Federal grant recipients; and links to additional University policies, procedures, and resources.

POLICY STATEMENT

This policy and the Alcohol and Other Drugs Policy Handbook will be electronically distributed annually to all faculty, staff, and students. The coordinator of the ACES (Alcohol & Other Drugs Campus Education and Services) Office will conduct the required review, no less than biennially, in even-numbered years.

ANIMALS ON PROPERTY OWNED OR CONTROLLED BY THE UNIVERSITY

SLT 6.1

Date of Last Update:
May 20, 2019

Approved By:

Senior Leadership Team

Responsible Office:
Public Safety

POLICY

This Policy applies to all faculty, students, staff, contractors, vendors and visitors.

POLICY STATEMENT

This policy is intended to enhance the safety and health of students, faculty, staff, contractors, vendors and other visitors, and to supplement the existing GVSU policies, by providing rules and regulations regarding the presence of animals in GVSU facilities.

No person shall bring any animal(s) onto University owned or controlled property unless otherwise permitted by this or other University policy as listed below. Individuals wishing to request a modification or exception to this policy as a reasonable accommodation should contact the Office of Disability Support Resources. https://www.gvsu.edu/dsr

PROCEDURES

A. Animals Permitted on Property Owned or Controlled by the University *:

1. Service Animals are permitted within all University facilities subject to the additional requirements of this policy. Individuals who wish to bring a service animal into a University housing facility may do so without prior approval. However, students are strongly encouraged to reach out to the University’s Office of Disability Support Resources (DSR) to ensure that their experience bringing the animal to campus is a positive one. Advance notice of a service animal in housing facilities will enable the University to appropriately plan for the animals’ presence and will allow more flexibility in meeting the student’s needs. Service animals are permitted to accompany the resident to all areas of housing where residents are normally permitted to go. Please note that service animals are required to be at least 12 months of age unless an exception to this requirement has been approved by DSR.

2. Employees with a disability who wish to utilize a service animal as a reasonable accommodation in a University office or other areas of campus buildings not open to the general public, must submit the request to the Office of Disability Support Services at least 30 days before the animal is needed.

3. Service animals in training are permitted in all public facilities on the same basis as working service animals, provided that the service animal is being led or accompanied by a trainer for the purpose of training the dog and the trainer has documentation confirming the trainer is affiliated with a recognized or certified service dog training organization. Service animals in training are not permitted in certain classrooms, offices, or other areas of campus buildings not open to the general public. Facilities generally considered off limits unless an exception is granted:

   a. Research Laboratories: The natural organisms carried by service animals may negatively affect the outcome of the research. At the same time, the chemicals, and/or organisms used in the research may be harmful to service animals.

   b. Areas Where Protective Clothing is Necessary: Any room where protective clothing is required or necessary. Examples include chemistry laboratories, research/medical laboratories, wood shops, metal or machine shop, electrical shops, etc.

   c. Areas Where There is Danger to the Service Animal: Any room, including a classroom where there are sharp metal cuttings or other sharp objects on the floor or protruding from a surface; where there is hot material on the floor e.g. molten metal or glass; where there is a high level of dust; or where there is moving machinery. Where the threat of injury is to the health of the dog, the student will be permitted to make the decision.

4. A student or employee with a disability who wishes to utilize a service dog in training on University housing, classrooms, offices, or other areas of campus buildings not open to the general public must seek approval through the reasonable accommodation process.

5. Animals under the control of a law enforcement officer acting in the course of his or her duties.

6. Animals kept in residence halls as approved by the Department of Housing and Residence Life including animals kept by housing staff in residence. All animals must register
F. Enforcement of Complaints

1. If you become aware of a violation of this policy, you are encouraged to attempt informal methods of resolution. For example, if you recognize the person violating this policy, you might contact them or their supervisor to make them aware of the problem. If that is not successful and/or you are not comfortable approaching the person violating the policy or their supervisor, then the Department of Public Safety should be notified. The Department of Public Safety may pick up the animal and hold it for 48 hours.

2. Any individual with a dispute or disagreement concerning the removal or restriction of a service animal or any other aspect of this policy should first contact Disability Support Resources. In the unusual circumstance when an inquiry must be made to determine whether an animal is a service animal, a University employee may only ask two questions:

   a. Is the animal a service animal required because of a disability?

   b. What work or task has the animal been trained to perform?

   You may not ask these questions if the need for the service animal is obvious. You may not ask the owner to make the animal perform the task.

3. A University employee may not ask about a person’s disability, require medical documentation, require a special identification card or training documentation for the service animal or ask that the service animal demonstrate its ability to perform the work or task. Although a service animal may sometimes be identified by an identification card, harness, cape, or backpack, such identifiers are not required and should not be requested or demanded for any service animal on campus.

4. Allergies and fear of animals are not valid reasons for denying access or refusing service to people using service animals.

E. Removal of Service Animals:

1. A service animal may be removed from University facilities or grounds if it is disruptive (e.g., barking, wandering, posing a direct threat to the health or safety of others; is not housebroken; or displays aggressive behavior and the behavior is outside the duties of the service animal). Ill, unhygienic, and/or unsanitary service animals are not permitted in public campus areas. The individual responsible for such an animal may be required to remove the animal. A service animal may also be removed if the animal is out of control and the owner does not take effective action to keep the animal under control. If the out of control behavior happens repeatedly, the owner may be prohibited from bringing the animal into facilities until the owner can demonstrate that significant steps have been taken to mitigate the animal’s behavior.

2. When an animal has been properly removed pursuant to this policy, the University will work with the handler/owner to determine reasonable alternative opportunities to participate in the University’s services, programs, and activities without having the animal on the premises.

3. Any individual with a dispute or disagreement concerning the removal or restriction of a service animal or any other aspect of this policy should first contact Disability Support Resources. If the matter is not resolved, a request for mediation should be submitted to DSR. Individuals may also file a written complaint with the Equity and Compliance Unit in the Division of Inclusion and Equity by calling 616-331-2894 or at https://gvsu1x.gme.advocate.symplicity.com/public_report/index.php/pid234800.

F. Enforcement of Complaints:

1. If you become aware of a violation of this policy, you are encouraged to attempt informal methods of resolution. For example, if you recognize the person violating this policy, you might contact them or their supervisor to make them aware of the problem. If that is not successful and/or you are not comfortable approaching the person violating the policy or their supervisor, then the Department of Public Safety should be notified. The Department of Public Safety may pick up the animal and hold it for 48 hours. Animals not claimed during that time will be turned over to the county animal control officer and the owner of the animal will be responsible for any associated fees.

2. Students in violation of this policy will be referred to the University conduct process through the Dean of Students Office and may be assessed a fine of up to $250.
Employees in violation of this policy will be referred to the Human Resources Office for possible disciplinary action to be determined in consultation with the Equity and Compliance Unit in the Division of Inclusion and Equity and the employee’s supervisor.

DEFINITIONS:

1. **Service animal:** “any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the individual's disability.” (28 CFR 36.104) The crime deterrent effects of an animal’s presence and the provision of emotional support, well-being, comfort or companionship do not constitute work or tasks for the purposes of this definition.

   Examples of work or tasks that service animals perform include, but are not limited to: assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as books or the telephone, alerting a person to a sudden change in blood sugar levels, providing physical support and assistance with balance and stability to individuals with mobility disabilities, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

   a. The University may permit the use of a miniature horse on the same basis as a service animal if the horse has been trained to do work or perform tasks for the benefit of the individual with a disability and after an assessment of the following factors: the type, size and weight of the miniature horse and whether the facility can accommodate these features; whether the handler has sufficient control of the miniature horse; whether the miniature horse is housebroken; and whether the miniature horse’s presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation. (28 CFR 35.136)

2. **Service animal in training:** Dogs twelve months of age and older being individually trained to do work or perform tasks for people with disabilities that are at all times accompanied by a certified trainer. Puppies (dogs less than twelve months old) in training are not permitted in any University facilities.

3. **Emotional Support, Assistance, or Therapy Animals:** Please see the GVSU Housing Office Assistance Animal Policy.

CANCELLATION/CLOSURE POLICY

SLT 6.3

Date of Last Update:
September 06, 2017

Approved By:
Senior Leadership Team

Responsible Office:
Public Safety

POLICY STATEMENT

Grand Valley State University will close or cancel all or part of its operations in cases of emergency, utility disruptions, or for weather related reasons.

TYPES OF OPERATIONAL CHANGE:

- **Cancellation:** Classes will not be held. All staff are to report to work at their regular time.
- **Closure/Closed:** Classes and campus events will not be held. Only ESSENTIAL staff are to report to work.

When GVSU is closed, only essential staff are to report. Designated personnel in the following departments are deemed essential and are expected to report:

- Department of Public Safety
- Facilities Services
- Athletic & Recreation Facilities
- Food Service
- Housing
- Information Technology
- Library
- Pew Campus Operations
- WGVU Television and Radio

Appointing officers have discretion to call in non-essential staff as circumstances may require.

Students, faculty and staff should assume the university is open unless they are advised otherwise through GVSUAlert!, the university’s emergency notification system, or on the radio or television. In the event of closure or class cancellation, every effort will be made to make the announcement no later than 6:30 AM for daytime classes and 3:00 PM for evening classes.
**University Criteria for Weather-related Cancellations or Closures**

In evaluating whether to close for weather-related reasons, the following criteria are used: 1) the ability of the university's road crews to keep campus roads and parking lots cleared; 2) the conditions of primary and secondary roads in the area as reported by the Michigan Department of State Police as well as by central dispatch authorities in Kent and Ottawa counties; and, 3) weather reports regarding the track of the storm and other conditions.

Because commuting students, faculty and staff come from such a broad geographic area, it is extremely difficult to arrive at a decision that is appropriate for each vicinity. Weather conditions rarely are uniform throughout this large area. There is no one decision that will satisfy everyone; however, a diligent effort is made to arrive at a reasonable decision that considers the safety of students as well as their right to receive instruction. Under no circumstances does GVSU ask students, faculty or staff to assume undue risk in traveling to the University in inclement weather.

When GVSU Allendale is closed because of weather-related conditions, the Pew Grand Rapids Campus and the Meijer Holland Campus will also close.

When Muskegon Community College is closed, GVSU’s classes in Muskegon are canceled and the office in the Stevenson Center for Higher Education will close.

When Northwestern Michigan College in Traverse City is closed, GVSU’s classes in Traverse City are canceled and the office in the NMC University Center will close.

Decisions to close or cancel activities at the Annis Water Resources Institute (AWRI), the Muskegon Innovation Hub and the Detroit Center will be made separately, as these facilities host tenants, business events, and research functions not affiliated with university operations.

Announcements of closing and cancellation will be made through GVSUAler!, on the Grand Valley web home page [www.gvsu.edu](http://www.gvsu.edu), and on GVNOW at [www.gvsu.edu/gvnow](http://www.gvsu.edu/gvnow). Notifications may also be heard on area radio and television stations. For a more detailed update on campus conditions and area roads, tune to the Grand Valley State television and radio stations, WGVU-FM 88.5, WGVU-AM 1480, WGVS-AM 850, WGVU-FM 95.3, WGVU-TV 35, and WGVK-TV52. Please do not call the university switchboard to seek closing or cancellation information.

**Rescheduling Final Exams Affected by Cancellation or Closure**

In the event of a cancellation or closure on a specified exam day, any classroom-based exams affected would be held on the next available day after the exam week has concluded. For example, if a Tuesday exam day were affected, the next available day after the conclusion of the exam week would be Saturday. If two exam days were affected, i.e. Wednesday and Thursday, Wednesday’s exam would take place on Saturday and Thursday’s exam would be the following Monday. Faculty and students are advised to be aware of this contingency when making travel plans.

In the event of a cancellation or closure during exam week, faculty who are able to modify their exams to allow for online, take-home, or similar formats may do so for all students who agree. Faculty have an obligation to provide the option to students to be examined in the manner described in the syllabus, and for those students, exams will be scheduled as described above.

---

**ENDOWMENT SPENDING**

**SLT 6.4**

*Date of Last Update:* January 04, 2013

*Approved By:* Senior Leadership Team

*Responsible Office:* Business and Finance

**POLICY STATEMENT**

Each year the University Board of Trustees approves spending rates for true and quasi-endowments. These rates are used to calculate the amount that can be distributed from each endowment. Only investment income is distributed from true endowments, as the principal must be maintained intact in perpetuity. Spending distributions are calculated quarterly for the current fiscal year based on the average balance over a rolling three year period and transferred to the various spending funds at that time. Effective January 1, 2002 an endowment requires a minimum balance of $30,000 in principal before spending can begin.

**PROCEDURES**

A spending fund is created for each endowment so that monies are expended according to the purpose for which the endowment was established; usually a restricted fund is utilized for true endowments and a designated fund for quasi-endowments. Documentation that supports how the funds are expended must be maintained for five years. Specifically, for true endowments established to fund scholarships, the selection committee must ensure that documentation regarding the criteria utilized for candidate selection and award is maintained for a five-year period.

---

**EQUIPMENT ACQUISITION AND DISPOSAL POLICY**

**SLT 6.5**

*Date of Last Update:* January 04, 2013

*Approved By:* Senior Leadership Team

*Responsible Office:* Business and Finance
POLICY STATEMENT

The GVSU Purchasing Office (331-2280) is responsible for the acquisition and disposal of University-owned equipment, as outlined below.

PROCEDURES

1. ACQUISITIONS

   A. New Equipment with a Value Greater Than $ 5,000.00
   If your department has received new equipment and its cost is greater than $ 5,000.00, it needs to be tagged for inventory purposes. This process involves the placement of an inventory tag on the equipment plus recording of pertinent information – serial number, model number, location of equipment and the department, which purchased the equipment.

   B. New Equipment with a Value Less Than/Equal to $ 5,000.00
   If your department has received new equipment and its cost is less than or equal; to $ 5,000.00, tagging is optional. To have equipment tagged contact the Accounting Office at 331-2233.

2. DISPOSAL

Purchasing is responsible for the disposal of surplus, obsolete and worn out equipment. They will coordinate making the appropriate journal entries to update the equipment inventory, removal of University ID tags, and settlement of proceeds. Contact 331-2280 for requests to dispose of property and for appropriate disposal advice.

EVENT SIGNS AND BANNERS POLICY - ALLENDALE CAMPUS

SLT 6.7

Date of Last Update:
November 05, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Facilities Services

POLICY STATEMENT

Grand Valley State University event sign and banner policy is intended to establish a uniform system used across campus. The primary function of a sign or banner is to provide information. The effectiveness of distributing this information will be based on consistent design and standards. Implementation and maintenance of the event sign system will be the responsibility of the GVSU Facilities Services Department.

PROCEDURES

Event signs are made by Facilities Services. Banners are provided by the customer. When making a request, please follow the steps listed below:

1. Call Facilities Customer Service at 331-3000 to place your sign or banner request approximately two weeks prior to the event.

2. All banners are to be provided by the customer. There are two (2) locations on campus where they can be hung. One is in front of Lake Huron Hall in the Academic Mall area. The other is at the Northwest side of the Student Services Building facing Campus Dr. The banner(s) will be tied to metal posts that are secured into the ground. Banners may not hang from sculptures, the roof or inside any building, or be placed in the ground at a different location other than the two indicated unless approval has been given by the Associate Vice-President of Facilities Services. Also, approval must be given for any light pole banners. Light pole banner design must conform to Facilities size and construction standards and will be provided upon request.

3. Facilities Services will make and install three (3) real estate style signs for any GVSU sanctioned event on campus. They are 18" x 24", white with navy blue lettering. Any additional signs ordered will be at a cost of $15.00 each and you must provide a FOAP number. There is a maximum of 15 signs that may be ordered.

4. If you are ordering a real estate sign then please indicate the event name, the location and which parking lot to use. We are able to place quotes or statements on the signs but it is a good idea to keep the letters to a minimum so they can be made large enough to read. Please give a date/time to have these installed and a date/time for removal.

5. Facilities Services will install the real estate signs at the locations the customer indicates. Usually this is at the campus entrances or along Campus Drive. No signs may be installed in front of the arch at the north main entrance or in front of any welcome sign at the campus entrances.

6. Handwritten signage is not allowed and any professional signage brought on campus must have approval by the Associate Vice-President of Facilities Services.

If you have any questions about your signage or need approval please call 331-3000.

HEATING AND COOLING SET POINTS

SLT 6.8

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
Facilities Services

POLICY STATEMENT

The University established standard set-points for heating and cooling on all campuses in order to conserve resources and control energy costs. These standards are described below.
PROCEDURES
During the winter season the heating controls are set at a maximum of 70°F. During the summer season the minimum cooling temperature will be 76°F. Facilities Services will respond to hot/cold calls to ensure that systems are running properly, but will not adjust the temperatures to levels outside of the standards. Facilities Services also discourages the use of space heaters and fans in areas that are at the accepted standard temperature levels above. If there is a special need please contact Facilities Services at 331-3000.

IDENTITY THEFT DETECTION POLICY
SLT 6.9
Date of Last Update:
May 05, 2009
Approved By:
• Senior Leadership Team

Responsible Office:
Business and Finance

POLICY STATEMENT
Grand Valley State University (GVSU) will comply with the applicable requirements of 16 C.F.R. 681, a federal regulation issued by the Federal Trade Commission (FTC) as part of the implementation of the Fair and Accurate Credit Transaction (FACT) Act of 2003 requiring that financial institutions and creditors (which include higher education institutions) implement written programs that provide for the detection of and response to specific activities ("Red Flag") that could be related to identity theft.

Grand Valley State University is required to adopt policies and procedures to mitigate identity theft. Activities that cause GVSU to be considered a "creditor" under the Red Flags Rule include:

1. Participating in the Federal Perkins Loan program
2. Participating in alternative or private educational loans
3. Offering institutional loans to students, faculty, or staff.
4. Offering a plan for payment of tuition throughout the semester rather than requiring full payment at the beginning of the semester.
5. Stored Value Cards

PROCEDURES
Identification of Red Flags
In order to identify relevant Red Flags, GVSU considers the type of accounts that it offers and maintains, methods it provides to open its accounts, methods it provides to access its accounts, and its previous experience with identity theft. GVSU identifies the following Red Flags in each of the listed categories:

1. Notification and Warnings from Credit Reporting Agencies
   a. Report of fraud accompanying a credit report
   b. Notice or report from a credit agency of a credit freeze on an applicant
   c. Notice or report from a credit agency of an active duty alert for an applicant
   d. Receipt of a notice of address discrepancy in response to a credit report request
   e. Indication from a credit report of activity that is inconsistent with an applicant's usual pattern or activity

2. Suspicious Documents
   a. Identification document or card that appears to be forged, altered or inauthentic
   b. Identification document or card on which a person's photograph or physical description is not consistent with the person presenting the document
   c. Other document with information that is not consistent with existing student information
   d. Application for services that appears to have been altered or forged

3. Suspicious Personal Identifying Information
   a. Identifying information presented that is inconsistent with other information the student provides (example: inconsistent birth dates)
   b. Identifying information presented that is inconsistent with other sources of information (example: an address not matching an address on a loan application)
   c. Identifying information presented that is the same as information shown on other applications that were found to be fraudulent
   d. Identifying information presented that is consistent with fraudulent activity (example: an invalid phone number or fictitious billing address)
   e. Social security number presented identical to one given by another student
   f. Address or phone number presented that is the same as that of another person
   g. A person fails to provide complete personal identifying information on an application when reminded to do so
   h. A person's identifying information is not consistent with the information that is on file for the student

4. Suspicious Covered Account Activity or Unusual Use of Account
   a. Change of address for an account followed by a request to change the student's name
   b. Payments stop on an otherwise consistently up-to-date account
   c. Account used in a way that is not consistent with prior use
   d. Mail sent to the student is repeatedly returned as undeliverable
   e. Notice to University that a student is not receiving mail sent by the University
   f. Notice to GVSU that an account has unauthorized activity
   g. Breach in GVSU's computer system security
   h. Unauthorized access to or use of student account information
5. Alerts from Others
Notice to GVSU from a student, identity theft victim, law enforcement or other person that the University has opened or is maintaining a fraudulent account for a person engaged in identity theft

Red Flag Detections

Student Enrollment
To detect any of the Red Flags identified above associated with the enrollment of a student, GVSU personnel will take the following steps to obtain and verify the identity of the person opening the account:
   a. Require certain identifying information such as name, date of birth, academic records, home address or other identification
   b. Verify the student’s identity at time of issuance of student identification card (review driver’s license or other government-issued photo identification)

Existing Accounts
To detect any of the Red Flags identified above for an existing covered account, GVSU personnel will take the following steps to monitor transactions on accounts:
   a. Verify the identification of students if they request information (in person, via telephone, facsimile or email)
   b. Verify the validity of requests to change billing address by mail or email and provide the student a reasonable means of promptly reporting incorrect billing address changes
   c. Verify changes in banking information given for billing and payment purposes

Consumer ("Credit") Report Requests
To detect any of the Red Flags identified above for an employment or volunteer position for which a credit or background report is sought, GVSU personnel will take the following steps to assist in identifying address discrepancies.
   a. Require written verification from any applicant that the address provided by the applicant is accurate at the time the request for the credit report was made to consumer reporting agency
   b. In the event that notice of an address discrepancy is received, verify that the credit report pertains to the applicant for whom the requested report was made and report to the consumer reporting agency an address for the applicant that GVSU has reasonably confirmed is accurate

Preventing and Mitigating Identity Theft
In the event that GVSU personnel detect any identified Red Flags, such personnel shall take one or more of the following steps, depending on the degree of risk posed by the Red Flag:
   a. Continue to monitor a covered account for evidence of identity theft
   b. Contact the student or applicant for which the credit report was requested
   c. Change any passwords or other security devices that permit access to covered accounts
   d. Not open a new covered account
   e. Provide the student with a new student identification number
   f. Notify the Program Administrator for determination of the appropriate step(s) to take
   g. Notify law enforcement
   h. Determine that no response is warranted under the particular circumstances
   i. Take appropriate steps to modify the applicable process to prevent similar activity in the future

Protecting Student Identifying Information
To further prevent the likelihood of identity theft occurring with respect to covered accounts, GVSU will take the following steps as they relate to internal operating procedures:
   a. Ensure that the GVSU website is secure or provide clear notice that the website is not secure
   b. Ensure complete and secure destruction of paper documents and computer files containing student account information when a decision has been made to no longer maintain such information
   c. Ensure that office computers with access to covered account information are password protected.
   d. Avoid use of social security numbers
   e. Ensure computer virus protection is up to date
   f. Require and keep only the kinds of student information that are necessary for GVSU purposes

Oversight
Responsibility for developing, implementing and updating this Program lies with an Identity Theft Committee (Committee) for GVSU. This Committee is headed by a Program Administrator appointed by the President. Two or more individuals appointed by the Program Administrator comprise the remainder of the committee.

The Program Administrator is responsible for ensuring appropriate training of GVSU personnel review of staff reports regarding the detection of Red Flags and the steps for preventing and mitigating identity theft, determining which steps of prevention and mitigation should be taken in particular circumstances and considering periodic changes to the Program.

Staff Training and Reports
GVSU staff responsible for implementing the Program shall be trained either by, or under the direction of, the Program Administrator in the detection of Red Flags and the responsive steps to be taken when a Red Flag is detected. GVSU staff shall be trained, as necessary, to effectively implement the Program. GVSU employees are expected to notify the Program Administrator once they become aware of an incident of identity theft or of GVSU’s failure to comply with this Program. At least annually or as otherwise requested by the Program Administrator, GVSU staff responsible for development, implementation, and administration of the Program shall report to the Program Administrator on compliance with this Program. The report should address such issues as effectiveness of the policies and procedures in addressing the risk of identity theft in connection with the opening and maintenance of covered accounts, service provider arrangements, and significant incidents involving identity theft and management response, and recommendations for changes to the Program.

Service Provider Arrangements
When the GVSU engages a service provider to perform an activity in connection with one or more covered accounts, GVSU will take the following steps to ensure the service provider performs its activity in accordance with reasonable policies and procedures designed to detect, prevent and mitigate the risk of identity theft:
   a. Require, by contract, that service providers have such policies and procedures in place
   b. Require, by contract, that service providers review GVSU’s Program and report any Red Flags to the Program Administrator or GVSU employee with primary oversight of the service provider relationship

Program Updates
The Committee will periodically review and update this Program to reflect changes in risks to students and soundness of GVSU’s policies, procedures, protocols and practices from identity theft. In doing so, the Committee will consider GVSU’s experience with identity theft situations, changes in identity theft methods, changes in identity theft detection and prevention methods, and changes in GVSU’s business arrangements with other entities. After considering these factors, the Program Administrator will determine whether changes to
the Program, including the listing of Red Flags, are warranted. If warranted, the Committee will update the Program, subject to approval by the Senior Leadership Team.

DEFINITIONS:

**Account**- a continuing relationship established by a person with a financial institution or creditor to obtain a product or service for personal, family, household or business purpose.

Account includes:

a. an extension of credit, such as the purchase of property or services involving a deferred payment; and
b. a deposit account

**Card Issuer**- a financial institution or creditor that issues a debit or credit card.

**Consumer Reports**- any written, oral, or other communication of any information by a consumer reporting agency bearing on a consumer's credit worthiness, credit standing, credit capacity, character, general reputation, personal characteristics, or mode of living which is used or expected to be used or collected in whole or in part for the purpose of serving as a factor in establishing the consumer's eligibility for:

a. Credit or insurance to be used primarily for personal, family, or household purposes;
b. Employment purposes; or
c. Any other purpose authorized under U.S. Code: Title 13k, 1681b

**Covered Accounts**- an account that a financial institution or creditor offers or maintains, primarily for personal, family, or household purposes, that involves or is designed to permit multiple payments or transactions, such as a credit card account, mortgage loan, automobile loan, margin account, cell phone account, utility account, checking account, or savings account. Any account that the financial institution or creditor offers or maintains for which there is a reasonable foreseeable risk to customers or to the safety and soundness of the financial institution or creditor from identity theft, including financial, operational, compliance, reputation, or litigation. This includes all student accounts or loans that are administered by GVSU.

**Debit Card**- any card issued by a financial institution to a consumer for use in initiating an electronic funds transfer from the account of the consumer at such financial institution, for the purpose of transferring money between accounts or obtaining money.

**Identifying Information**- is any name or number that may be used, alone or in conjunction with any other information, to identify a specific person, including:

a. Name
b. Date of birth
c. Address
d. Government issued driver's license
e. Telephone number
f. Alien registration number
g. Social security number
h. Government passport number
i. Employer or taxpayer ID number
j. Student identification number
k. Computer Internet address
l. Routing code

**Identity Theft**- a fraud committed or attempted using the identifying information of another person without authority.

**Program Administrator**- the individual designated by the President with primary responsibility for oversight of the Program.

**Red Flag**- a pattern, practice, or specific activity that indicates the possible existence of identity theft.

**Service Provider**- a person that provides a service directly to the financial institution or creditor.

**INTERIOR SIGNAGE STANDARDS POLICY**

**SLT 6.10**

**Date of Last Update:**
July 31, 2008

**Approved By:**

- Senior Leadership Team

**Responsible Office:**
Facilities Planning

**POLICY STATEMENT**

Grand Valley State University has developed and maintains standards that govern the design, content, appearance, installation and use of interior signage through the institution. These standards are published on the Facilities Planning Web site.

**PROCEDURES**

Requests for additional signage, revisions in existing signage and/or removal of signage should be handled by submitting a work order through the Facilities Services Web site or by contacting the Facilities Planning office at 331-2962.

**INVOICE PAYMENT POLICY**

**SLT 6.11**
POLICY STATEMENT

All purchases must be made in accordance with terms outlined in the Grand Valley State University Board of Trustees' Policies. Payment of the resulting invoices is subject to the policies and procedures outlined below.

PROCEDURES

1. Vendors are to mail invoices to:

   Grand Valley State University
   Accounts Payable
   2015 Zumberge Hall
   Allendale, Michigan 49401

2. The University requires each new vendor to submit a W-9. Accounts Payable will either retain a file copy if the first invoice has an EIN included, or solicit a W-9 from the vendor.

3. Accounts Payable maintains original invoices. Departments will receive a copy of each invoice that will then require an approved signature based on the Banner approval queue information for the department. If the invoice references a valid purchase order, receipt of goods/services may be confirmed by any member of the requesting department via signature. If the invoice does not have a corresponding purchase order, the only requesting department staff members who may approve the invoice for payment are those authorized in the Banner approval queue. Departments must provide complete FOAPs on each invoice.

4. Department should then return invoice copies to Accounts Payable as soon as possible. The University desires to pay its obligations within the negotiated vendor terms. If these terms include discounts, they will only be given to a department if the approved invoice is returned in time for the vendor terms to be met. Please allow up to three (3) days for processing within Accounts Payable.

5. When you use a hotel that direct bills for university guests lodging you are required to provide the guest’s name and the business purpose of the stay.

6. Departments disputing an invoice must follow up with the vendor and inform Accounts Payable about reasons delaying authorization and return of disputed invoices.

7. If your department receives an invoice that is not yours, please return invoice to Accounts Payable for forwarding to the correct department. If available, please note correct destination on the invoice.

8. Invoices are processed daily. Checks are processed daily and cut based on the vendors terms. All checks are mailed or funds electronically transferred to vendors. Only those checks being presented to a guest in person will be held for pickup. The goal of the Accounts Payable department is to process authorized-for-payment invoices within five business days of receipt at 2015 James H. Zumberge Hall.

9. Payments to non-employees and international guests for services rendered require a purchase order. Payments are processed in accordance with contract terms.

10. Payments to employees for services, honoraria, stipends, prizes and awards are paid via the payroll system in accordance with IRS regulations.

Any questions should be directed to Accounts Payable at 616-331-2202.

KEY POLICY - ALLENDALE CAMPUS

SLT 6.12
Date of Last Update:
July 31, 2008
Approved By:
Senior Leadership Team
Responsible Office:
Facilities Services

POLICY STATEMENT

The objective of this procedure is to define the system of key control at the University. Issuance of keys is a part of maintenance operations. Deans and administrators are urged to maintain a list of keys, which persons in their units possess for security and accountability. Issuance and usage of keys is to be in accordance with principles of reasonable security.

PROCEDURES

Responsibilities
A. Facilities Services is responsible for:

1. Identification codes on keys.
2. Issuing and maintaining key records.
3. Maintenance, repair, and replacement of University key and lock hardware.
4. Duplication of keys.

B. Deans, Department Chairs, and Administrators are responsible for:

1. Approving keys for facility and/or staff members in their unit.

Key Request Procedures

A. Access to locked areas of the University is based upon need. Whenever possible, employees will be issued the minimum number of keys at the lowest level that will allow access to their areas of assignment only.

B. All key requests must be submitted on the Key Request Form, which is available on the Facilities Services Web site.

C. Information on the Key Request Form must be complete with proper signatures/approvals (including your supervisor). The form is then forwarded to Facilities Services. Incomplete forms will be returned. Proper justification must be provided for anything other than keys to specific doors.

D. Upon approval, keys can be delivered to a designated office or picked up at the Central Utilities building. The Key Inventory form must be signed by the individual who will use the key at that time for return to Facilities Services for record keeping. No keys will be issued without these signatures.

E. Under normal circumstances, students and temporary employees will not be issued keys.

Level of Keys and Issuance

A system of keys ranging from the Great Grand Master Keys down to the lowest level of change key is used to satisfy user needs. Facilities Services aims to issue the smallest number of keys possible.

A. Great Grand Master (GGM) key is the highest level of key on the campus. The key covers all of the keyways within an entire key system. There are (5) key systems currently on campus. Great Grand Masters are issued to the Executive Officers, the Assistant Vice President for Facilities Services, the Assistant Vice President of Facilities Planning, the Director of Public Safety Services, Facilities Services Supervisors and Public Safety Officers. Other Facilities Services staff and some University personnel may be approved but only after administrative and executive officer authorization. All GGM key requests must receive the approval of the appropriate division heads as well as approval of the Assistant Vice President for Facilities Services.

B. X-KEYS are issued to Facilities Services, Public Safety, and Technology Services personnel only. This key allows access to key boxes that are located in designated buildings and contain a master key for that building. X-KEYS are issued to designated individuals within these departments based on proof of need. These key requests must be approved by the Assistant Vice President for Facilities Services.

C. BUILDING MASTER keys will allow entry into all areas of a building including mechanical spaces and designated to restricted spaces. These are keys placed in key boxes for access and use by service staff.

D. MASTER keys will operate all keyways in a building except mechanical rooms and designated restricted areas. These keys are issued to Deans or Administrative Officers with the responsibility for all building and department activities. Custodial staff will also be issued MASTER keys for the building to which they are assigned. Issuance of these keys must be approved by the Assistant Vice President for Facilities Services.

E. SUB-MASTER keys operate a sub-group of locks within a master key system such as a department. These are issued by the Assistant Vice President for Facilities Services.

F. ACCESS keys allow entry to individual offices or rooms. These are the primary keys issued to faculty and staff. Approval is from the Assistant Vice President of Facilities Services.

G. ENTRANCE keys operate entrance doors to buildings, departments or suites. Approval is from the Assistant Vice President of Facilities Services.

H. FILE keys are issued as requested to allow access to department files or personal office files, desks, and cabinets.

Key Lock Boxes

A. A KEY LOCK BOX is located in the Central Utilities Building (CUB) for temporary checkout of X-KEYS, MASTER OR GRAND MASTER keys for access to a building. Identification of the individual checking out the key as well as verification of need will be necessary. An ID is required (driver’s license and a Facilities Services ID card) and will be held in CUB pending return of these keys.

Employee Responsibilities

A. The employee is responsible for the security of keys assigned. Lost or stolen keys must be reported immediately to department administration, Facilities Services, and Public Safety. A replacement charge of $10.00 will be assessed for each lost or stolen key before a duplicate can be issued. The replacement fee of a lost or stolen sub master, master, x-key, or grand master will be $100.00 and must be paid before a duplicate is made. Request for keys lost due to theft must be accompanied by a police report. The employee’s department will be responsible for costs to re-key due to a lost or stolen key. Disciplinary action – if needed – will be left to the supervisor.

B. Employees who change offices will be issued new keys at the time old keys are returned. A Key Request Form needs to be completed for the new keys. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. KEYS MUST BE RETURNED TO FACILITIES SERVICES.

C. Broken keys should be returned at the time the new key is issued.

D. Requests for desk and file cabinet keys will be supplied if they are in stock. If not, the department is responsible for supplying the key to be duplicated.

E. UNDER NO CIRCUMSTANCES ARE GVSU KEYS TO BE DUPLICATED OR GIVEN TO OTHER EMPLOYEES. THE PERSON WHO SIGNED FOR THE KEY WILL BE HELD RESPONSIBLE. Any requests for additional access are to be made through the normal procedures. Appropriate disciplinary action will be pursued for unauthorized duplication.

F. All keys are to be turned in to Facilities Services at the time of termination of employment. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. All terminating or retiring employees are encouraged to check with Facilities Services well in advance of their last day to determine what keys have been issued to them.

G. Under normal circumstances, students and temporary employees will not be issued keys. Employees should NOT sign out keys for these employees.

Key History Assignment Cards

A Key History Assignment card is maintained for each employee possessing a GVSU key. The information on the card includes the employee’s name, job title, department, phone number and office location. Also the card lists the date a key is issued, the key numbers, access location, room numbers, employee’s signature, and date of key return.

Return of Keys

[Insert the content that follows here]
A. When a key is returned from an employee because the need for the key no longer exists, the Key History Assignment Card is pulled from the employee file and the return date is noted.

B. Upon termination of GVSU employment, Facilities Services will be notified by Human Resources. The employee’s supervisor should follow up and direct the proper return of keys to Facilities Services.

C. These key changes are reflected on the Key History Assignment Card and the file is removed from ongoing records.

D. UNDER NO CIRCUMSTANCES ARE KEYS TO BE RETAINED BY THE DEPARTMENT AND GIVEN TO A NEW EMPLOYEE.

Special Key Issuance – Facilities Services

A. Contractors are issued temporary access cards the Central Utilities Building (CUB). Cards are to be returned immediately upon completion of the contract service.

B. Temporary Employees will be allowed to check out the required keys / access cards from CUB using the same basis as student’s checkout.

C. Temporary Job Assignments – employees receiving temporary job assignments may checkout the appropriate building key / access card from CUB to work in the assigned area. A Facilities Services ID must be presented and will be held pending return of these keys. (Example: custodians or maintenance personnel temporarily assigned to a different routine.) These keys may be held for the duration of the temporary assignment and do not have to be returned daily.

D. Restricted keyways – no future building re-keying will allow for spaces off the GGM system. Areas or departments may be off the building master but not off the GGM.

KEYS AND CARD ACCESS POLICY - PEW CAMPUS

SLT 6.13

Date of Last Update: September 08, 2014

Approved By:
- Senior Leadership Team

Responsible Office:
Pew Campus Operations

POLICY STATEMENT

The objective of this key procedure is to define the system of key control at the Robert C. Pew Campus and Regional Centers. Issuance of keys for the Pew Campus is the responsibility of Pew Campus Operations. Deans and administrators are urged to maintain a list of which keys persons in their units possess for security and accountability purposes. Issuance and usage of keys is to be in accordance with principles of reasonable security.

PROCEDURES

Responsibilities

Pew Campus Operations is responsible for:
- Identification codes on keys.
- Issuing and maintaining records of keys.
- Maintenance, repair, and replacement of Pew Campus key and lock hardware.
- Duplication of keys.

Deans, Department Chairs, and Administrators are responsible for:
- Approving keys for faculty and/or staff members in their unit.

Key Request Procedures

Access to locked areas of the Pew Campus is based upon need.

Whenever possible, employees will be issued the minimum number of keys at the lowest level that will allow access to their areas of assignment only.

All key requests must be submitted on the KEY REQUEST FORM, which is available on the Pew Campus Operations website. Information on the KEY REQUEST FORM must be complete with proper supervisor or department approval. The form is then electronically submitted to the Pew Campus Operations. Incomplete forms will be denied. Proper justification must be provided for anything other than keys to specific doors. Upon approval, the requestor will receive an email letting them know that the key/card(s) are ready to be picked up at the Pew Campus Operations Office at the Bicycle Factory, suite 350. The key inventory form must be signed by the individual who will use the key. The form is then filed at that time by Pew Campus Operations for record keeping. No keys will be issued without these signatures or to anyone other than the requesting employee.

Under normal circumstances, students and temporary employees will not be issued keys.

Levels of Keys and Issuance

A system of keys ranging from Great Grand Master Keys down to the lowest level of change key is used to satisfy user needs. Pew Campus Operations aims to issue the smallest number of keys possible. Keys will not be issued where card access is available.

GREAT GRAND MASTER KEY is the highest-level key on campus. This key covers all of the keyways within an entire key system. There are five (5) key systems currently on campus. All GGM key requests must receive the approval of the appropriate division heads as well as approval of the Assistant Vice President for Facilities Services and Planning and the Vice President for Finance and Administration.

GRAND MASTER KEY is the second highest-level key on campus. This covers all of the keyways of the Pew Campus OR of the Allendale Campus. These key(s) are issued to the Assistant Vice President for Facilities, Director or Assistant Director of Pew Campus Operations, the Director or Assistant Director of Plant Services, the Director of Facilities Planning, the Director of Public Safety Services, Plant Services Supervisors and Public Safety Officers. Other Plant Services staff and some University personnel may be approved but only after administrative and executive officer authorization. All GGM key requests must receive the approval of the appropriate division heads as well as approval of the Assistant Vice President for Facilities Services and Planning and the Vice President for Finance and Administration.
LOCK BOX KEYS are issued to Plant Services, Public Safety, Technology Services, Pew Campus Operations and designated contractors only. This key allows access to key boxes that are located in designated buildings and contain a master key for that building. Lock Box keys are issued to designated individuals within these departments based on proof of need. These key requests must be approved by the Assistant Vice President for Pew Campus & Regional Centers.

MASTER KEYS operate all keyways except mechanical rooms and designated restricted areas. These keys are issued to Deans or Administrative Officers with responsibility for all building and department activities. Custodial Staff will also be issued master keys for the building to which they are assigned. Issuance of these keys must be approved by the Assistant Vice President for Pew Campus & Regional Centers.

SUB-MASTER keys operate a sub-group of locks within a master key system such as a department. These are issued based on proof of need and require approval of the Assistant Vice President for Pew Campus & Regional Centers.

OPERATOR keys allow entry to individual offices or rooms. These are the primary keys issued to faculty and staff. Approval is from the Assistant Vice President for Pew Campus & Regional Centers.

ENTRANCE keys operate entrance doors to buildings, departments, or suites. Approval is from the Assistant Vice President for Pew Campus & Regional Centers.

FILE keys are issued as requested to allow access to department files or personal office files, desks, cabinets.

Lock Box

A LOCK BOX is located in the loading dock of EC, DEV, SCB, BIK, DET and CHS buildings. These are for temporary checkout of X MASTER keys for access to a building.

Vendor Sign Out

Temporary keys for the Pew Campus may be signed out to vendors on a daily basis. Identification of the individual checking out the key as well as verification of need will be necessary. The keys are signed out from the Pew Campus Operations Office at the Bicycle Factory, suite 350.

Employee Responsibilities

The employee is responsible for the security of keys assigned. Lost or stolen keys must be reported immediately to department administration and Pew Campus Operations. A replacement charge of $10 will be assessed for each lost or stolen key before a duplicate key can be issued. The replacement fee for a lost or stolen sub-master, master, lock box key or grand master will be $100 and must be paid before a duplicate is made. Request for keys lost due to theft must be accompanied by a police report. The employee’s department will be responsible for costs to rekey due to lost or stolen key.

Employees who change offices will be issued new keys at the time the old keys are returned. A Key Request Form needs to be completed for the new keys. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. KEYS MUST BE RETURNED TO THE PEW CAMPUS OPERATIONS OFFICE.

Broken keys should be returned at the time the new key is issued.

UNDER NO CIRCUMSTANCES ARE GVSU KEYS TO BE DUPLICATED OR GIVEN TO OTHER EMPLOYEES. THE PERSON WHO SIGNED FOR THE KEY WILL BE HELD RESPONSIBLE. Any requests for additional access are to be made through the normal request procedures. Appropriate disciplinary action will be pursued for unauthorized duplication.

All keys are to be turned into the Pew Campus Operations Office at the time of termination of employment. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. All terminated or retiring employees are encouraged to check with Pew Campus Operations well in advance of their last day to determine what keys have been issued to them.

Under normal circumstances, students and temporary employees will not be issued keys. Employees that sign out keys for these people WILL be held responsible for the keys.

Key History Assignment Cards

A Key History Assignment card is maintained for each employee possessing a GVSU key. The information on the card includes the employee’s name, job title, department and phone number. The card also lists the date the key is issued, the key numbers, access location, room numbers, employee’s signature, and dates of key return.

Return of Keys

When a key is returned from an employee because the need for the key no longer exists, the Key History Assignment card is pulled from the employee file and the return date is noted.

Upon termination of GVSU employment, Pew Campus Operations will be notified by Human Resources. The employee’s supervisor should follow up and direct the proper return of Pew Campus keys to Pew Campus Operations.

These key changes are reflected on the Key History Assignment card and the file is removed from ongoing records.

UNDER NO CIRCUMSTANCES ARE KEYS TO BE RETAINED BY THE DEPARTMENT AND GIVEN TO A NEW EMPLOYEE.

Special Key Issuance

Vendors are issued temporary keys through the Pew Campus Operations Office. Such keys are to be returned immediately upon completion of the contract service or by 5:00 p.m. each day. Keys may be kept overnight with operations manager approval.

Students and Temporary Employees may have keys temporarily assigned to them for the duration of their daily shift only and then must be returned daily. These are to be checked out through the Pew Campus Operations Office and require supervisor’s permission. A driver’s license must also be presented and information will be recorded in the Pew Campus Operations Office.

Temporary Job Assignments – Employees receiving temporary job assignments may check out the appropriate building key from the Pew Campus Operations Office to work in the assigned area. (Example: custodians or maintenance personnel temporarily assigned to a different routine). These keys may be held for the duration of the temporary assignment and do not have to be returned daily.

LIGHTNING/SEVERE WEATHER POLICY - ATHLETICS

SLT 6.14

Date of Last Update:
August 22, 2014

Approved By:

- Senior Leadership Team

Responsible Office:
POLICY STATEMENT
The safety of all participants and observers of athletic events is extremely important. Therefore, the Athletics Department has developed the following policy and chain of command in order to ensure the safety of both athletes and onlookers in the case of severe weather during an athletic event.

PROCEDURES

Chain of Command

The athletic trainer(s) present (most practices) in coordination with the game administrator and game officials are responsible for terminating an athletic activity in the event of lightning or other severe weather. During outdoor activities, a primary responsibility of the athletic trainer(s) is to have the ability to make sound decisions on environmental factors effecting the safety and well being of the athletes as well as others involved with the activity.

The certified athletic trainer will communicate with the game administrator, the head coach, and game official(s)/umpire(s) of the potential for lightning or severe weather and will make the recommendation that all activities stop or be suspended.

If the head coach is not present, the senior most member of the coaching staff will assume responsibility.

If an athlete proceeds with their outside activity against the recommendation of the individual in charge to seek a safe shelter, the athlete assumes all personal liability with regard to their safety and health.

If a coach and/or game official(s)/umpire(s) make the decision to continue to practice and/or continue with a game or other activity despite a Telvent weather warning, the cancellation of classes, and/or the verbal instruction by a certified athletic trainer or game administrator, they will be doing so against the recommendations of the Grand Valley State University Athletic Department and will be personally liable for any and all injuries.

Severe Weather

In the event of severe weather, the following measures will be taken by Grand Valley:

The athletic training staff will check the weather daily prior to the practice or competition. Up-to-date weather reports will be obtained by using Telvent services.

During outdoor practices and games, an early warning text message system from Telvent may be used to help determine the occurrence of and/or distance of lightning in the area. The weather reports and systems will be monitored for storms that may develop during practices and games.

When an early warning text message system from Telvent has detected lightning or thunder has been heard, the athletic trainer in charge will monitor the distance on the early warning system. When the lightning is within an 8-mile radius of the venue, the activity will be ceased and a warning message with recommended safe structure will be given.

Anytime the Meadows sirens are used to close the golf course, all athletic outdoor activities will be suspended.

The certified athletic trainer will be responsible for notifying the head coach, official(s)/umpire(s) and game administrator (if present) of the lightning or severe weather. The certified athletic trainer will recommend play to be suspended at this time and shelter should be taken.

Any person who feels they are in danger of any lightning activity will have the right to leave the field or event site to seek safe shelter without fear of penalty or repercussion.

If play is suspended due to severe weather, everyone (including observers) should seek shelter in the designated “safe structures” (listed in Table A). A “safe structure” is defined as “any building normally occupied or frequently used by people, i.e. a building with plumbing and/or electrical wiring that acts to electrically ground the structure.” This structure does not include: shower facilities, baseball/softball dugouts, outside storage sheds, and canopies/awnings/tents. When in a “safe structure,” stay away from corded telephones, electrical appliances, lighting fixtures, ham radio microphones, electric sockets, and plumbing.

In the absence of a “sturdy, frequently inhabited building,” one may seek shelter in fully enclosed hardtop vehicles but should not touch the sides of the vehicle.

If no “safe structure” is available within reasonable distance, find a thick grove of small trees surrounded by taller trees or a dry ditch and assume a lightning safe position. A lightning safe position is one in which one is crouched on the ground with only the balls of the feet touching the ground, with their arms wrapped around the knees and head lowered. Do not lie flat on the ground. Stay away from the tallest trees or objects (i.e. light poles or flag poles), metal objects (i.e. fences or bleachers), individual trees, standing pools of water, and open fields. Avoid being the highest object in a field.

Any person who feels his/her hairs stands on end or skin tingle should immediately assume a lightning safe position.

Avoid using a landline telephone. Cellular phones may be used in an emergency situation.

Resumption of Activity

Play will resume thirty minutes following the last flash of lightning per the Telvent warning system. The certified athletic trainer will make this recommendation to the official(s) during an official game.

Blue skies and absence of rain are not protection from lightning. Lightning can strike up to ten miles from the rain shaft and it does not have to be raining for lightning to strike.

Care of a Lightning-Strike Victim

A lightning strike does not stay attached to the source therefore they do not carry an electrical charge. It is safe to touch the victim to move him/her to a safe location and to render medical treatment. Medical personnel should consider their own personal safety before venturing into a dangerous situation to render care.

Lightning-strike victims who show signs of cardiac or respiratory arrest need emergency help quickly. CPR and AED use should begin immediately, if necessary. Prompt, aggressive CPR has been highly effective for the survival of victims of lightning strikes.

Victims should be assessed and treated for apnea, asystole, hypothermia, shock, fractures and burns.

Refer to the Safe Structures table.

**SPACE HEATERS AND PERSONAL APPLIANCE POLICY**

SLT 6.16

**Date of Last Update:**
January 12, 2015

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Pew Campus Operations/ Allendale Facilities Services

**POLICY STATEMENT**

The following policy language is intended to promote the safety of the campus community, improve the comfort of faculty/staff, prevent physical damage to university facilities and conserve energy at Grand Valley State University.

**PROCEDURES**

**Space Heaters:**
The use of electric space heaters (or those fueled by other means) is strictly prohibited in any GVSU facility. Electric space heaters pose a safety risk and fire hazard by overloading building electrical circuits. They are also a very inefficient means of providing heat and often result in the discomfort of occupants in nearby offices or work areas.

Individuals who believe their work area is too cold (or hot) may contact Facilities Services (Allendale Campus) at extension 1-3000, or Operations at extension 1-6700 (Pew Campus & Regional Centers). A work order may also be submitted online at [webtma.plant.gvsu.edu](http://webtma.plant.gvsu.edu) to request that their space be evaluated for temperature adjustments.

**Other Personal Appliances:**
The following appliances are also prohibited from being used in offices or other non-designated common areas at GVSU:
- Air conditioners
- Grills
Coffee makers
Crock-Pots
Toaster ovens
Toasters
Mini Refrigerators
Other small kitchen appliances
Microwaves
Other appliances that do not meet the intent of this policy

Many of these appliances are available to faculty/staff in designated break kitchens and lounge areas. If your department wishes to add an additional shared item to a break/lounge area, please contact the Operations Manager or Facilities Supervisor for your designated building to discuss its placement.

Exceptions:
Operations and Facilities Services will work to accommodate medical necessities, departmental events or other special conditions that may warrant an exception to this policy.

Responsibility:
Enforcement of this policy is the responsibility of departmental supervisors. Facilities Services and Operations staff will report unauthorized space heaters and other appliances discovered in the course of their work. The supervisor, chair, dean or director that is responsible for the area will be notified.

TIMECARD / TIMEKEEPING POLICY
SLT 6.17
Date of Last Update:
January 04, 2013
Approved By:
· Senior Leadership Team

Responsible Office:
Business and Finance

POLICY STATEMENT
Timekeeping must accurately reflect all hours worked and should be recorded on a daily basis. Misrepresentation of hours worked or forgery is a violation of the law. Misrepresenting hours worked, forging a timecard, and swiping, or inputting hours for someone else may lead to immediate termination of employment.

PROCEDURES
Electronic Timekeeping
It is the responsibility of the staff member to accurately record all hours worked in Ultra Time and inform their supervisor that the hours are ready to be confirmed, or it is the responsibility of the staff member to accurately swipe their identification card in order for their supervisor to confirm their hours. All hours must be confirmed by 3:00 pm on the Monday following the end of the pay period.

Timecards
Each timecard is coded with information for the correct pay period. It is important that you use the correct timecard for the pay period. It is the responsibility of the staff member to accurately complete and submit their timecard to their supervisor (the supervisor must have signature authority on the account being charged) for their signature. The signed timecard must be in the Payroll Office 1035 James H. Zumberge Hall by 5:00 pm on the Monday following the end of a pay period.

For additional information, contact the Payroll Office.

TRAVEL POLICY AND PROCEDURES
SLT 6.18
Date of Last Update:
February 27, 2012
Approved By:
· Senior Leadership Team

Responsible Office:
Business and Finance

POLICY STATEMENT
This document is designed to provide guidance to faculty and staff on University travel policies, regulations and procedures. These guidelines are in general terms and are not expected to cover every situation. For questions regarding policies, procedures or travel arrangements, call Procurement Services at 616-331-2280. For questions regarding travel and expense reimbursement, call the Accounting Office at 616-331-2203.

PROCEDURES
AUTHORIZATION
It is the responsibility of each prospective traveler to secure the appropriate approval for University travel from his/her supervisor, department head, dean, director or executive officer. Additional regulations may apply for travel associated with grant funding, especially for international travel. The following individuals would be eligible for reimbursement of
Each traveler is responsible for arranging his/her own travel schedule, booking reservations, and payment of expenses. Please contact the Procurement Services Department for information pertaining to the University's preferred travel agency. Call 616-331-2280 or email purchasing@gvsu.edu for assistance in booking air and/or ground transportation, hotel accommodations, car/van rentals or bus charters.

To request charges direct billed to the University, the following information must be given to the travel agency: guest name, dates of travel, hotel reservation, car rental, University host/arranger’s name, department name, account number, and phone number. Upon receipt of invoices from the travel/hotel/car rental agency, the Accounting Office will send a copy to the department for verification of the direct-billed charges and authorized signature for payment approval. The approved invoice copy must be returned to the Accounting Department promptly.

CHARGING TRAVEL EXPENSES

University faculty and staff may charge all business travel and entertainment expenses to an existing personal credit card or they may obtain a Fifth Third MasterCard through the Human Resources office. This is a personal credit card, and there is no annual fee to participate in this program. Call the Human Resources office at 616-331-2215 for an application or for additional information.

It is important to note that individual cardholders are personally liable for all charges on their Fifth Third MasterCard charge card. A monthly statement of charges will be sent to the cardholder, who is solely responsible for full and timely payment of all charges. Requests for eligible travel reimbursement should be made soon after completion of the trip and need not wait for receipt of the credit card statement. Refer to the expense reimbursements section for reimbursement of airline tickets purchased far in advance of trip.

EXPENSE REIMBURSEMENTS

The following individuals are eligible for reimbursement of reasonable expenses while traveling for University-related purposes:

- University Board of Trustees, faculty and staff employees.
- Non-employee guests invited to the University for lectures, consulting, interviews, recruiting, and other special occasions, or those requested to travel for the University as specified in a contractual arrangement or approved by the appropriate executive officer.

Refer to the Travel & Expense Guidelines for the current reimbursement schedule.

TRANSPORTATION

A. Commercial Airlines

1. Airfare must be booked at lowest economy or coach class unless the traveler certifies on the travel and expense form that such classes were not available. The passenger’s ticket coupon/receipt or e-ticket itinerary must be submitted when reconciling expenses. If a credit card statement for airfare is due before the trip has been completed, the University will reimburse that expense to the traveler when requested on the travel and expense form.
2. The University will permit the benefits of airline frequent flyer programs derived from travel paid for by the University to accrue to the traveler. However, travelers are encouraged to apply these benefits toward future University travel.

B. Charter Air Service – Charter air service may be authorized when it is to the advantage of the University measured by comparative travel costs and the time constraints of the travelers.

C. Personal Aircraft – Air travel for University business on an aircraft owned/leased by employees is prohibited. All University air travel must be booked on regularly scheduled commercial airlines or a University chartered aircraft.

D. Public Transportation – Taxis, buses, subways, limousines, etc. are reimbursable at full fare for University business.

E. Rental Vehicles – The use of rental vehicles is limited to situations where commercial transportation is either not available or is impractical. Renting vehicles for use at out-of-state destinations is permitted if necessary to the purpose of the trip. The University will reimburse expenses for economy or midsize vehicles. Contact either the facilities services office or the University’s preferred travel agency for assistance with rental vehicles.

1. A major credit card is required as security at time the vehicle is picked up. The rental agreement form and receipt must accompany the Travel and Expense Form for reimbursement.
2. The University has discount agreements with several major rental agencies. Discount cards are available from the travel agency or the Procurement Services Office. Request the applicable discounted rate when reserving a vehicle. Some promotional specials may be more economical than the discounted rate; request the best rate available.
3. Refer to the insurance section regarding appropriate coverage.

F. Personal Vehicles

1. If an employee works primarily on campus and has a GVSU principal office assigned or principal place of business, the mileage reimbursement allowed will be calculated from their principal GVSU office or place of business. Employees involved in work or temporary assignments off campus (i.e. field supervision, teaching, TV broadcasting, etc.) will be allowed mileage reimbursement based on their distance from their GVSU campus principal office/place of business or from their home to the place of the work or temporary assignment, whichever is less. Mileage for travel between home and campus is personal commuting and is not reimbursable.
2. If an employee works primarily in the field off-campus, the mileage reimbursement allowed will be from either their home or an alternative location that is approved by the appointing officer. This approved location will be considered the point that mileage reimbursement will be calculated from.
3. Mileage within a campus location (Pew or Allendale, for example) is generally not reimbursable unless the employee is required to transport special equipment or tools to perform their duties and/or receives appointing officer approval.
4. Mileage between all campuses is permissible for reimbursement. Employees are encouraged to utilize the bus service between the Grand Rapids and Allendale campuses whenever possible rather than to request reimbursement.
5. Personal vehicles may be used in lieu of commercial airline travel. Mileage will be reimbursed at the established current rate but should cost the University no more than the commercial coach/economy airline fare. Similarly, transportation by bus, train, or other means will be reimbursed for actual cost but no more than the commercial coach/economy airline fare.
6. Expenses for gasoline, repairs, towing, etc. are included in mileage allowance. Expenses for parking, storage, tolls and ferries are reimbursable and limited to the actual amount paid. Parking fines and fees at University facilities are not reimbursable expenses. Any fine or charge for a violation of public policy (such as a speeding ticket, etc.) is not a reimbursable expense.

7. Refer to the Table of Standard Mileage for the current schedule and eligible reimbursements.

8. Any exception to the policies in F. Personal Vehicles requires approval by the Vice President of the respective division.

Meals
A. Reimbursement for individual meals will not exceed the maximum per diem allowance. Reimbursement for meals included in a conference or meeting fee is not allowed. Meals for employees involved in assignments off campus are allowable when deemed appropriate by their supervisor.

B. Meals including University guests are allowable at the actual cost, not to exceed the maximum per diem allowance. Reimbursement requests must include a receipt with the guest’s name, company name, and business purpose of the meeting.

C. Meals for University employee groups are reimbursable only with appropriate executive officer approval and documentation.

Lodging
Actual lodging expenses, as evidenced by an original receipt, are reimbursable. The maximum single rooms rate will be reimbursed when a University traveler shares lodging with a non-University person. Room service expenses are reimbursable in accordance with the per diem allowance. Reasonable expenses incurred for tips are reimbursable without receipt. The University’s travel agency has discount agreements with several properties. Contact the travel agency for assistance with lodging accommodations.

Conference Fees
Actual registration fees for conferences, seminars, etc. will be reimbursed as evidenced by a registration confirmation or paid receipt. Fees for non-business and/or spousal activities associated with the conference, such as golf or tour events, are not reimbursable. It is preferred that the conference registration be paid with the University’s purchasing card. Conference registrations may also be processed for payment by submitting an online Purchasing Requisition through Banner. A copy of the completed registration form (with the requisition number written on it) can then be sent to the Procurement Services Office in 201 LMH.

Miscellaneous Expenses
A. Telephone calls and telegrams made for business purposes are allowable and must be listed separately on the Travel and Expense Form. Dates, company names and names of persons called must be identified.

B. Reasonable expenses incurred for handling, storage and checking of baggage are allowed.

C. Personal expenses incurred for valet service, entertainment, personal phone calls, etc. will not be reimbursed.

D. Parking fees at University facilities are not reimbursable expenses.

Out-Of-Pocket Expenses
The Travel and Expense Form may also be used for reimbursement of non-travel related, out-of-pocket expenses up to $100. The form must include a description of the items to be reimbursed, FOAP, appropriate signatures, and the original receipt(s) must be included. Copies of personal checks are not acceptable as documentation for reimbursement.

EXPENSE RECONCILIATION
Travel and Expense Form
A. All reimbursement requests for travel expenses must be submitted on a Travel & Expense Form. The purpose and dates of the trip must be clearly stated. Submit the completed form and required receipts to the Accounting Office. Any unused travel advance funds must be returned with the completed Travel and Expense Form and required receipts to the Accounting Office or Cashier’s Office. Do not send cash in the mail.

B. University guests and other approved non-University employees should also use the Travel and Expense Form to request reimbursement of travel expenses. The completed form with “G” number (or for non-GVSU employees the Social Security number) must be approved by appropriate executive officer or as specified in a contractual arrangement.

Settlement Date
The Travel and Expense Form should be submitted at the earliest practical date after return from the trip, but within thirty (30) calendar days (fifteen for travel advances).

Required Receipts
Only actual business expenses incurred, supported by the required original receipts must be submitted for reimbursement. Any extenuating circumstances resulting in altered travel plans or unusual expenses must be clearly explained on the Travel and Expense Form. Any questionable claims, non-compliant requests, or alterations of receipts may result in the form being returned to the traveler for explanation, deductions from the requested reimbursement amount, and/or approval by the appropriate executive officer.

Foreign Currency
Expenses must be expressed in U.S. dollars with the foreign exchange rates applied or currency difference identified where necessary. The Travel and Expense Form total must be stated in U.S. dollars. Refer to the Universal Currency Converter for assistance.

CANCELLED TRIP
A. If an approved trip is cancelled and a Travel Advance was issued, the original check or a personal check must be returned promptly to the Accounting Office for deposit.

B. Airline tickets already received are subject to airline/travel agency return regulations. When applicable, the credit will be issued to the party having made payment. Cancellation fees charged by the airline/travel agency are eligible for reimbursement. When reimbursement has already been received for the cancelled trip, the traveler must reconcile this credit promptly with the Accounting Office.

INSURANCE
University Vehicles
All University vehicles are insured for vehicle liability (including the statutory Michigan No Fault coverage) while being driven anywhere in the U.S. or Canada. Coverage is extended to anyone driving these vehicles with University permission.

Personal Vehicles
Employee personal vehicles are insured for vehicle liability while being driven on University business. This coverage is secondary to employee’s personal automobile insurance and is subject to specific deductibles.

Rental Vehicles
Rental vehicles are covered under the University’s liability policy. All terms and conditions of the vehicle rental agreement should be read and followed, particularly concerning authorized drivers. Violations of the agreement or driving regulations may render the University responsible for any damages. Use the following guidelines for insurance coverage when renting vehicles. Questions concerning insurance coverage should be directed to the Division of Legal, Compliance and Risk Management at 616-331-2067.

A. Decline the collision damage waiver insurance. The University provides coverage that eliminates liability for replacement at full retail value due to collision damage.
B. Decline the personal accident insurance if rental was booked by the University’s preferred travel agency and/or paid for using a University P-Card or the Fifth Third MasterCard offered through GVSU. Travel agency and corporate charge card program contracts automatically provide accident/medical and death benefits under personal insurance coverage.

C. Decline the personal effects insurance for University property. The University is insured for property in the vehicle. Personal property may be covered under your personal insurance; confirm with your insurance agent. Accepting the coverage for personal property is at your expense.

D. When vehicles are rented for University business travel, all rental contracts should be issued in the University’s name to avoid confusion concerning vehicle liability insurance.

ACCIDENTS AND EMERGENCIES

Accident Reports
In addition to those actions normally required in the event of an accident, the driver of any vehicle on University business should:

A. Report the accident to his/her supervisor. Accidents involving serious personal injury or vehicle damage should be reported to the department of public safety.

B. If driving a University vehicle, a M.U.S.I.C. Motor Vehicle Loss Report must be submitted. Call the Division of Legal, Compliance and Risk Management at 616-331-2067 for assistance.

C. When another vehicle is involved in the accident, obtain that driver’s insurance company name and address. Also obtain the names, addresses and license plate numbers of potential witnesses.

Reporting Illness or Emergency
In cases of serious illness, accident or emergency that occur while traveling on University business, the traveler should notify his/her supervisor. If the supervisor cannot be reached, contact the Human Resources Office.

It is the responsibility of traveler to inform his/her supervisor of address and phone number while traveling on University business. This is important should it become necessary to contact traveler in the event of an emergency.

UNIVERSITY DESIGNATED AND PLANT RESERVE FUNDS POLICY

SLT 6.19

Date of Last Update:
October 12, 2015

Approved By:

Senior Leadership Team

Responsible Office:
University Budgets

POLICY STATEMENT

To establish rules governing expenditures charged against University Designated and Plant Reserve funds.

PROCEDURES

Expenditures over $25,000 individually or in the aggregate for a single project requires authorization from an Executive Office or their designee.

Expenditures over $50,000 individually or in the aggregate for a single project must be reported to Budget Committee.

Expenditures over $250,000 individually or in the aggregate for a single project must be submitted by Budget Committee to the University President for authorization.

DEFINITIONS:

Funds held outside the normal General Fund operating budgets that reside in the Designated and Plant Reserve funds as identified by the appropriate Executive Officer. Expenditures that are governed by this policy are those that are charged against funds that begin with “15” or “94”

UNMANNED AIRCRAFT SYSTEM / DRONE POLICY

SLT 6.20

Date of Last Update:
August 26, 2019

Approved By:

Senior Leadership Team

Responsible Office:
Public Safety

POLICY STATEMENT

Operation of an Uncrewed Aircraft System (UAS) is prohibited over University Property by students, employees, vendors, contractors and other members of the public except with prior written approval from the Vice President for Finance and Administration of the University. Permission to operate a UAS over University Property will only be granted to University departments needing to operate a UAS for the benefit of the University. Operation of Model Aircraft is not permitted over University Property.

Purchasing of UAS also requires prior written approval from the Vice President for Finance and Administration. Potential purchasers may be employees, students or departments using University funds being disbursed through a University account, including grant funds.
PROCEDURES

Consideration will only be given for purchasing and/or operating a UAS if the written request to the Department of Public Safety includes all of the following:

1. exact dates and times of intended operation;
2. campus location and intended flight path;
3. the University purpose for the use of the UAS;
4. a current 333 exemption or Certificate of Waiver or Authorization (COA) or a Remote Pilot Certificate issued by the Federal Aviation Administration (FAA) or documentation verifying that the individual operating the UAS is fully authorized by the FAA to do so;
5. a photograph of the UAS with registration numbers attached or provision of FAA paperwork that identifies the registration numbers of the UAS being operated on the campus;
6. The Vice President for Finance and Administration will submit written approval for the purchase and/or operation of a UAS to the Department of Public Safety.

Operation of UAS on University property is to be done in accordance with only part 107 of the FAA rules for certified remote pilots and commercial operators. All rules of part 107 apply to operation on University property with the exception of prohibited external load and transportation of property for compensation or hire. Only the Vice President for Finance and Administration may waive any of the part 107 rules.

In operating a UAS for purposes of recording or transmitting visual images, operators must take all reasonable measures to avoid intrusions into areas normally considered private.

All uses of UAS must comply with the following:

1. UAS must not be used to monitor or record areas where there is a reasonable expectation of privacy in accordance with accepted social norms. These areas include but are not limited to restrooms, locker rooms, individual living center rooms, changing or dressing rooms, health treatment rooms, daycare facilities and classrooms during periods of instruction. UAS may not fly closer than thirty (30) feet outside a window of any university building.
2. UAS may not be used to monitor or record institutional or personal information, which may be found in an individual’s workspace, on computers or on other electronic devices.
3. UAS may not be used inside of any University building without prior permission given by an Executive Officer of the University.

Enforcement of Complaints

Any violations of this policy will be dealt with in accordance with applicable University procedures which may include disciplinary actions and where appropriate, legal action. All complaints concerning the operation of UAS over University Property should be referred to the Department of Public Safety. Users will also be subject to applicable Federal and State laws.

Any FAA fines incurred by individuals or departments will be the responsibility of the individuals involved.

DEFINITIONS:

For purposes of this Policy, these terms should have the following meaning:

University Property – Buildings, grounds and land owned or controlled by the University.

Uncrewed Aircraft Systems (UAS) – UAS are also known as or may be characterized as unmanned aircraft systems or Drone.

According to the FAA, a UAS is the Uncrewed aircraft and all of the associated support equipment, control station, data links, telemetry, communications and navigation equipment, etc., necessary to operate the Uncrewed aircraft. UAS may have a variety of names including but not limited to quadcopter and quadrotor, FAA regulation applies to UAS regardless of size or weight. Model aircraft are not considered by the FAA as UAS and have different regulations.

COA – Certificate of Authorization or Waiver. The COA is an authorization issued by the FAA to a public operator for a specific UAS activity. After a complete application is submitted, FAA conducts a comprehensive operational and technical review. If necessary, provisions or limitations may be imposed as part of the approval to ensure the UAS can operate safely with other airspace users. In most cases, FAA will provide a formal response within 60 days from the time a completed application is submitted.

333 Exemption – FAA exemption based on Section 333 of the FAA Modernization and Reform Act of 2012 (FMRA) which grants the Secretary of Transportation the authority to determine whether an airworthiness certificate is required for a UAS to operate safely in the National Airspace System.

Remote Pilot Certificate – Certificate of authorization issued by the FAA to public operator for commercial operation of UAS activity of a craft under 55 lbs. in weight.

*It is the University’s practice is to use gender-inclusive terms in its policies, however, this term is used for consistency with federal regulations.

LAKER STORE POLICY

SLT 6.21

Date of Last Update:
October 20, 2015

Approved By:

Senior Leadership Team

Responsible Office:

GVSU Laker Store

POLICY STATEMENT

GVSU Laker Store is dedicated to serving the students of Grand Valley State University with resources, which enhance the University’s mission and image.

PROCEDURES
Textbook Locations

**GVSU Laker Store - Allendale** carries the textbooks and supplies required for classes taught on the Allendale campus and for those taught in Holland and other “satellite” locations across the state. These are available online at [http://lakerstore.gvsu.edu](http://lakerstore.gvsu.edu) or by calling toll free at 866-299-0001.

**GVSU Laker Store – Robert C. Pew Grand Rapids Campus** carries the textbook and supplies for classes taught in Grand Rapids, including those at the Cook-DeVos Center for Health Sciences.

Other Merchandise

Both store locations offer a selection of GVSU imprinted clothing and gifts, greeting cards, leisure reading books, school supplies, and a full line of computers and accessories, including Apple products. The leisure reading department includes a faculty book section. Faculty who publish are encouraged to notify the GVSU Laker Store staff, and we will add the title to our inventory.

Discounts, Sales and Promotions

GVSU Laker Store attempts to maintain pricing policies that are reasonable, fair and consistent. As a result, the same pricing is made available to students, faculty and staff. Sales and promotions are announced in advance on the GVSU Laker Store website and the University bulletin board, in addition to fliers and posters across campus. The same promotions are made available at both store locations.

Merchandise Returns Policies

Textbooks may be returned for a full refund through the first week of classes with a valid receipt. Specific deadlines are announced each semester. Other merchandise can generally be returned within a reasonable period when accompanied by a valid receipt. Merchandise, other than textbooks, will be accepted for an exchange when no receipt is presented.

Refunds for purchases paid with cash or check will be refunded in cash, while returns for credit card purchases will be credited to the card.

Book Sell Back

GVSU Laker Store conducts a daily textbook sell-back at both store locations. Generally, sellback values increase near the end of each semester, and the majority of students sell their books during final exam week. Books that will be used at GVSU in the coming semester are purchased by the bookstore at 50% of the new book retail price until store quotas are met. Books that are not being used at GVSU may be purchased at 5-30% of retail price as long as they are current editions.

Textbook Orders

To insure the arrival of textbooks for the start of classes and to offer students an opportunity to sell their books at the end of the term, it is requested that faculty submit textbook orders by published deadlines. Textbook orders need to be in the bookstore by October 25 for winter semester, by February 25 for spring-summer semester, and by March 25 for fall semester. Requisitions may be submitted on-line in the faculty access section of the bookstore's website at [http://lakerstore.gvsu.edu/](http://lakerstore.gvsu.edu/).

For access information, please consult your department coordinator. When submitting a requisition, please provide accurate ISBN information to insure that the correct book is ordered. GVSU Laker Store staff also appreciate notification that “no books are required” for a class when appropriate.

Coursepacks

Faculty may choose to create coursepacks for sale through the bookstore. This may be done by working with a custom publisher, which manages copyright clearances and copying, or through the University’s Copy Center. In the latter case, faculty must perform copyright clearances themselves. Letters from publishers authorizing copying of materials, together with a complete and final version of the coursepack, should be forwarded to the appropriate bookstore location well in advance before the start of the semester. The textbook manager will arrange for copying, return the original to the faculty member, and place coursepacks on the shelf in time for the start of the semester.

Desk Copy Loans

Publishers will not honor requests for desk copy loans from bookstore personnel, so such requests should be made directly to the publisher. Faculty requiring a desk copy of an adopted textbook should contact their publisher representative for additional information.

**CONFERENCE AND EVENT PLANNING POLICY**

SLT 6.22

**Date of Last Update:**
February 19, 2020

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
Conference Planning & Hospitality Services

**POLICY STATEMENT**

It is the policy of Grand Valley State University that certain spaces and rooms be scheduled on a coordinated basis through the Conference and Event Planning Department. Room rental and event scheduling on the Pew Campus, Health Campus, and Regional Centers, and at the Alumni House, will be managed by the Conference and Event Planning Department. Additional information and procedures may be found on the Conference and Event Planning Department website.

**WEAPONS POLICY**

SLT 6.27

**Date of Last Update:**
May 22, 2017

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
Public Safety

**POLICY STATEMENT**
The University is committed to maintaining a safe environment in which students, faculty, staff, and visitors are free to learn, live, work and visit the University campus or a facility without fear of violence. To carry out this mission, the University prohibits the use or possession of firearms, weapons, electrical devices, and explosives on its property, except as provided in this policy.

A person shall not possess any firearm or weapon anywhere upon property governed by the University, except University Police Officers and other legally established law enforcement officers acting in the course of and scope of employment, and except for use in authorized University construction-related activities.

A "weapon" shall include but is not limited to:

1. any firearm,
2. any device from which an electrical current, impulse, wave, or beam may be directed that is designed to incapacitate temporarily, injure or kill,
3. any other instrument or device of any kind that operates based on spring, gas or air, contains explosive materials, or
4. any instrument or device, such as a knife, that has a sharp blade greater than three inches.

A person shall not use any firearm, gun, weapon, chemical, biological, radioactive, or other dangerous substance or compound to injure, molest, or coerce another, anywhere upon property governed by the University, except for a self-defense spray or foam for protection of a person or property under the circumstances that would justify the person’s use of physical force.

Additionally, a person shall not use or possess fireworks (unless approved in advance by a Vice President for use at a University event), explosives, toxic or dangerous chemicals; other lethal weapons, equipment, chemicals or materials are prohibited anywhere upon property governed by the University.

Questions about weapons should be directed to the University Department of Public Safety.

CRISIS COMMUNICATION PLAN

SLT 7.1

Date of Last Update:
September 15, 2014

Approved By:
Senior Leadership Team

Responsible Office:
University Communications

POLICY

The audience for this plan includes all students, faculty, staff, alumni, parents, trustees, the Grand Valley Foundation, and the general public.

