INTERIM VACCINATION POLICY

Interim-1

Date of Last Update:
December 10, 2021

Approved By:

• Senior Leadership Team

Responsible Office:
Human Resources

POLICY

This policy applies to all students and employees of Grand Valley State University as a condition of attendance and employment. Employees and students may apply for a medical or religious exemption, or a temporary postponement if their work responsibilities/classes are completely remote and they will not be coming to campus.

All students and employees covered by this policy are required to be fully vaccinated. Employees are considered fully vaccinated two weeks after completing primary vaccination with a COVID-19 vaccine. All students and employees are required to provide truthful and accurate information about their COVID-19 vaccination status, and, if applicable, their testing results. Students and employees not in compliance with this policy will be subject to discipline, including separation from the university.

Employees and students may apply for an exemption or postponement from this mandatory vaccination policy if the vaccine is medically contraindicated for them or medical necessity requires a delay in vaccination. Employees and students may also apply for a religious exemption. Requests for these exemptions or postponements must be initiated by completing the Exemption Form, which can be found on the Lakers Together website, GVSU Health Hub website or Human Resources website.

POLICY STATEMENT

Vaccination is a vital tool to reduce the presence and severity of COVID-19 cases in the workplace, on campus, in classrooms, in communities and across the nation as a whole. Grand Valley State University has adopted this policy on mandatory vaccination to safeguard the
health of our students and employees from the hazard of COVID-19.

Confidentiality and Privacy:

All medical information collected from individuals, including vaccination information, test results, and any other information obtained as a result of testing, will be treated in accordance with applicable laws and policies on confidentiality and privacy.

PROCEDURES

Overview and General Information

All Grand Valley State University students and employees must be fully vaccinated or have received an approved exemption or temporary postponement upon employment or attendance.

To be fully vaccinated one must:

- Obtain the first dose of a two-dose vaccine no later than the first day of work or on campus; and the second dose no later than what is recommended by the Centers for Disease Control & Prevention (CDC), or
- Obtain one dose of a single dose vaccine no later than the first day of work or on campus.

You will be considered fully vaccinated two weeks after receiving the requisite number of doses of a COVID-19 vaccine. You will be considered partially vaccinated if you have received only one dose of a two-dose vaccine.

Vaccines are available now from health care providers, pharmacies, and local health departments.

Vaccination Status and Acceptable Forms of Proof of Vaccination

All vaccinated individuals are required to provide proof of COVID-19 vaccination, regardless of where they received vaccination. Proof of vaccination status can be submitted via the online self-assessment or Med+Proctor.

Acceptable proof of vaccination status:

1. The record of immunization from a health care provider or pharmacy;
2. A copy of the COVID-19 Vaccination Record Card;
3. A copy of medical records documenting the vaccination;
4. A copy of immunization records from a public health, state, or tribal immunization
information system; or

5. A copy of any other official documentation that contains the type of vaccine administered, date(s) of administration, and the name of the healthcare professional(s) or clinic site(s) administering the vaccine(s).

Proof of vaccination generally should include the individual’s name, the type of vaccine administered, the date(s) of administration, and the name of the health care professional(s) or clinic site(s) that administered the vaccine. In some cases, state immunization records may not include one or more of these data fields, such as clinic site; in those circumstances Grand Valley State University will still accept the state immunization record as acceptable proof of vaccination.

If you lost your COVID-19 vaccination record, the Michigan Department of Health and Human Services (MDHHS) has launched the Michigan Immunization Portal. Michiganders ages 18 and older with immunization records posted in the Michigan Care Improvement Registry (MCIR) will be able to locate their own record online and download, save or print this information. Users must create a MILogin account at [Michigan.gov/MiImmsportal](https://Michigan.gov/MiImmsportal) and upload a valid government issued photo ID, such as a driver's license, state ID or passport. There is no cost to access the portal.

All students and employees are required to inform Grand Valley State University of their vaccination status. The following table outlines the requirements for submitting vaccination status documentation.

**See Table Below:**

### Paid Time Off to Receive a COVID-19 Vaccination

**Employees** may take up to four hours of paid time per dose for travel to the vaccination site, receipt of a vaccination, and return to work for a maximum of eight hours of paid time for employees receiving two doses. Employees who take longer than four hours to get one dose of the vaccine must send their supervisor an email documenting the reason for the additional time. Additional time requested will be granted, if reasonable, but will be unpaid; employees can elect to use accrued leave, e.g., sick leave, to cover the additional time. If an employee is vaccinated outside of their approved duty time they will not be compensated.

Employees may utilize Emergency Paid Sick Leave (EPSL) immediately following each dose if they have side effects from the COVID-19 vaccination that prevent them from working. Usage of this leave time is subject to availability.

### Employee Notification of COVID-19 and Removal from the Workplace

Grand Valley State University will require employees to promptly notify their supervisor when
they have tested positive for COVID-19 or have been diagnosed with COVID-19 by a licensed health care provider.

**Medical Removal from the Workplace**

Grand Valley State University has implemented a policy for keeping COVID-19 positive employees away from the workplace in certain circumstances. Grand Valley State University will immediately require an employee to leave the workplace if they have received a positive COVID-19 test or have been diagnosed with COVID-19 by a licensed health care provider (i.e., immediately send them home or to seek medical care, as appropriate).

