TELL ME ABOUT THIS PROGRAM

Seoul, South Korea- South Korea is one of the most highly developed and stable democracies in East Asia. The history of civilization on the Korean peninsula dates back almost 4,000 years. South Korea has proved to be a vehicle for introducing a great combination of dazzling cosmopolitanism and hidden corners of tradition. With so many English-speaking Koreans, the language barrier is quickly eroding, and students who study abroad in South Korea will definitely benefit from it. Getting around South Korea is easy, which is fortunate since there are so many wonderful places to see.

Placements are available for undergraduates in almost any major who would like to gain valuable work experience. Students will participate in an eight-week internship, working up to 40 hours a week in a professional setting appropriate for their academic major and career goals. Because the program is designed as a learning experience, the internships are unpaid.