POLICY STATEMENT

The purpose of this communication plan is to set guidelines to be followed for sharing information with executive officers, faculty, staff and students, as well as the general public. This includes both emergency and non-emergency communications. The plan is coordinated with the Comprehensive Emergency Management Plan (CEMP) administered by the Emergency Coordinator.

Executive Summary

- The Vice President for University Relations shall serve as the crisis communication director along with another cabinet member. In a physical emergency, that second executive officer will be the Vice President for Finance and Administration. In a public relations issue, the second executive officer will be determined by the issue.
- The Associate Vice President for University Communications, Chief of Police, Dean of Students, Vice President for Enrollment Development, and the Associate Vice President for Facilities shall be the crisis communication coordinators.
- Whenever a situation affecting the campus reaches proportions that cannot be handled by routine measures, the crisis communication coordinators shall notify the Vice President for University Relations.
- The crisis communication director communicates with the other executive officers and Board of Trustees.
- Each university administrator, upon being notified, is to provide applicable information to those persons under his/her direction as per the crisis notification system.
- Main and field crisis communication posts shall be established as required by the situation and shall be equipped with communications systems required to utilize resources.

Following the crisis, the crisis communication coordinators will gather all appropriate individuals for debriefing and review. Appropriate action will be determined.

PROCEDURES

TYPES OF COMMUNICATION

Emergency Notification:

An emergency is defined as a serious, unexpected, and often dangerous situation requiring immediate action. A university emergency is generally defined as any incident or event causing or potentially causing serious injury to persons, extensive property damage, loss of life, or disruption of university operations.

NOTE: The Comprehensive Emergency Management Plan can be found at http://gvsu.edu/s/0pC

If an Emergency Notification should be sent, GVPO or Pew Campus Security will write the initial notification message and send it using Grand Valley’s emergency notification system (RAVE). The crisis communication director, and the crisis communication coordinators will determine who else needs to be notified and the appropriate action and follow-up messages as it relates to each campus.

The Vice President for University Relations and the Associate Vice President for University Communications, or their designees, will write any subsequent message(s). A designated representative from University Communications will be responsible for distributing the alert using RAVE. University Communications will post messages on the university home page, GVNow and/or use the university’s social media outlets.

If a **Timely Warning** should be considered, GVPD or Pew Security will notify the crisis communication director and/or crisis communication coordinator(s). A Timely Warning is required if GVPD or Pew Security receives a report that a Clery crime has been committed on GVSU Clery geography and considers there to be a serious or continuing threat to students and employees. The content of a Timely Warning needs to include information that would promote safety and aid in the prevention of similar crimes and information about the crime that triggered the Timely Warning. The Vice President for University Relations and the Associate Vice President for University Communications, or their designees, will write the message(s). A designated representative from University Communications will be responsible for distributing the alert using RAVE. University Communications will post messages on the university home page, GVNow and the university’s social media outlets.

**SAFETY NOTICE FOR OFF-CAMPUS INCIDENTS**

Grand Valley may elect to issue a safety notice to members of the University when it is determined there is a reoccurring series of criminal activity, a disruption to operations, or when the Department of Public Safety determines that there may be a serious continuing or ongoing threat to the health or safety of off-campus students. When deemed necessary, the Department of Public Safety will notify the Vice President for University Relations or Associate Vice President for University Communications for dissemination.

**PUBLIC WEATHER INFORMATION**

If the weather poses an immediate threat to the campus community the Comprehensive Emergency Management Plan (CEMP) will be followed and communications made accordingly. When there is inclement weather that requires cancellation or closure, the GVSU Cancellation/Closure Policy shall be followed.

**REPORTING TO UNIVERSITY COMMUNICATIONS POTENTIAL REPUTATIONAL INCIDENTS OR CRINES**

Whenever an event or issue appears to have potential for becoming a controversial news story the Grand Valley staff or faculty member aware of the circumstance should immediately notify the unit head who has responsibility in the situation.

The unit head should immediately communicate all available information to the appropriate appointing officer/dean and/or executive officer, and the Associate Vice President for University Communications. University Communications should be notified regardless of the availability of the appointing officer/dean and/or executive officer.

**DEFINITIONS:**

**Crisis Communication Director:**
The Vice President for University Relations or designee will be responsible for supervising communications being released during and surrounding a crisis.

**Crisis Communication Coordinators:**
The Associate Vice President for University Communications, Chief of Police, Dean of Students, Vice President for Enrollment Development, and the Associate Vice President for Facilities shall be the crisis communication coordinators. It is the responsibility of these individuals to communicate with one another about the nature of the incident and then share the information with the appropriate personnel.

**IDENTITY STANDARDS POLICY**

**SLT 7.2**

**Date of Last Update:**
December 18, 2012

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Institutional Marketing

**POLICY STATEMENT**

To convey clear messages about Grand Valley, it’s important that University messaging is consistent in look and tone. In addition, Grand Valley’s logos are trademarked so it’s very important that they are used correctly. Institutional Marketing has created a standards guide to assist with consistency.

**PROCEDURES**

The address for the website containing the standards guide and other helpful information is [www.gvsu.edu/identity/](http://www.gvsu.edu/identity/). From this site, you can find logo dos and don’ts, download logos, determine word usage, read about GVSU’s marketing messages, and get help with publication, website, and advertising guidelines. Please contact 331-2525 for more information.

**MOTION PICTURE/VIDEO/FILM/DIGITAL IMAGING PRODUCTION ON THE CAMPUS**

**SLT 7.3**

**Date of Last Update:**
January 04, 2013

**Approved By:**
Senior Leadership Team

**Responsible Office:**
University Communications

**POLICY STATEMENT**

GVSU understands the importance of the film industry to the local economy and the benefit it can provide to our students interested in a career in film and film production. However,
film production on campus is permitted only if it does not interfere with normal University business and/or previously scheduled events. A Location Permit is required to film on campus. The Location Permit can be approved only when all of the appropriate procedures and requirements have been met. Use of any location can only be approved with the consent of the impacted University units or buildings and consideration of the impact on surrounding areas and activities. Scheduled University events, regardless of size, take precedence over film shoots in determining location availability.

PROCEDURES

Requests for Permits

Requestors for a Location Permit must complete the appropriate application. This application and complete script (if applicable) shall be submitted to University Communications. Upon receipt, the completed application and script will be forwarded to a core committee that will include a representation of affected units or buildings for review and project approval.

Fees & Costs

Location fees and operational costs will be charged and are based on a number of variables. The length of the shoot, locations involved, and types of GVSU services needed are all considered in determining the total operational costs. In certain limited instances fees and costs may be waived for uses such as public service announcements. Other forms of media may be subject to this fee and will be handled on a case-by-case basis.

Alterations to Premises

Production companies may not make any alterations to the University Premises (either temporary or permanent), including trimming, cutting or removing natural features such as trees and shrubs, without the express written approval of the University. Production companies will leave the University Premises and all property of any kind located therein in as good order and condition as they were immediately prior to production. Production companies will be responsible for paying for any expenses to restore the University’s Premises to its original condition.

Code of Conduct

While filming on our campus production companies and their employees are guests of the University and should treat this location and campus community with respect and courtesy. The production company, cast, crew and all others associated with the project are expected to comply fully with University Policies. They will be expected to adhere to the Filmmaker’s Code of Professional Responsibility, which is Attachment A to the Guidelines and Procedures for this policy.

University Identification and Appropriate Use of Campus Images

No identification of GVSU as a location is permitted, except in rare instances and only when the specific use is submitted for prior approval University Communications. The request will only be approved when it is deemed to be in the University’s best interests.

Identification includes but is not limited to trademarks, icons, recognizable University landmarks, and the use of merchandise containing trademarked images/logos (i.e. flags, apparel, posters, miscellaneous items containing logo, etc.). Identification also includes verbal references on film.

Filming and Athletics

Under no circumstances is the production company to film or use any information images/names/biographical information pertaining to any current university intercollegiate athlete for any purpose. Appearing in a commercial production that identifies them as university intercollegiate athletes will jeopardize their NCAA eligibility.

Cancellation

If written notice of cancellation for an approved location permit is received before the production begins, then the production is liable for any actual costs incurred by the University as of the receipt of the cancellation notice. University shall have the right of cancellation if the Agreement holder is deemed insolvent or, in the University's sole opinion, shall fail to perform any material term in the Agreement after having received written notice from the University to do so.

Exceptions to Policy

Student projects are subject to School of Communication requirements and procedures and do not require a permit. Incidental filming that includes uses such as: filming for non-commercial or internal use, class projects, or personal use. This filming requires no special services and does not in any way disrupt the normal functioning of the University. This filming cannot be used for commercial purposes after the fact without written permission from Grand Valley State University.

PUBLICATIONS AND ADVERTISING

SLT 7.4

Date of Last Update:
October 18, 2012

Approved By:
  • Senior Leadership Team

Responsible Office:
Institutional Marketing

POLICY STATEMENT

Institutional Marketing manages, designs, and produces a full range of publications and visual materials, including recruitment materials, course catalog, programs, brochures, posters, postcards, banners, and invitations. Advertising is also designed and produced in the Office of Institutional Marketing for the purposes of university image/awareness and recruitment. If not produced by Institutional Marketing, all publications and ads should be approved by Institutional Marketing before publication. Logo, design, and copy standards can be found at http://www.gvsu.edu/identity

PROCEDURES

Because of the high demand for print pieces, the following priorities have been set for pieces to be produced by Institutional Marketing:

  1. The Office of the President
  2. Publications used by academic services in student recruiting
WEB POLICIES FOR ACADEMIC AND ADMINISTRATIVE UNITS

SLT 7.5

Date of Last Update:
December 18, 2012

Approved By:
- Senior Leadership Team

Responsible Office:
Institutional Marketing

POLICY STATEMENT

All GVSU units are required to maintain their webpages on the university’s domain [www.gvsu.edu](http://www.gvsu.edu) and use the university’s content management system unless authorized by Institutional Marketing. All GVSU organizations, whether on the gvsu.edu domain or authorized to maintain their own servers and publish pages under domains other than [www.gvsu.edu](http://www.gvsu.edu), are equally responsible for adhering to GVSU Web standards.

The purpose of website design standards is to:
- Reinforce GVSU’s identity
- Meet the needs of the constituencies Grand Valley serves
- Provide continuity in website appearance
- Protect and regulate the use of proprietary GVSU names, logo marks, word marks, and graphic devices
- Keep content current
- Faithfully represent GVSU to the public

Web standards can be found at [http://www.gvsu.edu/identity](http://www.gvsu.edu/identity)

ALUMNI HOUSE POLICY FOR FACULTY/STAFF

SLT 8.1

Date of Last Update:
January 03, 2013

Approved By:
- Senior Leadership Team

Responsible Office:
Alumni Relations

POLICY

The Alumni House is available for use by departments of the University. However, the reservation must be made by a faculty or staff member. Faculty and staff members that wish to use the Alumni House for a personal event may do so; all room rentals and additional charges will apply.

POLICY STATEMENT

General

The applicant undertakes to observe all rules and directions, which are imposed by GVSU and the Alumni Relations Office generally, or specifically, in respect to the space which is being used.

The room rental fee will be waived for University-sponsored events providing all additional charges (i.e. catering, equipment, a/v, etc.) are paid by a University account number.

Inform the Event Coordinator if there will be any distinguished or special guests attending the event.

Reservations

Reservations for University events must be made by a University employee. All reservations are to be arranged with the Event Coordinator at (616) 331-3590.

When the Event Coordinator approves the reservation request, he/she will send the primary contact a confirmation of the event with all event details submitted in the reservation form.

Reservations will be made according to the event time specified on the request form. The Event Coordinator will add to your reservation two hours before event start and one hour after event end time for any necessary setup and/or cleanup you may require; contact the Event Coordinator if you require more time

Food and Beverage

For events that involve the service of prepared food and drink, you must use the University’s catering service (Classic Fare Catering).
If you will use the University catering service for your event, please arrange your menu selections with the Event Coordinator by the deadlines described on the event confirmation.

For events involving the service of alcohol, you must agree to abide by all Michigan Liquor Control Commission rules and regulations involved in the service of alcohol in addition to those established by the University. Final alcohol selections must be given to the Event Coordinator at least two weeks prior to the event to ensure the availability of requested menu items. No changes/additions will be accepted after the deadline.

A final guest count must be given to the Event Coordinator at least three (3) business days prior to the event. If a final guest count is not received three business days prior to the event, the food service provider will consider the last communicated guest count to be the final guest count. The final bill will be based on the final guest count given or actual number served, whichever is higher.

Please contact the Event Coordinator at (616) 331-3590 for information on hosting a non-University sponsored event.

Minimum charges may be applicable for food and bar service.

Outside food and drink are not allowed in the Alumni House.

Food and drink from the Alumni House, partial or whole, are not to leave the premises by state law.

No event may exceed 12:00 midnight, and alcohol service will be discontinued at 11:30 pm.

Set-up and Special Requests

The Perry Dining Room has a standard furniture set-up; additional furnishings or the rearrangement of existing furnishings may result in additional expenses. Set-up requests must be made in advance with the Event Coordinator and must be finalized five (5) business days before the event date. Changes to the set-up after this deadline may incur an additional charge.

Contact the Event Coordinator to order additional equipment, audiovisual equipment, and any other special requests at least five (5) business days before the event.

Cancellation

The Event Coordinator encourages a five (5) business day notice for event cancellations. Special cases will be handled on a case-by-case basis.

You may cancel your event up to three (3) business days prior to the scheduled time of the event at no charge. Events cancelled with less than three (3) business days’ notice will be billed for costs incurred, up to 100% of the total bill.

Late charges will occur when catered events are planned less than three (3) business days in advance. These charges will be 10% of the total cost of the event with a minimum of $10.00.

Release of Alumni Contact Information

We do not release contact information to the general public from our alumni database. At this time, individuals searching for alumni do so by filling out a form online that is forwarded to University alum via postal mail.

ENDOWMENT MATCH POLICY

SLT 8.2

Date of Last Update:
November 01, 2019

Approved By:
Senior Leadership Team

Responsible Office:
University Development

POLICY STATEMENT

To provide additional incentive for employees to support endowments the University provides a match equal to the amount of the employee’s gift up to $25,000. Gifts are defined as outright gifts, payments and sustainer payments. Gifts are matched the same year upon actual receipt of cash or similar monetary instruments.

PROCEDURES

The following criteria are to be followed:

Only contributions to named endowments will qualify for matching funds.

Current and retired faculty and staff and their spouse’s contributions will be eligible for match. This definition excludes adjunct faculty and staff.

The available funds for matching will be limited to current year earnings of unrestricted endowed funds and undistributed interest earnings. Use of the general fund for employee gift matching is not permitted. If contributions eligible for match exceed available funding, the match will need to be reduced by an appropriate percentage for all gifts.

The match on one single gift is limited up to $25,000 per donor per year of the gift. Matching gifts over $25,000 requires a recommendation from the President and approval by the Chair of the Board of Trustee’s Finance and Audit Committee in consultation with the Vice President for Finance and Administration regarding funding availability.

The eligible contributions that are received during the calendar year will be matched in the following February. Any eligible gifts received after December 31st will be matched the following February.
FUNDRAISING POLICY

SLT 8.3

Date of Last Update:
December 08, 2014

Approved By:
- Senior Leadership Team

Responsible Office:
University Development

POLICY STATEMENT

University Development helps Grand Valley State University fulfill its mission and realize its aspirations in three ways: (1) securing, stewarding and increasing financial support; (2) building meaningful partnerships with external and internal constituents; and (3) communicating the university’s character, quality, priorities and goals.

Accordingly, University Development must strive at all times to ensure that its policies and procedures and those of the university are in compliance with local, state and federal regulations in regard to the solicitation and acceptance of gifts. Any deviation from the Internal Revenue Code could result in fines, public embarrassment and/or the loss of the University’s tax-exempt status.

For these and many other reasons, all fundraising requests made in the name of the University must be approved in advance by the Vice President for Development. In addition, only the Vice President for Development or their designee is empowered to issue the University’s official receipt that qualifies a donor’s charitable contribution as deductible for tax purposes.

Any fundraising activity that employs the name, image or reputation of the University, in an effort to secure financial gifts will be considered fundraising in the name of the University and is subject to this policy. In the area of “sponsored research”, University Development may work with the Office of Sponsored Research to determine the most appropriate fit for the project.

Any potential fundraising activities on behalf of an University program or initiative must first be approved by the appropriate dean and/or the divisional vice president before a request for assistance is directed to University Development. In all decisions related to funding, the priorities of the University, as approved by the Board of Trustees, shall guide the decision making process.

University Development will not share lists of donors or other constituents with individuals and organizations not affiliated with approved university fundraising activities.

This policy shall apply to any and all members of the University community, as well as to any other individuals or organizations who may represent themselves as members of the University community or who claim to be acting on behalf of the University. This policy does not apply to members of the University community when they are engaged in fundraising activities for other organizations and/or when they have explicitly stated that their fundraising activities are unrelated to the university.

Today’s donors have more outlets for their philanthropic desires than ever before. As competition for the philanthropic dollar has increased, donors now receive numerous appeals from multiple non-profit organizations. Consequently they are likely to become annoyed by multiple requests from the same organization. To ignore this is to risk reduced support, an outright refusal, or perhaps even permanent discontinuation of support.

Grand Valley State University can be at the forefront of a donor’s choice if we are clear in our intent, focused on the university’s highest priorities, and present exciting opportunities for support. Coordination of university-wide fundraising activities is imperative.

Prohibited Activities

- Use of home addresses from the university telephone directory to compile calling or mailing lists.
- Use of the Grand Valley State University Alumni Directory to compile calling or mailing lists.
- Using one’s status as a Grand Valley State University employee or student to secure a gift commitment unless specifically authorized to do so.
- Using “mass e-mails” on the campus intranet system to solicit gifts unless specifically authorized to do so by University Development.
- Conducting lotteries or similar games of chance, which the State of Michigan defines as gambling. Raffles may be conducted with prior approval from the Office of Student Life.

For procedures and protocols implementing this policy please contact the Development Office.

GIFT ACCEPTANCE AND DISPOSITION POLICY

SLT 8.4

Date of Last Update:
July 31, 2008

Approved By:
- Senior Leadership Team

Responsible Office:
University Development

POLICY STATEMENT

This policy is established to govern the acceptance and disposition of all gifts made to Grand Valley State University, whether such gifts are inter vivos (lifetime) or from estates, other than gifts of: (1) cash or (2) publicly traded equities traded on national exchanges. The Vice President for Development in advance of acceptance must approve all such gifts, which fall under this policy.

Gifts subject to this policy will be considered in four categories:

1. Tangible personal property
2. Real property
3. Life insurance
4. Other assets

The latter category includes, but is not limited to: promissory notes, assignments of promissory notes, partnership interests, and restricted or non-publicly traded securities. The criteria for acceptance, the acceptance/approval process, and the disposition policy (where relevant) for each category are set forth below.

**PROCEDURES**

1. **Tangible personal property**

   **A. Criteria for acceptance**
   Gifts of tangible personal property, including but not limited to works of art, manuscripts, literary works, boats, motor vehicles, and computer hardware, may be accepted only after thorough review indicates that the property is (1) readily marketable or (2) needed by the University for use in a manner that is related to one of the purposes for which the University was granted; that is, for education, research, or a combination of both.

   **B. Approval/acceptance process**
   A Development Officer or other appropriate gift officer will prepare a written summary of the gift proposal and submit that summary to the Assistant Vice President for Development Services. At a minimum, the summary shall include the following information:
   - Description of the asset
   - The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
   - An estimate or appraisal of the gift's fair market value and marketability
   - Any potential University use and, if so, written review by the department to benefit from the asset
   - Any special arrangements requested by the donor concerning disposition (e.g., price considerations, time durations prior to disposition, potential buyers, etc.)

   The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, of necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the University’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

   If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of tangible personal property, the Development Officer will acknowledge receipt of the gift on behalf of the University. The University will not appraise or assign a value to the gift property. It is the donor’s responsibility to establish a value for the gift and provide, at the donor’s expense, a qualified appraisal required by the IRS in the case of gifts of tangible personal property valued in excess of $1,500.

   The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance acceptable to the University, and the delivery of the property, as applicable. The donor will pay all costs associated with the conveyance of the gift. In addition, the filing of Form 8283 by the donor is required by the IRS for gifts of tangible personal property valued at more than $500. The donor should send this form to the Gift Assistant for execution.

   **C. Disposition**
   Upon approval of a proposed gift of tangible personal property by the Vice President for Development, he/she will assign a University office the responsibility for disposing of the gift, unless the gift is intended for a specific University purpose, in which case no immediate disposition is necessary. Any guidelines on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the university office responsible for disposing of the gift.

   Upon approval of a proposed gift, the Vice President for Business and Finance or his/her designee will identify a Fund and Organization Code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, a development code will be used as a holding account.

   Until the property is sold or otherwise disposed of, the university office responsible for disposing of the gift will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.

   The Vice President for Development must be consulted before a gift of tangible personal property may be sold for less than appraised value, estimated fair market value, or guidelines imposed by University Development in approving the gift, as the case may be. If in the judgment of the person responsible for disposing of the gift, a current appraisal of the property would assist in disposing of the property, the person responsible for disposing of the gift may request permission to have the appraisal performed.

   Upon sale of the property, the office responsible for disposing of the gift will prepare a final report on the property, including a financial summary of net proceeds to the extent known, and distribute it to the Vice President for Development, the Vice President does Business and Finance or his/her designee, and the designated representative of the department to benefit from the gift.

2. **Real Property**

   The University will consider gifts of real property, both improved and unimproved (e.g., detached single-family residences, condominiums, apartment buildings, rental property, commercial property, farms, acreage, etc.), including gifts subject to a retained life estate, only after a thorough review of the criteria for acceptance set forth below under the direction and supervision of the Vice President for Business and Finance or his/her designee. All gifts of real property shall be subject to terms and conditions as set forth in the Grand Valley State University Policy for Accepting Gifts of Real Estate.

   **A. Criteria for Acceptance**

   **i. Market Value and Marketability:** The Vice President for Business and Finance or his/her designee must receive a reasonably current appraisal of the fair market value of the property and interest in the property the University would receive if the proposed gift is approved. Development Officers must understand and communicate to donors that it is the University’s policy to dispose of all gifts of real estate (other than property which the University wishes to retain) as expeditiously as possible.

   Thus, regardless of the value placed on the property by the donor’s appraisal, the University will attempt to sell at a reasonable price in light of current market conditions, and the donor needs to be informed that any such sale occurring within two years of the date of gift will be reported to the IRS on Form 8283.

   **ii. Potential Environmental Risks:** All proposed gifts of real property, including gifts from estates, must be accompanied by a Phase I environmental audit performed at the donor’s expense. The only permitted exception to this requirement is for residential property, which has been used solely for residential purposes for a significant (at least twenty year) period of time. In cases where this exception applies and no environmental audit is undertaken, the donor/executor must have an outside party complete an Environmental Checklist prepared by the Vice President for Business and Finance or his/her designee and may be required to execute an environmental indemnity agreement. Even in cases where a Phase I audit is submitted, the Vice President for Business and Finance or his/her designee may require that the donor sign an environmental indemnity agreement.

   **iii. Limitations and Encumbrance:** The existence of any and all mortgages, deeds of trust, restrictions, reservations, easements, mechanic liens and other limitations of record must be disclosed. No gift of an interest in real estate will be accepted until all mortgages, deeds of trust, liens and other encumbrances have been discharged, except in very unusual cases where the fair market value of the University’s interest in the property net of all encumbrances is substantial or where a separate agreement...
to pay such encumbrances which might be charges to the University has been executed by a financially responsible party.

**Carrying Costs:** The existence and amount of any carrying costs, including but not limited to property owners’ association dues, country club membership dues and transfer charges, taxes and insurance, must be disclosed.

iv. **Title Information:** A copy of any title information in the possession of the donor, such as the most recent survey of the property, a title insurance policy, and/or and attorney’s title opinion, must be furnished.

**B. Approval/Acceptance Process**

The Development Office, with the assistance of the Vice President for Business and Finance or his/her designee, will prepare a written summary of the gift proposal and submit that summary to the Vice President for Development. At a minimum, the summary shall include the following information:

- **Description of real property**
- **The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift**
- **An appraisal of the properties and, if different, the University’s interest in the property’s fair market value and marketability**
- **The result of a title search**
- **Any potential for income and expenses, encumbrances, and carry costs prior to disposition**
- **Any environmental risks or problems revealed by audit or survey**
- **Any potential University use**
- **Any special arrangements requested by the donor concerning disposition (e.g., price consideration, time durations prior to disposition, potential buyers, realtors or brokers with whom the donor would like the University to list the property, etc.)**

The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as of whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the University’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of real property, the Development Officer will acknowledge receipt of the gift on behalf of the University upon notice by the Vice President for Business and Finance or his/her designee that the property has been properly recorded in the local Registry of Deeds. The University will not appraise or assign a value to the gift property. It is the donor’s responsibility to establish a value for the gift and to provide, at the donor’s expense, a qualified appraisal required by the IRS.

The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance. The costs associated with the conveyance and delivery of the gift, including but not limited to recording fees and, if deemed necessary by the Vice President for Business and Finance or his/her designee, a current survey, title insurance and/or attorney’s title opinion, will be either paid by the donor or charged to the fund code of the department(s), program(s), or endowment(s) to benefit by the donation. In addition, the IRS for gifts of real property requires the filing of Form 8283 by the donor. The donor should send this form to the Vice President for Business and Finance or his/her designee for execution.

**C. Disposition**

It is the responsibility of the Vice President for Business and Finance or his/her designee to dispose of all gifts of real property. Any guidelines the Vice President for Business and Finance or his/her designee wishes to impose on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the Vice President for Development.

If the Vice President for Business and Finance or his/her designee determines that it is in the best interests of the University to retain for its own use a gift of real property, it will be recommended to the appropriate officers of the University and to the Board of Trustees that the University purchase the property and that, in all other cases they authorize liquidation of such funds for the benefit of the designated gift purpose.

Upon acceptance of a gift, the Vice President for Business and Finance or his/her designee will designate a code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, the code will be used as a holding account. Until the property is sold or otherwise disposed of, the Vice President for Business and Finance or his/her designee will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.

Upon sale of the property, the Vice President for Business and Finance or his/her designee will prepare a final report on the property, including a financial summary of net proceeds, and distribute it to the Vice President for Development and the designated representative of the department to benefit from the gift.

The Vice President for Business and Finance or his/her designee of responsible for filing Form 8283 for gifts of real property sold by the University within two years of the date of gift.

The Vice President for Business and Finance or his/her designee of responsible for filing Form 8283 for gifts of real property sold by the University within two years of the date of gift.

**3. Life Insurance**

**A. Criteria for Acceptance**

With approval of the Vice President for Development, the University will accept gifts of life insurance policies that meet the following two criteria:

The policy is a life insurance policy which is either paid-up or, if not paid-up as of the date of gift:

- **Has a minimum face value of $10,000**
- **Has a payment schedule not to exceed ten years and which assumes an interest rate not to exceed two percent below prime interest rate as of the effective date of the policy**
- **Requires charitable contributions from the donor to the University in the amount of any premiums, including unscheduled premiums, which may become due.**

Grand Valley State University is designated as the owner and beneficiary of the policy. If intended for endowment purposes, the face value of the policy meets the minimum funding standards for endowments established by the Board of Trustees.

**B. Approval/Acceptance Process**

The Development Officer will prepare a written summary of any proposed gift of a life insurance policy, which fails to meet all of the criteria specified in the section above and submit that summary through the University’s Director of Planned & Endowed Giving or his/her designee. At a minimum, the summary shall include the following information:

- **Description of the type of life insurance policy, face value, premium payment schedule, interest rate, age of insured(s), and other relevant policy information**
- **The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift**

The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as
of whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or
the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the
University’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to
acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of a life insurance policy, the assigned Development Officer will
acknowledge receipt of the gift on behalf of the University.

The gift will be completed upon the execution of the life insurance policy to the University or an assignment of the policy in the event that the University is not the
original owner of the policy.

C. Administration
The Office of University Development shall administer all gifts of life insurance policies and shall maintain records of all donor policies, contribution schedules, donor
designations of death benefits, and the like. The University’s Director of Planned & Endowed Giving or his/her designee shall be responsible for pledge reminders and
monitoring payments of premiums.

The Vice President for Business and Finance or his/her designee shall be responsible for confirming the existence and cash value of all policies in force at least annually and for
collecting and distributing death benefits. Upon receipt of death benefits, the Vice President for Business and Finance or his/her designee shall provide notice to the
department(s), program(s), or endowment(s) to benefit from the gift.

4. Other Assets
Other assets include but are not limited to: promissory notes, assignments of promissory notes, partnership interests, and restricted or non-publicly traded securities.

A. Criteria for Acceptance
The University will consider gifts of other assets, including but not limited to promissory notes, assignment of promissory notes, partnership interests and restricted or
non-publicly traded securities, only after a thorough review of the criteria set forth below.

i. Market Value and Marketability: The University must receive a reasonably current appraisal of the fair market value of the property and interest in the property the
University would receive if the proposed gift is approved. Development Officers will inform the donor that, if the gift is completed, the IRS will require an appraisal made
within sixty days of the date of gift. The appraisal and other information must indicate clearly and convincingly that there is in fact a market for the asset under
consideration and that the asset can be sold within a reasonable period of time.

ii. Potential Environmental Risks: All proposed gifts in which the University would acquire an interest in real property must be accompanied by a Phase I environmental
audit performed at the donor’s expense. The only permitted exception to this requirement is for residential property, which has been used solely for residential purposes
for a significant (at least twenty-year) period of time. In cases where this exception applies and no environmental audit is undertaken, the donor must have an agent
complete an Environmental Checklist prepared by the Vice President for Business and Finance or his/her designee and may be required to execute and environmental
indemnity agreement.

iii. Limitations and Encumbrances: The existence of any and all mortgages, deeds of trust, restrictions, reservations, easements, mechanic liens and other limitations of
record must be disclosed. No gift of an interest in real estate will be accepted until all mortgages, deeds of trust, liens and other encumbrances have been discharged,
except in very unusual cases where the fair market value of the University’s interest in the property net of all encumbrances which might be charged to the University had
been executed by a financially responsible party.

iv. Carrying Costs: The existence and amount of any carrying costs, including but not limited to property owners’ association dues, country club membership dues and
transfer charges, taxes and insurance, must be disclosed.

v. Title Information: A copy of any title information in the possession of the donor, such as the most recent survey of the property, a title insurance policy, and/or an
attorney’s title opinion, must be furnished.

B. Approval/Acceptance Process
The Development Officer will prepare a written summary of the gift proposal and submit that summary to the Vice President for Development and the Vice President for
Business and Finance. At a minimum, the summary shall include the following information:

- Description of the asset
- The purpose of the gift (e.g. to fund an endowed chair, a deferred gift, and unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
- An estimate or appraisal of the asset’s fair market value and marketability
- Potential for income and expenses, encumbrances, and carry costs prior to disposition
- Any environmental risks or problems revealed by audit or survey
- Credit history or financial statement of financially responsible party, if applicable
- Any special arrangements requested by the donor concerning disposition (e.g., price considerations, time durations prior to disposition, potential buyers, realtors or brokers
  with whom the donor would like the University to list the property, etc.)

The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as of
whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or
the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the
university’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to
acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of an asset in Category 4, the assigned Development Officer will
acknowledge receipt of the gift on behalf of the University. The university will not appraise or assign a value to the gift property. It is the donor’s responsibility to establish a
value for the gift and to provide, at the donor’s expense, a qualified appraisal required by the IRS in the case of assets valued in excess of $1,500.

The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance, and the delivery of the property, as applicable. The cost associated
with the conveyance will be paid by the donor upon delivery of the gift. In addition, the filing of Form 8283 by the donor is required by the IRS for gifts of assets valued at more
than $1,500. The donor should send this form to the Office of University Development for execution.

C. Disposition
It is the responsibility of the Vice President for Business and Finance or his/her designee to dispose of all gifts of assets in this Category 4. If the asset involves an interest in
real estate, it is generally expected that the Vice President for Business and Finance or his/her designee will assist in disposing of the asset. If the asset is a security, it is
generally expected that the Vice President for Business and Finance or his/her designee will follow policies for disposing the asset. Any guidelines the Vice President of Business
and Finance or his/her designee wish to impose on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put
in writing to the Vice President for Development at this time.

Upon acceptance of a gift, the Vice President for Business and Finance or his/her designee will designate a code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, the Vice President for Business and Finance or his/her designee will determine how the gift will be disposed.

Until the property is sold or otherwise disposed of, the Vice President for Business and Finance or his/her designee will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.

Upon sale of the property, the Vice President for Business and Finance or his/her designee will prepare a final report on the property, including a financial summary of net proceeds, and distribute it to the Vice President for Development and the designated representative of the department to benefit from the gift.

The Vice President for Business and Finance or his/her designee is responsible for filing Form 8283 for assets valued at more than $5,000 sold by the university within two years of the date of gift.

5. Acceptance and Disposition of Deferred Gifts

A. Deferred Giving

Development Services is asked to record various types of deferred gifts; the office is often asked to provide a description of the nature of such a gift, or explain how various types of deferred gifts should be recorded by us and/or handled for tax purposes. Ultimately, the Gift Assistant should refer related inquiries to the university's Director of Major & Deferred Gifts. This does not, however, remove the need for the Gift Assistant to be familiar with this type of gift. For this reason, below are the general explanations of certain types of deferred gifts with commonly accepted rules. Information concerning specific treatment of these gifts at Grand Valley State University should be procured from the Office of University Development.

B. Bequests

The most common and simplest form of deferred giving: a bequest is a gift of property that is made through a donor's will.

Benefits to Donors: Donors do not have to part with any money until they die, and do not owe any estate tax on the amount of the bequest.

6. Charitable Remainder Trusts

Two basic types of charitable remainder trusts qualify for federal tax benefits. In both arrangements, a donor gives stock, cash, or other assets to a trust. Those assets are invested; producing income for the donor - or other beneficiary – either for a fixed period of time or until the donor dies. The donor is allowed to claim a tax deduction for the estimated portion of the assets that will ultimately go to charity. When the donor dies, the charity keeps all remaining assets. There are two types of remainder trusts:

A. Unitrusts

Under a basic unitrust, the donor receives one or more yearly payments equaling a fixed percentage of the value of the asset. The value is assessed each year. Under a net-income unitrust, the donor receives only the income earned by the trust, even if the trust earns less than the payout rate. However, the trust can be set up to include a "make-up provision," which allows donors to make up the lost income, provided the trust earns more than the payout rate in future years.

B. Annuity Trusts

The donor receives a yearly fixed payment equaling at least five percent of the value of the asset at the time the deferred-giving agreement was signed. Donors who give real estate commonly use charitable remainder trusts. Real estate is not usually given through gift annuities and cannot be given to pooled-income funds.

Benefits to Donors: Donors can get income-tax deductions and escape capital-gains taxes by making such gifts. Many donors find the trusts an appealing way to prepare for retirement. The assets can be invested to earn a lower rate of return when the donor is younger and then shifted to earn a higher rate of return, and thus provide more income, during a donor's later years.

C. Gift Annuities

Donors contribute cash, securities, or other assets to a charity. In exchange, they receive annual payments for a fixed amount of time. With a deferred gift annuity, the annual payments do not start when the gift is made; they begin at a time specified by the donor when the gift is made.

Benefits to Donors: Gift annuities are attractive to donors who want to receive income from assets that have risen sharply in value, such as cash or stocks. In return for gifts of such assets, the charity guarantees the donors a fixed annual income for the rest of their lives and helps the donor avoid capital-gains tax. The donor also gets an income-tax break on a portion of the earnings from an annuity; the exact amount depends on the donor's age.

D. Pooled-Income Funds

The donor gives cash, securities, or other assets to a non-profit organization, which then invests those assets in a large, diversified portfolio. The donor receives income from the fund proportionate to the value of his or her contribution, as well as an income-tax deduction based on the estimated principal that will be left to the charity. Obtaining a "unit" in a pooled-income fund is similar to buying a mutual fund.

Benefits to Donors: Life gift annuities, pooled-income funds appeal to donors who want to earn income on stock and other assets and escape capital-gains taxes. Unlike annuities, a donor's income from a pooled-income fund is tied to fluctuating interest rates. That means that in the long run, donors may receive larger earnings than they do from annuities, but they can also do less well in the short term. As a result, the funds tend to appeal to younger people who are more often willing to take risks with their investments.

E. Charitable Lead Trusts

A charity receives the income from the donor's assets for a specified time, after, which the asset is transferred back to the donor or to the donor's heirs.

Benefits to Donors: A lead trust can reduce gift and estate taxes or provide a charitable deduction for the donor. Charitable lead trusts are most appealing to donors who want to pass appreciated assets to their heirs without paying a substantial amount in taxes. The donor pays a gift tax on the asset when it is placed into the trust; after that it can grow tax-free. At the end of the specified period, the asset is returned to the donor's heir or heirs, who do not have to pay any additional taxes.

7. Deferred Gifts Policy of Grand Valley State University

In an effort to maintain continuity and consistency with deferred gifts to Grand Valley State University, the following policy has been established:

Gifts governed by this policy: All deferred gifts to the University, which are managed by Grand Valley State University or its agents, including but not limited to the following:

- Gifts establishing charitable remainder trusts
- Gifts to the pooled income funds
- Gifts purchasing charitable gift annuities
- Gifts funding charitable lead trusts

Gifts not governed by this policy: Deferred gifts that do not require management; for example, gifts of personal residences or farms with retained life estate in donor and deferred gifts with are managed by trustees other than Grand Valley State University.

Trustee: Grand Valley State University has the option to serve as trustee of any deferred gift in which the University's interest equals at least fifty-one percent of the total charitable interests. Usually the University prefers the use of a commercial trustee.
Payout rates: The payout rates offered to donors shall be competitive and determined in consultation with a Development Officer.

Value of Remainder: No deferred gift (except for deferred gift annuities) shall be accepted in which the value of the University’s remainder interest is less than twenty-five percent of the value of the assets transferred.

Minimum gift amounts: Grand Valley State University has the following minimums for acceptance of deferred gifts:

- Charitable remainder trusts: Initial gift – $100,000
- Pooled income fund gifts: Initial gift - $5,000 Additional gifts - $1,000
- Charitable gift annuities: Initial gift - $10,000

Note: Gift annuities may not be offered to residents of states in which such contracts are considered to be insurance products or securities. Currently almost one-half of the states (including Florida, New York and California) classify these contracts as either insurance or securities. Because this list is constantly changing, approval should be obtained from the Development Office before discussions for this gift type are initiated.

Acceptable gift assets: The University will accept the following assets:

- Cash
- Publicly traded securities
- Real estate (subject to approval of the Vice President for Development)
- Other assets, such as closely held stock and partnership interest (subject to approval of the Vice President for Development.)

Valuation of gift assets: The University will follow applicable federal tax law.

Final approval, acceptance, and execution by the University: The Vice President for Development, in collaboration with the Vice President for Business and Finance or his/her designee must approve all documents.

All documents must be sent first to the donor for signature and then to the University’s Vice President of Business and Finance or his/her designee.

The Vice President of Business and Finance or his/her designee shall execute the documents on behalf of the University; and the documents shall be executed in duplicate and the originals distributed as follows:

- One original to donor
- One original to Vice President of Business and Finance or his/her designee
- Copies to the appropriate Development Officer

PRIVACY POLICY

SLT 8.5

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
University Development

POLICY STATEMENT

Grand Valley State University maintains a database (Millennium) of biographical and gift/pledge information about alumni and friends in accordance with the general needs and expectation of the university community. The information contained in this database is intended exclusively for purposes related to Grand Valley State University programs.

It is the desire of Development Services to support the ongoing activities of Grand Valley State University by providing assistance for programs, communication and events that bring together the expanding orbit of constituents of the university. In order to provide the best possible service to those with legitimate needs for such information, and at the same time maintain the confidentiality of the information entrusted to us by our constituents, the following policies have been developed. These policies were approved in 2007 by the Vice President for Development and now apply to every request for information and to direct access to the Millennium System.

PROCEDURES

Organizations that may request information

The following organizations and individuals may request information from the Millennium database:

Grand Valley State University affiliated organizations and constituent groups, in support of approved activities, including:

- Office of Alumni Relations
- Constituent groups approved by the Office of Alumni Relations
- University Development
- Other administrative units
- Academic units
- Athletic programs
- Office of Career Planning

In cases of dispute about whether an organization has a legitimate affiliation with the University, the final decision will rest with the Vice President for Development or the Director of Development Services as the Vice President’s designee.

- Other colleges and universities seeking the location of alumni with degrees from both Grand Valley State University and the requesting institution
- Law enforcement agencies and student loan agencies
- Agencies that assist Development Services in locating Grand Valley State University’s alumni
Any other requests will be forwarded to that person whose information is sought so that he/she can decide whether or not to contact the requestor. No information will be released for those records coded “No Contact” indicating the alumnus or alumna has requested no university contact. The same rule will apply to records coded Confidential.

All requests for information from members of the media must be referred to University Communications.

Information may be released

The following information may be released from the Millennium database:

- “Public information,” which is limited to:
  - Full name
  - Degree(s) and date of degree(s) awarded by Grand Valley State University
  - Major field of study
  - Class year

“Public information” will be provided only to those requestors identified above.

Federal law severely restricts the amount of information that may be released on current students. Therefore, no information on students will be released based on data maintained in Millennium. All requests for information on current students should be forwarded to the Registrar’s Office.

Information provided to volunteer alumni constituent groups would be limited to those alumni who are affiliated with the requesting group.

In addition to public information, request from the University Development, Alumni Relations, administrative, academic, or athletic units of Grand Valley State University and central administration may be provided the following information:

- Employment
- Student activities
- Alumni activities
- Family members
- Degrees obtained from other institutions
- Miscellaneous comments, awards and text
- Gift and pledge data
- Selected biographical attributes

Acceptable use of information

The following statements specify the acceptable internal uses of information from the alumni database:

1. Development Services will make available information from its database for the support of approved, university-related activities.

2. Approved activities include:
   a. Alumni Relations
   b. Fundraising
   c. Public Relations
   d. Governmental relations
   e. School/department communications to alumni/constituents
   f. University-sanctioned research
   g. Grand Forum
   h. Student recruitment

3. Information maintained in Millennium is not available for release for nonrelated commercial or political purposes.

4. If the information provided will result in the preparation of lists or directories that are to be published in book, magazine, newsletter, electronic media or other forms for general distribution among alumni groups, prior to publication each individual who might be included must be provided the opportunity to indicate in writing whether he/she wishes to be excluded.

5. Requestors of data from Millennium may contract to services of outside vendors (e.g. data processing consultants, direct mail firms, marketing and merchandise firms, etc.) to process and/or distribute information obtained from Millennium. In these cases:
   a. The vendor must agree to use the information only for the purpose intended by the university client. The sale or transfer of the information by the vendor is strictly prohibited.
   b. If the project in question results in the publication of directories or lists as identified above, the procedures outlined must be followed prior to publication.
   c. The vendor must ensure the prompt return of and university-owned computer tapes or electronic software provided in fulfillment of the contract.
   d. The university client or the vendor agrees to pay any costs associated with systems programming or special data processing that might be required beyond the normal capabilities of the Millennium computer system.
   e. In all cases involving the use of outside vendors or contractors, the absolute confidentiality of the information provided from the Millennium database is the responsibility of the requestor.

6. Formats available for distribution of information: Information may be obtained in the form of lists, labels, computer tapes, diskettes, and downloads by authorized university representatives in support of approved activities as noted above. It is the responsibility of the unit requesting information to maintain the absolute confidentiality of that information as specified in this policy statement.

7. Privacy Statement attachment: A privacy statement will be attached to any of the information provided to requestors of data from Millennium stating the following: The enclosed (attached) data is for the sole use of the requestor and may contain confidential and privileged information. Any unauthorized review, use, disclosure or distribution is prohibited. Responsibility for the absolute confidentiality of the information provided is the responsibility of the requestor.

8. Compliance with these policies: Failure to abide by any of the policies stated within this document may result in denial of access to information contained in the Millennium database. Request for reinstatement to access to this information must be approved by the Vice President for Development or a designee and must include written assurance of future compliance with these policies.

In cases of dispute about what constitutes an approved activity, the final decision will rest with the Vice President for Development or the Director of Development Services as the Vice President’s designee.

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity/Office of Affirmative Action

POLICY STATEMENT

Article I. Purpose

The goal of Grand Valley State University is to maintain a positive work environment for employees and a climate conducive to learning for students. The University, consistent with its policies and procedures, promotes institutional diversity by embracing such concepts as "affirmative action" and "equal opportunity" as a campus-wide strategy to provide equal access to opportunity. The University's commitment to non-discrimination is the foundation for such efforts. This policy outlines expectations for institutional and individual conduct that apply to all University faculty and staff members.

It is neither the purpose nor intent of this policy to infringe on academic freedom as defined by Grand Valley State University's Board of Trustees' Policies and the Faculty Handbook.

PROCEDURES

Article II. Prohibited Conduct Harassment

Harassment is unprofessional conduct that could reasonably be understood as (1) having the purpose or effect of creating an intimidating, hostile, or offensive environment, (2) having the purpose or effect of unreasonably interfering with an individual's work performance or access to educational activities and programs, (3) otherwise adversely affecting an individual's employment opportunities or access to educational activities and programs.

Harassment on the basis of age, color, disability, familial status, height, marital status, national origin, political affiliation, race, religion, veteran status, or weight is considered a violation of university policy. (For sex/gender, sexual orientation, gender identity and/or gender expression, see Sexual or Gender-Based Harassment Policy.)

Article III. Sanctions

Any person who violates the University's Anti-Harassment Policy may be subject to a range of sanctions (in accordance with University policies) which could include, but is not limited to, dismissal, according to due process, from University employment. Violators may also be subject to civil action or criminal prosecution because harassment and other discriminatory behavior may violate state or federal laws.

Article IV. Retaliation

1) Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.

a. Retaliation includes threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.

b. Retaliation may be present even where there is a finding of "no responsibility" on the allegations of prohibited conduct.

c. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.

2) Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

Article V. Procedural Guidelines for Discrimination and Harassment Complaints

A. Preliminary Issues

The following procedures are intended to enforce the University's Equal Opportunity/Affirmative Action Policy, (EEO/AA Policy) and the University's Non-Discrimination and Anti-Harassment Policy. The procedures are initiated by making a complaint that alleges discrimination, including unlawful harassment, has occurred. Complaints may be either formal or informal, and the procedure for each is described below.

B. Purpose of these Guidelines

The purpose of these procedural guidelines is to ensure that discrimination complaints, including harassment, are handled promptly and effectively in a manner that is procedurally fair to all parties. The Affirmative Action Office may deviate from these Guidelines as necessary to achieve the goals of prompt, thorough, and effective complaint resolution in a procedurally fair manner.

C. Time limit for Filing a Complaint

Typically, both formal and informal complaints should be reported as soon as possible and within sixty (60) days after discovery of the act which constitutes an instance of inappropriate behavior. The University retains the right to accept and address complaints reported anytime after the 60 day recommended time limit.

D. Confidentiality

Although discretion will be exercised, a guarantee of confidentiality or anonymity cannot be made because the fact-finding investigation will involve discussions with other parties. Information about the Complainant and the incidents giving rise to the complaint will be revealed only as investigatory and disciplinary processes require. Confidentiality will be observed to the extent permitted by law and which is consistent with protecting the welfare of the faculty, staff and students, and the interests of the University.
E. Where to Make a Complaint
In most cases, a University Faculty/Staff member with a complaint alleging harassment in violation of this Policy, whether formal or informal, should report this to the Affirmative Action Office. A University student with a complaint alleging harassment in violation of this Policy, whether it is formal or informal, should report it to the Affirmative Action Office or the Dean of Students Office. In the event a complaint is received in offices other than the offices mentioned above, faculty and staff are responsible for referring the individual to the appropriate office.

F. Emergency
Provisional, emergency actions departing from these procedures may be taken by a University Appointing Officer with the advice of the Affirmative Action Office and the University Counsel Office and must be followed as promptly as possible by steps providing Respondent(s) with the notice and opportunity to defend the allegations.

Article VI. Informal Complaints
Individuals who believe they have experienced or may have witnessed discrimination or harassment in violation of this Policy should consult with the Affirmative Action Office. Contacting the Affirmative Action Office about a concern does not automatically result in a formal complaint.

The party making the complaint (the "Complainant") may request that the University official consulted speak informally with the alleged offender(s) (the "Respondent") informing them of the salient features of the complaint. If this process does not resolve the matter or, if the Complainant or University official who is consulted prefers, he/she may pursue any of the avenues of resolution listed below.

Informal complaints are those complaints where the Complainant or a witness of an alleged offense asks the Affirmative Action Office to assist in the resolution of an alleged violation of the Non-Discrimination and Anti-Harassment Policy.

1. Advising. One function of the Affirmative Action Office is to hear and address complaints concerning discrimination, including harassment of any type, in violation of this policy. If the Complainant seeks a preliminary informational and advising session with the Affirmative Action Office, an opportunity for full discussion of the case shall be provided. The Affirmative Action Office shall aid the Complainant in exploring all possible options for resolving the complaint as effectively as possible. In doing so, the Affirmative Action Office will observe the confidentiality provisions of this Policy.

Some incidents, if considered serious, may require some type of follow-up actions to be taken by the Affirmative Action Office. If any follow-up actions are deemed necessary, the Affirmative Action Office will inform the person who identified the concern that action will be taken.

Students may seek advice and guidance from the Dean of Students or the Affirmative Action Office.

2. Alternative Dispute Resolution (ADR). The goal of ADR is to provide a forum where the Complainant and Respondent can, with the aid of the third party come to a mutually agreed-upon resolution. ADR works only when both the complaining and responding parties voluntarily participate in the process. ADR facilitators may be assigned by the Affirmative Action Office. By definition, informal resolutions do not include imposing sanctions, but they may involve mutually acceptable consequences.

a. Mediation Process. A favored method of alternative dispute resolution (ADR) of complaints is mediation, which also is a voluntary conflict-resolution process. The Complainant and the Respondent voluntarily agree to work with a third party mediator, who is usually a member of the University community that is a trained mediator, to resolve the complaint. This mediation is intended to resolve the complaint to the satisfaction of both the Complainant and the Respondent. Informal complaints need not be put in writing or signed by the Complainant. Certain types of incidents, however, may not be appropriate for mediation.

i. A faculty or staff member or student initiates the mediation process by making an informal complaint within the Human Resources Office or the Affirmative Action Office. Students may initiate the process in the Dean of Students Office or may consult with the Affirmative Action Office. The complaint need not be in writing or be signed by the complainant.

ii. The office receiving the complaint will discuss the mediation process with the Complainant to determine if mediation might be an appropriate method to resolve the complaint.

iii. If the Complainant wishes to proceed with mediation, then a person designated by the Affirmative Action Office, the Human Resources Office, or the Dean of Students Office meets with the alleged offender, informing him or her that an informal complaint has been filed and that the Complainant wishes to resolve it by mediation. The mediation process will be discussed with the alleged offender to determine if mediation might be an appropriate method to resolve the complaint. The Respondent is also informed that mediation is a voluntary conflict resolution process intended to make each party aware of the position or feelings of the other and to resolve the conflict.

iv. If both parties agree to mediation, a Mediator will be selected by the Affirmative Action Office, the Human Resources Office, or the Dean of Students Office. The mediator will be a trained member of the University community who is deemed the most suitable and knowledgeable based on the circumstances involved.

v. Mediation may also include meetings between the Mediator and the parties separately.

vi. If mediation has been successful, the Mediator will inform the Affirmative Action Office that the complaint has been resolved.

vii. If the Mediator determines that mediation cannot adequately resolve the issues, he or she will inform the Complainant and Respondent of this as well as the options available, such as filing a formal complaint. The Mediator will also notify the Affirmative Action Office that mediation was unsuccessful.

viii. If the Complainant is dissatisfied with the results of mediation, he or she may file a formal complaint.

Article VII. Formal Complaints (Written)
Formal complaints are those complaints where the faculty/staff/student files a written complaint with the Affirmative Action Office.

A. Filing a Formal Complaint
Complainants must provide a written description of the allegation(s) and the name of the alleged offender. Complaint forms are available from the Affirmative Action Office and on the web at: http://www.gvsu.edu/inclusion/ under "Forms." The Complainant should complete the form, listing: the type of alleged offense; summary of alleged discrimination; who discriminated against the Complainant; what action has been taken so far; what action is suggested; and whether the Complainant has filed a complaint/grievance with any other agency. The Complainant must sign the complaint form and submit it to the Affirmative Action Office to begin a formal investigation.

B. Notifications
Certain notifications are required to ensure fairness and equity to all parties involved:

1. The appropriate Appointing Officer responsible for the areas where the Complainant and Respondent are employed will be notified. The appropriate Vice President and the Appointing Officer for the Respondent shall receive a copy of the Complaint.
2. Once he or she becomes the focus of a complaint, the Respondent must be notified of the complaint, the identity of the Complainant and the nature of the complaint. They will also be advised not to contact the Complainant directly or to retaliate against him/her. The appropriate Appointing Officer will meet with the Respondent and provide a copy of the Complaint and be advised of the obligation of non-retaliation.

3. If either the Complainant or Respondent is represented by a collective bargaining agreement, the appropriate official in the Human Resources Office will be contacted immediately to assist in the facilitating the fact-finding investigation process.

4. If the complaint is against a student, the Complainant may elect to pursue a formal charge through the Dean of Students Office. The Affirmative Action Office will notify the Dean of Students as appropriate.

5. If the complaint is against an appointing officer, only the appropriate Vice President is notified. If the complaint is against a Vice President or Provost, the President is notified. If the complaint is against the President, the Chair of the Board of Trustees is notified. If the complaint is against a member of the Board of Trustees, the Chair of the Board of Trustees will be notified. If the complaint is against the Chair of the Board of Trustees, the Vice Chair of the Board of Trustees will be notified.

6. The Affirmative Action Office will maintain periodic contact with the Complainant and Respondent regarding the complaint status throughout the investigation.

C. Steps in the Investigation Process
A formal fact-finding investigation process will be carried out in as timely a manner as possible. However, all parties involved are encouraged to recognize that a thorough investigation requires time. While no specific deadlines are established, required notifications, respondent and, where applicable, union representation and investigation activities should begin as quickly as possible after receiving the written complaint.

1. The Affirmative Action Office will determine the most effective method of investigating the concerns raised by the Complainant. If circumstances deem that the investigation should be referred to the Student Grievance Process, then the Dean of Students will handle oversight responsibilities of the complaint. If not referred to the Dean of Students, then the Affirmative Action Office is responsible for the investigation.

2. Unless unusual circumstances prevent or suggest otherwise, a co-investigator will be identified to participate in the investigation process that will be led by the Assistant Vice President for Affirmative Action. The co-investigator will be a trained/experienced member of GVUS’s faculty or staff.

3. The investigation will involve conducting a thorough fact-finding investigation that includes meeting with the Complainant, Respondent, pertinent witnesses and reviewing and analyzing relevant documents as they relate to each allegation of the complaint. The investigators have the obligation to remain neutral during the investigation. Occasionally, a different or less formal response to the complaint may be warranted. Although the Affirmative Action Office may deviate from these guidelines, it will still respond to the complaint in a prompt, thorough and effective manner that is procedurally fair.

4. Communication with the Complainant and Respondent regarding the current status of the investigation and anticipated or adjusted timelines for concluding will occur on a regular and timely basis.

D. Investigation Report
A Final Investigation Report will contain: 1) a summary of the Complainant(s) allegations and the Respondent’s relevant statement in response to the allegations; 2) analysis of findings that includes a description of the relevant information provided by witnesses or obtained from the documents; and 3) the conclusion about whether or not university policy has been violated.

2. The Final Investigation Report will be provided to the appropriate Appointing Officer and Vice President. The Assistant Vice President for Affirmative Action will verbally notify both the Complainant and the Respondent about whether or not university policy was violated. The co-investigator’s involvement in the matter concludes when the final investigation report is issued.

3. The Assistant Vice President for Affirmative Action will meet with a representative from the University Counsel Office and the Appointing Officer to discuss recommendations for any follow-up actions.

E. Standard for Determining Violations of This Policy
Allegations of violations of this Policy will be evaluated by considering the totality of the particular circumstances, including the nature, frequency, intensity, location, context, and duration of the questioned behavior. Although repeated incidents generally create a stronger claim of harassment, a serious incident, even if isolated, can be sufficient to rise to the level of being considered a policy violation.

F. Corrective Action
If the report finds that the EEO/AA policy or this Non-Discrimination and Anti-Harassment Policy were violated, the University will determine appropriate corrective action, up to and including dismissal. The University may also take corrective action if no discrimination or harassment is found, but Respondent is found to have engaged in inappropriate workplace behavior. If corrective action is to be taken against a Respondent that is represented by a collective bargaining agreement, the appropriate official in the Human Resources Office will be contacted immediately to assist in the facilitating the corrective action.

Article VIII. Other Information
Copies of complaint procedures are available online at: www.gvsu.edu/inclusion. Information regarding other grievance procedures is located in the following documents:

1. Faculty members - Section 3.02 of the Faculty Handbook.

2. Executive, Administrative and Professional Staff - Board of Trustees’ Policies, BOT 4.4.8

3. Clerical, Office and Technical Staff - Section 6, Grievance, of the present contract.

4. Confidential Clerical - Section 9, Grievances, of the Personnel Policies in the Confidential Clerical handbook.

5. Maintenance, Grounds, and Services - Section 6, Grievances, of the present contract.

6. Department of Public Safety Staff - Section 6, Grievances, of the present contract.

8. Student Employees - Student Employee Handbook and Student Code, Article IV: Student Grievance Procedures

CONSENSUAL RELATIONSHIP POLICY

SLT 9.2

Date of Last Update:
POLICY STATEMENT

Possessing and mastering a range of thoughtful perspectives is necessary for open inquiry, a liberal education, and a healthy community. Recognizing this, the University seeks to include, engage, and support a diverse group of students, faculty, and staff. The institution values a multiplicity of opinions and backgrounds, and is dedicated to incorporating multiple voices and experiences into every aspect of its operations. We are committed to building institutional capacity and strengthening our liberal education through providing an inclusive environment for all of our University constituents.

Article I. Purpose

The University’s goals are to maintain a positive work environment and a climate conducive to learning for students. The unequal institutional power inherent in academic and work relationships may heighten the vulnerability of those in subordinate positions. Accordingly, individuals holding positions of authority at the University must be aware of and sensitive to the potential conflict of interest, ethical concerns, and issues of sexual harassment that may occur in consensual relationships. Specifically, the parties to a consensual relationship must be aware that such relationships can create in co-workers and students perceived and real conflicts of interest. These relationships also create an environment of fear of unfair treatment in terms of promotions, grades, professional and/or educational opportunities, etc. This Policy outlines expectations for institutional and individual conduct that apply to all University faculty and staff members and students.

Article II. Consensual Relationships

Consensual romantic and sexual relationships between faculty and their students or between supervisors and their subordinates are inappropriate. Individuals should be aware that these relationships may create a perception of favoritism while the relationships continue. These relationships may be less consensual than perceived by the individual whose position confers power. The relationship also may be viewed in different ways by each of the parties, particularly in retrospect. Furthermore, circumstances may change and the conduct that was previously welcome may become unwelcome. If a sexual harassment complaint is subsequently filed, the argument that the relationship was consensual will be evaluated in light of the power differential in determining whether the University’s Anti-Harassment Policy has been violated. Under these circumstances, it will be extremely difficult to use mutual consent as a defense.

Consensual Romantic or Sexual Relationships between Faculty/Staff and Students. A faculty or staff member who has educational, supervisory, evaluation, advising, coaching, or counseling responsibilities for students shall not assume or maintain those responsibilities for a student with whom the faculty or staff member has engaged in romantic or sexual relations, even if such relations were consensual. Whether such romantic or sexual relationships predate the assumption of educational, supervisory, evaluation, advising, coaching, or counseling responsibility for the student, or arise out of the educational relationship, the faculty or staff member shall immediately disclose the romantic or sexual relationship to his or her Unit Head or supervisor, who shall promptly arrange alternate oversight of the student.

Consensual Romantic or Sexual Relationships between Supervisors and Subordinates. If a romantic or sexual relationship exists or develops between a supervisor, manager, or administrator and an employee for whom he or she has professional responsibility, the individuals involved in the relationship must promptly consult the next highest level of supervision (e.g., a supervisor, department head, Vice President, Dean) to determine whether arrangements can be made to eliminate all conflicts of interest. If such arrangements can be made that do not disadvantage the subordinate and are acceptable to the supervisor, manager, or administrator, they must be documented, and ensure that the supervisor does not hire, supervise, advise, evaluate, or otherwise directly influence the subordinate’s employment. Relationships between supervisors, managers, or administrators and their subordinates are prohibited when the working relationship is such that it is not possible to eliminate the conflicts of interest. Students employed by the University who supervise other student employees are covered by this section.

Consensual romantic or sexual relationships between students. Complaints concerning relationships between students are governed by the GVSU Student Code.

Article III. Disciplinary Actions

Disciplinary action will be taken against faculty or staff members who violate this Policy, either by entering into or engaging in a sexual relationship with a student or subordinate for whom he or she has educational, supervisory, evaluation, advisory, coaching, or counseling responsibilities or by failing to report such relationship or failing to cooperate in making alternative arrangements.

Article IV. Confidentiality

Confidentiality of the disclosure of consensual romantic or sexual relationships will be observed to the extent permitted by law and that is consistent with protecting the welfare of faculty, staff, and students and the interests of the University.

SEXUAL OR GENDER-BASED HARASSMENT (INCLUDING RETALIATION) POLICY

SLT 9.3

Date of Last Update:
May 15, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity

POLICY STATEMENT

Sexual or gender-based harassment is prohibited conduct at the University. No employee, student or other person at the University shall engage in sexual or gender-based harassment. The University will take prompt and effective steps to end sexual or gender-based harassment; eliminate any hostile environment caused by sexual or gender-based harassment; prevent its recurrence; and remedy the discriminatory effects on the victim and others as appropriate.
This policy and related procedures for addressing complaints of sexual and gender-based harassment, apply to all University programs and activities, including those conducted off-campus. Where relevant, if the off-campus sexual or gender-based harassment did not occur in the context of a University program or activity, the University will consider the effects of such off-campus sexual or gender-based harassment when evaluating whether it creates a hostile environment on campus or in an off-campus education program or activity.

PROCEDURES

Reporting, Procedures & Notifications

1. Reports: Reports of sexual or gender-based harassment should be made immediately to the Title IX Office and can also be filed online. Under Title IX, most University employees are considered “Responsible Employees” meaning they are required to report to the Title IX Office incidents of Sexual Misconduct that they observe or about which they learn. Professional counselors at the University who provide mental-health counseling are not considered “Responsible Employees” and, therefore, are not required to report any incident of Sexual Misconduct. Other resources are also available: see the following link. Any inquiry concerning the application of Title IX may be referred to the Title IX Coordinator or to the U.S. Department of Education Office of Civil Rights.

2. Procedures: Procedures for responding to reports of sexual or gender-based harassment are maintained by the Division of Inclusion and Equity. Procedures will be reviewed on an annual basis for proposed revision to be implemented the following academic year. Revisions to procedures are approved by the Vice President of Inclusion and Equity, in consultation with the Senior Leadership Team. The University community (students and employees) will also be broadly consulted and periodically surveyed to obtain input on revisions.

3. Notifications: The University community will be notified, annually, of this policy and any revisions, inquiry contact information, and available resources and provided regular training regarding this policy as well as prevention and awareness education related to the prevention of and response to sexual and gender-based harassment.

DEFINITIONS:

Definitions

1. Sexual Harassment is unwelcome sexual, sex-based, request for sexual favors whether verbal, written, graphic, physical or otherwise, or other unwanted conduct of a sexual nature. When conditions are present as outlined in a. and/or b. below.

2. Gender-Based Harassment includes harassment based on gender, sexual orientation, transgender, gender non-conforming, transitioning, gender identity, or gender expression, which may include acts of aggression, intimidation, or hostility, whether verbal or non-verbal, graphic, physical, or otherwise, even if the acts do not involve conduct of a sexual nature. When conditions are present as outlined in a. and/or b. below.
   a. Quid pro quo harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature made by a person having power or authority over another constitutes sexual harassment when submission to sexual conduct is made either explicitly or implicitly a term or condition of rating or evaluating an individual’s educational or employment progress, development or performance. This includes when submission to such conduct would be a condition for access to receiving the benefits of any educational or employment program.
   b. Creates a hostile environment that is:
      i. Sufficiently severe, or persistent or pervasive, and objectively offensive that it unreasonably interferes with, limits, or deprives an individual from participating in or benefitting from the University’s education or employment programs and/or activities.
      ii. A hostile environment can be created by persistent or pervasive conduct or by a single or isolated incident, if sufficiently severe. The more severe the conduct, the less need there is to show a repetitive series of incidents to prove a hostile environment, particularly if the conduct is physical; a single incident of sexual or gender-based harassment, for example, may be sufficiently severe to constitute a hostile environment. In contrast, the perceived offensiveness of a single verbal or written expression standing alone, is typically not sufficient to constitute a hostile environment.
      iii. In evaluating whether a hostile environment exists, the University will consider the totality of known circumstances, including, but not limited to:
         1. The frequency, nature and severity of the conduct;
         2. Whether the conduct was physically threatening;
         3. The effect of the conduct on the Complainant’s mental or emotional state;
         4. Whether the conduct was directed at more than one person;
         5. Whether the conduct arose in the context of other discriminatory conduct (see Anti-Harassment Policy);
         6. Whether the conduct unreasonably interfered with the Complainant’s educational or work performance and/or University programs or activities; and/or,
         7. Whether the conduct implicates concerns related to academic freedom or protected speech.
   c. Transgender, gender non-conforming, transitioning, gender identity, and gender expression definitions:
      i. Transgender: An umbrella term that can be used to describe people whose gender identity and/or expression is different from their sex assigned at birth.
      ii. Gender non-conforming: Describes people who have, or are perceived to have, gender characteristics and/or behaviors that do not conform to traditional or societal expectations.
      iii. Transition/Transitioning: The process of changing one’s gender from the sex assigned at birth to one’s gender identity.
      iv. Gender Identity: A personal, internal sense of oneself as, for example, male, female, both, or neither.
      v. Gender Expression: The external appearance of one’s gender identity, or how one represents one’s gender through hair style, clothing, mannerisms, etc.

Retaliation

1. Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.
   a. Retaliation includes threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.
   b. Retaliation may be present even where there is a finding of “no responsibility” on the allegations of prohibited conduct.
   c. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.

2. Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

More information about Procedures related to this policy, and other useful information can be accessed at the following link.
OR DATING VIOLENCE), STALKING & RETALIATION

Date of Last Update: March 03, 2016

Approved By: Senior Leadership Team

Responsible Office: Inclusion and Equity

POLICY STATEMENT

I. Sexual Misconduct is any conduct that is considered sexual assault, dating violence, domestic violence, stalking and sexual exploitation as those terms are defined by this policy. Sexual Misconduct is prohibited conduct at the University. No employee, student or other person at the University shall engage in Sexual Misconduct. The University will take prompt and effective steps to end Sexual Misconduct, eliminate any hostile environment caused by Sexual Misconduct, prevent its recurrence, and remedy the discriminatory effects on the victim and others as appropriate.

This policy and related procedures for addressing complaints of Sexual Misconduct apply to all University programs and activities, including those conducted off-campus. Where relevant, if the off-campus Sexual Misconduct did not occur in the context of a University program or activity, the University will consider the effects of such off campus Sexual Misconduct when evaluating whether it otherwise creates a hostile environment on campus or in an off-campus education program or activity.

PROCEDURES

II. Reporting, Procedures & Notifications

1. Reporting: Reports of Sexual Misconduct should be made immediately to the Title IX Office and can also be filed online. Under Title IX, most University employees are considered “Responsible Employees” meaning they are required to report to the Title IX Office incidents of Sexual Misconduct that they observe or about which they learn. Professional counselors at the University who provide mental-health counseling are not considered “Responsible Employees” and, therefore, are not required to report any incident of Sexual Misconduct. Other resources are also available: see the following link. Any inquiry concerning the application of Title IX may be referred to the Title IX Coordinator or to the U.S. Department of Education Office of Civil Rights.

2. Procedures: Procedures for responding to reports of Sexual Misconduct are maintained by the Division of Inclusion and Equity. Procedures will be reviewed on an annual basis for proposed revision to be normally implemented the following academic year. Revisions to procedures are approved by the Vice President of Inclusion and Equity, in consultation with the Senior Leadership Team. The University community (students and employees) will also be broadly consulted and periodically surveyed to obtain input on revisions.

3. Notification: The University community will be notified, annually, of this policy and any revisions, inquiry contact information, and available resources and provided regular training regarding this policy as well as education related to the prevention and awareness of and response to Sexual Misconduct.

DEFINITIONS:

III. Definitions

1. Sexual Assault is an offense that meets the definition of rape, fondling, incest, or statutory rape, as defined in the Federal Bureau of Investigation’s (FBI) Uniform Crime Reporting (UCR) program, as having or attempting to have sexual intercourse or sexual contact with another individual by force or threat of force; without affirmative consent; or where the person is incapacitated.

2. Sexual Assault consists of (a.) Sexual Contact and/or (b.) Sexual Intercourse that occurs without (c.) Affirmative Consent.

   a. Sexual Contact is any intentional sexual touching, however slight, with any object or body part (as described below), performed by a person upon another person.

   i. Sexual Contact includes: (a) intentional touching of the breasts, buttocks, groin or genitals, whether clothed or unclothed, or intentionally touching another with any of these body parts; and (b) making another touch you or themselves with or on any of these body parts; (c) causing another to touch one’s intimate parts, disrobing or exposure of another without permission.

   b. Rape is sexual penetration, however slight, of another person without affirmative consent. Penetration can be of the mouth, vagina, or anus, and can be with a penis, tongue, finger, or foreign object.

   c. Sexual Intercourse is vaginal or anal penetration, however slight, with any object or body part (as described below) performed by a person upon another person; and/or, oral penetration involving mouth to genital contact.

   i. Sexual Intercourse includes: (a) vaginal penetration by a penis, object, tongue, or finger; (b) anal penetration by a penis, object, tongue, or finger; and (c) any contact, no matter how slight, between the mouth of one person and the genitalia of another person.

   d. Affirmative Consent is informed (knowing); voluntary (freely given); and, active (not passive), meaning that, through the demonstration of clear words or actions, a person has indicated permission to engage in mutually agreed-upon sexual activity and the consenting person is not incapacitated as defined by this policy.

   i. Affirmative Consent cannot be obtained by Force. Force includes: (a) the use of physical violence, (b) threats, (c) intimidation, and/or (d) coercion.

1. Physical violence means that a person is exerting control over another person through the use of physical force. Examples of physical violence include but are not limited to hitting, punching, slapping, kicking, restraining, strangling, and brandishing or using any weapon.

2. Threats are words or actions that would compel a reasonable person to engage in unwanted sexual activity. Examples include threats to harm a person physically, to reveal private information to harm a person’s reputation, or to cause a person academic or economic harm.

3. Intimidation is an implied threat that menaces or causes reasonable fear in another person. A person’s size, alone, does not constitute intimidation; however, a person’s size may be used in a way that constitutes intimidation (e.g., blocking access to an exit).

4. Coercion is the use of an unreasonable amount of pressure to gain sexual access. Coercion is more than an effort to persuade, entice, or attract another person to have sex. When a person makes clear a decision not to participate in a particular form of Sexual Contact or Sexual Intercourse, a decision to stop, or a decision not to go beyond a certain sexual interaction, continued pressure can be coercive. In evaluating whether coercion was used, the University will consider: (i) the frequency of the application of the pressure, (ii) the intensity of the pressure, (iii) the degree of isolation of the person being pressured, and (iv) the duration of the pressure.
ii. Affirmative Consent cannot be gained by taking advantage of the incapacitation of another, where the person initiating sexual activity knew or reasonably should have known that the other was incapacitated.

1. Incapacitation means that a person lacks the ability to make informed, rational judgments about whether or not to engage in sexual activity.

2. Incapacitation is such that it renders the person incapable of self-care and protection. Incapacitation could be the result of alcohol or other drugs or due to a temporary or permanent physical or mental health condition.

iii. Affirmative Consent to one form of sexual activity does not, by itself, constitute Affirmative Consent to another form of sexual activity.

IV. Intimate Partner Violence

Intimate Partner Violence is any act of Domestic Violence or Dating Violence as defined by this Policy.

1. Domestic Violence is any act of violence committed by any of the following individuals: (a) a current or former spouse or intimate partner of the victim; (b) person with whom the victim shares a child in common; (c) person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner; and/or, (d) a resident or former resident of the victim’s household in the event such household residents have a current or prior intimate relationship.

   a. An incident of domestic violence can consist of a single act of violence or a pattern of violent acts that includes, but is not limited to, sexual or physical abuse, or the threat to engage in such abuse.

2. Dating Violence is any act of violence committed by a person who is, or has been, in a social relationship of a romantic or intimate nature with the victim that does not fall within the definition of "domestic violence."

   a. Dating violence includes, but is not limited to, sexual or physical abuse or assault or the threat of such abuse or assault.

   b. For the purposes of determining Intimate Partner Violence, whether the relationship is of a romantic or intimate nature is determined by a variety of factors, including: (a) the length of the relationship, (b) the type of relationship, and (c) the frequency of interaction between the persons involved in the relationship.

   c. A relationship of a romantic or intimate nature means a relationship that is characterized by the expectation of affection or sexual involvement between the parties.

   d. An incident of dating violence can consist of a single act of violence or a pattern of violent acts that includes, but is not limited to, sexual or physical abuse, or the threat to engage in such abuse.

V. Stalking

1. Stalking occurs when a person engages in a course of conduct directed at a specific person under circumstances that would cause a reasonable person to fear bodily injury or to experience substantial emotional distress.

   a. Course of conduct means two or more acts, including but not limited to acts in which a person directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about another person, or interferes with another person's property.

   b. Reasonable person means a reasonable person under similar circumstances.

   c. Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

2. Stalking includes "cyber-stalking," a particular form of stalking in which a person uses electronic media, such as the internet, social networks, blogs, cell phones, texts, or other similar devices or forms of contact. This policy prohibits all stalking, not just stalking that occurs within the context of a relationship.

VI. Sexual Exploitation

Sexual Exploitation is purposely or knowingly doing any of the following:

1. Causing the incapacitation of another person (through alcohol, drugs, or any other means) for the purpose of compromising that person's ability to give Affirmative Consent (see Section III.2.d.) to sexual activity;

2. Allowing third parties to observe private sexual activity from a (a) hidden location (e.g., closet), or (b) through electronic means (e.g., Skype or live streaming of images);

3. Engaging in voyeurism (e.g., watching private sexual activity without the consent of the participants or viewing another person's intimate parts (including genitalia, groin, breasts or buttocks) in a place where that person would have a reasonable expectation of privacy);

4. Recording or photographing private sexual activity and/or a person's intimate parts (including genitalia, groin, breasts or buttocks) without consent;

5. Disseminating or posting images of private sexual activity and/or a person's intimate parts (including genitalia, groin, breasts or buttocks) without consent;

6. Knowingly exposing another person to a sexually transmitted infection or virus without the other's knowledge;

7. Arranging for others to have non-consensual sexual contact, as defined by the Sexual Misconduct policy, with a non-consenting person.