**Return to Work Criteria**

For any employee removed because they are COVID-19 positive, Grand Valley State University will follow CDC guidance for isolation.

Asymptomatic employees, students or volunteers may return to work once 10 days have passed since the positive test. Symptomatic employees, students or volunteers may return to work after all of the following are true:

- At least 10 days have passed since symptoms first appeared, and
- At least 24 hours have passed with no fever without fever-reducing medication, and
- Other symptoms of COVID-19 are improving (loss of taste and smell may persist for weeks or months and need not delay the end of isolation).

*Note: The above may be updated as CDC isolation guidance is updated.*

If an employee has severe COVID-19 or an immune disease, Grand Valley State University will follow the guidance of a licensed health care provider regarding return to work.

If a student or employee tests positive for COVID-19, they must record the positive result in their online self-assessment, which will detail next steps and prompt contact by a health professional.

If a GVSU employee, student or volunteer has a positive antigen test but doesn’t have any symptoms or known exposure, they may choose to have a confirmatory COVID-19 nucleic acid amplification test (NAAT), this is also known as a PCR test. They will need to isolate until they receive negative results.

If the PCR test is negative, they may return to work, class, or campus after they have a negative PCR test. They need to remain isolated until they receive those results and report them to the GVSU COVID Assessment Team who will release them from isolation. If the PCR test is positive, they will be required to complete the remainder of their isolation as noted previously.
COVID-19 Testing

Students who receive an approved exemption to the vaccine requirement policy are required to test each week at the location of their choice. Free on-campus testing is available. These students will receive an email reminder each week with the testing schedule. Students must upload results each week to their online self-assessment.

If a student doesn’t get tested at an on-campus testing site, the student will need to test at a CLIA certified lab and will need to upload those testing results to the self-assessment. The documentation must be from a lab, pharmacy, health portal, or health care provider and must include: the name of the patient, date of test, results of test, type of test, name of testing facility, address, phone number. We will not accept verbal reports of tests administered elsewhere. We will not accept at-home tests for weekly testing.

If a student does not provide documentation of a COVID-19 test result as required by this policy, they will be subject to discipline per the GVSU Code of Conduct.

If an employee covered by this policy is not fully vaccinated (e.g., if they are granted an exemption from the mandatory vaccination requirement), the employee will be required to comply with this policy for testing.

Employees who report to the workplace at least once every seven days:

(A) must be tested for COVID-19 at least once every seven days; and

(B) If testing somewhere different than a GVSU site, one must upload test results weekly to the self-assessment or Med+Proctor at least once every seven days.

Any employee who does not report to the workplace during a period of seven or more days (e.g., if they were teleworking for two weeks prior to reporting to the workplace):

(A) must be tested for COVID-19 within seven days prior to returning to the workplace; and

(B) must provide documentation of that test result to the GVSU self-assessment or Med+Proctor upon return to the workplace.

If an employee does not provide documentation of a COVID-19 test result as required by this policy, they will be subject to discipline including separation from the university.

Employees who have received a positive COVID-19 test, or have been diagnosed with COVID-19 by a licensed health care provider, are not required to undergo weekly COVID-19 testing for 90 days following the date of their positive test or diagnosis unless they develop symptoms.
Employees who receive an approved exemption to the vaccine requirement policy are required to test each week at the location of their choice. Free on-campus testing is available. These employees will receive an email reminder each week with the testing schedule. Employees must upload results each week to their online self-assessment.

If an employee doesn’t get tested at an on-campus testing site, they will need to test at a CLIA certified lab and will need to upload those testing results to the self-assessment. The documentation must be from a lab, pharmacy, health portal, or healthcare provider and must include: the name of the patient, date of test, results of test, type of test, name of testing facility, address, phone number. We will not accept verbal reports of tests administered elsewhere. We will not accept at-home tests for weekly testing.

Face Coverings

The need to wear a face covering is tied to the Grand Valley State University’s alert level system, which considers several factors including community spread.

Employees and students are responsible for supplying their own face coverings. Face coverings must cover the mouth and nose and fit snugly against the sides of the face. A face covering is defined as having two layers of tightly woven, washable and breathable fabric or a medical procedure mask may be used or an N-95 mask without a valve.

The following are exemptions to Grand Valley State University’s requirements for face coverings:

1. When alone in a room with floor to ceiling walls and a closed door.
2. For a limited time, while eating or drinking in an area shared by others or for identification purposes in compliance with safety and security requirements.
3. When wearing a respirator or face mask.
4. Where Grand Valley State University has determined that the use of face coverings is infeasible or creates a greater hazard (e.g., when it is important to see a person’s mouth for reasons related to their job duties, when the work requires the use of the employee’s uncovered mouth, or when the use of a face covering presents a risk of serious injury or death to the employee).

Failure to comply with the face covering policy is subject to conduct violation for students and policy violation for employees.

New Hires:

All new employees are required to comply with the vaccination requirements outlined in this policy as soon as practicable and as a condition of employment. Potential candidates for
employment will be notified of the requirements of this policy prior to the start of employment.

**New Students/Learners:**

All new students/learners are required to comply with the vaccination requirements outlined in this policy prior to the first day of class. All prospective students/learners will be notified of the requirements of this policy prior to their class start day.