VII. Retaliation

1. Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.

   a. Retaliation includes threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.

   b. Retaliation may be present even where there is a finding of “no responsibility” on the allegations of prohibited conduct.

   c. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.

2. Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

More information about Procedures related to this policy, and other useful information can be accessed at the following link.
POLICY STATEMENT

Grand Valley State University is committed to the fundamental academic principles of equity and accessibility by providing all faculty, staff and students with access to the University’s programs, services, events and activities. The aim of this policy is to support an inclusive academic environment by incorporating design concepts that reduce or remove barriers. University faculty or staff members who are persons with a disability are not required to identify themselves as persons with a disability or to request an accommodation. However, the University cannot accommodate an individual who does not inform the University about his/her disability and his/her need for an accommodation. A faculty or staff member seeking an accommodation must request it by submitting their request to the Disability Support Resources Office following its procedures.

PROCEDURES

The Disability Support Resources Accommodation Process

To request an accommodation, a University faculty or staff member must:

A. Self-identify as a person with a disability by application to the Disability Support Resources office (DSR). It should be noted that The University conducts a survey of faculty and staff for statistical purposes and this does not constitute a method of self identification consistent with this policy. If a faculty or staff member requests an accommodation, the supervisor/unit administrator should refer the faculty or staff member to the DSR or its web site at http://www.gvsu.edu/dsr/.

B. Provide documentation of the disability; and

C. Indicate in the application to the Disability Support Resources office, his/her need for accommodation and provide supporting medical documentation from an appropriate professional, if requested by the Disability Support Resources office. The medical professional must have first-hand knowledge of the condition and a familiarity with the physical, emotional and cognitive demands of the disability.

Once an application has been submitted to the DSR, a DSR advisor will review the application and may contact the faculty or staff member who submitted the application. The advisor will contact the supervisor/unit administrator and discuss whether an accommodation is warranted, explore possible accommodations, and assess the effectiveness each would have in enabling the faculty or staff member to perform his/her job including the following:

A. The essential job functions of the position. The essential functions are the fundamental job duties of the employment position at issue. To be qualified for a position, an individual must be able to perform the essential functions of the job, with or without a reasonable accommodation.

B. The faculty or staff member’s ability to perform essential job functions with or without a reasonable accommodation; and,

C. Possible types of reasonable accommodations, if any are needed.

Reasonable accommodations vary depending on the circumstances of each case. In evaluating alternatives for accommodation, the preferences of the individual are considered, but the ultimate decision regarding what type of accommodation, if any, will be provided is made by the University. Nothing in this document shall be construed to waive the University’s right to contest whether a faculty or staff member is disabled or is entitled to an accommodation.

Medical documentation, as well as other related materials, will be maintained at DSR. Such documentation is kept confidential, except as necessary to administer the accommodation process or otherwise permitted by law. Such documentation may be shared only with those individuals involved in the accommodation process on an as needed basis.

During the accommodation request process, DSR may:

A. Request additional documentation;

B. Consult with Human Resource Office;

C. Evaluate whether any accommodation is needed and, if it is, whether an accommodation is reasonable and should be made (this evaluation may include preparing cost estimates);

D. Assess various accommodations;

E. Identify alternative accommodations or solutions;

F. Provide information from resources about the capabilities of persons with similar disabilities and the tools/techniques they use;

G. Determine a reasonable accommodation, if appropriate;

H. Provide a written determination to the department/unit and faculty or staff member;

I. Explain the department/unit’s responsibility to fund an accepted accommodation or seek alternative funding, if needed;

DSR makes a determination regarding implementation of accommodations. DSR will consider each request for reasonable accommodation and determine: (1) whether the accommodation is needed, (2) if needed, whether the accommodation would be effective, and (3) if effective, whether providing the reasonable accommodation would impose an undue hardship.

Appeals

If a faculty or staff member or supervisor/unit administrator disagrees with the DSR determination, the decision may be appealed to the Vice President of Inclusion and Equity, in writing to:

Vice President of Inclusion and Equity
4035 James H. Zumberge Hall
Allendale, MI 49401
RELIGIOUS INCLUSION POLICY

SLT 9.6

Date of Last Update:
November 19, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity/Office of Affirmative Action

POLICY STATEMENT

Possessing and mastering a range of thoughtful perspectives is necessary for open inquiry, a liberal education, and a healthy community. Recognizing this, the University seeks to include, engage, and support a diverse group of students, faculty, and staff. The institution values a multiplicity of opinions and backgrounds, and is dedicated to incorporating multiple voices and experiences into every aspect of its operations. We are committed to building institutional capacity and strengthening our liberal education through providing an inclusive environment for all of our University constituents.

Purpose

Many University students, staff, and faculty observe religious traditions from a variety of religions. This Religious Inclusion Policy (“Policy”) acknowledges the right of students, staff, and faculty to engage in religious observances. The University is committed to accommodate the exercise of that right.

The University acknowledges that conflicts in scheduling mandatory academic requirements and employment obligations with religious observances are inevitable. Although the University does not observe religious holidays, it recognizes that there are a number of religious holidays that affect significant numbers of our students, staff, and faculty. This Policy is intended to provide clarity to students, staff, and faculty who seek accommodation to practice their faith.

PROCEDURES

Accommodations

Grand Valley State University will make a reasonable effort to allow its students, staff, or faculty to be away from work or a class to observe their religious beliefs, except where accommodating the request would result in undue hardship on the University in its mission, operation or in meeting its academic standards. The University provides quiet areas for student, staff, and faculty reflection, meditation, and prayer. A list of these quiet areas may be found on the Inclusion and Equity webpage.

Faculty should be sensitive to the observance of religious holidays so that students who miss classes to practice their faith are not disadvantaged. A list of religious holidays is found on the Inclusion and Equity website. Please note that this list is meant to be inclusive of most major religious traditions (although certainly not comprehensive), and that religious holidays have no official status at the University.

Faculty should make every effort to avoid scheduling examinations or assigning work that is due on religious holidays. Some religious holidays begin at sundown on the evening before the published date of the holiday. Consequently, faculty should avoid scheduling late afternoon exams on these days.

Faculty shall not penalize any student who has properly notified the faculty member by complying with the Request Accommodation Procedure for his/her absence in classes, examination, or assignments. Faculty should accept a student’s claim of a scheduling conflict on religious grounds at face value. If class attendance is required by the faculty member, classes missed to observe a religious holiday may not be counted as an absence.

Faculty must provide a reasonable opportunity for such a student to make up missed assignments and examinations within a reasonable time period before or after the student’s absence, provided the student has properly notified the faculty member by submitting a Request Accommodation Form. Faculty must give the student the opportunity to do appropriate make-up work that is no more difficult or time-consuming than the original exam or assignment.

Nothing in this Policy, however, exempts a student from meeting course requirements or completing assignments. The faculty member may respond appropriately if the student fails to satisfactorily complete the make-up assignment or examination.

Further, when scheduling university events and activities, such as Family Weekend, Commencement, Convocation, and University sponsored conferences, planners should consult the list of religious holidays on the Inclusion and Equity website before selecting the date and time to ensure inclusiveness.

Religious Accommodation Procedure

All requests for accommodation for religious observance should be made in the following manner:

Students: Faculty should inform students of all examination dates and assignment deadlines at the start of each semester in the class syllabus. If a conflict with a religious observance exists, students must request a religious accommodation from their faculty within the first two weeks of each semester or as soon as reasonably possible after the instructor announces a particular mandatory class, examination, or assignment so that alternative arrangements can be made for any class, examinations, or assignments missed. If an accommodation is needed within the first two weeks of the semester, the student must provide the faculty member with reasonable advance notice of the need for accommodation.
Requests for accommodation must be made through a Religious Accommodation Form, which may be found at the Dean of Students Office, the Office of Affirmative Action or under “Forms” at www.gvsu.edu/inclusion. It is the student’s responsibility to provide faculty with reasonable notice of the need for accommodation and the timing of the notice may be taken into account in determining whether granting the request would create an undue hardship.

The faculty member and the student should discuss and agree upon what would constitute a reasonable accommodation in each given case. If the student and faculty member agree upon an accommodation, the accommodation must be carried out and disclosed on the Religious Accommodation Form. The completed Religious Accommodation Form shall be filed by the faculty member in the Dean of Students Office.

If the student and faculty member cannot agree on an accommodation, either party may bring the matter to the Unit Head to determine the accommodation. Either party may appeal the Unit Head’s decision to the Dean, who will make a final binding decision.

Where a student has obligations to a placement site (e.g., internships), that student must also work out arrangements with the placement site to make up for missed responsibilities or duties.

Staff: The use of vacation and personal leave is governed by the staff member’s respective Board of Trustees’ Policies, Staff Handbook, or Collective Bargaining Agreement. Vacation days requested for the express purpose of religious observance will not be unreasonably denied by the staff member’s supervisor if the staff member has accrued vacation leave or is eligible for personal leave and the granting of leave or vacation time will not result in undue hardship for GVSU.

Faculty: The use of vacation and personal leave is governed by the Faculty Handbook. Requests by a faculty member for leave for religious accommodation, however, shall be considered under this Policy if the faculty member has made arrangements for any missed classes and the granting of the leave will not result in undue hardship for GVSU. Faculty that miss class time due to a religious observance must make alternate arrangements for that time with his or her Unit Head. If the Unit Head denies the request, the faculty member may appeal to the Dean, who will have final decision authority over the request.

Nothing in this Policy exempts a GVSU faculty or staff member from fulfilling their job responsibilities.

Confidentiality
Although discretion will be exercised, a guarantee of confidentiality or anonymity cannot be made because the determination of a reasonable religious accommodation will involve discussions with other parties. Information about the request for religious accommodation will be revealed only as the deliberation process requires. Discretion will be observed to the extent permitted by law and that is consistent with protecting the welfare of the students, staff, and faculty and the interests of the University.

Retaliation
Any attempt to retaliate against an individual who files a religious accommodation request or otherwise utilizes this Policy is prohibited.

WEB ACCESSIBILITY POLICY

SLT 9.7

Date of Last Update:
November 12, 2018

Approved By:
Senior Leadership Team

Responsible Office:
Equity, Planning, and Compliance Unit

POLICY STATEMENT

Grand Valley State University is committed to the fundamental academic principles of equity and accessibility by providing all students and staff with equitable access to the University’s programs, services, events and staff development activities. The aim of this policy is to support an inclusive academic environment by incorporating design concepts that reduce or remove barriers to our websites or to provide equally effective alternative access.

This policy establishes minimum standards for the accessibility of web-based information and services considered necessary to meet the University’s goals and ensure compliance with applicable law. The University has assigned web accessibility responsibilities to its Americans with Disabilities Act Coordinator and Web Manager, or their designees.

This policy applies to all official web pages and associated web-based services developed by or for a college, school, department, program, or unit of the University.

The University will ensure that new online content and functionality developed, procured, or used will be fully accessible to individuals with disabilities. This action will include any staff training that may be necessary to ensure full implementation.

All new web pages published by any University college, school, department, program, or unit on or after the effective date of this policy must conform to WCAG 2.0 Level AA, Technologies Accessibility Standards and this policy.

For existing online content, the University has: developed a strategy for identifying inaccessible content and functionality for individuals with disabilities; developed a notice to person with disabilities regarding how to request that the University provide access to online information or functionality; prominently posted this notice on its home page and throughout its website; and developed a process to ensure that, upon request, inaccessible content and functionality will be made accessible in an expedient manner.

Each web site must contain a link to report accessibility issues, or to request an accessible version, should users have trouble accessing content within the site. This would usually be the site administrator or content author.

PROCEDURES

Training

Accessibility training will be provided and required of all faculty, staff and other authorized representatives prior to being given access to manage any online content through the Content Management System (CMS) or through remote access to a web server (FTP, SFTP, SSH, etc.).

This training will help content administrators produce accessible content, and assess and correct content that may be inaccessible. All content administrators will be required to attend Accessibility Training on an annual basis as long as they manage online content.

Enforcement

If necessary, at the discretion of the Web Accessibility Coordinators or their designees, some or all non-compliant portions of the web pages and resources may be taken offline, or
MINORS ON CAMPUS POLICY

POLICY

"Grand Valley is committed to strengthening our living, learning, and working environment by recognizing and removing the barriers to full participation and providing a safe, inclusive, vibrant community for all." -- Inclusiveness/core value section of the University’s Strategic Plan.

Grand Valley State University is committed to being a safe and healthy environment for all. This includes students, faculty, staff, and campus visitors, especially those who are minors. As a public university open to everyone, the University welcomes children and teenagers on our campuses for a variety of programs and activities planned by the University or by outside organizations. In all situations, adults are expected to be positive role models for minors, acting in a respectful and responsible manner consistent with the mission and values of the University. To promote this vision, the University publishes and enforces policies, procedures, and guidelines that have the goal of promoting health, safety, and security for minors on our campuses.

"Minors" are persons under the age of eighteen (18), and the term “Minor,” “Minors,” “Child,” and “Children” are used interchangeably in this policy. Further definitions may be found below. This policy addresses the following situations:

- A Minor will be physically present and participating in a University-sponsored program or activity, either taking place on University property or under the authority and/or direction of the University at other locations (this includes academic and sports camps);
- A Minor child will be physically present and participating in a program or activity at the University that is sponsored by a third party (this includes programs for K-12 students sponsored by a school system);
- A Minor is enrolled in one or more courses on campus, either as a matriculated student, a guest student from another institution of higher education, or a dual-enrolled student; or,
- Other events where Minors are physically present at the University, such as situations when parents/legal guardians are expected to accompany and provide supervision to Minors in their care (this includes Admissions activities and events and performances open to the public).

POLICY STATEMENT

I. Requirements of Programs that Involve Minors

Programs are typically workshops, sports camps, academic camps, conferences, and similar activities. Some activities that are exempt from Section I can be found in Sections III-V.

A Sponsoring Unit offering or approving a Program that involves Minors or provides University housing for Minors participating in a Program, whether utilizing University housing or not, shall abide by the following:

1. Waiver or release forms: participation, medical treatment, use of photographs and other media: All Minors participating in a University Program must provide a waiver or release form for participation in the program, medical treatment authorization, and use of photographs and other media by the University. This can be one form or several, and all forms must be signed by a Parent, Legal Guardian, or Foster Parent prior to their participation in a Program.

2. Behavior of Minors on Campus. Minors are to be held to the same standards of behavior expected of enrolled students, as described in University policies.

3. Information maintained by Programs. All Programs shall maintain an up-to-date list of all Program times and dates, locations, attendance information (names, ages and emergency contacts for Program Participants); list of all Authorized Adults, documentation of their training (item #5 below) and background check (item #6 below) for the Program; and a Program contact, so that in the event of an emergency, appropriate measures may be taken. All Programs must establish a procedure for the notification of a Program Participant’s Parent/Legal Guardian/Foster Parent in the case of an emergency, which might include medical or behavioral issues involving the Minor, or changes in the Program due to unforeseen and significant disruptions. Parents/Legal Guardians/Foster Parents must also be given contact information in a manner in which the Program Participant can be contacted while the Program is in session. All information, including release forms, shall be retained by the Sponsoring Unit for five years after the Program ends.

4. Supervision of Minors. All Programs must provide adequate supervision of Minors while they are on campus. One-on-One Contact with Minors is discouraged, unless in public spaces. In general, it is required that two or more Authorized Adult will be involved in activities where Minors are present. Parents/Legal Guardians/Foster Parents may sign a waiver giving consent for their Child to be alone with an Authorized Adult. (For example, if music lessons are being provided by an adult instructor.) Exceptions in rare circumstances may also be granted (see below).

5. Training of Authorized Adults. Each Authorized Adult, who is not the Minor’s Parent, Legal Guardian, Foster Parent or an adult designated by the Parent or Legal Guardian, who
will be participating with Minors in a Program, shall complete training in the conduct and reporting requirements of this policy. This training is given to maximize the protection of Minors from abuse of any kind. The appropriate vice president, dean, unit head, or area director may enhance and/or supplement the required training Program to meet specific needs of the particular Program involved. Documentation that the Authorized Adults have been trained should be maintained by a designated and identified member of the Program’s Sponsoring Unit for five years.

6. Background checks of Authorized Adults. All Authorized Adults in the Program must complete and submit the Authorization for Release of Information for Background Check form to Human Resources. Background checks must be completed every five years. (See also PC 10.7 Volunteers Policy for Authorized Adults who are not University employees.)

7. Procedures for release of Minors. All Programs must establish a procedure for the pick-up and drop-off of Program Participants, specifying times and locations. The Authorized Adult(s) overseeing the pick-up and drop-off of Program Participants shall remain at the specified location until all Minors have been released. If a minor is not picked up, the Authorized Adult(s) will contact the parent or guardian, the program director and finally, Grand Valley Department of Public Safety if needed.

In rare circumstances, strict adherence to this policy’s requirements may not always be feasible or be the best practice for managing risk. If a Program can justify an exception in consultation with and with approval from Human Resources, or, when appropriate, obtain written consent by the Parent/Legal Guardian/Foster Parent for the parameters applicable to the Program, certain requirements under this policy may be waived. Such waivers will be considered on a case-by-case basis.

II. Conduct Requirements of Authorized Adults

All Authorized Adults, participating in Programs and activities covered by this policy, should be positive role models and act in a caring, honest, respectful, and responsible manner. They are required to comply with all applicable laws and University policy. In addition, at all times, they shall:

1. In general, avoid One-on-One Contact with Minors, unless in public spaces. Two or more Authorized Adults must be involved in Programs where Minors are present unless a waiver has been signed or an exception has been granted.

2. Have separate accommodations from the Minors. An Authorized Adult should not have One-on-One Contact by entering a Minor’s room, bathroom facility, or similar area without another Authorized Adult in attendance.

3. Not take photographs or digital images of Minors other than specified in the waiver for photography (see Section I.1).

4. Not engage in private communication not pertaining to Program matters with a Minor by email, telephone, text message, social media, or any other method at any time, except when there is a clear educational purpose and the communication is consistent with the mission of the University.

5. Not meet with Minors outside of established times for Program activities. Any exceptions require written Parent/Legal Guardian/Foster Parent authorization and must include more than one Authorized Adult from the Program.

6. In the presence of a Minor or during any University Program, not engage in any sexual activity or romantic conversations, or sexually explicit comments.

7. Not possess, have within reach and/or share sexually-oriented printed or computerized or portable materials (magazines, cards, videos, films, clothing, smartphones, etc.) in any form available to Minors participating in Programs or activities covered by this policy or assist them in any way in gaining access to such materials. The one exception would be legitimate sexual education Programs in which the Minor’s Parent/Legal Guardian/Foster Parent have given prior written consent.

8. Not engage in abusive conduct of any kind toward, or in the presence of, a Minor. For example, no Authorized Adult shall strike, hit, administer corporal punishment or touch in an abusive or illegal manner any Minor. If necessary, touching should only be in the open, in response to the Minor’s immediate physical needs, for a purpose that is consistent with the Program’s mission and culture, or for a clear educational, development, safety, or health-related purpose (i.e., treatment of an injury).

9. Not possess fireworks, firearms, knives, or other weapons, unless being used for an officially sanctioned and approved instructional Program. (See also the Weapons policy [PC 6.27]).

10. Not transport Minors, except as specifically authorized in writing by the Minor’s Parent/Legal Guardian/Foster Parent, or in the case of an emergency.

11. Not engage in the use of alcohol or illegal drugs, or be under the influence of alcohol or illegal drugs, during such Programs or activities. (See also the Alcohol and Other Drugs policy [PC 5.1]).

12. Respect and adhere to any resistance from the Minor unless it is a life-threatening emergency.

13. Not continue to participate in Programs or activities if an allegation of prohibited or illegal conduct has been made against an Authorized Adult covered by this Policy until such allegation has been satisfactorily resolved and future participation in Programs is permitted by the University.

14. Not engage in any activity that violates the policies of the University (www.gvsu.edu/policies). This includes the harassment policies [PC 9.1, PC 9.31], the Sexual Misconduct policy [PC 9.4], and the Religious Inclusion policy [PC 9.6].

Those who do not meet the prescribed standards of behavior may be asked to leave the Campus and/or Program and may be subject to expulsion from the Program, suspension of attendance, being issued a “no-trespass” order by Public Safety, or disciplinary action up to and including termination of employment. (See also Section VII of this policy.)

The behavioral requirements in this policy are not meant to preclude enrolled University students from developing appropriate friendships with Minors who are close in age to the enrolled student; rather, the requirements are meant to protect Minors from abusive or illegal contact and inappropriate relationships.

III. Third Party Programs Held on University Property

Third Parties using University facilities for events that involve Minors shall operate within all policies and requirements to use University facilities. In addition, adults who interact with Minors in these activities shall conform to the conduct requirements in Section II of this policy.

IV. Minors Enrolled in Courses

Minors who are matriculated students of the University, guest students from other institutions, or dual-enrolled students are subject to all university policies. Adults who interact with Minors (e.g., faculty teaching courses, academic advisors) are also subject to all university policies, and shall conform to the conduct requirements in Section II of this policy. The requirements of Section I of this policy do not apply.

V. Minors at the University Who Are Not Participating in a Program

1. Minors brought to Campus by an employee, student, or visitor, and who are not participating in a Program by a Sponsoring Unit, are the sole responsibility of the employee, student, or visitor. The person bringing the child to Campus is responsible for all aspects of the Minor’s behavior including the Minor’s safety and is financially responsible for any damages caused by the Minor.

2. Minors are permitted at events and venues open to the public. However, the University reserves the right to determine, in its sole discretion, whether selected events or venues are appropriate for unescorted or unsupervised Minors.

3. In the event a Minor is on Campus and 1) is unsupervised by an adult, 2) they are not a Participant in a University Program, and 3) they are not a Participant in a Third Party Program (Section III), they may be required to leave the Campus.

Activities for which this Section V of the policy is relevant include:

- Events or performances on Campus that are open to the general public (e.g., athletic competitions, plays, concerts);
- Pre-enrollment visits such as admission, recruiting, and orientation events;
- Services provided by the Campus Health Center or other similar On-Campus clinical services during which a Minor is under the supervision of a Parent/Guardian/Foster Parent or a clinical provider;
The following activities are exempt from this policy: Off-campus clinical, practicum, internships, student teaching, or similar experiences in which (1) University students (undergraduate or graduate) interact with Minors as part of the experience and (2) are supervised by a third party. This also includes Off-Campus events in which registered student organizations participate with third-party organizations.

VI. Reporting Requirements

Reporting requirements of suspected child abuse or other illegal conduct towards a Minor shall be in accordance with applicable federal, state and local laws. In particular, see:

- State of Michigan Department of Health and Human Services rules on reporting abuse and neglect. (This page includes indicators of child abuse and/or neglect and the State of Michigan's definition of "Mandatory Reporters").

Individuals who witness or suspect child abuse should not conduct an investigation or delay in notifying the appropriate authorities via 911. Such actions could taint any appropriate criminal or administrative investigation and render evidence inadmissible.

In addition, the University’s Police Department/Public Safety site provides up-to-date definitions of unlawful behavior:

VII. Additional Considerations

1. When an Authorized Adult or other person has been alleged to engage in inappropriate conduct with a Minor, that individual must discontinue any further participation in Programs covered by this policy until such allegation has been satisfactorily resolved and he or she has been given written permission by the University to participate again in Programs. Resolution of the allegation will involve appropriate investigatory steps, and any written permission to continue participation (or participate in the future) in a Program covered by this policy must be coordinated with Human Resources.

2. Any person that requires accommodations due to a disability, while visiting campus must inform the Sponsoring Unit of their needs.

VIII. Interaction with Other Standards, Practices, and Requirements

Nothing in this policy is meant to supersede or replace the standards of practice of other entities in responding to child abuse, suspected incidents of child abuse or threats of child abuse. Satisfying the requirements of this policy does not relieve a person from any obligation to follow the protocols of another entity that may apply to the particular incident. Individual University units maintain the discretion to impose safety measures beyond those required by this policy on University Programs they sponsor or oversee. Additionally, all state and federal requirements must be followed.

PROCEDURES

Human Resources may develop forms and guidelines to assist Programs that wish to work with Minors on Campus. In addition, Human Resources will conduct random audits annually to ensure compliance with this policy.

DEFINITIONS:

Definitions

1. “Authorized Adult” is an individual, age 18 and older, paid or unpaid, who supervises, chaperones, or otherwise works with Minors in Program activities, or recreational, and/or residential facilities. This includes but is not limited to faculty, employees, student employees, staff, volunteers, graduate and undergraduate students, interns, teachers, employees provided by temporary agencies, third-party hosts, and independent contractors/consultants. The role of Authorized Adult may include positions such as counselors, chaperones, coaches, instructors, and other similarly situated persons. Temporary guest speakers, presenters and other individuals who have no direct contact or only incidental contact with Program Participants, other than as short-term activities supervised by Program staff, are not considered Authorized Adults but are still expected to conform to the conduct requirements in Section II of this policy.

2. “Campus” includes all domestic real property owned or leased by the University and can include any of its campuses.

3. “Parent” is the natural Parent or adoptive Parent as recognized under the law, of a Minor child whose parental rights and responsibilities have not been terminated under applicable law. “Legal Guardian” is any person appointed under applicable law to have the care and management of the person, the estate, or both of a Minor. “Foster Parent” is a person appointed by the court to temporarily provide the care and management of the minor child.

4. “One-on-One Contact” is personal, unsupervised interaction between any Authorized Adult and a single Program Participant Minor without at least one other Authorized Adult, Parent or Legal Guardian being present. Unless in public spaces, such contact is to be avoided by all adults on Campus, whether considered an Authorized Adult under this policy or not.

5. “Program” or “Programs” are programs and activities offered by various academic or administrative units of the University, whether on University property or not, that potentially will include Minors as Program Participants. This includes but is not limited to workshops, sports camps, academic camps, conferences, and similar activities.

6. “Program Participants” are Minors who are involved in University-sponsored Programs both on and off Campus.

7. “Sponsoring Unit” is the academic or administrative unit of the University that offers a Program or gives approval for housing or other use of facilities.
In the pursuit of its mission, Grand Valley State University through its Board of Trustees, Senior Leadership Team, faculty, staff and other representatives operates with the highest level of ethical behavior including, but not limited to, acting with integrity, reasonableness and fairness in our dealings, and avoiding bias or undue influence. Consistent with these values, the Board of Trustees has adopted institutional policies for identifying and managing potential, actual and perceived conflict of interest situations:

Grand Valley State University Board of Trustees’ Policies BOT 4.1.6: Conflict of Interest

1. Employment. Appointment of any relative of a faculty or staff member must be approved by the president in advance of the appointment in order to insure that no conflicts of interest exist. Each appointing officer must insure that no conflicts of interest exist in matters of appointment, retention, promotion, termination, assignment or other conditions of employment for relatives of faculty or staff members within his or her unit.

2. Financial. It shall be the responsibility of the president (or his/her designee) to insure that conflicts of financial interest do not occur, and to take such steps to protect the university as seem to be required. The university respects the rights of its faculty and staff members in their activities outside their employment, which are private in nature and which in no way conflict with or reflect upon the university.

3. Political Candidates or Office Holder. The university affirms the rights of its faculty and staff members as citizens to be active in political affairs, which do not conflict with the professional standards and ethics of their employment. It shall be the responsibility of the president (or his/her designee) to ensure that conflicts involving professional standards and ethics do not occur with Grand Valley State University faculty and staff members who are political candidates or office holders, and to take such steps to protect the university as may be required.

Grand Valley State University Board of Trustees’ Policies, 6.16: Economic Development

Consistent with its public service mission, the University has a responsibility for supporting the economic development of the state, particularly west Michigan through a variety of initiatives including but not limited to the Van Andel Global Trade Institute, the West Michigan Science and Technology Initiative through the Grand Rapids SmartZone and the Muskegon SmartZone. These efforts will involve the development and commercialization of intellectual property using University resources, which may result in royalty or ownership interests for the benefit of the University. In compliance with MCL 15.321 et. seq, the President must review any conflict of interest and authorize such activities as may be deemed necessary when the University is an interested party in the joint development or commercialization of intellectual property with any employee of the University or a business in which the University employee has an equity interest. The President shall report his/her approval of such conflicts, including a summary of the issues and the rationale for his/her decision, at the next regularly scheduled board meeting, and shall make an annual report of all such conflicts.

PROCEDURES

In addition to the policy obligations described above, the University requires compliance with procedures to avoid or address conflicts of interest as provided by the following offices:

Refer to the Procedures for Conflicts of Interest table.

LEGAL SERVICES POLICY

SLT 10.2

Date of Last Update:
March 03, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

Pursuant to Grand Valley State University Board of Trustees’ Policies BOT 10.2 approved by the Board of Trustees, the President has designated that legal services be coordinated through one administrative office, the Division of Legal, Compliance and Risk Management. All legal services for Grand Valley State University shall be provided through the Division of Legal, Compliance & Risk Management, either by its legal staff, by outside counsel retained by this Division or both. All requests for legal services on behalf of the University must be directed to this Division. The Division of Legal, Compliance and Risk Management provides legal counsel and assistance exclusively to Grand Valley State University representatives regarding University matters.

Personal legal advice or representation with regard to a personal matter should be privately retained and paid for by other than University funds.

FREEDOM OF INFORMATION ACT POLICY

SLT 10.3

Date of Last Update:
June 03, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

Section 1 of the Michigan Freedom of Information Act ("FOIA" or "the statute") provides, "It is the public policy of this state that all persons, except those persons incarcerated in state or local correctional facilities, are entitled to full and complete information regarding the affairs of government and the official acts of those who represent them as public officials and public employees, consistent with this act. The people shall be informed so that they may fully participate in the democratic process." (1) To that end, all people, excluding prisoners, are allowed to file FOIA requests with a Grand Valley State University (the "University"). A requester must simply file a request in writing with the University’s FOIA Coordinator, and the University will begin processing his or her request. (2) Each request must include the requesting person’s complete name, address (in compliance with United States Postal Service addressing standards), and either a telephone number or email address.

The University, in its initial response, will do one of the following within the timeframe permitted by the statute: grant the request, partially grant the request, deny the request, inform the requester that additional time is needed, require a fee deposit prior to further processing, or inform the requester that the requested record has not been sufficiently described.

If a request is denied or partially denied, the University will explain why the documents have not been released and inform the requester of his or her challenge and appeal options. A fee deposit will be required when processing a request that will require significant University employee time and resources. The University will notify the requester of the estimated cost and provide a non-binding, best efforts estimate of the time it will take to complete the processing of the request. It is possible that after further processing of the request, the University will determine that the cost of processing the request is significantly less or greater than the estimated cost. If that is the case, the University will notify the requester to allow the requester to determine whether and how he or she wants to proceed with the request.

After the University receives a required deposit, it will make every effort to provide the requested documents within the time estimate provided. Requesters must understand, however, that at any given time, the University is processing multiple requests and cannot devote all of its time to one particular request.

If a requester feels that he or she was wrongly denied responsive documents, he or she may appeal to the Head of the Public Body, which for the purposes of these Procedures and Guidelines is the Vice President and General Counsel, or file a civil action. If a requester believes that the University has required a fee that exceeds the amount permitted under the Procedures and Guidelines, he or she may file a civil action. Requesters are also always free to contact the FOIA Coordinator at 616-331-2067 or foia@gvsu.edu with any questions about the processing of their requests. Detailed Procedures and Guidelines follow.

PROCEDURES

1. How to submit a FOIA request to the University
   a. A FOIA request must be submitted in writing to the FOIA Coordinator in the Division of Legal, Compliance & Risk Management. The request may be transmitted in hard copy, by email, or by facsimile.
   b. The University's FOIA Coordinator address 4068 James H. Zumberge Hall, Grand Valley State University, Allendale, MI 49401. The email address is foia@gvsu.edu. The fax number is (616) 331-3950.
   c. A request should describe the record(s) sought sufficiently to enable the University to find the record(s) and should provide the requester's contact information.
   d. Requests should state that they are submitted pursuant to the Michigan Freedom of Information Act.
5. Procedures for Challenge and Appeal

a. If the University denies a request in whole or in part, the requester may:

i. Submit an appeal to the Head of the Public Body, which for the purpose of these Procedures and Guidelines is the Vice President and General Counsel, in writing, via the FOIA Coordinator, using the contact information listed in Item 1, above. The appeal must specifically use the word “appeal” and identify the reason(s) the requester seeks reversal of the denial. The Head of the Public Body must respond to the appeal within ten (10) business days by doing one of the following:

b. A response will consist of one or more of the following:

i. A granting of the request

ii. A partial granting of the request, and a partial denial because some or a portion of the records do not exist, are not in the possession of the University, and/or are exempt from disclosure

iii. A complete denial of the request because all of the records do not exist, are not in the possession of the University, and/or are exempt from disclosure

iv. A notice that more time is needed to process the request

1. If more time is needed, the University will send out a follow up response within 10 business days of the initial response.

v. A notice that a fee deposit is required prior to further processing

1. If a fee deposit is required, the University will include in its response a non-binding, best efforts estimate regarding the time it will take to provide the records to the requester.

vi. A notice that the record(s) sought has (have) not been sufficiently described to enable the University to locate the record(s).

c. The response will state the FOIA exemptions under which any information and/or documents are withheld, if applicable.

d. If any part of a request for records is denied for any reason, the response will set forth the procedures for appealing the denial.

4. Calculation and Payment of Fees

a. Fees are calculated by adding together the following costs:

i. The labor costs for searching for, locating, and examining responsive records

ii. The labor costs for review, separation, and deletion of exempt information from non-exempt information

iii. The cost of non-paper physical media, if used

iv. The cost per copy of paper copies, not to exceed $.05/page for standard 8 ½ x 11 inch paper

v. The labor costs directly associated with duplication or publication, which may include copying to non-paper media

vi. The cost of mailing

b. Final fees for responding to a FOIA request will be billed when the University responds to the FOIA request. A detailed FOIA fee itemization form will be provided by the University with the response. The amount invoiced must be paid within ninety (90) days. The University reserves the right to require payment in full of all fees incurred in processing a FOIA request before delivering the final, responsive documents.

c. The University’s decision to deny access to public records sought by a FOIA request because those records are, in whole or in part, exempt from disclosure does not excuse the person who files that FOIA request from payment of fees for the work undertaken by the University in response to that request.

d. The University may waive or reduce the fees it is authorized to charge if it determines that a waiver or reduction of the fee is in the public interest because responding to the FOIA request can be considered as primarily benefiting the general public.

e. Fee reductions or waivers are required in certain instances involving proven indigence or non-profit organizations. The University will apply these reductions or waivers in accordance with the statute.

3. Deposit Requirements

a. A fee deposit will be required when the processing of a request will result in fees equal to or greater than $50.00.

b. The required deposit will equal up to 50% of the estimated cost of fulfilling the request as calculated at the time of the initial response.

c. If the University requires a deposit, it will not process the FOIA request further until the deposit is paid.

d. If a deposit is not received by the FOIA Coordinator within 45 days of the initial notice, the request will be considered withdrawn. Notice of a deposit requirement is considered received three days after it is sent, regardless of the means of transmission.

e. If, after receipt of the deposit and further processing of the request, the University learns that the processing costs will be significantly different from the estimated costs, the University will so notify the requester. Where the actual effort to search for, review and separate exempt material significantly exceeds the original estimate, the University will notify the requester. The requester may choose to receive a revised fee deposit notice, or limit his/her original request to those records, which may be processed within the time stated in the original fee estimate.

f. A person who makes a FOIA request for which a deposit is required may withdraw that FOIA request without charge instead of paying the required deposit. Failure to pay the deposit will be deemed a withdrawal of the FOIA request.

g. The University will treat multiple concurrent FOIA requests on the same topic(s) and/or regarding the same record keeper(s) and from the same person as one FOIA request for purposes of determining whether the fee is below $50.00.

h. Where a requester who has not paid the final fee for the processing of an earlier request files a new FOIA request, the University may require a deposit of all (100%) of the estimated fees for processing the subsequent request prior to processing the subsequent request.

2. Responses to FOIA requests to the University

a. The University will respond to a FOIA request within five (5) business days of the FOIA Coordinator receiving the request.

b. A response will consist of one or more of the following:

i. A granting of the request

ii. A partial granting of the request, and a partial denial because some or a portion of the records do not exist, are not in the possession of the University, and/or are exempt from disclosure

iii. A complete denial of the request because all of the records do not exist, are not in the possession of the University, and/or are exempt from disclosure

iv. A notice that more time is needed to process the request

1. If more time is needed, the University will send out a follow up response within 10 business days of the initial response.

v. A notice that a fee deposit is required prior to further processing

1. If a fee deposit is required, the University will include in its response a non-binding, best efforts estimate regarding the time it will take to provide the records to the requester.

vi. A notice that the record(s) sought has (have) not been sufficiently described to enable the University to locate the record(s).

c. The response will state the FOIA exemptions under which any information and/or documents are withheld, if applicable.

d. If any part of a request for records is denied for any reason, the response will set forth the procedures for appealing the denial.

1. If a fee deposit is required, the University will include in its response a non-binding, best efforts estimate regarding the time it will take to provide the records to the requester.

1. If more time is needed, the University will send out a follow up response within 10 business days of the initial response.

vi. A notice that the record(s) sought has (have) not been sufficiently described to enable the University to locate the record(s).

c. The response will state the FOIA exemptions under which any information and/or documents are withheld, if applicable.

d. If any part of a request for records is denied for any reason, the response will set forth the procedures for appealing the denial.
1. Reversing the FOIA Coordinator’s decision
2. Upholding the FOIA Coordinator’s decision
3. Reversing in part and upholding in part the FOIA Coordinator’s decision
4. Issuing a notice of extension for not more than ten (10) additional business days.

ii. Commence a civil action in the Court of Claims within one hundred eighty (180) days after the University’s final determination to deny a request.

b. If a requester believes that the University has required payment of a fee that exceeds the amount permitted under these Procedures and Guidelines, he or she may commence an action in the Court of Claims for a fee reduction within forty five (45) days after receiving the notice of the required fee.

c. If a requester has questions regarding any FOIA response, including estimated fees or actual fees assessed, the requester should not hesitate to contact the FOIA Coordinator by email foia@gvsu.edu or telephone 616-331-2067.

FOOTNOTES
(1) M.C.L.A. 15.231.

(2) Verbal requests for information are not FOIA requests for purposes of these Procedures and Guidelines. If a verbal request for information is received by a University employee who knows that the information is available on the University’s website, the employee, where practicable, will inform the requester about the University’s website address.

(3) The University has determined, consistent with FOIA, that failure to charge fees in situations where the fees would be equal to or greater than $50.00 would result in unreasonably high costs to the University.

(4) A copy of the standard form that the University uses for fee itemization, with additional explanatory information, is attached to these Procedures and Guidelines.

(5) Labor costs will be estimated and charged in increments of 15 minutes or more, with all partial time increments rounded down. The labor is charged at the hourly rate of the lowest paid University employee capable of doing the work, plus fringe benefits, if applicable. If it is not possible for the work to be done by a University employee, the University will contract the work out and charge per the provisions of the statute.

GROUND AND FACILITY USE POLICY

SLT 10.4

Date of Last Update:
September 06, 2017

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT
I. Pursuant to Article VIII of the Michigan Constitution of 1963, Grand Valley State University (“the University”) has the responsibility to serve as a public institution of higher education. To carry out this Constitutional mandate, the University owns and/or controls property and facilities. The University has established the following grounds and facility use policy to ensure the University’s educational mission is actualized, while allowing for the exchange of ideas.

This policy applies to all buildings, grounds, and other spaces owned or controlled by the University.

For purposes of this policy, the term "Expressive Activity" includes:

1. Meetings and other group activities of students and student organizations;
2. Speeches, performances, demonstrations, rallies, vigils, and other events by students, student organizations, and outside groups invited by student organizations;
3. Distributions of literature, such as leafleting and pamphleting; and
4. Any other expression protected by the First Amendment to the U.S. Constitution.

University property is primarily dedicated to academic, student life and administrative functions. But it also represents the "marketplace of ideas," and especially for students, many areas of campus represent a public forum for speech and other Expressive Activities. For students and registered student organizations, certain areas of campus are venues for free expression, including speeches, demonstrations, and the distribution of literature, as provided by this policy.

The University shall not consider the content or viewpoint of the Expressive Activity or the possible reaction to that Expressive Activity in applying this policy. The University shall not impose restrictions on students, student organizations, or university employees due to the content or viewpoint of their Expressive Activity or the possible reaction to that Expressive Activity. In the event that other persons react negatively to a student’s, registered student organization’s, or university employee’s Expressive Activity, the University (including representatives from the Department of Public Safety) shall take all necessary steps to ensure public safety while allowing the Expressive Activity to continue, unless the University’s operations are materially and substantially disrupted.

No Expressive Activity shall be permitted to violate or hinder the rights of others within the campus community.

The University does not assume any obligation or responsibility for the content of the materials distributed.

PROCEDURES
II.

A. General Rules.

Subject to the additional rules set forth herein, students and student organizations shall be allowed to conduct Expressive Activities on University property within the following parameters:

1. The Expressive Activity does not block access to campus buildings and does not impede ingress or egress to the University, any University property, parking lot, building,
SLT 10.4.1
COMMERCIAL ACTIVITY POLICY

events; (2) registered student organization activities and events; (3) student activities and events; and (4) all other activities and events.

(1) In the event that multiple individuals or organizations submit conflicting reservation requests, the following order of precedence shall govern: (1) official University activities and events; (2) registered student organization activities and events; (3) student activities and events; and (4) all other activities and events.

FOOTNOTES

1. In the event that multiple individuals or organizations submit conflicting reservation requests, the following order of precedence shall govern: (1) official University activities and events; (2) registered student organization activities and events; (3) student activities and events; and (4) all other activities and events.

COMMERCIAL ACTIVITY POLICY

SLT 10.4.1
POLICY STATEMENT

Pursuant to Article VIII of the Michigan Constitution of 1963, Grand Valley State University ("the University") has the responsibility to serve as a public institution of higher education. To carry out this constitutional mandate, the University owns and/or controls property and facilities. The University has established the following policy to ensure the University's educational mission is actualized, while allowing certain Commercial Activities on University property.

The University reserves the right to deny proposed Commercial Activities that compete with the University or its operations. This policy does not apply to the use of student housing facilities by residents, which is subject to the terms and conditions of the housing agreement. The use of University property for government functions is not subject to this policy.

Definitions

For the purposes of this policy, the term “Commercial Activities” includes:

1. The lawful selling, promotion, or offering of products, goods, or services;
2. The dissemination or collection of information for the purpose of facilitating the sale of goods or services;
3. Any activity that attempts to raise funds, whether through the sale of goods and services or via donations for any entity that is not a charitable organization (e.g., a 501(c)(3) nonprofit entity);
4. The distribution or offering of free gifts, incentives, or promotions.

PROCEDURES

1. University Departments

University departments and its service providers whose function includes the sale of food or merchandise or the use of outside vendors and/or advertisers are exempt from this policy. This includes, but is not limited to, all campus dining facilities, the Laker Store, University Athletics, and University Development.

2. Registered Student Organizations

Registered Student Organizations (RSOs) may engage in Commercial Activities on University grounds subject to the provisions in the Grounds and Facility Use Policy and the conditions below.

   1. When an RSO is using University property for Commercial Activities, 100% of the proceeds must either return to the RSO or be donated to a specified charitable organization.
   2. RSOs may not sponsor or partner with outside solicitors as part of a Commercial Activity.
   3. RSOs must have at least one of their organization’s members present at all times during the Commercial Activity period, and all sales must be made on a person-to-person basis.
   4. Any literature distribution must include the name of the RSO responsible for the publication.

3. Students, Employees, and Non-University Solicitors

Students, employees, and those not affiliated with the University may engage in Commercial Activities only when renting indoor University facilities for an event, subject to the terms and conditions of their rental agreement, or when reserving outdoor space limited to the Cook Carillon Tower plaza. Outdoor reservations must be submitted to the Event Services Office at least five business days prior to the intended solicitation period. Due to high demand for space use, reservations must be canceled at least 72 hours prior to the scheduled event to receive a full refund or have previous payment applied to a new date. Reservations are subject to the provisions in the Grounds and Facility Use Policy.

   1. When using a designated outdoor space for Commercial Activities, students, employees, and non-University solicitors are required to pay $250 per calendar day to the University.
   2. There shall be no more than three separate Commercial Activities using outdoor locations at any one time.
   3. Each individual or organization is entitled to use outdoor University property as provided in this policy for a maximum of five days per semester for purposes of Commercial Activities.

POLITICAL ACTIVITY POLICY

SLT 10.5

Date of Last Update:
September 10, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

Political activity of faculty and staff members at Grand Valley State University as addressed in the Grand Valley State University Board of Trustees’ Policies BOT 4.1.6.3, in pertinent part, states: "The University affirms the rights of its faculty and staff members as citizens to be active in political affairs which do not conflict with the professional standards and ethics in employment."

Further, the Board of Trustees address the subject of Academic Freedom of faculty in the Grand Valley State University Board of Trustees’ Policies BOT 4.2.2 specifically sections 2 & 3.
2. Faculty members are entitled to freedom in the classroom in discussing their subject, but they should be careful not to introduce into their teaching controversial matter, which has no relation to their subject. (The words faculty member as used in this document are understood to include the investigator who is attached to an academic institution without teaching duties.)

3. University or university faculty members are citizens, members of a learned profession, and officers of an educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As persons of learning and as educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times act in a professional and responsible manner, and should make every effort to indicate that they are not institutional spokespersons.

In addition to University policy, state law, specifically the Michigan Campaign Finance Act, regulates political activities of public bodies, such as state universities, and its employees.

PROCEDURES

In light of University Board of Trustees’ policies and state law, the following guidelines are intended to help faculty and staff with compliance:

1. Faculty and staff members may engage themselves, as private citizens, in political activities including support or opposition to candidates for office or ballot questions on their own time. If you are working for the University and charging your time to a federal grant, any activity to support a political candidate or ballot question must be conducted on personal time. For questions about federal grants, contact the Office of Sponsored Programs for more information.

2. University departments or programs may sponsor presentations and discussion groups about an upcoming election provided that the purpose is to provide factual information on a political subject or issue if the communication does not support or oppose a ballot question or candidate by name or clear inference.

3. Classroom discussions of candidates and ballot questions must be related to course content as described in the catalog and course syllabus. A reminder to students to register to vote and to vote is permissible.

4. Faculty and staff members may express their support or opposition to candidates or ballot questions by wearing buttons.

5. Faculty and staff members, as private citizens, may elect to lend their names to support one or more candidates for office or in support of or opposition to a ballot question. However, care must be exercised to assure that the faculty or staff member does not use their University title in relation to such advocacy.

6. Faculty and staff members shall not use University resources for political activity to support or oppose candidates for office or ballot questions. “University resources” includes, but is not limited to:

   a. University funds or money administered through a University budget;
   b. University facilities including office space or meeting rooms (except speech in open forum areas) or use of University office address;
   c. University equipment including office or cellular telephones, computer hardware or software, printers, copiers and facsimile machines;
   d. University-provided email addresses or use of the University email system;
   e. University supplies including stationary, paper, postage, pens, pencils, and other office supplies;
   f. University identifying marks including trademarks, logos, University letterhead, and University titles; and
   g. University time including when the faculty or staff member is working or the use of clerical or student worker time.

SOCIAL SECURITY NUMBER PRIVACY POLICY

SLT 10.6

Date of Last Update:
July 31, 2008

Approved By:
   • Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

1. Applicability This policy applies to all members of the GVSU community including faculty, staff and students.

2. Access to Social Security Numbers. GVSU restricts access to information or documents containing social security numbers to members of the GVSU community who have a legitimate university business reason to access such information or documents. The heads of departments having access to records containing social security numbers shall determine which other personnel within their departments have a legitimate reason in the University’s ordinary course of business to have access to such social security numbers. Personnel using such records containing Social Security Numbers must take appropriate steps to secure such records when not in immediate use.

3. Confidentiality of Social Security Numbers. Members of the GVSU community shall maintain the confidentiality of university information or documents containing social security numbers consistent with the law and this policy. No person shall knowingly obtain, store, transfer, use, disclose, or dispose of social security numbers except in accordance with the law and this policy.

4. Obtaining Social Security Numbers. Social security numbers should be collected only where required or permitted by federal and state law or for legitimate university business reasons consistent with law and policy.

5. Public Display. No more than four sequential digits of a social security number shall be on public display. Public display means to post, make visible, or set out for open view to members of the public or in a public manner. This includes open view on a computer screen or device.

6. Account Numbers. As of the effective date of this policy, GVSU has undertaken a systematic process to eliminate social security numbers as identification numbers for all current members of the GVSU community. Once assigned an alternative identification number, neither the University nor the individual may return to the use of a social security number as an identification number for that person.

7. Mailed Documents. Documents containing more than four sequential digits of a social security number shall only be sent by mail in cases where state or federal law, rule, regulation, or court order or rule authorizes, permits or requires that a Social Security number appear in the document, the document is sent as part of an application or
enrollment process initiated by the individual, at the request of or with the permission of the individual, their parent or guardian, or with regard to an employee or health insurance benefit. Documents containing more than four sequential digits of a social security number, that are properly sent through the mail, shall not reveal the number through the envelope window or otherwise be visible from the outside of the envelope or package. Mail includes delivery by regular US mail, campus mail, or any other delivery service that does not require the signature of the recipient indicating actual receipt.

8. Freedom of Information Act Requests. Where more than four sequential digits of a social security number are contained within a document subject to release under the Freedom of Information Act, the social security number shall be redacted or otherwise rendered unreadable before the document or copy of the document is disclosed. Any request for disclosure of documents under the Freedom of Information Act shall be first referred to the Division of Legal, Compliance and Risk Management.

9. Storage of Documents. All documents containing social security numbers shall be stored in a physically secure manner. Social security numbers shall not be stored on computers or other electronic devices that are not secured against unauthorized access.

10. Disposal of Documents. Documents containing social security numbers will be retained in accordance with the requirements of state and federal law and consistent with the legitimate business needs of GVSU. At such time as documents containing social security numbers may be disposed of, such disposal shall be accomplished in a manner that protects the confidentiality of the Social Security numbers, such as by shredding.

11. Unauthorized Use or Disclosure of Social Security Numbers. GVSU shall take reasonable measures to enforce this Privacy Policy and to correct and prevent the reoccurrence of any known violations. Anyone who knowingly obtains, uses or discloses social security numbers for unlawful purposes or contrary to the requirements of this policy, state or federal law, shall be subject to discipline up to and including discharge for employees or expulsion for students consistent with existing disciplinary policies. Additionally, certain violations of the Act carry criminal and/or civil sanctions. GVSU will cooperate with the appropriate law enforcement or administrative agencies in the apprehension and prosecution of any person who knowingly obtains, uses or discloses Social Security numbers for unlawful purposes.

12. Lawful and Required Use. Nothing in this policy is designed to prohibit the collection, retention or transmission of documents or records containing Social Security numbers as required or permitted by state or federal law, rule or regulation, at the request of or with permission of the individual, for administrative use in the ordinary course of business to verify identity, to pursue legal rights of GVSU, or to provide or administer employee benefits such as health or retirement benefits.

VOLUNTEERS POLICY

SLT 10.7

Date of Last Update:
April 25, 2013

Approved By:

- Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

This policy is intended to reduce the risk related to the use of volunteers and their activities. The University accepts volunteer support to accomplish its educational mission and desires to ensure that volunteer relationships with the University are clearly established and understood by all parties. Payment for volunteer services is not allowed. However, University departments may reimburse volunteers for actual and reasonable expenses, following the appropriate university policies. The University requires the same attention to duties and responsibilities for volunteers as it does for employees of the University. This policy also does not cover or govern volunteers who agree to serve as human subjects in University research protocols, as they are covered by other policies under the administration of the Human Research Review Committee.

PROCEDURES

Relationship

Volunteer arrangements may not be used to circumvent the established processes that govern the employment of people. Volunteers do not have an employment relationship with the University on any grounds or for any reason and are not covered by the Fair Labor Standards Act, Michigan wage laws, or the Youth Employment Standards Act, and are not eligible for any University benefit, including Worker’s Compensation, or any other benefits of employment from the University, including but not limited to, health care, vacation, or sick time. Volunteers are not provided with accident or medical insurance, and are therefore responsible for any accident or medical expenses that may be incurred as a result of the volunteer assignment.

Payment for volunteer services is not permitted under any circumstance. However, the appropriate department has the authority to decide whether to reimburse a University volunteer for actual and reasonable expenses so long as the expenses fall under the University’s reimbursement guidelines located on the Business and Finance website. Reimbursement cannot be used as a substitute for compensation nor can it be linked to the volunteer’s productivity.

Volunteers may not receive any institutional marketing materials reflecting their name and the University logos such as: business cards, letterhead, unless approved by the appropriate Vice President or Senior Leadership Team member.

Protection of Volunteer

According to the Board Policy BOT 10.3, Indemnification:

“It is the policy of Grand Valley State University to support its Board members, officers, faculty, and staff in the reasonable and proper performance of their official duties, and to support students and volunteers when performing services on behalf of or under the direction of the university.”

Volunteers are indemnified in the same manner as employees. It is important that the department or unit managing the volunteer maintain records as specified in this policy in order to ensure their volunteers are properly covered.

Eligibility

To be eligible to become a volunteer, one must:
1. Be willing to provide services according to this policy, complete and sign a Grand Valley State University Volunteer Profile, Disclosure, and Consent Form as well as other associated forms if deemed appropriate.

2. Have parental consent if under the age of 18.

3. Complete the Authorization for Release of Information for Background Check if the volunteer assignment involves working directly with minor children, money or access to confidential information regarding employees, students, health, financial data, etc., and

4. Be authorized through the Department of Public Safety if the volunteer assignment requires operating a vehicle owned or leased by the University.

**Responsibilities of the University Department Engaging Volunteers**

Departments must keep records of volunteer names, dates of service(s), and services performed for a period of one year following the end of the volunteer assignment.

It is the responsibility of the individual unit to ensure that volunteers are aware of the unit’s rules and regulations. Volunteers must have the necessary training and/or supervision to safely carry out volunteer work. If the volunteer assignment involves providing professional services such as those performed by accountants, architects, doctors, engineers, etc., the department must assure that the volunteer has the appropriate credentials including licensure and/or certification.

**Definition:**

A volunteer is defined as an uncompensated individual who performs services directly related to the operations of the University for its benefit, to the mission of the University, or for the volunteer to gain experience in specific endeavors. To qualify as a volunteer, an individual must be willing to provide services according to the directions of the appropriate University representative. An individual who provides services for an entity that is not directly related to the business of the University (e.g., a government or public agency), is not considered to be a University Volunteer for the purposes of this policy.

---

**EMAIL POLICY**

**SLT 11.2**

**Date of Last Update:**
October 09, 2015

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
Information Technology

---

**POLICY STATEMENT**
Grand Valley State University provides its faculty, staff and students with electronic mail intended for University-related purposes including direct and indirect support of the University's instructions, research, and service missions; of University administrative functions; of student and campus life activities, and of the free exchange of ideas among members of the University community and between the University community and the wider local, national, and world communities.

The rights of academic freedom and freedom of expression apply to the use of University electronic mail. Electronic mail sent or received using University facilities is, however, University business and cannot be guaranteed total privacy. The University does not routinely inspect, monitor, or disclose electronic mail without the holder's consent. Nonetheless, subject to the requirements for authorization, notification, and other conditions specified in this Policy, the University may deny access to its electronic mail services and may in exceptional circumstances inspect, monitor, or disclose electronic mail.

**PROCEDURES**

**Applicability**

This Policy applies to:

- All electronic mail systems and services provided or owned by the University
- All users, holders, and uses of University e-mail services
- All University e-mail records in the possession of University faculty, staff or students or other e-mail users of electronic mail services provided by the University

This Policy applies only to electronic mail in its electronic form. The Policy does not apply to printed copies of electronic mail.

This Policy applies equally to transactional information (such as e-mail headers, summaries, and addresses) associated with e-mail records as it does to the contents of those records.

All users of University electronic mail are subject to:

- Comply with all federal, Michigan, and other applicable laws and regulations; all generally applicable University rules and policies; and all applicable contracts and licenses. Examples of such laws, rules, policies, contracts, and licenses include the laws of libel, privacy, copyright, trademark, obscenity, and child pornography; the Electronic Communications Privacy Act and the Computer Fraud and Abuse Act, which prohibit unauthorized use or entry into another’s account; the University’s Student Code; the University’s Anti-Harassment policy; and all applicable software licenses.

- Users who engage in electronic communications with persons in other states or countries or on other systems or networks should be aware that they may also be subject to the laws of those other states and countries and the rules and policies of those other states and networks. Users are responsible for ascertaining, understanding, and complying with the laws, rules, policies, contracts, and licenses applicable to their particular uses.

- Act within the normal standards of professional and personal courtesy and conduct. Access to University electronic mail services, when provided, is a privilege that may be wholly or partially restricted by the University without prior notice and without the consent of the e-mail users when required by and consistent with violations of University policies, regulations and law.

- Use only those computing resources that they are authorized to use and use them only in the manner and to the extent authorized. Ability to access computing resources does not, by itself, imply authorization to do so. Users are responsible for ascertaining what authorizations are necessary and for obtaining them before proceeding. Accounts and passwords may not, under any circumstances, be shared with, or used by, persons other than those to whom they have been assigned by the University.

- Respect the finite capacity of the resources and limit use so as not to consume an unreasonable amount of those resources or to interfere unreasonably with the activity of other users. Although there is no set bandwidth limit or CPU time, uses of University electronic mail may be required to limit resources in accordance with this principle.

- Inspection, monitoring or disclosure of University e-mail records will be at the e-mail holders consent wherever possible. However, if consent cannot be obtained either voluntarily or involuntarily, the request shall be brought before University Counsel.

**Specific Provisions**

**A. Users**

Users of University electronic mail services are to be limited primarily to University students, faculty, staff, retirees, and others authorized by the University. Upon normal termination of employment, employees may retain access to the e-mail account for 30 days. Employees terminated by the University will have the e-mail account terminated immediately. Retired employees may request access to the e-mail account as part of the benefit package. Students retain access to an e-mail account as long as they are registered for courses or completed graduation. GVSU retains the right to remove email services at any time.

**B. Account Usage**

GVSU has the right to restrict the amount of storage space available on the network. If an individual wishes to backup and store e-mail for extended purposes, it is the individual’s responsibility to do so.

Users are granted access to services only for so long as they abide by the Computing Conditions of Use policy. No person shall gain use of the University's computer system without proper authorization. Any attempt by a user to gain access to another person’s network account, private network drive, or restricted areas on the GVSU computer system is prohibited.

University e-mail services shall not be used to send unsolicited commercial emails and such use may result in your account being disabled.

University e-mail services shall not be used for purposes that could reasonably be expected to cause, directly or indirectly, excessive strain on any computing resources (bandwidth issues), or unwarranted or unsolicited interference with others use of e-mail or e-mail systems. Such uses include, but are not limited to, the use of e-mail services to: (1) send or forward e-mail chain letters; (2) "spam," that is, to exploit listservs or similar broadcast systems for purposes beyond their intended scope to amplify the widespread distribution of unsolicited e-mail; and (3) "letterbomb," that is, to resend the same e-mail repeatedly to one or more recipients to interfere with the recipient’s use of e-mail.

**C. Representation**

Electronic mail users shall not give the impression that they are representing, giving opinions, or otherwise making statements on behalf of the University or any unit of the University unless appropriately authorized (explicitly or implicitly) to do so. Where appropriate, an explicit disclaimer shall be included unless it is clear from the context that the author is not representing the University. An appropriate disclaimer is: "These statements are my own, not those of the Grand Valley State University."

**Policy Violations**

Violations of University policies governing the use of University electronic mail services may result in restriction of access to University information technology resources. In addition, disciplinary action, up to and including dismissal, may be applicable under other University policies, guidelines, implementing procedures, or collective bargaining agreements.

Violations will normally be handled through the University disciplinary procedures applicable to the relevant user. The University may temporarily suspend or block access to an account, prior to the initiation or completion of such procedures, when it reasonably appears necessary to do so in order to protect the integrity, security, or functionality of University or other computing resources or to protect the University from liability. The University may also refer suspected violations of applicable law to appropriate law enforcement agencies.

Refer to Appendix A. for detail on additional polices and guidelines.
Security and Privacy

The University owns all electronic mail address assigned by the University. The University employs various measures to protect the security of its computing resources and of their users’ accounts. Users should be aware, however, that the University couldn’t guarantee such security. Users should therefore engage in “safe computing” practices by establishing appropriate access restrictions for their accounts, guarding their passwords, and changing them regularly. Security and privacy of e-mail sent or received outside of GVSU is subject to standards of other organizations and may be more or less restrictive and provide more or less privacy protection.

Users should also be aware that their uses of University computing resources are not completely private. While the University does not routinely monitor individual usage of its computing resources, the normal operation and maintenance of the University’s computing resources require the backup and caching of data and communications, the logging of activity, the monitoring of general usage patterns, and other such activities that are necessary for the rendition of service.

The University reserves the right to monitor e-mail records, without notice, when

a. The user has voluntarily made them accessible to the public
b. It reasonably appears necessary to do so to protect the integrity, security, or functionality of University or other computing resources or to protect the University from liability
c. There is reasonable cause to believe that the user has violated, or is violating, this Policy
d. An account appears to be engaged in unusual or unusually excessive activity, as indicated by the monitoring of general activity and usage patterns
e. It is otherwise required or permitted by law

Any such individual monitoring, other than that specified in “a” above, required by law, or necessary to respond to perceived emergency and/or time-sensitive situations, must be authorized in advance by University Counsel and an Executive Officer.

The University, in its discretion, may disclose the results of any such general or individual monitoring, including the contents and records of individual communications, to appropriate University personnel or law enforcement agencies and may use those results in appropriate University disciplinary proceedings.

Normal examination of e-mail headers by the e-mail administrator is standard procedure to resolve problems and redirect incorrect addressed e-mail.

Posting and Authority to Change

Because University policies are subject to change, this list may change from time to time. The authoritative list at any time will be posted under the listings of University policies posted on the World Wide Web. Authority to change this list rests with the Vice Provost of Academic Services and Information Technology acting, where policies affecting faculty are concerned, with the advice of the Academic Senate, where policies affecting students are concerned, with the advice of the Dean of Students, where policies concerning legal matters, with the advice of University Counsel.

APPENDIX A - REFERENCES

The following list identifies additional policies and procedures, which support this Policy: These and other laws both provide privacy protection for e-mail and require the disclosure of e-mail under some circumstances.

COMPUTER VIRUS AND MALWARE POLICY

SLT 11.3

Date of Last Update:
September 06, 2016

Approved By:
  - Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

When a device or account connected to the GVSU campus network is compromised by a virus or malicious software, the network is at great risk of harm due to potential damage of university data or disclosure of sensitive information. To preserve the health of the network and the devices connected to it, the infected device must IMMEDIATELY be disconnected.
and removed or the account blocked from the campus network until Information Technology personnel verify it is no longer compromised. Despite the disruption this may cause to the individual user, the user is required to produce any infected device to Information Technology immediately upon request in order to prevent information disclosure, data file destruction, or exploitation of the compromised account.

Information Technology personnel shall provide their identification and authorization to the device user that authorizes them to remove the afflicted device prior to its removal. For additional verification, you may call the Helpdesk at 331-2101 and ask for Level 2 staff member to verify the authorization to pick up a computer. To minimize interruption, Information Technology will take reasonable steps to provide a substitute device for use on the campus network while the user awaits repair of the original device. To report that a device might be infected, contact Information Technology immediately at 331-2101.

VOICEMAIL POLICY
SLT 11.4

Date of Last Update:
April 29, 2016

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT
Voicemail is offered to all AP and faculty personnel. Voicemail must be approved for PSS personnel and departmental lines by a Dean or Vice Provost and Vice President. Personal lines and other lines that utilize voicemail must follow the following procedures.

PROCEDURES
A department main number is never to be forwarded to a voicemail.

All greetings are to be personalized and changed when users intend to be out of the office for more than one day, especially if they do not plan to check voicemail.

An out of office greeting should provide the caller with an alternative name and telephone number to contact in case of emergency.

COMPUTING CONDITIONS OF USE (INFORMATION TECHNOLOGY)
SLT 11.5

Date of Last Update:
October 09, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT
As members of the Grand Valley State University community, you have the responsibility to use the university's Information Technology resources in an effective, ethical, and legal manner. Ethical and legal standards that apply to information technology resources derive directly from standards of common sense and decency that apply to the use of any shared resource. Grand Valley depends first upon the spirit of mutual respect and cooperation that has been fostered at the university to resolve differences and ameliorate problems. The purpose of the statement is to promote the responsible, ethical, legal, and secure use of Grand Valley's Information Technology resources, including access to the Internet, for the protection of all users.

PROCEDURES
The following guidelines will be applied to determine appropriate use of Services:

1. Accounts granted are intended solely for the use of the person the account was issued and shall not be shared.
2. To respect the privacy of other users. Users shall not intentionally seek information on, obtain copies of, or modify files, or passwords belonging to other users or the University, or represent others, unless explicitly authorized to do so by those users.
3. To respect the legal protection provided by copyright and licensing of programs, data, photographs, music, written documents and other material as provided by law.
4. To respect the intended usage of accounts and authorization for specified purposes only.
5. To respect the integrity of the system or network. One shall not intentionally develop or use programs, transactions, data, or processes that harass other users or infiltrate the system or damage or alter the software or data components of a system.
6. To adhere to all general university policies and procedures including, but not limited to, policies on proper use of information resources, information technology, and networks; acquisition, use, and disposal of University-owned computer equipment; use of telecommunications equipment; ethical and legal use of software; and ethical and legal use of administrative data.
7. Using university technology resources for commercial use is strictly prohibited. Such resources are to be solely used in conjunction with doing business for GVSU or purposes directly related to academic work.
8. To refrain from unauthorized use of network Services which significantly hampers other GVSU constituents network access.
9. Unauthorized use of GVSU networks and/or computers for non-academic purposes is prohibited, including revenue generating advertising and promotion of business not related to GVSU.
10. Network connections in Student Housing are intended strictly for client access to GVSU and Internet resources. Residents are not permitted to offer services to other
computers, either external or internal, within the GVSU Housing Network. External requests for services destined to the GVSU Housing Network are not permitted. Information Technology reserves the right to disable network connections within the GVSU Housing Network if complaints are received and it is verified that a computer is offering an internal service.

11. The Computer Science and Engineering departments have dedicated networks that can be used for servers that need to offer services to other computers for educational purposes; in this case the department is responsible for monitoring and approving the services that are offered as well as verifying that the computers have been patched and secured against known Internet attacks.

12. All users of Grand Valley’s e-mail accounts are expected to adhere to the Electronic Mail Policy
13. All users of Grand Valley’s external network connections (i.e., Merit and NSFNET) shall comply with the evolving “Acceptable Use” policies established by the external networks’ governing bodies.

- Merit Acceptable Use Policy
- The NSFNET Backbone Services Acceptable Use Policy

The intent of this policy is to identify certain types of uses that are not appropriate. Using the guidelines given above, GVSU may at any time make a determination that a particular use is not appropriate.

GVSU will not monitor or judge the content of information transmitted via the Services, but will investigate complaints of possible inappropriate use. In the course of investigating complaints, GVSU staff will attempt to preserve the individual's privacy. GVSU is subject to the Freedom of Information Act and may be required to supply personal computing information.

**DIGITAL MEDIA POLICY**

SLT 11.6

**Date of Last Update:**
April 19, 2015

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Information Technology

**POLICY STATEMENT**

Technology provides multiple avenues for creating, collecting and distributing information. The ease of access to this information does not preclude the responsibility of understanding the legal issues involved in intellectual property.

**PROCEDURES**

Copyright law protects all material unless placed in the public domain, electronic and digital media included. Owners of copyrights hold exclusive right to the reproduction and distribution of their material.

Unauthorized use and distribution of copyrighted material is illegal. Legal action against the individual as well as the university may occur, this includes all audio and video files.

The [GVSU Library Course Reserve Department](#) processes copyright clearance for all materials placed on library course reserve by professors. This includes both paper (traditional) and online digital access.

The Digital Millennium Copyright Act (DMCA) of 1998 provides recourse for copyright owners who believe that their rights have been infringed by unauthorized use of their protected works at an online location. Copyright owners may contact the service provider to request that the infringing material be removed or access blocked. Grand Valley State University’s designated DMCA agent is:

Bill Fisher
Associate Director, Technical Services
Grand Valley State University
Allendale, MI 49401
phone: (616) 331-2035

For More Information on the DMCA and other copyright issues see, [www.copyright.gov](http://www.copyright.gov)

**CONFIDENTIALITY, DATA & SECURITY POLICY**

SLT 11.7

**Date of Last Update:**
December 08, 2014

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Information Technology

**POLICY STATEMENT**

Grand Valley State University regards security and confidentiality of data and information to be of utmost importance. As such, individuals employed by the University must follow the procedures outlined below.
PROCEDURES

Confidentiality of Data

Each individual granted access to data and information holds a position of trust and must preserve the security and confidentiality of the information he/she uses. Individuals are required to abide by all applicable Federal and State guidelines and University policies regarding confidentiality of data including, but not limited to, the Family Education Rights and Privacy Act (FERPA). FERPA protects student information and may not be released without proper authorization. Requests for information/documents should be referred to the Registrar’s Office or the Legal, Compliance & Risk Management Office.

Individuals with authorized access to Grand Valley State University’s computer resources, information system, records or files are given access to use the University’s data or files solely for the business of the University. Specifically, individuals should:

1. Access data solely in order to perform his/her job responsibilities.
2. Not seek personal benefit or permit others to benefit personally from any data that has come to them through their work assignments.
3. Not release University data other than what is required in completion of job responsibilities.
4. Not exhibit or divulge the content of any record, file or information system to any person except as it is related to the completion of their job responsibilities.

Additionally, individuals are not permitted to operate or request others to operate any University data equipment for personal business, to make unauthorized copies of University software or related documentation, or use such equipment for any reason not specifically required by the individual’s job description.

It is the individual’s responsibility to report immediately to his/her supervisor any violation of this policy or any other action, which violates confidentiality of data.

Security Measures and Procedures

Some individuals employed by the University are supplied with a network account to access the data necessary for the completion of their job responsibilities. Users of the University information systems are required to follow the procedures outlined below:

1. Storage of student or staff confidential data on local storage media (Laptops, Desktops, CDs, Thumb drives, etc) without proper data encryption is strictly prohibited. Please contact Information Technology to discuss secure options if confidential data must be transported outside of the secure network.
2. All transactions, processed by a user ID and password, are the responsibility of the person to whom the user ID was assigned. The user’s ID and password must remain confidential and must not be shared with anyone.
3. Access to any faculty or staff account may be granted by the faculty/staff member and/or the direct supervisor for specific job requirements. You are prohibited from viewing or accessing additional information (in any format). Any access obtained without written authorization is considered unauthorized access.
4. Passwords should be changed periodically or if there is reason to believe they have been compromised or revealed inadvertently.
5. Upon termination or transfer of an individual, Information Technology will immediately remove access to GVSU data. The email account may stay active for a period of up to 30 days.

Access to University data and information is for the sole purpose of carrying out job responsibilities. Breach of confidentiality, including aiding, abetting, or acting in conspiracy with any other person to violate any part of this policy or FERPA policy, may result in sanctions, civil or criminal prosecution and penalties, loss of employment and/or University disciplinary action, and could lead to dismissal, suspension, or revocation of all access privileges.

FACULTY/STAFF ABUSE OF TECHNOLOGY

SLT 11.8

Date of Last Update:
April 19, 2015

Approved By:
• Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

Information Technology has two primary policies in place that deal with technology resources:

Conditions of Use: As members of the Grand Valley State University community, all users have the responsibility to use the university's information technology resources in an effective, ethical, and legal manner. This document outlines these responsibilities.

E-Mail Policy: This Policy clarifies the applicability of law and of other University policies to electronic mail. It also defines new policy and procedures where existing policies do not specifically address issues particular to the use of electronic mail.

The policies and procedures to deal with abuse of technology resources for faculty and staff are outlined below.

• Level I - Complaint
  • Complaints may be received from an internal or external GVSU constituent
  • Upon verification of abuse by an Information Technology staff member, the information is communicated to either the Vice Provost and Dean of Academic Services or the Director of Information Technology
  • Upon review from the Vice Provost and Dean of Academic Services and/or the Director of Information Technology, the complaint is further acted upon or discarded.

• Level II - Contact/Action for First Offenders
  • The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  • If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted.
  • The individual is apprised of their abuse and asked to refrain from continuing the infringement. If email related, the individual will be required to retract the offending message.
  • The individual will be sent a notification from IT via email of the abuse infraction and asked to return the email with their understanding and intent to comply via the
Level III - Contact/Action for Second Offenders
- The individual account will be suspended immediately (disable ability to send/receive messages).
- The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted.
- The individual Dean or manager is contacted concerning the repeated abuse.
- The individual is apprised of their abuse and asked to refrain from continuing the infringement.
- The individual account will be re-activated upon contact and compliance of the policy.
- If email abuse, the individual will be required to retract the offending message.
- The individual will be sent a notification via email of the abuse infraction and asked to return the email with their understanding and intent to comply via the policy and that they will lose account privileges completely upon the third offense.
- The individual Dean or manager will be sent a notification via email of the abuse infraction and asked to return the email with their understanding that the individual will lose account privileges completely upon the third offense.
- The email notification/compliance will be kept on file from both the individual and the Dean or manager.

Level IV - Contact/Action for Third Offenders
- The individual account privileges will be suspended immediately, which consist of email and network privileges.
- The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted. The individual Dean or manager is contacted concerning the repeated abuse.
- The HRO office is contacted concerning the repeated abuse.
- The individual is apprised of their abuse and told that their privileges have been revoked.
- The individual Dean or manager must contact the Vice Provost and Dean of Academic Services or the Director of Information Technology to discuss possible reinstatement of privileges.
  - Upon further review with the Provost (for faculty issues) and the HRO office (for staff issues), the determination to re-instate the technology privileges will be determined.
- The decision will be kept on file.

Overriding Issues
- If at any time, the technology resources that have been abused are in jeopardy of causing mass problems for GVSU constituents or the network/files have been compromised, the Vice Provost and Dean of Academic Services or the Director of Information Technology may choose to immediately suspend the individual account to ensure the integrity and continuation of services for the rest of the constituents.
- Upon a decision of this nature, the situation will be brought to the Provost, HRO, appropriate Dean or manager as quickly as possible to remedy the issue at hand.

PROCEDURES
Vice President approval is required for PSS personnel to have PhoneMail installed.

PUBLIC FOLDER POLICY

SLT 11.10

Date of Last Update:
April 19, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

GVSU provide public folders to allow postings from any Outlook user on events, announcements, information of interest and a method to buy/sell articles.

PROCEDURES

Guidelines for consistent and proper use

- Messages posted to the business related public folders should pertain to GVSU sponsored programs, events, or activities.
  - Messages intended for private business or personal profit shall not be posted
  - Commercial message and advertisements for non-GVSU entities shall not be posted
- Messages posted to the Barter Board specifically may refer to personal items for sale or items wanted to buy.
  - Messages intended for private business are not allowed
  - Commercial messages and advertisements for items for sale or services offered are prohibited, including home businesses.
  - Complaints relative to purchases of items advertised should be conducted privately •
- Additionally, messages posted to these public folders board must respect the rights of other users; for example, they must comply with all University policies regarding sexual, racial, and other forms of harassment, and shall not divulge personal data concerning faculty, staff, or students without explicit authorization to do so.

Message life span:

- Any message posted here should be deleted by the author as soon as its purpose has been resolved
- Messages will be deleted automatically after 7 days.

SECURE OFFICE PROCEDURE

SLT 11.11

Date of Last Update:
April 19, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

It is the responsibility of all employees of the University to protect sensitive data against loss or theft. Awareness, education and practice of the following procedures can assist in this matter. These procedures are in place to help protect employees, customers, contractors and the university from damages related to the loss or misuse of sensitive information.

This document refers to securing sensitive data and physical hardware within an office environment or mobile environment where data may be referenced (at home or on a laptop). It is not meant to address electronic data stored on university servers.

PROCEDURES

Goals

In order to effectively protect and secure university data, the following goals have been established:

a) Create, distribute and annually review the "Secure Office Procedure" document
b) Train all staff members whose jobs relate to sensitive data on both the "Secure Office Procedure" and Information Security Best Practices
c) Train departmental managers to be aware of the importance of the procedures and the need to enforce them

Staff Training

Employee awareness and education is an integral part of securing sensitive data for the university. The following procedures will be enforced to ensure proper training:

a) Upon hire, the Secure Office Procedure and Setting Strong Password documents are emailed to the new employee Secure Office Procedures Page 2 of 4
b) Secure Office Procedure and Setting Strong Password documents are sent annually to all employees via email
c) Internal training, specific to each area, will be provided to employees who have access to sensitive data
d) Information Technology will provide Best Practices information at IT seminars and offer to attend annual departmental meetings to cover the below topics:
   i. Awareness of Social Engineering schemes
ii. Secure Office Procedures  
iii. Strong Password creation  
iv. Data storage  
v. Data encryption  
vi. Backups  
vii. Anti-virus and Anti-spyware tools  
viii. Non-secure technologies  

**GENERAL OFFICE SECURITY PRACTICES**

The following procedures should be followed within office suites, individual offices or workrooms and mobile locations where data may be referenced:

a) Keys or keycards used for access to sensitive data should not be left unattended
b) Passwords should not be shared or written down and left in accessible locations
c) If you have a student that will regularly be using your machine, contact the helpdesk and request a staff account for that student. (Do NOT give out your password)
d) Make certain passwords aren’t common information such as date of birth, names of children, pets, telephone numbers, etc.
e) When you leave your workstation, lock your computer screen
f) Lock up laptops, USB drives, external drives, etc. when unsupervised
g) Contact the IT Helpdesk when a computer is to be passed to a new user. IT will clean the computer, removing previous data and place a clean image on the machine.
h) Printouts containing sensitive data should be removed from networked printers immediately and filed appropriately in secure cabinets
i) Dispose of sensitive data on hard copy by shredding immediately
j) Departmental front desk staff should confirm identity of all visitors (GVSU staff/student workers or non-GVSU employees) who are entering their area(s)
  i. Employees should feel comfortable requesting what unit someone is from and the purpose of their visit
  ii. Employees should feel comfortable confirming meeting prior to allowing staff member/student employee to proceed within their departmental areas
  iii. Confirm with the GVSU employee they are scheduled to meet
  iv. Non-GVSU employees must be escorted to/from meeting area/work area
  v. Request ID if necessary
  vi. Provide front office staff the ability to view your calendar or print a schedule of your meetings in advance so they will expect attendees

k) All staff should be responsible to watch for or listen to any unusual activity and to be cognizant of their surroundings.

**Sensitive Information**

Sensitive data can be distributed via hard copy or electronic means within an office. When given the choice, store data electronically versus printing a hard copy. Consider scanning a document to store it electronically versus hard copy.

a) “Sensitive information” includes but is not limited to the following items, whether stored in electronic or printed format:
  i. All FERPA protected data*
  ii. Credit card number (in part or in whole)
  iii. Credit card expiration date
  iv. Cardholder name
  v. Cardholder address
  vi. Social Security Number
  vii. Business Identification Number
  viii. Employer Identification Number
  ix. Paychecks
  x. Paystubs
  xi. Benefit information
  xii. Giving information/history
  xiii. Health information
  xiv. Content of external grants or contracts

b) Securing hard copy sensitive data:
  i. Lock cabinets containing sensitive data when not in use or when away for extended periods of time
  ii. Storage rooms containing sensitive data should be locked at the end of the day or when unsupervised
  iii. Desks, workstations, common work areas, printers, and fax machines should be cleared of all sensitive data when not in use
  iv. Whiteboards, dry erase boards, writing tablets, etc. should be erased, removed or shredded when not in use
  v. Documents to be shredded should be done so immediately or locked up until shredding can occur
  vi. At the end of the day, all sensitive data should be in a locked drawer or cabinet

c) Securing electronic sensitive data. Please contact Information Technology if there are questions in how you are storing/sharing sensitive data electronically.
  i. Refrain, when possible from storing sensitive data on your personal computer hard drive or any external personal devices. Instead use the network drive space.
  ii. If storing sensitive data is required on your personal computer hard drive or an external device, encryption and password protection should be applied
iii. Engage the screensaver when workspace is unoccupied
iv. Computer workstations should be shut down completely at end of work day
v. Lock laptop or external devices containing sensitive data when not in use
vi. Make certain data and/or PC work station screens are not visible to the public (e.g., near windows, entry/exit doors, etc.)
vii. If email is used to share sensitive data, encryption and/or password protection should be used. The following statement should accompany the body of the email:
“This message may contain confidential and/or proprietary information and is intended for the person/entity to whom it was originally addressed. Any use by others is strictly prohibited.”

*See information regarding FERPA data at www.gvsu.edu/registrar and click on FERPA

SOFTWARE SUPPORT POLICY
SLT 11.12
Date of Last Update:
April 19, 2015
Approved By:
Senior Leadership Team
Responsible Office:
Information Technology

POLICY STATEMENT
Information Technology is responsible for providing software support to the campus community. IT resources are finite. Therefore, reasonable limits must be identified regarding the number and variety of software products supported by IT. This policy is intended to define those limits.

PROCEDURES
The software industry is characterized by constant change. Therefore, it is unreasonable to establish a single, static list of supported software. It is equally unreasonable to force the campus community to change software on a frequent basis.

Information Technology will provide support for the most recent operating systems for Windows and Macintosh platforms as well as one version back.

Standard software applications issued with a university computer will be supported in the most recent version and one version back unless compatibility issues arise.

Institutional ownership of a site license does not imply IT support for all products covered by the license. Software provided in labs and classrooms outside of the standard applications listed above are not supported by Information Technology. Software assistance is required through the vendor providing the application.

Pew Campus Security

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - PERSONNEL ADMINISTRATION
BOT 4.1.1
Date of Last Update:
June 01, 2017
Approved By:
Board of Trustees
Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT
4.1.1 Personnel Administration. Personnel Administration is a service activity in which each Appointing Officer has a role. The authority over the personnel program resides in the Board of Trustees, although the President, as agent of the Board, and other officers he/she may designate (“Appointing Officers”) have the authority to make appointments within the approved personnel program. Centralized within the Human Resources office is the responsibility and advisory authority to determine that the philosophy and policies of the personnel program are effectively applied.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - EQUAL OPPORTUNITY
BOT 4.1.2
Date of Last Update:
June 01, 2017
Approved By:
Board of Trustees
Responsible Office:
Legal, Compliance & Risk Management
POLICY STATEMENT

4.1.2 Equal Opportunity. The President and other officers to whom he/she designates authority for personnel actions are responsible for the enthusiastic application of all laws and regulations concerning fair employment practices, equal opportunity, etc., to all matters with respect to recruitment, appointment, assignment, and promotion of University's personnel. Matters of affirmative action are outlined in the "Affirmative Action Program" maintained in the Affirmative Action office.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - UNIVERSITY RESPONSIBILITIES

BOT 4.1.3
Date of Last Update: June 01, 2017
Approved By: Board of Trustees
Responsible Office: Legal, Compliance & Risk Management

POLICY STATEMENT
4.1.3 University Responsibilities. The President and other officers to whom he/she designates authority for personnel actions are responsible for administering the University and its property, supervising its operations, assigning and directing its faculty and staff, changing or introducing new operations, methods, or facilities, appointing, assigning, or disciplining faculty and staff members, subject to the guidelines herein set forth, and establishing such procedures which may be needed from time to time. For purposes of this Section 4.1, "faculty and staff" shall mean an employee covered by the Board of Trustees' Policies.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - DISCIPLINARY PROCEDURE

BOT 4.1.4
Date of Last Update: June 01, 2017
Approved By: Board of Trustees
Responsible Office: Legal, Compliance & Risk Management

POLICY STATEMENT
4.1.4 Disciplinary Procedure. The President and other administrators to whom he/she designates authority are responsible for discipline which normally shall be corrective rather than punitive in nature. A typical procedure for disciplinary action will be, depending on the seriousness or frequency of the cause, an oral discussion, a written warning, disciplinary lay-off without pay, and dismissal. All disciplinary actions are subject to the appropriate grievance procedure.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - PERSONNEL INFORMATION

BOT 4.1.5
Date of Last Update: June 01, 2017
Approved By: Board of Trustees
Responsible Office: Legal, Compliance & Risk Management

POLICY STATEMENT
4.1.5 Personnel Information. All personnel information and files maintained by the University are the confidential property of the University and are maintained in the Human Resources office. Faculty and staff members can expect that a right to a reasonable degree of privacy will be honored and that the confidential character of certain personnel data will be respected as such. Generally, release of information and/or access to such information should be restricted in accordance with the policies of the University. Whenever possible, information released for public purposes shall be in a form which will protect the anonymity of the individual; however, as of October 1979, Michigan law does require that salary information be available to the public. All personnel information collected shall be pertinent to the needs of the University. Access to personnel files is limited to those persons responsible for personnel and the faculty or staff member's supervisor. Letters of recommendation are the confidential property of the provider. A faculty or staff member will not be given access to letters of recommendation concerning himself/herself unless the provider of such recommendation agrees, in writing, to allow such access. All personnel records will be retained for the length of the faculty or staff member's service and thereafter in compliance with all applicable federal, state and local laws. Temporary records such as insurance claims will be maintained only so long as they have a useful life. Records of terminated faculty and staff members will be maintained for a minimum of seven years and thereafter only those portions having a useful life will be maintained. Information of an official nature for state and federal agencies will be provided to the extent of the matter at hand and within the limits of the law. No anonymous information will be maintained in the files. Records of disciplinary actions will be placed in the personnel files only after the individual has had an opportunity to view a copy. The University will provide prospective employers with title, employment dates, and eligibility for rehire status only, unless additional information is requested by the faculty or staff member or former faculty or staff member. Recommendations by individual supervisors may be made at their own discretion and at their own risk,
recognizing that the University may be responsible for the information given.

Personnel files may include, but are not limited to, payroll information and documentation, records of employment actions and documentation, records required by federal, state and local law, employment applications, vitae and resumes, recommendations, interview comments, fringe benefit information, merit and performance evaluation, records and documentation of disciplinary actions, official transcripts of baccalaureate or post baccalaureate degrees and such other information as may be needed from time to time. Other files maintained in accordance with the faculty appointment and evaluation policy and covered by the limitations expressed in that policy may be housed elsewhere.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - CONFLICT OF INTEREST

BOT 4.1.6

Date of Last Update:
June 01, 2017

Approved By:
* Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.6 Conflict of Interest

4.1.6.1 Employment. Appointment of any relative of a faculty or staff member must be approved by the President in advance of the appointment in order to insure that no conflicts of interest exist. Each Appointing Officer must insure that no conflicts of interest exist in matters of appointment, retention, promotion, termination, assignment or other conditions of employment for relatives of faculty or staff members within his or her unit.

4.1.6.2 Financial. It shall be the responsibility of the President (or his/her designee) to insure that conflicts of financial interest do not occur, and to take such steps to protect the University as seem to be required. The University respects the rights of its faculty and staff members in their activities outside their employment which are private in nature and which in no way conflict with or reflect upon the University.

4.1.6.3 Political Candidates or Office Holder. The University affirms the rights of its faculty and staff members as citizens to be active in political affairs which do not conflict with the professional standards and ethics of their employment. It shall be the responsibility of the President (or his/her designee) to ensure that conflicts involving professional standards and ethics do not occur with University faculty and staff members who are political candidates or office holders, and to take such steps to protect the University as may be required.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - EMERITUS APPOINTMENT

BOT 4.1.7

Date of Last Update:
February 08, 2019

Approved By:
* Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.7 Emeritus Appointment. Any retired faculty or staff member of the University who has made a significant contribution to the University through a reasonable period of service is eligible for emeritus status with an emeritus title usually conforming to that held at retirement. The President’s recommendation to the Board of Trustees will be made after consultation with the Appointing Officer, colleagues and vice-president. This recommendation may be made posthumously if all other criteria except retirement status have been met. In its sole judgement, the Board of Trustees reserves the right to revoke emeritus status. Emeriti will be appointed without compensation.

GENERAL PERSONNEL POLICIES FOR FACULTY AND STAFF - HONORARY TITLES

BOT 4.1.8

Date of Last Update:
June 01, 2017

Approved By:
* Board of Trustees

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

4.1.8 Honorary Titles. Persons who are performing significant services to the University may be given an honorary title conforming to the service performed upon recommendation of the President to the Board of Trustees. Honorary faculty and staff will be listed in appropriate publications, may participate in commencement, use library facilities, and will be encouraged to take an active role in the University. They will be appointed without compensation. The duration of an honorary appointment shall coincide with the period of service rendered.
Verification of Credentials

Obligations of Appointees

Outside employment

Three options for the commercialization of a technology are noted below. The option will be chosen by Creator(s) and the Finance and Administration Office jointly, prior to the expenditure of substantial University resources. The option chosen should be that which best serves the mission of the University,

A. The University and the Creator divide the gross revenue 70% to the University and 30% to the Creator but the University assumes the expenses related to legal protection, marketing and commercialization and licensing and other transactional expenses related to the Intellectual Property; or,

B. The University and the Creator divide the net revenue 50% to the University and 50% to the Creator but the University first recovers its expenses related to legal protection, marketing and commercialization and licensing and other transactional expenses related to the Intellectual Property.

If the University decides not to protect or license the Intellectual Property, or subsequently decides not to pursue commercialization of the Intellectual Property it may be reassigned to the Creator(s), upon request, in accordance with option 3 below.

2. Licensing Business Entities in which a Creator holds an ownership or management interest. The University or an affiliated entity may enter into license agreements with business entities in which the Creator holds an ownership interest. The terms may include royalty payment, equity interest, or a combination thereof.
3. Reassignment of ownership to Creator. The University may reassign ownership of Intellectual Property to Creator(s) who elects to market and protect the Intellectual Property. The return to the University for a reassignment of ownership will be ten percent (10%) of the net revenue generated by the Intellectual Property.

D. Definitions.

1. "Creator" shall mean a faculty or staff member who invents, discovers or creates Intellectual Property using University resources.

3. "Academic Works" shall mean Intellectual Properties that are artistic, scholarly, instructional or entertainment in nature and are not Technical Works. Academic Works include instructional materials, books, journal articles, written reports of research to the extent that they do not contain Technical Works, creative writings, manuscripts, music and art work.

4. "Technical Works" shall mean Intellectual Properties that are generally of a scientific, engineering or technical nature such as patentable or unpatentable inventions, devices, machines, processes, methods, invented or manufactured substances, and computer software.

5. "Nominal Use of University Resources" shall mean use that is customary or usual within the faculty, staff and student's appointment and assignment such as the use of an assigned office, computer, computing network, photocopier or similar reproduction device, telephone or similar telecommunication device, and office supplies in the ordinary support of his or her teaching, scholarly activities and service.

4.1.10.3 Oath of Teachers. Before serving in a teaching position, an appointee will have taken and subscribed the following oath or affirmation as required by Act 23 of the Public Acts of 1935:

"I do solemnly swear (or affirm) that I will support the Constitution of the United States of America and the Constitution of the State of Michigan, and that I will faithfully discharge the duties of my position according to the best of my ability."

4.1.10.4 Research Integrity. Research, scholarship and creative activities are central to fulfilling the mission of the University. It is policy of the University that all employees, students, partners and affiliates always perform their roles related to research, scholarship and creative activity with ethical integrity. This requirement reflects a culture publicly committed to developing and fostering the highest standards of professional ethics. Research integrity is demonstrated in the decisions and actions that exemplify our core ethical values. The core ethical values in research related activities, including scholarship and creative performance, include: 1) truthfulness and honesty; 2) non-maleficence and beneficence; 3) trustworthiness, reliability, confidentiality, respect, and collegiality; and 4) accountability.

1. Truthfulness and Honesty. Intellectual and creative activities require thoroughgoing truthfulness and honesty in proposing, conducting and reporting research related activities, scholarship and artistic performance.

2. Non-maleficence and Beneficence. Endeavors involving human or animal subjects require balancing non-maleficence with beneficence in minimizing burdens to research subjects in relation to the potential benefits to those subjects and others.

3. Trustworthiness, Reliability, Confidentiality, Respect, and Collegiality. Research integrity requires trustworthiness and reliability in recognizing and building on the prior work of others, confidentiality in peer review and assessment, and respect and collegiality in interactions with colleagues and students.

4. Accountability. The broader community's welfare depends upon explicit researcher accountability for all research, scholarship and creative performance related activities, and for reporting misconduct about which one has direct knowledge.
POLICY STATEMENT

4.1.13 Identification Cards. Each faculty or staff member will be issued an identification card which must be surrendered upon termination. This card can be used for any purpose, at the University, requiring identification.

HONORARY NAMING OF A PORTION OF A GVSU FACILITY POLICY

SLT 2.1

POLICY STATEMENT

Only in exceptional circumstances where a former member of the Grand Valley State University community has made an extraordinary, significant, positive, contribution will a portion of a facility be named for such a person. A portion of a facility may be a classroom, laboratory, conference room or similar space.

PROCEDURES

- Nominations must be made in writing to the appropriate Vice President. With the support of the Vice President, the nomination will be forwarded to the Executive Associate to the President. The Executive Associate to the President will bring the nomination to the Senior Leadership Team who will review and give input to the President of the University. The President of the University will make the final determination on the naming of portions of facilities.
- A nominee typically will have been employed by Grand Valley State University for a minimum of 20 years. In special circumstances the 20-year minimum may be waived.
- The nominee must not be employed by the University at the time of the nomination. Nominations will be accepted only after a one-year waiting period following the end of the person’s service.
- The nomination must include specific examples of the nominee’s contributions to the University.
- The names of portions of facilities honoring former members of the University community shall be considered permanent as long as that portion of the facility exists or its purpose has not changed or the President subsequently determines otherwise.
- It is generally understood that entire University buildings or facilities will not be named in honor of a former member of the University community. (Please see Grand Valley State University Board of Trustees’ Policies BOT 6.13.3, Naming of Buildings.)
- Consideration for the naming of academic programs, centers, etc. will follow the same procedure as outlined above.

The President of the University will consider nominations in consultation with others at the university as appropriate. The final decision on the naming of a portion of a University facility will rest with the President of the University. The Executive Associate to the President will communicate the President’s decision to the requesting party and the appropriate Vice President.

POLICY ON POLICIES

SLT 2.2

POLICY STATEMENT

The Grand Valley State University community will have access to clearly stated university-wide administrative policies, to be published as Grand Valley State University Policies on the University Web site. These policies will be:

- Formally approved and kept current
- Accessible to all parties in a centralized Grand Valley State University Policies website
- Communicated to operating units in a timely manner
A Policy is characterized by the following criteria:

- It is a governing principle that provides specific rules and provisions for implementing Board policies and setting expectations for the administrative operation of the University.
- It has institution-wide application.
- It enhances the University’s mission and connects it to individual conduct.
- It helps ensure compliance with applicable laws and regulations and Grand Valley State University Board of Trustees policies, promotes operational efficiencies and reduces institutional risk.
- It may change infrequently and sets a course for the foreseeable future.
- It is approved by the President and/or the Senior Leadership Team.

There are many department-level policies that apply only to those within a department and do not meet all of the above criteria. Therefore, they are not considered to be Grand Valley State University Board of Trustees' Policies, and are not governed by this document. However, these policies may not conflict with the Board of Trustees' Policies or Senior Leadership Team (SLT) Policies.

The Grand Valley State University Board of Trustees' Policies will not include: curricular requirements for degrees, the basic terms and conditions of employment subject to collective bargaining. Academic & Student Affairs Policies as published in the Faculty Handbook and Student Code, Catalog, or division-wide policies (approved by a Vice President in consultation with the President).

Additional Policy Criteria for Vice Presidential Review

A Vice President or the Provost may use the following criteria in addition to the above policy definition when determining whether a proposed policy is suitable for consideration as a Grand Valley State University Policy:

I. People

- a. Does it impact inclusion or equity?
- b. Who will be affected; how many will be affected?
  - i. Students
  - ii. Faculty
  - iii. Staff
  - iv. External or internal audience
  - v. More than one department/division
  - vi. More than one campus

II. Money

- a. Is there a source of funding?
- b. Does it involve an expense or provide revenue?
  - i. One-time expense
  - ii. On-going expense
  - iii. Fee or refund involved

III. Space

- a. Does it affect or commit a use of space?
- b. Does it involve the use of University communication systems?

IMAGES
ART COLLECTION MAINTENANCE AND CARE POLICY
SLT 3.1

Date of Last Update:
December 05, 2014

Approved By:
Senior Leadership Team

Responsible Office:
Art Gallery Department

POLICY STATEMENT
The Grand Valley State University art collection is made up of paintings, drawings, prints, sculptures, ceramics, textiles, and other works of art as defined by the Art Gallery Department but does NOT include plaques, signage, degrees, awards, and other similar items. The art collection is displayed on every University campus, and in nearly every University facility and building. Faculty and staff members, contractors, students, and other people with duties/responsibilities requiring them to come into contact with the University art collection are subject to the following policies and procedures to ensure that the University’s legal, ethical, and fiduciary responsibilities for the safekeeping of these assets are maintained. For more details on all other internal art procedures, see the Art Gallery Collections Policy on the Art Gallery’s website or contact the University Art Gallery at (616) 331–3638.

PROCEDURES
Maintenance and Care
All art at the University is to be cleaned, handled, installed, de-installed, and transported exclusively by the staff of the University Art Gallery. Other than representatives of the University Art Gallery, individuals must have written permission from the Director of Galleries and Collections, Assistant Director, or the Curator of Collections Management before handling or moving any pieces of the art collection.

Building Construction/Renovation Projects
The Director of Galleries and Collections or designee will call a meeting in December of each year with representatives from Facilities Services, Facilities Planning, and Auxiliary Services (Housing) for the purpose of identifying upcoming projects that will affect the art collection.

A follow-up meeting, called by Director of Galleries and Collections or designee, will take place in April of the next year for updating project status and will include a timeline for each project identified. Facilities Services Project Managers will be identified and included on the project lists.

The Director of Galleries and Collections, or designee, will attend the bi-monthly Facilities Project Status meetings to be kept up to date on all ongoing university construction projects and timelines.

The Art Gallery office will be alerted by a representative of Facilities Planning and Facilities Services as soon as reasonably possible for all, including last-minute, building project additions, deletions or changes. This includes a preferred art removal lead-time notice of no less than two weeks. This notice will be made directly by contacting the Art Gallery office.

The Art Gallery office will be contacted immediately in the event of an emergency (flood, fire, etc.) via a phone call if any piece of the art collection is in jeopardy of damage or

August 1, 2019
destruction. The Art Gallery staff will maintain a disaster and emergency preparedness plan (under development) for its collections and will make it accessible on its website.

Use and Access
The University art collection shall be accessible for research and study by responsible investigators, subject to procedures necessary to safeguard the objects, the space in which they are located, and to restrictions imposed by limitations of exhibition requirement, availability of study space and facilities, and availability of appropriate curatorial staff as determined by the curator/manager in charge of the collection. The entire University art collection is made digitally accessible through an online searchable database and mobile device applications. Information about both may be found online at the Art Gallery website, www.gvsu.edu/artgallery.

BRIDGE FUND REQUEST POLICY
SLT 3.2
Date of Last Update:
July 31, 2008
Approved By:
Senior Leadership Team
Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT
Grand Valley State University does not encourage creating nor approving a Request to Add a New Fund (RANF) and establishing a FOAP prior to the official receipt of a fully executed award. A fully executed award is an externally sponsored agreement (grant, contract, or cooperative agreement) that is signed by the duly authorized official of both the external sponsor and Grand Valley State University. It is important to note that any expenses incurred prior to an award and without the appropriate approvals place the University at risk.

However, in some extraordinary situations, effective project management or research necessitates incurring expenses prior to the receipt of a fully executed award. In such cases, Principal Investigators may request a ’bridge fund’ be established in anticipation of the fully executed award. Principal Investigators should contact the Office of Sponsored Programs (OSP) to initiate a Bridge Fund Request.

PROCEDURES
In an effort to minimize the risk to the University, the Office of Sponsored Programs will verify with the sponsor the allowability of pre-award costs, the anticipated award amount, and the period of performance. Once OSP receives verification in writing from the sponsor’s grants or contracts officer, the responsible Principal Investigator, Chair/Unit Head, Dean, and University Authorizing Official are all required to agree in writing to proceed with the expenditure of University funds in anticipation of the award. This agreement will be prepared by OSP in consultation with the Office of Business and Finance. It will be the responsibility of the Principal Investigator to obtain the required signatures of the appropriate Chair/Unit Head, Dean, University Authorizing Official, and Executive Officer (Office of the Provost).

The Bridge Fund Request will be processed in a manner similar to the Request to Add A New Fund. However, attached to the Bridge Fund Request will be:

1. Written verification from the sponsor (signed by the sponsor Grants/Contracts Officer) received by OSP
2. Bridge Fund Request Agreement signed by the Chair/Unit Head, Dean, and University Authorizing Official
3. A copy of the proposal application, narrative & budget

A Bridge Fund Request shall not exceed 15% of the anticipated GVSU award amount. The maximum allowable amount requested will be verified by OSP in consultation with the Office of Business & Finance. If the award is for multiple years, the Bridge Fund Request shall not exceed 15% of the anticipated GVSU award amount for the first year of the funding. Upon the official receipt of the fully executed award, the bridge fund transition into the official FOAP for the project.

Should funding not be received from the sponsor (e.g. the award start date is delayed, or the costs are determined to be unallowable, etc.) coverage of costs incurred on the project becomes the responsibility of the Department Chair/Unit Head having initiated and signed the initial Bridge Fund Request form.

This policy was effective August 1, 2007 and will be revisited for any revisions, changes, or sunset within one year of its effective date.

COLLEGIALITY POLICY
SLT 3.3
Date of Last Update:
June 06, 2014
Approved By:
Senior Leadership Team
Responsible Office:
Provost Office

POLICY STATEMENT
Grand Valley State University has a tradition of collegiality and shared governance and strives to maintain these standards as a mainstay of its institutional culture. As a value stated in the Board of Trustees’ policies as adopted by the Board of Trustees BOT 1.3:
A range of thoughtful perspectives is necessary for open inquiry, liberal education, and a healthy community. Recognizing this, we seek and welcome a diverse group of students, faculty and staff. We value a multiplicity of opinions and backgrounds and seek ways to incorporate the voices and experiences of all into our University. We value our local community and embrace the participation of individuals and groups from Michigan, the nation and the world. We also encourage participation in educational opportunities abroad.

In order to foster a healthy and diverse environment, we will act with integrity, communicate respectfully, and accept responsibility for our words and actions. This University is a community whose varied functions, responsibilities, and contributions are supportive of the instructional, research, and service mission of the institution. Collegial interactions as referenced throughout this policy are those interactions that occur among and between colleagues, subordinates, supervisors, administrators and students. Collegial interactions are essential to support that mission in an effective, efficient, and ethical manner.

PROCEDURES

FACULTY AND STAFF MEMBER

If a faculty or staff member believes that she or he has been subjected to act(s) of non-collegiality, ideally, the individual should first try to discuss the matter with the offending person and/or the appropriate unit head or supervisor. If circumstances make this too difficult or if this does not resolve the matter, the faculty or staff member may seek assistance from the Work Life Consultant in Human Resources. In addition to providing help in resolving the matter, the Work Life Consultant can suggest other available resources. If using this process does not resolve the matter or the faculty or staff member so chooses, she or he may file a complaint using the appropriate Complaint Process identified for each staff group as listed below.

Complaint Process:
Faculty members – Chapter 4, Section 2.18 of the Faculty Handbook
Executive, Administrative and Professional Staff – Board of Trustees' Policies 4.4.7
Professional Support Staff – Section 3.2.4 of the Agreement
Confidential Professional Support Staff – Section 9 of the Confidential PSS Handbook
Maintenance, Grounds and Service Staff – Section 5.2 of the Agreement
Department of Public Safety Staff – Section 5.2 of the Agreement
Security Staff – Personnel Policies in the Security Staff Handbook

STUDENT

If a student believes that she or he has been subjected to act(s) of non-collegiality, ideally, the individual should first try to discuss the matter with the offending person. If circumstances make this too difficult or if this does not resolve the matter, the student may seek assistance from the Dean of Students Office. In addition to providing help in resolving the matter, the Dean of Students Office representative can suggest other available resources. If using this process does not resolve the matter or the student so chooses, she or he may file a complaint using the appropriate process in the Student Code.

NOTE: The GVSU Collegiality Policy was modeled after policy from Northern Illinois University (www.niu.edu)

DEFINITIONS:

“Collegiality” defined:

Collegiality represents an expectation of a professional relationship among and between faculty, staff, and students with a commitment to sustaining a positive and productive environment as critical for the progress and success of the University community. It consists of collaboration and a shared decision-making process that incorporates mutual respect for similarities and for differences - in background, expertise, judgments, and points of views, in addition to mutual trust. Central to collegiality is the expectation that members of the University community will be individually accountable to conduct themselves in a manner that contributes to the University’s academic mission and high reputation. Collegiality among faculty, staff, and students involves a similar professional expectation concerning constructive cooperation, civility in discourse, and engagement in academic and administrative tasks within the respective units and in relation to the institutional life of the University as a whole. Collegiality is not necessarily congeniality nor is it conformity nor excessive deference to the judgments of faculty, staff, and students; these are flatly oppositional to the free and open development of ideas. Evidence of collegiality is demonstrated by the protection of academic freedom, the capacity of faculty, staff, and students to carry out their professional and learning functions without obstruction, and the ability of a community of scholars to thrive in a vigorous and collaborative intellectual climate.

Non-collegial Behavior(s):

Allegations or complaints of repeated and unreasonable activity, or a severe non-collegial act, that clearly interferes with the professional working, learning, or other University environment, if verified, will constitute a violation of this policy. Such allegations will be examined in a reasonable, objective, and expedient manner, and in accordance with applicable federal and state laws and university due process procedures. It is crucial for the University to ensure the right of all faculty, staff, and students to perform their individual and collaborative roles in a workplace, learning or other University environment that is free from incivility, misuse of authority, intimidation, humiliation, retaliation, and infringement upon personal and academic freedoms. Non-collegial behaviors constitute bullying.

CONFLICT OF INTEREST IN RESEARCH POLICY

SLT 3.4

Date of Last Update:
December 22, 2016

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence
POLICY STATEMENT

The University is committed to transparency, integrity of scholarship, and independence as it pursues its mission to create, preserve, and disseminate knowledge through teaching, research, and public service. Accordingly, Grand Valley State University allows and encourages faculty and staff to engage in outside activities and relationships that enhance the mission of the University. All faculty and staff members are to act with honesty, integrity, and in the best interest of the University when performing their duties, and to abide by the highest standards of research, educational, professional, and fiscal conduct.

External sponsors, whether governmental or private, institute conflict of interest regulations of their own for investigators seeking research funding. The purpose of such regulations is to promote objectivity in research and to provide a reasonable expectation that the design, conduct and reporting of sponsored research will be free from bias arising from Financial Interests of participating investigators. As a recipient of external funding from governmental and nongovernmental sponsors, the University must comply with these regulations. Similarly, investigators engaged in research on human subjects will be expected to comply with the Conflict of Interest (COI) provisions of the University’s Human Research Review Committee (HRRC) whether the research is funded from external sources or not.

No research, sponsored program, or technology transfer activities occurring at the University shall be adversely affected by the financial interests of the University personnel carrying out those activities. Prior to participating in a research, sponsored program, or technology transfer activity, University personnel having a potential conflict of interest shall discloses the details to the University. The Research Integrity Officer at the University shall be responsible for reviewing the disclosures and instituting an adequate plan for the management of any potential financial conflict of interest.

If any application for external funding is involved, faculty and staff investigators shall ensure that they have disclosed all Significant Financial Interests related to their University Responsibilities prior to submitting the application, and as soon as possible thereafter if a new Significant Financial Interest meeting the disclosure standard arises. Disclosures shall also be updated as soon as possible, but within 30 days, when an existing Significant Financial Interest ends or changes in a material way.

Faculty and Staff investigators funded by the Public Health Service (PHS) and/or other agencies that abide by PHS COI regulations are subject to additional requirements in accordance with 42 C.F.R. Part 50.601. Investigators involved in research funded by PHS sponsors must complete required conflict of interest training before engaging in research and every four years thereafter. GVSU may require training more frequently than every four years if there is a substantive conflict of interest change or specific instances of noncompliance.

This policy fulfills federal regulations requiring institutions receiving federal funding to have in place a written, enforced policy and process to identify and manage, reduce, or eliminate conflicts of interest of persons engaged in the design, conduct, or reporting of federally funded research.

COPYRIGHT POLICY

SLT 3.5

Date of Last Update:
May 06, 2015

Approved By:
• Senior Leadership Team

Responsible Office:
University Libraries

POLICY STATEMENT

The Grand Valley State University Libraries are committed to following all applicable laws regarding copyright and other intellectual property. This includes not only preserving the rights of creators and owners of copyright, but also supporting the rights of users of copyrighted material, including fair use and other exemptions from copyright. This policy outlines the role of the University Libraries in providing education, information, and support regarding copyright, in order to fulfill our mission of advancing intellectual growth and discovery at GVSU.

PROCEDURES

The University Libraries work to educate and support our students, faculty, and staff by serving as an information resource on copyright law as well as the rights of creators, owners, and users of copyrighted materials. We provide detailed resources for understanding and working with copyright through our copyright guide: http://www.gvsu.edu/library/copyright.

We also offer educational programming, individual consultations, and other services related to copyright issues. For more information on the copyright services we provide, or for support with a copyright issue, please contact a librarian https://www.gvsu.edu/library/librarians.

The University Libraries offer education and information, but we do not enforce others’ compliance with copyright law, nor do we provide legal advice. We can help faculty, students, and staff understand how copyright law works in general, and provide information on specific issues, but the final responsibility for ethical and legal use of copyrighted materials rests with the user. This responsibility extends to the use of technology provided by the Libraries, such as scanners and photocopiers.

The University Libraries do take responsibility for adhering to copyright law when using copyrighted materials in our mediated services, including course reserves and Document Delivery, and we make internal decisions accordingly. However, we cannot make decisions for other users; we can only provide information and education. For legal advice pertaining to copyright and other intellectual property issues, we recommend that you contact the Division of Legal, Compliance & Risk Management.

EXPORT CONTROL POLICY

SLT 3.6

Date of Last Update:
April 24, 2019

Approved By:
• Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence
POLICY STATEMENT

All personnel at Grand Valley State University, including faculty at all levels, staff, students, visiting scholars, and all other persons herein referred to as “GVSU Personnel” retained by or working at the University must comply with all U.S. export control laws and regulations while teaching, conducting research, or providing service activities at or on behalf of the University. No GVSU Personnel may engage in any export activity that is prohibited by the U.S. Department of Commerce, the U.S. Department of State, the U.S. Department of Treasury’s Office of Foreign Assets Control, or any other government agency that enforces export laws/regulations. Similarly, GVSU Personnel may not transfer any controlled item, including technology and technical data, to any foreign nationals inside or outside the United States territory without approved documentation.

Compliance with export control laws and regulations must be considered and if necessary achieved before engaging in science or technology-based research, executing contracts or other agreements, purchasing high-technology devices or software, or traveling internationally. GVSU Personnel are responsible for the following:

(i) Ensuring their educational, research, and other University activities are conducted properly and in compliance with export control regulations, all requirements of this policy, and any technology control plan which they are included;

(ii) Ensuring contracts and service agreements entered into on behalf of the University include the appropriate export control language;

(iii) Notifying the Office of Research Compliance and Integrity at least 30 days prior to traveling on behalf of the University to any of the following locations:

   (1) Embargoed and/or targeted sanctioned countries identified by the Export Administration Regulations and/or the Office of Foreign Assets Control;

   (2) Prohibited countries identified by the International Traffic in Arms Regulations

(iv) Obtaining pre-approval from the Office of Research Compliance and Integrity to take or ship any University property to an embargoed, targeted sanctioned, and/or prohibited country as defined in (iii) above; and

(v) Ensuring University business is not conducted with any individual or entity on a prohibited party list published by the Departments of Commerce, State, or the Treasury.

It is essential that all GVSU Personnel keep current with information and training provided by the University. The Vice Provost for Research Administration (VPRA), or designee, is the University’s Empowered Official who is responsible for overseeing the University’s export compliance program.

The University’s Empowered Official or designee, is legally empowered to sign license applications or other requests for approval on behalf of the University and has authority to:

(i) Enquire into any aspect of a proposed export or temporary import by the University;

(ii) Verify the legality of the transaction and the accuracy of the information to be submitted, and

(iii) Refuse to sign any license application or other request for approval without prejudice or other adverse recourse.

For more information about export controls, please contact the Office of Research Compliance and Integrity at 616-331-3197 (https://www.gvsu.edu/export/).

NON-AFFILIATE/GUEST USE OF LIBRARY RESOURCES AND COMPUTERS

SLT 3.9

Date of Last Update:
February 19, 2020

Approved By:
Senior Leadership Team

Responsible Office:
University Libraries

POLICY STATEMENT

Grand Valley has developed this policy in cooperation with its libraries and library staff to outline the policy guest usage of written materials, books and documents housed within the library as well as library computer resources.

Tours

All requests for tours will be evaluated according to purpose, outcomes and facility availability. Scheduling is based on staff availability, the University academic calendar and activity within the library. Tours may be restricted during mid-term and final exam study periods.

General building tours may be requested by calling 616.331.3500.

Walk-in tours of the Mary Idema Pew Library Learning & Information Commons are offered throughout the year. No registration is necessary, and these tours are available on a first come, first served basis, and limited to fifteen per session. Inquire at the Service Desk upon arrival. Self-guided tour brochures are available at the Service Desk.

GVSU course specific tours of any of the University Libraries locations may be requested, please contact your subject librarian.

University, school and professional groups interested in specific library programming; building vision and project, technology, architecture, facilities, or LEED information may request an administrative meeting and building tour by contacting University Libraries Administration at 616.331.2606.

Library Resources

Borrowing of GVSU library items requires a valid GVSU ID, GVSU Alumni Card, or MelCat Visiting Patron status.

Computer Access

Guests must present a valid, government issued ID or other photo ID with additional proof of residence to library staff. Additionally, guest users will agree to abide by current GVSU computer use policies. Failure to do so will result in computer access privileges being revoked. Library staff will exercise discretion in limiting guest access in favor of GVSU students, faculty and staff. Accommodations will be made for those in need of accessing our government depository collections.

Room Reservations

The University Libraries is oriented toward the students, faculty and staff of Grand Valley State University. Room reservations are limited to GVSU affiliated individuals and require authentication.
Minor Guests
In accordance with section V of the Minors on Campus Policy (SLT 9.8), the Libraries are not considered a venue appropriate for unescorted or unsupervised minors. Authorized representatives may check out items for minors, and in doing so, assumes responsibility for the material.

In accordance with the Minors on Campus Policy section IV, minors who are enrolled in GVSU courses, have all privileges and responsibilities of students using the Libraries.

EXTERNALLY SPONSORED PROJECTS POLICY
SLT 3.11
Date of Last Update:
September 04, 2019
Approved By:
Senior Leadership Team

 Responsible Office:
Center for Scholarly and Creative Excellence

POLICY
This document establishes Grand Valley State University’s (University) official policy governing the administration of proposals, awards, contracts, and agreements for all externally sponsored projects. Externally Sponsored Projects do not include Purchasing Agreements or Philanthropic Gifts.

The purpose of this policy is to help ensure that all proposals and awards for externally sponsored projects conform to federal regulations, including the Office of Management and Budget 2 CFR 200—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (a.k.a., the Uniform Guidance)—and are consistent with GVSU’s academic and business policies and sound fiscal practices.

POLICY STATEMENT
Only an Authorized Organizational Representative of the University may submit proposals to fund and/or otherwise support externally sponsored projects on behalf of the University.

In addition, an Authorized Organizational Representative may accept on behalf of the University any Externally Sponsored Project award resulting from such proposal submissions or other solicitation processes. The University will not normally accept awards received from outside sources without prior proposal approval as provided in this policy.

DEFINITIONS:
Assistance Action: The main purpose of an assistance action is to transfer money, property, services, or anything of value to the recipient in order to accomplish a public purpose of support or stimulation. The agency must have legal authority to award assistance agreements for this purpose. Grants or cooperative agreements are used to award assistance funds.

Authorized Organizational Representative: An Authorized Organizational Representative is the Vice Provost for Research Administration and any University employee(s) to whom the Vice Provost for Research Administration has delegated oversight responsibility for the administration and management of Externally Sponsored Projects at the University. Only an Authorized Organizational Representative has the authority to submit proposals, accept awards, and sign contracts and agreements for Externally Sponsored Projects on behalf of the University.

Externally Sponsored Project: Externally Sponsored Projects include all projects supported by way of grants and cooperative agreements (direct Assistance Actions); incoming or outgoing sub-recipient agreements or subawards (pass-through Assistance Actions); certain incoming or outgoing contracts (i.e., externally sponsored Procurement Actions), including direct contracts, service agreements, and consulting agreements; pass-through subcontracts and service agreements; and certain other agreements, including master collaboration agreements, material transfer agreements, and data-use agreements—whether funded or unfunded. Externally sponsored projects do not include Purchasing Agreements or Philanthropic Gifts.

Philanthropic Gift: A philanthropic gift is an instrument by which an outside donor voluntarily transfers money, services, or property from a donor to the University. There is no expectation of direct economic benefit or the provision of goods or services to the donor, although donors can place stipulations on gifts that direct the funds to the donors’ areas of interest. The absence of quid pro quo language helps define the charitable nature of this type of giving.

Procurement Action: The main purpose of a procurement action is to acquire property or services by purchase, lease, or barter for the use or direct benefit of the purchaser (whether the purchaser is the university purchasing from an outside entity or an outside entity purchasing services from the university). An agreement or contract is used as the legal instrument to award a Procurement Action.

Purchasing Agreement: An agreement entered into by the University through its Procurement Services Office and an outside vendor or supplier to purchase goods and/or services. Examples of non-sponsored purchasing agreements include software licenses, pricing agreements, equipment maintenance agreements, custodial and facilities services, landscaping services, and office supply-vendor agreements.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.

ALLOWABLE COST POLICY
SLT 3.11.1
Date of Last Update:
September 04, 2019
Approved By:
Senior Leadership Team

 Responsible Office:
POLICY

All costs proposed to be charged on externally sponsored projects (as defined at SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY) at Grand Valley State University (the University) must comply with the Federal cost principles prescribed in 2 CFR 200 Subpart E, §200.400; the policies of the sponsoring agency; the specific funding solicitation for which the cost is proposed; and all applicable policies of the University.

Specifically, in order to be deemed an allowable cost on such a project, the cost of any particular item must:

1. Be necessary and reasonable for the performance of the awarded project. That is, the project cannot be performed without the item and a reasonable and prudent person would incur the cost of the item under the circumstances prevailing at the time the decision was made to propose or incur the cost (§200.403-404).
2. Be fully allocable to the particular awarded project or be proportionally allocable to it and another cost objective according to the relative benefit derived (§200.405).
3. Be treated consistently. A cost may not be assigned to a sponsored project as a Direct Cost if any other cost incurred for the same purpose in like circumstances has been allocated to the awarded project as an Indirect Cost. University policies governing the treatment of costs must apply uniformly to both sponsored- and non-sponsored activities. Like expenses must be treated the same in like circumstances (§200.400(e)).

Such costs must also meet one of the following two criteria:

1. Be an item or category of cost that is not expressly disallowed by the federal government (guidance available at §200.420-475, General Provisions for Selected Items of Cost); the sponsor (as documented in sponsor policy statements and in the applicable sponsor funding solicitation); or the University (as defined below under Unallowable Costs and documented in the Business and Finance Procedures and the University-Wide Policies); OR
2. Be an otherwise unallowable cost that is expressly allowed by the sponsor, whether as stipulated in an award or proposal-solicitation document or as documented in a prior written approval request duly executed by an Authorized Organizational Representative of the University. If an expense does not meet the above criteria, it must not be charged to an externally sponsored project at the University.

DEFINITIONS:

Direct Costs are expenses that are specifically associated with a particular externally sponsored project that can be directly assigned to such activities with a high degree of accuracy.

Indirect Costs (also referred to as Facilities & Administration [F&A] or overhead costs) are expenses that cannot be identified specifically with a particular project or activity. Indirect costs benefit multiple activities and programming objectives. In order to capture the amount of indirect costs that should be allocated to a grant, the University has calculated an indirect cost rate, approved by the federal government.

The indirect costs included in this rate are made up of two broad categories: Facilities and Administration.

Facilities costs include:
- Custodial and Maintenance
- Utilities
- Grounds Services
- Parking Operations, less parking lines and fees
- Property and Liability Insurance
- Facility Planning and Management
- Engineering Planning and Management
- Depreciation

Administration costs include all the expenses incurred in providing the following university services:
- Central Administration
- Business & Finance, including financial audit
- Human Resources
- Legal Services
- Inclusion & Equity
- Library Operations
- Administrative Computer Operations
- Grants and Research Administration
- Department Administration, as defined by the federal government to be 20% of Dean and Dean’s assistant compensation
- Mail Services
- Public Safety
- University Communications

Federal Cost Principles are the Federal regulations that govern expenditures on federal awards and which also apply to non-federal awards to GVSU because of the University’s required federal compliance under 2 CFR 200 Subpart F: Audit Reporting.

Prior Written Approval is a formal permission the University must document before it proposes or incurs a special or unusual cost that may be deemed unallowable under the federal cost principles under normal circumstances.

Requests for prior written approval must be rationalized in writing as allowable under an “unlike circumstances” justification by the University personnel who wish to propose the special or unusual costs. The requests are then reviewed, approved, and (assuming approval is granted) formally submitted to the sponsoring agency by the Authorized Organizational Representative of the University (as defined in SLT 3.11: EXTERNALLY SPONSORED PROJECTS POLICY).

In accordance with the Uniform Guidance at 2 CFR 200, prior written approval from the sponsor is explicitly required (either in the awarded proposal budget, during award negotiation, or prior to incurrence of costs in the event that the expense is to be proposed post-award) for a number of items, including the following:

1. Administrative expenses ($200.413(c))
2. Change of scope ($200.308 (c)(1))
3. Cost sharing or matching ($200.308 (c)(7))
4. Entertainment costs ($200.438)
5. Equipment and other capital expenditures ($200.313, 439)
6. Exchange rates ($200.440)
Unallowable Costs are costs that could be considered appropriate and reasonable, but which are not eligible for reimbursement by the federal government and therefore to ensure consistent treatment under the federal cost principles, are not allowable on any sponsored program. Exceptions are possible with a strong justification for unlike circumstances and with prior written approval (as defined above) from the Authorized Organizational Representative of the University and the sponsor.

Unallowable costs include:

1. Advertising and public relations
2. Advisory councils
3. Alcoholic beverages
4. Alumni/ae activities
5. Bad debt expense
6. Collections of improper payments
7. Commencement and convocation costs
8. Contributions and donations
9. Entertainment costs
10. Fines, penalties, damages and other settlements
11. Fund raising and investment management costs
12. Lobbying
13. Intra-Institution of Higher Education (IHE) Consulting
14. Losses on other awards or contracts
15. Club, social, dining club or lobbying organization memberships
16. Proposal costs
17. Meals and travel associated with lobbying, fund raising, alumni activities
18. Student activities
19. Passports and immigration visas

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.
DEFINITIONS:

Cost Sharing: Cost sharing is that portion of an externally sponsored project cost that is not reimbursed by the sponsor (whether federal or non-federal) and therefore represents a commitment of institutional resources that would generally otherwise be devoted to other University purposes.

There are three forms of cost sharing:

1. Mandatory Cost Sharing, which is required by the sponsor as an award condition and becomes an obligation once an award is made;
2. Voluntary Committed Cost Sharing, which is voluntarily offered and documented in a proposal submission and therefore becomes an obligation once an award is made; and
3. Voluntary Uncommitted Cost Sharing, in which voluntary cost sharing is intended, but not explicitly committed (documented) in a proposal, and therefore not a binding commitment that must be tracked and reported.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.

SUPPLEMENTAL COMPENSATION ON EXTERNALLY SPONSORED PROJECTS POLICY

SLT 3.11.3

Date of Last Update: September 04, 2019

Approved By: Senior Leadership Team

Responsible Office: Office of Sponsored Programs

POLICY

Grand Valley State University (the University) normally does not allow for compensation charges in excess of an individual’s Institutional Base Salary on any Externally Sponsored Project (as defined in SLT 3.11.1: EXTERNALLY SPONSORED PROJECTS POLICY). In most cases, funding from such projects must supplant, not supplement Institutional Base Salary during the Base-funded Appointment Period.

In the absence of unusual circumstances and specific Prior Written Approval (as defined in SLT 3.11.1: ALLOWABLE COSTS POLICY) from the appropriate University and/or sponsor officials as described in this policy, faculty member compensation for sponsored-project work at the University must offset Institutional Base Salary through:

1. The use of Significant Focus Time (as defined in SG 3.01: FACULTY RESPONSIBILITIES);
2. The application of Reassigned Time (as defined in SG 3.03: REASSIGNED TIME); or
3. Some combination of Significant Focus Time and Reassigned Time.

Absent Prior Written Approval for Supplemental Compensation following procedures stated below, Administrative/Professional staff members must also offset Institutional Base Salary to participate in externally sponsored projects (supplant, not supplement). Such offsets shall require a reorganization of established job duties in the staff member’s organizational unit that is approved by the staff member’s Appointing Officer and Executive Officer.

In order to charge Supplemental Compensation to federally funded Externally Sponsored Project accounts at the University, the work performed must be justifiable as Intra-Institution of Higher Education Consulting as defined at 2 CFR 200.430—COMPENSATION; PERSONNEL SERVICES, which limits such charges according to their adherence to specific criteria. Such consulting must be:

1. Across departmental lines or involve a separate or remote location that is at least 30 miles away from the employee’s University campus office;
2. Outside the scope of the employee’s regular appointment as documented in the employee’s appointment letter;
3. Short term in nature; and
4. Provided for in the sponsored agreement, or approved in writing by the sponsoring agency prior to the incurrence of applicable expenses.

In order to charge Supplemental Compensation to a non-federal Externally Sponsored Project account, the allocation is subject to the prior written approval of the Vice Provost for Research Administration as well as the sponsoring agency.

DEFINITIONS:

Base Appointment Period at the University generally falls into one of two categories:

1. An Academic Year Appointment is comprised of the nine-month span from August 6 of a given calendar year to May 5 of the following calendar year.
2. A 12-month Appointment is comprised of the twelve-month span from August 6 of a given calendar year to August 5 of the following calendar year.

Institutional Base Salary is the annual salary the University pays for an employee’s appointment, regardless of appointment category and whether the employee’s time is spent on research, teaching, administration, patient care, or other University responsibilities. Institutional Base Salary does not include bonuses, one-time payments, incentive pay, or income that an employee is permitted to earn outside of their University responsibilities such as Private Consulting.

Private Consulting refers to works for hire performed by a University employee outside of their University responsibilities. To be deemed private consulting, work must be performed without the use of any University resources, including administrative services of any kind, facilities (classroom, clinical, meeting, or office space), supplies, equipment, computing resources, and any other service or resource owned by the University. Any outside employment must be approved in advance by the Appointing Officer (BOT 4.1.10). Consulting services that require the use of University resources are subject to SLT 3.17: SERVICE AND CONSULTING AGREEMENTS POLICY.

Supplemental Compensation, also known as extra salary or extra service pay, is compensation a University employee receives in excess of Institutional Base Salary; Supplemental Compensation represents payments for services outside the normal scope of employment.

For more information about this policy and the procedures established to ensure compliance with it, please contact the Office of Sponsored Programs at 616-331-6826 or osp@gvsu.edu.
POLICY STATEMENT

Grand Valley State University’s Facilities and Administrative (F&A) rate (also known as the indirect-cost rate) is established in accordance with the Federal Office of Management and Budget under 2 CFR 200 Uniform Guidance (previously A-21). The rate is negotiated between the University and the U.S. Department of Health and Human Services, the cognizant federal agency that oversees the administration of sponsored agreements at the University. The University’s F&A rate reflects the cost of real, auditable expenses incurred in the conduct of sponsored research and programs. Included among these costs are depreciation costs of buildings and equipment, maintenance and repairs, janitorial services, utilities, hazardous waste disposal, libraries, and general administrative costs such as sponsored programs administration, departmental administration, and general administration (accounting, purchasing, legal services, personnel, and compliance). These costs are “indirect” because they are not easily identified with a specific project and therefore are not included in the “direct” portion of the budget. Such indirect costs support the conduct of research and other sponsored programs, regardless of the source of funding, and therefore must be applied to all sponsored projects. For reasons of sound management and equitable stewardship of resources used in support of all sponsored activities, it is expected that all sponsored projects recover full F&A costs.

PROCEDURES

Facilities & Administrative (F&A) Cost Recovery Policy:

It is the University’s policy that all proposals and agreements for sponsored research, including subawards and industry contracts, are subject to the recovery of facilities and administrative costs (F&A) at the University’s approved and published rate. In some cases, the sponsor has a written policy, uniformly applied, prohibiting F&A costs or restricting the payment of such costs to a lower rate. An exception to the University’s F&A cost recovery policy may be warranted if it is clearly in the best interest of the University to accept the award with less than full F&A cost recovery. Any reduction (defined as a waiver of F&A) is strongly discouraged and requires prior approval from the Vice Provost for Research Administration. This exception does not apply to for-profit (industry) sponsors, as such sponsors are expected to provide full F&A when funding a sponsored project. Designation of a sponsored award as a gift will not preclude the recovery of indirect costs if such costs are allowed by the donor.

Facilities & Administrative (F&A) Cost Return and Use Policy:

Each year, the University returns a portion of the recovered F&A costs as appropriate to those generating the grants and contracts. This return of F&A costs generally occurs at the end of each fiscal year and is based upon the F&A costs recovered on sponsored projects during the preceding fiscal year (July 1 - June 30). For sponsored awards originating within academic units with a tenure stream Faculty Principal Investigator, recovered funds are distributed as follows.

- Faculty Principal Investigator – 12.5%*
- Faculty Home Department – 7.5%
- Appointing Officer of unit generating the recovered funds – 20%
- Provost – 20%
- General Fund (Facilities Infrastructure) – 40%

For all other proposals, recovered funds are distributed as follows.

- Appointing Officer of unit generating the recovered funds – 40%
- Provost – 20%
- General Fund (Facilities Infrastructure) – 40%

It is anticipated that, when appropriate, recovered funds will be used strategically for research initiatives, faculty start-ups, bridge funding and required cost share, and to provide the necessary administrative support for research projects. Indirect cost recovery funds cannot be used to increase the principal investigator’s annual compensation.

Indirect cost revenue recovered on Financial Aid expenditures will not be allocated and all proceeds will be returned to the General Fund.

Charter Schools are not considered a sponsored program and therefore not affected by this policy.

*Note: if the recovered funds allocated to the Faculty PI are less than $500, funds will be deposited into departmental FOAPs rather than individual Faculty PI FOAPs.
PROCEDURES

Responsibilities

The following General Responsibilities form shall be provided by OSP to each Principal Investigator at the time of award. The Principal Investigator is responsible for signing and returning the original to OSP within five business days of its receipt. The original shall be retained in the award OSP record file in accordance with record retention guidelines. The Principal Investigator/Project Manager is responsible for:

- Compliance with the award terms and conditions. Notifying OSP of potential scope, budget or schedule shifts, and requesting/obtaining Authorizing Official review and approval of such, if required.
- Obtaining signatures on the (Request to Add a New Fund (RANF) form, and submitting the RANF to the Office of Business & Finance. A copy of the original proposal, notice of award, budget, and other official documents must be attached to the RANF form. The RANF will not be processed without these attachments.
- Ensuring that the Salary Request is prepared and signed by the Unit Head/Dean and other appropriate individuals. Salary Request letters accompany the signed RANF form.
- Management of the grant, contract/subcontract, or cooperative agreement and conducting the project to meet project goals and objectives while adhering to agency guidelines and GVSU policies and procedures.
- Ensuring that all individuals involved in the administrative and financial aspects of the award receive BANNER training.

The Office of Grants Accounting will assist with the invoicing and accounting process. The PI is also responsible for ensuring that all grant expenditures are reviewed on a monthly basis (at a minimum) and ensuring that those expenses incurred are approved in the BANNER system.

- Ensuring that for those items acquired or purchased under the terms of the award and with grant funds that sponsor requirements and GVSU Purchasing Procedures are followed.
- Ensuring that all project expenditures are directly related to the project and necessary to meet project goals and objectives. Knowing the cost sharing requirements that were committed in the budget approved by the agency and GVSU and insuring that these obligations are met.
- Certifying the time/effort of personnel paid by the grant, contract/subcontract, or cooperative agreement, or cost sharing/matching time on the project.
- Completing a Conflict of Interest Financial Disclosure form, and having no conflict of interest that could affect the conduct of the project. Any such possible conflict of interest must be reported to OSP as soon as it is apparent.
- Ensuring that the PI as well as all undergraduate, graduate, or post-doctoral students receive Responsible Conduct of Research training, if required by the sponsor. PIs and students are required to sign a Completion of Training form confirming the date, receipt, and satisfactory completion of this training. The form must be returned to OSP for the record file.
- Ensuring that GVSU policies and federal regulations governing the protection of human research subjects are followed. Ensuring the adherence to federal governing regulations and GVSU Animal Care and Use Policy for the use of animals in research.
- Ensuring compliance with the GVSU policy on Political Activity, as well as ensuring compliance with the terms and conditions of an award governing such activity.
- Submitting required reports and/or documentation in a timely manner.
- Certifying that s/he, and any subcontractor or sub-recipient on this project, is not debarred, suspended or proposed for debarment by any federal entity. The PI agrees to notify the University (both OSP and Purchasing Dept.) of any change in this status, should one occur, until such time as an award is made under a procurement action. See www.sam.gov.

SERVICE AND CONSULTING AGREEMENTS POLICY

SLT 3.11.6

Date of Last Update:
October 15, 2018

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT

This document establishes Grand Valley State University’s (University) official policy governing the approval and management of service or consulting agreements that employees through the University, meaning cases in which the University would be the contracting party. These are agreements under which Principal Investigator (PI)-Eligible faculty and/or Administrative/Professional (A/P) staff members are obligated to provide specified services or “deliverables” and that do not fall squarely within the traditional framework of research or teaching activities. While these agreements may have research, scholarly, or other benefits to the University, those benefits are a secondary aspect, not the primary purpose of the activity. The terms “service agreement” or “consulting agreement” are intended to be descriptive; such agreements could have other labels or titles.

In some cases, employees who may consider providing services independently of the University as consultants will do this for their own account, on their own time, and using their own resources and subject to applicable University policies. However, review and approval of all proposed service and consulting agreements under this policy is required to ensure compliance with employment, tax, and intellectual-property law; regulatory requirements governing research and the use of certain kinds of data; and institutional policies regarding student engagement in externally funded activity and the appropriate use of University resources.

The University should be the contracting party only when justified by compelling reasons that meet the General Criteria of this policy. There are occasions, however, when a PI-Eligible faculty or AP staff member wants to provide a service through the university. For example, the activity may have a strong academic and/or university programmatic component and the faculty or A/P staff member may want to be able to use university facilities, resources, staff, or students to carry out the proposed contractual activity. In those circumstances, this policy allows for the University to act as the contracting party, but only if the activity in question meets the General Criteria of this policy.

By way of illustration, but without limitation, services that PI-Eligible faculty and A/P staff members may seek to provide through this policy may include:

- Performing an evaluation or assessment of an external program, such as an educational program or public-health initiative;
- Establishing rating criteria, such as standards for measuring health or safety outcomes;
- Providing technical assistance to a foreign government in areas such as social, health or economic services;
- Delivering professional-development services;
\begin{itemize}
\item Partnering with industry to engage students in technical projects the delivery of which will contribute to the educational goals of the students involved; and/or
\item Assisting a city government in its urban planning.
\end{itemize}

**PROCEDURES**

This policy designates authority to the Vice Provost for Research Administration or their designee to establish such operational procedures as deemed necessary to implement the policy, and ensure operational efficiency, proper oversight of compliance and financial management, and ensure the success of externally sponsored projects at the University.

**DEFINITIONS:**

**Authorized Organizational Representative (AOR):** The official to whom the Provost delegates authority to submit proposals to fund and/or otherwise support externally sponsored projects on behalf of the University and to accept on behalf of the University any awards, contracts, or agreements resulting from such proposal submissions or other solicitation processes.

**PI-Eligible:** University faculty and AP staff members who are documented as eligible to serve as a Principal Investigator as defined in the University’s Principal Investigator Eligibility Policy.

**Benefits and Risks**

Often, participating in service agreements involves high-profile and challenging projects that may benefit members of the university community by, for example:

\begin{itemize}
\item Adding significantly to faculty, staff, and student expertise;
\item Demonstrable connections to curricular and co-curricular development, new teaching cases, program development in executive education, and professional development;
\item Engaging faculty in domestic and international matters that are highly relevant to their teaching and scholarship, or employees in their administrative responsibilities; and/or
\item Initiating or reinforcing strong institutional relationships that can serve long-term University interests.
\end{itemize}

Though there may be much to recommend the pursuit of these opportunities, especially where there is substantial potential to advance scholarship, education, and service, these arrangements may also pose risks that need to be managed. Service and Consulting Agreements are more complicated for the University to manage than routine sponsored-project agreements because of the expectations of the external entities, who perceive themselves as clients or customers rather than sponsors.

The following potential risk factors will be considered in the evaluation of Service and Consulting Agreements:

\begin{itemize}
\item The University, as the contracting party in these agreements, bears the risk of liability or reputational harm for non-performance or poor performance of agreed-upon tasks and for unsatisfactory contract “deliverables.” Potential risks reach beyond the payments to the University and could include monetary damages from the downstream effects of contested performance.
\item Unlike in sponsored-project arrangements (i.e., assistance awards, such as grants or cooperative agreements), in which the sponsor may be presumed to be committed to the principles of objective science or the enhancement of the public welfare, “clients” or “customers” in service arrangements may be more focused on obtaining specific results and will likely be more involved in directing performance of the services. Institutional integrity and impartiality may be called into question if expectations are not properly managed at the outset.
\item The use of the University’s students and staff to assist in these projects also raises unique policy issues. The University has a duty to students in particular. They should not be made to work on projects unless the work advances their educational goals. The interests of employees, students, and the institution must be safeguarded in the negotiation of such arrangements to assure them that they may generate and publish works of scholarship, receive proper credit for their work, obtain appropriate intellectual property or other proprietary rights in the work product, and avoid confidentiality or other obligations that may compromise transparency and injure reputations.
\item Special attention must be paid to assure that these arrangements comply with the university’s obligations as a tax-exempt organization (e.g., IRS regulations regarding Unrelated Business Income).
\end{itemize}

**General Criteria**

The proposed Service and Consulting Agreement must:

1. Advance the core mission of the academic or non-academic organizational units that will carry it out;
2. Provide a significant institutional and/or public benefit; and,
3. If students are to participate in the activity, provide both a learning experience that advances student educational goals and that students will be free to use and disclose details of the experience in their academic and career pursuits, unless a Non-disclosure Agreement has been approved by the Office of the Vice Provost for Research Administration.

The determination as to whether a proposed Service and Consulting Agreement meets these criteria shall be the responsibility of the employee’s Appointing Officer. Such determinations shall be documented using University procedures for sponsored activity.

In addition, the proposed Service and Consulting Agreement must:

1. Present manageable and limited risks;
2. Be accurately budgeted to generate sufficient revenue to pay for full performance that includes both the direct charges associated with the activity and the university’s full federal negotiated facilities & administrative cost rate;
3. Be properly accounted for from a tax perspective;
4. Be reviewed and processed by the Technology Commercialization Office and the Office of Sponsored Programs (which may include the execution of a non-disclosure agreement to protect the intellectual property of the parties to the agreement; and
5. Receive approval from the employee’s Appointing Officer.
6. Be approved and submitted by the Vice Provost of Research Administration and/or designee.

And finally, once the Service and Consulting Agreement is fully executed, and throughout the performance of the contractual scope of work, the PI and responsible organizational unit must ensure that the activity complies with:

1. The contracted scope of work, timeline, and all agreed deliverables;
2. All applicable federal and state laws and regulations (e.g., export controls, use of human or animal subjects, intellectual property rights, disclosure and mitigation of financial and other conflicts of interest); and
3. All relevant University policies, such as invoicing for payment via the central accounting office of the University, and the use of the University’s name, facilities, equipment,
PRINCIPAL INVESTIGATOR ELIGIBILITY POLICY

POLICY STATEMENT

For each externally sponsored project, it is customary to designate as PI one person who bears ultimate responsibility for scientific, technical, and programmatic decisions, and all financial, administrative, and compliance matters relating to the project. It is the policy of Grand Valley State University that only eligible University faculty, staff, and trainees and appointees (when appropriate) may serve as the PI on externally sponsored projects to be carried out on behalf of the University.

Serving as the nominal project leader to lend credibility to a proposal while delegating PI responsibility to another person (i.e. “fronting” as the PI) is never permissible and is considered a violation of this policy.

PI eligibility is conferred in one of two ways: (1) automatically, by position, and (2) via special request, both subject to training as required by this policy.

1. Automatic Eligibility: PI eligibility is automatically conferred upon tenured and tenure track faculty at the rank of Professor, Associate Professor, or Assistant Professor.

Special-Request Eligibility: If PI eligibility is not conferred automatically, it may be conferred by Special Request of the employee’s authorizing official (dean, provost, vice president) or their designee(s). Certain non-academic units (e.g., the University Art Gallery, Small Business Development Center, Johnson Center for Philanthropy, Van Andel Global Trade Center) may request longterm PI status for the director, associate director, and other Administrative/Professionals (regular, full-time employees), as they deem appropriate. These personnel are all subject to standard Compliance and Training requirements for PI Eligibility.

1. Fellowships and Training Opportunities

Trainees (typically graduate students and post-doctoral fellows) may be eligible to be PIs on fellowship and training programs when that designation is required by the funding agency as documented in a funding opportunity announcement and a PI-eligible faculty or staff member is identified and documented as their sponsor/mentor. In this circumstance, a trainee’s PI eligibility is conferred and verified by the applicable Department/Unit Head’s approval during the internal proposal-routing process. It is not necessary to document approval of trainee PI eligibility via Special Request.

Trainee PI status is consistent with the treatment of all Special Requests for PI eligibility, in that it is conferred on a case-by-case basis; it does not confer blanket PI eligibility status for any other externally sponsored projects.

Compliance and Training Requirements

However it is conferred, PI Eligibility Status is contingent upon the documented completion of all required compliance and sponsored-programs training. Training requirements, certification, and documentation are determined and administered collaboratively by the Vice Provost for Research Administration, the Office of Sponsored Programs, the Office of Research Compliance & Integrity, and the Controller.

PROCEDURES

This policy designates authority to the Vice Provost for Research and the Director of Sponsored Programs to establish such operational procedures as they deem necessary to implement this policy, and ensure operational efficiency, proper oversight of compliance and administration, and the success of externally sponsored projects at the University.

It is the responsibility of the Office of Sponsored Programs to review all proposals to fund externally sponsored projects to determine and document PI eligibility prior to proposal submission. Proposals put forward by individuals without documented PI eligibility will generally not be approved for submission. Awards resulting from proposals submitted by ineligible PIs who either knowingly or unwittingly circumvent the standard approval process will generally not be accepted by the University.

Responsibilities of All Principal Investigators

Although the University is legally responsible to the sponsor as the actual recipient of any externally sponsored award, the Principal Investigator (PI) is accountable for the proper fiscal management and conduct of the project. This includes managing the project within funding limitations and all of the terms of the award, assuring that the sponsor is notified when significant conditions related to project status change, and ensuring that all programmatic reporting requirements are met in a timely fashion. To assist PIs, the University provides supporting administrative services and has established procedures to help meet both sponsor and University requirements. While responsibility for the day-to-day management of project finances may be delegated to administrative or other staff, accountability for compliance with federal requirements, University policies, and sponsor requirements ultimately rests with the PI. The full cooperation and vigilance of the PI, along with the University, is necessary to maintain the stewardship role.

1. Preparation of Proposals

Principal Investigators have primary responsibility for planning and carrying out the preparation and submission of proposals for external support. Although PIs may have administrative staff to assist with the proposal-development process, they are ultimately responsible for the quality and scientific integrity of the proposal, and for understanding and complying with all University policies for managing external support.

   a. Technical Proposal

   The Principal Investigator is responsible for preparing the technical proposal.
b. Proposal Budget
The Principal Investigator prepares, or directly supervises the preparation of, all aspects of the proposed budget and budget justification. This responsibility includes coordination with Procurement Services and compliance with all procurement policies and procedures. It also includes identifying any requests and sufficient resources for cost sharing (including matching funds); the need for space or space modifications (including any accommodations for large and/or unusual equipment); and the need for outside collaborators (sub-recipients, contractors, consultants). The PI ensures all costs are allowable, allocable, and reasonable for the project in accordance with the federal cost principals set out in OMB 2 CFR 200, and that all proposals include full recovery of all anticipated project costs. Full recovery includes recovery of indirect costs at GVSU’s negotiated federal rate or (in the case of non-federal sponsors or federal training grants) the maximum rate allowed under published sponsor policy.

c. Regulatory Requirements
The PI is responsible for anticipating whether the research will involve human subjects, live animals as subjects, recombinant DNA, infectious agents, narcotics or biological toxins, human blood or body fluids, radioactive materials, hazardous materials, export controls, conflicts of interest, or other regulated activities requiring University review or clearance. The PI is responsible for preparing information and forms required for review by the University’s Office of Research Compliance & Integrity.

d. Project Approvals
The Principal Investigator prepares, or directly supervises the preparation of, and electronically signs internal proposal-approval forms, and requests required approvals in a timely fashion.

2. Acceptance of the Award
The PI is responsible for collaborating with the Office of Sponsored Programs in any negotiations with the sponsor relating to modifications of the project scope or budget or proposed terms and conditions of the award.

The Principal Investigator is responsible for reviewing and approving the award agreement, in conjunction with OSP, including the scope of work, budget, and the special terms and conditions of the award, and for managing the award in accordance therewith.

3. Conduct and Management of Award
The Principal Investigator is responsible for all actions required to manage and complete the scientific, programmatic, and financial aspects of the externally sponsored project in accordance with all of its terms and conditions, including the performance of all sub-recipients. The Principal Investigator is also responsible for the management of the award budget and expenditures in accordance with federal, GVSU, and sponsor requirements. This responsibility includes attesting to the allowability, allocability, and reasonableness of all expenditures. Principal investigators are responsible for routine monitoring of the status of grant accounts to prevent overdrafts and incorrect charges and to ensure that unallowable costs are not charged to an award.

The Principal Investigator is responsible for the timely submission of all required programmatic reports, interim and final. The information contained in such reports must be supported by adequate documentation. The Principal Investigator will provide copies of all required programmatic and progress reports to the OSP and the Grants Accounting office.

**DEFINITIONS:**

**Externally Sponsored Project:** All grants and cooperative agreements (direct assistance actions); all incoming or outgoing sub-recipient agreements or subawards (pass-through assistance actions); certain incoming or outgoing contracts (i.e., externally sponsored procurement actions), including direct contracts, service agreements, and consulting agreements; pass-through subcontracts and service agreements; and certain other agreements, including master collaboration agreements, material transfer agreements, and data-use agreements—whether funded or unfunded. Externally sponsored projects do not include purchasing agreements or philanthropic gifts.

**Principal Investigator (PI):** An individual with a formal affiliation with the University, normally an employee, who is or becomes eligible under this policy to submit a proposal for extramural support for a research, training, public-service, or other externally sponsored project, who personally participates in the project to a significant degree, and who has primary responsibility for the scientific, technical, programmatic, and administrative conduct and reporting of the project, including compliance and financial matters. A Principal Investigator who is the head of a training or other sponsored project may be known as a Project Director. For the purposes of this policy, the terms shall be considered equivalent.

The University only recognizes one individual as the Principal Investigator and this individual must personally participate in the project to a significant degree.

**Co-Investigator (Co-I):** An investigator who will share responsibility for the scientific, technical, and/or administrative conduct and reporting of a research or sponsored project with the Principal Investigator. Each individual named as a Co-Principal Investigator at the University must meet the same eligibility requirements as a PI as noted above. There may be more than one Co-Principal Investigator, but one person is designated as the leader (PI) of the project. While the University allows this approach, not all sponsors allow Co-PI models. In certain cases, a sponsor (e.g., the National Institutes of Health—NIH) may allow a Multiple Principal Investigator model to be employed in a research or sponsored project. Such models feature multiple PIs who are expected to equally share responsibility for leadership of multidisciplinary and other types of “team science” projects that are not optimally served by the single Principal Investigator model. Such models typically require a single “Contact PI” and special justification in the form of a Multi-PI Plan that documents processes for project governance and resolution of conflicts.

**TEXTBOOKS AND COURSE MATERIALS POLICY**

SLT 3.12

Date of Last Update:
October 10, 2016

Approved By:
- Senior Leadership Team

**RESPONSIBLE OFFICE:**
Provost Office

**POLICY STATEMENT**

Textbooks and related course materials continue to be essential to the delivery of knowledge. For various reasons, the cost of those materials has continued to rise. The goal of the University is to provide the best quality educational resources at the lowest possible cost to the students by minimizing the cost of textbooks and course materials used at the university while maintaining quality of education and academic freedom.
PROCEDURES

The Provost’s Office is responsible for overseeing the faculty role in textbook selection. It discharges that responsibility by working closely with the Deans of the colleges. Business and Finance is responsible for overseeing the practices of the GVSU Laker Store.

Responsibilities of the Faculty:

- Faculty members shall submit lists of required textbooks, recommended textbooks and supplemental course materials to the GVSU Laker Store by the specified deadlines.
- Faculty are expected to compare various textbook options and to make the selection by taking into account pedagogical value, price, and availability. If all other considerations are about the same, the less expensive option should be selected. When there are multiple sections of a course taught by different instructors, it is preferable (but not required) that departments order the same textbook for all sections, in order to benefit students who may be adjusting their schedule during drop/add week and to support inventory management for the GVSU Laker Store.
- When faculty wish to require the purchase of any published textbooks or materials for which they have or will receive royalties or revenue, this decision shall be reviewed by the Unit Head, who shall determine whether the selection is appropriate, taking into account the criteria above. The purpose of the review is to disclose and to manage any actual or potential conflict of interest. The Unit Head may authorize that the review be conducted by a designee if certain disciplinary expertise is needed or if the Unit Head cannot provide a neutral review. If the Unit Head cannot identify a designee, then the review shall be conducted by the Dean or designee.

Responsibilities of the GVSU Laker Store:

- The GVSU Laker Store will continue to reduce textbook prices whenever possible.
- The GVSU Laker Store will buy back used textbooks, and the following semester make the used copies available at reduced price and display them next to the new ones.
- When filling departmental textbook orders, the GVSU Laker Store shall acquire as many used but still up to date copies as possible, make them available at reduced price, and place them next to the new ones.
- The GVSU Laker Store will display the required texts and materials with the course instructors’ names and course section numbers. This will help students make informed decisions when finalizing course schedules.

TRAINING OF PERSONNEL INVOLVED IN ANIMAL RESEARCH

SLT 3.13

Date of Last Update:
July 31, 2008

Approved By:
Senior Leadership Team

Responsible Office:
Center for Scholarly and Creative Excellence

POLICY STATEMENT

In conduction of research, all people working with laboratory animals must be qualified to do so in order to ensure the humane treatment of animals. As such, Grand Valley complies with the Animal Welfare Act as described below.

PROCEDURES

The Animal Welfare Act (AWA) Sec. 2.32 (a), (b), and (c) specify:

(a) It shall be the responsibility of the research facility to ensure that all scientists, research technicians, animal technicians, and other personnel involved in animal care, treatment, and use are qualified to perform their duties. This responsibility shall be fulfilled in part through the provision of training and instruction to those personnel.

(b) Training and instruction shall be made available, and the qualifications of personnel reviewed, with sufficient frequency to fulfill the research facility’s responsibilities under this section and §2.31.

(c) Training and instruction of personnel must include guidance in at least the following areas:

(1) Humane methods of animal maintenance and experimentation, including:
(i) The basic needs of each species of animal;
(ii) Proper handling and care for the various species of animals used by the facility;
(iii) Proper pre-procedural and post-procedural care of animals; and (iv) Aseptic surgical methods and procedures;

(2) The concept, availability, and use of research or testing methods that limit the use of animals or minimize animal distress;

(3) Proper use of anesthetics, analgesics, and tranquilizers for any species of animals used by the facility;

(4) Methods whereby deficiencies in animal care and treatment are reported, including deficiencies in animal care and treatment reported by any employee of the facility. No facility employee, Committee member, or laboratory personnel shall be discriminated against or be subject to any reprisal for reporting violations of any regulation or standards under the Act;
Utilization of services (e.g., National Agricultural Library, National Library of Medicine) available to provide information:

(i) On appropriate methods of animal care and use;
(ii) On alternatives to the use of live animals in research;
(iii) The could prevent unintended and unnecessary duplication of research involving animals; and
(iv) Regarding the intent and requirements of the Act.

The PHS Policy, Section IV.C.1.f. places the responsibility specifically with the IACUC to ensure that personnel conducting procedures on research animals are appropriately qualified and trained in those procedures. The Institutional Animal Care and Use Committee may require additional training for each individual, depending on their prior training and experience with animals.

UNITED STATES GOVERNMENT DOCUMENTS INTERNET USE

SLT 3.14
Date of Last Update:
July 31, 2008

Approved By:

· Senior Leadership Team

Responsible Office:
University Libraries

POLICY STATEMENT
Grand Valley State University Libraries will provide the public with free and unrestricted access to online government information provided through the Federal Depository Library Program in accordance with section 1911 of Title 44, United States Code.

PROCEDURES
The public is able to access these materials on the Government Documents personal computers in Mary Idema Pew Library Learning & Information Commons and Steelcase libraries. Patrons are not required to provide any form of identification to use these computers, although they will need to see a librarian or staff person at the reference desk to login. Patrons using these computers are expected to adhere to the university’s policies regarding the use of electronic resources.

SPACE ASSIGNMENT POLICY

SLT 3.15
Date of Last Update:
July 16, 2012

Approved By:

· Senior Leadership Team

Responsible Office:
Provost and Facility Planning Offices

POLICY STATEMENT
Space is an institutional resource of Grand Valley State University. As such, it does not belong to an individual, a program, a unit or a college and may be reassigned in the best interests of the University. The goal of the University’s allocation and reallocation of space is to achieve the highest and best use of University resources.

The Provost’s Office is responsible for assigning and overseeing space used for academic purposes, including classrooms, laboratories, academic secretarial spaces, and faculty offices. It discharges that responsibility by working closely with the Facilities Planning Office to maintain and remodel existing space; to allocate and reallocate that space; to help plan, schedule, and coordinate moves; to plan new space, and to explain allocation and reallocation decisions.

The Facilities Planning Office is responsible for overseeing all non-academic space, including outdoor space. It discharges that responsibility by working closely with the Provost’s Office to maintain and remodel existing space; to allocate and reallocate that space; to help plan, schedule, and coordinate moves; to plan new space; and to explain allocation and reallocation decisions.

At least annually, Facilities Planning will conduct a physical review of space to investigate identified issues or potential space issues that need attention.

Periodically, the Provost’s Office and the Facilities Planning Office will meet with appropriate representatives of the University’s organizational units to discuss upcoming moves and longer term plans for expansion and/or contraction.

This policy is applicable to all departments, offices, University employees and other members of the University community occupying space owned or leased by the University.

ADOPTION LEAVE POLICY

SLT 4.1
Date of Last Update:
July 31, 2008

Approved By:
POLICY STATEMENT

The University recognizes the need for family and medical related leave. The following policy complies with The Family and Medical Leave Act (FMLA) and provides guidelines for procedures regarding unpaid leave. By enacting this policy Grand Valley aims to allow necessary time away from the university for individuals to cope with and adapt to various family and medical related situations as described in this policy.

PROCEDURES

The Family and Medical Leave Act (FMLA) provides eligible faculty and staff up to 12 weeks of unpaid leave a year. A faculty or staff member must work for 12 months, completing 1,250 work hours within those 12 months, to be eligible for FMLA leave. If eligible, leave may be requested for the following reasons:

- Birth of a child
- Adoption of a child
- Placement of a child for foster care
- The faculty or staff member is needed to care for a family member (child, spouse, or parent) with a serious health condition
- The faculty or staff member’s own serious health condition makes him or her unable to perform his or her job

Further provisions of the law are addressed in the FMLA policy. A copy of the FMLA policy is available on the Policy Website.

Grand Valley, along with all other Michigan Public Universities, does not provide for paid adoption or parental leave. However, the University does provide unpaid leave that exceeds the requirements of FMLA. FMLA requires the University to provide up to 12 weeks of unpaid leave while the University’s unpaid leave policy allows for up to 12 months of unpaid leave. Further details of the program are outlined in Section 4.2.30.12 of the Board of Trustees’ Policies. This section is also included in the Faculty Handbook. In order to receive an unpaid leave, the faculty or staff member should submit a written request to the Unit Head. The request will outline the need for the leave and the expected duration. The request should be submitted as soon as possible. When possible, the request should be submitted at least 30 calendar days prior to the date the leave will begin.

Qualifying Expenses

Qualifying adoption expenses will be reimbursed up to a maximum of $3,000 per child. Qualifying expenses are defined as those that are reasonable and necessary adoption fees, court costs, attorney fees, traveling expenses while away from home, and other expenses related to, and whose principal purpose is for, the legal adoption of a child.

Process for Applying for Benefits

Upon formal placement of the adopted child, submit an adoption assistance claim form to Human Resources at 1090 James H. Zumberge Hall along with detailed receipts for eligible expenses. Human Resources will determine eligible expenses, the amount payable for reimbursement and will submit a request to the Payroll Office for payment. The reimbursement will be processed with the next payroll.

Taxation of Benefits

The amount of tax credits and exclusions available to adopting parents vary. Since an employer’s adoption assistance is not subject to income tax withholding, GVSU will not determine the extent to which the payment of reimbursement on behalf of each employee is eligible for the exclusion. However, GVSU will withhold taxes only for Social Security and Medicare.

Adding Dependent to Insurance

At the time of placement, you may add your child to your benefit plans. Any additions or changes must occur within 30 days of the official placement. Contact Human Resources at 1-2215 to add dependents.

EXERCISE RELEASE TIME POLICY

SLT 4.2

Date of Last Update:
April 20, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Human Resources

POLICY STATEMENT

Faculty and staff well being is valued at GVSU. Physical activity is a vital component to wellbeing and GVSU strives to increase the ability for faculty and staff to take time to fit physical activity into their day. The exercise release time policy reflects University’s mission by providing opportunities for faculty and staff to maintain optimal health and capacity to educate students. The policy supports university values, specifically sustainability and effective teaching. The concept of sustainability includes modeling a lifestyle of healthy living through active living, which this policy supports.

Supporting physical activity through the exercise release time policy also has the ability to create more positive interactions between faculty, staff and students in and outside of the classroom. The policy provides opportunities for physical activity during the workday encouraging and promoting health risk reduction. It has been shown that physical activity increases attentiveness, reduces stress and biochemical functions such as blood pressure and glucose levels. A healthier faculty and staff population with fewer health risks can increase the number of positive interactions between faculty, staff and students through improved attentiveness, reduced stress and more.

PROCEDURES

Upon supervisor approval, GVSU staff may utilize up to two (2) 30 minute time periods a week to allow time to freshen up from, or in preparation for, a fitness class or individual workout. Pending schedules and workload, up to two additional 30-minute time periods may be permitted. This time can be added to the beginning of the workday, added to the lunch period, or to the days end and is inclusive of travel time if needed (i.e. to the Field house or YMCA for a class). Days and times to utilize this policy may be determined with the
help of a written agreement between the supervisor and staff member. The release time may be divided into time prior to or after the indicated workout period. For further information contact the Health and Wellness Coordinator at 331-2215.

**FAQ's**

**Q: I want to participate in a spinning class over the noon hour what does this mean?**

A: It means you can use up to an additional 30 minutes after the spinning program ends to continue stretching and cool down, freshen up and return to work. The same would be true for an exercise class right before work. Remember that you need to review and have this approved by your supervisor.

**Q: Is this a new policy?**

A: This policy is not a new policy but a restatement of a prior one regarding fitness classes.

**Q: I work on the downtown campus, does this policy apply to classes offered at the YMCA or other nearby clubs?**

A: Yes. This applies to scheduled classes offered off the GVSU campus.

**Q: If I miss a week of release time, can I make up the time during a following week?**

A: No. Exercise release time cannot be accumulated or traded in day to day or week to week.

**Q: How do I request exercise release time?**

A: **Employee Affiliation:** AP Staff, MCS/COT Staff, Security Staff

**First Step:**
- Notify your supervisor and obtain approval for exercise release time.
- Request to use exercise release time should be in writing unless verbal request is accepted by the supervisor. An optional form is provided in the policy.

**Upon Approval:**
- Supervisor and staff member continue to communicate and review staff use of the policy monthly. Changes are made if necessary.

**FAMILY AND MEDICAL LEAVE ACT (FMLA) POLICY**

**SLT 4.3**

**Date of Last Update:**
June 01, 2017

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Human Resources

**POLICY STATEMENT**

The Family and Medical Leave Act of 1993 (FMLA) gives eligible Grand Valley State University faculty and staff the right to take unpaid leave or paid leave, if appropriate benefits have been earned, for a period of up to 12 work weeks in a 12-month period because of the birth of a child (maternity/paternity) or the placement of a child for adoption or foster care, because the faculty or staff member is needed to care for a family member (child, spouse, or parent) with a serious health condition, or because the faculty or staff member's own serious health condition makes he/she unable to do his or her job, or because of any qualifying exigency arising out of the fact that the staff member's spouse, son, daughter, or parent is a covered military member on active duty (or notified of impending call or order to active duty) in support of a contingency operation, or to care for a covered servicemember with a serious injury or illness if the staff member is the spouse, son, daughter, parent, or next of kin of servicemember. Leave taken for one or more of these reasons, when combined together, may not exceed 12 weeks during the rolling backward 12-month period. Under certain circumstances, this leave may be taken on an intermittent basis rather than all at once, or the faculty or staff member may work a part-time schedule.

**PROCEDURES**

A faculty or staff member on FMLA leave is entitled to maintain the same health benefits (such as medical, dental and vision insurance) as he/she had before going on leave. The faculty or staff member, however, would continue to pay his/her share of any applicable premiums during the leave period.

A faculty of staff member generally has a right to return to the same position or an equivalent position with equivalent pay, benefits and working condition at the conclusion of the leave.

Grand Valley State University also requires notification, as explained in this document, from faculty and staff members who wish to take a leave under the parameters of the FMLA.

**A. Who is eligible for FMLA?**

1. All full-time and part-time faculty or staff members who meet all of the following criteria:
   a. Have worked at Grand Valley State University for at least 12 months.
   b. Have worked at least 1,250 hours of service during the 12-month period before the leave.

2. Grant, contract and temporary-funded faculty or staff members may be eligible for benefits under the FMLA during the term of their grant, contract or funding. The provisions of the FMLA do not continue past the date the funding or contract expires.

**B. Notification Requirements**

1. In order to receive leave under the FMLA, the faculty or staff member must notify his/her supervisor of the need for leave. When possible, this should be a minimum of 30 calendar days prior to the date the leave will begin.

2. If the faculty or staff member is unable to provide 30 days advance notice (such as in the case of a birth, adoption or medical emergency) the faculty or staff member must notify his/her supervisor as soon as possible.
3. Failure to provide advance notice (when determined it was possible to do so) may result in delaying approval of the FMLA leave.

C. Faculty/Staff Job Rights

1. Subject to the specific limitations contained in this Policy, eligible faculty or staff members may take a total of up to 12 weeks of FMLA leave during a 12-month period.

2. The faculty or staff member will be returned to his/her position or equivalent position at the end of the FMLA leave, provided: the grant/contract/term of employment did not expire during the leave, or the University is still offering those services previously performed by the faculty or staff member at the time the faculty or staff member is ready to return to work, or the faculty or staff member's position was not eliminated due to a business or economic reason.

3. If a faculty or staff member is requesting an intermittent or reduced schedule leave, the University has the right to transfer the faculty or staff to another position during the time period of such leave. However, such a temporary transfer would be to a similarly situated and similarly classified position. The faculty or staff member's salary, benefits, etc. would not be negatively affected.

4. If a faculty or staff member does not return to work after the FMLA leave is over and he/she does not apply for and receive approval for another University leave, he/she will be considered to have voluntarily resigned employment with the University.

5. The University will not discharge or discriminate against, or otherwise interfere with, restrain or deny a faculty or staff member from exercising rights under the FMLA.

D. Time Period

1. For purposes of the FMLA, the 12-month period will be a "rolling" 12-month "look back" period based on the faculty or staff member's use of the FMLA leave during the previous 12 months. Therefore, an employee will not be entitled to more than 12 weeks of FMLA leave during any 12-month period.

2. A faculty or staff member requesting a FMLA leave may be required to use available accrued vacation for all or part of the leave. If he or she does not have enough accrued vacation to cover the leave period he/she may use a combination of vacation and unpaid leave.

3. University policies on leaves of absences, sick leave, salary continuation etc., will run concurrently with the provisions of the FMLA when applicable. For example, if an individual who was receiving salary continuation for 4 weeks, requested additional leave under FMLA, may have up to an additional 8 weeks approved, provided the situation qualified under the FMLA policy. The 4 weeks of salary continuation would count towards the 12 weeks of FMLA. In addition, if the individual had 2 weeks of accrued and unused vacation the supervisor may require him/her to first use accrued vacation time. Additional paid or unpaid leave may be considered, consistent with other University approved leave of absence policies.

E. Faculty/Staff Member Benefits

1. Benefits - the faculty or staff member on FMLA leave will continue to receive University provided medical and dental insurance as though he/she was working. Such benefits will continue whether the leave is paid or unpaid. If a premium is required, provision to pay the premium during an unpaid leave must be arranged by the faculty or staff member by contacting the Human Resources Office. The same procedure will be followed for collecting premiums under an unpaid FMLA leave as is done for other unpaid leaves. Failure to make required payments will result in loss of coverage, or in an obligation to repay the University if it elects to advance moneys to keep the coverage in affect. If the leave is paid, any required premium will continue to be deducted from the faculty or staff member's paycheck, as is the customary manner.

2. If a faculty or staff member does not return from the FMLA leave, he/she may be required to repay the University for the cost of benefits received while he/she was on leave.

3. If the faculty or staff member does not return from leave, he/she may continue his/her medical and dental coverage by paying all required premiums under the COBRA provisions.

F. Intermittent and/or Reduced Schedule Leaves

1. Faculty or staff members may request and be granted intermittent/reduced schedule leave in the case of a serious illness of themselves, their parent, spouse or child if there is a medical necessity and if the medical need can be best accommodated through such a leave. Intermittent/reduced schedule leave is not available (except as medically required) in connection with the birth of a child, an adoption or foster care.

2. Intermittent/reduced schedule leave must be scheduled whenever possible at least ten (10) days in advance.

3. Intermittent/reduced schedule leave must be taken in 30-minute increments.

4. Intermittent/reduced schedule leave is counted toward the 12 week maximum FMLA leave which can be used during a 12-month period.

5. Intermittent/reduced schedule leaves, unless otherwise noted, are subject to the appropriate general provisions of this policy.

6. The faculty or staff member is required to schedule intermittent leave, when possible, so not to unduly interfere with the department's operations.

7. If the faculty or staff member was temporarily transferred to another position during his/her intermittent or reduced schedule leave, the employee must give the University ten (10) days notice of the ability to end the leave and return to his/her former position or an equivalent position.

G. Conditions and Procedures for Birth and Adoption (Family Leave)

An eligible faculty or staff member is entitled to take up to 12 consecutive weeks off for family leave for the birth of his/her newborn child, for the legal adoption of his/her child: or, to accept foster care placement of a child. The following conditions apply: 

1. The 12 weeks of leave must be taken consecutively (no intermittent or reduced schedule leave) and within the first 12 months after the birth or adoption.

2. Each employee is entitled to 12 weeks except if both spouses work for Grand Valley S State University. In that case, the total number of weeks taken between the two faculty or staff members cannot exceed 12.

3. The medical recovery period for the birth of a baby will be considered as a medical leave, and be counted towards the 12 weeks of FMLA. For example, if a faculty or staff member gives birth, her physician may require a six-week medical leave of absence. If, after the six weeks, the faculty or staff member can medically return to work, she may then take an additional six weeks off as part of the provisions of the family leave. This second six-week period off work must be taken within the first 12 months following the baby's birth.

4. The faculty or staff member requesting family leave for birth/adoption (other than under the provisions of Income Protection) may use available accrued vacation time, unpaid leave or a combination of paid and unpaid leave as part of the FMLA leave, or the University may require the faculty or staff member to substitute available paid leave for FMLA leave.

If the employee does not have enough paid benefit time to cover the leave, he/she will go on an unpaid leave.

5. Verification of adoption, birth of a child of foster placement may be requested.

H. Procedures on Serious Health Condition of Family Member

An eligible faculty or staff member is entitled to take up to 12 weeks off from work to care for a spouse, parent or child with a serious health condition.

1. A serious health condition means an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider.

2. The "need to care for" a family member includes both physical and psychological care when the family member is unable to care for his/her own basic medical hygienic or
IDENTIFICATION CARD POLICY

Senior Leadership Team

Responsible Office:
Human Resources

The Human Resources Office is responsible for implementing and coordinating the provisions of the FMLA for the campus. Questions may be directed to the Human Resources Office, extension X12215.

If there are any conflicts between the University policy and provisions of the Federal Act, the provisions of the Federal Act will supersede, with the exception of situations where University policy, handbooks or contracts provide benefits greater than the act. The Federal Act and the Federal regulations will be used to resolve issues that arise.

The Human Resources Office is responsible for implementing and coordinating the provisions of the FMLA for the campus. Questions may be directed to the Human Resources Office, extension X12215.

1. Procedures on Faculty/Staff Member’s Own Serious Health Condition

An eligible faculty or staff member is entitled to take up to 12 weeks off from work due to their own serious health condition, which prevents them from being able to perform the functions of their position.

A serious health condition means an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider.

2. Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings.

3. The University will provide eligible employees up to 26 weeks of leave during a single (one time only) 12-month period to care for a covered service member (spouse, son, daughter, parent, or next of kin). Leave to care for an injured or ill service member, when combined with other FMLA-qualifying leave, may not exceed 26 weeks in a single 12-month period.

4. The leave may be taken intermittently or on a reduced schedule but the total amount of time off cannot exceed 12 weeks of the faculty or staff member’s normal hours worked.

Example: Full-time faculty or staff member: 40 hours/week X 12 weeks = 480 hours
Part-time faculty or staff member: 20 hours/week X 12 weeks = 240 hours

5. Only in the case of a serious illness of a child when both parents work at Grand Valley, can each parent then take 12 weeks off. This is an illness so serious as to require a parent to stay with the child.

I. Initial Certification - Grand Valley may require certification from the faculty or staff member’s health care provider for the following reasons: to verify that the faculty or staff member is able to care for the family member, or the faculty or staff member is not able to perform his/her job duties.

A. A “covered servicemember” means:
   i. A member of the Armed Forces (including the National Guard or Reserves) who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness.
   ii. A veteran who was discharged or released under conditions other than dishonorable at any time during the five-year period prior to the first day the eligible employee take FMLA leave to care for the covered veteran, and who is undergoing medical treatment, recuperation, or therapy of a serious injury or illness.
   b. The term “serious injury or illness” means:
      i. In the case of a member of the Armed Forces, means an injury or illness that was incurred (or aggravated) by the member in the line of duty while on active duty in the Armed Forces, provided that such injury or illness may render the family member medically unfit to perform duties of the member’s office, grade, rank or rating.
      ii. In the case of a veteran who was a member of the Armed Forces at any time during a period when the person was a covered servicemember, means a qualifying injury or illness that was incurred (or aggravated) by the member in the line of duty and that manifested itself before or after the member became a veteran.
   c. A “health care provider” may include, for example, a licensed doctor of medicine or osteopathy, dentist, clinical psychologist, and other health care providers authorized under the Family Medical Leave Act.
   d. When the faculty or staff member is ready to return from his/her leave, the faculty or staff member may be required to submit medical verification (if applicable) of his/her ability to return to work.

J. Certification of Need for FMLA Leave

1. Initial Certification - Grand Valley may require certification from the faculty or staff member’s health care provider for the following reasons: to verify that the faculty or staff member is able to care for the family member, or the faculty or staff member is not able to perform his/her job duties. The University reserves the right to ask for a second opinion by a health care provider chosen by the University. Such an opinion will be paid for by the University. If the University requests a third opinion, that opinion will be final and binding. If the second opinion and the original opinion conflict, the University will pay for a third opinion. The University and the faculty or staff member will work together to reach agreement on whom to use for the third opinion. All certification must be provided to the University within 15 calendar days of the University’s request, if practical. The third opinion will be final and binding.

2. Continuing Certification - Each 30 days, the University may request verification of the need to continue the leave. Failure to provide such requested documentation in a 15-day period may result in termination of FMLA leave.

3. A “health care provider” may include, for example, a licensed doctor of medicine or osteopathy, dentist, clinical psychologist, and other health care providers authorized under the Family Medical Leave Act.

4. When the faculty or staff member is ready to return from his/her leave, he/she may be required to submit medical verification (if applicable) of his/her ability to return to work.

L. Questions and Policy Interpretation

1. The Human Resources Office is responsible for implementing and coordinating the provisions of the FMLA for the campus. Questions may be directed to the Human Resources Office, extension X12215.

2. If there are any conflicts between the University policy and provisions of the Federal Act, the provisions of the Federal Act will supersede, with the exception of situations where University policy, handbooks or contracts provide benefits greater than the act. The Federal Act and the Federal regulations will be used to resolve issues that arise.
POLICY STATEMENT

Grand Valley State University issues a photo identification card to all active faculty and staff members who have a full-time, part-time or temporary appointment. This card is to be used for purposes of identification at all Grand Valley campuses. Lost or stolen ID cards should be reported to Human Resources. In the event of a name change, a new card will be issued.

ID cards for faculty and staff members can be obtained by visiting Human Resources at 1090 James H. Zumberge Hall on the Allendale campus or at the Student Assistance Center in the DeVos Center in downtown Grand Rapids. Retirees may also obtain an ID card at these locations.

Upon separating from the University, faculty and staff members will turn in their ID cards to Human Resources. ID cards belong to Grand Valley State University and are not transferable nor can they be used by anyone other than the person to whom it was issued.

MILITARY LEAVE OF ABSENCE POLICY FOR FACULTY STAFF

SLT 4.5

Date of Last Update:
April 25, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Human Resources

POLICY STATEMENT

Grand Valley State University faculty and staff members in the Armed Forces, Reserves, National Guard, or other “uniformed services” who are called to active duty will be granted an unpaid leave of absence and reinstatement privileges as prescribed by the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA).

“Uniformed services” includes: active duty, active duty for training, active duty for special work, weekend or weekday drill, funeral honors, or fitness for duty examination (whether voluntary or involuntary).

PROCEDURES

Military leave is available to all full and part-time faculty and staff of the University, including probationary staff members.

A. Military Duty Pay

A regular faculty or staff member who loses time from work during his/her regular schedule of hours because of military training as a reservist or National Guardsman or due to a civil disturbance, not exceeding four (4) weeks per year, shall be paid the difference between his/her base military pay and his/her regular pay. Adjunct faculty and temporary staff members are not eligible for military duty pay.

B. Benefits

The University will continue to provide health insurance for benefit eligible faculty and staff members, as well as their enrolled dependents, who are on duty less than thirty (30) days. Faculty and staff members serving for more than thirty 30 days may elect to continue health insurance coverage for themselves and any enrolled dependents through COBRA.

C. Leave Period

Faculty and staff members are entitled to an unpaid military leave of absence, with reemployment rights, for a period up to five years. The five years is a cumulative total and includes both past and present military service. Military leave for adjunct faculty and temporary staff will not extend beyond the appointment end date.

D. Reinstatement Requirements

Regular faculty and staff members have the right to be reemployed at the University following a military leave of absence as long they meet the following reinstatement requirements.

1. The faculty or staff member ensures that Human Resources or the applicable appointing officer receives advance written or verbal notice of your service.
2. The faculty or staff member has five (5) years or less of cumulative service in the uniformed services while employed at the University.
3. The faculty or staff member returns to work or applies for reemployment in a timely manner after conclusion of service, and
4. The faculty or staff member has not been separated from service with a disqualifying discharge or under other than honorable conditions.

Military leaves of absences for temporary staff and adjunct faculty will not extend beyond the appointment end date.

If eligible to be reemployed, a faculty or staff member has the right to be restored to the job and benefits he/she would have attained if he/she had not been absent due to military service or, in some cases, a comparable job. The faculty or staff member's seniority would also be restored to the level they would have attained if they have been on duty at the University continuously.

Questions and Policy Interpretation

The Human Resources Office is responsible for implementing and coordinating the provisions of the Military Leave of Absence Policy for the University. Questions may be directed to the Human Resources Office at (616) 331-2215.

If there are any conflicts between the University policy and provisions of the Federal Act, the provisions of the Federal Act will supersede, with the exception of situations where the University policy, handbooks or bargaining agreements provide benefits greater than the act. The Federal Act and the Federal regulations will be used to resolve issues that arise.

SMOKING (AND VAPING) POLICY

SLT 4.6
POLICY STATEMENT

The United States Department of Health and Human Services Surgeon General Report of 2006 indicates that secondhand smoke is an avoidable cause of disease and death. Exposure to second hand smoke, even for a short time, results in adverse affects to the cardiovascular system and can cause coronary heart disease and lung cancer. The report concludes that second hand smoke can cause disease and premature death in individuals who do not smoke. Reducing and eliminating opportunities for exposure to second hand smoke protects the overall health of non-smokers. By enacting this policy, Grand Valley State University is taking action to minimize the harmful effects and discomfort which smoking produces for the benefit of all members of the University Community. During the interim until further study and review can be concluded, for purposes of this policy, the use of electronic cigarettes (vaping) shall follow this policy to the same extent as smoking a tobacco product.

PROCEDURES

All buildings at all GVSU locations are designated as smoke free. Smoking is prohibited in all indoor spaces; including, but not limited to, educational, housing and dining locations. Smoking is prohibited within twenty-five (25) feet of any GVSU building, within twenty-five feet of any GVSU bus stop on University property and within twenty-five feet of the Little Mac Bridge on the Allendale campus. Smoking is prohibited in all University owned, leased or rented vehicles. At all Intercollegiate Athletic facilities and at The Meadows Golf Club smoking is permitted in designated outdoor smoking areas only.

Smokers must cease smoking prior to entering any prohibited smoking area; twenty-five feet from any building, bus stop and bridge. While GVSU permits smoking in areas not designated to be smoke free, it is the responsibility of smokers to be respectful of non-smokers in choosing a location in which to smoke so as to minimize non-smokers’ contact with second-hand smoke. Smokers are responsible for properly disposing of all smoking related litter, which includes cigarette and cigar butts, tobacco, etc. Disposal of any smoking litter is not permitted on University grounds except in the provided ash receptacles.

If University facilities are rented by non-University individuals or groups, they shall be notified of and required to comply with this policy. As the University acquires space or constructs new buildings or additions, smoking shall not be permitted in these buildings or areas. The above twenty-five foot distance from any building will be maintained at all new facilities.

GVSU recognizes that smoking is highly addictive. Smokers interested in assistance with quitting smoking should contact the appropriate office to learn about smoking cessation options and support. Students should contact the Campus Recreation Fitness and Wellness Office and faculty and staff members should contact the Wellness Coordinator in the Human Resources Office.

Policy Enforcement

This policy assumes that with notice to our community individuals will voluntarily adhere to these regulations and enforcement will not be needed. If smoking is observed in violation of this policy the appropriate action to take is to:

- Politely ask the person who is smoking either to stop smoking or to move to a designated smoking area, outside of the twenty-five foot perimeter of the building, bus stop or bridge.
- Should the problem persist, ask the person for his/her name and whether he/she is a student, faculty, staff member or visitor. If the person refuses to identify himself/herself, on the Allendale campus contact the Department of Public Safety Services at (616) 331-3255 or on the Pew Campus or other campuses contact Pew Campus Security at (616) 331-6677 for assistance.
- If the person violating this policy is a student, a complaint may be filed with the Dean of Students’ Office, (616) 331-3585, which shall take appropriate action.
- If the person is a faculty or staff member, a complaint may be filed with that person’s dean, unit head or supervisor who shall act pursuant to the appropriate personnel policies.
- If the person is a visitor, a complaint may be filed with the Department of Public Safety on the Allendale campus or with Pew Campus Security for the Pew Campus and regional campuses who will take appropriate action.

ALCOHOL AND OTHER DRUGS POLICY

SLT 5.1

Date of Last Update:
October 30, 2018

Approved By:
- Senior Leadership Team

Responsible Office:
Alcohol and Other Drugs Campus Education and Services Office (ACES)

POLICY

Grand Valley State University strives to provide a healthy University community free of the abuse of alcohol or other drugs and illegal or unauthorized use of alcohol and controlled substances. This commitment to students, faculty, and staff is evidenced by the:

- Publication of standards of conduct and University policies
- Provision of alcohol and other drug abuse prevention programs
ANIMALS ON PROPERTY OWNED OR CONTROLLED BY THE UNIVERSITY

SLT 6.1

Date of Last Update:
May 20, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Public Safety

POLICY
This Policy applies to all faculty, students, staff, contractors, vendors and visitors.

POLICY STATEMENT
This policy is intended to enhance the safety and health of students, faculty, staff, contractors, vendors and other visitors, and to supplement the existing GVSU policies, by providing rules and regulations regarding the presence of animals in GVSU facilities.

No person shall bring any animal(s) onto University owned or controlled property unless otherwise permitted by this or other University policy as listed below.

The Alcohol and Other Drugs Policy Handbook (https://www.gvsu.edu/aces) includes information about University drug and alcohol abuse prevention programs; health risks; counseling, treatment and rehabilitation resources; legal sanctions and summary of laws; University employee and student sanctions for violations of alcohol and other drug policies; employee notification obligations; requirements for Federal grant recipients; and links to additional University policies, procedures, and resources.

PROCEDURES
A. Animals Permitted on Property Owned or Controlled by the University *:

1. Service Animals are permitted within all University facilities subject to the additional requirements of this policy. Individuals who wish to bring a service animal into a University housing facility may do so without prior approval. However, students are strongly encouraged to reach out to the University’s Office of Disability Support Resources (DSR) to ensure that their experience bringing the animal to campus is a positive one. Advance notice of a service animal in housing facilities will enable the University to appropriately plan for the animals’ presence and will allow more flexibility in meeting the student’s needs. Service animals are permitted to accompany the resident to all areas of housing where residents are normally permitted to go. Please note that service animals are required to be at least 12 months of age unless an exception to this requirement has been approved by DSR.

2. Employees with a disability who wish to utilize a service animal as a reasonable accommodation in a University office or other areas of campus buildings not open to the general public, must submit the request to the Office of Disability Support Services at least 30 days before the animal is needed.

3. Service animals in training are permitted in all public facilities on the same basis as working service animals, provided that the service animal is being led or accompanied by a trainer for the purpose of training the dog and the trainer has documentation confirming the trainer is affiliated with a recognized or certified service dog training organization. Service animals in training are not permitted in certain classrooms, offices, or other areas of campus buildings not open to the general public. Facilities generally considered off limits unless an exception is granted:

   a. Research Laboratories: The natural organisms carried by service animals may negatively affect the outcome of the research. At the same time, the chemicals, and/or organisms used in the research may be harmful to service animals.

   b. Areas Where Protective Clothing is Necessary: Any room where protective clothing is required or necessary. Examples include chemistry laboratories, research/medical laboratories, wood shops, metal or machine shop, electrical shops, etc.

   c. Areas Where There is Danger to the Service Animal: Any room, including a classroom where there are sharp metal cuttings or other sharp objects on the floor or protruding from a surface; where there is hot material on the floor e.g. molten metal or glass; where there is a high level of dust; or where there is moving machinery. Where the threat of injury is to the health of the dog, the student will be permitted to make the decision.

4. A student or employee with a disability who wishes to utilize a service dog in training in University housing, classrooms, offices, or other areas of campus buildings not open to the general public must seek approval through the reasonable accommodation process.

5. Animals under the control of a law enforcement officer acting in the course of his or her duties.

6. Animals kept in residence halls as approved by the Department of Housing and Residence Life including animals kept by housing staff in residence. All animals must register with and be approved by Disability Support Resources prior to entering University housing, in accordance with this policy:

   a. Service animals in training are not permitted in certain classrooms, offices, or other areas of campus buildings not open to the general public. Facilities generally considered off limits unless an exception is granted:

   b. Animals under the control of a law enforcement officer acting in the course of his or her duties.

   c. Animals kept in residence halls as approved by the Department of Housing and Residence Life including animals kept by housing staff in residence. All animals must register
with and be approved by Disability Support Resources prior to entering University housing, in accordance with this policy:

7. Service animals are permitted to accompany the resident to all areas of housing where residents are normally permitted to go.

8. Animals approved by the University for use in research or for instructional purposes: [http://www.gvsu.edu/iacuc/]

9. Animals brought on campus for a special event sponsored by the University or a student organization provided that the event has been pre-approved in writing by the Dean for the sponsoring college or department or by the Office of Student Life.

10. Animals accompanied by members of the University community and visitors, as long as they remain on sidewalks and University walkways.

11. Any animal brought into a University owned or controlled property pursuant to this Policy must be properly licensed, vaccinated and tagged as required by applicable law. All animals must be under the control of their owner or handler and must be on a leash at all times, unless the owner is unable to use a leash due to a disability or the use of a leash would interfere with the service animal’s ability to perform its duties. In that case, the owner must be able to control the service animal by other effective means such as voice controls or signals.

12. Animals may not be cleaned or groomed in rest rooms, locker rooms, or other University facilities.

*For purposes of this Policy, “University Facility or Facilities” means any building, facility, structure or improvement, open or enclosed, that is owned, licensed, leased by, or under the control of the University.

B. General Requirements:

Persons bringing animals onto University owned or controlled property as permitted by this Policy are solely responsible for:

a. the full control, supervision and care of the animal

b. ensuring that animal droppings or other waste are picked up, thoroughly cleaned up and properly disposed of;

c. reimbursing the University for the costs associated with the repair of any real and/or personal property and/or University facility damaged directly or indirectly by the animal or the animal’s presence in the facility.

d. assuming full responsibility for any harm caused to others by their animal including medical expenses.

e. animals must not be cleaned or groomed in rest rooms, locker rooms, or other University facilities.

In addition, individuals bringing animals on campus must comply with all other applicable University ordinances, policies, practices and procedures and any applicable local, state or federal ordinance, statute and/or regulation.

C. Areas Requiring Pre-Approval for Service Animals:

1. The University may prohibit the use of service animals in certain locations due to health or safety restrictions, where service animals may be in danger, or where their use may compromise the integrity of research. Restricted locations may include, but are not limited to: teaching laboratories, classrooms, medical and surgical areas, and research areas.

2. Exceptions to restricted areas may be granted on a case-by-case basis by contacting the Office of Disability Support Resources. In making its decision, DSR will consult with the appropriate department and/or laboratory representative regarding the nature of the restricted area and any ongoing research. Additional requirements may be necessary to protect the animal. To be granted an exception: A student and/or employee who wants their animal to be granted admission to an off-limits area should contact DSR. Visitors should also contact DSR.

D. Clarifying Animal Status:

1. Service animals are permitted in all public facilities on campus in accordance with this Policy. University employees should refrain from questioning any individual about an accompanying service animal, including persons with non visible disabilities, unless there is a genuine question about the animal based upon its behavior.

2. In the unusual circumstance when an inquiry must be made to determine whether an animal is a service animal, a University employee may only ask two questions:
   a. Is the animal a service animal required because of a disability?
   b. What work or task has the animal been trained to perform?

   You may not ask these questions if the need for the service animal is obvious. You may not ask the owner to make the animal perform the task.

3. A University employee may not ask about a person’s disability, require medical documentation, require a special identification card or training documentation for the service animal or ask that the service animal demonstrate its ability to perform the work or task. Although a service animal may sometimes be identified by an identification card, harness, cape, or backpack, such identifiers are not required and should not be requested or demanded for any service animal on campus.

4. Allergies and fear of animals are not valid reasons for denying access or refusing service to people using service animals.

E. Removal of Service Animals:

1. A service animal may be removed from University facilities or grounds if it disruptive (e.g., barking, wandering, posing a direct threat to the health or safety of others; is not housebroken; or displays aggressive behavior and the behavior is outside the duties of the service animal). Ill, unhygienic, and/or unsanitary service animals are not permitted in public campus areas. The individual responsible for such an animal may be required to remove the animal. A service animal may also be removed if the animal is out of control and does not take effective action to keep the animal under control. If the animal’s behavior happens repeatedly, the owner may be prohibited from bringing the animal into facilities until the owner can demonstrate that significant steps have been taken to mitigate the animal’s behavior.

2. When an animal has been properly removed pursuant to this policy, the University will work with the handler/owner to determine reasonable alternative opportunities to participate in the University’s services, programs, and activities without having the animal on the premises.

3. Any individual with a dispute or disagreement concerning the removal or restriction of a service animal or any other aspect of this policy should first contact Disability Support Resources. If the matter is not resolved, a request for mediation should be submitted to DSR. Individuals may also file a written complaint with the Equity and Compliance Unit in the Division of Inclusion and Equity by calling 616-331-2894 or at [http://www.gvsu.edu/iacuc/]

F. Enforcement of Complaints:

If you become aware of a violation of this policy, you are encouraged to attempt informal methods of resolution. For example, if you recognize the person violating this policy, you might contact them or their supervisor to make them aware of the problem. If that is not successful and/or you are not comfortable approaching the person violating the policy or their supervisor, then the Department of Public Safety should be notified. The Department of Public Safety may pick up the animal and hold it for 48 hours. Animals not claimed during that time will be turned over to the county animal control officer and the owner of the animal will be responsible for any associated fees.

2. Students in violation of this policy will be referred to the University conduct process through the Dean of Students Office and may be assessed a fine of up to $250.
Employees in violation of this policy will be referred to the Human Resources Office for possible disciplinary action to be determined in consultation with the Equity and Compliance Unit in the Division of Inclusion and Equity and the employee’s supervisor.

DEFINITIONS:

1. Service animal: “any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the individual’s disability.” (28 CFR 36.104) The crime deterrent effects of an animal’s presence and the provision of emotional support, well-being, comfort or companionship do not constitute work or tasks for the purposes of this definition.

Examples of work or tasks that service animals perform include, but are not limited to: assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as books or the telephone, alerting a person to a sudden change in blood sugar levels, providing physical support and assistance with balance and stability to individuals with mobility disabilities, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

   a. The University may permit the use of a miniature horse on the same basis as a service animal if the horse has been trained to do work or perform tasks for the benefit of the individual with a disability and after an assessment of the following factors: the type, size and weight of the miniature horse and whether the facility can accommodate these features; whether the handler has sufficient control of the miniature horse; whether the miniature horse is housebroken; and whether the miniature horse’s presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation. (28 CFR 35.136)

2. Service animal in training: Dogs twelve months of age and older being individually trained to do work or perform tasks for people with disabilities that are at all times accompanied by a certified trainer. Puppies (dogs less than twelve months old) in training are not permitted in any University facilities.

3. Emotional Support, Assistance, or Therapy Animals: Please see the GVSU Housing Office Assistance Animal Policy.

CANCELLATION/CLOSURE POLICY

SLT 6.3

Date of Last Update:
September 06, 2017

Approved By:
Senior Leadership Team

Responsible Office:
Public Safety

POLICY STATEMENT

Grand Valley State University will close or cancel all or part of its operations in cases of emergency, utility disruptions, or for weather related reasons.

TYPES OF OPERATIONAL CHANGE:

- Cancellation: Classes will not be held. All staff are to report to work at their regular time.
- Closure/Closed: Classes and campus events will not be held. Only ESSENTIAL staff are to report to work.

When GVSU is closed, only essential staff are to report. Designated personnel in the following departments are deemed essential and are expected to report:

- Department of Public Safety
- Facilities Services
- Athletic & Recreation Facilities
- Food Service
- Housing
- Information Technology
- Library
- Pew Campus Operations
- WGVU Television and Radio

Appointing officers have discretion to call in non-essential staff as circumstances may require.

Students, faculty and staff should assume the university is open unless they are advised otherwise through GVSUAlert!, the university’s emergency notification system, or on the radio or television. In the event of closure or class cancellation, every effort will be made to make the announcement no later than 6:30 AM for daytime classes and 3:00 PM for evening classes.
University Criteria for Weather-related Cancellations or Closures

In evaluating whether to close for weather-related reasons, the following criteria are used: 1) the ability of the university’s road crews to keep campus roads and parking lots cleared; 2) the conditions of primary and secondary roads in the area as reported by the Michigan Department of State Police as well as by central dispatch authorities in Kent and Ottawa counties; and, 3) weather reports regarding the track of the storm and other conditions.

Because commuting students, faculty and staff come from such a broad geographic area, it is extremely difficult to arrive at a decision that is appropriate for each vicinity. Weather conditions rarely are uniform throughout this large area. There is no one decision that will satisfy everyone; however, a diligent effort is made to arrive at a reasonable decision that considers the safety of students as well as their right to receive instruction. Under no circumstances does GVSU ask students, faculty or staff to assume undue risk in traveling to the University in inclement weather.

When GVSU Allendale is closed because of weather-related conditions, the Pew Grand Rapids Campus and the Meijer Holland Campus will also close.

When Muskegon Community College is closed, GVSU’s classes in Muskegon are canceled and the office in the Stevenson Center for Higher Education will close.

When Northwestern Michigan College in Traverse City is closed, GVSU’s classes in Traverse City are canceled and the office in the NMC University Center will close.

Decisions to close or cancel activities at the Annis Water Resources Institute (AWRI), the Muskegon Innovation Hub and the Detroit Center will be made separately, as these facilities host tenants, business events, and research functions not affiliated with university operations.

Announcements of closing and cancellation will be made through GVSUAlert!, on the Grand Valley web home page www.gvsu.edu, and on GVNOW at www.gvsu.edu/gvnow. Notifications may also be heard on area radio and television stations. For a more detailed update on campus conditions and area roads, tune to the Grand Valley State television and radio stations, WGVU-FM 88.5, WGVU-AM 1480, WGVS-AM 850, WGVS-FM 95.3, WGVU-TV 35, and WGVK-TV52. Please do not call the university switchboard to seek closing or cancellation information.

Rescheduling Final Exams Affected by Cancellation or Closure

In the event of a cancellation or closure on a specified exam day, any classroom-based exams affected would be held on the next available day after the exam week has concluded. For example, if a Tuesday exam day were affected, the next available day after the conclusion of the exam week would be Saturday. If two exam days were affected, i.e. Wednesday and Thursday, Wednesday’s exam would take place on Saturday and Thursday’s exam would be the following Monday. Faculty and students are advised to be aware of this contingency when making travel plans.

In the event of a cancellation or closure during exam week, faculty who are able to modify their exams to allow for online, take-home, or similar formats may do so for all students who agree. Faculty have an obligation to provide the option to students to be examined in the manner described in the syllabus, and for those students, exams will be scheduled as described above.

ENDOWMENT SPENDING

SLT 6.4
Date of Last Update: January 04, 2013
Approved By: Senior Leadership Team

Responsible Office: Business and Finance

POLICY STATEMENT
Each year the University Board of Trustees approves spending rates for true and quasi-endowments. These rates are used to calculate the amount that can be distributed from each endowment. Only investment income is distributed from true endowments, as the principal must be maintained intact in perpetuity. Spending distributions are calculated quarterly for the current fiscal year based on the average balance over a rolling three year period and transferred to the various spending funds at that time. Effective January 1, 2002 an endowment requires a minimum balance of $30,000 in principal before spending can begin.

PROCEDURES
A spending fund is created for each endowment so that monies are expended according to the purpose for which the endowment was established; usually a restricted fund is utilized for true endowments and a designated fund for quasi-endowments. Documentation that supports how the funds are expended must be maintained for five years. Specifically, for true endowments established to fund scholarships, the selection committee must ensure that documentation regarding the criteria utilized for candidate selection and award is maintained for a five-year period.

EQUIPMENT ACQUISITION AND DISPOSAL POLICY

SLT 6.5
Date of Last Update: January 04, 2013
Approved By: Senior Leadership Team

Responsible Office: Business and Finance
POLICY STATEMENT

The GVSU Purchasing Office (331-2280) is responsible for the acquisition and disposal of University-owned equipment, as outlined below.

PROCEDURES

1. ACQUISITIONS

   A. New Equipment with a Value Greater Than $ 5,000.00
      If your department has received new equipment and its cost is greater than $ 5,000.00, it needs to be tagged for inventory purposes. This process involves the placement of an inventory tag on the equipment plus recording of pertinent information – serial number, model number, location of equipment and the department, which purchased the equipment.

   B. New Equipment with a Value Less Than/Equal to $ 5,000.00
      If your department has received new equipment and its cost is less than or equal; to $ 5,000.00, tagging is optional. To have equipment tagged contact the Accounting Office at 331-2233.

2. DISPOSAL

   Purchasing is responsible for the disposal of surplus, obsolete and worn out equipment. They will coordinate making the appropriate journal entries to update the equipment inventory, removal of University ID tags, and settlement of proceeds. Contact 331-2280 for requests to dispose of property and for appropriate disposal advice.

EVENT SIGNS AND BANNERS POLICY - ALLENDALE CAMPUS

SLT 6.7

Date of Last Update: November 05, 2013

Approved By: Senior Leadership Team

Responsible Office: Facilities Services

POLICY STATEMENT

Grand Valley State University event sign and banner policy is intended to establish a uniform system used across campus. The primary function of a sign or banner is to provide information. The effectiveness of distributing this information will be based on consistent design and standards. Implementation and maintenance of the event sign system will be the responsibility of the GVSU Facilities Services Department.

PROCEDURES

Event signs are made by Facilities Services. Banners are provided by the customer. When making a request, please follow the steps listed below:

1. Call Facilities Customer Service at 331-3000 to place your sign or banner request approximately two weeks prior to the event.

2. All banners are to be provided by the customer. There are two (2) locations on campus where they can be hung. One is in front of Lake Huron Hall in the Academic Mall area. The other is at the Northwest side of the Student Services Building facing Campus Dr. The banner(s) will be tied to metal posts that are secured into the ground. Banners may not hang from sculptures, the roof or inside any building, or be placed in the ground at a different location other than the two indicated unless approval has been given by the Associate Vice-President of Facilities Services. Also, approval must be given for any light pole banners. Light pole banner design must conform to Facilities size and construction standards and will be provided upon request.

3. Facilities Services will make and install three (3) real estate style signs for any GVSU sanctioned event on campus. They are 18” x 24”, white with navy blue lettering. Any additional signs ordered will be at a cost of $15.00 each and you must provide a FOAP number. There is a maximum of 15 signs that may be ordered.

4. If you are ordering a real estate sign then please indicate the event name, the location and which parking lot to use. We are able to place quotes or statements on the signs but it is a good idea to keep the letters to a minimum so they can be made large enough to read. Please give a date/time to have these installed and a date/time for removal.

5. Facilities Services will install the real estate signs at the locations the customer indicates. Usually this is at the campus entrances or along Campus Drive. No signs may be installed in front of the arch at the north main entrance or in front of any welcome sign at the campus entrances.

6. Handwritten signage is not allowed and any professional signage brought on campus must have approval by the Associate Vice-President of Facilities Services.

If you have any questions about your signage or need approval please call 331-3000.

HEATING AND COOLING SET POINTS

SLT 6.8

Date of Last Update: July 31, 2008

Approved By: Senior Leadership Team

Responsible Office: Facilities Services

POLICY STATEMENT

The University established standard set-points for heating and cooling on all campuses in order to conserve resources and control energy costs. These standards are described below.
PROCEDURES

During the winter season the heating controls are set at a maximum of 70°F. During the summer season the minimum cooling temperature will be 76°F. Facilities Services will respond to hot/cold calls to ensure that systems are running properly, but will not adjust the temperatures to levels outside of the standards.

Facilities Services also discourages the use of space heaters and fans in areas that are at the accepted standard temperature levels above. If there is a special need please contact Facilities Services at 331-3000.

IDENTITY THEFT DETECTION POLICY

SLT 6.9

Date of Last Update:
May 05, 2009

Approved By:
Senior Leadership Team

Responsible Office:
Business and Finance

POLICY STATEMENT

Grand Valley State University (GVSU) will comply with the applicable requirements of 16 C.F.R. 681, a federal regulation issued by the Federal Trade Commission (FTC) as part of the implementation of the Fair and Accurate Credit Transaction (FACT) Act of 2003 requiring that financial institutions and creditors (which include higher education institutions) implement written programs that provide for the detection of and response to specific activities ("Red Flag") that could be related to identity theft.

Grand Valley State University is required to adopt policies and procedures to mitigate identity theft. Activities that cause GVSU to be considered a "creditor" under the Red Flags Rule include:

1. Participating in the Federal Perkins Loan program
2. Participating in alternative or private educational loans
3. Offering institutional loans to students, faculty, or staff.
4. Offering a plan for payment of tuition throughout the semester rather than requiring full payment at the beginning of the semester.
5. Stored Value Cards

PROCEDURES

Identification of Red Flags

In order to identify relevant Red Flags, GVSU considers the type of accounts that it offers and maintains, methods it provides to open its accounts, methods it provides to access its accounts, and its previous experience with identity theft. GVSU identifies the following Red Flags in each of the listed categories:

1. Notification and Warnings from Credit Reporting Agencies
   a. Report of fraud accompanying a credit report
   b. Notice or report from a credit agency of a credit freeze on an applicant
   c. Notice or report from a credit agency of an active duty alert for an applicant
   d. Receipt of a notice of address discrepancy in response to a credit report request
   e. Indication from a credit report of activity that is inconsistent with an applicant's usual pattern or activity

2. Suspicious Documents
   a. Identification document or card that appears to be forged, altered or inauthentic
   b. Identification document or card on which a person's photograph or physical description is not consistent with the person presenting the document
   c. Other document with information that is not consistent with existing student information
   d. Application for services that appears to have been altered or forged

3. Suspicious Personal Identifying Information
   a. Identifying information presented that is inconsistent with other information the student provides (example: inconsistent birth dates)
   b. Identifying information presented that is inconsistent with other sources of information (example: an address not matching an address on a loan application)
   c. Identifying information presented that is the same as information shown on other applications that were found to be fraudulent
   d. Identifying information presented that is consistent with fraudulent activity (example: an invalid phone number or fictitious billing address)
   e. Social security number presented identical to one given by another student
   f. Address or phone number presented that is the same as that of another person
   g. A person fails to provide complete personal identifying information on an application when reminded to do so
   h. A person's identifying information is not consistent with the information that is on file for the student

4. Suspicious Covered Account Activity or Unusual Use of Account
   a. Change of address for an account followed by a request to change the student's name
   b. Payments stop on an otherwise consistently up-to-date account
   c. Account used in a way that is not consistent with prior use
   d. Mail sent to the student is repeatedly returned as undeliverable
   e. Notice to University that a student is not receiving mail sent by the University
   f. Notice to GVSU that an account has unauthorized activity
   g. Breach in GVSU's computer system security
   h. Unauthorized access to or use of student account information
Red Flag Detections

Student Enrollment
To detect any of the Red Flags identified above associated with the enrollment of a student, GVSU personnel will take the following steps to obtain and verify the identity of the person opening the account:

a. Require certain identifying information such as name, date of birth, academic records, home address or other identification
b. Verify the student's identity at time of issuance of student identification card (review driver's license or other government-issued photo identification)

Existing Accounts
To detect any of the Red Flags identified above for an existing covered account, GVSU personnel will take the following steps to monitor transactions on accounts:

a. Verify the identification of students if they request information (in person, via telephone, facsimile or email)
b. Verify the validity of requests to change billing address by mail or email and provide the student a reasonable means of promptly reporting incorrect billing address changes
c. Verify changes in banking information given for billing and payment purposes

Consumer ("Credit") Report Requests
To detect any of the Red Flags identified above for an employment or volunteer position for which a credit or background report is sought, GVSU personnel will take the following steps to assist in identifying address discrepancies.

a. Require written verification from any applicant that the address provided by the applicant is accurate at the time the request for the credit report was made to consumer reporting agency
b. In the event that notice of an address discrepancy is received, verify that the credit report pertains to the applicant for whom the requested report was made and report to the consumer reporting agency an address for the applicant that GVSU has reasonably confirmed is accurate

c. Check with any other source or sources to verify the accuracy of the address

d. Follow the due diligence procedures specified in the Program

Preventing and Mitigating Identity Theft
In the event that GVSU personnel detect any identified Red Flags, such personnel shall take one or more of the following steps, depending on the degree of risk posed by the Red Flag:

a. Continue to monitor a covered account for evidence of identity theft
b. Contact the student or applicant for which the credit report was requested
c. Change any passwords or other security devices that permit access to covered accounts
d. Not open a new covered account
e. Provide the student with a new student identification number
f. Notify the Program Administrator for determination of the appropriate step(s) to take
g. Notify law enforcement
h. Determine that no response is warranted under the particular circumstances
i. Take appropriate steps to modify the applicable process to prevent similar activity in the future

Protecting Student Identifying Information
To further prevent the likelihood of identity theft occurring with respect to covered accounts, GVSU will take the following steps as they relate to internal operating procedures:

a. Ensure that the GVSU website is secure or provide clear notice that the website is not secure
b. Ensure complete and secure destruction of paper documents and computer files containing student account information when a decision has been made to no longer maintain such information
c. Ensure that office computers with access to covered account information are password protected.
d. Avoid use of social security numbers
e. Ensure computer virus protection is up to date
f. Require and keep only the kinds of student information that are necessary for GVSU purposes

Oversight
Responsibility for developing, implementing and updating this Program lies with an Identity Theft Committee (Committee) for GVSU. This Committee is headed by a Program Administrator appointed by the President. Two or more individuals appointed by the Program Administrator comprise the remainder of the committee.

The Program Administrator is responsible for ensuring appropriate training of GVSU personnel review of staff reports regarding the detection of Red Flags and the steps for preventing and mitigating identify theft, determining which steps of prevention and mitigation should be taken in particular circumstances and considering periodic changes to the Program.

Staff Training and Reports
GVSU staff responsible for implementing the Program shall be trained either by, or under the direction of, the Program Administrator in the detection of Red Flags and the responsive steps to be taken when a Red Flag is detected. GVSU staff shall be trained, as necessary, to effectively implement the Program. GVSU employees are expected to notify the Program Administrator once they become aware of an incident of identity theft or of GVSU's failure to comply with this Program. At least annually or as otherwise requested by the Program Administrator, GVSU staff responsible for development, implementation, and administration of the Program shall report to the Program Administrator on compliance with this Program. The report should address such issues as effectiveness of the policies and procedures in addressing the risk of identity theft in connection with the opening and maintenance of covered accounts, service provider arrangements, and significant incidents involving identity theft and management response, and recommendations for changes to the Program.

Service Provider Arrangements
When the GVSU engages a service provider to perform an activity in connection with one or more covered accounts, GVSU will take the following steps to ensure the service provider performs its activity in accordance with reasonable policies and procedures designed to detect, prevent and mitigate the risk of identity theft:

a. Require, by contract, that service providers have such policies and procedures in place
b. Require, by contract, that service providers review GVSU's Program and report any Red Flags to the Program Administrator or GVSU employee with primary oversight of the service provider relationship

Program Updates
The Committee will periodically review and update this Program to reflect changes in risks to students and soundness of GVSU’s policies, procedures, protocols and practices from identity theft. In doing so, the Committee will consider GVSU’s experience with identity theft situations, changes in identity theft methods, changes in identity theft detection and prevention methods, and changes in GVSU’s business arrangements with other entities. After considering these factors, the Program Administrator will determine whether changes to
the Program, including the listing of Red Flags, are warranted. If warranted, the Committee will update the Program, subject to approval by the Senior Leadership Team.

DEFINITIONS:

**Account** - a continuing relationship established by a person with a financial institution or creditor to obtain a product or service for personal, family, household or business purpose. Account includes:

a. an extension of credit, such as the purchase of property or services involving a deferred payment; and

b. a deposit account

**Card Issuer** - a financial institution or creditor that issues a debit or credit card.

**Consumer Reports** - any written, oral, or other communication of any information by a consumer reporting agency bearing on a consumer's credit worthiness, credit standing, credit capacity, character, general reputation, personal characteristics, or mode of living which is used or expected to be used or collected in whole or in part for the purpose of serving as a factor in establishing the consumer's eligibility for:

a. Credit or insurance to be used primarily for personal, family, or household purposes;

b. Employment purposes; or

c. Any other purpose authorized under U.S. Code: Title 13k, 1681b

**Covered Accounts** - an account that a financial institution or creditor offers or maintains, primarily for personal, family, or household purposes, that involves or is designed to permit multiple payments or transactions, such as a credit card account, mortgage loan, automobile loan, margin account, cell phone account, utility account, checking account, or savings account. Any account that the financial institution or creditor offers or maintains for which there is a reasonable foreseeable risk to customers or to the safety and soundness of the financial institution or creditor from identity theft, including financial, operational, compliance, reputation, or litigation. This includes all student accounts or loans that are administered by GVSU.

**Debit Card** - any card issued by a financial institution to a consumer for use in initiating an electronic funds transfer from the account of the consumer at such financial institution, for the purpose of transferring money between accounts or obtaining money.

**Identifying Information** - is any name or number that may be used, alone or in conjunction with any other information, to identify a specific person, including:

a. Name

b. Date of birth

c. Address

d. Government issued driver's license

e. Telephone number

f. Alien registration number

g. Social security number

h. Government passport number

i. Employer or taxpayer ID number

j. Student identification number

k. Computer Internet address

l. Routing code

**Identity Theft** - a fraud committed or attempted using the identifying information of another person without authority.

**Program Administrator** - the individual designated by the President with primary responsibility for oversight of the Program.

**Red Flag** - a pattern, practice, or specific activity that indicates the possible existence of identity theft.

**Service Provider** - a person that provides a service directly to the financial institution or creditor.

---

**INTERIOR SIGNAGE STANDARDS POLICY**

**SLT 6.10**

**Date of Last Update:**

July 31, 2008

**Approved By:**

- Senior Leadership Team

**Responsible Office:**

Facilities Planning

**POLICY STATEMENT**

Grand Valley State University has developed and maintains standards that govern the design, content, appearance, installation and use of interior signage through the institution. These standards are published on the [Facilities Planning Web site](#).

**PROCEDURES**

Requests for additional signage, revisions in existing signage and/or removal of signage should be handled by submitting a work order through the [Facilities Services Web site](#) or by contacting the Facilities Planning office at 331-2962.

---

**INVOICE PAYMENT POLICY**

**SLT 6.11**
POLICY STATEMENT

All purchases must be made in accordance with terms outlined in the Grand Valley State University Board of Trustees’ Policies. Payment of the resulting invoices is subject to the policies and procedures outlined below.

PROCEDURES

1. Vendors are to mail invoices to:
   Grand Valley State University
   Accounts Payable
   2015 Zumberge Hall
   Allendale, Michigan 49401

2. The University requires each new vendor to submit a W-9. Accounts Payable will either retain a file copy if the first invoice has an EIN included, or solicit a W-9 from the vendor.

3. Accounts Payable maintains original invoices. Departments will receive a copy of each invoice that will then require an approved signature based on the Banner approval queue information for the department. If the invoice references a valid purchase order, receipt of goods/services may be confirmed by any member of the requesting department via signature. If the invoice does not have a corresponding purchase order, the only requesting department staff members who may approve the invoice for payment are those authorized in the Banner approval queue. Departments must provide complete FOAPs on each invoice.

4. Department should then return invoice copies to Accounts Payable as soon as possible. The University desires to pay its obligations within the negotiated vendor terms. If these terms include discounts, they will only be given to a department if the approved invoice is returned in time for the vendor terms to be met. Please allow up to three (3) days for processing within Accounts Payable.

5. When you use a hotel that direct bills for university guests lodging you are required to provide the guest’s name and the business purpose of the stay.

6. Departments disputing an invoice must follow up with the vendor and inform Accounts Payable about reasons delaying authorization and return of disputed invoices.

7. If your department receives an invoice that is not yours, please return invoice to Accounts Payable for forwarding to the correct department. If available, please note correct destination on the invoice.

8. Invoices are processed daily. Checks are processed daily and cut based on the vendors terms. All checks are mailed or funds electronically transferred to vendors. Only those checks being presented to a guest in person will be held for pickup. The goal of the Accounts Payable department is to process authorized-for-payment invoices within five business days of receipt at 2015 James H. Zumberge Hall.

9. Payments to non-employees and international guests for services rendered require a purchase order. Payments are processed in accordance with contract terms.

10. Payments to employees for services, honoraria, stipends, prizes and awards are paid via the payroll system in accordance with IRS regulations.

Any questions should be directed to Accounts Payable at 616-331-2202.

KEY POLICY - ALLENDALE CAMPUS

SLT 6.12

POLICY STATEMENT

The objective of this procedure is to define the system of key control at the University. Issuance of keys is a part of maintenance operations. Deans and administrators are urged to maintain a list of keys, which persons in their units possess for security and accountability. Issuance and usage of keys is to be in accordance with principles of reasonable security.

PROCEDURES

Responsibilities
A. Facilities Services is responsible for:

1. Identification codes on keys.
2. Issuing and maintaining key records.
3. Maintenance, repair, and replacement of University key and lock hardware.
4. Duplication of keys.

B. Deans, Department Chairs, and Administrators are responsible for:

1. Approving keys for facility and/or staff members in their unit.

Key Request Procedures

A. Access to locked areas of the University is based upon need. Whenever possible, employees will be issued the minimum number of keys at the lowest level that will allow access to their areas of assignment only.

B. All key requests must be submitted on the Key Request Form, which is available on the Facilities Services Web site.

C. Information on the KEY REQUEST FORM must be complete with proper signatures/approvals (including your supervisor). The form is then forwarded to Facilities Services. Incomplete forms will be returned. Proper justification must be provided for anything other than keys to specific doors.

D. Upon approval, keys can be delivered to a designated office or picked up at the Central Utilities building. The Key Inventory form must be signed by the individual who will use the key at that time for return to Facilities Services for record keeping. No keys will be issued without these signatures.

E. Under normal circumstances, students and temporary employees will not be issued keys.

Level of Keys and Issuance

A system of keys ranging from the Great Grand Master Keys down to the lowest level of change key is used to satisfy user needs. Facilities Services aims to issue the smallest number of keys possible.

A. Great Grand Master (GGM) key is the highest level of key on the campus. The key covers all of the keyways within an entire key system. There are (5) key systems currently on campus. Great Grand Masters are issued to the Executive Officers, the Assistant Vice President for Facilities Services, the Assistant Vice President of Facilities Planning, the Director of Public Safety Services, Facilities Services Supervisors and Public Safety Officers. Other Facilities Services staff and some University personnel may be approved but only after administrative and executive officer authorization. All GGM key requests must receive the approval of the appropriate division heads as well as approval of the Assistant Vice President for Facilities Services.

B. X-KEYS are issued to Facilities Services, Public Safety, and Technology Services personnel only. This key allows access to key boxes that are located in designated buildings and contain a master key for that building. X-KEYS are issued to designated individuals within these departments based on proof of need. These key requests must be approved by the Assistant Vice President for Facilities Services.

C. BUILDING MASTER keys will allow entry into all areas of a building including mechanical spaces and designated to restricted spaces. These are keys placed in key boxes for access and use by service staff.

D. MASTER keys will operate all keyways in a building except mechanical rooms and designated restricted areas. These keys are issued to Deans or Administrative Officers with the responsibility for all building and department activities. Custodial staff will also be issued MASTER keys for the building to which they are assigned. Issuance of these keys must be approved by the Assistant Vice President for Facilities Services.

E. SUB-MASTER keys operate a sub-group of locks within a master key system such as a department. These are issued by the Assistant Vice President for Facilities Services.

F. ACCESS keys allow entry to individual offices or rooms. These are the primary keys issued to faculty and staff. Approval is from the Assistant Vice President of Facilities Services.

G. ENTRANCE keys operate entrance doors to buildings, departments or suites. Approval is from the Assistant Vice President of Facilities Services.

H. FILE keys are issued as requested to allow access to department files or personal office files, desks, and cabinets.

Key Lock Boxes

A. A KEY LOCK BOX is located in the Central Utilities Building (CUB) for temporary checkout of X-KEYS, MASTER OR GRAND MASTER keys for access to a building. Identification of the individual checking out the key as well as verification of need will be necessary. An ID is required (driver’s license and a Facilities Services ID card) and will be held in CUB pending return of these keys.

Employee Responsibilities

A. The employee is responsible for the security of keys assigned. Lost or stolen keys must be reported immediately to department administration, Facilities Services, and Public Safety. A replacement charge of $10.00 will be assessed for each lost or stolen key before a duplicate can be issued. The replacement fee of a lost or stolen sub master, master, x-key, or grand master will be $100.00 and must be paid before a duplicate is made. Request for keys lost due to theft must be accompanied by a police report. The employee’s department will be responsible for costs to re-key due to a lost or stolen key. Disciplinary action – if needed – will be left to the supervisor.

B. Employees who change offices will be issued new keys at the time old keys are returned. A Key Request Form needs to be completed for the new keys. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. KEYS MUST BE RETURNED TO FACILITIES SERVICES.

C. Broken keys should be returned at the time the new key is issued.

D. Requests for desk and file cabinet keys will be supplied if they are in stock. If not, the department is responsible for supplying the key to be duplicated.

E. UNDER NO CIRCUMSTANCES ARE GVSU KEYS TO BE DUPLICATED OR GIVEN TO OTHER EMPLOYEES. THE PERSON WHO SIGNED FOR THE KEY WILL BE HELD RESPONSIBLE. Any requests for additional access are to be made through the normal procedures. Appropriate disciplinary action will be pursued for unauthorized duplication.

F. All keys are to be turned in to Facilities Services at the time of termination of employment. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. All terminating or retiring employees are encouraged to check with Facilities Services well in advance of their last day to determine what keys have been issued to them.

G. Under normal circumstances, students and temporary employees will not be issued keys. Employees should NOT sign out keys for these employees.

Key History Assignment Cards

A Key History Assignment card is maintained for each employee possessing a GVSU key. The information on the card includes the employee’s name, job title, department, phone number and office location. Also the card lists the date a key is issued, the key numbers, access location, room numbers, employee’s signature, and date of key return.

Return of Keys
A. When a key is returned from an employee because the need for the key no longer exists, the Key History Assignment Card is pulled from the employee file and the return date is noted.

B. Upon termination of GVSU employment, Facilities Services will be notified by Human Resources. The employee’s supervisor should follow up and direct the proper return of keys to Facilities Services.

C. These key changes are reflected on the Key History Assignment Card and the file is removed from ongoing records.

D. UNDER NO CIRCUMSTANCES ARE KEYS TO BE RETAINED BY THE DEPARTMENT AND GIVEN TO A NEW EMPLOYEE.

Special Key Issuance – Facilities Services

A. Contractors are issued temporary access cards the Central Utilities Building (CUB). Cards are to be returned immediately upon completion of the contract service.

B. Temporary Employees will be allowed to check out the required keys / access cards from CUB using the same basis as student’s checkout.

C. Temporary Job Assignments – employees receiving temporary job assignments may checkout the appropriate building key / access card from CUB to work in the assigned area. A Facilities Services ID must be presented and will be held pending return of these keys. (Example: custodians or maintenance personnel temporarily assigned to a different routine.) These keys may be held for the duration of the temporary assignment and do not have to be returned daily.

D. Restricted keyways – no future building re-keying will allow for spaces off the GGM system. Areas or departments may be off the building master but not off the GGM.
LOCK BOX KEYS are issued to Plant Services, Public Safety, Technology Services, Pew Campus Operations and designated contractors only. This key allows access to key boxes that are located in designated buildings and contain a master key for that building. Lock Box keys are issued to designated individuals within these departments based on proof of need. These key requests must be approved by the Assistant Vice President for Pew Campus & Regional Centers.

MASTER KEYS operate all keyways except mechanical rooms and designated restricted areas. These keys are issued to Deans or Administrative Officers with responsibility for all building and department activities. Custodial Staff will also be issued master keys for the building to which they are assigned. Issuance of these keys must be approved by the Assistant Vice President for Pew Campus & Regional Centers.

SUB-MASTER keys operate a sub-group of locks within a master key system such as a department. These are issued based on proof of need and require approval of the Assistant Vice President for Pew Campus & Regional Centers.

OPERATOR keys allow entry to individual offices or rooms. These are the primary keys issued to faculty and staff. Approval is from the Assistant Vice President for Pew Campus & Regional Centers.

ENTRANCE keys operate entrance doors to buildings, departments, or suites. Approval is from the Assistant Vice President for Pew Campus & Regional Centers.

FILE keys are issued as requested to allow access to department files or personal office files, desks, cabinets.

**Lock Box**

A LOCK BOX is located in the loading dock of EC, DEV, SCB, BIK, DET and CHS buildings. These are for temporary checkout of X MASTER keys for access to a building.

**Vendor Sign Out**

Temporary keys for the Pew Campus may be signed out to vendors on a daily basis. Identification of the individual checking out the key as well as verification of need will be necessary. The keys are signed out from the Pew Campus Operations Office at the Bicycle Factory, suite 350.

**Employee Responsibilities**

The employee is responsible for the security of keys assigned. Lost or stolen keys must be reported immediately to department administration and Pew Campus Operations. A replacement charge of $10 will be assessed for each lost or stolen key before a duplicate key can be issued. The replacement fee for a lost or stolen sub-master, master, lock box key or grand master will be $100 and must be paid before a duplicate is made. Request for keys lost due to theft must be accompanied by a police report. The employee’s department will be responsible for costs to rekey due to lost or stolen key.

Employees who change offices will be issued new keys at the time the old keys are returned. A Key Request Form needs to be completed for the new keys. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. KEYS MUST BE RETURNED TO THE PEW CAMPUS OPERATIONS OFFICE.

Broken keys should be returned at the time the new key is issued.

UNDER NO CIRCUMSTANCES ARE GVSU KEYS TO BE DUPLICATED OR GIVEN TO OTHER EMPLOYEES. THE PERSON WHO SIGNED FOR THE KEY WILL BE HELD RESPONSIBLE. Any requests for additional access are to be made through the normal request procedures. Appropriate disciplinary action will be pursued for unauthorized duplication.

All keys are to be turned into the Pew Campus Operations Office at the time of termination of employment. EMPLOYEES MUST NOT TRANSFER KEYS TO EMPLOYEES REPLACING THEM. All terminated or retiring employees are encouraged to check with Pew Campus Operations well in advance of their last day to determine what keys have been issued to them.

Under normal circumstances, students and temporary employees will not be issued keys. Employees that sign out keys for these people WILL be held responsible for the keys.

**Key History Assignment Cards**

A Key History Assignment card is maintained for each employee possessing a GVSU key. The information on the card includes the employee’s name, job title, department and phone number. The card also lists the date the key is issued, the key numbers, access location, room numbers, employee’s signature, and dates of key return.

**Return of Keys**

When a key is returned from an employee because the need for the key no longer exists, the Key History Assignment card is pulled from the employee file and the return date is noted.

Upon termination of GVSU employment, Pew Campus Operations will be notified by Human Resources. The employee’s supervisor should follow up and direct the proper return of Pew Campus keys to Pew Campus Operations.

These key changes are reflected on the Key History Assignment card and the file is removed from ongoing records.

UNDER NO CIRCUMSTANCES ARE KEYS TO BE RETAINED BY THE DEPARTMENT AND GIVEN TO A NEW EMPLOYEE.

**Special Key Issuance**

Vendors are issued temporary keys through the Pew Campus Operations Office. Such keys are to be returned immediately upon completion of the contract service or by 5:00 p.m. each day. Keys may be kept overnight with operations manager approval.

Students and Temporary Employees may have keys temporarily assigned to them for the duration of their daily shift only and then must be returned daily. These are to be checked out through the Pew Campus Operations Office and require supervisor’s permission. A driver’s license must also be presented and information will be recorded in the Pew Campus Operations Office.

Temporary Job Assignments – Employees receiving temporary job assignments may check out the appropriate building key from the Pew Campus Operations Office to work in the assigned area. (Example: custodians or maintenance personnel temporarily assigned to a different routine). These keys may be held for the duration of the temporary assignment and do not have to be returned daily.

---

**LIGHTNING/SEVERE WEATHER POLICY - ATHLETICS**

SLT 6.14

**Date of Last Update:**
August 22, 2014

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
POLICY STATEMENT

The safety of all participants and observers of athletic events is extremely important. Therefore, the Athletics Department has developed the following policy and chain of command in order to ensure the safety of both athletes and onlookers in the case of severe weather during an athletic event.

PROCEDURES

Chain of Command

The athletic trainer(s) present (most practices) in coordination with the game administrator and game officials are responsible for terminating an athletic activity in the event of lightning or other severe weather. During outdoor activities, a primary responsibility of the athletic trainer(s) is to have the ability to make sound decisions on environmental factors affecting the safety and well being of the athletes as well as others involved with the activity.

The certified athletic trainer will communicate with the game administrator, the head coach, and game official(s)/umpire(s) of the potential for lightning or severe weather and will make the recommendation that all activities stop or be suspended.

If the head coach is not present, the senior most member of the coaching staff will assume responsibility.

If an athlete proceeds with their outside activity against the recommendation of the individual in charge to seek a safe shelter, the athlete assumes all personal liability with regard to their safety and health.

If a coach and/or game official(s)/umpire(s) make the decision to continue to practice and/or continue with a game or other activity despite a Telvent weather warning, the cancellation of classes, and/or the verbal instruction by a certified athletic trainer or game administrator, they will be doing so against the recommendations of the Grand Valley State University Athletic Department and will be personally liable for any and all injuries.

Severe Weather

In the event of severe weather, the following measures will be taken by Grand Valley:

The athletic training staff will check the weather daily prior to the practice or competition. Up-to-date weather reports will be obtained by using Telvent services.

During outdoor practices and games, an early warning text message system from Telvent may be used to help determine the occurrence of and/or distance of lightning in the area. The weather reports and systems will be monitored for storms that may develop during practices and games.

When an early warning text message system from Telvent has detected lightning or thunder has been heard, the athletic trainer in charge will monitor the distance on the early warning system. When the lightning is within an 8-mile radius of the venue, the activity will be ceased and a warning message with recommended safe structure will be given.

Anytime the Meadows sirens are used to close the golf course, all athletic outdoor activities will be suspended.

The certified athletic trainer will be responsible for notifying the head coach, official(s)/umpire(s) and game administrator (if present) of the lightning or severe weather. The certified athletic trainer will recommend play to be suspended at this time and shelter should be taken.

Any person who feels they are in danger of any lightning activity will have the right to leave the field or event site to seek safe shelter without fear of penalty or repercussion.

If play is suspended due to severe weather, everyone (including observers) should seek shelter in the designated “safe structures” (listed in Table A). A “safe structure” is defined as “any building normally occupied or frequently used by people, i.e. a building with plumbing and/or electrical wiring that acts to electrically ground the structure.” This structure does not include: shower facilities, baseball/softball dugouts, outside storage sheds, and canopies/awnings/tents. When in a “safe structure,” stay away from corded telephones, electrical appliances, lighting fixtures, ham radio microphones, electric sockets, and plumbing.

In the absence of a “sturdy, frequently inhabited building,” one may seek shelter in fully enclosed hardtop vehicles but should not touch the sides of the vehicle.

If no “safe structure” is available within reasonable distance, find a thick grove of small trees surrounded by taller trees or a dry ditch and assume a lightning safe position. A lightning safe position is one in which one is crouched on the ground with only the balls of the feet touching the ground, with their arms wrapped around the knees and head lowered. Do not lie flat on the ground. Stay away from the tallest trees or objects (i.e. light poles or flag poles), metal objects (i.e. fences or bleachers), individual trees, standing pools of water, and open fields. Avoid being the highest object in a field.

Any person who feels his/her hairs stands on end or skin tingle should immediately assume a lightning safe position.

Avoid using a landline telephone. Cellular phones may be used in an emergency situation.

Resumption of Activity

Play will resume thirty minutes following the last flash of lightning per the Telvent warning system. The certified athletic trainer will make this recommendation to the official(s) during an official game.

Blue skies and absence of rain are not protection from lightning. Lightning can strike up to ten miles from the rain shaft and it does not have to be raining for lightning to strike.

Care of a Lightning-Strike Victim

A lightning strike does not stay attached to the source therefore they do not carry an electrical charge. It is safe to touch the victim to move him/her to a safe location and to render medical treatment. Medical personnel should consider their own personal safety before venturing into a dangerous situation to render care.

Lightning-strike victims who show signs of cardiac or respiratory arrest need emergency help quickly. CPR and AED use should begin immediately, if necessary. Prompt, aggressive CPR has been highly effective for the survival of victims of lightning strikes.

Victims should be assessed and treated for apnea, asystole, hypothermia, shock, fractures and burns.

Refer to the Safe Structures table.

**SPACE HEATERS AND PERSONAL APPLIANCE POLICY**

**SLT 6.16**

**Date of Last Update:**
January 12, 2015

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Pew Campus Operations/ Allendale Facilities Services

**POLICY STATEMENT**
The following policy language is intended to promote the safety of the campus community, improve the comfort of faculty/staff, prevent physical damage to university facilities and conserve energy at Grand Valley State University.

**PROCEDURES**

**Space Heaters:**
The use of electric space heaters (or those fueled by other means) is strictly prohibited in any GVSU facility. Electric space heaters pose a safety risk and fire hazard by overloading building electrical circuits. They are also a very inefficient means of providing heat and often result in the discomfort of occupants in nearby offices or work areas.

Individuals who believe their work area is too cold (or hot) may contact Facilities Services (Allendale Campus) at extension 1-3000, or Operations at extension 1-6700 (Pew Campus & Regional Centers). A work order may also be submitted online at webtools.plant.gvsu.edu to request that their space be evaluated for temperature adjustments.

**Other Personal Appliances:**
The following appliances are also prohibited from being used in offices or other non-designated common areas at GVSU:

- Air conditioners
- Grills
Many of these appliances are available to faculty/staff in designated break kitchens and lounge areas. If your department wishes to add an additional shared item to a break/lounge area, please contact the Operations Manager or Facilities Supervisor for your designated building to discuss its placement.

Exceptions:
Operations and Facilities Services will work to accommodate medical necessities, departmental events or other special conditions that may warrant an exception to this policy.

Responsibility:
Enforcement of this policy is the responsibility of departmental supervisors. Facilities Services and Operations staff will report unauthorized space heaters and other appliances discovered in the course of their work. The supervisor, chair, dean or director that is responsible for the area will be notified.

TIMECARD / TIMEKEEPING POLICY
SLT 6.17
Date of Last Update:
January 04, 2013
Approved By:
Senior Leadership Team
Responsible Office:
Business and Finance

POLICY STATEMENT
Timekeeping must accurately reflect all hours worked and should be recorded on a daily basis. Misrepresentation of hours worked or forgery is a violation of the law. Misrepresenting hours worked, forging a timecard, and swiping, or inputting hours for someone else may lead to immediate termination of employment.

PROCEDURES
Electronic Timekeeping
It is the responsibility of the staff member to accurately record all hours worked in Ultra Time and inform their supervisor that the hours are ready to be confirmed, or it is the responsibility of the staff member to accurately swipe their identification card in order for their supervisor to confirm their hours. All hours must be confirmed by 3:00 pm on the Monday following the end of the pay period.

Timecards
Each timecard is coded with information for the correct pay period. It is important that you use the correct timecard for the pay period. It is the responsibility of the staff member to accurately complete and submit their timecard to their supervisor (the supervisor must have signature authority on the account being charged) for their signature. The signed timecard must be in the Payroll Office 1035 James H. Zumbarge Hall by 5:00 pm on the Monday following the end of a pay period.
For additional information, contact the Payroll Office.

TRAVEL POLICY AND PROCEDURES
SLT 6.18
Date of Last Update:
February 27, 2012
Approved By:
Senior Leadership Team
Responsible Office:
Business and Finance

POLICY STATEMENT
This document is designed to provide guidance to faculty and staff on University travel policies, regulations and procedures. These guidelines are in general terms and are not expected to cover every situation. For questions regarding policies, procedures or travel arrangements, call Procurement Services at 616-331-2280. For questions regarding travel and expense reimbursement, call the Accounting Office at 616-331-2203.

PROCEDURES
AUTHORIZATION
It is the responsibility of each prospective traveler to secure the appropriate approval for University travel from his/her supervisor, department head, dean, director or executive officer. Additional regulations may apply for travel associated with grant funding, especially for international travel. The following individuals would be eligible for reimbursement of
reasoning expenses while traveling for University-related purposes:

- University Board of Trustees, faculty and staff employees.
- Non-employee guests invited to the University for lectures, consulting, interviews, recruiting, and other special occasions, or those requested to travel for the University as specified in a contractual arrangement.

ARRANGEMENTS

Employees: Each traveler is responsible for arranging his/her own travel schedule, booking reservations, and payment of expenses. Please contact the Procurement Services Department for information pertaining to the University’s preferred travel agency. Call 616-331-2280 or email purchasing@gvsu.edu.

University Guests/Groups: The host department is responsible for coordinating travel arrangements for University guests and non-employee groups. Please contact the Procurement Services Department for information pertaining to the University’s preferred travel agency. Call 616-331-2280 or email purchasing@gvsu.edu for assistance in booking air and/or ground transportation, hotel accommodations, car/van rentals or bus charters.

To request charges direct billed to the University, the following information must be given to the travel agency: guest name, dates of travel, hotel reservation, car rental, University host/arranger’s name, department name, account number, and phone number. Upon receipt of invoices from the travel/hotel/car rental agency, the Accounting Office will send a copy to the department for verification of the direct-billed charges and authorized signature for payment approval. The approved invoice copy must be returned to the Accounting Department promptly.

CHARGING TRAVEL EXPENSES

University faculty and staff may charge all business travel and entertainment expenses to an existing personal credit card or they may obtain a Fifth Third MasterCard through the Human Resources office. This is a personal credit card, and there is no annual fee to participate in this program. Call the Human Resources office at 616-331-2215 for an application or for additional information.

It is important to note that individual cardholders are personally liable for all charges on their Fifth Third MasterCard charge card. A monthly statement of charges will be sent to the cardholder, who is solely responsible for full and timely payment of all charges. Requests for eligible travel reimbursement should be made soon after completion of the trip and need not wait for receipt of the credit card statement. Refer to the expense reimbursements section for reimbursement of airline tickets purchased far in advance of trip.

EXPENSE REIMBURSEMENTS

The following individuals are eligible for reimbursement of reasonable expenses while traveling for University-related purposes:

- University Board of Trustees, faculty and staff employees.
- Non-employee guests invited to the University for lectures, consulting, interviews, recruiting, and other special occasions, or those requested to travel for the University as specified in a contractual arrangement or approved by the appropriate executive officer.

Refer to the Travel & Expense Guidelines for the current reimbursement schedule.

TRANSPORTATION

A. Commercial Airlines

1. Airfare must be booked at lowest economy or coach class unless the traveler certifies on the travel and expense form that such classes were not available. The passenger’s ticket coupon/receipt or e-ticket itinerary must be submitted when reconciling expenses. If a credit card statement for airfare is due before the trip has been completed, the University will reimburse that expense to the traveler when requested on the travel and expense form.

2. The University will permit the benefits of airline frequent flyer programs derived from travel paid for by the University to accrue to the traveler. However, travelers are encouraged to apply these benefits toward future University travel.

B. Charter Air Service – Charter air service may be authorized when it is to the advantage of the University measured by comparative travel costs and the time constraints of the travelers.

C. Personal Aircraft – Air travel for University business on an aircraft owned/leased by employees is prohibited. All University air travel must be booked on regularly scheduled commercial airlines or a University chartered aircraft.

D. Public Transportation – Taxis, buses, subways, limousines, etc., are reimbursable at full fare for University business.

E. Rental Vehicles – The use of rental vehicles is limited to situations where commercial transportation is either not available or is impractical. Renting vehicles for use at out-of-state destinations is permitted if necessary to the purpose of the trip. The University will reimburse expenses for economy or midsize vehicles. Contact either the facilities services office or the University’s preferred travel agency for assistance with rental vehicles.

1. A major credit card is required as security at time the vehicle is picked up. The rental agreement form and receipt must accompany the Travel and Expense Form for reimbursement.

2. The University has discount agreements with several major rental agencies. Discount cards are available from the travel agency or the Procurement Services Office. Request the applicable discounted rate when reserving a vehicle. Some promotional specials may be more economical than the discounted rate; request the best rate available.

3. Refer to the insurance section regarding appropriate coverage.

F. Personal Vehicles

1. If an employee works primarily on campus and has a GVSU principal office assigned or principal place of business, the mileage reimbursement allowed will be calculated from their principal GVSU office or place of business. Employees involved in work or temporary assignments off campus (i.e. field supervision, teaching, TV broadcasting, etc.) will be allowed mileage reimbursement based on their distance from their GVSU campus principal office/place of business or from their home to the place of the work or temporary assignment. Mileage for travel between home and campus is not reimbursable.

2. If an employee works primarily in the field off-campus, the mileage reimbursement allowed will be from either their home or an alternative location that is approved by the appointing officer. This approved location will be considered the point that mileage reimbursement will be calculated from.

3. Mileage within a campus location (Pew or Allendale, for example) is generally not reimbursable unless the employee is required to transport special equipment or tools to perform their duties and/or receives appointing officer approval.

4. Mileage between all campuses is permissible for reimbursement. Employees are encouraged to utilize the bus service between the Grand Rapids and Allendale campuses whenever possible rather than to request reimbursement.

5. Personal vehicles may be used in lieu of commercial airline travel. Mileage will be reimbursed at the established current rate but should cost the University no more than the commercial coach/economy airline fare. Similarly, transportation by bus, train, or other means will be reimbursed for actual cost but no more than the commercial coach/economy airline fare.
6. Expenses for gasoline, repairs, towing, etc. are included in mileage allowance. Expenses for parking, storage, tolls and ferries are reimbursable and limited to the actual amount paid. Parking fines and fees at University facilities are not reimbursable expenses. Any fine or charge for a violation of public policy (such as a speeding ticket, etc.) is not a reimbursable expense.

7. Refer to the Table of Standard Mileage for the current schedule and eligible reimbursements.

8. Any exception to the policies in F. Personal Vehicles requires approval by the Vice President of the respective division.

Meals
A. Reimbursement for individual meals will not exceed the maximum per diem allowance. Reimbursement for meals included in a conference or meeting fee is not allowed. Meals for employees involved in assignments off campus are allowable when deemed appropriate by their supervisor.

B. Meals including University guests are allowable at the actual cost, not to exceed the maximum per diem allowance. Reimbursement requests must include a receipt with the guest’s name, company name, and business purpose of the meeting.

C. Meals for University employee groups are reimbursable only with appropriate executive officer approval and documentation.

Lodging
Actual lodging expenses, as evidenced by an original receipt, are reimbursable. The maximum single room rate will be reimbursed when a University traveler shares lodging with a non-University person. Room service expenses are reimbursable in accordance with the per diem allowance. Reasonable expenses incurred for tips are reimbursable without receipt. The University’s travel agency has discount agreements with several properties. Contact the travel agency for assistance with lodging accommodations.

Conference Fees
Actual registration fees for conferences, seminars, etc. will be reimbursed as evidenced by a registration confirmation or paid receipt. Fees for non-business and/or spousal activities associated with the conference, such as golf or tour events, are not reimbursable. It is preferred that the conference registration be paid with the University’s purchasing card. Conference registrations may also be processed for payment by submitting an online Purchasing Requisition through Banner. A copy of the completed registration form (with the reimbursement number written on it) can then be sent to the Procurement Services Office in 201 LMH.

Miscellaneous Expenses
A. Telephone calls and telegrams made for business purposes are allowable and must be listed separately on the Travel and Expense Form. Dates, company names and names of persons called must be identified.

B. Reasonable expenses incurred for handling, storage and checking of baggage are allowable.

C. Personal expenses incurred for valet service, entertainment, personal phone calls, etc. will not be reimbursed.

D. Parking fees at University facilities are not reimbursable expenses.

Out-Of-Pocket Expenses
The Travel and Expense Form may also be used for reimbursement of non-travel related, out-of-pocket expenses up to $100. The form must include a description of the items to be reimbursed, FOAP, appropriate signatures, and the original receipt(s) must be included. Copies of personal checks are not acceptable as documentation for reimbursement.

EXPENSE RECONCILIATION
Travel and Expense Form
A. All reimbursement requests for travel expenses must be submitted on a Travel & Expense Form. The purpose and dates of the trip must be clearly stated. Submit the completed form and required receipts to the Accounting Office. Any unused travel advance funds must be returned with the completed Travel and Expense Form and required receipts to the Accounting Office or Cashier’s Office. Do not send cash in the mail.

B. University guests and other approved non-University employees should also use the Travel and Expense Form to request reimbursement of travel expenses. The completed form with “G” number (or for non-GVSU employees the Social Security number) must be approved by appropriate executive officer or as specified in a contractual arrangement.

Settlement Date
The Travel and Expense Form should be submitted at the earliest practical date after return from the trip, but within thirty (30) calendar days (fifteen for travel advances).

Required Receipts
Only actual business expenses incurred, supported by the required original receipts must be submitted for reimbursement. Any extenuating circumstances resulting in altered travel plans or unusual expenses must be clearly explained on the Travel and Expense Form. Any questionable claims, non-compliant requests, or alterations of receipts may result in the form being returned to the traveler for explanation, deductions from the requested reimbursement amount, and/or approval by the appropriate executive officer.

Foreign Currency
Expenses must be expressed in U.S. dollars with the foreign exchange rates applied or currency difference identified where necessary. The Travel and Expense Form total must be stated in U.S. dollars. Refer to the Universal Currency Converter for assistance.

CANCELLED TRIP
A. If an approved trip is cancelled and a Travel Advance was issued, the original check or a personal check must be returned promptly to the Accounting Office for deposit.

B. Airline tickets already received are subject to airline/travel agency return regulations. When applicable, the credit will be issued to the party having made payment. Cancellation fees charged by the airline/travel agency are eligible for reimbursement. When reimbursement has already been received for the cancelled trip, the traveler must reconcile this credit promptly with the Accounting Office.

INSURANCE
University Vehicles
All University vehicles are insured for vehicle liability (including the statutory Michigan No Fault coverage) while being driven anywhere in the U.S. or Canada. Coverage is extended to anyone driving these vehicles with University permission.

Personal Vehicles
Employee personal vehicles are insured for vehicle liability while being driven on University business. This coverage is secondary to employee’s personal automobile insurance and is subject to specific deductibles.

Rental Vehicles
Rental vehicles are covered under the University’s liability policy. All terms and conditions of the vehicle rental agreement should be read and followed, particularly concerning authorized drivers. Violations of the agreement or driving regulations may render the University responsible for any damages. Use the following guidelines for insurance coverage when renting vehicles. Questions concerning insurance coverage should be directed to the Division of Legal, Compliance and Risk Management at 616-331-2067.

A. Decline the collision damage waiver insurance. The University provides coverage that eliminates liability for replacement at full retail value due to collision damage.
B. Decline the personal accident insurance if rental was booked by the University’s preferred travel agency and/or paid for using a University P-Card or the Fifth Third MasterCard offered through GVSU. Travel agency and corporate charge card program contracts automatically provide accident/medical and death benefits under personal insurance coverage.

C. Decline the personal effects insurance for University property. The University is insured for property in the vehicle. Personal property may be covered under your personal insurance; confirm with your insurance agent. Accepting the coverage for personal property is at your expense.

D. When vehicles are rented for University business travel, all rental contracts should be issued in the University’s name to avoid confusion concerning vehicle liability insurance.

**ACCIDENTS AND EMERGENCIES**

**Accident Reports**
In addition to those actions normally required in the event of an accident, the driver of any vehicle on University business should:

A. Report the accident to his/her supervisor. Accidents involving serious personal injury or vehicle damage should be reported to the department of public safety.

B. If driving a University vehicle, a M.U.S.I.C. Motor Vehicle Loss Report must be submitted. Call the Division of Legal, Compliance and Risk Management at 616-331-2067 for assistance.

C. When another vehicle is involved in the accident, obtain that driver’s insurance company name and address. Also obtain the names, addresses and license plate numbers of potential witnesses.

**Reporting Illness or Emergency**
In cases of serious illness, accident or emergency that occur while traveling on University business, the traveler should notify his/her supervisor. If the supervisor cannot be reached, contact the Human Resources Office.

It is the responsibility of traveler to inform his/her supervisor of address and phone number while traveling on University business. This is important should it become necessary to contact traveler in the event of an emergency.

---

**UNIVERSITY DESIGNATED AND PLANT RESERVE FUNDS POLICY**

SLT 6.19

**Date of Last Update:**
October 12, 2015

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
University Budgets

**POLICY STATEMENT**

To establish rules governing expenditures charged against University Designated and Plant Reserve funds.

**PROCEDURES**

Expenditures over $25,000 individually or in the aggregate for a single project requires authorization from an Executive Office or their designee.

Expenditures over $50,000 individually or in the aggregate for a single project must be reported to Budget Committee.

Expenditures over $250,000 individually or in the aggregate for a single project must be submitted by Budget Committee to the University President for authorization.

**DEFINITIONS:**

Funds held outside the normal General Fund operating budgets that reside in the Designated and Plant Reserve funds as identified by the appropriate Executive Officer. Expenditures that are governed by this policy are those that are charged against funds that begin with “15” or “94”

---

**UNMANNED AIRCRAFT SYSTEM / DRONE POLICY**

SLT 6.20

**Date of Last Update:**
August 26, 2019

**Approved By:**
- Senior Leadership Team

**Responsible Office:**
Public Safety

**POLICY STATEMENT**

Operation of an Uncrewed Aircraft System (UAS) is prohibited over University Property by students, employees, vendors, contractors and other members of the public except with prior written approval from the Vice President for Finance and Administration of the University. Permission to operate a UAS over University Property will only be granted to University departments needing to operate a UAS for the benefit of the University. Operation of Model Aircraft is not permitted over University Property.

Purchasing of UAS also requires prior written approval from the Vice President for Finance and Administration. Potential purchasers may be employees, students or departments using University funds being disbursed through a University account, including grant funds.
PROCEDURES
Consideration will only be given for purchasing and/or operating a UAS if the written request to the Department of Public Safety includes all of the following:

1. exact dates and times of intended operation;
2. campus location and intended flight path;
3. the University purpose for the use of the UAS;
4. a current 333 exemption or Certificate of Waiver or Authorization (COA) or a Remote Pilot Certificate issued by the Federal Aviation Administration (FAA) or documentation verifying that the individual operating the UAS is fully authorized by the FAA to do so;
5. a photograph of the UAS with registration numbers attached or provision of FAA paperwork that identifies the registration numbers of the UAS being operated on the campus;
6. The Vice President for Finance and Administration will submit written approval for the purchase and/or operation of a UAS to the Department of Public Safety.

Operation of UAS on University property is to be done in accordance with only part 107 of the FAA rules for certified remote pilots and commercial operators. All rules of part 107 apply to operation on University property with the exception of prohibited external load and transportation of property for compensation or hire. Only the Vice President for Finance and Administration may waive any of the part 107 rules.

In operating a UAS for purposes of recording or transmitting visual images, operators must take all reasonable measures to avoid intrusions into areas normally considered private.

All uses of UAS must comply with the following:

1. UAS must not be used to monitor or record areas where there is a reasonable expectation of privacy in accordance with accepted social norms. These areas include but are not limited to restrooms, locker rooms, individual living center rooms, changing or dressing rooms, health treatment rooms, daycare facilities and classrooms during periods of instruction. UAS may not fly closer than thirty (30) feet outside a window of any university building.
2. UAS may not be used to monitor or record institutional or personal information, which may be found in an individual’s workspace, on computers or on other electronic devices.
3. UAS may not be used inside of any University building without prior permission given by an Executive Officer of the University.

Enforcement of Complaints
Any violations of this policy will be dealt with in accordance with applicable University procedures which may include disciplinary actions and where appropriate, legal action. All complaints concerning the operation of UAS over University Property should be referred to the Department of Public Safety. Users will also be subject to applicable Federal and State laws.

Any FAA fines incurred by individuals or departments will be the responsibility of the individuals involved.

DEFINITIONS:
For purposes of this Policy, these terms should have the following meaning:

University Property – Buildings, grounds and land owned or controlled by the University.

Uncrewed Aircraft Systems (UAS) – UAS are also known as or may be characterized as unmanned aircraft systems or Drone.

According to the FAA, a UAS is the Uncrewed aircraft and all of the associated support equipment, control station, data links, telemetry, communications and navigation equipment, etc., necessary to operate the Uncrewed aircraft. UAS may have a variety of names including but not limited to quadcopter and quadrotor, FAA regulation applies to UAS regardless of size or weight. Model aircraft are not considered by the FAA as UAS and have different regulations.

COA – Certificate of Authorization or Waiver. The COA is an authorization issued by the FAA to a public operator for a specific UAS activity. After a complete application is submitted, FAA conducts a comprehensive operational and technical review. If necessary, provisions or limitations may be imposed as part of the approval to ensure the UAS can operate safely with other airspace users. In most cases, FAA will provide a formal response within 60 days from the time a completed application is submitted.

333 Exemption – FAA exemption based on Section 333 of the FAA Modernization and Reform Act of 2012 (FMRA) which grants the Secretary of Transportation the authority to determine whether an airworthiness certificate is required for a UAS to operate safely in the National Airspace System.

Remote Pilot Certificate – Certificate of authorization issued by the FAA to public operator for commercial operation of UAS activity of a craft under 55 lbs. in weight.

*L is the University’s practice is to use gender-inclusive terms in its policies, however, this term is used for consistency with federal regulations.

LAKER STORE POLICY

SLT 6.21

Date of Last Update:
October 20, 2015

Approved By:
Senior Leadership Team

Responsible Office:
GVSU Laker Store

POLICY STATEMENT

GVSU Laker Store is dedicated to serving the students of Grand Valley State University with resources, which enhance the University’s mission and image.

PROCEDURES
Textbook Locations

GVSU Laker Store - Allendale carries the textbooks and supplies required for classes taught on the Allendale campus and for those taught in Holland and other “satellite” locations across the state. These are available online at http://lakerstore.gvsu.edu or by calling toll free at 866-299-0001.

GVSU Laker Store – Robert C. Pew Grand Rapids Campus carries the textbook and supplies for classes taught in Grand Rapids, including those at the Cook-DeVos Center for Health Sciences.

Other Merchandise

Both store locations offer a selection of GVSU imprinted clothing and gifts, greeting cards, leisure reading books, school supplies, and a full line of computers and accessories, including Apple products. The leisure reading department includes a faculty book section. Faculty who publish are encouraged to notify the GVSU Laker Store staff, and we will add the title to our inventory.

Discounts, Sales and Promotions

GVSU Laker Store attempts to maintain pricing policies that are reasonable, fair and consistent. As a result, the same pricing is made available to students, faculty and staff. Sales and promotions are announced in advance on the GVSU Laker Store website and the University bulletin board, in addition to fliers and posters across campus. The same promotions are made available at both store locations.

Merchandise Returns Policies

Textbooks may be returned for a full refund through the first week of classes with a valid receipt. Specific deadlines are announced each semester. Other merchandise can generally be returned within a reasonable period when accompanied by a valid receipt. Merchandise, other than textbooks, will be accepted for an exchange when no receipt is presented. Refunds for purchases paid with cash or check will be refunded in cash, while returns for credit card purchases will be credited to the card.

Book Sell Back

GVSU Laker Store conducts a daily textbook sell-back at both store locations. Generally, sellback values increase near the end of each semester, and the majority of students sell their books during final exam week. Books that will be used at GVSU in the coming semester are purchased by the bookstore at 50% of the new book retail price until store quotas are met. Books that are not being used at GVSU may be purchased at 5-30% of retail price as long as they are current editions.

Textbook Orders

To insure the arrival of textbooks for the start of classes and to offer students an opportunity to sell their books at the end of the term, it is requested that faculty submit textbook orders by published deadlines. Textbook orders need to be in the bookstore by October 25 for winter semester, by February 25 for spring-summer semester, and by March 25 for fall semester. Requisitions may be submitted on-line in the faculty access section of the bookstore’s website at http://lakerstore.gvsu.edu/

For access information, please consult your department coordinator. When submitting a requisition, please provide accurate ISBN information to insure that the correct book is ordered. GVSU Laker Store staff also appreciate notification that “no books are required” for a class when appropriate.

Coursepacks

Faculty may choose to create coursepacks for sale through the bookstore. This may be done by working with a custom publisher, which manages copyright clearances and copying, or through the University’s Copy Center. In the latter case, faculty must perform copyright clearances themselves. Letters from publishers authorizing copying of materials, together with a complete and final version of the coursepack, should be forwarded to the appropriate bookstore location well in advance before the start of the semester. The textbook manager will arrange for copying, return the original to the faculty member, and place coursepacks on the shelf in time for the start of the semester.

Desk Copy Loans

Publishers will not honor requests for desk copy loans from bookstore personnel, so such requests should be made directly to the publisher. Faculty requiring a desk copy of an adopted textbook should contact their publisher representative for additional information.

CONFERENCE AND EVENT PLANNING POLICY

SLT 6.22

Date of Last Update:
February 19, 2020

Approved By:

Senior Leadership Team

Responsible Office:
Conference Planning & Hospitality Services

POLICY STATEMENT

It is the policy of Grand Valley State University that certain spaces and rooms be scheduled on a coordinated basis through the Conference and Event Planning Department. Room rental and event scheduling on the Pew Campus, Health Campus, and Regional Centers, and at the Alumni House, will be managed by the Conference and Event Planning Department. Additional information and procedures may be found on the Conference and Event Planning Department website.

WEAPONS POLICY

SLT 6.27

Date of Last Update:
May 22, 2017

Approved By:

Senior Leadership Team

Responsible Office:
Public Safety

POLICY STATEMENT
The University is committed to maintaining a safe environment in which students, faculty, staff, and visitors are free to learn, live, work and visit the University campus or a facility without fear of violence. To carry out this mission, the University prohibits the use or possession of firearms, weapons, electrical devices, and explosives on its property, except as provided in this policy.

A person shall not possess any firearm or weapon anywhere upon property governed by the University, except University Police Officers and other legally established law enforcement officers acting in the course of and scope of employment, and except for use in authorized University construction-related activities.

A "weapon" shall include but is not limited to:
1. any firearm,
2. any device from which an electrical current, impulse, wave, or beam may be directed that is designed to incapacitate temporarily, injure or kill,
3. any other instrument or device of any kind that operates based on spring, gas or air, contains explosive materials, or
4. any instrument or device, such as a knife, that has a sharp blade greater than three inches.

A person shall not use any firearm, gun, weapon, chemical, biological, radioactive, or other dangerous substance or compound to injure, molest, or coerce another, anywhere upon property governed by the University, except for a self-defense spray or foam for protection of a person or property under the circumstances that would justify the person's use of physical force.

Additionally, a person shall not use or possess fireworks (unless approved in advance by a Vice President for use at a University event), explosives, toxic or dangerous chemicals; other lethal weapons, equipment, chemicals or materials are prohibited anywhere upon property governed by the University.

Questions about weapons should be directed to the University Department of Public Safety.

PARKING ORDINANCE

SLT 6.28

Date of Last Update: June 26, 2019

Approved By: Senior Leadership Team

Responsible Office: Public Safety

POLICY STATEMENT

STATEMENT OF AUTHORITY

This ordinance is enacted through the Grand Valley State University Board of Trustees pursuant to and in accordance with the authority and responsibility of said Board as provided in the Constitution of the State of Michigan, and Act 291 of the Michigan Public Acts of 1967, as amended. This ordinance and the Michigan Vehicle Code (MCL 257.1 et seq., MSA 9.1801 et seq.), as amended, are hereby adopted by reference.

Section 1. Definitions

1. Campus: Unless otherwise noted in this Ordinance, Campus shall mean property owned or controlled by Grand Valley State University (GVSU or University) on the Allendale Campus and Grand Rapids Campuses (Robert C. Pew Grand Rapids Campus and the Health Campus), and includes the Standale Plaza in the City of Walker.

2. Department of Public Safety: Department of Public Safety shall mean the Grand Valley State University Department of Public Safety which is comprised of Police, Security, Emergency Management, and Parking Services. The Department of Public Safety is responsible for parking on all University owned or controlled properties.

3. Hours of Compliance: Parking is enforced 24/7 unless otherwise noted.

4. Overnight Parking: Overnight parking on campus is considered as between the hours of 3:00 a.m. - 6:00 a.m.

5. Color-Coded Parking: All cling parking permits are color-coded. The color of a permit authorizes parking in specific lots/areas.

PROCEDURES

Section 2. Parking on Campus

2.1. Vehicles on Campus

2.1.1. State Requirements: All vehicles parked on campus must be properly registered and display current registration credentials as prescribed by the state within which they are registered, and be legally operable under the laws set forth by Michigan Legislation.

2.1.1.1. Disabled Vehicle: A vehicle that is not legally operable under Michigan law is deemed a disabled vehicle. A disabled vehicle on property owned or controlled by the University must be reported to Parking Services (during business hours) or Police (after hours). The disabled vehicle must be removed from the campus within 24 hours or is subject to parking violation and/or citation by Police (within 48 hours).

2.1.2. Parking Space: A vehicle must be fully and completely contained within the lines of a single designated space as delineated by service markings and must not obstruct traffic flow. Occupying or preventing the use of more than one parking space constitutes double-parking and is prohibited.

2.1.3. Prohibited Parking Areas: If an area is not posted for parking, parking is prohibited except under the direction of the Department of Public Safety. Prohibited parking areas include, but are not limited to:

2.1.3.1. Hashed-lines: Parking in diagonal hashed-lines is prohibited (see Section 2.9 regarding motorcycle parking).

2.1.3.2. Fire Lanes: Parking in areas signed as a fire lane is prohibited

2.1.3.3. Yellow Curb: Yellow curbs indicate a no parking zone. Parking along yellow curbs is prohibited.
2.1.3.4. Coned Areas: Parking in coned spaces, in closed parking lots, and at bagged meters is prohibited.

2.1.3.5. Sidewalk Restriction: Sidewalks and walkways are restricted to pedestrian, bicycle, and motorized wheelchair use only. Driving or parking a moped, motorcycle or other motor vehicle on a sidewalk or walkway is prohibited without permission from the Department of Public Safety.

2.1.3.6. Landscape Restriction: Driving or parking a moped, motorcycle or other motor vehicle on a sidewalk or walkway is prohibited without permission from the Department of Public Safety. Landscaped areas are restricted to pedestrian traffic only.

2.1.3.7. Loading Zones: Loading zones are provided to accommodate active loading and unloading only. All loading and unloading must be done in designated loading docks or from regular parking spaces. Loading zone regulations are enforced 24/7.

2.1.4. Parking by Permit Only: Parking on campus is by permit only except for areas designated in visitor pay-to-park locations. By parking on campus, the vehicle operator has agreed to abide by the rules and regulations of the Parking Ordinance and is subject to parking violation notices and other penalties as outlined in Section 3. Information about parking lot locations and types of permits is available on the Parking Services website.

2.2. Parking Options

2.2.1. Permit Parking: Parking permits are required on the Allendale Campus and Grand Rapids Campuses with the exception of Pay-to-Park spaces. Permits are required Monday-Thursday 3:00 a.m. – 6:30 p.m. and Friday 3:00 a.m. – 5:00 p.m. unless otherwise noted. Parking permits are not required at the Standale Plaza in the City of Walker, Meijer Campus in Holland, Muskegon locations, or the Traverse City Regional Center. There is no University parking lot at the Detroit Center. Campus maps are published online. (see Section 2.3 for detailed permit information.)

2.2.1.1. Spring and Summer Semesters: During the spring and summer semesters, parking permits are not required in student commuter spaces on the Allendale Campus and Pew Grand Rapids Campus nor in resident parking spaces on the Allendale Campus. Parking permits are required in Pew Resident spaces on the Pew Grand Rapids Campus year-round. Parking permits are required in faculty/staff and specially signed spaces on the Allendale Campus and Grand Rapids Campuses year-round.

2.2.2. Pay-to-Park: Pay-to-Park areas offer short-term parking and require payment. Permits are not valid in Pay-to-Park areas unless specifically designated. Those choosing to park on campus without a permit must utilize Pay-to-Park areas. Over-payments will not be refunded. Pay-to-Park areas include metered spaces and pay station spaces.

2.2.2.1. Meters: Meters in areas by academic buildings require payment Monday - Saturday, 7:00 a.m. - 8:00 p.m. year-round unless otherwise noted. Housing meters located in and near residential areas require payment 24/7 year-round. Spaces with jammed, broken, failed, or otherwise malfunctioning meters are considered to be no parking zones and should be reported to Parking Services. Meters accept U.S. coins (quarters, nickels, and dimes only) and ParkMobile (a third-party mobile app) as payment. Payment at a meter is not required if a valid ADA permit and a valid GVSU permit are displayed (see Section 2.8).

2.2.2.2. Pay Stations: Pay station areas require payment Monday - Saturday, 7:00 a.m. - 8:00 p.m. year-round. Payment is required to park in pay station areas, including Motorcycle and ADA spaces. Pay stations accept coins, bills, credit cards, and ParkMobile as payment. Pay stations that are offline or otherwise malfunctioning are considered no parking zones and should be reported to Parking Services.

2.3. Cling and Temporary Permits

2.3.1. Cling Permits: Cling permits are available to currently enrolled GVSU students, faculty and staff with active appointments, and tenants if appropriate.

2.3.1.1. A valid permit must be completely affixed to the lower left corner (driver's side) of the windshield, with the barcode and permit number fully visible from outside the vehicle. Expired permits must be removed from the windshield.

2.3.1.2. Permits that have not been paid for will be deactivated. The parking permit must be returned to Parking Services to be eligible for a refund. Refund amounts follow the tuition refund schedule.

2.3.1.5. Parking permits are issued for the exclusive use of the person applying for the permit. A G# is authorized for one cling permit only. If more than one permit is received, contact Parking Services immediately to arrange for its return.

2.3.1.6. Lost permits must be reported to Parking Services immediately. Stolen permits must be reported to Police and Parking Services. A claim of a stolen permit must include a police report from the appropriate jurisdiction.

2.3.2. Temporary Permits: Daily permits are available to GVSU students. The daily rate will be set each July 1st by the Business and Finance Office. Faculty/staff and daytime visitors who need a temporary permit may obtain one from Parking Services at no cost. Temporary permits may be printed or paperless/digital.

2.3.2.1. If a student cling parking permit has been purchased, the student may be eligible for temporary daily permits at no cost. Temporary daily permits are valid only in the same parking areas which are associated with the cling.

2.3.2.2. In the event a paperless permit is unavailable, a temporary parking permit must be displayed with the effective date(s) in full view on the dashboard to the left of the steering wheel from the driver's seat.

2.4. Student Parking

2.4.1. Student Commuter: Students who are currently enrolled at GVSU and do not reside in University housing facilities on campus are considered to be commuter students.

2.4.1.1. Student Commuter: Student Commuter permits are valid in Student Commuter parking lots marked by a red “S” on signs throughout campus.

2.4.1.2. Lot J Remote Commuter: Lot J permits are offered as a reduced cost, remote parking option for commuter students. This permit is valid on the Allendale Campus or Pew Grand Rapids Campus on a first-come, first-serve basis for Lot J only. A Student Commuter permit must be purchased to be eligible to park in other parking areas. Individuals needing ADA parking accommodations should refer to Section 2.8.

2.4.2. Student Resident: Students who are currently enrolled at GVSU and reside in University housing facilities on campus are considered residents. There are three types of Student Residents:

2.4.2.1. Allendale Resident: Allendale Resident parking permits are valid in Allendale Resident areas marked by a yellow “R” on the Allendale Campus and in Student Commuter areas marked by a red “S” on the Pew Grand Rapids Campus.
2.4.2.2. Pew Resident: Pew Resident parking permits are valid in Pew Resident areas marked by a brown “P” on the Pew Grand Rapids Campus and in Student Commuter areas marked by a red “S” on the Allendale Campus. Parking permits are required in Pew Resident spaces on the Pew Grand Rapids Campus year-round.

2.4.2.3. Calder Resident: Students who live on the Allendale Campus in the Calder Residence are considered Calder Residents. Calder Resident parking permits are valid in signed Calder Residents Only spaces, as well as in Allendale Resident areas marked by a yellow “R” on the Allendale Campus and in Student Commuter spaces marked by a red “S” on the Pew Grand Rapids Campus.

2.5. Faculty and Staff Parking

2.5.1. Active Appointments: Only GVSU faculty/staff with active appointments are issued parking permits. Parking permits are only valid for adjunct faculty/staff if they have an active appointment and are either working for or teaching at GVSU during the semester in which the permit is being used.

2.5.1.1. Faculty/Staff: Faculty/Staff parking permits are only valid in Faculty/Staff areas marked by a blue “F” and in Student Commuter areas marked by a red “S” with the exception of Winter Lot on the Pew Grand Rapids Campus. Faculty/Staff parking permits are not valid in Pay-to-Park spaces or visitor spaces on any campus.

2.5.1.2. Fall Faculty/Staff: Fall Faculty/Staff parking permits are issued to employees with a 6-month contract for the fall semester only and are valid in the same locations as associated with a Faculty/Staff permit. The Fall Faculty/Staff parking permit is only valid for the fall semester and expires on December 31 of the academic year in which the permit is issued.

2.5.1.3. Faculty/Staff Reserved: Faculty/Staff Reserved parking permits are valid in Faculty/Staff areas marked by a blue “F” and in Student Commuter areas marked by a red “S” with the exception of Winter Lot on the Pew Grand Rapids Campus. Additionally, individuals who qualify for a Faculty/Staff Reserved parking permit are afforded additional parking on campus as marked by “Reserved” signs.

2.5.1.4. Lot L/Administration: Lot L parking permits are valid on the Allendale Campus only. This permit is not valid in Pay-to-Park or other visitor spaces on campus.

2.5.2. GVRP: Faculty and staff who have officially retired from GVSU are eligible for a GVRP parking permit.

2.6. Specially Signed Spaces and Designated Permits

2.6.1. Specially signed parking spaces require parking permits designated for a particular type of space and are enforced 24/7. These spaces include, but are not limited to: Biology Department, Communications Department, Disability Support Resources, Food Service, Housing Staff, Information Technology, Reserved, Service Vehicle, University Bookstore, Admissions Visitor, Visitor, Prospective Student, and spaces numbered for Tenants.

2.6.2. Service Vehicles: Service Vehicle spaces and permits are intended for use by persons or companies providing one of the following services: installation, repair, or improvement of University-owned structures and infrastructures (exterior and interior). Service Vehicle permits are not intended for loading or unloading. Service Vehicle parking permits are valid in Faculty/Staff areas marked by a blue “F,” in Student Commuter areas marked by a red “S” with the exception of Winter Lot on the Pew Campus, in Service Vehicle spaces, and at metered spaces without payment.

2.6.3. Tenants: Tenants with lease agreements for spaces in University buildings may be eligible for a tenant permit. This permit offers the same privileges as a Faculty/Staff permit except on the Health Campus and is only valid in Faculty/Staff areas marked by a blue “F” and in Student Commuter areas marked by a red “S” with the exception of Winter Lot on the Pew Grand Rapids Campus. On the Health Campus tenant parking permits are only valid in areas specially signed as tenant spaces. Tenant parking permits are not valid in any Pay-to-Park spaces or other visitor spaces.

2.6.4. Vendors: Employees of vendor companies that provide services to GVSU on a regular basis may qualify for a special permit. A request must be made to Parking Services by a GVSU department head on behalf of the vendor company.

2.6.5. Alternative Fuel/Hybrid Spaces: These spaces, excluding metered spaces, require a special parking permit designation. Contact Parking Services for additional information regarding this permit designation.

2.6.6. Electric Vehicle Charging Spaces: Spaces are provided throughout campus for actively-charging electric vehicles only. Spaces are limited, so a parking and/or charging opportunity is not guaranteed. A valid GVSU permit is required.

2.6.6.1. Electric vehicle charging stations located in the Front Lot on the Pew Campus are for Consumers Energy staff and visitors only.

2.6.7. Small Car Only Spaces: Use of small car spaces marked with hashed end lines requires compliance 24/7. Vehicles parking in these spaces must be contained within all sides of the space and not overhang any line.

2.6.8. Loading Zones: Loading zones are provided to accommodate active loading and unloading only. All loading and unloading must be done in designated loading docks or from regular parking spaces. Loading zones regulations are enforced 24/7. Loading from prohibited parking areas is strictly prohibited.

2.7. Visitor Parking

2.7.1. Daytime Visitors: Visitors parking during the day may choose to obtain a parking permit directly from Parking Services office at no cost; from the faculty/staff member they are visiting; or utilize pay-to-park areas. Currently enrolled students, faculty/staff with active appointments, individuals with GVRP permits, and/or tenants are not eligible for visitor permits.

2.7.2. Overnight Visitors: Visitors staying on campus overnight (see Section 2.10) must obtain a parking permit in person from the Parking Services office located on the campus where they are staying. Overnight visitors are limited to 20 overnight permits per year excluding weekends. During the spring and summer semesters, overnight visitors to the Pew Grand Rapids Campus are limited to ten overnight permits.

2.7.3. Fieldhouse/Recreation Center Visitors with Membership: Alumni and outside members can obtain a Fieldhouse parking permit by providing their current Athletic and Recreation Facilities membership card and driver’s license to Parking Services in Allendale. These parking permits will be valid for the duration of the membership and are required to be renewed along with the membership. This permit is for non-academic recreational facilities use only and may not be used for any other purpose, including events or academic classes. GVSU faculty, staff, and students are not eligible for Fieldhouse permits.

2.7.4. Campus Recreation Class Visitors: Community members taking campus recreation classes at the Athletic and Recreation Facilities may obtain a temporary day permit at no cost. Other types of parking permits are not available. GVSU faculty, staff, and students are not eligible for Campus Recreation permits.

2.8. ADA-Compliant Parking

2.8.1. ADA Compliant Parking Spaces: ADA-compliant parking requires a valid ADA placard or plate designation and is enforced 24/7.

2.8.2. Permit Compliance: During permit compliance hours (see Section 2.2.1), a valid GVSU permit must always accompany the ADA placard or plate designation. If ADA-compliant
Parking spaces are not available, the ADA permit holder may, with a valid GVSU permit and a valid ADA placard or plate displayed, park in a faculty/staff or student space or at a meter without payment.

2.8.2.1. Lot J Remote Commuter permits are only valid in Lot J and are therefore not permitted in other areas even when accompanied by an ADA placard or plate designation.

2.8.2.2. Parking in ADA-compliant spaces in pay station areas is limited to two hours and requires payment.

2.8.2.3. ADA parking is prohibited in specially signed spaces without the required designated parking permit (see Section 2.6).

2.8.3. University-Issued ADA Permits: Mobility-impaired persons shall be issued, without charge, a temporary permit for a period not to exceed three days. University-issued ADA permits must be accompanied by a valid GVSU Faculty/Staff or Student parking permit. Persons requiring accommodations for a period of 4-30 days will be directed to Disability Support Resources for assistance. Individuals needing ADA-compliant parking privileges beyond 30 days must obtain a permit from the Michigan Secretary of State.

2.8.4. Illegal Use of an ADA Parking Placard or License Plate: Under Michigan law, it is illegal: 1) to use an ADA placard or license plate when the ADA permit holder is not being transported; 2) to use an ADA placard or license plate when the placard or plate is altered; 3) to lend/use a placard/plate from another person; and 4) to use a copy of a placard/plate. Illegally used ADA designations are subject to confiscation by Police and will be returned to the Secretary of State with an explanation of the misuse. Fraudulent use of an ADA parking placard or plate is punishable by up to 30 days in jail and/or up to a $500 fine. Parking Services will immediately notify Police of potential violations.

2.9. Motorcycle/Moped Parking

2.9.1. Applicability: This section is applicable to all two-wheeled motorized vehicles. Motorcycles and mopeds parking on campus do not require a parking permit. Overnight parking is only allowed in designated motorcycle parking areas in residential lots. Parking in any blue hashed area is strictly prohibited.

2.9.2. Allendale Campus: Motorcycles and mopeds must be parked in the yellow hashed area at the end of parking rows in faculty/staff and student parking areas, unless otherwise signed.

2.9.3. Pew Grand Rapids Campus: Motorcycles and mopeds must be parked in designated motorcycle parking areas designated by signage in the Eberhard Center loading dock, DeVos Lot, Seward Parking Ramp, and Watson Lot. Parking in yellow hashed areas of the Seward Parking Ramp is permitted. Residents may park in the yellow hash marks at the end of parking rows in the Secchia Lot only. Parking in all other areas is restricted.

2.9.4. Health Campus: Motorcycles and mopeds must be parked in designated signed motorcycle parking areas only.

2.9.5. Pay-to-Park: Payment is required for motorcycle parking in all Pay-to-Park areas.

2.10. Overnight Parking

2.10.1. Locations: Overnight parking (3:00 a.m. – 6:00 a.m.) is permitted in residential lots only. Overnight parking is prohibited in faculty/staff, student commuter, and Pay-to-Park areas.

2.10.2. Overnight Employees: Information about parking locations designated for GVSU employees whose duties require overnight parking is available on the Parking Services website.

2.11. Trailers

2.11.1. Trailers: GVSU does not provide accommodations for parking of vehicles pulling trailers during the regular academic year except for those attached to contractor and service vehicles operated by individuals actively working on campus. Trailers must not be left unattended without the permission of the Department of Public Safety.

2.12. Buses and Other Oversized Vehicles

2.12.1. Oversized Vehicles: Oversized vehicles are those vehicles larger than one standard parking space and must therefore park only in certain lots. Refer to the Parking Services website for a list of parking areas currently designated for this purpose. Parking of buses and other oversized vehicles parking is strictly prohibited in Pay-to-Park areas. Parking rules applicable to buses and other oversized vehicles are enforced year-round.

2.12.2. Allendale Campus: Buses bringing athletes and/or other group to the Allendale Campus are limited to 15 minutes for picking up and dropping off. Picking up and dropping off is strictly prohibited in Pay-to-Park areas.

2.12.3. Grand Rapids Campuses: Buses and other oversized vehicles are prohibited on the Grand Rapids Campuses.

2.13. Bicycles

2.13.1. Registration and Storage: Bicycles must be stored in the provided bicycle racks. Bicycles improperly stored and locked will be removed by Department of Public Safety at the owner’s expense. Free bicycle registration is available on the Public Safety website.

2.14. Vehicles Prohibited

2.14.1. Vehicles Prohibited: The following vehicles are not permitted on campus unless permission is obtained from the Director of Public Safety:

- Snowmobiles
- Off-road motorcycles
- All-terrain vehicles
- Recreational vehicles parked overnight
- Non-traditional vehicles (i.e. golf carts outside of The Meadows facilities, dune buggies, go-carts, etc.)

2.15. University’s Rights and Responsibilities

2.15.1. The University reserves the right to close, restrict parking and/or driving to, or otherwise make unavailable any and all areas at any time to any vehicle on University owned or controlled property, whether properly permitted or not.

2.15.2. The University also reserves the right to remove, at the owner’s expense, any abandoned, unlawfully parked, or inoperable vehicle from University owned or controlled property. Police are responsible for the removal of vehicles.

2.15.3. The University assumes no responsibility for loss or damage to vehicles driven or parked on campus, or for the contents thereof.

Section 3: Parking Fine, Appeals and Penalties

3.1. Parking Violation Fines

3.1.1. Payment Options
3.1.1.1. Online: On the Parking Services website via credit card.

3.1.1.2. Payment Box: At the payment drop box located in front of the Service Building on the Allendale Campus via cash or check.

3.1.1.3. Telephone: Over the phone at (616)331-7275 via credit card.

3.1.1.4. In Person: Over-the-counter at Parking Services in Allendale or at a Student Assistance Center on the Allendale Campus or Pew Grand Rapids Campus via credit card, cash, or check.

3.1.1.5. Mail: Through postal mail via check.

3.1.2. Returned Checks: A fee will be imposed for any returned checks.

3.1.3. Cash Payments: Cash payments will only be accepted in person. Coins must be rolled.

3.1.4. Transfer of Fines: After ten days, student fines will be transferred to the respective student account. Non-student fines will be referred to collections. Outstanding fines may also be sent to the appropriate District Court for collection.

3.1.5. Excessive Parking Violation Notices: The accumulation of six or more unpaid parking violation notices issued to a single vehicle may be deemed excessive. Any vehicle accumulating excessive parking violation notices may be considered a nuisance, and the vehicle is subject to impoundment or immobilization by Police, and/or District Court action.

3.2. Appeals

3.2.1. Appeal Options: Appeals must be submitted within seven business days of the parking violation notice issue date.

3.2.1.1. Online: On the Parking Services website. Faculty/staff and students may submit appeals online or exercise the option to appeal in person.

3.2.1.2. In Person: Appeals must be submitted on the campus where the parking violation notice was issued. Parking Judiciaries are available for in-person appeals at pre-scheduled times, and are first-come, first-serve. The appeal schedule is published on the Parking Services website.

3.2.1.3. Handwritten: Appeals may be filed in person at a Parking Services office by visitors and vendors of the University only, or by students and faculty/staff under extenuating circumstances.

3.2.1.4. By Phone: Appeals submitted by phone will not be accepted.

3.2.2. Parking Judiciary Decision: The Parking Judiciary's decision and any penalty imposed will be sent to the e-mail or mailing address submitted with the appeal. The decision of the Parking Judiciary is the final step within the University Parking Judiciary system.

3.3. Penalties

3.3.1. Parking Violations: All parking violations as specified in the Parking Ordinance constitute civil infractions. Any person who is found to have committed a civil infraction under this ordinance may be ordered to pay a civil fine and costs. The schedule of fines for parking violations is approved by the University president and published on the Parking Services website. Violations of the Michigan Vehicle Code shall be under the jurisdiction of the 58th and/or 61st District Court.

3.3.2. Misappropriated and Counterfeit Permit Use: Unauthorized or improper use of any permit, and/or forging, copying, or altering a permit may result in confiscation, criminal charges and/or University sanctions. Permits remain the property of the University after purchase. Potential violations will be immediately reported to the Police. Fraudulently obtaining goods or services is a crime punishable by up to one year in jail and a fine up to $2,000.

3.3.3. Revocation of Parking Privileges: GVSU reserves the right to restrict the parking of any vehicle by any individual at any time on property owned or controlled by the University.

3.3.4. Impoundment and Immobilization: Vehicles parked on property owned or controlled by the University in violation of these regulations or any local, state, or federal ordinances, laws or statutes may be subject to impoundment or immobilization by the Police at the vehicle owner’s expense. Impounded vehicles will be towed by a wrecker service. The cost of impoundment will constitute a lien against the vehicle, with the owner being liable for costs of towing and storage or release from immobilization devices.

3.3.4.1. GVSU Police are responsible for impoundment of vehicles. Violations subjecting a vehicle to immediate impoundment on property owned or controlled by the University include:

1. Interfering with or impeding:
   a. The flow of vehicular or pedestrian traffic;
   b. The use of facilities, buildings, loading docks, or dumpsters;
   c. The services of emergency personnel, the operation of emergency vehicles, or an evacuation in the event of a possible emergency;
2. Parking on any surface or in any area not designated for the legal operation or parking of a vehicle;
3. Parking in or blocking the use of an ADA reserved space without displayed authorization;
4. Displaying a counterfeit, altered, stolen, transferred, deactivated, or otherwise misappropriated permit;
5. Vehicles parked in violation of any section of the Parking Ordinance.

3.3.5. Parking Violations – Contact Not Required: If a parking infraction is observed by Department of Public Safety staff and immediate contact is not possible or may jeopardize the safety of an officer or other staff, a parking violation notice may be issued to the registered owner of the vehicle without contact at the time of the violation.

3.3.6. Owner Responsibility: Parking violation notices and fines will be issued to the holder of the University parking permit displayed on the vehicle or to the registered owner of a non-permitted vehicle.

USE OF SECURITY CAMERAS

SLT 6.29

Date of Last Update:
May 15, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Public Safety

POLICY STATEMENT
Grand Valley State University seeks to promote campus safety and to provide its community with a secure environment. Security video camera systems are a critical component to a comprehensive emergency and security plan. A security camera is defined as video technology that records a specific area in order to detect, deter, prevent, or investigate crime or other threats to public safety. The University takes seriously its responsibility to protect personal privacy when it operates security camera systems. No security camera will be installed on University owned or controlled property in any location for which there is a reasonable expectation of privacy. These areas include but are not limited to restrooms, locker rooms and occupied student residential rooms. This policy applies to stationary security cameras and not to portable or temporary camera applications.

This policy serves to regulate the installation and appropriate uses of security cameras, including the retention, viewing, release and destruction of recorded images, data or records produced by security camera use.

The existence of this policy does not imply or guarantee that security video cameras will be monitored in real time, continuously or otherwise, nor that any particular department is going to observe and respond to a crime in progress.

Video recordings with information about a specific student are considered law enforcement records unless the University uses the recording for disciplinary purposes or makes the recording part of the educational record. The Department of Public Safety, working in conjunction with the Information Technology Department has the authority to select, coordinate, operate, manage, and monitor all security camera systems pursuant to this policy.

PROCEDURES

Individual colleges, departments, programs, or organizations wishing to install security camera equipment on any of the University campuses are required to collaborate with Facilities Planning, Department of Public Safety and Information Technology prior to any installation. All equipment and installation must be approved and coordinated through the Department of Public Safety in order to meet the minimum technical specifications identified by the Department of Public Safety and Facilities Planning along with Information Technology for technical standards. All costs for purchase, installation, and maintenance of security cameras will be the responsibility of the appropriate project budget or the department/unit making the request.

Security Camera System Operator

Security Camera System Operators are trained staff members who have access and been assigned responsibility by the Department of Public Safety. Prior to being permitted access to any security cameras, these individuals will be trained by the Department of Public Safety in the technical, legal, and ethical parameters of appropriate camera use. The Department of Public Safety will maintain an up-to-date list of authorized Security Camera System Operators having access to the system and any live or recorded images. Access to viewing, copying, duplicating and/or retransmission of live, recorded video or still images will be limited to Security Camera System Operators.

Security Camera System Operators are responsible to appropriately protect the privacy of personal information that may have been captured by cameras under their control.

Recordings

Images recorded by security camera systems are considered sensitive information that are to be protected from unauthorized access for modifications, duplications or destruction. The stored images generated by University security cameras are to be kept in a central location and secured in a network location established by the Information Technology department.

Stored data may be released when it is related to any criminal investigation, civil suit, subpoena or court order, arrest, or to aid in a disciplinary proceeding against a student or personnel actions against an employee. Stored data needing to be retained as part of a civil or criminal investigation may be downloaded and retained by law enforcement personnel according to their individual department policies. Internal requests to release stored data are to be authorized by the Director of Public Safety or designee(s).

All recordings will be re-recorded over every 30 days unless there is a demonstrated business need, ongoing investigation, court order, or other bona fide use as approved by the Director of Public Safety or designee.

Monitoring

University security cameras are not monitored continuously under normal operating conditions but may be monitored for legitimate safety and security purposes that include, but are not limited to, the following: High risk areas, restricted access areas/locations, in response to an alarm, special events, and specific investigations authorized by the Director of Public Safety or designee(s).

Any person who tampers with or destroys video security equipment will be subject to criminal prosecution and/or campus disciplinary processes.

CRISIS COMMUNICATION PLAN

SLT 7.1

Date of Last Update:
September 15, 2014

Approved By:

- Senior Leadership Team

Responsible Office:
University Communications

POLICY

The audience for this plan includes all students, faculty, staff, alumni, parents, trustees, the Grand Valley Foundation, and the general public.

POLICY STATEMENT

The purpose of this communication plan is to set guidelines to be followed for sharing information with executive officers, faculty, staff and students, as well as the general public. This includes both emergency and non-emergency communications. The plan is coordinated with the Comprehensive Emergency Management Plan (CEMP) administered by the Emergency Coordinator.

Executive Summary

- The Vice President for University Relations shall serve as the crisis communication director along with another cabinet member. In a physical emergency, that second executive officer will be the Vice President for Finance and Administration. In a public relations issue, the second executive officer will be determined by the issue.
The Associate Vice President for University Communications, Chief of Police, Dean of Students, Vice President for Enrollment Development, and the Associate Vice President for Facilities shall be the crisis communication coordinators.

Whenever a situation affecting the campus reaches proportions that cannot be handled by routine measures, the crisis communication coordinators shall notify the Vice President for University Relations.

The crisis communication director communicates with the other executive officers and Board of Trustees.

Each university administrator, upon being notified, is to provide applicable information to those persons under his/her direction as per the crisis notification system.

Main and field crisis communication posts shall be established as required by the situation and shall be equipped with communications systems required to utilize resources.

Following the crisis, the crisis communication coordinators will gather all appropriate individuals for debriefing and review. Appropriate action will be determined.

PROCEDURES

TYPES OF COMMUNICATION

Emergency Notification:
An emergency is defined as a serious, unexpected, and often dangerous situation requiring immediate action. A university emergency is generally defined as any incident or event causing or potentially causing serious injury to persons, extensive property damage, loss of life, or disruption of university operations.

NOTE: The Comprehensive Emergency Management Plan can be found at [http://gvsu.edu/s/0pC](http://gvsu.edu/s/0pC)

If an Emergency Notification should be sent, GVPD or Pew Campus Security will write the initial notification message and send it using Grand Valley's emergency notification system (RAVE). The crisis communication director, and the crisis communication coordinators will determine who else needs to be notified and the appropriate action and follow-up messages as it relates to each campus.

The Vice President for University Relations and the Associate Vice President for University Communications, or their designees, will write any subsequent message(s). A designated representative from University Communications will be responsible for distributing the alert using RAVE. University Communications will post messages on the university home page, GVNow and/or use the university's social media outlets.

NOTE: Evacuation of Buildings procedures should follow instructions found in the Annual Security and Fire Safety Report [www.gvsu.edu/gvpd/securityreport](http://www.gvsu.edu/gvpd/securityreport)

If a Timely Warning should be considered, GVPD or Pew Security will notify the crisis communication director and/or crisis communication coordinator(s). A Timely Warning is required if GVPD or Pew Security receives a report that a Clery crime has been committed on GVSU Clery geography and considers there to be a serious or continuing threat to students and employees. The content of a Timely Warning needs to include information that would promote safety and aid in the prevention of similar crimes and information about the crime that triggered the Timely Warning. The Vice President for University Relations and the Associate Vice President for University Communications, or their designees, will write the message(s). A designated representative from University Communications will be responsible for distributing the alert using RAVE. University Communications will post messages on the university home page, GVNow and the university's social media outlets.

SAFETY NOTICE FOR OFF-CAMPUS INCIDENTS
Grand Valley may elect to issue a safety notice to members of the University when it is determined there is a reoccurring series of criminal activity, a disruption to operations, or when the Department of Public Safety determines that there may be a serious continuing or ongoing threat to the health or safety of off-campus students. When deemed necessary, the Department of Public Safety will notify the Vice President for University Relations or Associate Vice President for University Communications for dissemination.

PUBLIC WEATHER INFORMATION
If the weather poses an immediate threat to the campus community the Comprehensive Emergency Management Plan (CEMP) will be followed and communications made accordingly. When there is inclement weather that requires cancellation or closure, the GVSU Cancellation/Closure Policy shall be followed.

REPORTING TO UNIVERSITY COMMUNICATIONS POTENTIAL REPUTATIONAL INCIDENTS OR CRIPSES
Whenever an event or issue appears to have potential for becoming a controversial news story the Grand Valley staff or faculty member aware of the circumstance should immediately notify the unit head who has responsibility in the situation.

The unit head should immediately communicate all available information to the appropriate appointing officer/dean and/or executive officer, and the Associate Vice President for University Communications. University Communications should be notified regardless of the availability of the appointing officer/dean and/or executive officer.

DEFINITIONS:

Crisis Communication Director:
The Vice President for University Relations or designee will be responsible for supervising communications being released during and surrounding a crisis.

Crisis Communication Coordinators:
The Associate Vice President for University Communications, Chief of Police, Dean of Students, Vice President for Enrollment Development, and the Associate Vice President for Facilities shall be the crisis communication coordinators. It is the responsibility of these individuals to communicate with one another about the nature of the incident and then share the information with the appropriate personnel.

IDENTITY STANDARDS POLICY

SLT 7.2

Date of Last Update:
December 18, 2012

Approved By:
Senior Leadership Team

Responsible Office:
POLICY STATEMENT

To convey clear messages about Grand Valley, it's important that University messaging is consistent in look and tone. In addition, Grand Valley's logos are trademarked so it's very important that they are used correctly. Institutional Marketing has created a standards guide to assist with consistency.

PROCEDURES

The address for the website containing the standards guide and other helpful information is www.gvsu.edu/identity/. From this site, you can find logo dos and don'ts, download logos, determine word usage, read about GVSU’s marketing messages, and get help with publication, website, and advertising guidelines. Please contact 331-2525 for more information.

MOTION PICTURE/VIDEO/FILM/DIGITAL IMAGING PRODUCTION ON THE CAMPUS

SLT 7.3

Date of Last Update:
January 04, 2013

Approved By:
Senior Leadership Team

Responsilb Office:
University Communications

POLICY STATEMENT

GVSU understands the importance of the film industry to the local economy and the benefit it can provide to our students interested in a career in film and film production. However, film production on campus is permitted only if it does not interfere with normal University business and/or previously scheduled events. A Location Permit is required to film on campus. The Location Permit can be approved only when all of the appropriate procedures and requirements have been met. Use of any location can only be approved with the consent of the impacted University units or buildings and consideration of the impact on surrounding areas and activities. Scheduled University events, regardless of size, take precedence over film shoots in determining location availability.

PROCEDURES

Requests for Permits

Requestors for a Location Permit must complete the appropriate application. This application and complete script (if applicable) shall be submitted to University Communications. Upon receipt, the completed application and script will be forwarded to a core committee that will include a representation of affected units or buildings for review and project approval.

Fees & Costs

Location fees and operational costs will be charged and are based on a number of variables. The length of the shoot, locations involved, and types of GVSU services needed are all considered in determining the total operational costs. In certain limited instances fees and costs may be waived for uses such as public service announcements. Other forms of media may be subject to this fee and will be handled on a case-by-case basis.

Alterations to Premises

Production companies may not make any alterations to the University Premises (either temporary or permanent), including trimming, cutting or removing natural features such as trees and shrubs, without the express written approval of the University. Production companies will leave the University Premises and all property of any kind located therein in as good order and condition as they were immediately prior to production. Production companies will be responsible for paying for any expenses to restore the University’s Premises to its original condition.

Code of Conduct

While filming on our campus production companies and their employees are guests of the University and should treat this location and campus community with respect and courtesy. The production company, cast, crew and all others associated with the project are expected to comply fully with University Policies. They will be expected to adhere to the Filmmaker’s Code of Professional Responsibility, which is Attachment A to the Guidelines and Procedures for this policy.

University Identification and Appropriate Use of Campus Images

No identification of GVSU as a location is permitted, except in rare instances and only when the specific use is submitted for prior approval University Communications. The request will only be approved when it is deemed to be in the University’s best interests.

Identification includes but is not limited to trademarks, icons, recognizable University landmarks, and the use of merchandise containing trademarked images/logos (i.e. flags, apparel, posters, miscellaneous items containing logo, etc.). Identification also includes verbal references on film.

Filming and Athletics

Under no circumstances is the production company to film or use any information images/names/biographical information pertaining to any current university intercollegiate athlete for any purpose. Appearing in a commercial production that identifies them as university intercollegiate athletes will jeopardize their NCAA eligibility.

Cancellation

If written notice of cancellation for an approved location permit is received before the production begins, then the production is liable for any actual costs incurred by the University as of the receipt of the cancellation notice. University shall have the right of cancellation if the Agreement holder is deemed insolvent or, in the University's sole opinion, shall fail to perform any material term in the Agreement after having received written notice from the University to do so.

Exceptions to Policy
Student projects are subject to School of Communication requirements and procedures and do not require a permit. Incidental filming that includes uses such as: filming for non-commercial or internal use, class projects, or personal use. This filming requires no special services and does not in any way disrupt the normal functioning of the University. This filming cannot be used for commercial purposes after the fact without written permission from Grand Valley State University.

PUBLICATIONS AND ADVERTISING
SLT 7.4
Date of Last Update:
October 18, 2012
Approved By:
Senior Leadership Team
Responsible Office:
Institutional Marketing

POLICY STATEMENT
Institutional Marketing manages, designs, and produces a full range of publications and visual materials, including recruitment materials, course catalog, programs, brochures, posters, postcards, banners, and invitations. Advertising is also designed and produced in the Office of Institutional Marketing for the purposes of university image/awareness and recruitment. If not produced by Institutional Marketing, all publications and ads should be approved by Institutional Marketing before publication. Logo, design, and copy standards can be found at http://www.gvsu.edu/identity

PROCEDURES
Because of the high demand for print pieces, the following priorities have been set for pieces to be produced by Institutional Marketing:
1. The Office of the President
2. Publications used by academic services in student recruiting
3. Materials used off campus for development purposes
4. Major publications of the university dealing with the general public or special external audiences
5. Advertising production support for development and student recruiting
6. Other university publications
Requests for forms, applications, etc. are not handled by Institutional Marketing and should be ordered through Procurement Services.
All publications and advertising should be sent to Institutional Marketing for review before they are printed or posted. Please contact 331-2525 for more information.

WEB POLICIES FOR ACADEMIC AND ADMINISTRATIVE UNITS
SLT 7.5
Date of Last Update:
December 18, 2012
Approved By:
Senior Leadership Team
Responsible Office:
Institutional Marketing

POLICY STATEMENT
All GVSU units are required to maintain their webpages on the university’s domain www.gvsu.edu and use the university’s content management system unless authorized by Institutional Marketing. All GVSU organizations, whether on the gvsu.edu domain or authorized to maintain their own servers and publish pages under domains other than www.gvsu.edu/ are equally responsible for adhering to GVSU Web standards.
The purpose of website design standards is to:
- Reinforce GVSU’s identity
- Meet the needs of the constituencies Grand Valley serves
- Provide continuity in website appearance
- Protect and regulate the use of proprietary GVSU names, logo marks, word marks, and graphic devices
- Keep content current
- Faithfully represent GVSU to the public
Web standards can be found at http://www.gvsu.edu/identity

ALUMNI HOUSE POLICY FOR FACULTY/STAFF
SLT 8.1
Date of Last Update:
January 03, 2013
Approved By:
POLICY

The Alumni House is available for use by departments of the University. However, the reservation must be made by a faculty or staff member. Faculty and staff members that wish to use the Alumni House for a personal event may do so; all room rentals and additional charges will apply.

POLICY STATEMENT

General

The applicant undertakes to observe all rules and directions, which are imposed by GVSU and the Alumni Relations Office generally, or specifically, in respect to the space which is being used.

The room rental fee will be waived for University-sponsored events providing all additional charges (i.e. catering, equipment, a/v, etc.) are paid by a University account number. Inform the Event Coordinator if there will be any distinguished or special guests attending the event.

Reservations

Reservations for University events must be made by a University employee. All reservations are to be arranged with the Event Coordinator at (616) 331-3590.

When the Event Coordinator approves the reservation request, he/she will send the primary contact a confirmation of the event with all event details submitted in the reservation form.

Reservations will be made according to the event time specified on the request form. The Event Coordinator will add to your reservation two hours before event start and one hour after event end time for any necessary setup and/or cleanup you may require; contact the Event Coordinator if you require more time.

Food and Beverage

For events that involve the service of prepared food and drink, you must use the University’s catering service (Classic Fare Catering).

If you will use the University catering service for your event, please arrange your menu selections with the Event Coordinator by the deadlines described on the event confirmation.

For events the involve the service of alcohol, you must agree to abide by all Michigan Liquor Control Commission rules and regulations involved in the service of alcohol in addition to those established by the University. Final alcohol selections must be given to the Event Coordinator at least two weeks prior to the event to ensure the availability of requested menu items. No changes/additions will be accepted after the deadline.

A final guest count must be given to the Event Coordinator at least three (3) business days prior to the event. If a final guest count is not received three business days prior to the event, the food service provider will consider the last communicated guest count to be the final guest count. The final bill will be based on the final guest count given or actual number served, whichever is higher.

Please contact the Event Coordinator at (616) 331-3590 for information on hosting a non-University sponsored event.

Minimum charges may be applicable for food and bar service.

Outside food and drink are not allowed in the Alumni House.

Food and drink from the Alumni House, partial or whole, are not to leave the premises by state law.

No event may exceed 12:00 midnight, and alcohol service will be discontinued at 11:30 pm.

Set-up and Special Requests

The Perry Dining Room has a standard furniture set-up; additional furnishings or the rearrangement of existing furnishing may result in additional expenses. Set-up requests must be made in advance with the Event Coordinator and must be finalized five (5) business days before the event date. Changes to the set-up after this deadline may incur an additional charge.

Contact the Event Coordinator to order additional equipment, audiovisual equipment, and any other special requests at least five (5) business days before the event.

Cancellation

The Event Coordinator encourages a five (5) business day notice for event cancellations. Special cases will be handled on a case-by-case basis.

You may cancel your event up to three (3) business days prior to the scheduled time of the event at no charge. Events cancelled with less than three (3) business days’ notice will be billed for costs incurred, up to 100% of the total bill.

Late charges will occur when catered events are planned less than three (3) business days in advance. These charges will be 10% of the total cost of the event with a minimum of $10.00.

Release of Alumni Contact Information

We do not release contact information to the general public from our alumni database. At this time, individuals searching for alumni do so by filling out a form online that is forwarded to University alum via postal mail.

ENDOWMENT MATCH POLICY
POLICY STATEMENT

To provide additional incentive for employees to support endowments the University provides a match equal to the amount of the employee’s gift up to $25,000. Gifts are defined as outright gifts, payments and sustainer payments. Gifts are matched the same year upon actual receipt of cash or similar monetary instruments.

PROCEDURES

The following criteria are to be followed:

Only contributions to named endowments will qualify for matching funds.

Current and retired faculty and staff and their spouse’s contributions will be eligible for match. This definition excludes adjunct faculty and staff.

The available funds for matching will be limited to current year earnings of unrestricted endowed funds and undistributed interest earnings. Use of the general fund for employee gift matching is not permitted. If contributions eligible for match exceed available funding, the match will need to be reduced by an appropriate percentage for all gifts.

The match on one single gift is limited up to $25,000 per donor per year of the gift. Matching gifts over $25,000 requires a recommendation from the President and approval by the Chair of the Board of Trustee’s Finance and Audit Committee in consultation with the Vice President for Finance and Administration regarding funding availability.

The eligible contributions that are received during the calendar year will be matched in the following February. Any eligible gifts received after December 31st will be matched the following February.

FUNDRAISING POLICY

POLICY STATEMENT

University Development helps Grand Valley State University fulfill its mission and realize its aspirations in three ways: (1) securing, stewarding and increasing financial support; (2) building meaningful partnerships with external and internal constituents; and (3) communicating the university’s character, quality, priorities and goals.

Accordingly, University Development must strive at all times to ensure that its policies and procedures and those of the university are in compliance with local, state and federal regulations in regard to the solicitation and acceptance of gifts. Any deviation from the Internal Revenue Code could result in fines, public embarrassment and/or the loss of the University’s tax-exempt status.

For these and many other reasons, all fundraising requests made in the name of the University must be approved in advance by the Vice President for Development. In addition, only the Vice President for Development or their designee is empowered to issue the University’s official receipt that qualifies a donor’s charitable contribution as deductible for tax purposes.

Any fundraising activity that employs the name, image or reputation of the University, in an effort to secure financial gifts will be considered fundraising in the name of the University and is subject to this policy. In the area of “sponsored research”, University Development may work with the Office of Sponsored Research to determine the most appropriate fit for the project.

Any potential fundraising activities on behalf of an University program or initiative must first be approved by the appropriate dean and/or the divisional vice president before a request for assistance is directed to University Development. In all decisions related to funding, the priorities of the University, as approved by the Board of Trustees, shall guide the decision making process.

University Development will not share lists of donors or other constituents with individuals and organizations not affiliated with approved university fundraising activities.

This policy shall apply to any and all members of the University community, as well as to any other individuals or organizations who may represent themselves as members of the University community or who claim to be acting on behalf of the University. This policy does not apply to members of the University community when they are engaged in fundraising activities for other organizations and/or when they have explicitly stated that their fundraising activities are unrelated to the university.

Today’s donors have more outlets for their philanthropic desires than ever before. As competition for the philanthropic dollar has increased, donors now receive numerous appeals from multiple non-profit organizations. Consequently they are likely to become annoyed by multiple requests from the same organization. To ignore this is to risk reduced support, an outright refusal, or perhaps even permanent discontinuation of support.

Grand Valley State University can be at the forefront of a donor’s choice if we are clear in our intent, focused on the university’s highest priorities, and present exciting opportunities for support. Coordination of university-wide fundraising activities is imperative.

Prohibited Activities

Members of the University community are prohibited from engaging in the following tactics and activities for purposes of fundraising:

- Solicitation of a donor
- Acceptance of a contribution
- Use of any University insignia or logotype
GIFT ACCEPTANCE AND DISPOSITION POLICY

SLT 8.4

Date of Last Update: July 31, 2008

Approved By: Senior Leadership Team

Responsible Office: University Development

POLICY STATEMENT

This policy is established to govern the acceptance and disposition of all gifts made to Grand Valley State University, whether such gifts are inter vivos (lifetime) or from estates, other than gifts of: (1) cash or (2) publicly traded equities traded on national exchanges. The Vice President for Development in advance of acceptance must approve all such gifts, which fall under this policy.

Gifts subject to this policy will be considered in four categories:

1. Tangible personal property
2. Real property
3. Life insurance
4. Other assets

The latter category includes, but is not limited to: promissory notes, assignments of promissory notes, partnership interests, and restricted or non-publicly traded securities. The criteria for acceptance, the acceptance/approval process, and the disposition policy (where relevant) for each category are set forth below.

PROCEDURES

1. Tangible personal property

   A. Criteria for acceptance

   Gifts of tangible personal property, including but not limited to works of art, manuscripts, literary works, boats, motor vehicles, and computer hardware, may be accepted only after thorough review indicates that the property is (1) readily marketable or (2) needed by the University for use in a manner that is related to one of the purposes for which tax-exempt status of the University was granted; that is, for education, research, or a combination of both.

   B. Approval/acceptance process

   A Development Officer or other appropriate gift officer will prepare a written summary of the gift proposal and submit that summary to the Assistant Vice President for Development Services. At a minimum, the summary shall include the following information:

   - The purpose of the gift (e.g. to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
   - An estimate or appraisal of the gift's fair market value and marketability
   - Any potential University use and, if so, written review by the department to benefit from the asset
   - Any special arrangements requested by the donor concerning disposition (e.g., price considerations, time durations prior to disposition, potential buyers, etc.)

   The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the University's decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

   If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of tangible personal property, the Development Officer will acknowledge receipt of the gift on behalf of the University. The University will not appraise or assign a value to the gift property. It is the donor's responsibility to establish a value for the gift and provide, at the donor's expense, a qualified appraisal required by the IRS in the case of gifts of tangible personal property valued in excess of $1,500.

   The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance acceptable to the University, and the delivery of the property, as applicable. The donor will pay all costs associated with the conveyance of the gift. In addition, the filing of Form 8283 by the donor is required by the IRS for gifts of tangible personal property valued at more than $500. The donor should send this form to the Gift Assistant for execution.

   C. Disposition

   Upon approval of a proposed gift of tangible personal property by the Vice President for Development, he/she will assign a University office the responsibility for disposing of the gift, unless the gift is intended for a specific University purpose, in which case no immediate disposition is necessary. Any guidelines on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the university office responsible for disposing of the gift.

   Upon approval of a proposed gift, the Vice President for Business and Finance or his/her designees will identify a Fund and Organization Code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, a development code will be used as a holding account.

   Until the property is sold or otherwise disposed of, the university office responsible for disposing of the gift will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.
The Vice President for Development must be consulted before a gift of tangible personal property may be sold for less than appraised value, estimated fair market value, or guidelines imposed by University Development in approving the gift, as the case may be. If in the judgment of the person responsible for disposing of the gift, a current appraisal of the property would assist in disposing of the property, the person responsible for disposing of the gift may request permission to have the appraisal performed.

Upon sale of the property, the office responsible for disposing of the gift will prepare a final report on the property, including a financial summary of net proceeds to the extent known, and distribute it to the Vice President for Development, the Vice President does Business and Finance or his/her designee, and the designated representative of the department to benefit from the gift.

2. Real Property
The University will consider gifts of real property, both improved and unimproved (e.g., detached single-family residences, condominiums, apartment buildings, rental property, commercial property, farms, acreage, etc.), including gifts subject to a retained life estate. Only after a thorough review of the criteria for acceptance set forth below under the direction and supervision of the Vice President for Business and Finance or his/her designee. All gifts of real estate shall be subject to terms and conditions as set forth in the Grand Valley State University Policy for Accepting Gifts of Real Estate.

A. Criteria for Acceptance

i. Market Value and Marketability: The Vice President for Business and Finance or his/her designee must receive a reasonably current appraisal of the fair market value of the property and interest in the property the University would receive if the proposed gift is approved. Development Officers must understand and communicate to donors that it is the University’s policy to dispose of all gifts of real estate (other than property which the University wishes to retain) as expeditiously as possible. Thus, regardless of the value placed on the property by the donor’s appraisal, the University will attempt to sell at a reasonable price in light of current market conditions, and the donor needs to be informed that any such sale occurring within two years of the date of gift will be reported to the IRS on Form 8283.

ii. Potential Environmental Risks: All proposed gifts of real property, including gifts from estates, must be accompanied by a Phase I environmental audit performed at the donor’s expense. The only permitted exception to this requirement is for residential property, which has been used solely for residential purposes for a significant (at least twenty year) period of time. In cases where this exception applies and no environmental audit is undertaken, the donor/executors must have an outside party complete an Environmental Checklist prepared by the Vice President for Business and Finance or his/her designee and may be required to execute an environmental indemnity agreement. Even in cases where a Phase I audit is submitted, the Vice President for Business and Finance or his/her designee may require that the donor sign an environmental indemnity agreement.

iii. Limitations and Encumbrance: The existence and amount of any and all mortgages, deeds of trust, restrictions, reservations, easements, mechanic liens and other limitations of record must be disclosed. No gift of an interest in real estate will be accepted until all mortgages, deeds of trust, liens and other encumbrances have been discharged, except in very unusual cases where the fair market value of the University’s interest in the property net of all encumbrances is substantial or where a separate agreement to pay such encumbrances which might be charges to the University has been executed by a financially responsible party.

Carrying Costs: The existence and amount of any carrying costs, including but not limited to property owners’ association dues, country club membership dues and transfer charges, taxes and insurance, must be disclosed.

iv. Title Information: A copy of any title information in the possession of the donor, such as the most recent survey of the property, a title insurance policy, and/or an attorney’s title opinion, must be furnished.

B. Approval/Acceptance Process
The Development Office, with the assistance of the Vice President for Business and Finance or his/her designee, will prepare a written summary of the gift proposal and submit that summary to the Vice President for Development. At a minimum, the summary shall include the following information:

• Description of real property
• The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
• An appraisal of the properties and, if different, the University’s interest in the property’s fair market value and marketability
• The result of a title search
• Any potential for income and expenses, encumbrances, and carry costs prior to disposition
• Any environmental risks or problems revealed by audit or survey
• Any potential University use
• Any special arrangements requested by the donor concerning disposition (e.g., price consideration, time durations prior to disposition, potential buyers, realtors or brokers with whom the donor would like the University to list the property, etc.)

The Vice President for Development and the Vice President for Business and Finance will review the material present by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the University’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of real property, the Development Officer will acknowledge receipt of the gift on behalf of the University upon notice by the Vice President for Business and Finance or his/her designee that the property has been properly recorded in the local Registry of Deeds. The University will not appraise or assign a value to the gift property. It is the donor’s responsibility to establish a value for the gift and to provide, at the donor’s expense, a qualified appraisal required by the IRS.

The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance. The costs associated with the conveyance and delivery of the gift, including but not limited to recording fees and, if deemed necessary by the Vice President for Business and Finance or his/her designee, a current survey, title insurance and/or attorney’s title opinion, will be either paid by the donor or charged to the fund code of the department(s), program(s), or endowment(s) to benefit the donation. In addition, the IRS for gifts of real property requires the filing of Form 8283 by the donor. The donor should send this form to the Vice President for Business and Finance or his/her designee for execution.

C. Disposition
It is the responsibility of the Vice President for Business and Finance or his/her designee to dispose of all gifts of real property. Any guidelines the Vice President for Business and Finance or his/her designee wishes to impose on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the Vice President for Development.

If the Vice President for Business and Finance or his/her designee determines that it is in the best interests of the University to retain for its own use a gift of real property, it will be recommended to the appropriate officers of the University and to the Board of Trustees that the University purchase the property and that, in all other cases they authorize liquidation of such funds for the benefit of the designated gift purpose.
Upon acceptance of a gift, the Vice President for Business and Finance or his/her designee will designate a code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, the code will be used as a holding account. Until the property is sold or otherwise disposed of, the Vice President for Business and Finance or his/her designee will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.

Upon sale of the property, the Vice President for Business and Finance or his/her designee will prepare a final report on the property, including a financial summary of net proceeds, and distribute it to the Vice President for Development and the designated representative of the department to benefit from the gift. The Vice President for Business and Finance or his/her designee of responsible for filing Form 8283 for gifts of real property sold by the University within two years of the date of gift.

The Vice President for Business and Finance or his/her designee of responsible for filing Form 8283 for gifts of real property sold by the University within two years of the date of gift.

### 3. Life Insurance

#### A. Criteria for Acceptance

With approval of the Vice President for Development, the University will accept gifts of life insurance policies that meet the following two criteria:

- The policy is a life insurance policy which is either paid-up or, if not paid-up as of the date of gift:
  - Has a minimum face value of $10,000
  - Has a payment schedule not to exceed ten years and which assumes an interest rate not to exceed two percent below prime interest rate as of the effective date of the policy
  - Requires charitable contributions from the donor to the University in the amount of any premiums, including unscheduled premiums, which may become due.

Grand Valley State University is designated as the owner and beneficiary of the policy. If intended for endowment purposes, the face value of the policy meets the minimum funding standards for endowments established by the Board of Trustees.

#### B. Approval/Acceptance Process

The Development Officer will prepare a written summary of any proposed gift of a life insurance policy, which fails to meet all of the criteria specified in the section above and submit that summary through the University’s Director of Planned & Endowed Giving or his/her designee. At a minimum, the summary shall include the following information:

- Description of the type of life insurance policy, face value, premium payment schedule, interest rate, age of insured(s), and other relevant policy information
- The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, an unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift

The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as of whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the University’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of a life insurance policy, the assigned Development Officer will acknowledge receipt of the gift on behalf of the University.

The gift will be completed upon the execution and delivery of the life insurance policy to the University or an assignment of the policy in the event that the University is not the original owner of the policy.

#### C. Administration

The Office of University Development shall administer all gifts of life insurance policies and shall maintain records of all donor policies, contribution schedules, donor designations of death benefits, and the like. The University’s Director of Planned & Endowed Giving or his/her designee shall be responsible for pledge reminders and monitoring payments of premiums.

The Vice President for Business and Finance or his/her designee shall be responsible for confirming the existence and cash value of all policies in force at least annually and for collecting and distributing death benefits. Upon receipt of death benefits, the Vice President for Business and Finance or his/her designee shall provide notice to the department(s), program(s), or endowment(s) to benefit from the gift.

### 4. Other Assets

Other assets include but are not limited to: promissory notes, assignments of promissory notes, partnership interests, and restricted or non-publicly traded securities.

#### A. Criteria for Acceptance

The University will consider gifts of other assets, including but not limited to promissory notes, assignment of promissory notes, partnership interests and restricted or non-publicly traded securities, only after a thorough review of the criteria set forth below.

- **i. Market Value and Marketability:** The University must receive a reasonably current appraisal of the fair market value of the property and interest in the property the University would receive if the proposed gift is approved. Development Officers will inform the donor that, if the gift is completed, the IRS will require an appraisal made within sixty days of the date of gift. The appraisal and other information must indicate clearly and convincingly that there is in fact a market for the asset under consideration and that the asset can be sold within a reasonable period of time.

- **ii. Potential Environmental Risks:** All proposed gifts in which the University would acquire an interest in real property must be accompanied by a Phase I environmental audit performed at the donor’s expense. The only permitted exception to this requirement is for residential property, which has been used solely for residential purposes for a significant (at least twenty-year) period of time. In cases where this exception applies and no environmental audit is undertaken, the donor must have an agent complete an Environmental Checklist prepared by the Vice President for Business and Finance or his/her designee and may be required to execute and environmental indemnity agreement.

- **iii. Limitations and Encumbrances:** The existence and amount of any carrying costs, including but not limited to property owners’ association dues, country club membership dues and transfer charges, taxes and insurance, must be disclosed.

- **iv. Title Information:** A copy of any title information in the possession of the donor, such as the most recent survey of the property, a title insurance policy, and/or an attorney’s title opinion, must be furnished.

#### B. Approval/Acceptance Process
The Development Officer will prepare a written summary of the gift proposal and submit that summary to the Vice President for Development and the Vice President for Business and Finance. At a minimum, the summary shall include the following information:

- Description of the asset
- The purpose of the gift (e.g., to fund an endowed chair, a deferred gift, and unrestricted gift) and the department(s), program(s), or endowment(s) to benefit from the gift
- An estimate or appraisal of the asset’s fair market value and marketability
- Potential for income and expenses, encumbrances, and carry costs prior to disposition
- Any environmental risks or problems revealed by audit or survey
- Credit history or financial statement of financially responsible party, if applicable
- Any special arrangements requested by the donor concerning disposition (e.g., price considerations, time durations prior to disposition, potential buyers, realtors or brokers with whom the donor would like the University to list the property, etc.)

The Vice President for Development and the Vice President for Business and Finance will review the material presented by the Development Officer and make a determination as to whether to accept or reject the proposed gift (or, if necessary, to postpone a decision pending the receipt of additional information.) The Vice President for Development or the Vice President for Business and Finance shall communicate the final determination to the Development Officer, and the Development Officer shall communicate the university’s decision to the donor in writing, including any conditions imposed by the Vice President for Development or the Vice President for Business and Finance, prior to acceptance.

If the Vice President for Development and the Vice President for Business and Finance approve a proposed gift of an asset in Category 4, the assigned Development Officer will acknowledge receipt of the gift on behalf of the university. The university will not appraise or assign a value to the gift property. It is the donor’s responsibility to establish a value for the gift and to provide, at the donor’s expense, a qualified appraisal required by the IRS in the case of assets valued in excess of $1,500.

The gift will be completed by the execution and delivery of a deed of gift or other appropriate conveyance, and the delivery of the property, as applicable. The cost associated with the conveyance will be paid by the donor upon delivery of the gift. In addition, the filing of Form 8283 by the donor is required by the IRS for gifts of assets valued at more than $1,500. The donor should send this form to the Office of University Development for execution.

C. Disposition
It is the responsibility of the Vice President for Business and Finance or his/her designee to dispose of all gifts of assets in this Category 4. If the asset involves an interest in real estate, it is generally expected that the Vice President for Business and Finance or his/her designee will assist in disposing of the asset. If the asset is a security, it is generally expected that the Vice President for Business and Finance or his/her designee will follow policies for disposing the asset. Any guidelines the Vice President of Business and Finance or his/her designee wish to impose on disposition, including minimum sales price and approval or rejection of any special arrangements with the donor, will be put in writing to the Vice President for Development at this time.

Upon acceptance of a gift, the Vice President for Business and Finance or his/hers designee will designate a code for charging expenses associated with the gift pending disposition. In the absence of a known beneficiary for the gift, the Vice President for Business and Finance or his/her designee will determine how the gift will be disposed.

Until the property is sold or otherwise disposed of, the Vice President for Business and Finance or his/her designee will prepare quarterly status reports and distribute them to the Vice President for Development and to the designated representative of the department to benefit from the gift.

Upon sale of the property, the Vice President for Business and Finance or his/her designee will prepare a final report on the property, including a financial summary of net proceeds, and distribute it to the Vice President for Development and the designated representative of the department to benefit from the gift.

The Vice President for Business and Finance or his/her designee is responsible for filing Form 8283 for assets valued at more than $5,000 sold by the university within two years of the date of gift.

5. Acceptance and Disposition of Deferred Gifts

A. Deferred Giving
Development Services is asked to record various types of deferred gifts; the office is often asked to provide a description of the nature of such a gift, or explain how various types of deferred gifts should be recorded by us and/or handled for tax purposes. Ultimately, the Gift Assistant should refer related inquiries to the university’s Director of Major & Deferred Gifts. This does not, however, remove the need for the Gift Assistant to be familiar with this type of gift. For this reason, below are the general explanations of certain types of deferred gifts with commonly accepted rules. Information concerning specific treatment of these gifts at Grand Valley State University should be procured from the Office of University Development.

B. Bequests
The most common and simplest form of deferred giving: a bequest is a gift of property that is made through a donor’s will.

Benefits to Donors: Donors do not have to part with any money until they die, and do not owe any estate tax on the amount of the bequest.

6. Charitable Remainder Trusts
Two basic types of charitable remainder trusts qualify for federal tax benefits. In both arrangements, a donor gives stock, cash, or other assets to a trust. Those assets are invested; producing income for the donor – or other beneficiary – either for a fixed period of time or until the donor dies. The donor is allowed to claim a tax deduction for the estimated portion of the assets that will ultimately go to charity. When the donor dies, the charity keeps all remaining assets. There are two types of remainder trusts:

A. Unitrusts
Under a basic unitrust, the donor receives one or more yearly payments equaling a fixed percentage of the value of the asset. The value is assessed each year. Under a net-income unitrust, the donor receives only the income earned by the trust, even if the trust earns less than the payout rate. However, the trust can be set up to include a “make-up provision,” which allows donors to make up the lost income, provided the trust earns more than the payout rate in future years.

B. Annuity Trusts
The donor receives a yearly fixed payment equaling at least one percent of the value of the asset at the time the deferred-giving agreement was signed. Donors who give real estate commonly use charitable remainder trusts. Real estate is not usually given through gift annuities and cannot be given to pooled-income funds.

Benefits to Donors: Donors can get income-tax deductions and escape capital-gains taxes by making such gifts. Many donors find the trusts an appealing way to prepare for retirement. The assets can be invested to earn a lower rate of return when the donor is younger and then shifted to earn a higher rate of return, and thus provide more income, during a donor’s later years.

C. Gift Annuities
Donors contribute cash, securities, or other assets to a charity. In exchange, they receive annual payments for a fixed amount of time. With a deferred gift annuity, the annual payments do not start when the gift is made; they begin at a time specified by the donor when the gift is made.

Benefits to Donors: Gift annuities are attractive to donors who want to receive income from assets that have risen sharply in value, such as cash or stocks. In return for gifts of such assets, the charity guarantees the donors a fixed annual income for the rest of their lives and helps the donor avoid capital-gains tax. The donor also gets an income-tax break on a portion of the earnings from an annuity; the exact amount depends on the donor’s age.
D. Pooled-Income Funds
The donor gives cash, securities, or other assets to a non-profit organization, which then invests those assets in a large, diversified portfolio. The donor receives income from the fund proportionate to the value of his or her contribution, as well as an income-tax deduction based on the estimated principal that will be left to the charity. Obtaining a “unit” in a pooled-income fund is similar to buying a share of a mutual fund.

Benefits to Donors: Life gift annuities, pooled-income funds appeal to donors who want to earn income on stock and other assets and escape capital-gains taxes. Unlike annuities, a donor’s income from a pooled-income fund is tied to fluctuating interest rates. That means that in the long run, donors may receive larger earnings than they do from annuities, but they can also do less well in the short term. As a result, the funds tend to appeal to younger people who are more often willing to take risks with their investments.

E. Charitable Lead Trusts
A charity receives the income from the donor’s assets for a specified time, after which the asset is transferred back to the donor or to the donor’s heirs.

Benefits to Donors: A lead trust can reduce gift and estate taxes or provide a charitable deduction for the donor. Charitable lead trusts are most appealing to donors who want to pass appreciated assets to their heirs without paying a substantial amount in taxes. The donor pays a gift tax on the asset when it is placed in to the trust; after that it can grow tax-free. At the end of the specified period, the asset is returned to the donor’s heir or heirs, who do not have to pay any additional taxes.

7. Deferred Gifts Policy of Grand Valley State University
In an effort to maintain continuity and consistency with deferred gifts to Grand Valley State University, the following policy has been established:

Gifts governed by this policy: All deferred gifts to the University, which are managed by Grand Valley State University or its agents, including but not limited to the following:

- Gifts establishing charitable remainder trusts
- Gifts to the pooled income funds
- Gifts purchasing charitable gift annuities
- Gifts funding charitable lead trusts

Gifts not governed by this policy: Deferred gifts that do not require management; for example, gifts of personal residences or farms with retained life estate in donor and deferred gifts with are managed by trustees other than Grand Valley State University.

Trustee: Grand Valley State University has the option to serve as trustee of any deferred gift in which the University’s interest equals at least fifty-one percent of the total charitable interests. Usually the University prefers the use of a commercial trustee.

Payout rates: The payout rates offered to donors shall be competitive and determined in consultation with a Development Officer.

Value of Remainder: No deferred gift (except for deferred gift annuities) shall be accepted in which the value of the University’s remainder interest is less than twenty-five percent of the value of the assets transferred.

Minimum gift amounts: Grand Valley State University has the following minimums for acceptance of deferred gifts

- Charitable remainder trusts: Initial gift – $100,000
- Pooled income fund gifts: Initial gift - $5,000 Additional gifts - $1,000
- Charitable gift annuities: Initial gift - $10,000

Note: Gift annuities may not be offered to residents of states in which such contracts are considered to be insurance products or securities. Currently almost one-half of the states (including Florida, New York and California) classify these contracts as either insurance or securities. Because this list is constantly changing, approval should be obtained from the Development Office before discussions for this gift type are initiated.

Acceptable gift assets: The University will accept the following assets:

- Cash
- Publicly traded securities
- Real estate (subject to approval of the Vice President for Development)
- Other assets, such as closely held stock and partnership interested (subject to approval of the Vice President for Development.)

Valuation of gift assets: The University will follow applicable federal tax law.

Final approval, acceptance, and execution by the University: The Vice President for Development, in collaboration with the Vice President for Business and Finance or his/her designee must approve all documents.

All documents must be sent first to the donor for signature and then to the University’s Vice President of Business and Finance or his/her designee.

The Vice President of Business and Finance or his/her designee shall execute the documents on behalf of the University; and the documents shall be executed in duplicate and the originals distributed as follows:

- One original to donor
- One original to Vice President of Business and Finance or his/her designee
- Copies to the appropriate Development Officer

PRIVACY POLICY
SLT 8.5

Date of Last Update: July 31, 2008

Approved By: Senior Leadership Team

Responsible Office: University Development
Grand Valley State University maintains a database (Millennium) of biographical and gift/pledge information about alumni and friends in accordance with the general needs and expectation of the university community. The information contained in this database is intended exclusively for purposes related to Grand Valley State University programs.

It is the desire of Development Services to support the ongoing activities of Grand Valley State University by providing assistance for programs, communication and events that bring together the expanding orbit of constituents of the university. In order to provide the best possible service to those with legitimate needs for such information, and at the same time maintain the confidentiality of the information entrusted to us by our constituents, the following policies have been developed. These policies were approved in 2007 by the Vice President for Development and now apply to every request for information and to direct access to the Millennium System.

PROCEDURES

Organizations that may request information

The following organizations and individuals may request information from the Millennium database:

Grand Valley State University affiliated organizations and constituent groups, in support of approved activities, including:

- Office of Alumni Relations
- Constituent groups approved by the Office of Alumni Relations
- University Development
- Other administrative units
- Academic units
- Athletic programs
- Office of Career Planning

In cases of dispute about whether an organization has a legitimate affiliation with the University, the final decision will rest with the Vice President for Development or the Director of Development Services as the Vice President's designee.

- Other colleges and universities seeking the location of alumni with degrees from both Grand Valley State University and the requesting institution
- Law enforcement agencies and student loan agencies
- Agencies that assist Development Services in locating Grand Valley State University's alumni

Any other requests will be forwarded to that person whose information is sought so that he/she can decide whether or not to contact the requestor. No information will be released for those records coded "No Contact" indicating the alumnus or alumna has requested no university contact. The same rule will apply to records coded Confidential.

All requests for information from members of the media must be referred to University Communications.

Information that may be released

The following information may be released from the Millennium database:

- "Public information," which is limited to:
  - Full name
  - Degree(s) and date of degree(s) awarded by Grand Valley State University
  - Major field of study
  - Class year

"Public information" will be provided only to those requestors identified above.

Federal law severely restricts the amount of information that may be released on current students. Therefore, no information on students will be released based on data maintained in Millennium. All requests for information on current students should be forwarded to the Registrar’s Office.

Information provided to volunteer alumni constituent groups would be limited to those alumni who are affiliated with the requesting group.

In addition to public information, request from the University Development, Alumni Relations, administrative, academic, or athletic units of Grand Valley State University and central administration may be provided the following information:

- Employment
- Student activities
- Alumni activities
- Family members
- Degrees obtained from other institutions
- Miscellaneous comments, awards and text
- Gift and pledge data
- Selected biographical attributes

Acceptable use of information

The following statements specify the acceptable internal uses of information from the alumni database:

1. Development Services will make available information from its database for the support of approved, university-related activities.

2. Approved activities include:
   a. Alumni Relations
   b. Fundraising
   c. Public Relations
   d. Governmental relations
   e. School/department communications to alumni/constituents
   f. University-sanctioned research
   g. Grand Forum
   h. Student recruitment

3. Information maintained in Millennium is not available for release for nonrelated commercial or political purposes.

4. If the information provided will result in the preparation of lists or directories that are to be published in book, magazine, newsletter, electronic media or other forms for general...
distribution among alumni groups, prior to publication each individual who might be included must be provided the opportunity to indicate in writing whether he/she wishes to be excluded.

5. Requestors of data from Millennium may contract to services of outside vendors (e.g. data processing consultants, direct mail firms, marketing and merchandise firms, etc.) to process and/or distribute information obtained from Millennium. In these cases:
   a. The vendor must agree to use the information only for the purpose intended by the university client. The sale or transfer of the information by the vendor is strictly prohibited.
   b. If the project in question results in the publication of directories or lists as identified above, the procedures outlined must be followed prior to publication.
   c. The vendor must ensure the prompt return of and university-owned computer tapes or electronic software provided in fulfillment of the contract.
   d. The university client or the vendor agrees to pay any costs associated with systems programming or special data processing that might be required beyond the normal capabilities of the Millennium computer system.
   e. In all cases involving the use of outside vendors or contractors, the absolute confidentiality of the information provided from the Millennium database is the responsibility of the requestor.

6. Formats available for distribution of information: Information may be obtained in the form of lists, labels, computer tapes, diskettes, and downloads by authorized university representatives in support of approved activities as noted above. It is the responsibility of the unit requesting information to maintain the absolute confidentiality of that information as specified in this policy statement.

7. Privacy Statement attachment: A privacy statement will be attached to any of the information provided to requestors of data from Millennium stating the following: The enclosed (attached) data is for the sole use of the requestor and may contain confidential and privileged information. Any unauthorized review, use, disclosure or distribution is prohibited. Responsibility for the absolute confidentiality of the information provided is the responsibility of the requestor.

8. Compliance with these policies: Failure to abide by any of the policies stated within this document may result in denial of access to information contained in the Millennium database. Request for reinstatement to access to this information must be approved by the Vice President for Development or a designee and must include written assurance of future compliance with these policies.

In cases of dispute about what constitutes an approved activity, the final decision will rest with the Vice President for Development or the Director of Development Services as the Vice President’s designee.

**Statement of database access policies**

Direct access to Millennium is restricted by the Millennium Security policies and procedures as well as the university’s Conditions of Use Information Technology Services Policy.

**ANTI-HARASSMENT POLICY**

SLT 9.1

**Date of Last Update:**
March 31, 2016

**Approved By:**

- Senior Leadership Team

**Responsible Office:**
Inclusion and Equity/Office of Affirmative Action

**POLICY STATEMENT**

**Article I. Purpose**

The goal of Grand Valley State University is to maintain a positive work environment for employees and a climate conducive to learning for students. The University, consistent with its policies and procedures, promotes institutional diversity by embracing such concepts as "affirmative action" and "equal opportunity" as a campus-wide strategy to provide equal access to opportunity. The University's commitment to non-discrimination is the foundation for such efforts. This policy outlines expectations for institutional and individual conduct that apply to all University faculty and staff members.

It is neither the purpose nor intent of this policy to infringe on academic freedom as defined by Grand Valley State University’s Board of Trustees’ Policies and the Faculty Handbook.

**PROCEDURES**

**Article II. Prohibited Conduct Harassment**

Harassment is unprofessional conduct that could reasonably be understood as (1) having the purpose or effect of creating an intimidating, hostile, or offensive environment, (2) having the purpose or effect of unreasonably interfering with an individual's work performance or access to educational activities and programs, (3) otherwise adversely affecting an individual's employment opportunities or access to educational activities and programs.

Harassment on the basis of age, color, disability, familial status, height, marital status, national origin, political affiliation, race, religion, veteran status, or weight is considered a violation of university policy. (For sex/gender, sexual orientation, gender identity and/or gender expression, see Sexual or Gender-Based Harassment Policy.)

**Article III. Sanctions**

Any person who violates the University's Anti-Harassment Policy may be subject to a range of sanctions (in accordance with University policies) which could include, but is not limited to, dismissal, according to due process, from University employment. Violators may also be subject to civil action or criminal prosecution because harassment and other discriminatory behavior may violate state or federal laws.

**Article IV. Retaliation**

1) Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.
a. Retaliation includes threatening, intimidating, harassing, coerencing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.

b. Retaliation may be present even where there is a finding of “no responsibility” on the allegations of prohibited conduct.

c. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.

2) Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

Article V. Procedural Guidelines for Discrimination and Harassment Complaints

A. Preliminary Issues

The following procedures are intended to enforce the University’s Equal Opportunity/Affirmative Action Policy, (EEO/AA Policy) and the University’s Non-Discrimination and Anti-Harassment Policy. The procedures are initiated by making a complaint that alleges discrimination, including unlawful harassment, has occurred. Complaints may be either formal or informal, and the procedure for each is described below.

B. Purpose of these Guidelines

The purpose of these procedural guidelines is to ensure that discrimination complaints, including harassment, are handled promptly and effectively in a manner that is procedurally fair to all parties. The Affirmative Action Office may deviate from these Guidelines as necessary to achieve the goals of prompt, thorough, and effective complaint resolution in a procedurally fair manner.

C. Time limit for Filing a Complaint

Typically, both formal and informal complaints should be reported as soon as possible and within sixty (60) days after discovery of the act which constitutes an instance of inappropriate behavior. The University retains the right to accept and address complaints reported anytime after the 60 day recommended time limit.

D. Confidentiality

Although discretion will be exercised, a guarantee of confidentiality or anonymity cannot be made because the fact-finding investigation will involve discussions with other parties. Information about the Complainant and the incidents giving rise to the complaint will be revealed only as investigatory and disciplinary processes require. Confidentiality will be observed to the extent permitted by law and which is consistent with protecting the welfare of the faculty, staff and students, and the interests of the University.

E. Where to Make a Complaint

In most cases, a University Faculty/Staff member with a complaint alleging harassment in violation of this Policy, whether formal or informal, should report this to the Affirmative Action Office. A University student with a complaint alleging harassment in violation of this Policy, whether it is formal or informal, should report it to the Affirmative Action Office or the Dean of Students Office. In the event a complaint is received in offices other than the offices mentioned above, faculty and staff are responsible for referring the individual to the appropriate office.

F. Emergency

Provisional, emergency actions departing from these procedures may be taken by a University Appointing Officer with the advice of the Affirmative Action Office and the University Counsel Office and must be followed as promptly as possible by steps providing Respondent(s) with the notice and opportunity to defend the allegations.

Article VI. Informal Complaints

Individuals who believe they have experienced or may have witnessed discrimination or harassment in violation of this Policy should consult with the Affirmative Action Office. Contacting the Affirmative Action Office about a concern does not automatically result in a formal complaint.

The party making the complaint (the ‘Complainant’) may request that the University official consulted speak informally with the alleged offender(s) (the “Respondent”) informing them of the salient features of the complaint. If this process does not resolve the matter or, if the Complainant or University official who is consulted prefers, he/she may pursue any of the avenues of resolution listed below.

Informal complaints are those complaints where the Complainant or a witness of an alleged offense asks the Affirmative Action Office to assist in the resolution of an alleged violation of the Non-Discrimination and Anti-Harassment Policy.

1. Advising. One function of the Affirmative Action Office is to hear and address complaints concerning discrimination, including harassment of any type, in violation of this policy. If the Complainant seeks a preliminary informational and advising session with the Affirmative Action Office, an opportunity for full discussion of the case shall be provided. The Affirmative Action Office shall aid the Complainant in exploring all possible options for resolving the complaint as effectively as possible. In doing so, the Affirmative Action Office will observe the confidentiality provisions of this Policy.

Some incidents, if considered serious, may require some type of follow-up actions to be taken by the Affirmative Action Office. If any follow-up actions are deemed necessary, the Affirmative Action Office will inform the person who identified the concern that action will be taken.

Students may seek advice and guidance from the Dean of Students or the Affirmative Action Office.

2. Alternative Dispute Resolution (ADR). The goal of ADR is to provide a forum where the Complainant and Respondent can, with the aid of the third party come to a mutually agreed upon resolution. ADR works only when both the complaining and responding parties voluntarily participate in the process. ADR facilitators may be assigned by the Affirmative Action Office. By definition, informal resolutions do not include imposing sanctions, but they may involve mutually acceptable consequences.

a. Mediation Process. A favored method of alternative dispute resolution (ADR) of complaints is mediation, which also is a voluntary conflict-resolution process. The Complainant and the Respondent voluntarily agree to work with a third party mediator, who is usually a member of the University community that is a trained mediator, to resolve the complaint. This mediation is intended to resolve the complaint to the satisfaction of both the Complainant and the Respondent. Informal complaints need not be put in writing or signed by the Complainant. Certain types of incidents, however, may not be appropriate for mediation.

i. A faculty or staff member or student initiates the mediation process by making an informal complaint within the Human Resources Office or the Affirmative Action Office. Students may initiate the process in the Dean of Students Office or may consult with the Affirmative Action Office. The complaint need not be in writing or be signed by the complainant.

ii. The office receiving the complaint will discuss the mediation process with the Complainant to determine if mediation might be an appropriate method to resolve the complaint.

iii. If the Complainant wishes to proceed with mediation, then a person designated by the Affirmative Action Office, the Human Resources Office, or the Dean of Students Office meets
with the alleged offender, informing him or her that an informal complaint has been filed and that the Complainant wishes to resolve it by mediation. The mediation process will be discussed with the alleged offender to determine if mediation might be an appropriate method to resolve the complaint. The Respondent is also informed that mediation is a voluntary conflict resolution process intended to make each party aware of the position or feelings of the other and to resolve the conflict.

iv. If both parties agree to mediation, a Mediator will be selected by the Affirmative Action Office, the Human Resources Office, or the Dean of Students Office. The mediator will be a trained member of the University community who is deemed the most suitable and knowledgeable based on the circumstances involved.

v. Mediation may also include meetings between the Mediator and the parties separately.

vi. If mediation has been successful, the Mediator will inform the Affirmative Action Office that the complaint has been resolved.

vii. If the Mediator determines that mediation cannot adequately resolve the issues, he or she will inform the Complainant and Respondent of this as well as the options available, such as filing a formal complaint. The Mediator will also notify the Affirmative Action Office that mediation was unsuccessful.

eviii. If the Complainant is dissatisfied with the results of mediation, he or she may file a formal complaint.

Article VII. Formal Complaints (Written)

Formal complaints are those complaints where the faculty/staff/student files a written complaint with the Affirmative Action Office.

A. Filing a Formal Complaint

Complainants must provide a written description of the alleged offense(s) and the name of the alleged offender. Complaint forms are available from the Affirmative Action Office and on the web at: [http://www.gvsu.edu/inclusion/](http://www.gvsu.edu/inclusion/) under “Forms.” The Complainant should complete the form, listing: the type of alleged offense; summary of alleged discrimination; who discriminated against the Complainant; what action has been taken so far; what action is suggested; and whether the Complainant has filed a complaint/grievance with any other agency. The Complainant must sign the complaint form and submit it to the Affirmative Action Office to begin a formal investigation.

B. Notifications

Certain notifications are required to ensure fairness and equity to all parties involved:

1. The appropriate Appointing Officer responsible for the areas where the Complainant and Respondent are employed will be notified. The appropriate Vice President and the Appointing Officer for the Respondent shall receive a copy of the Complaint.

2. Once he or she becomes the focus of a complaint, the Respondent must be notified of the complaint, the identity of the Complainant and the nature of the complaint. They will also be advised not to contact the Complainant directly or to retaliate against him/her. The appropriate Appointing Officer will meet with the Respondent and provide a copy of the Complaint and be advised of the obligation of non-retaliation.

3. If either the Complainant or Respondent is represented by a collective bargaining agreement, the appropriate official in the Human Resources Office will be contacted immediately to assist in the facilitating the fact-finding investigation process.

4. If the complaint is against a student, the Complainant may elect to pursue a formal charge through the Dean of Students Office. The Affirmative Action Office will notify the Dean of Students as appropriate.

5. If the complaint is against an appointing officer, only the appropriate Vice President is notified. If the complaint is against a Vice President or Provost, the President is notified. If the complaint is against the President, the Chair of the Board of Trustees is notified. If the complaint is against a member of the Board of Trustees, the Chair of the Board of Trustees will be notified. If the complaint is against the Chair of the Trustees, the Vice Chair of the Board of Trustees will be notified.

6. The Affirmative Action Office will maintain periodic contact with the Complainant and Respondent regarding the complaint status throughout the investigation.

C. Steps in the Investigation Process

A formal fact-finding investigation process will be carried out in as timely a manner as possible. However, all parties involved are encouraged to recognize that a thorough investigation requires time. While no specific deadlines are established, required notifications, respondent and, where applicable, union representation and investigation activities should begin as quickly as possible after receiving the written complaint.

1. The Affirmative Action Office will determine the most effective method of investigating the concerns raised by the Complainant. If circumstances deem that the investigation should be referred to the Student Grievance Process, then the Dean of Students will handle oversight responsibilities of the complaint. If not referred to the Dean of Students, then the Affirmative Action Office is responsible for the investigation.

2. Unless unusual circumstances prevent or suggest otherwise, a co-investigator will be identified to participate in the investigation process that will be led by the Assistant Vice President for Affirmative Action. The co-investigator will be a trained/experienced member of GVSU’s faculty or staff.

3. The investigation will involve conducting a thorough fact-finding investigation that includes meeting with the Complainant, Respondent, pertinent witnesses and reviewing and analyzing relevant documents as they relate to each allegation of the complaint. The investigators have the obligation to remain neutral during the investigation. Occasionally, a different or less formal response to the complaint may be warranted. Although the Affirmative Action Office may deviate from these guidelines, it will still respond to the complaint in a prompt, thorough and effective manner that is procedurally fair.

4. Communication with the Complainant and Respondent regarding the current status of the investigation and anticipated or adjusted timelines for concluding will occur on a regular and timely basis.

D. Investigation Report

1. A Final Investigation Report will contain: 1) a summary of the Complainant’s allegations and the Respondent’s relevant statement in response to the allegations; 2) analysis of findings that includes a description of the relevant information provided by witnesses or obtained from the documents; and 3) the conclusion about whether or not university policy has been violated.

2. The Final Investigation Report will be provided to the appropriate Appointing Officer and Vice President. The Assistant Vice President for Affirmative Action will verbally notify both the Complainant and the Respondent about whether or not university policy was violated. The co-investigator’s involvement in the matter concludes when the final investigation report is issued.

3. The Assistant Vice President for Affirmative Action will meet with a representative from the University Counsel Office and the Appointing Officer to discuss recommendations for
any follow-up actions.

E. Standard for Determining Violations of This Policy
Allegations of violations of this Policy will be evaluated by considering the totality of the particular circumstances, including the nature, frequency, intensity, location, context, and duration of the questioned behavior. Although repeated incidents generally create a stronger claim of harassment, a serious incident, even if isolated, can be sufficient to rise to the level of being considered a policy violation.

F. Corrective Action
If the report finds that the EEO/AA policy or this Non-Discrimination and Anti-Harassment Policy were violated, the University will determine appropriate corrective action, up to and including dismissal. The University may also take corrective action if no discrimination or harassment is found, but Respondent is found to have engaged in inappropriate workplace behavior. If corrective action is to be taken against a Respondent that is represented by a collective bargaining agreement, the appropriate official in the Human Resources Office will be contacted immediately to assist in the facilitating the corrective action.

Article VIII. Other Information
Copies of complaint procedures are available online at: www.gvsu.edu/inclusion. Information regarding other grievance procedures is located in the following documents:

1. Faculty members - Section 3.02 of the Faculty Handbook.
2. Executive, Administrative and Professional Staff - Board of Trustees’ Policies, BOT 4.4.8
3. Clerical, Office and Technical Staff - Section 6, Grievance, of the present contract.
4. Confidential Clerical - Section 9, Grievances, of the Personnel Policies in the Confidential Clerical handbook.
5. Maintenance, Grounds, and Services - Section 6, Grievances, of the present contract.
6. Department of Public Safety Staff - Section 6, Grievances, of the present contract.
8. Student Employees - Student Employee Handbook and Student Code, Article IV: Student Grievance Procedures

CONSENSUAL RELATIONSHIP POLICY

SLT 9.2

Date of Last Update:
November 19, 2012

Approved By:
- Senior Leadership Team

Responsible Office:
Inclusion and Equity/Office of Affirmative Action

POLICY STATEMENT

Possessing and mastering a range of thoughtful perspectives is necessary for open inquiry, a liberal education, and a healthy community. Recognizing this, the University seeks to include, engage, and support a diverse group of students, faculty, and staff. The institution values a multiplicity of opinions and backgrounds, and is dedicated to incorporating multiple voices and experiences into every aspect of its operations. We are committed to building institutional capacity and strengthening our liberal education through providing an inclusive environment for all of our University constituents.

Article I. Purpose

The University’s goals are to maintain a positive work environment and a climate conducive to learning for students. The unequal institutional power inherent in academic and work relationships may heighten the vulnerability of those in subordinate positions. Accordingly, individuals holding positions of authority at the University must be aware of and sensitive to the potential conflict of interest, ethical concerns, and issues of sexual harassment that may occur in consensual relationships. Specifically, the parties to a consensual relationship must be aware that such relationships can create in co-workers and students perceived and real conflicts of interest. These relationships also create an environment of fear of unfair treatment in terms of promotions, grades, professional and/or educational opportunities, etc. This Policy outlines expectations for institutional and individual conduct that apply to all University faculty and staff members and students.

Article II. Consensual Relationships

Consensual romantic and sexual relationships between faculty and their students or between supervisors and their subordinates are inappropriate. Individuals should be aware that these relationships may create a perception of favoritism while the relationships continue. These relationships may be less consensual than perceived by the individual whose position confers power. The relationship also may be viewed in different ways by each of the parties, particularly in retrospect. Furthermore, circumstances may change and the conduct that was previously welcome may become unwelcome. If a sexual harassment complaint is subsequently filed, the argument that the relationship was consensual will be evaluated in light of the power differential in determining whether the University’s Anti-Harassment Policy has been violated. Under these circumstances, it will be extremely difficult to use mutual consent as a defense.

Consensual Romantic or Sexual Relationships between Faculty/Staff and Students. A faculty or staff member who has educational, supervisory, evaluation, advising, coaching, or counseling responsibilities for students shall not assume or maintain those responsibilities for a student with whom the faculty or staff member has engaged in romantic or sexual relations, even if such relations were consensual. Whether such romantic or sexual relationships predate the assumption of educational, supervisory, evaluation, advising, coaching, or counseling responsibility for the student, or arise out of the educational relationship, the faculty or staff member shall immediately disclose the romantic or sexual relationship to his or her Unit Head or supervisor, who shall promptly arrange alternate oversight of the student.

Consensual Romantic or Sexual Relationships between Supervisors and Subordinates. If a romantic or sexual relationship exists or develops between a supervisor, manager, or administrator and an employee for whom he or she has professional responsibility, the individuals involved in the relationship must promptly consult the next highest level of supervision (e.g., a supervisor, department head, Vice President, Dean) to determine whether arrangements can be made to eliminate all conflicts of interest. If such arrangements can be made that do not disadvantage the subordinate and are acceptable to the supervisor, manager, or administrator, they must be documented, and ensure that the supervisor does not hire, supervise, advise, evaluate, or otherwise directly influence the subordinate’s employment. Relationships between supervisors, managers, or administrators and their subordinates are prohibited when the working relationship is such that it is not possible to eliminate the conflicts of interest. Students employed by the University who supervise other student employees are covered by this section.
Consensual romantic or sexual relationships between students. Complaints concerning relationships between students are governed by the GVSU Student Code.

Article III. Disciplinary Actions
Disciplinary action will be taken against faculty or staff members who violate this Policy, either by entering into or engaging in a sexual relationship with a student or subordinate for whom he or she has educational, supervisory, evaluation, advisory, coaching, or counseling responsibilities or by failing to report such relationship or failing to cooperate in making alternative arrangements.

Article IV. Confidentiality
Confidentiality of the disclosure of consensual romantic or sexual relationships will be observed to the extent permitted by law and that is consistent with protecting the welfare of faculty, staff, and students and the interests of the University.

SEXUAL OR GENDER-BASED HARASSMENT (INCLUDING RETALIATION) POLICY

SLT 9.3

Date of Last Update:
May 15, 2019

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity

POLICY STATEMENT
Sexual or gender-based harassment is prohibited conduct at the University. No employee, student or other person at the University shall engage in sexual or gender-based harassment. The University will take prompt and effective steps to end sexual or gender-based harassment; eliminate any hostile environment caused by sexual or gender-based harassment; prevent its recurrence; and remedy the discriminatory effects on the victim and others as appropriate.

This policy and related procedures for addressing complaints of sexual and gender-based harassment, apply to all University programs and activities, including those conducted off-campus. Where relevant, if the off-campus sexual or gender-based harassment did not occur in the context of a University program or activity, the University will consider the effects of such off-campus sexual or gender-based harassment when evaluating whether it creates a hostile environment on campus or in an off-campus education program or activity.

PROCEDURES

Reporting, Procedures & Notifications

1. Reports: Reports of sexual or gender-based harassment should be made immediately to the Title IX Office and can also be filed online. Under Title IX, most University employees are considered “Responsible Employees” meaning they are required to report to the Title IX Office incidents of Sexual Misconduct that they observe or about which they learn. Professional counselors at the University who provide mental-health counseling are not considered “Responsible Employees” and, therefore, are not required to report any incident of Sexual Misconduct. Other resources are also available: see the following link. Any inquiry concerning the application of Title IX may be referred to the Title IX Coordinator or to the U.S. Department of Education Office of Civil Rights.

2. Procedures: Procedures for responding to reports of sexual or gender-based harassment are maintained by the Division of Inclusion and Equity. Procedures will be reviewed on an annual basis for proposed revision to be implemented the following academic year. Revisions to procedures are approved by the Vice President of Inclusion and Equity, in consultation with the Senior Leadership Team. The University community (students and employees) will also be broadly consulted and periodically surveyed to obtain input on revisions.

3. Notifications: The University community will be notified, annually, of this policy and any revisions, inquiry contact information, and available resources and provided regular training regarding this policy as well as prevention and awareness education related to the prevention of and response to sexual and gender-based harassment.

DEFINITIONS:

Definitions

1. Sexual Harassment is unwelcome sexual, sex-based, request for sexual favors whether verbal, written, graphic, physical or otherwise, or other unwanted conduct of a sexual nature. When conditions are present as outlined in a. and/or b. below.

2. Gender-Based Harassment includes harassment based on gender, sexual orientation, transgender, gender non-conforming, transitioning, gender identity, or gender expression, which may include acts of aggression, intimidation, or hostility, whether verbal or non-verbal, graphic, physical, or otherwise, even if the acts do not involve conduct of a sexual nature. When conditions are present as outlined in a. and/or b. below.

a. Quid pro quo harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature made by a person having power or authority over another constitutes sexual harassment when submission to sexual conduct is made either explicitly or implicitly a term or condition of rating or evaluating an individual’s educational or employment progress, development or performance. This includes when submission to such conduct would be a condition for access to receiving the benefits of any educational or employment program.

b. Creates a hostile environment that is:

i. Sufficiently severe, or persistent or pervasive, and objectively offensive that it unreasonably interferes with, limits, or deprives an individual from participating in or benefiting from the University’s education or employment programs and/or activities.

ii. A hostile environment can be created by persistent or pervasive conduct or by a single or isolated incident, if sufficiently severe. The more severe the conduct, the less need there is to show a repetitive series of incidents to prove a hostile environment, particularly if the conduct is physical; a single incident of sexual or gender-based harassment, for example, may be sufficiently severe to constitute a hostile environment. In contrast, the perceived offensiveness of a single verbal or written expression standing alone, is typically not sufficient to constitute a hostile environment.

iii. In evaluating whether a hostile environment exists, the University will consider the totality of known circumstances, including, but not limited to:

1. The frequency, nature and severity of the conduct;
I. Sexual Misconduct is any conduct that is considered sexual assault, dating violence, domestic violence, stalking and sexual exploitation as those terms are defined by this policy. Sexual Misconduct is prohibited conduct at the University. No employee, student or other person at the University shall engage in Sexual Misconduct. The University will take prompt and effective steps to end Sexual Misconduct, eliminate any hostile environment caused by Sexual Misconduct, prevent its recurrence, and remedy the discriminatory effects on the victim and others as appropriate.

This policy and related procedures for addressing complaints of Sexual Misconduct apply to all University programs and activities, including those conducted off-campus. Where relevant, if the off-campus Sexual Misconduct did not occur in the context of a University program or activity, the University will consider the effects of such off campus Sexual Misconduct when evaluating whether it otherwise creates a hostile environment on campus or in an off-campus education program or activity.

II. Reporting, Procedures & Notifications

1. Reporting: Reports of Sexual Misconduct should be made immediately to the Title IX Office and can also be filed online. Under Title IX, most University employees are considered “Responsible Employees” meaning they are required to report to the Title IX Office incidents of Sexual Misconduct that they observe or about which they learn. Professional counselors at the University who provide mental-health counseling are not considered “Responsible Employees” and, therefore, are not required to report any incident of Sexual Misconduct. Other resources are also available: see the following link. Any inquiry concerning the application of Title IX may be referred to the Title IX Coordinator or to the U.S. Department of Education Office of Civil Rights.

2. Procedures: Procedures for responding to reports of Sexual Misconduct are maintained by the Division of Inclusion and Equity. Procedures will be reviewed on an annual basis for proposed revision to be normally implemented the following academic year. Revisions to procedures are approved by the Vice President of Inclusion and Equity, in consultation with the Senior Leadership Team. The University community (students and employees) will also be broadly consulted and periodically surveyed to obtain input on revisions.

3. Notification: The University community will be notified, annually, of this policy and any revisions, inquiry contact information, and available resources and provided regular training regarding this policy as well as education related to the prevention and awareness of and response to Sexual Misconduct.

DEFINITIONS:

III. Definitions

1. Sexual Assault is an offense that meets the definition of rape, fondling, incest, or statutory rape, as defined in the Federal Bureau of Investigation’s (FBI) Uniform Crime Reporting (UCR) program, as having or attempting to have sexual intercourse or sexual contact with another individual by force or threat of force; without affirmative consent; or where the person is incapacitated.
2. Sexual Assault consists of (a.) Sexual Contact and/or (b.) Sexual Intercourse that occurs without (c.) Affirmative Consent.

   a. **Sexual Contact** is any intentional sexual touching, however slight, with any object or body part (as described below), performed by a person upon another person.

      i. Sexual Contact includes: (a) intentional touching of the breasts, buttocks, groin or genitals, whether clothed or unclothed, or intentionally touching another with any of these body parts; and (b) making another touch you or themselves with or on any of these body parts; (c) causing another to touch one’s intimate parts, disrobing or exposure of another without permission.

   b. **Rape** is sexual penetration, however slight, of another person without affirmative consent. Penetration can be of the mouth, vagina, or anus, and can be with a penis, tongue, finger, or foreign object.

   c. **Sexual Intercourse** is vaginal or anal penetration, however slight, with any object or body part (as described below) performed by a person upon another person; and/or, oral penetration involving mouth to genital contact.

      i. Sexual Intercourse includes: (a) vaginal penetration by a penis, object, tongue, or finger; (b) anal penetration by a penis, object, tongue, or finger; and (c) any contact, no matter how slight, between the mouth of one person and the genitalia of another person.

   d. **Affirmative Consent** is: informed (knowing); voluntary (freely given); and, active (not passive), meaning that, through the demonstration of clear words or actions, a person has indicated permission to engage in mutually agreed-upon sexual activity and the consenting person is not incapacitated as defined by this policy.

      i. Affirmative Consent cannot be obtained by Force. Force includes: (a) the use of physical violence, (b) threats, (c) intimidation, and/or (d) coercion.

1. **Physical violence** means that a person is exerting control over another person through the use of physical force. Examples of physical violence include but are not limited to hitting, punching, slapping, kicking, restraining, strangling, and brandishing or using any weapon.

2. **Threats** are words or actions that would compel a reasonable person to engage in unwanted sexual activity. Examples include threats to harm a person physically, to reveal private information to harm a person’s reputation, or to cause a person academic or economic harm.

3. **Intimidation** is an implied threat that menaces or causes reasonable fear in another person. A person’s size, alone, does not constitute intimidation; however, a person’s size may be used in a way that constitutes intimidation (e.g., blocking access to an exit).

4. **Coercion** is the use of an unreasonable amount of pressure to gain sexual access. Coercion is more than an effort to persuade, entice, or attract another person to have sex. When a person makes clear a decision not to participate in a particular form of Sexual Contact or Sexual Intercourse, a decision to stop, or a decision not to go beyond a certain sexual interaction, continued pressure can be coercive. In evaluating whether coercion was used, the University will consider: (i) the frequency of the application of the pressure, (ii) the intensity of the pressure, (iii) the degree of isolation of the person being pressured, and (iv) the duration of the pressure.

5. **Affirmative Consent** cannot be gained by taking advantage of the incapacitation of another, where the person initiating sexual activity knew or reasonably should have known that the other was incapacitated.

1. **Incapacitation** means that a person lacks the ability to make informed, rational judgments about whether or not to engage in sexual activity.

2. **Incapacitation** is such that it renders the person incapable of self-care and protection. Incapacitation could be the result of alcohol or other drugs or due to a temporary or permanent physical or mental health condition.

   iii. Affirmative Consent to one form of sexual activity does not, by itself, constitute Affirmative Consent to another form of sexual activity.

IV. Intimate Partner Violence

Intimate Partner Violence is any act of Domestic Violence or Dating Violence as defined by this Policy.

1. **Domestic Violence** is any act of violence committed by any of the following individuals: (a) a current or former spouse or intimate partner of the victim; (b) person with whom the victim shares a child in common; (c) person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner, and/or, (d) a resident or former resident of the victim’s household in the event such household has a current or prior intimate relationship.

   a. An incident of domestic violence can consist of a single act of violence or a pattern of violent acts that includes, but is not limited to, sexual or physical abuse, or the threat to engage in such abuse.

2. **Dating Violence** is any act of violence committed by a person who is, or has been, in a social relationship of a romantic or intimate nature with the victim that does not fall within the definition of “domestic violence.”

   a. Dating violence includes, but is not limited to, sexual or physical abuse or assault or the threat of such abuse or assault.

   b. For the purposes of determining Intimate Partner Violence, whether the relationship is of a romantic or intimate nature is determined by a variety of factors, including: (a) the length of the relationship, (b) the type of relationship, and (c) the frequency of interaction between the persons involved in the relationship.

   c. A relationship of a romantic or intimate nature means a relationship that is characterized by the expectation of affection or sexual involvement between the parties.

   d. An incident of dating violence can consist of a single act of violence or a pattern of violent acts that includes, but is not limited to, sexual or physical abuse, or the threat to engage in such abuse.

V. Stalking

1. **Stalking** occurs when a person engages in a course of conduct directed at a specific person under circumstances that would cause a reasonable person to fear bodily injury or to experience substantial emotional distress.

   a. Course of conduct means two or more acts, including but not limited to acts in which a person directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about another person, or interferes with another person’s property.

   b. Reasonable person means a reasonable person under similar circumstances.

   c. Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

2. Stalking includes “cyber-stalking,” a particular form of stalking in which a person uses electronic media, such as the internet, social networks, blogs, cell phones, texts, or other similar devices or forms of contact. This policy prohibits all stalking, not just stalking that occurs within the context of a relationship.
VI. Sexual Exploitation

Sexual Exploitation is purposely or knowingly doing any of the following:

1. Causing the incapacitation of another person (through alcohol, drugs, or any other means) for the purpose of compromising that person’s ability to give Affirmative Consent (see Section III.2.d.) to sexual activity;
2. Allowing third parties to observe private sexual activity from a (a) hidden location (e.g., closet), or (b) through electronic means (e.g., Skype or live streaming of images);
3. Engaging in voyeurism (e.g., watching private sexual activity without the consent of the participants or viewing another person’s intimate parts (including genitalia, groin, breasts or buttocks) in a place where that person would have a reasonable expectation of privacy);
4. Recording or photographing private sexual activity and/or a person’s intimate parts (including genitalia, groin, breasts or buttocks) without consent;
5. Disseminating or posting images of private sexual activity and/or a person’s intimate parts (including genitalia, groin, breasts or buttocks) without consent;
6. Knowingly exposing another person to a sexually transmitted infection or virus without the other’s knowledge;
7. Arranging for others to have non-consensual sexual contact, as defined by the Sexual Misconduct policy, with a non-consenting person.

VII. Retaliation

1. Definition: Retaliation means any adverse action taken against a person for making a good faith report of prohibited conduct (see, generally, policies on Sexual Misconduct, Sexual or Gender-based Harassment, and Anti-Harassment) or participating in any proceeding under University policy or policies.
   a. Retaliation includes threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.
   b. Retaliation does not include good faith actions lawfully pursued in response to a report of prohibited conduct.
   c. Retaliation does not include threatening, intimidating, harassing, coercing or any other conduct that would discourage a reasonable person from engaging in activity protected under University policy or policies.

   2. Reporting: Acts of alleged retaliation should be reported immediately to the Vice President for Inclusion and Equity, or designees, and will be promptly investigated. The University will take appropriate steps to protect individuals who fear that they may be subjected to retaliation.

   More information about Procedures related to this policy, and other useful information can be accessed at the following link.

DISABILITY ACCOMMODATION POLICY FOR FACULTY AND STAFF

SLT 9.5

Date of Last Update:
September 16, 2013

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity

POLICY STATEMENT

Grand Valley State University is committed to the fundamental academic principles of equity and accessibility by providing all faculty, staff and students with access to the University’s programs, services, events and activities. The aim of this policy is to support an inclusive academic environment by incorporating design concepts that reduce or remove barriers. University faculty or staff members who are persons with a disability are not required to identify themselves as persons with a disability or to request an accommodation. However, the University cannot accommodate an individual who does not inform the University about his/her disability and his/her need for an accommodation. A faculty or staff member seeking an accommodation must request it by submitting their request to the Disability Support Resources Office following its procedures.

PROCEDURES

The Disability Support Resources Accommodation Process

To request an accommodation, a University faculty or staff member must:

A. Self-identify as a person with a disability by application to the Disability Support Resources office (DSR). It should be noted that The University conducts a survey of faculty and staff for statistical purposes and this does not constitute a method of self identification consistent with this policy. If a faculty or staff member requests an accommodation, the supervisor/unit administrator should refer the faculty or staff member to the DSR or its web site at http://www.gvsu.edu/dsr

B. Provide documentation of the disability; and

C. Indicate in the application to the Disability Support Resources office, his/her need for accommodation and provide supporting medical documentation from an appropriate professional, if requested by the Disability Support Resources office. The medical professional must have first-hand knowledge of the condition and a familiarity with the physical, emotional and cognitive demands of the disability.

Once an application has been submitted to the DSR, a DSR advisor will review the application and may contact the faculty or staff member who submitted the application. The advisor will contact the supervisor/unit administrator and discuss whether an accommodation is warranted, explore possible accommodations, and assess the effectiveness each would have in enabling the faculty or staff member to perform his/her job including the following:

A. The essential job functions of the position. The essential functions are the fundamental job duties of the employment position at issue. To be qualified for a position, an individual must be able to perform the essential functions of the job, with or without a reasonable accommodation.

B. The faculty or staff member’s ability to perform essential job functions with or without a reasonable accommodation; and,

C. Possible types of reasonable accommodations, if any are needed.

Reasonable accommodations vary depending on the circumstances of each case. In evaluating alternatives for accommodation, the preferences of the individual are considered, but the ultimate decision regarding what type of accommodation, if any, will be provided is made by the University. Nothing in this document shall be construed to waive the University's
right to contest whether a faculty or staff member is disabled or is entitled to an accommodation. Medical documentation, as well as other related materials, will be maintained at DSR. Such documentation is kept confidential, except as necessary to administer the accommodation process or otherwise permitted by law. Such documentation may be shared only with those individuals involved in the accommodation process on an as needed basis.

During the accommodation request process, DSR may:

A. Request additional documentation;
B. Consult with Human Resource Office;
C. Evaluate whether any accommodation is needed and, if it is, whether an accommodation is reasonable and should be made (this evaluation may include preparing cost estimates);
D. Assess various accommodations;
E. Identify alternative accommodations or solutions;
F. Provide information from resources about the capabilities of persons with similar disabilities and the tools/techniques they use;
G. Determine a reasonable accommodation, if appropriate;
H. Provide a written determination to the department/unit and faculty or staff member;
I. Explain the department/unit’s responsibility to fund an accepted accommodation or seek alternative funding, if needed;

DSR makes a determination regarding implementation of accommodations. DSR will consider each request for reasonable accommodation and determine: (1) whether the accommodation is needed, (2) if needed, whether the accommodation would be effective, and (3) if effective, whether providing the reasonable accommodation would impose an undue hardship.

Appeals
If a faculty or staff member or supervisor/unit administrator disagrees with the DSR determination, the decision may be appealed to the Vice President of Inclusion and Equity, in writing to:

Vice President of Inclusion and Equity
4035 James H. Zumberge Hall
Allendale, MI 49401
Office number: (616) 331-3296

Retaliation
Retaliation against a faculty or staff member who requests an accommodation is prohibited. Individuals who feel that they have experienced retaliation may contact the Division of Inclusion and Equity

RELIGIOUS INCLUSION POLICY
SLT 9.6

Date of Last Update:
November 19, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Inclusion and Equity/Office of Affirmative Action

POLICY STATEMENT
Possessing and mastering a range of thoughtful perspectives is necessary for open inquiry, a liberal education, and a healthy community. Recognizing this, the University seeks to include, engage, and support a diverse group of students, faculty, and staff. The institution values a multiplicity of opinions and backgrounds, and is dedicated to incorporating multiple voices and experiences into every aspect of its operations. We are committed to building institutional capacity and strengthening our liberal education through providing an inclusive environment for all of our University constituents.

Purpose
Many University students, staff, and faculty observe religious traditions from a variety of religions. This Religious Inclusion Policy (“Policy”) acknowledges the right of students, staff, and faculty to engage in religious observances. The University is committed to accommodate the exercise of that right.

The University acknowledges that conflicts in scheduling mandatory academic requirements and employment obligations with religious observances are inevitable. Although the University does not observe religious holidays, it recognizes that there are a number of religious holidays that affect significant numbers of our students, staff, and faculty. This Policy is intended to provide clarity to students, staff, and faculty who seek accommodation to practice their faith.

PROCEDURES
Accommodations

Grand Valley State University will make a reasonable effort to allow its students, staff, or faculty to be away from work or a class to observe their religious beliefs, except where accommodating the request would result in undue hardship on the University in its mission, operation or in meeting its academic standards. The University provides quiet areas for student, staff, and faculty reflection, meditation, and prayer. A list of these quiet areas may be found on the Inclusion and Equity webpage.

Faculty should be sensitive to the observance of religious holidays so that students who miss classes to practice their faith are not disadvantaged. A list of religious holidays is found on the Inclusion and Equity website. Please note that this list is meant to be inclusive of most major religious traditions (although certainly not comprehensive), and that religious holidays have no official status at the University.

Faculty should make every effort to avoid scheduling examinations or assigning work that is due on religious holidays. Some religious holidays begin at sundown on the evening before the published date of the holiday. Consequently, faculty should avoid scheduling late afternoon exams on these days.

Faculty shall not penalize any student who has properly notified the faculty member by complying with the Request Accommodation Procedure for his/her absence in classes, examination, or assignments. Faculty should accept a student’s claim of a scheduling conflict on religious grounds at face value. If class attendance is required by the faculty member, classes missed to observe a religious holiday may not be counted as an absence.

Faculty must provide a reasonable opportunity for such a student to make up missed assignments and examinations within a reasonable time period before or after the student’s absence, provided the student has properly notified the faculty member by submitting a Request Accommodation Form. Faculty must give the student the opportunity to do appropriate make-up work that is no more difficult or time-consuming than the original exam or assignment.

Nothing in this Policy, however, exempts a student from meeting course requirements or completing assignments. The faculty member may respond appropriately if the student fails to satisfactorily complete the make-up assignment or examination.

Further, when scheduling university events and activities, such as Family Weekend, Commencement, Convocation, and University sponsored conferences, planners should consult the list of religious holidays on the Inclusion and Equity website before selecting the date and time to ensure inclusiveness.

Religious Accommodation Procedure

All requests for accommodation for religious observance should be made in the following manner:

Students: Faculty should inform students of all examination dates and assignment deadlines at the start of each semester in the class syllabus. If a conflict with a religious observance exists, students must request a religious accommodation from their faculty within the first two weeks of each semester or as soon as reasonably possible after the instructor announces a particular mandatory class, examination, or assignment so that alternative arrangements can be made for any class, examinations, or assignments missed. If an accommodation is needed within the first two weeks of the semester, the student must provide the faculty member with reasonable advance notice of the need for accommodation.

Requests for accommodation must be made through a Religious Accommodation Form, which may be found at the Dean of Students Office, the Office of Affirmative Action or under “Forms” at www.gvsu.edu/inclusion. It is the student’s responsibility to provide faculty with reasonable notice of the need for accommodation and the timing of the notice may be taken into account in determining whether granting the request would create an undue hardship.

The faculty member and the student should discuss and agree upon what would constitute a reasonable accommodation in each given case. If the student and faculty member agree upon an accommodation, the accommodation must be carried out and disclosed on the Religious Accommodation Form. The completed Religious Accommodation Form shall be filed by the faculty member in the Dean of Students Office.

If the student and faculty member cannot agree on an accommodation, either party may bring the matter to the Unit Head to determine the accommodation. Either party may appeal the Unit Head’s decision to the Dean, who will make a final binding decision.

Where a student has obligations to a placement site (e.g. internships), that student must also work out arrangements with the placement site to make up for missed responsibilities or duties.

Staff: The use of vacation and personal leave is governed by the staff member’s respective Board of Trustees’ Policies, Staff Handbook, or Collective Bargaining Agreement. Vacation days requested for the express purpose of religious observance will not be unreasonably denied by the staff member’s supervisor if the staff member has accrued vacation leave or is eligible for personal leave and the granting of leave or vacation time will not result in undue hardship for GVSU.

Faculty: The use of vacation and personal leave is governed by the Faculty Handbook. Requests for leave for religious accommodation, however, shall be considered under this Policy if the faculty member has made arrangements for any missed classes and the granting of the leave will not result in undue hardship for GVSU. Faculty that miss class time due to a religious observance must make alternate arrangements for that time with his or her Unit Head. If the Unit Head denies the request, the faculty member may appeal to the Dean, who will have final decision authority over the request.

Nothing in this Policy exempts a GVSU faculty or staff member from fulfilling their job responsibilities.

Confidentiality

Although discretion will be exercised, a guarantee of confidentiality or anonymity cannot be made because the determination of a reasonable religious accommodation will involve discussions with other parties. Information about the request for religious accommodation will be revealed only as the deliberation process requires. Discretion will be observed to the extent permitted by law and that is consistent with protecting the welfare of the students, staff, and faculty and the interests of the University.

Retaliation

Any attempt to retaliate against an individual who files a religious accommodation request or otherwise utilizes this Policy is prohibited.

WEB ACCESSIBILITY POLICY

SLT 9.7

Date of Last Update:
November 12, 2018

Approved By:

Senior Leadership Team

Responsible Office:
Equity, Planning, and Compliance Unit

POLICY STATEMENT
Grand Valley State University is committed to the fundamental academic principles of equity and accessibility by providing all students and staff with equitable access to the University's programs, services, events and staff development activities. The aim of this policy is to support an inclusive academic environment by incorporating design concepts that reduce or remove barriers to our websites or to provide equally effective alternative access.

This policy establishes minimum standards for the accessibility of web-based information and services considered necessary to meet the University's goals and ensure compliance with applicable law. The University has assigned web accessibility responsibilities to its Americans with Disabilities Act Coordinator and Web Manager, or their designees.

This policy applies to all official web pages and associated web-based services developed by or for a college, school, department, program, or unit of the University.

The University will ensure that new online content and functionality developed, procured, or used will be fully accessible to individuals with disabilities. This action will include any staff training that may be necessary to ensure full implementation.

All new web pages published by any University college, school, department, program, or unit on or after the effective date of this policy must conform to WCAG 2.0 Level AA Technologies Accessibility Standards and this policy.

For existing online content, the University has developed a strategy for identifying inaccessible content and functionality for individuals with disabilities; developed a notice to person with disabilities regarding how to request that the University provide access to online information or functionality; prominently posted this notice on its home page and throughout its website; and developed a process to ensure that, upon request, inaccessible content and functionality will be made accessible in an expedient manner.

Each web site must contain a link to report accessibility issues, or to request an accessible version, should users have trouble accessing content within the site. This would usually be the site administrator or content author.

PROCEDURES

Training

Accessibility training will be provided and required of all faculty, staff and other authorized representatives prior to being given access to manage any online content through the Content Management System (CMS) or through remote access to a web server (FTP, SFTP, SSH, etc.).

This training will help content administrators produce accessible content, and assess and correct content that may be inaccessible. All content administrators will be required to attend Accessibility Training on an annual basis as long as they manage online content.

Enforcement

If necessary, at the discretion of the Web Accessibility Coordinators or their designees, some or all non-compliant portions of the web pages and resources may be taken offline, or brought into compliance by designated staff or contractors.

Purchasing of Outside Content

All web-based content and systems, whether developed internally or obtained from third-parties that the University chooses to make available, is expected to conform to accessibility standards set forth in this policy. Accessibility of these technologies should be verified by University staff with demonstrated ability in accessibility evaluation. This verification process should be accomplished through hands-on evaluation of the product, prior to purchase.

When evaluating third-party products, it is advisable to choose the most accessible product in the space. However, not always will there be accessible choices, or the most accessible choice may not align with other dominant selection criteria. In cases where a product with limited accessibility has been purchased, interim, equivalent accommodations documented in an approved ADA exception should be in place until the service can be made accessible.

Contact Information

Any concerns with the accessibility of online content should be directed to the Americans with Disabilities Act Coordinator, 4035 James H. Zumberge Hall, 616-331-3296 and/or Web Manager, 2090 James H. Zumberge Hall, 616-331-2525 or their designees who serve as the University’s Web Accessibility Coordinators. You may also utilize the Section 504 and Title II grievance procedures found at http://www.gvsu.edu/accessibility.

MINORS ON CAMPUS POLICY

SLT 9.8

Date of Last Update:
August 20, 2018

Approved By:
Senior Leadership Team

Responsible Office:
Human Resources

POLICY

“Grand Valley is committed to strengthening our living, learning, and working environment by recognizing and removing the barriers to full participation and providing a safe, inclusive, vibrant community for all.” -- Inclusiveness core value section of the University’s Strategic Plan

Grand Valley State University is committed to being a safe and healthy environment for all. This includes students, faculty, staff, and campus visitors, especially those who are minors. As a public university open to everyone, the University welcomes children and teenagers on our campuses for a variety of programs and activities planned by the University or by outside organizations. In all situations, adults are expected to be positive role models for minors, acting in a respectful and responsible manner consistent with the mission and values of the University. To promote this vision, the University publishes and enforces policies, procedures, and guidelines that have the goal of promoting health, safety, and security for minors on our campuses.

“Minors” are persons under the age of eighteen (18), and the term “Minor,” “Minors,” “Child,” and “Children” are used interchangeably in this policy. Further definitions may be found below. This policy addresses the following situations:

- A Minor will be physically present and participating in a University-sponsored program or activity, either taking place on University property or under the authority and/or direction of the University at other locations (this includes academic and sports camps);
- A Minor child will be physically present and participating in a program or activity at the University that is sponsored by a third party (this includes programs for K-12 students sponsored by a school system);
sponsored by a school system);

- A Minor is enrolled in one or more courses on campus, either as a matriculated student, a guest student from another institution of higher education, or a dual-enrolled student; or,
- Other events where Minors are physically present at the University, such as situations when parents/legal guardians are expected to accompany and provide supervision to Minors in their care (this includes Admissions activities and events and performances open to the public).

**POLICY STATEMENT**

I. **Requirements of Programs that Involve Minors**

Programs are typically workshops, sports camps, academic camps, conferences, and similar activities. Some activities that are exempt from Section I can be found in Sections III-V.

A Sponsoring Unit offering or approving a Program involving Minors or providing University housing for Minors participating in a Program, whether utilizing University housing or not, shall abide by the following:

1. Waiver or release forms: participation, medical treatment, use of photographs and other media: All Minors participating in a University Program must provide a waiver or release form for participation in the program, medical treatment authorization, and use of photographs and other media by the University. This can be one form or several, and all forms must be signed by a Parent, Legal Guardian, or Foster Parent prior to their participation in a Program.

2. Behavior of Minors on Campus: Minors are to be held to the same standards of behavior expected of enrolled students, as described in University policies.

3. Information maintained by Programs. All Programs shall maintain an up-to-date list of all Program times and dates, locations, attendance information (names, ages and emergency contacts for Program Participants); list of all Authorized Adults, documentation of their training (item #5 below) and background check (item #6 below) for the Program; and a Program contact, so that in the event of an emergency, appropriate measures may be taken. All Programs must establish a procedure for the notification of a Program Participant's Parent/Legal Guardian/Foster Parent in the case of an emergency, which might include medical or behavioral issues involving the Minor, or changes in the Program due to unforeseen and significant disruptions. Parents/Legal Guardians/Foster Parents must also be given contact information in a manner in which the Program Participant can be contacted while the Program is in session. All information, including release forms, shall be retained by the Sponsoring Unit for five years after the Program ends.

4. Supervision of Minors. All Programs must provide adequate supervision of Minors while they are on Campus. One-on-One Contact with Minors is discouraged, unless in public spaces. In general, it is required that two or more Authorized Adult will be involved in activities where Minors are present. Parents/Legal Guardians/Foster Parents may sign a waiver giving consent for their Child to be alone with an Authorized Adult. (For example, if music lessons are being provided by an adult instructor.) Exceptions in rare circumstances may also be granted (see below).

5. Training of Authorized Adults. Each Authorized Adult, who is not the Minor’s Parent, Legal Guardian, Foster Parent or an adult designated by the Parent or Legal Guardian, who will be participating with Minors in a Program, shall complete training in the conduct and reporting requirements of this policy. This training is given to maximize the protection of Minors from abuse of any kind. The appropriate vice president, dean, unit head, or area director may enhance and/or supplement the required training Program to meet specific needs of the particular Program involved. Documentation that the Authorized Adults have been trained should be maintained by a designated and identified member of the Program's Sponsoring Unit for five years.

6. Background checks of Authorized Adults. All Authorized Adults in the Program must complete and submit the Authorization for Release of Information for Background Check form to Human Resources. Background checks must be completed every five years. (See also PC 10.7 Volunteers Policy, for Authorized Adults who are not University employees.)

7. Procedures for release of Minors. All Programs must establish a procedure for the pick-up and drop-off of Program Participants, specifying times and locations. The Authorized Adult(s) overseeing the pick-up and drop-off of Program Participants shall remain at the specified location until all Minors have been released. If a minor is not picked up, the Authorized Adult(s) will contact the parent or guardian, the program director and finally, Grand Valley Department of Public Safety if needed.

In rare circumstances, strict adherence to this policy’s requirements may not always be feasible or be the best practice for managing risk. If a Program can justify an exception in consultation with and with approval from Human Resources, or, when appropriate, obtain written consent by the Parent/Legal Guardian/Foster Parent for the parameters applicable to the Program, certain requirements under this policy may be waived. Such waivers will be considered on a case-by-case basis.

II. **Conduct Requirements of Authorized Adults**

All Authorized Adults, participating in Programs and activities covered by this policy, should be positive role models and act in a caring, honest, respectful, and responsible manner. They are required to comply with all applicable laws and University policy. In addition, at all times, they shall:

1. In general, avoid One-on-One Contact with Minors, unless in public spaces. Two or more Authorized Adults must be involved in Programs where Minors are present unless a waiver has been signed or an exception has been granted.

2. Have separate accommodations from the Minors. An Authorized Adult should not have One-on-One Contact by entering a Minor’s room, bathroom facility, or similar area without another Authorized Adult in attendance.

3. Not take photographs or digital images of Minors other than specified in the waiver for photography (see Section I.1).

4. Not engage in private communication not pertaining to Program matters with a Minor by email, telephone, text message, social media, or any other method at any time, except when there is a clear educational purpose and the communication is consistent with the mission of the University.

5. Not meet with Minors outside of established times for Program activities. Any exceptions require written Parent/Legal Guardian/Foster Parent authorization and must include more than one Authorized Adult from the Program.

6. In the presence of a Minor or during any University Program, not engage in any sexual activity or romantic conversations, or sexually explicit comments.

7. Not possess, have within reach and/or share sexually-oriented printed or computerized or portable materials (magazines, cards, videos, films, clothing, smartphones, etc.) in any form available to Minors participating in Programs or activities covered by this policy or assist them in any way in gaining access to such materials. The one exception would be legitimate sexual education Programs in which the Minor’s Parent/Legal Guardian/Foster Parent have given prior written consent.

8. Not engage in abusive conduct of any kind toward, or in the presence of, a Minor. For example, no Authorized Adult shall strike, hit, administer corporal punishment or touch in an abusive or illegal manner any Minor. If necessary, touching should only be in the open, in response to the Minor’s immediate physical needs, for a purpose that is consistent with the Program’s mission and purpose, or for a clear educational, development, safety, or health-related purpose (i.e., treatment of an injury).

9. Not possess fireworks, firearms, knives, or other weapons, unless being used for an officially sanctioned and approved instructional Program. (See also the Weapons policy | PC 6.2.7.)

10. Not transport Minors, except as specifically authorized in writing by the Minor’s Parent/Legal Guardian/Foster Parent, or in the case of an emergency.

11. Not engage in the use of alcohol or illegal drugs, or be under the influence of alcohol or illegal drugs, during such Programs or activities. (See also the Alcohol and Other Drugs policy | PC 5.1.)

12. Respect and adhere to any resistance from the Minor unless it is a life-threatening emergency.

13. Not continue to participate in Programs or activities if an allegation of prohibited or illegal conduct has been made against an Authorized Adult covered by this Policy until such allegation has been satisfactorily resolved and future participation in Programs is permitted by the University.

14. Not engage in any activity that violates the policies of the University (www.gvsu.edu/policies). This includes the harassment policies | PC 9.1, PC 9.3, the Sexual Misconduct
Those who do not meet the prescribed standards of behavior may be asked to leave the Campus and/or Program and may be subject to expulsion from the Program, suspension of attendance, being issued a "no-trespass" order by Public Safety, or disciplinary action up to and including termination of employment. (See also Section VII of this policy.)

The behavioral requirements in this policy are not meant to preclude enrolled University students from developing appropriate friendships with Minors who are close in age to the enrolled student; rather, the requirements are meant to protect Minors from abusive or illegal contact and inappropriate relationships.

### III. Third Party Programs Held on University Property

Third Parties using University facilities for events that involve Minors shall operate within all policies and requirements to use University facilities. In addition, adults who interact with Minors in these activities shall conform to the conduct requirements in Section II of this policy.

### IV. Minors Enrolled in Courses

Minors who are matriculated students of the University, guest students from other institutions, or dual-enrolled students are subject to all university policies. Adults who interact with Minors shall be subject to all university policies and shall conform to the conduct requirements in Section II of this policy. The requirements of Section I of this policy do not apply.

#### V. Minors at the University Who Are Not Participating in a Program

1. Minors brought to Campus by an employee, student, or visitor, and who are not participating in a Program by a Sponsoring Unit, are the sole responsibility of the employee, student, or visitor. The person bringing the child to Campus is responsible for all aspects of the Minor’s behavior including the Minor’s safety and is financially responsible for any damages caused by the Minor.
2. Minors are permitted at events and venues open to the public. However, the University reserves the right to determine, in its sole discretion, whether selected events or venues are appropriate for unescorted or unsupervised Minors.
3. In the event a Minor is on Campus and 1) is unsupervised by an adult, 2) they are not a Participant in a University Program, and 3) they are not a Participant in a Third Party Program (Section III), they may be required to leave the Campus.

Activities for which this Section V of the policy is relevant include:

- Events or performances on Campus that are open to the general public (e.g., athletic competitions, plays, concerts);
- Pre-enrollment visits such as admission, recruiting, and orientation events;
- Services provided by the Campus Health Center or other similar On-Campus clinical services during which a Minor is under the supervision of a Parent/Guardian/Foster Parent or a clinical provider;
- Non-residential field trips to Campus supervised by a Minor’s school or organization;
- Private, personal events (e.g., birthday parties, weddings) for which the user has a separate, signed agreement with the University to use space on Campus.

The following activities are exempt from this policy: Off-campus clinical, practicum, internships, student teaching, or similar experiences in which (1) University students (undergraduate or graduate) interact with Minors as part of the experience and (2) are supervised by a third party. This also includes Off-Campus events in which registered student organizations participate with third-party organizations.

### VI. Reporting Requirements

Reporting requirements of suspected child abuse or other illegal conduct towards a Minor shall be in accordance with applicable federal, state, and local laws. In particular, see:

- [State of Michigan Department of Health and Human Services rules on reporting abuse and neglect](https://www.michigan.gov/departments-of-human-services-315014005677005-512723). This page includes indicators of child abuse and/or neglect and the State of Michigan’s definition of “Mandatory Reporters.”

Individuals who witness or suspect child abuse should not conduct an investigation or delay in notifying the appropriate authorities [via 911](https://www.gvsu.edu/gvpd/title-ix-and-campus-security-authority-report-141.htm). Such actions could taint any appropriate criminal or administrative investigation and render evidence inadmissible.

In addition, the University’s Police Department/Public Safety site provides up-to-date definitions of unlawful behavior: [https://www.gvsu.edu/gvpd/title-ix-and-campus-security-authority-report-141.htm](https://www.gvsu.edu/gvpd/title-ix-and-campus-security-authority-report-141.htm)

### VII. Additional Considerations

1. When an Authorized Adult or other person has been alleged to engage in inappropriate conduct with a Minor, that individual must discontinue any further participation in Programs covered by this policy until such allegation has been satisfactorily resolved and he or she has been given written permission by the University to participate again in Programs. Resolution of the allegation will involve appropriate investigatory steps, and any written permission to continue participation (or participate in the future) in a Program covered by this policy must be coordinated with Human Resources.
2. Any person that requires accommodations due to a disability, while visiting campus must inform the Sponsoring Unit of their needs.

### VIII. Interaction with Other Standards, Practices, and Requirements

Nothing in this policy is meant to supersede or replace the standards of practice of other entities in responding to child abuse, suspected incidents of child abuse or threats of child abuse. Satisfying the requirements of this policy does not relieve a person from any obligation to follow the protocols of another entity that may apply to the particular incident.

Individual University units maintain the discretion to impose safety measures beyond those required by this policy on University Programs they sponsor or oversee. Additionally, all state and federal requirements must be followed.

### PROCEDURES

Human Resources may develop forms and guidelines to assist Programs that wish to work with Minors on Campus. In addition, Human Resources will conduct random audits annually to ensure compliance with this policy.

### DEFINITIONS:

**Definitions**

1. “Authorized Adult” is an individual, age 18 and older, paid or unpaid, who supervises, chaperones, or otherwise works with Minors in Program activities, or recreational, and/or residential facilities. This includes but is not limited to faculty, employees, student employees, staff, volunteers, graduate and undergraduate students, interns, teachers, employees provided by temporary agencies, third-party hosts, and independent contractors/consultants. The role of Authorized Adult may include positions such as counselors, chaperones, coaches, instructors, and other similarly situated persons. Temporary guest speakers, presenters and other individuals who have no direct contact or only incidental contact with Program Participants, other than as short-term activities supervised by Program staff, are not considered Authorized Adults but are still expected to conform to the conduct requirements in Section II of this policy.
2. “Campus” includes all domestic real property owned or leased by the University and can include any of its campuses.

3. “Parent” is the natural Parent or adoptive Parent as recognized under the law, of a Minor child whose parental rights and responsibilities have not been terminated under applicable law. “Legal Guardian” is any person appointed under applicable law to have the care and management of the person, the estate, or both of a Minor. “Foster Parent” is a person appointed by the court to temporarily provide the care and management of the minor child.

4. “One-on-One Contact” is personal, unsupervised interaction between any Authorized Adult and a single Program Participant Minor without at least one other Authorized Adult, Parent or Legal Guardian being present. Unless in public spaces, such contact is to be avoided by all adults on Campus, whether considered an Authorized Adult under this policy or not.

5. “Program” or “Programs” are programs and activities offered by various academic or administrative units of the University, whether on University property or not, that potentially will include Minors as Program Participants. This includes but is not limited to workshops, sports camps, academic camps, conferences, and similar activities.

6. “Program Participants” are Minors who are involved in University-sponsored Programs both on and off Campus.

7. “Sponsoring Unit” is the academic or administrative unit of the University that offers a Program or gives approval for housing or other use of facilities.

Approved By:
- Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

In the pursuit of its mission, Grand Valley State University through its Board of Trustees, Senior Leadership Team, faculty, staff and other representatives operates with the highest level of ethical behavior including, but not limited to, acting with integrity, reasonableness and fairness in our dealings, and avoiding bias or undue influence. Consistent with these values, the Board of Trustees has adopted institutional policies for identifying and managing potential, actual and perceived conflict of interest situations:

Grand Valley State University Board of Trustees’ Policies BOT 4.1.6: Conflict of Interest

1. Employment. Appointment of any relative of a faculty or staff member must be approved by the president in advance of the appointment in order to insure that no conflicts of interest exist. Each appointing officer must insure that no conflicts of interest exist in matters of appointment, retention, promotion, termination, assignment or other conditions of employment for relatives or staff members within his or her unit.

2. Financial. It shall be the responsibility of the president (or his/her designee) to insure that conflicts of financial interest do not occur, and to take such steps to protect the university as seem to be required. The university respects the rights of its faculty and staff members in their activities outside their employment, which are private in nature and which in no way conflict with or reflect upon the university.

3. Political Candidates or Office Holder. The university affirms the rights of its faculty and staff members as citizens to be active in political affairs, which do not conflict with the professional standards and ethics of their employment. It shall be the responsibility of the president (or his/her designee) to ensure that conflicts involving professional standards and ethics do not occur with Grand Valley State University faculty and staff members who are political candidates or office holders, and to take such steps to protect the university as may be required.

Grand Valley State University Board of Trustees’ Policies, 6.16: Economic Development

Consistent with its public service mission, the University has a responsibility for supporting the economic development of the state, particularly west Michigan through a variety of initiatives including but not limited to the Van Andel Global Trade Institute, the West Michigan Science and Technology Initiative through the Grand Rapids SmartZone and the Muskegon SmartZone. These efforts will involve the development and commercialization of intellectual property using University resources, which may result in royalty or ownership interests for the benefit of the University. In compliance with MCL 15.321 et. seq., the President must review any conflict of interest and authorize such activities as may be deemed necessary when the University is an interested party in the joint development or commercialization of intellectual property with any employee of the University or a business in which the University employee has an equity interest. The President shall report his/her approval of such conflicts, including a summary of the issues and the rationale for his/her decision, at the next regularly scheduled board meeting, and shall make an annual report of all such conflicts.

PROCEDURES

In addition to the policy obligations described above, the University requires compliance with procedures to avoid or address conflicts of interest as provided by the following offices:

Refer to the Procedures for Conflicts of Interest table.

### LEGAL SERVICES POLICY

**SLT 10.2**

**Date of Last Update:**
March 03, 2015

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Legal, Compliance & Risk Management

**POLICY STATEMENT**

Pursuant to Grand Valley State University Board of Trustees’ Policies BOT 10.2 approved by the Board of Trustees, the President has designated that legal services be coordinated through one administrative office, the Division of Legal, Compliance and Risk Management. All legal services for Grand Valley State University shall be provided through the Division of Legal, Compliance & Risk Management, either by its legal staff, by outside counsel retained by this Division or both. All requests for legal services on behalf of the University must be directed to this Division. The Division of Legal, Compliance and Risk Management provides legal counsel and assistance exclusively to Grand Valley State University representatives regarding University matters.

Personal legal advice or representation with regard to a personal matter should be privately retained and paid for by other than University funds.

### FREEDOM OF INFORMATION ACT POLICY

**SLT 10.3**

**Date of Last Update:**
June 03, 2019

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Legal, Compliance & Risk Management

**POLICY STATEMENT**

Section 1 of the Michigan Freedom of Information Act (‘FOIA’ or “the statute”) provides, “It is the public policy of this state that all persons, except those persons incarcerated in state or local correctional facilities, are entitled to full and complete information regarding the affairs of government and the official acts of those who represent them as public officials and public employees, consistent with this act. The people shall be informed so that they may fully participate in the democratic process.”(1) To that end, all people, excluding prisoners, are allowed to file FOIA requests with a Grand Valley State University (the ‘University’). A requester must simply file a request in writing with the University’s FOIA Coordinator, and the University will begin processing his or her request.(2) Each request must include the requesting person’s complete name, address (in compliance with United States Postal Service addressing standards), and either a telephone number or email address.

The University, in its initial response, will do one of the following within the timeframe permitted by the statute: grant the request, partially grant the request, deny the request, inform the requester that additional time is needed, require a fee deposit prior to further processing, or inform the requester that the requested record has not been sufficiently described.
1. How to submit a FOIA request to the University
   a. A FOIA request must be submitted in writing to the FOIA Coordinator in the Division of Legal, Compliance & Risk Management. The request may be transmitted in hard copy, by email, or by facsimile.
   b. The University’s FOIA Coordinator address 4068 James H. Zumberge Hall, Grand Valley State University, Allendale, MI 49401. The email address is foia@gvsu.edu. The fax number is (616) 331-3950.
   c. A request should describe the record(s) sought sufficiently to enable the University to find the record(s) and should provide the requester’s contact information.
   d. Requests should state that they are submitted pursuant to the Michigan Freedom of Information Act.
   e. Requests received electronically are deemed received the next business day. A business day is defined as Monday through Friday, exclusive of holidays and institutional closure days.
   f. If a request is delivered to the FOIA Coordinator’s junk mail folder, the request will be deemed received one business day after the FOIA Coordinator becomes aware of the request. The FOIA Coordinator will check the junk mail folder at least once per week.
   
2. Responses to FOIA requests to the University
   a. The University will respond to a FOIA request within five (5) business days of the FOIA Coordinator receiving the request.
   b. A response will consist of one or more of the following:
      i. A granting of the request
      ii. A partial granting of the request, and a partial denial because some or a portion of the records do not exist, are not in the possession of the University, and/or are exempt from disclosure
      iii. A complete denial of the request because all of the records do not exist, are not in the possession of the University, and/or are exempt from disclosure
      iv. A notice that more time is needed to process the request
          1. If more time is needed, the University will send out a follow up response within 10 business days of the initial response.
         v. A notice that a fee deposit is required prior to further processing
              1. If a fee deposit is required, the University will include in its response a non-binding, best efforts estimate regarding the time it will take to provide the records to the requester.
                 vi. A notice that the record(s) sought has (have) not been sufficiently described to enable the University to locate the record(s).
   c. The response will state the FOIA exemptions under which any information and/or documents are withheld, if applicable.
   d. If any part of a request for records is denied for any reason, the response will set forth the procedures for appealing the denial.
   
3. Deposit Requirements
   a. A fee deposit will be required when processing a request that will require significant University employee time and resources. The University will notify the requester of the estimated cost and provide a non-binding, best efforts estimate of the time it will take to complete the processing of the request. It is possible that after further processing of the request, the University will determine that the cost of processing the request is significantly less or greater than the estimated cost. If that is the case, the University will notify the requester to allow the requester to determine whether and how he or she wants to proceed with the request.
   b. If a request is denied or partially denied, the University will explain why the documents have not been released and inform the requester of his or her challenge and appeal options.
   c. If a required deposit is not received by the FOIA Coordinator within 45 days of the initial notice, the request will be considered withdrawn. Notice of a deposit requirement is deemed a withdrawal of the FOIA request.
   d. If the University requires a deposit, it will not process the FOIA request further until the deposit is paid.
   e. If a deposit is not received by the FOIA Coordinator within 45 days of the initial notice, the request will be considered withdrawn. Notice of a deposit requirement is considered received three days after it is sent, regardless of the means of transmission.
   f. If, after receipt of the deposit and further processing of the request, the University learns that the processing costs will be significantly different from the estimated costs, the University will notify the requester. Where the actual effort to search for, review and separate exempt material significantly exceeds the original estimate, the University will notify the requester. The requester may choose to receive a revised fee deposit notice, or limit his/her original request to those records, which may be processed within the time stated in the original fee estimate.
   g. A person who makes a FOIA request for which a deposit is required may withdraw that FOIA request without charge instead of paying the required deposit. Failure to pay the deposit will be deemed a withdrawal of the FOIA request.
   h. The University will treat multiple concurrent FOIA requests on the same topic(s) and/or regarding the same record keeper(s) and from the same person as one FOIA request for purposes of determining whether the fee is below $50.00.
   i. Where a requester has not paid the final fee for the processing of an earlier request files a new FOIA request, the University may require a deposit of all (100%) of the estimated fees for processing the subsequent request prior to processing the subsequent request.
   
4. Calculation and Payment of Fees
   a. Fees are calculated by adding together the following costs:
i. The labor costs for searching for, locating, and examining responsive records

ii. The labor costs for review, separation, and deletion of exempt information from non-exempt information

iii. The cost of non-paper physical media, if used

iv. The cost per copy of paper copies, not to exceed $0.05/page for standard 8 ½ x 11 inch paper v. The labor costs directly associated with duplication or publication, which may include copying to non-paper media

vi. The cost of mailing

b. Final fees for responding to a FOIA request will be billed when the University responds to the FOIA request. A detailed FOIA fee itemization form will be provided by the University with the response. The amount invoiced must be paid within ninety (90) days. The University reserves the right to require payment in full of all fees incurred in processing a FOIA request before delivering the final, responsive documents.

c. The University’s decision to deny access to public records sought by a FOIA request because those records are, in whole or in part, exempt from disclosure does not excuse the person who files that FOIA request from payment of fees for the work undertaken by the University in response to that request.

d. The University may waive or reduce the fees it is authorized to charge if it determines that a waiver or reduction of the fee is in the public interest because responding to the FOIA request can be considered as primarily benefiting the general public.

e. Fee reductions or waivers are required in certain instances involving proven indigence or non-profit organizations. The University will apply these reductions or waivers in accordance with the statute.

5. Procedures for Challenge and Appeal

a. If the University denies a request in whole or in part, the requester may:

i. Submit an appeal to the Head of the Public Body, which for the purpose of these Procedures and Guidelines is the Vice President and General Counsel, in writing, via the FOIA Coordinator, using the contact information listed in Item 1, above. The appeal must specifically use the word “appeal” and identify the reason(s) the requester seeks reversal of the denial. The Head of the Public Body must respond to the appeal within ten (10) business days by doing one of the following:

1. Reversing the FOIA Coordinator’s decision
2. Upholding the FOIA Coordinator’s decision
3. Reversing in part and upholding in part the FOIA Coordinator’s decision
4. Issuing a notice of extension for not more than ten (10) additional business days.

ii. Commence a civil action in the Court of Claims within one hundred eighty (180) days after the University’s final determination to deny a request.

b. If a requester believes that the University has required payment of a fee that exceeds the amount permitted under these Procedures and Guidelines, he or she may commence an action in the Court of Claims for a fee reduction within forty five (45) days after receiving the notice of the required fee.

c. If a requester has questions regarding any FOIA response, including estimated fees or actual fees assessed, the requester should not hesitate to contact the FOIA Coordinator by email foia@gvsu.edu or telephone 616-331-2067.

FOOTNOTES

(1) M.C.L.A. 15.231.

(2) Verbal requests for information are not FOIA requests for purposes of these Procedures and Guidelines. If a verbal request for information is received by a University employee who knows that the information is available on the University’s website, the employee, where practicable, will inform the requester about the University’s website address.

(3) The University has determined, consistent with FOIA, that failure to charge fees in situations where the fees would be equal to or greater than $50.00 would result in unreasonably high costs to the University.

(4) A copy of the standard form that the University uses for fee itemization, with additional explanatory information, is attached to these Procedures and Guidelines.

(5) Labor costs will be estimated and charged in increments of 15 minutes or more, with all partial time increments rounded down. The labor is charged at the hourly rate of the lowest paid University employee capable of doing the work, plus fringe benefits, if applicable. If it is not possible for the work to be done by a University employee, the University will contract the work out and charge per the provisions of the statute.

GROUNDS AND FACILITY USE POLICY

SLT 10.4

Date of Last Update:
September 06, 2017

Approved By:
   Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

I. Pursuant to Article VIII of the Michigan Constitution of 1963, Grand Valley State University (“the University”) has the responsibility to serve as a public institution of higher education. To carry out this Constitutional mandate, the University owns and/or controls property and facilities. The University has established the following grounds and facility use policy to ensure the University’s educational mission is actualized, while allowing for the exchange of ideas.

This policy applies to all buildings, grounds, and other spaces owned or controlled by the University.

For purposes of this policy, the term “Expressive Activity” includes:
1. Meetings and other group activities of students and student organizations;
2. Speeches, performances, demonstrations, rallies, vigils, and other events by students, student organizations, and outside groups invited by student organizations;
3. Distributions of literature, such as leafleting and pamphleting; and
4. Any other expression protected by the First Amendment to the U.S. Constitution.

University property is primarily dedicated to academic, student life and administrative functions. But it also represents the "marketplace of ideas," and especially for students, many areas of campus represent a public forum for speech and other Expressive Activities. For students and registered student organizations, certain areas of campus are venues for free expression, including speeches, demonstrations, and the distribution of literature, as provided by this policy.

The University shall not consider the content or viewpoint of the Expressive Activity or the possible reaction to that Expressive Activity in applying this policy. The University shall not impose restrictions on students, student organizations, or university employees due to the content or viewpoint of their Expressive Activity or the possible reaction to that Expressive Activity. In the event that other persons react negatively to a student's, registered student organization's, or university employee's Expressive Activity, the University (including representatives from the Department of Public Safety) shall take all necessary steps to ensure public safety while allowing the Expressive Activity to continue, unless the University's operations are materially and substantially disrupted.

No Expressive Activity shall be permitted to violate or hinder the rights of others within the campus community.

The University does not assume any obligation or responsibility for the content of the materials distributed.

PROCEDURES

II.

A. General Rules.

Subject to the additional rules set forth herein, students and student organizations shall be allowed to conduct Expressive Activities on University property within the following parameters:

1. The Expressive Activity does not block access to campus buildings and does not impede ingress or egress to the University, any University property, parking lot, building, facility, or event (generally a minimum of 25 feet).
2. The Expressive Activity takes place at least 50 feet from academic buildings.
3. The Expressive Activity does not obstruct vehicular or pedestrian traffic.
4. The Expressive Activity does not constitute unlawful activity.
5. The Expressive Activity does not create a clear and present threat to public safety.
6. The Expressive Activity does not take place in a location that has already been reserved by the University, a registered student organization, or an outside organization.
7. The Expressive Activity does not use any amplification devices.
8. The Expressive Activity does not include posting materials on University property, except as provided by the University Posting Guidelines (http://www.gvsu.edu/posting/).
9. The Expressive Activity does not include soliciting or accepting donations, except as provided in this policy.
10. The Expressive Activity takes place between the hours of 8 a.m. and 5 p.m., except as otherwise provided in this policy. Gatherings at the Carillon Tower or the Transformational Link may take place until 11 p.m.
11. Distribution of printed materials must be done in person.
12. Individuals and/or groups engaged in Expressive Activity are responsible for picking up any printed materials dropped on the ground around the areas of distribution. The University may charge such individuals and/or groups a reasonable clean up fee if they fail to do so.
13. Parking lots, ramps, and garages are not designated or suitable for Expressive Activities, and windshield flyers are not permitted.
14. Individuals and/or groups engaging in Expressive Activity agree to pay for any damage they cause to University property.
15. For University employees, the Expressive Activity addresses a matter of public concern.

This policy shall not apply to any person or organizations desiring to sell merchandise or services on campus. Any person or organization desiring to sell merchandise or services on campus should contact the Event Services Office at 616-331-2350.

B. Outdoor Locations.

For outdoor University areas, students, registered student organizations, and employees may freely engage in spontaneous Expressive Activities provided that such activities are in compliance with all other provisions of this policy.

Students and registered student organizations may reserve outdoor University facilities to solicit and accept donations for charitable causes or to engage in other Expressive Activities.

C. Indoor Locations.

For indoor University facilities and areas, students, registered student organizations, and University employees may freely engage in spontaneous Expressive Activities subject to the following conditions:

1. Distribution of written or printed materials, such as leafleting or pamphleting, and petitioning for signatures may be conducted at all outdoor locations and the indoor locations specified in this policy.
2. Guests may speak at indoor locations as long as they are invited by a student or a registered student organization.
3. The Expressive Activities are in compliance with all other provisions of this policy.

Students and registered student organizations may use the Kirkhof Center for the following activities:

1. Students and registered student organizations may reserve space in the Kirkhof Center for any proper purpose, including, but not limited to, to promote a cause or event, to promote a student organization, or to solicit and accept donations for charitable causes.
2. Distribution of written or printed materials, such as leafleting or pamphleting, and petitioning for signatures may be conducted inside the Kirkhof Center, as long as the student or registered student organization reserves the space pursuant to this policy.

D. Reserving Campus Facilities:

1. If students, registered student organizations, or University employees wish to reserve indoor or outdoor campus facilities, they shall submit their application for reservation to Event Services at least two business days prior to the reservation date. The University will respond to the reservation application within one business day.
2. If individuals or organizations who are not members of the University community (i.e., not students, student organizations, or University employees) wish to use campus facilities for Expressive Activities on campus, they may use either the area surrounding the Carillon Tower or the plaza surrounding the Transformational Link. Use of this space is free of charge and may be reserved by contacting Event Services at 616-331-2350. A reservation for use of the space will take precedence over a spontaneous Expressive Activity. Expressive Activities must stay within 50 feet of each of these landmarks and are to follow the General Rules provided herein.
3. Students, registered student organizations, University employees, and non University members may reserve facilities for Expressive Activities to take place after 5 p.m., subject to the facility’s hours and availability.

4. Reservation requests will be processed and granted on a first-come, first-served basis. These requests may be denied for the following reasons only:
   a. The requested venue is an indoor facility and the request conflicts with any other provision of this policy;
   b. The venue is already reserved for another event;
   c. The activity will attract a crowd larger than the venue can safely contain;
   d. The activity is a clear and present threat to public safety, according to the university’s police or security department;
   e. The activity will occur during college examination periods; or
   f. The activity is unlawful.

5. During an event, the student, student organization, or University employee requesting the reservation is responsible for preserving and maintaining the facility it reserved. If it causes any damage to those facilities, the person(s) or organization (and its officers, if applicable) shall assume responsibility.

FOOTNOTES

(1) In the event that multiple individuals or organizations submit conflicting reservation requests, the following order of precedence shall govern: (1) official University activities and events; (2) registered student organization activities and events; (3) student activities and events; and (4) all other activities and events.

COMMERCIAL ACTIVITY POLICY

SLT 10.4.1

Date of Last Update:
August 31, 2017

Approved By:

Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

Pursuant to Article VIII of the Michigan Constitution of 1963, Grand Valley State University (“the University”) has the responsibility to serve as a public institution of higher education. To carry out this constitutional mandate, the University owns and/or controls property and facilities. The University has established the following policy to ensure the University’s educational mission is actualized, while allowing certain Commercial Activities on University property.

The University reserves the right to deny proposed Commercial Activities that compete with the University or its operations. This policy does not apply to the use of student housing facilities by residents, which is subject to the terms and conditions of the housing agreement. The use of University property for government functions is not subject to this policy.

Definitions

For the purposes of this policy, the term “Commercial Activities” includes:

1. The lawful selling, promotion, or offering of products, goods, or services;
2. The dissemination or collection of information for the purpose of facilitating the sale of goods or services;
3. Any activity that attempts to raise funds, whether through the sale of goods and services or via donations for any entity that is not a charitable organization (e.g., a 501(c)(3) nonprofit entity);
4. The distribution or offering of free gifts, incentives, or promotions.

PROCEDURES

1. University Departments

University departments and its service providers whose function includes the sale of food or merchandise or the use of outside vendors and/or advertisers are exempt from this policy. This includes, but is not limited to, all campus dining facilities, the Laker Store, University Athletics, and University Development.

2. Registered Student Organizations

Registered Student Organizations (RSOs) may engage in Commercial Activities on University grounds subject to the provisions in the Grounds and Facility Use Policy and the conditions below.

1. When an RSO is using University property for Commercial Activities, 100% of the proceeds must either return to the RSO or be donated to a specified charitable organization.
2. RSOs may not sponsor or partner with outside solicitors as part of a Commercial Activity.
3. RSOs must have at least one of their organization’s members present at all times during the Commercial Activity period, and all sales must be made on a person-to-person basis.
4. Any literature distribution must include the name of the RSO responsible for the publication.

3. Students, Employees, and Non-University Solicitors

Students, employees, and those not affiliated with the University may engage in Commercial Activities only when renting indoor University facilities for an event, subject to the terms and conditions of their rental agreement, or when reserving outdoor space limited to the Cook Carillon Tower plaza. Outdoor reservations must be submitted to the Event Services Office at least five business days prior to the intended solicitation period. Due to high demand for space use, reservations must be canceled at least 72 hours prior to the scheduled event to receive a full refund or have previous payment applied to a new date. Reservations are subject to the provisions in the Grounds and Facility Use Policy.

1. When using a designated outdoor space for Commercial Activities, students, employees, and non-University solicitors are required to pay $250 per calendar day to the
POLITICAL ACTIVITY POLICY

SLT 10.5

Date of Last Update:
September 10, 2012

Approved By:
Senior Leadership Team

Responsible Office:
Legal, Compliance & Risk Management

POLICY STATEMENT

Political activity of faculty and staff members at Grand Valley State University as addressed in the Grand Valley State University Board of Trustees’ Policies BOT 4.1.6.3, in pertinent part, states: “The University affirms the rights of its faculty and staff members as citizens to be active in political affairs which do not conflict with the professional standards and ethics in employment.”

Further, the Board of Trustees address the subject of Academic Freedom of faculty in the Grand Valley State University Board of Trustees’ Policies BOT 4.2.2 specifically sections 2 & 3:

2. Faculty members are entitled to freedom in the classroom in discussing their subject, but they should be careful not to introduce into their teaching controversial matter, which has no relation to their subject. (The words faculty member as used in this document are understood to include the investigator who is attached to an academic institution without teaching duties.)

3. University or university faculty members are citizens, members of a learned profession, and officers of an educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As persons of learning and as educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times act in a professional and responsible manner, and should make every effort to indicate that they are not institutional spokespersons.

In addition to University policy, state law, specifically the Michigan Campaign Finance Act, regulates political activities of public bodies, such as state universities, and its employees.

PROCEDURES

In light of University Board of Trustees’ policies and state law, the following guidelines are intended to help faculty and staff with compliance:

1. Faculty and staff members may engage themselves, as private citizens, in political activities including support or opposition to candidates for office or ballot questions on their own time. If you are working for the University and charging your time to a federal grant, any activity to support a political candidate or ballot question must be conducted on personal time. For questions about federal grants, contact the Office of Sponsored Programs for more information.

2. University departments or programs may sponsor presentations and discussion groups about an upcoming election provided that the purpose is to provide factual information on a political subject or issue if the communication does not support or oppose a ballot question or candidate by name or clear inference.

3. Classroom discussions of candidates and ballot questions must be related to course content as described in the catalog and course syllabus. A reminder to students to register to vote and to vote is permissible.

4. Faculty and staff members may express their support or opposition to candidates or ballot questions by wearing buttons.

5. Faculty and staff members, as private citizens, may elect to lend their names to support one or more candidates for office or in support of or opposition to a ballot question. However, care must be exercised to assure that the faculty or staff member does not use their University title in relation to such advocacy.

6. Faculty and staff members shall not use University resources for political activity to support or oppose candidates for office or ballot questions. “University resources” includes, but is not limited to:

   a. University funds or money administered through a University budget;
   b. University facilities including office space or meeting rooms (except speech in open forum areas) or use of University office address;
   c. University equipment including office or cellular telephones, computer hardware or software, printers, copiers and facsimile machines;
   d. University-provided email addresses or use of the University email system;
   e. University supplies including stationary, paper, postage, pens, pencils, and other office supplies;
   f. University identifying marks including trademarks, logos, University letterhead, and University titles; and
   g. University time including when the faculty or staff member is working or the use of clerical or student worker time.
POLICY STATEMENT

1. **Applicability** This policy applies to all members of the GVSU community including faculty, staff and students.

2. **Access to Social Security Numbers.** GVSU restricts access to information or documents containing social security numbers to members of the GVSU community who have a legitimate university business reason to access such information or documents. The heads of departments having access to records containing social security numbers shall determine which other personnel within their departments have a legitimate reason in the University’s ordinary course of business to have access to such social security numbers. Personnel using such records containing Social Security Numbers must take appropriate steps to secure such records when not in immediate use.

3. **Confidentiality of Social Security Numbers.** Members of the GVSU community shall maintain the confidentiality of university information or documents containing social security numbers consistent with the law and this policy. No person shall knowingly obtain, store, transfer, use, disclose, or dispose of social security numbers except in accordance with the law and this policy.

4. **Obtaining Social Security Numbers.** Social security numbers should be collected only where required or permitted by federal and state law or for legitimate university business reasons consistent with law and policy.

5. **Public Display.** No more than four sequential digits of a social security number shall be on public display. Public display means to post, make visible, or set out for open view to members of the public or in a public manner. This includes open view on a computer screen or device.

6. **Account Numbers.** As of the effective date of this policy, GVSU has undertaken a systematic process to eliminate social security numbers as identification numbers for all current members of the GVSU community. Once assigned an alternative identification number, neither the University nor the individual may return to the use of a social security number as an identification number for that person.

7. **Mailed Documents.** Documents containing more than four sequential digits of a social security number shall only be sent by mail in cases where state or federal law, rule, regulation, or court order or rule authorizes, permits or requires that a Social Security number appear in the document, the document is sent as part of an application or enrollment process initiated by the individual, at the request of or with the permission of the individual, their parent or guardian, or with regard to an employee or health insurance benefit. Documents containing more than four sequential digits of a social security number, that are properly sent through the mail, shall not reveal the number through the envelope window or otherwise be visible from the outside of the envelope or package. Mail includes delivery by regular US mail, campus mail, or any other delivery service that does not require the signature of the recipient indicating actual receipt.

8. **Freedom of Information Act Requests.** Where more than four sequential digits of a social security number are contained within a document subject to release under the Freedom of Information Act, the social security number shall be redacted or otherwise rendered unreadable before the document or copy of the document is disclosed. Any request for disclosure of documents under the Freedom of Information Act shall be first referred to the Division of Legal, Compliance and Risk Management.

9. **Storage of Documents.** All documents containing social security numbers shall be stored in a physically secure manner. Social security numbers shall not be stored on computers or other electronic devices that are not secured against unauthorized access.

10. **Disposal of Documents.** Documents containing social security numbers will be retained in accordance with the requirements of state and federal law and consistent with the legitimate business needs of GVSU. At such time as documents containing social security numbers may be disposed of, such disposal shall be accomplished in a manner that protects the confidentiality of the Social Security numbers, such as by shredding.

11. **Unauthorized Use or Disclosure of Social Security Numbers.** GVSU shall take reasonable measures to enforce this Privacy Policy and to correct and prevent the reoccurrence of any known violations. Anyone who knowingly obtains, uses or discloses social security numbers for unlawful purposes or contrary to the requirements of this policy, state or federal law, shall be subject to discipline up to and including discharge for employees or expulsion for students consistent with existing disciplinary policies. Additionally, certain violations of the Act carry criminal and/or civil sanctions. GVSU will cooperate with the appropriate law enforcement or administrative agencies in the apprehension and prosecution of any person who knowingly obtains, uses or discloses Social Security numbers for unlawful purposes.

12. **Lawful and Required Use.** Nothing in this policy is designed to prohibit the collection, retention or transmission of documents or records containing Social Security numbers as required or permitted by state or federal law, rule or regulation, at the request of or with permission of the individual, for administrative use in the ordinary course of business to verify identity, to pursue legal rights of GVSU, or to provide or administer employee benefits such as health or retirement benefits.

VOLUNTEERS POLICY

SLT 10.7

**Date of Last Update:**

April 25, 2013

**Approved By:**

- Senior Leadership Team

**Responsible Office:**

Legal, Compliance & Risk Management

POLICY STATEMENT

This policy is intended to reduce the risk related to the use of volunteers and their activities. The University accepts volunteer support to accomplish its educational mission and desires to ensure that volunteer relationships with the University are clearly established and understood by all parties. Payment for volunteer services is not allowed. However, University departments may reimburse volunteers for actual and reasonable expenses, following the appropriate university policies. The University requires the same attention to duties and responsibilities for volunteers as it does for employees of the University. This policy also does not cover or govern volunteers who agree to serve as human subjects in University research protocols, as they are covered by other policies under the administration of the Human Research Review Committee.
Volunteer arrangements may not be used to circumvent the established processes that govern the employment of people. Volunteers do not have an employment relationship with the University on any grounds or for any reason and are not covered by the Fair Labor Standards Act, Michigan wage laws, or the Youth Employment Standards Act, and are not eligible for any University benefit, including Worker’s Compensation, or any other benefits of employment from the University, including but not limited to, health care, vacation, or sick time. Volunteers are not provided with accident or medical insurance, and are therefore responsible for any accident or medical expenses that may be incurred as a result of the volunteer assignment.

Payment for volunteer services is not permitted under any circumstance. However, the appropriate department has the authority to decide whether to reimburse a University volunteer for actual and reasonable expenses so long as the expenses fall under the University’s reimbursement guidelines located on the Business and Finance website. Reimbursement cannot be used as a substitute for compensation nor can it be linked to the volunteer’s productivity.

Volunteers may not receive any institutional marketing materials reflecting their name and the University logos such as: business cards, letterhead, unless approved by the appropriate Vice President or Senior Leadership Team member.

Protection of Volunteer

According to the Board Policy BOT 10.3, Indemnification:

“It is the policy of Grand Valley State University to support its Board members, officers, faculty, and staff in the reasonable and proper performance of their official duties, and to support students and volunteers when performing services on behalf of or under the direction of the university.”

Volunteers are indemnified in the same manner as employees. It is important that the department or unit managing the volunteer maintain records as specified in this policy in order to ensure their volunteers are properly covered.

Eligibility

To be eligible to become a volunteer, one must:

1. Be willing to provide services according to this policy, complete and sign a Grand Valley State University Volunteer Profile, Disclosure, and Consent Form as well as other associated forms if deemed appropriate,
2. Have parental consent if under the age of 18,
3. Complete the Authorization for Release of Information for Background Check if the volunteer assignment involves working directly with minor children, money or access to confidential information regarding employees, students, health, financial data, etc., and
4. Be authorized through the Department of Public Safety if the volunteer assignment requires operating a vehicle owned or leased by the University.

Responsibilities of the University Department Engaging Volunteers

Departments must keep records of volunteer names, dates of service(s), and services performed for a period of one year following the end of the volunteer assignment.

It is the responsibility of the individual unit to ensure that volunteers are aware of the unit’s rules and regulations. Volunteers must have the necessary training and/or supervision to safely carry out volunteer work. If the volunteer assignment involves providing professional services such as those performed by accountants, architects, doctors, engineers, etc., the department must assure that the volunteer has the appropriate credentials including licensure and/or certification.

One exception is that any legal services or assistance, whether by a volunteer or otherwise, must have prior written approval of the Vice President and General Counsel. According to Board policy, as stated in the Board of Trustees’ Policies, all legal services must be provided through the Division of Legal, Compliance and Risk Management.

If the volunteer assignment requires operating a vehicle, the volunteer must have a valid driver’s license, and have a good driving record as determined by the Department of Public Safety.

Responsibilities and Rights of the University Volunteer

Volunteers are responsible for complying with all University policies and all relevant laws including but not limited to: personal conduct, sexual assault, unlawful discrimination and harassment, compliance, workplace violence, substance abuse; misuse of confidential information; use of University technologies; financial responsibility; and vehicle use. Volunteers are not considered agents of the University unless the authority has been expressly delegated to them by an authorized University official. Volunteers are also expected to comply with any rules and regulations specific to the department for which they are volunteering.

Risk Management

Volunteers cannot replace employee positions. Volunteer services are generally limited to humanitarian, charitable, or public services. University volunteers are also prohibited from performing the following activities:

1. Working in any capacity in which he/she is employed by the University, or which is essentially similar to the individual’s regular work at the University, or under circumstances that suggest the decision to volunteer is not made freely,
2. Operating heavy equipment e.g. forklift, hi-lo, backhoe, etc.,
3. Working with highly hazardous or toxic chemicals or agents and/or dangerous equipment or environments i.e.: anything that could cause severe injury or death,
4. Any activity considered inappropriate for an employee,
5. Entering into any contract on behalf of the University,
6. Rendering professional services without possessing the required credentials,
7. Any actions beyond the scope of the volunteer assignment,
8. Provide legal advice or assistance without prior written approval from the University Counsel.

In some cases where the volunteer assignment involves higher levels of risk exposure to the individual and others, the University department is responsible for disclosing those risks to the volunteer in writing. This will assure that information about the risks associated with the volunteer assignment are clearly communicated to the individuals who are engaged as university volunteers. Examples of services that require risk disclosure include but are not limited to:

1. Laboratory activities,
2. Services with potential exposure to bloodborne pathogens,
3. Professional services that require licensure and/or certification such as those performed by accountants, architects, doctors, engineers, etc. and trade services such as construction, plumbing, electrical, etc,
4. Travel of any kind,
5. Activities in any environment which requires orientation or training, and
6. Activities with patients and/or subjects of experiments.

Use of Volunteer Procedures
The procedures and forms to implement this policy can be found on the [Risk Management Website](#).

**DEFINITIONS:**

A volunteer is defined as an uncompensated individual who performs services directly related to the operations of the University for its benefit, to the mission of the University, or for the volunteer to gain experience in specific endeavors. To qualify as a volunteer, an individual must be willing to provide services according to the directions of the appropriate University representative. An individual who provides services for an entity that is not directly related to the business of the University (e.g., a government or public agency), is not considered to be a University Volunteer for the purposes of this policy.

**EMAIL POLICY**

**SLT 11.2**

**Date of Last Update:**
October 09, 2015

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Information Technology

**POLICY STATEMENT**

Grand Valley State University provides its faculty, staff and students with electronic mail intended for University-related purposes including direct and indirect support of the University’s instructions, research, and service missions; of University administrative functions; of student and campus life activities, and of the free exchange of ideas among members of the University community and between the University community and the wider local, national, and world communities.

The rights of academic freedom and freedom of expression apply to the use of University electronic mail. Electronic mail sent or received using University facilities is, however, University business and cannot be guaranteed total privacy. The University does not routinely inspect, monitor, or disclose electronic mail without the holder's consent. Nonetheless, subject to the requirements for authorization, notification, and other conditions specified in this Policy, the University may deny access to its electronic mail services and may in exceptional circumstances inspect, monitor, or disclose electronic mail.

**PROCEDURES**

**Applicability**

This Policy applies to:

- All electronic mail systems and services provided or owned by the University
- All users, holders, and uses of University e-mail services
- All University e-mail records in the possession of University faculty, staff or students or other e-mail users of electronic mail services provided by the University

This Policy applies only to electronic mail in its electronic form. The Policy does not apply to printed copies of electronic mail.

This Policy applies equally to transactional information (such as e-mail headers, summaries, and addresses) associated with e-mail records as it does to the contents of those records.

All users of University electronic mail are subject to:

- Comply with all federal, Michigan, and other applicable laws and regulations; all generally applicable University rules and policies; and all applicable contracts and licenses.
- Users who engage in electronic communications with persons in other states or countries or on other systems or networks should be aware that they may also be subject to the laws of those other states and countries and the rules and policies of those other systems and networks. Users are responsible for ascertaining, understanding, and complying with the laws, rules, policies, contracts, and licenses applicable to their particular uses.
- Act within the normal standards of professional and personal courtesy and conduct. Access to University electronic mail services, when provided, is a privilege that may be wholly or partially restricted by the University without prior notice and without the consent of the e-mail users when required by and consistent with violations of University polices, regulations and law.
- Use only those computing resources that they are authorized to use and use them only in the manner and to the extent authorized. Ability to access computing resources does not, by itself, imply authorization to do so. Users are responsible for ascertaining what authorizations are necessary and for obtaining them before proceeding. Accounts and passwords may not, under any circumstances, be shared with, or used by, persons other than those to whom they have been assigned by the University.
- Respect the finite capacity of the resources and limit use so as not to consume an unreasonable amount of those resources or to interfere unreasonably with the activity of other users. Although there is no set bandwidth limit or CPU time, uses of University electronic mail may be required to limit resources in accordance with this principle.
- Inspect, monitoring or disclosure of University e-mail records will be at the e-mail holders consent wherever possible. However, if consent cannot be obtained either voluntarily or involuntarily, the request shall be brought before University Counsel.

**Specific Provisions**

**A. Users**

Users of University electronic mail services are to be limited primarily to University students, faculty, staff, retirees, and others authorized by the University. Upon normal termination of employment, employees may retain access to the e-mail account for 30 days. Employees terminated by the University will have the e-mail account terminated immediately. Retired employees may request access to the e-mail account as part of the benefit package. Students retain access to an e-mail account as long as they are registered for courses or completed graduation. GVSU retains the right to remove email services at any time.

**B. Account Usage**

GVSU has the right to restrict the amount of storage space available on the network. If an individual wishes to backup and store e-mail for extended purposes, it is the individual's responsibility to do so.
Users are granted access to services only for so long as they abide by the Computing Conditions of Use policy. No person shall gain use of the University’s computer system without proper authorization. Any attempt by a user to gain access to another person’s network account, private network drive, or restricted areas on the GVSU computer system is prohibited.

University e-mail services shall not be used to send unsolicited commercial emails and such use may result in your account being disabled.

University e-mail services shall not be used for purposes that could reasonably be expected to cause, directly or indirectly, excessive strain on any computing resources (bandwidth issues), or unwarranted or unsolicited interference with others use of e-mail or e-mail systems. Such uses include, but are not limited to, the use of e-mail services to: (1) send or forward e-mail chain letters; (2) "spam," that is, to exploit listservs or similar broadcast systems for purposes beyond their intended scope to amplify the widespread distribution of unsolicited e-mail; and (3) "letterbomb," that is, to resend the same e-mail repeatedly to one or more recipients to interfere with the recipient’s use of e-mail.

**C. Representation**

Electronic mail users shall not give the impression that they are representing, giving opinions, or otherwise making statements on behalf of the University or any unit of the University unless appropriately authorized (explicitly or implicitly) to do so. Where appropriate, an explicit disclaimer shall be included unless it is clear from the context that the author is not representing the University. An appropriate disclaimer is: "These statements are my own, not those of the Grand Valley State University."

**Policy Violations**

Violations of University policies governing the use of University electronic mail services may result in restriction of access to University information technology resources. In addition, disciplinary action, up to and including dismissal, may be applicable under other University policies, guidelines, implementing procedures, or collective bargaining agreements.

Violations will normally be handled through the University disciplinary procedures applicable to the relevant user. The University may temporarily suspend or block access to an account, prior to the initiation or completion of such procedures, when it reasonably appears necessary to do so in order to protect the integrity, security, or functionality of University or other computing resources or to protect the University from liability. The University may also refer suspected violations of applicable law to appropriate law enforcement agencies.

Refer to Appendix A. for detail on additional polices and guidelines.

**Security and Privacy**

The University owns all electronic mail address assigned by the University. The University employs various measures to protect the security of its computing resources and of their users’ accounts. Users should be aware, however, that the University couldn’t guarantee such security. Users should therefore engage in “safe computing” practices by establishing appropriate access restrictions for their accounts, guarding their passwords, and changing them regularly. Security and privacy of e-mail sent or received outside of GVSU is subject to standards of other organizations and may be more or less restrictive and provide more or less privacy protection.

Users should also be aware that their uses of University computing resources are not completely private. While the University does not routinely monitor individual usage of its computing resources, the normal operation and maintenance of the University’s computing resources require the backup and caching of data and communications, the logging of activity, the monitoring of general usage patterns, and other such activities that are necessary for the rendition of service.

The University reserves the right to monitor e-mail records, without notice, when

- a. The user has voluntarily made them accessible to the public
- b. It reasonably appears necessary to do so to protect the integrity, security, or functionality of University or other computing resources or to protect the University from liability
- c. There is reasonable cause to believe that the user has violated, or is violating, this Policy
- d. An account appears to be engaged in unusual or unusually excessive activity, as indicated by the monitoring of general activity and usage patterns
- e. It is otherwise required or permitted by law

Any such individual monitoring, other than that specified in “a” above, required by law, or necessary to respond to perceived emergency and/or time-sensitive situations, must be authorized in advance by University Counsel and an Executive Officer.

The University, in its discretion, may disclose the results of any such general or individual monitoring, including the contents and records of individual communications, to appropriate University personnel or law enforcement agencies and may use those results in appropriate University disciplinary proceedings.

Normal examination of e-mail headers by the e-mail administrator is standard procedure to resolve problems and redirect incorrect addressed e-mail.

**Posting and Authority to Change**

Because University policies are subject to change, this list may change from time to time. The authoritative list at any time will be posted under the listings of University policies posted on the World Wide Web. Authority to change this list rests with the Vice Provost of Academic Services and Information Technology acting, where policies affecting faculty are concerned, with the advice of the Academic Senate, where policies affecting students are concerned, with the advice of the Dean of Students, where policies concerning legal matters, with the advice of University Counsel.

**APPENDIX A - REFERENCES**

The following list identifies additional policies and procedures, which support this Policy. These and other laws both provide privacy protection for e-mail and require the disclosure of e-mail under some circumstances.

- University Policies and Guidelines

COMPUTER VIRUS AND MALWARE POLICY

SLT 11.3

Date of Last Update:
September 06, 2016

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

When a device or account connected to the GVSU campus network is compromised by a virus or malicious software, the network is at great risk of harm due to potential damage of university data or disclosure of sensitive information. To preserve the health of the network and the devices connected to it, the infected device must IMMEDIATELY be disconnected and removed or the account blocked from the campus network until Information Technology personnel verify it is no longer compromised. Despite the disruption this may cause to the individual user, the user is required to produce any infected device to Information Technology immediately upon request in order to prevent information disclosure, data file destruction, or exploitation of the compromised account.

Information Technology personnel shall provide their identification and authorization to the device user that authorizes them to remove the afflicted device prior to its removal. For additional verification, you may call the Helpdesk at 331-2101 and ask for Level 2 staff member to verify the authorization to pick up a computer. To minimize interruption, Information Technology will take reasonable steps to provide a substitute device for use on the campus network while the user awaits repair of the original device. To report that a device might be infected, contact Information Technology immediately at 331-2101.

VOICEMAIL POLICY

SLT 11.4

Date of Last Update:
April 29, 2016

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

Voicemail is offered to all AP and faculty personnel. Voicemail must be approved for PSS personnel and departmental lines by a Dean or Vice Provost and Vice President. Personal lines and other lines that utilize voicemail must follow the following procedures.

PROCEDURES

A department main number is never to be forwarded to a voicemail.

All greetings are to be personalized and changed when users intend to be out of the office for more than one day, especially if they do not plan to check voicemail.

An out of office greeting should provide the caller with an alternative name and telephone number to contact in case of emergency.

COMPUTING CONDITIONS OF USE (INFORMATION TECHNOLOGY)

SLT 11.5

Date of Last Update:
October 09, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

As members of the Grand Valley State University community, you have the responsibility to use the university's Information Technology resources in an effective, ethical, and legal manner. Ethical and legal standards that apply to information technology resources derive directly from standards of common sense and decency that apply to the use of any shared resource. Grand Valley depends first upon the spirit of mutual respect and cooperation that has been fostered at the university to resolve differences and ameliorate problems. The
The following guidelines will be applied to determine appropriate use of Services:

1. Accounts granted are intended solely for the use of the person the account was issued and shall not be shared.
2. To respect the privacy of other users. Users shall not intentionally seek information on, obtain copies of, or modify files, or passwords belonging to other users or the University, or represent others, unless explicitly authorized to do so by those users.
3. To respect the legal protection provided by copyright and licensing of programs, data, photographs, music, written documents and other material as provided by law.
4. To respect the intended usage of accounts and authorization for specified purposes only.
5. To respect the integrity of the system or network. One shall not intentionally develop or use programs, transactions, data, or processes that harass other users or infiltrate the system or damage or alter the software or data components of a system.
6. To adhere to all general university policies and procedures including, but not limited to, policies on proper use of information resources, information technology, and networks; acquisition, use, and disposal of University-owned computer equipment; use of telecommunications equipment; ethical and legal use of software; and ethical and legal use of administrative data.
7. To refrain from unauthorized use of network Services which significantly hampers other GVSU constituents’ network access.
8. Unauthorized use of GVSU networks and/or computers for non-academic purposes is prohibited, including revenue generating advertising and promotion of business not related to GVSU.
9. Network connections in Student Housing are intended strictly for client access to GVSU and Internet resources. Residents are not permitted to offer services to other computers, either external or internal, within the GVSU Housing Network. External requests for services destined to the GVSU Housing Network are not permitted. Information Technology reserves the right to disable network connections within the GVSU Housing Network if complaints are received and it is verified that a computer is offering an internal service.
10. The Computer Science and Engineering departments have dedicated networks that can be used for servers that need to offer services to other computers for educational purposes; in this case the department is responsible for monitoring and approving the services that are offered as well as verifying that the computers have been patched and secured against known Internet attacks.
11. All users of Grand Valley’s e-mail accounts are expected to adhere to the Electronic Mail Policy.
12. All users of Grand Valley’s external network connections (i.e., Merit and NSFNET) shall comply with the evolving “Acceptable Use” policies established by the external networks’ governing bodies.

- Merit Acceptable Use Policy
- The NSFNET Backbone Services Acceptable Use Policy

The intent of this policy is to identify certain types of uses that are not appropriate. Using the guidelines given above, GVSU may at any time make a determination that a particular use is not appropriate.

GVSU will not monitor or judge the content of information transmitted via the Services, but will investigate complaints of possible inappropriate use. In the course of investigating complaints, GVSU staff will attempt to preserve the individual’s privacy. GVSU is subject to the Freedom of Information Act and may be required to supply personal computing information.

**DIGITAL MEDIA POLICY**

SLT 11.6

**Date of Last Update:**
April 19, 2015

**Approved By:**
Senior Leadership Team

**Responsible Office:**
Information Technology

**POLICY STATEMENT**

Technology provides multiple avenues for creating, collecting and distributing information. The ease of access to this information does not preclude the responsibility of understanding the legal issues involved in intellectual property.

**PROCEDURES**

Unauthorized law protects all material unless placed in the public domain, electronic and digital media included. Owners of copyrights hold exclusive right to the reproduction and distribution of their material.

Unauthorized use and distribution of copyrighted material is illegal. Legal action against the individual as well as the university may occur, this includes all audio and video files.

The [GVSU Library Course Reserve Department](#) processes copyright clearance for all materials placed on library course reserve by professors. This includes both paper (traditional) and online digital access.

The Digital Millennium Copyright Act (DMCA) of 1998 provides recourse for copyright owners who believe that their rights have been infringed by unauthorized use of their protected works at an online location. Copyright owners may contact the service provider to request that the infringing material be removed or access blocked. Grand Valley State University’s designated DMCA agent is:

Bill Fisher
Associate Director, Technical Services
CONFIDENTIALITY, DATA & SECURITY POLICY

SLT 11.7

Date of Last Update: December 08, 2014

Approved By:

- Senior Leadership Team

Responsible Office:

Information Technology

POLICY STATEMENT

Grand Valley State University regards security and confidentiality of data and information to be of utmost importance. As such, individuals employed by the University must follow the procedures outlined below.

PROCEDURES

Confidentiality of Data

Each individual granted access to data and information holds a position of trust and must preserve the security and confidentiality of the information he/she uses. Individuals are required to abide by all applicable Federal and State guidelines and University policies regarding confidentiality of data including, but not limited to, the Family Education Rights and Privacy Act (FERPA). FERPA protects student information and may not be released without proper authorization. Requests for information/documents should be referred to the Registrar’s Office or the Legal, Compliance & Risk Management Office.

Individuals with authorized access to Grand Valley State University’s computer resources, information system, records or files are given access to use the University’s data or files solely for the business of the University. Specifically, individuals should:

a. Access data solely in order to perform his/her job responsibilities.

b. Not seek personal benefit or permit others to benefit personally from any data that has come to them through their work assignments.

c. Not release University data other than what is required in completion of job responsibilities.

d. Not exhibit or divulge the content of any record, file or information system to any person except as it is related to the completion of their job responsibilities.

Additionally, individuals are not permitted to operate or request others to operate any University data equipment for personal business, to make unauthorized copies of University software or related documentation, or use such equipment for any reason not specifically required by the individual’s job description.

It is the individual’s responsibility to report immediately to his/her supervisor any violation of this policy or any other action, which violates confidentiality of data.

Security Measures and Procedures

Some individuals employed by the University are supplied with a network account to access the data necessary for the completion of their job responsibilities. Users of the University information systems are required to follow the procedures outlined below:

1. Storage of student or staff confidential data on local storage media (Laptops, Desktops, CDs, Thumb drives, etc) without proper data encryption is strictly prohibited. Please contact Information Technology to discuss secure options if confidential data must be transported outside of the secure network.

2. All transactions, processed by a user ID and password, are the responsibility of the person to whom the user ID was assigned. The user’s ID and password must remain confidential and must not be shared with anyone.

3. Access to any faculty or staff account may be granted by the faculty/staff member and/or the direct supervisor for specific job requirements. You are prohibited from viewing or accessing additional information (in any format). Any access obtained without written authorization is considered unauthorized access.

4. Passwords should be changed periodically or if there is reason to believe they have been compromised or revealed inadvertently.

5. Upon termination or transfer of an individual, Information Technology will immediately remove access to GVSU data. The email account may stay active for a period of up to 30 days.

Access to University data and information is for the sole purpose of carrying out job responsibilities. Breach of confidentiality, including aiding, abetting, or acting in conspiracy with any other person to violate any part of this policy or FERPA policy, may result in sanctions, civil or criminal prosecution and penalties, loss of employment and/or University disciplinary action, and could lead to dismissal, suspension, or revocation of all access privileges.

FACULTY/STAFF ABUSE OF TECHNOLOGY

SLT 11.8

Date of Last Update: April 19, 2015

Approved By:

- Senior Leadership Team

Responsible Office:

Information Technology
POLICY STATEMENT

Information Technology has two primary policies in place that deal with technology resources:

**Conditions of Use:** As members of the Grand Valley State University community, all users have the responsibility to use the university’s information technology resources in an effective, ethical, and legal manner. This document outlines these responsibilities.

**E-Mail Policy:** This Policy clarifies the applicability of law and of other University policies to electronic mail. It also defines new policy and procedures where existing policies do not specifically address issues particular to the use of electronic mail.

The policies and procedures to deal with abuse of technology resources for faculty and staff are outlined below.

- **Level I - Complaint**
  - Complaints may be received from an internal or external GVSU constituent
  - Upon verification of abuse by an Information Technology staff member, the information is communicated to either the Vice Provost and Dean of Academic Services or the Director of Information Technology
  - Upon review from the Vice Provost and Dean of Academic Services and/or the Director of Information Technology, the complaint is further acted upon or discarded.

- **Level II - Contact/Action for First Offenders**
  - The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted.
  - The individual is apprised of their abuse and asked to refrain from continuing the infringement. If email related, the individual will be required to retract the offending message.
  - The individual will be sent a notification from IT via email of the abuse infraction and asked to return the email with their understanding and intent to comply via the policy.
  - The email notification/compliance will be kept on file.

- **Level III - Contact/Action for Second Offenders**
  - The individual account will be suspended immediately (disable ability to send/receive messages).
  - The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted.
  - The individual Dean or manager is contacted concerning the repeated abuse.
  - The individual is apprised of their abuse and asked to refrain from continuing the infringement.
  - The individual account will be re-activated upon contact and compliance of the policy.
  - If email abuse, the individual will be required to retract the offending message.
  - The individual will be sent a notification via email of the abuse infraction and asked to return the email with their understanding and intent to comply via the policy and that they will lose account privileges completely upon the third offense.
  - The individuals Dean or manager will be sent a notification via email of the abuse infraction and asked to return the email with their understanding that the individual will lose account privileges completely upon the third offense.
  - The email notification/compliance will be kept on file from both the individual and the Dean or manager.

- **Level IV - Contact/Action for Third Offenders**
  - The individual account privileges will be suspended immediately, which consist of email and network privileges.
  - The individual who has abused the technology privileges is contacted by phone by a designated IT staff member under the direction of the Vice Provost and Dean of Academic Services and/or the Director of Information Technology
  - If the individual cannot be reached, an attempt to reach them via the secretary, Chair or Dean is pursued until the individual is contacted. The individual Dean or manager is contacted concerning the repeated abuse.
  - The individual Dean or manager must contact the Vice Provost and Dean of Academic Services or the Director of Information Technology to discuss possible reinstatement of privileges.
  - Upon further review with the Provost (for faculty issues) and the HRO office (for staff issues), the determination to re-instate the technology privileges will be determined.
  - The decision will be kept on file.

- **Overriding Issues**
  - If at any time, the technology resources that have been abused are in jeopardy of causing mass problems for GVSU constituents or the network/files have been compromised, the Vice Provost and Dean of Academic Services or the Director of Information Technology may choose to immediately suspend the individual account to ensure the integrity and continuation of services for the rest of the constituents.
  - Upon a decision of this nature, the situation will be brought to the Provost, HRO, appropriate Dean or manager as quickly as possible to remedy the issue at hand.

PROCEDURES

PHONEMAIL POLICY

SLT 11.9

Date of Last Update:
July 31, 2008

Approved By:
POLICY STATEMENT

Department main numbers and widely published phone numbers are “must-answer” lines and are not assigned PhoneMail. Personal lines and other lines that do utilize PhoneMail must follow the procedures below.

PROCEDURES

Department main numbers and widely published phone numbers are “must-answer lines” and will not be assigned PhoneMail. These numbers should always be answered by a person.

A department main number is never to be forwarded to a PhoneMail box as this causes callers to be put into an endless PhoneMail loop.

All greetings are to be personalized and changed when users intend to be out of the office for more than one day, especially if they do not intend to check PhoneMail.

Users are to provide the caller with an alternative person’s name and telephone number to contact if they are going to be gone for any length of time.

PhoneMail users are to respond to messages within one business day unless they are on vacation.

Unit heads should monitor PhoneMail greetings when the initial installation is made and on a regular basis thereafter.

If you have any questions about PhoneMail usage or need to report a problem please call either extension 12148 or 12145 during working hours.

Vice President approval is required for PSS personnel to have PhoneMail installed.

PUBLIC FOLDER POLICY

SLT 11.10

Date of Last Update:
April 19, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT

GVSU provides public folders to allow postings from any Outlook user on events, announcements, information of interest and a method to buy/sell articles.

PROCEDURES

Guidelines for consistent and proper use

- Messages posted to the business related public folders should pertain to GVSU sponsored programs, events, or activities.
- Messages intended for private business or personal profit shall not be posted
- Commercial message and advertisements for non-GVSU entities shall not be posted
- Messages posted to the Barter Board specifically may refer to personal items for sale or items wanted to buy.
- Messages intended for private business are not allowed
- Commercial messages and advertisements for items for sale or services offered are prohibited, including home businesses.
- Complaints relative to purchases of items advertised should be conducted privately.
- Additionally, messages posted to these public folders must respect the rights of other users; for example, they must comply with all University policies regarding sexual, racial, and other forms of harassment, and shall not divulge personal data concerning faculty, staff, or students without explicit authorization to do so.

Message life span:

- Any message posted here should be deleted by the author as soon as its purpose has been resolved
- Messages will be deleted automatically after 7 days.

SECURE OFFICE PROCEDURE

SLT 11.11

Date of Last Update:
April 19, 2015

Approved By:
Senior Leadership Team

Responsible Office:
Information Technology

POLICY STATEMENT
It is the responsibility of all employees of the University to protect sensitive data against loss or theft. Awareness, education and practice of the following procedures can assist in this matter. These procedures are in place to help protect employees, customers, contractors and the university from damages related to the loss or misuse of sensitive information. This document refers to securing sensitive data and physical hardware within an office environment or mobile environment where data may be referenced (at home or on a laptop). It is not meant to address electronic data stored on university servers.

**PROCEDURES**

**Goals**

In order to effectively protect and secure university data, the following goals have been established:

a) Create, distribute and annually review the "Secure Office Procedure" document
b) Train all staff members whose jobs relate to sensitive data on both the "Secure Office Procedure" and Information Security Best Practices
c) Train departmental managers to be aware of the importance of the procedures and the need to enforce them

**Staff Training**

Employee awareness and education is an integral part of securing sensitive data for the university. The following procedures will be enforced to ensure proper training:

a) Upon hire, the Secure Office Procedure and Setting Strong Password documents are emailed to the new employee Secure Office Procedures Page 2 of 4
b) Secure Office Procedure and Setting Strong Password documents are sent annually to all employees via email
c) Internal training, specific to each area, will be provided to employees who have access to sensitive data
d) Information Technology will provide Best Practices information at IT seminars and offer to attend annual departmental meetings to cover the below topics:
   i. Awareness of Social Engineering schemes
   ii. Secure Office Procedures
   iii. Strong Password creation
   iv. Data storage
   v. Data encryption
   vi. Backups
   vii. Anti-virus and Anti-spyware tools
   viii. Non-secure technologies

**GENERAL OFFICE SECURITY PRACTICES**

The following procedures should be followed within office suites, individual offices or workrooms and mobile locations where data may be referenced:

a) Keys or keycards used for access to sensitive data should not be left unattended
b) Passwords should not be shared or written down and left in accessible locations
c) If you have a student that will regularly be using your machine, contact the helpdesk and request a staff account for that student. (Do NOT give out your password)
d) Make certain passwords aren’t common information such as date of birth, names of children, pets, telephone numbers, etc.
e) When you leave your workstation, lock your computer screen
f) Lock up laptops, USB drives, external drives, etc. when unsupervised
g) Contact the IT Helpdesk when a computer is to be passed to a new user. IT will clean the computer, removing previous data and place a clean image on the machine.
h) Printouts containing sensitive data should be removed from networked printers immediately and filed appropriately in secure cabinets
i) Dispose of sensitive data on hard copy by shredding immediately
j) Departmental front desk staff should confirm identity of all visitors (GVSU staff/student workers or non-GVSU employees) who are entering their area(s)
   i. Employees should feel comfortable requesting what unit someone is from and the purpose of their visit
   ii. Employees should feel comfortable confirming meeting prior to allowing staff member/student employee to proceed within their departmental areas
   iii. Confirm with the GVSU employee they are scheduled to meet
   iv. Non-GVSU employees must be escorted to/from meeting area/work area
   v. Request ID if necessary
   vi. Provide front office staff the ability to view your calendar or print a schedule of your meetings in advance so they will expect attendees
k) All staff should be responsible to watch for or listen to any unusual activity and to be cognizant of their surroundings.

**Sensitive Information**

Sensitive data can be distributed via hard copy or electronic means within an office. When given the choice, store data electronically versus printing a hard copy. Consider scanning a document to store it electronically versus hard copy.

a) “Sensitive information” includes but is not limited to the following items, whether stored in electronic or printed format:
   i. All FERPA protected data*
   ii. Credit card number (in part or in whole)
   iii. Credit card expiration date
   iv. Cardholder name
   v. Cardholder address
   vi. Social Security Number
   vii. Business Identification Number
   viii. Employer Identification Number
ix. Paychecks
x. Paystubs
xi. Benefit information
xii. Giving information/history
xiii. Health information
xiv. Content of external grants or contracts

b) Securing hard copy sensitive data:
   i. Lock cabinets containing sensitive data when not in use or when away for extended periods of time
   ii. Storage rooms containing sensitive data should be locked at the end of the day or when unsupervised
   iii. Desks, workstations, common work areas, printers, and fax machines should be cleared of all sensitive data when not in use
   iv. Whiteboards, dry erase boards, writing tablets, etc. should be erased, removed or shredded when not in use
   v. Documents to be shredded should be done so immediately or locked up until shredding can occur
   vi. At the end of the day, all sensitive data should be in a locked drawer or cabinet

c) Securing electronic sensitive data. Please contact Information Technology if there are questions in how you are storing/sharing sensitive data electronically.
   i. Refrain, when possible from storing sensitive data on your personal computer hard drive or any external personal devices. Instead use the network drive space.
   ii. If storing sensitive data is required on your personal computer hard drive or an external device, encryption and password protection should be applied
   iii. Engage the screensaver when workspace is unoccupied
   iv. Computer workstations should be shut down completely at end of work day
   v. Lock laptop or external devices containing sensitive data when not in use
   vi. Make certain data and/or PC work station screens are not visible to the public (e.g.- near windows, entry/exit doors, etc.)
   vii. If email is used to share sensitive data, encryption and/or password protection should be used. The following statement should accompany the body of the email: “This message may contain confidential and/or proprietary information and is intended for the person/entity to whom it was originally addressed. Any use by others is strictly prohibited.”

SOFTWARE SUPPORT POLICY
SLT 11.12
Date of Last Update:
April 19, 2015
Approved By:
Senior Leadership Team
Responsible Office:
Information Technology

POLICY STATEMENT
Information Technology is responsible for providing software support to the campus community. IT resources are finite. Therefore, reasonable limits must be identified regarding the number and variety of software products supported by IT. This policy is intended to define those limits.

PROCEDURES
The software industry is characterized by constant change. Therefore, it is unreasonable to establish a single, static list of supported software. It is equally unreasonable to force the campus community to change software on a frequent basis.

Information Technology will provide support for the most recent operating systems for Windows and Macintosh platforms as well as one version back.

Standard software applications issued with a university computer will be supported in the most recent version and one version back unless compatibility issues arise.

Institutional ownership of a site license does not imply IT support for all products covered by the license. Software provided in labs and classrooms outside of the standard applications listed above are not supported by Information Technology. Software assistance is required through the vendor providing the application.
